ST. HILAIRE SPECTATOR.

VOLUME XVII. ST. HILAIRE, MINNESOTA, WEDNESDAY JULY 6, 1898. NUMBER 49

AT THE GATES OF SANTIAGO

SPANIARDS ARE DRIVEN FROM THEIR OUTER WORKS.

First Big Battle of the War for Cuban Freedom—Americans Now in Possession of the Outer Works of Santiago and Within Three-Quarters of a Mile of the City—Gen. Shafter Reports Our Casualties Will Be Above 400, but of These Not Many Are Killed—Sampson's Fleet Takes an Active Part in the Battle.

Washington, July 2.— The war department has received the following from Gen. Shafter, dated at Siboney:

"Had a heavy engagement today which lasted from 8 a. m. till sundown. We have carried the outer works and are in possession of them. There is now three-quarters of a mile between my lines and the city. By morning troops will be entrenched and considerable augmentation of forces will be there. Gen. Lawton's division and Gen. Bates' brigade, which have been engaged all day, is carrying El Caney, which was accomplished at 3 p. m. Will be in line and in front of Santiago during the night. I regret to say that our casualties will be above 400. Of these not many killed."

—o—

Washington, July 2.—In a high diplomatic quarter it was stated that word had been received indirectly, but in such a manner as to receive credit in this quarter, that the American forces had taken Santiago. There is, of course, no means of verifying this statement, but it is given in view of the fact that the diplomatic sources who credit the report usually are in a position to have accurate information. The fact that their information is indirect must be further taken into account.

Story of the Battle.

With the American Army Before Santiago, via Playa del Este, July 2.—Maj. Gen. Shafter yesterday morning began with great vigor the attack on the outer defenses of Santiago. From three directions the American forces advanced toward the doomed city. While Gen. Lawton and Gen. Wheeler were attacking Caney, northeast of Santiago, Gen. Kent was advancing toward Aguadores. Gen. Garcia, with his Cuban troops, at the same time approached Caney from the southeast, and the other divisions of the American army pressed toward Santiago from the east, our forces thus presenting a solid front from the coast to Gen. Linares' northern defenses.

Four members of the Twenty-first regiment (regulars) were killed in the fight between Sevilla and Aguadores, while sixteen other Americans, all members of the Twenty-first, were wounded. Both the American and Spanish fleets joined in the battle. While Sampson's men were reducing the recently emplaced batteries at Aguadores, Admiral Cervera's fleet was hurling shells in the direction of the American and Cuban lines. Two batteries of light artillery, acting under orders from Maj. Gen. Shafter, who went to the front at the head of the troops, began the battle of Santiago by attacking Caney. From this village a direct road leads into Santiago, and the advance of our forces will be irresistible when they gain possession of this road. Gen. Wheeler, with a detachment of his cavalry command, and Gen. Garcia, with his Cuban troops, quickly joined Gen. Lawton's men in the advance upon Caney. The Spaniards for a time

Fought Desperately

to prevent Caney from falling into the hands of our forces. It was a vain effort. Before the fighting had been long under way the American and Cuban forces gained advanced ground. Foot by foot the enemy was driven back into the village. It was evident after the first hour's fighting that Gen. Shafter's accuracy had gauged the strength of the enemy, and that he would be able to drive the Spaniards into Santiago at his pleasure. It was with difficulty that the commanding officers restrained the ardor of our troops until the hour for beginning the attack came. The enthusiasm of the American forces was intense and their spirit quickly spread to the Cuban troops. All have shared the belief of Gen. Shafter that Santiago could be taken by a sharp, persistent attack, and they have been impatient to advance. Gen. Kent, who commands the center of the general line of attack, started the Twenty-first regulars toward Aguadores at the same hour Gen. Lawton's men advanced toward Caney. Upon these troops fell the brunt of the battle to the southeast of Santiago during the early hours of the day. As I write this dispatch this division of Gen. Kent's force has sustained the heaviest loss in the engagement thus far. There was desperate fighting about Aguadores. Acting under orders from Gen. Linares the Spaniards at that point returned the American fire with fury that aroused in our men the fiercest determination. They boldly faced the enemy's fire, holding their ground tenaciously and

Pressing Forward

whenever an opportunity to gain an advanced footing presented itself. In the operations about Aguadores the Americans, encouraged by the work of the fleet, which poured a heavy fire into the lines of the Spaniards. Admiral Sampson ordered the New York, Gloucester and Yankee to attack the batteries recently placed to the east of Morro. These vessels engaged the batteries at short range and left only the scarred hillside to show where the batteries had been located.

As the enemy was pressed back toward Santiago, both at Caney and Aguadores, the progress of our forces was in entire harmony with the plans of Gen. Shafter. Our lines thus became more closely knit, and now the Americans and Cubans present a continuous front from the southeast to the north of the city. Gen. Garcia's band succeeded in advancing nearer to the defenses of Santiago than has any other anti-Spanish force since the operations in this vicinity began. This achievement by the Americans has added much to the desperation of the Spaniards, who have been short of food for some time.

Camara Sails to Sea.

London, July 2. — A dispatch to Lloyds' from Port Said says that the Pelayo, Carlos Quinto, Osada Patriota, Buenos Ayres, Isla de Panay, Rapido, San Francisco, Isla de Luzon and San Ignacio de Loyola have gone to sea.

Destroyed by Fire.

West Superior, Wis., July 2.—A special to the Leader from Camp Douglas Range, Wis., says: The bath house and pumping station on the grounds were destroyed by fire and the troops are now without water

AS SPANIARDS TELL IT.

Their Account of the Bombardment of Manzanillo.

(Copyright, 1898, by Associated Press.)
(From a Spanish Correspondent.)

Havana, July 2—Advices received at the palace say that at about 4 o'clock yesterday afternoon three American warships bombarded Manzanillo. The Spanish gunboats Cuban Espanola and Guardian and the pontoon Maria answered the fire lying at anchor off the port, while the gunboats Delgado Parejo, Estrella and Guantanamo went to meet the American ships and to silence their fire. The combat lasted forty-five minutes. Over forty shells were fired in Manzanillo, doing but slight damage to houses. The Spanish loss was two sailors wounded and eight "bruised." Among the latter was the commander of the gunboat Delgado Parejo and the physicians of the pontoon Maria. The American ship retired towards the Manzanillo keys, towing one warship, which was damaged. The Spanish warships fired four shots in Cayo Francisco, Cardenas, but did no damage.

BRITISH CONSUL GENERAL

Leaves Havana, Jerome to Represent the United States.

Havana, July 2—The British cruiser Talbot will reach this port on the morning of July 5, sailing for Jamaica in the afternoon, taking Sir Alex. Gollan, British consul general, who goes to Europe on a leave of absence. During his absence the consulate on this island will be in charge of Lucien Jerome, British vice consul, assisted by Arturo Arostegui, the British pro-consul. They will also act as representatives of the United States.

HAD ENOUGH OF IT.

Spanish Vessels at Puerto Rico "Singing Small."

Kingston, Jamaica, July 2—The auxiliary cruiser Yosemite, which formerly was El Sud, is blockading San Juan, Puerto Rico. She took the place of the St. Paul, which has gone north. Since she began her patrol in front of the harbor entrance the Yosemite has had no trouble with the Spanish vessels that are inside. They have not put in an appearance since the St. Paul sent the torpedo boat Terror back in a sinking condition.

DELAYED BY GALES.

Possible Explanation of the Non-Arrival of Troops at Manila.

Hongkong, July 2.—The Matsushima has arrived from Manila. On June 27 the situation was unchanged, and no troops had arrived. Consul Wildman chartered a small vessel to carry dispatches to Admiral Dewey, informing him that the Spanish fleet was at Port Said, but three days' gales prevented her departure. The rough weather may explain the non-arrival of the troopship.

FOR THE TEXAS.

Patriotic Disposition of the First of the Cotton Crop.

St. Louis, July 2.—A special to the Post-Dispatch from Sherman, Tex., says the first bale of cotton of this season's growth has been ginned at Pearson. It will be shipped to President McKinley to be made into gun cotton for the battleship Texas.

Germans Are Angry.

London, July 2. — The Berlin correspondent of the Times, after quoting the angry protests of the Cologne Gazette and the Lokal Anzeiger against America's presuming to dictate to Admiral Von Diedrich as how he should act, says: "These papers seem to forget the idea that Germany intended to interfere at Manila was fostered by the official press and universally welcomed in Germany."

May Split His Squadron.

Cairo, July 2.— It is believed that part of Admiral Camara's squadron intends to proceed westward and the rest eastward. The local colliers, it appears, intended trying to go to the Red sea to transship their coal to the Spaniards there, but this they are not permitted to do, because it would be a breach of neutrality.

Revival of War Feeling.

Madrid, July 2.—Two cabinet councils were held yesterday. A revival of the war feeling is evident. The clerical organs publish violent articles against the advocates of peace and the priests are preaching war to the bitter end.

New Flag Tower.

Tyndall, S. D., July 2.—A steel flag tower, 100 feet high, is being erected in front of the court house. It will be in place for the Fourth. The cost, which is $200, is being met by the county.

Library Legacy.

Baraboo, Wis., July 2.—Mrs. Victoria Wheeler, a wealthy old lady, willed all her property, amounting to several thousand dollars, to Baraboo, the money to be used for the erection of a public library. She was the first white child born in Madison.

England Takes a Few Islands.

London, July 2.—According to a dispatch to the Times from Sydney, N. S. W., the British cruiser Mohawk has annexed eighteen islands of the Santa Cruz and Duff groups in the Pacific.

CONFIDENCE IN SHAFTER

WASHINGTON OFFICIALS LET HIM FIGHT HIS OWN FIGHT.

The Attack on Santiago, Several Days Before the Public Expected It, Is a Tribute to His Energy and Judgment—Everything Done to Strengthen His Hands for the Great Conflict—Absence of News From Gen. Shafter Explained by Gen. Corbin in the Significant Statement, "He Is Fighting, Not Writing."

Washington, July 2. — Just two months after the battle of Manila, and on the first day of the month, like that glorious engagement, began the first set battle of the war in this hemisphere. What the result will be was not known when the departments closed. Never before since the declaration of war has there been such a feeling of intense interest and anxiety manifested. The officials here are confident that they have done everything possible to strengthen Shafter's hands for the great conflict he is waging, and that they have an unlimited confidence in his discretion, his bravery and his energy. The attack several days before the public expected the battle is attributed to his energy as well as his judgment, showing that in the present light he found it necessary to cross the foe in detail, following Napoleon's favorite maxim, instead of allowing them to consolidate and outnumber him. As the day wore along without bringing any news the anxiety increased and the question was in every one's mouth: "Why does he not report?" Adjt. Gen. Corbin's response was brief but pointed: "He is fighting, not writing," and this was accepted as a likely and solid explanation. Just before 4 o'clock came a brief dispatch from Playa del Este, the cable station near Santiago. But it was from an engineer officer to Gen. Miles and made no reference to the

Progress of the Battle

—merely referring to certain necessary material and live stock. On the whole this very absence of official news was regarded as rather a favorable indication, the reasoning being that the engagement was but a heavy skirmish, and that our army was feeling the enemy to discover and strike at his weak spot. It was nearly 6 o'clock when the signal office received the welcome news that the enemy was retreating. Gen. Miles was of the opinion that the action was in the nature of a heavy skirmish all along the American front, particularly on the right, and that its main purpose was to develop the strength of the enemy and, if possible, learn the vulnerable point along the Spanish front. This, however, was based only on the lack of definite information, and Gen. Miles felt that any hour might bring word of a general engagement. Brig. Gen. Stone was inclined to believe that after maintaining their stand the Spaniards would retire during the night, leaving the city evacuated. The military authorities here are fully considering the chances of such a retreat of the Spanish army from Santiago, and are endeavoring so to shape events that Gen. Shafter's forces will not only take Santiago, but will capture 12,000 Spaniards before they get away northward to effect a juncture with Gen. Pando.

DEWEY HEARD FROM.

Reinforcements Had Not Arrived When His Dispatch Was Sent.

Washington, July 2.—While not prolific in his utterances Admiral Dewey loses no opportunity to keep the navy department informed of the state of affairs at Manila. A dispatch has just been received, dated June 27, stating that conditions were practically unchanged, but without recording the arrival of his reinforcements. He had some other matters of interest to be communicated, but they were not of a character that could properly be made public at this time. For one thing, Admiral Dewey has been particular to avoid committing his government to any particular line of action respecting the future of the Philippines or to do anything that would embarrass Gen. Merritt in framing a policy to meet the ends of the case when he arrives. He has made no official promises to the insurgent leader, tho' he has lost no opportunity to praise his good policy and his accomplishments.

TRUST IN AMERICA.

Aguinaldo Says the Insurgents Have Every Confidence in Our Fairness.

London, July 2.—The Hongkong correspondent of the Daily Mail says: To a friend of United States Consul Wildman, Gen. Aguinaldo has declared: "The Philippines have the greatest confidence in America's fairness. We trust the American people, confident that with their support we shall be able to obtain and hold our full rights, and shall be respected by all European powers. The Americans are redressing Cuban wrongs and will do the same for us in the Philippines." The relations between Gen. Aguinaldo and Admiral Dewey are perfectly amicable. The German war vessels have gone to Mariveles to coal and may proceed to some other port.

NO PEACE.

Sagasta Says Spanish Government Must Prosecute the War.

Madrid, July 2.—Premier Sagasta, in an interview in regard to the peace rumors, said: "They are absurd. I am astonished that any attention is paid to them. There will not be, and cannot be, any discussion in regard to the matter. I affirm this absolutely. The government cannot treat for peace now. That action depends on developments, and the government will not act until the proper time."

SITUATION SUMMARIZED.

The St. Paul calls at New York for ammunition and supplies.

Americans are now almost at the gates of the city of Santiago.

The Philippine insurgents now occupy the whole Province of Bulacan.

Camara may split his squadron, part going eastward and part going westward.

A dispatch was received to-day from Dewey dated June 27. The reinforcements had not arrived at that time.

Secretary Day has received satisfactory assurances that Germany contemplates no interference at Manila.

American troops carry the outer works of Santiago, driving the enemy into the city. American casualties are reported above 400.

MILWAUKEE'S BIG SHOW.

Crowning Event of Wisconsin's Jubilee Carnival.

Milwaukee, July 2. — The crowning event of Milwaukee's carnival in celebration of Wisconsin's fifty years of statehood took place when the great illuminated historical pageant moved through the principal streets. It was the most beautiful spectacle ever witnessed in the Northwest. The floats numbered twenty, costing $1,000 each, and were divided into four divisions, representing legendary exploration, territorial and statehood periods. Mounted police, Clauder's military band, Chief Marshal Col. Harry S. Fuller and staff and a detachment of the light horse squadron led the parade.

The Awning Came Down.

Sioux City, Iowa, July 2.—The raising of a red and yellow awning over W. K. Shaw's place of business was the signal for a sally against the place by a crowd of street urchins and several men of mature years. "Spaniard," "Traitor," "Pull down the awning," yelled the crowd. When Mr. Shaw realized what had caused the trouble he promptly took the awning down and tore it to bits.

Thrown From a Train.

Ashtabula, Ohio, July 2. —William Rising of Lockport, N. Y., was thrown from a Lake Shore train near Conneaut station and killed, his head being mashed by the wheels. The conductor says that the deed was committed by three tramps who were also on the train.

Decided Not to Go to Work.

Springfield, Ill., July 2.—Three hundred striking miners appeared at the Springside Coal company's mine in Pana and intercepted the non-union men who have been working at the mine and induced them not to go to work.

Overcome by Heat.

Pewaukee, Wis., July 2.—Jacob Schaffer a Pewaukee wheelman, returning from a practice spin, was overcome by the heat and fell off his wheel, fracturing his skull. Little hope is entertained for his recovery.

Closed by Creditors.

Luverne, Minn., July 2.—Local creditors closed the eBll clothing store of B. Singer & Co. on an execution. The stock is small and there are few outside creditors.

Creamery Burned.

Sauk Rapids, Minn., July 2.—A G. Whitney's creamery was struck by lightning and burned to the ground. Loss, $2,500; insured.

Baby's Escape.

Devils Lake, N. D., July 2. — John Lange's house was struck by lightning during a storm, one end of the house being torn out. A baby was on a bed near the destroyed wall, and while the bedstead was splintered the baby was uninjured.

Runaway Accident.

Galesville, Wis., July 2.—Mrs. Geo. Uhl, Sr., was thrown from her carriage and fatally injured. Her skull was fractured. Three others were thrown out and seriously hurt.

W. H. EUSTIS FOR GOVERNOR

MINNEAPOLIS MAN LEADS THE REPUBLICAN TICKET.

The Republican State Convention Names a Full Ticket—Berg, Dunn, Koerner and Reese Are Renominated for Their Respective Offices—Smith for Lieutenant Governor—Judges Brown, Lewis and Lovely for the Supreme Bench—C. K. Davis Is Unanimously Indorsed to Succeed Himself in the United States Senate.

St. Paul, July 2. — The Republican state convention has nominated the following ticket:

Governor—W. H. Eustis.
Lieutenant Governor—L. A. Smith.
Secretary of State—Albert Berg.
Auditor—R. C. Dunn.
Treasurer—A. T. Koerner.
Attorney General—W. B. Douglas.
Justices of the Supreme Court—C. L. Brown, John A. Lovely and C. L. Lewis.
Clerk of the Supreme Court—D. F. Reese.

The preliminary session opened with commendable promptness and when Chairman Eli S. Warner, of the state central committee, called the convention to order at 12:15 the very large proportion of the delegates were in their seats. Rev. George C. Soper delivered the invocation. He prayed eloquently, and it must be admitted, at considerable length, invoking the Divine blessing upon our common country and all its interests and Divine wisdom to guide the deliberations of the convention fraught with so much of vital importance to the people of a great commonwealth.

Chairman Warner started to read the call but was not allowed to proceed very far before he was interrupted by the usual motion to dispense with the reading and called for nominations for temporary chairman. O. D. Kinney of St. Louis was recognized, and in just as few words as the nomination could be framed, placed the name of Hon. W. E. Lee of Long Prairie before the convention. Then Fred B. Snyder of Hennepin rose to second the nomination. He explained that he did so in the interests of peace and harmony, and on behalf of the friends of "that patriotic citizen, loyal friend, magnanimous in victory, enthusiastic Republican, the next governor of Minnesota, William Henry Eustis." Without further delay Mr. Lee was chosen temporary chairman.

For temporary secretaries C. A. Morey of Winona suggested W. F. Street of Bemidji and J. Frank Dean of Steele. A Le Sueur delegate thought the Republicans of his county were entitled to some of the honors, and nominated Ora J. Parker of that county. A. D. Gray of Fillmore was of the opinion that three secretaries was none too many, and moved that all be chosen, and the convention so ordered.

The usual committees were then appointed by the chair, and the convention took a recess until 2 o'clock.

Business was taken up at the afternoon session scarcely less promptly than at the opening of the proceedings. F. L. Dennie of Pine, chairman of the committee on credentials, reported that there were no contests. He was not allowed to proceed further with his report, but it was adopted in spite of the objection of a Carlton county delegate, who objected to the short cut because "there might be some man, by golly, who was not entitled to a seat." Dr. A. C. Wedge of Freeborn reported for the committee on permanent organization as follows: Chairman, William E. Lee of Todd; secretaries, W. F. Street of Beltrami, O. J. Parker of Le Sueur, J. Frank Dean of Steele; reading clerks, Henry Feig of Kandiyohi, Gilbert Gullerson of Blue Earth. The report was adopted after Mr. Street's name had been dropped at his own request.

Chairman Lee said he had no speech to make, but he did request the delegates to assist him in the preservation of order, and to stop smoking. One of the reasons assigned for the latter request was that the building might take fire and "some of the statesmen here may be roasted before their time." W. H. Grimshaw of Hennepin was the first man to claim the attention of the permanent organization. "Under the call," said he, "the first business in order is the selection of one candidate for the United States senate. I wish at this time to introduce a resolution in the interest of Cushman K. Davis." The announcement met with a thunder of applause and Mr. Grimshaw proceeded to read his resolution.

Senator Davis Indorsed.

Whereas, The Republican state central committee, in calling this convention, extended an invitation to the Republicans of the state to here express the choice of the party for United States senator for the term commencing March 4, 1899, in compliance with the invitation thus extended, therefore, be it

Resolved, That we express anew our confidence in the distinguished ability, high character and invaluable public services of the Hon. Cushman K. Davis, the senior senator from this state. During his entire congressional career he has reflected honor upon the state and nation. The matchless skill and judgment which he has shown in dealing with the difficult problems which now confront the nation have challenged the admiration of men of all parties and give him an established position in the front rank of American statesmen.

Believing the highest interests of the state and nation would be subserved by his reelection to the national senate, we, the representatives of the Republican party of the State of Minnesota, in convention assembled, hereby present him to the incoming legislature as the only candidate for the Republican party of this state for United States senator and to the end that the people of the state may be fully informed as to the position of the Republican party on this question, the committee on resolutions is hereby instructed to incorporate this declaration in the platform of the party to be adopted.

The vote on the adoption of the resolution was unanimous and vociferous, and on motion of F. G. Ingersoll of Ramsey, Chairman Lee was directed to telegraph to Senator Davis the action of the convention and its congratulations, that he might know in these trying times, full of arduous labors, he had the support of the people of the state. This was also ordered, and later in the day Chairman Lee received the following response from Senator Davis, which was read amid great applause:

Senator Davis' Response.

Washington, D. C., June 30, 1898.—W. E. Lee, Chairman Republican State Convention, St. Paul, Minn.: Please tender to the convention my warmest thanks for its action respecting myself. I shall endeavor during the coming campaign to promote by every exertion in my power the principles of the Republican party and the election of every candidate nominated by the great convention in St. Paul and by every other convention in the state. Republicanism was never so strong throughout the country as it is to-day. It represents a united people, a dignified and efficient foreign policy, good prices, sound money, law and order, and work for every day in the year for adequate wages.

—C. K. Davis.

The committee on resolutions was not ready to report, and J. F. Jacobson of Lac qui Parle brought the convention squarely to the most interesting feature of its work by a motion to proceed with the nomination of a candidate for governor. This was the order, as well as that nominating speeches should be limited to five minutes. The chairman was not captious in forcing the latter order, but the nominating speeches were unusually short, the Winona candidate coming first in order.

Capt. Van Sant was placed in nomination by W. B. Anderson of Winona.

W. H. Eustis was nominated by John M. Reese of Hennepin.

L. W. Collins was presented by C. F. Hendryx.

The first ballot resulted as follows:

Whole number of votes cast, 1,148; necessary to a choice, 575; Eustis, 528; Van Sant, 401; Collins, 218.

The second ballot showed an increase of 13 for Eustis. Then several changes were announced, and, amid much confusion, the nomination of Eustis was made unanimous.

A committee was dispatched to bring Mr. Eustis before the convention, and a tremendous ovation greeted him when he made his appearance. He thanked the delegates for the great honor conferred upon him and predicted Republican success.

Capt. Van Sant and Judge Collins also addressed the convention, pledging the support of themselves and friends for the Republican ticket.

The nomination of a lieutenant governor was next in order. Lyndon A. Smith of Chippewa county was nominated by acclamation, after he had been placed in nomination by Representative Jacobson of Lac qui Parle county, in a characteristic speech by the clarion-voiced legislator from Madison. The motion to nominate Mr. Smith by acclamation was made by D. W. Meeker of Moorhead, editor of the Moorhead Independent, who assured the delegates of the Second district that the Seventh would join in the election of Mr. Smith. In nominating Mr. Smith Representative Jacobson dwelt at some length on the fact that the Second district had only the one candidate in the field.

The secretary of state was next on the list of nominations. Albert Berg, the present secretary of state, was nominated, but it was after a pretty stiff fight had been waged by the friends of Sam Langum of Fillmore and J. W. Peterson of Goodhue.

The two most popular candidates before the convention were then nominated by acclamation—State Auditor R. C. Dunn of Princeton and State Treasurer A. T. Koerner of Litchfield, Meeker county.

For attorney general, W. B. Douglas, A. T. Merrill and C. C. Haupt were placed in nomination. The first ballot gave Mr. Douglas a majority, and he was declared the nominee.

For clerk of the supreme court, D. F. Reese and Jacob Glaswere nominated and before the ballot had been concluded Mr. Reese's nomination was made unanimous.

There were seven candidates for the nomination of three associate justices of the supreme court. Five of the candidates were nominated by the convention and the Hennepin county delegation interpolated two—Judge Elliott and Justice Canty. The three to be elected will take the places of Justices Buck, Mitchell and Canty, whose terms expire this autumn. It was decided to vote for all the candidates at once, the three receiving a majority of the votes to be declared the nominees of the convention. C. L. Brown of Morris, Stevens county, present judge of the district court in that district, John A. Lovely of Albert Lea and Judge Charles L. Lewis of Duluth were the fortunate candidates, Judge Brown receiving 882 votes, Mr. Lovely 842 and Judge Lewis 864. Justice Mitchell received 397; Attorney General H. W. Childs, 408; Judge Elliott, 8, and Judge Canty 20.

After the usual vote of thanks the convention adjourned sine die.

The Platform.

The Republicans of Minnesota in convention assembled congratulate the country on the evident signs of returning prosperity, largely due to the party's unswerving allegiance to the cause of sound money and the wise revenue legislation of the Republican congress.

The Dingley bill has been a new stimulus to American industry, created new enterprises, increased the demand for labor, and in a multitude of ways vindicated the wisdom of the Republican policy under all conditions of our national life. We affirm our adhesion to the principles set forth in the platform of our last national convention at St. Louis, and exemplified in the administration of William McKinley. The work of undoing the mischief wrought upon American industry by the last Democratic administration, is being prosecuted with a vigor that commands our admiration. The wisdom of our Republican congress cannot be too highly commended for its efforts in providing such remedial legislation as is necessary to reform abuses growing out of Democratic misrule, to supply the wants of an exhausted treasury and repair the damages produced by the gross mismanagement of our national finances, by enacting a tariff which afforded neither protection nor revenue, and was destructive of the interests of the wage earner.

In the broader field of our relations with patriotic action in applying American doctrines and principles to all questions relating thereto, is doing much to rescue the national honor and prestige from the humiliation brought upon through the weakness and incapacity of Democratic policy.

We are in favor of the immediate annexation of the Hawaiian islands, not only as an absolute military necessity, but as the fruition of one of the noblest aspirations of a long line of our greatest statesmen, and because such annexation would be of unquestioned advantage to the American people.

We believe the national honor and the material interests of the American people require the maintenance of the present gold standard. We declare our unalterable opposition to the free coinage of silver, and all schemes looking to the debasement of the currency and the repudiation of debts. We condemn the continual agitation of free silver as tending to debauch the public morals and jeopardize the prosperity of the country, the highest interests of which demand at all times a sound and stable financial system.

We desire to especially commend the wisdom and patriotism of the present administration in the management of the existing war between this country and Spain, a war which appeals to the patriotism of every citizen in that it is being prosecuted in the interest of humanity and for no selfish ends whatever. To the end that its objects may be speedily realized and the war brought to an early termination we pledge all moral and material support in our power.

To our representatives in congress from this state we return our sincere thanks for their thorough devotion to duty and their efficient support of the government in this important crisis.

Believing in the great value of the proposed Nicaragua canal and an international highway and its need for commercial extension and national defense, and that it ought to be controlled and operated by the government, we earnestly commend the project to the consideration of our representatives in congress.

To all members of the present state administration for their fidelity to duty and efficiency in the public service we express our obligations.

We return thanks to Senator Nelson for his indefatigable interest in behalf of the national bankrupt law, a great public need, and congratulate him on the success which has crowned his efforts in this and all other matters of national concern.

In view of the coming senatorial election we take this occasion to express anew our confidence in the distinguished ability, high character and invaluable public services of the Hon. Cushman K. Davis, the senior senator from this state. During his entire congressional career he has reflected honor on the state and nation. The matchless skill and judgment which he has shown in dealing with the difficult problems which now confront the nation have challenged the admiration of men of all parties and given him an established position in the front rank of American statesmen.

Believing the highest interests of the state and nation would be subserved by his reelection to the national senate we, the representatives of the Republican party in the state convention assembled, hereby present him to the incoming legislature as the only candidate of the Republican party of Minnesota for United States senator.

We further recommend practical legislation which shall arrange for better highways throughout the state.

Another One for Yousuff.

Buffalo, N. Y., July 1.—Yousuff the Turk defeated Dennis Gallagher, a local wrestler, in two falls, catch-as-catch-can, in the presence of a fair-sized crowd. Time, 5:45 and 12:30.

OCCUPIED BY INSURGENTS

AGUINALDO'S MEN TAKE THE BULACAN PROVINCE.

Occasional Skirmishes Occur, With Victory Usually on the Side of the Insurgents—Spanish Ship Captured While Landing Five Hundred Troops—Governor of Bulacan Captured by the Insurgents—Spaniards Make an Ineffectual Effort to Drive the Insurgents From Their Advanced Positions.

Hongkong, July 2.—According to private letters from Cavite, dated June 27, the insurgents occupy the whole of Bulacan province. Occasional skirmishes occur. The insurgents captured the Spanish ship [illegible] bay while she was landing five hundred troops. A stubborn fight occurred, in which the Spanish commander, a lieutenant colonel, was killed. The insurgents have captured the governor of Bulacan, together with his wife and children.

Gen. Aguinaldo placed under arrest the rebel leaders Artacho and Sandico for having revealed the fact that the steamer Pasig recently seized by the Hongkong authorities was laden with arms for the insurgents. Sandico applied to Consul Williams and was liberated. He is now on board the Nanshan. It is feared that the incident

Will Cause a Split

in the insurgent party, Sandico being influential and the only insurgent leader capable of administration.

The insurgents fear that Gen. Aguinaldo will shoot Artacho unless Admiral Dewey interferes as he is suspicious that Sandico and he intended to form an opposition party.

Last Thursday night the first notable attempt was made to drive the insurgents from their advanced positions instead of calmly continuing to await Gen. Aguinaldo's onslaught. The attempt for the time looked as though it would be rewarded with success. The Spanish numbered 1,500. They delivered a determined attack on the insurgents at Malate. The latter met them with a well directed fire, but the Spaniards were reinforced and the insurgents began to fall back. Thus encouraged, the Spaniards pressed forward, but at the critical moment the insurgents made a spirited rally and poured such a steady fire into the Spanish ranks that the latter were compelled to retreat and failed to summon up courage to renew the attempt.

GERMANY'S ATTITUDE.

Assurances Have Been Received That No Interference Is Contemplated.

Washington, July 2.—Assurance was given at the session of the cabinet of the expectancy of the administration that Germany would not interfere at Manila. There was some discussion on this point, but both the president and Secretary Day stated they had received assurances that there was no unfriendly action entertained on the part of the German emperor. They stated there were no foundations for the reports of the unfriendly attitude of Germany, and the radical steps contemplated by the government, and they added their personal opinion that there be no apprehensions on this score.

ST. PAUL IN PORT.

Comes for Ammunition and Supplies and Slight Repairs.

New York, July 2.—The St. Paul has arrived in port and anchored off Tompkinsville. She left Mole St. Nicholas early last Tuesday and has come here for coal, ammunition and stores, also to have some slight repairs to her starboard engine. Capt. Sigsbee and the officers were absolutely inaccessible to press representatives. Considerable information was obtained nevertheless from a copy of the St. Paul's war budget, the oracle of the ship, which was obtained. The St. Paul's great exploit on her last trip was the disabling of the Spanish torpedo boat destroyer Terror, off San Juan, the account of which occupies the first place on the first page.

STILL AT PORT SAID.

Camara's Fleet Still There According to the Navy Department.

Washington, July 2.—So far as the navy department knows the Cadiz fleet is still at Port Said, unable to coal, but it is taking no chances on their course and is steadily pressing the arrangements for the dispatch to the Mediterranean of the Eastern squadron under Commodore Watson. An evidence of this purpose was made visible in the packing and forwarding of boxes of charts of all the waters likely to be traversed by Watson's squadron directly to the ships off Santiago.

GERMANY NOT IN IT.

American Protectorate for the New Republic of the Philippines.

London, July 2. — A representative here of Aguinaldo, leader of the Philippine insurgents, in an interview is quoted as saying he has received a dispatch from Cavite saying a republic has been proclaimed by Aguinaldo under the protection of the United States and approved by Great Britain and Japan.

Supposed Bunco Men.

Brownsdale, Minn., July 2. — Two strangers, giving their names as J. H. West and O. P. Marion of St. Paul, skipped from this place with a horse and phaeton. They are supposed to be the men who swindled an Austin man.

Benefited by Rain.

Watertown, S. D., July 2.—One and one-half inches of rain fell here yesterday and during the night, greatly benefiting growing crops, as they were beginning to suffer from the drouth.

JOHN WANAMAKER'S OPINION.

Hon. John Wanamaker, ex-postmaster general, says: "I heartily approve of the idea of giving the people a veto on corrupt legislation. The movement to secure for the people direct and immediate control over legislation shall have my support. I trust such a movement will receive the thoughtful attention of all who would improve our political and industrial conditions. I am willing to trust public questions to the intelligence and conscience of the people."

Opportunity for Saving.

In Massachusetts the savings banks deposits average $200 per head of the whole population. This is largely due to the facilities for depositing small savings. These are absent in other States, and it is estimated by Edward Atkinson that if postal savings banks were established, in twenty years the average deposits in the United States might be $100 per capita, an aggregate sum of $7,500,000,000. Mr. Atkinson does not say so, but this immense sum would have to be invested and would be sufficient to accomplish the nationalization of railroads, telegraphs and other public services.

An exchange truly remarks that the man who gets the fewest letters complains the most of the postoffices; the man who complains the most of the preacher pays the least; the man who complains most of his neighbor is the meanest neighbor; and the man who has the least sense is the most conceited. It may also be added that the man who borrows his neighbor's paper has the most fault to find with the way it is run.

Washington Letter.

From our Regular Correspondent.

The opinion held in some quarters, that the order for Commodore Watson to proceed to the coast to Spain with a picked fleet of our fastest and best cruisers and battleships is a bluff, is not shared by the officials of the Navy Department whose duty it is to see that the ships are properly equipped. They are preparing to carry out the order.

Among the additional paymasters in the volunteer army nominated by Mr. McKinley is John R. Lynch, the negro politician who has controlled the Mississippi delegation to republic an national conventions for many years. He is now Maj. Lynch, if you please. If this nomination was not made solely on account of partisan politics, Mr. McKinley should hurry up and tell why it was made. Lynch will not find his job an enviable one if he is assigned to duty with Southern troops.

It should have brought a blush of shame to the faces of Senators Sewell and Hale, who had objected to including the names of the seven men who accompanied Lt. Hobson when the Merrimac was sunk in the resolution extending the thanks of Congress, to be called down by a foreign-born Senator Nelson, of Minn.,—in the following patriotic language: "The idea that the name of a soldier or sailor who does an act of gallantry and heroism, should not be mentioned is hostile to the spirit of American institutions and I think no men should advocate such a doctrine. There are as many heroes in the ranks as there are wearing shoulder straps, and it is our duty to hand their names down to posterity." The names of the men were inserted in the resolution by vote of the Senate and it was a great day for the rank and file of both branches of the service when it was done.

Kentucky's Freakish Well.

"One of the most remarkable natural wonders I ever saw," said a gentleman from the Purchase today, "is an old unused well on the Tennessee river, down in our country.

"Nobody knows who dug the well or why it was ever dug, as it is not near any farmhouse or village. But the unusual thing about it is its freakishness. For instance, last summer, during the drought, when water was at a premium, I went to the well while fishing in the neighborhood and found it over half full of the coldest limestone aqua pura I ever drank. But every fall and winter the well goes dry, and there is seemingly no stream from which the well can draw its supply of water. An old man who lives near by told me that last summer was the only time he had ever known limestone water to rise in the well.

"'Why,' said the old river man in speaking of the mysterious well, 'I have drawn the very best of iron mineral water out of it at one time and white sulphur at another. The negroes say the well is haunted because steam rises from it in the winter time, when there is not a drop of water in it. The blacks shun it as they would the boss denizens of the infernal regions, swearing the water is poisoned, and that a draft from it means death to him who swallows the potion. And it is as queer and freakish a spot as ever I saw.'"—Louisville Post.

London Bridge.

The Britons themselves were quite unable to construct a bridge of any kind unless in the primitive methods observed at Post bridge and Two bridges, on Dartmoor, by a slab of stone laid across two bowlders. The work, therefore, was certainly undertaken by Roman engineers. We have, in the next place, to inquire what kind of bridge was built at that time by the Romans. They built bridges of wood and of stone. Many of these stone bridges still remain; in other cases the pieces of hewn stone still remain. The bridge over the Thames, however, was of wood. This is proved by the fact that had it been of the solid Roman construction in stone the piers would be still remaining; also by the fact that London had to be contented with a wooden bridge till the year 1176, when the first bridge of stone was commenced.

Considerations as to the comparative insignificance of London in the first century, as to the absence of stone in the neighborhood and as to the plentiful supply of the best wood in the world from the forests north of the city confirm the theory that the bridge was built of wood. We have only, therefore, to learn how Roman engineers built bridges of wood elsewhere in order to know how they built a bridge of wood over the Thames.—Pall Mall Gazette.

"Fonatic."

We should never accustom ourselves to saying that an article was "mad in Jermani" or "mad in Frans." Nor is it necessary that we should. I have always thought the spelling reformers mistook the conditions of the problem. Our spelling may be erratic, but the printed word is a kind of visual counter. We learn to recognize it and to spell it by the eye. How often do we feel that a word looks wrongly spelled? Words have to be taken en bloc, and it would be exactly the same with the "fonetic" monstrosities proposed as their substitutes. In reading we never get at the sense of a word by spelling it, and "cough" and "plough," although theoretically anomalous and incongruous, present no practical difficulty. Still, spelling might in certain cases be simplified with advantage. "Program" and "jewelry" are better than the accepted forms "programme," "jewellery."

At present English is like a luxuriant garden running wild. It needs trimming and weeding.—Academy.

Chased Up a Tree and Lived on Possum.

A negro, being hotly pursued by dogs that were guarding a farmhouse in the owner's absence, fled to a swamp and climbed a tree for safety. In telling about it afterward he said:

"Yes, suh, I wuz in a tight place, I tell you. Up dat tree I went, an dar I staid fer two days on nights, wid dem dogs keepin guard at de foot. When dey'd git tired, dey'd relieve each ynther, but dey wuz always a couple er dem an duty all de time, so dar I wuz an 'fraid ever' minute 'nd bring de farmer wid his gun."

"And you had nothing to eat all that time?"

"Oh, yes, suh; I wuz well fix in dat respec'. I lived high, so ter speak."

"And what did you live on?"

"Well, suh, ter make a long story short, der wuz a possum up dat tree likewise, an, bless Ged, he wuz ez 'fraid er de dogs ez I wuz!"—Atlanta Constitution.

From Her Point of View.

A lady who saw that her servant girl seemed to take a certain interest in the objects of art in her parlor said to her, "Which one of those figures do you like best, Mary?"

"This one, mum," said Mary, pointing to the armless Venus of Milo.

"And why do you like the Venus best?"

"Sure, it's the aisiest to doost, mum," answered the girl.—Harlem Life.

His First Duty.

"What is the first duty of a war correspondent?" asked the managing editor of one of the "new" journals.

"To have his picture taken showing how he looks when equipped for his work in the field."—Chicago Post.

Until recent years our bakers had not improved upon the method used in the bakeries of Pompeii—viz, by burning wood in the floor of the oven itself until the proper temperature had been reached, then cleaning out and introducing the loaves. Nowadays our large bakeries are fitted with ovens heated with flues, gas or steam.

Peculiar Chinese Customs.

The customs of the Chinese in the matter of death and burial are certainly peculiar. Infants are buried summarily without coffins, and the young are interred with few rites, but the funerals of the aged of both sexes are elaborate in proportion to the number of the descendants and to their wealth. When a childless married man dies, his widow may perform all the duties of a son toward him, may remain in his house and may adopt children to rear as his heirs and as worshipers of the family manes. If his widow purposes marrying again, a young male relative may, with the consent of senior members of the clan, undertake the services expected from a son and may inherit the estate of the deceased. When one is about to die, he is removed from his couch to a bench, or to a mat on the floor, because of a belief that he who dies in bed will carry the bedstead as a burden into the other world. He is washed in a new vessel, in warm water, in which a bundle of incense sticks is merged. After the washing the vessel and the water are thrown away together. He is then arrayed in a full suit of new clothing, that he may appear at his best. He breathes his last in the main room before the largest door in the house, that the departing soul may easily find its way out into the air. A sheet of spirit money (brown paper having a patch of gilding on one surface) is laid over the upturned face, because it is said that if the eyes are left uncovered the corpse may count the row of tiles in the roof, and that in such case the family could never build a more spacious domicile.—New York Ledger.

Lincoln's Kindly Character.

Mr. Grow related a story about Lincoln which illustrated two phases of the martyr president's character. Mr. Grow, then speaker of the house, had gone to the president to ask the appointment of a friend as a judge in one of the territories. The president made a note of the request. A few days later, when Mr. Grow called at the White House not about the judgeship, but upon another matter, Mr. Lincoln at once began to apologize. "Mr. Speaker," said he, "I meant to appoint your friend to that judgeship, but a woman came in here with nine small children and one at the breast and pleaded the bread net and breaded me out of it."

"While we were talking, however, Mr. Lincoln said that he would still attend to my matter and started to put down my friend's name. He went to his hat, which was filled with papers, and after remarking that he had a queer way of doing things began fumbling until he found a blank sheet. I told the president that if his hat should blow off a lot of state secrets would be scattered, but he only smiled, wrote down the name and said that he now knew where to find it when the time to consider the matter came around."—Washington Post.

His Request.

"You have scarcely spoken to me at all this evening," she said in tones of reproach.

"I—I beg your pardon," her husband returned apologetically. "I was just trying to think of something to say."

"Is there anything on your mind?"

"Yes, to tell you the truth, there is."

"Can't I help you in some way?"

"You might, if I could suggest it without your becoming angry."

"Tell me about it. It is my duty to sympathize with you, you know."

"On my birthday anniversary you gave me a fountain pen."

"Yes. And now you are going to say that it makes a horrid mess and that you don't want to write with it."

"I'm not going to say anything of the kind," he replied stoutly. "I'm going to write with that pen every day of my life. But there is one little favor that I would like to ask."

"What is it?"

"Please make me a suit of overalls to go with it."—Washington Star.

Graceless.

A tiny girl of 7 or thereabout gave a dinner party the other day for which 12 covers were laid, and that number of small maidens sat down to dine. It was a real little girls' dinner, and the little hostess herself presided, sitting at the head of the table. But she was anxious, in looking forward to it, to do everything as it should be done.

"Mamma," she asked, "shall we say grace?"

"No," said mamma, "it will be a very informal dinner, and I think you need not do that."

That meant one less ceremony to be gone through and was a relief, but the little lady was anxious to have all her small guests understand it. So as they were gathered about the table she explained:

"Mamma says this is such an informal dinner that we need not have grace today."—New York Times.

Scared Tennyson.

Tennyson one day entered a club reading room and sat down in a large armchair before the fire. Much to the amazement of the other occupants of the room, he proceeded to elevate his feet until they rested on the chimneypiece in "real American" fashion. No expostulations on the part of his friends respecting the inelegance of the position were of the slightest avail. Suddenly a brilliant inspiration seized one of them. Going close to Lord Tennyson, he whispered in his ear, "Take your feet down or they'll mistake you for Longfellow." In an instant the poet's boots were on the floor, and he assumed the ordinary position of an Englishman.—San Francisco Argonaut.

Calm In Time of Emergency.

Servant (rushing in)—Ma'am, the house is on fire!

Boston Mistress (who is giving a 5 o'clock tea)—Summon the fire department, Honoria, and do not disturb us again. We are discussing the "crime of the split infinitive."—Chicago Tribune.

The Origin of "Tommy Atkins."

The name of Tommy Atkins, which is a sobriquet of the British private soldier in all parts of the world, had an official origin and was originally used in the instructions to noncommissioned officers for purposes of illustration as John Thomas is often used on election forms.

Sample blank returns were furnished to show sergeants and corporals and recruiting officers how genuine ones should be made out, and Tommy Atkins, private, Company B, was the fictitious name always used. Model individual reports were also included in the regulations, signed "Thomas Atkins, private, Company B," or "Thomas Atkins, corporal, Company C," or "Thomas Atkins, X, his mark."

Hence when a recruit arrived at a garrison the soldiers usually addressed him as Thomas Atkins until they found out his real name. Drunken soldiers reported themselves as Thomas Atkins when they were taken to a police station until the public took it up, and Tommy Atkins became an affectionate synonym for the gallant warriors of her majesty's land forces.—London Globe.

A Queer Russian District.

There is in Russia a district which is wholly administered and during most of the time exclusively inhabited by women. It is the province of Smolensk and comprises a district of about 15 square miles, from which all the able-bodied males emigrate in the spring and proceed to neighboring towns and districts in search of work, remaining away about nine months of the year. In their absence the women cultivate the fields and manage local affairs generally under the presidency of a woman mayor. Before nightfall the women assemble in a sort of clubhouse and play cards till 1 or 2 in the morning. Virtue there is compatible with unlimited cakes and ale, and though the hours are late and so much time is given to amusement the commune is prosperous, disorder is unknown and it is one of the best conducted portions of the empire. The czarina takes an interest in it and is proud of it.—New York Tribune.

The Vow of a Boy Nemesis.

Bring to me my large revolver and my keen Damascus blade and the rubber boots I'm used to when in gore I freely wade. Hither bring my trusty sandbag, bring the snickersnee, I say, for my day has come for murder, and I'm going forth to slay. I shall go forth to the slaughter like a bridegroom to his joys, and I'll fill the nearest graveyard with a string of gifted boys. I shall broil the boy attorney with a spasm of delight, and the boy who preaches Sundays he shall fall before my might. On the trail of boy physicians gayly, gladly shall I camp. Let the boy pianists tremble when they hear my roaring tramp. When I strike the boyish statesman, he must say his prayer and die. When the boy reporter meets me, mark ye how the fur shall fly, for I'm weary and disgusted and my mind has lost its poise; I have read such beastly twaddle treating of the gifted boys.—Atchison Globe.

His Explanation.

Gentleman—Well, Pat, I see you have a small garden.

Pat—Yes, sur.

"What are you going to set in it for next season?"

"Nothing, sur. I set it with potatoes last year, and not one of them came up."

"That's strange. How do you explain it?"

"Well, sur, the man next door to me set his garden full of onions."

"Well, had that anything to do with your potatoes not growing?"

"Yes, sur. Them onions was that strong that my potatoes could not see to grow for their eyes watering."—Strand Magazine.

He Must Have Been Inspired.

She—There is a doctor in Berlin who after a great deal of study has found that married men live longer than bachelors.

He—Save my life!

She—Oh, Clarence, how did you guess that I loved you?—Chicago News.

—The SPECTATOR is the official paper of the village and county. Now is the time to subscribe. $1.00 per year if paid in advance—otherwise $1.50.

LIQUOR LICENSE APPLICATION.

To the Common Council of the village of St. Hilaire, in the county of Red Lake and State of Minnesota.

The undersigned, Charles Tedford, hereby make application for a license to be granted to him to sell intoxicating liquors for a period of twelve months from the first day of July 1898.

The place where said business is to be carried on is designated as follows: On the ground floor of the two story building situate on lot three (3) of block forty (40) of the original townsite of St. Hilaire, Red Lake county, Minnesota, said building having two outside entrances, one in front and one in the side.

Said applicant prays that such license be granted to him pursuant to the ordinances of said village of St. Hilaire and the statutes of said State of Minnesota in such case made and provided.

Dated at St. Hilaire, this 8th day of June 1898. Charles Tedford.

Notice is hereby given that the village council of the village of St. Hilaire, Red Lake county, Minnesota, will meet at the council chamber in the village hall on Broadway in said village on Friday the 22nd day of July 1898, at eight o'clock p.m. at which time objections to granting said license in accordance with the above application will be heard.

[SEAL] J. L. JOHNSON, Recorder.

LOCAL NEWS.

Wheat 70 cents to day.

—Get your dresses made at Mrs. Fred Case.

Look over the Five cent counter at Hall's.

Miss Katie Power was a visitor in the village Monday.

—Dr. Thomas, the Crookston dentist will be here July 25th.

The last eight days of June it rained more or less every day.

Clear your fields of wild mustard. Now is the proper time.

Pay your dog tax or you are liable to be the owner of a dead dog.

W. E. Kelsey of Crookston registered at Hotel Markham Tuesday.

George Aftrett went to Fergus Falls Saturday returning Monday.

J. G. Brady of Red Lake Falls was a visitor here last Thursday and Friday.

Archie Shannon, with the Jennings Implement Co., is here to-day on business.

Miss Bertha Peterson of Thief River Falls is visiting relatives and friends here.

A few of the advertisements have been changed this week. Look them over.

Master Tommy Slevin arrived on Tuesdays train to make an extended visit.

Mike Rosenberg had his hand severely burned by a giant firecracker Monday evening.

Recorder Johnson was kept busy last Friday making out bonds and issuing dog licenses.

L. T. Berg formerly of this place now located at Wilmar arrived Monday for a few days visit.

Will Mageau came up from Crookston last Saturday with the intention of celebrating the Fourth.

Miss Minnie Olson was visiting at Crookston last week with Miss Olga Sampson. She returned Saturday.

J. L. Johnson, the St. Hilaire druggist has something to say in the advertising columns this week. Look it up.

Prof. O'Brien returned Saturday from the lower Falls where he had been visiting friends and relatives for over a week.

F. L. Bosworth returned from Minneapolis Tuesday to resume his position as stenographer for the St. Hilaire Lumber Co.

If the price of wheat keeps on going down same as it has the past five weeks it will be worth about 30 cents when the new crop comes in.

Chas. Theford has purchased M. E. Bjerk's interest in "The St. Hilaire" sample rooms, and will go it alone for the next twelve months.

The delegates that attended the republican state and congressional conventions last week returned Saturday loaded down with Eustis buttons.

M. E. Bjerk, Chas. Brink and I. Daleen returned from Crookston to-day. They reported an awful heavy rain-fall down there this morning lasting about three hours.

Familiarize yourselves with the names of people you will vote on in November. You will find the state and county tickets on the 2nd page of this paper.

The moon got full Monday after eleven days of rain. A great many are firm believers in this moon question and say we will have fine weather from now on.

Leonard Holmes is well supplied with agricultural implements having just received a lot of extras also a car load of binders, mowers, hay rakes and two car loads of twine.

—Dr. Thomas, the Crookston dentist will be at Hotel Markham (Monday) July 25th well prepared to do anything in the dental line. Remember this and govern yourselves accordingly.

In New York City the working people are of so little account that it is not considered worth while to put their names in the directory. They are classed with Chinamen and dogs—too cheap to be of any use.—"Rights of Man."

Could Not Celebrate—Too Wet.

The weather being so unsettled for the week preceeding the celebration of the national day of Independence the committee on sports and entertainments decided Saturday morning to dispense with the celebration. Monday morning the sun shone bright and everything looked forward to a favorable day. The country people not hearing of the rescinding action of the committee began to come to town. By noon the streets were lined with patriotic citizens. The committee held a hasty meeting and made arrangements for entertaining the visitors with games of all sorts during the afternoon. In the evening a dance at Hotel Markham was well attended and a very enjoyable time indulged in by those present.

H. E. Ives will leave tomorrow for a ten days trip to the Pacific coast. He will join the State Editorial excursion as they pass through Crookston.

—The newest styles of veilings, flowers, lace, ribbons, straw braids, bands and ornaments, ladies underware, ties, chiffrons in colors, ladies linen suits and belts at the millinery parlors of Mrs. Fred Case. Everything new and prices low as the lowest.

The continuous heavy rains the latter part of June did one good thing for this part of the country when it drowned out about eight-tenths of the gophers. Farmers say dead gophers may be seen all over the prairies and the only place they fared well was on the high lands such as the sand ridges.

George W. Coogan, one of the St. Hilaire boys who joined Co., L. at Crookston has recently been elected corporal. George has many friends here and all are glad to hear of his promotion. St. Hilaire now has two of her boys wearing corporal stripes—Lord and Coogan and they are both as fine built men as ever wore a uniform.

At the home of the bride's parents in Davenport Iowa on Tuesday June 28th was solemnized the marriage of Mr. J. G. Ballard and Miss Marie Cooper. Mr. Ballard is the manager of the St. Hilaire Lumber Co., and during his stay here has proven to be a young man of sterling ability and a practical lumberman. The SPECTATOR extends congratulations and welcomes Mrs. J. G. Ballard to the society of St. Hilaire.

Deputy county surveyor Stacy called at this office last week and reported as seeing three or four fields of wild mustard south of here in the town of River Falls. He said wheat was sown on these fields this spring but a heavy crop of mustard would be harvested if not pulled out in due time. There is a law calling for the destruction of noxious weeds and the township supervisors should see that something is done before they go to seed.

After July 1, 1898, every bank check and draft must bear a two cent revenue stamp, which is to be affixed by the drawer and cancelled by having his initials and date stamped or written thereon. The same rule requires that promisory notes shall bear stamps at the rate of two cents for every $100 or fractional part thereof. Failure to affix such stamp will subject the drawer of the check, or maker of the note, and the bank paying or negotiating the same to a fine not exceeding $200.

Attorney Montague of Crookston was in the county figuring on the judgship and was said to be working against Judge Ives. Mr. Montague did not honor the Times office with a call but we were informed that he travels on a Great Northern pass and poses as a republican. At one time Mr. Montague was reported as working for the nomination on the populist ticket. One thing is certain that no reputable attorney will disparage a brother lawyer in order to gain even a political advantage, to say nothing about trying to hoist himself on the bench by throwing stones at an officer across the way.—Roseau Times.

If you hire a horse at a livery stable you ought to treat him as if he were your own. If you drive out ten miles you ought not attend to your own wants until you see him properly cared for. If an honest man, you will remember that you are under a twofold obligation to that animal—an obligation to its owner and an obligation to the animal. You are the debtor of both; and though you pay the price of the horse yet no money can release you from the duty and moral claim involved in the bargain between yourself and the owner. They neglect the poor speechless beast that cannot appeal to the commiseration of a passer by is simply unpardonable, and the man who is guilty of such neglect is worse than a man.

With Orders to Print.

A neighboring exchange prints the following as the contents of a letter recently received. The picture is probably overdrawn, but on the whole there are many points in it that will be recognized by the brethren of the press as strictly true: "Send me a few copies of the paper which had the obituary and verses about my little child a month or two ago. You may publish the enclosed clipping about my niece's marriage. And I wish you would mention in your local column, if it doesn't cost anything that I am going to have a public sale and will rent a part of my farm, also that I have a few extra calves to sell at public sale. Send me a couple of extra copies of the paper this week, but as my time is out you may stop my paper as times are too hard to waste money on a newspaper."

—If you are in need of a pair of glasses J. Q. Adams will fix you out on his next trip to St. Hilaire which will be July 11th 12th and 13th. If you have a watch or clock that needs repairing or cleaning leave it at Johnson's drug store and that will be attended to.

—The SPECTATOR is for sale—at one dollar a year—strictly in advance.

Jim Don't Like Northern Minnesota.

Jim Hill has recently been brought to his senses by the Steenerson freight rate bill and now he sulks and acts like a kid because he was compelled to lower his exhorbitant freight rates. Editor Bell, of the Roseau Times wrote to Hill asking him as to the prospect for an extension into that county and the following is the answer: "Roger J. Bell, Roseau, Minn.—Dear sir: I beg leave to acknowledge receipt of your letter of the 15 inst., in regard to extension of this company's line into Roseau county.

The business of our lines in Minnesota if it were not for the business brought from the Western lines, would not be sufficient to pay the legal rates of interest on the investment, and our company is now so heavily taxed by the state, our Minnesota taxes amount to over $500,000 per annum, which added to the unfriendly feeling throughout the state and particularly in the northern portion of it, against any railway enterprise, that we do not feel disposed to build any more railroads in northern Minnesota. We are building a line this year from Fosston through to Superior, and while for twenty years I have done little else than build railroads into new communities, the present attitude of the public is such that I do not care to spend any further time or effort in that direction. Possibly they can get somebody else that can do it better.

Yours truly, JAMES J. HILL

Weekly Crop Bulletin.

For the week ending July 4th 1898.

The week was favorable as regards temperature. Showers were pretty well distributed in most of the states early in the week, and on the 30th and 1st there were rains in all parts, many of which were unusually heavy. Hail and local wind storms have injured small areas from Travers south to Rock counties. The drouth in the middle west has been effectually ended, but rather late to remedy entirely the injury to wheat which is heading very short in that region. Wheat, oats and barley have a splendid appearance, except where there has been lodging and in the dry section, but fears are expressed that there is too much straw for a full yield of grain. There are a few complaints of rust in wheat and oats, and of lodging in small areas due to local heavy wind and rain storms. Spring wheat in the south is in bloom, and heading is advancing northward in the Red River Valley. Winter wheat harvest will be on in the southeast soon after the 5th.

Barley is filling well and turning color. Rye harvest has begun in scattered places. The prospect for a good oat crop continues good, though dry winds are said to have caused some injury in Wright Co. Corn, where not affected by too much water in low lands is growing very rapidly. Potatoes are doing well, and much of the early crop is ready for use. Timothy and clover are large crops in most sections. They are ready to cut, and a great deal of clover was cut during the week considerable of which was injured by exposure to unfavorable weather conditions. Raspberry picking has begun in the southeast.

Minneapolis, Minn., June 27, 1898.
T. S. OUTRAM,
Section Director.

Notice.

Notice is hereby given that all dogs within the Village limits must be licensed on or before the 10th day of July 1898, or they will be dealt with according to the Village Ordinance.

C. HALL, Marshal.

Kill the Mosquitoes!

Two and one-half hours are required for a mosquito to develop from its first stage, a speck resembling cholera bacteris, to its active and venomous maturity. The insects in all its phases may be instantly killed by contact with minute quantities of permanganate of potassium. It is claimed that one part of this substance in fifteen hundred of solution distributed throught mosquito marshes will render the developement of larvae impossible; that a handful of permanganate will oxidize a ten acre swamp, kills its embryo insects, and keep it free from organic matter for thirty days at a cost of twenty-five cents; that with care a whole state may be kept free from insects at a small cost. An efficacious method is to scatter a few crystals widely apart. A single pinch of permagnonate has killed all the germs in a thousand gallon tank.—Ex.

It is reported that six special trains of freight cars passed through Washington the other day from Baltimore running as sections of fast passenger trains, loaded with provision for the army at Tampa. One of the trains was made up of 24 cars of bread. There were 40 carloads of flour, 1,000,000 lbs. being sent in double sacks of 100 pounds each. Nine cars were filled with sugar —about 900 barrels, weighing 288,000 pounds. Four cars were loaded with 96,000 pounds of rice. There were two carloads of beans and nine cars filled with 256,000 cans of tomatoes. Forty-eight cars were filled with hard tack, 12 cars with coffee, three with candles, one with salt, five with bacon and three or four cars with miscellaneous provisions—vinigar, pepper, baking powder, soap and other necessaries.

If He Lives Long Enough.

At twenty, when a man is young, he thinks he knows it all; he likes to wag his active tongue and exercise his gall; he struts around in noble rags—the world is all his own—he laughs to scorn the world of age, and lists to sell alone. He wears a window in his eye to see his mustache grow; he thinks the ladies pine and die because they love him so. At forty as you may suppose, he buckles down to biz, 'tis not till sixty that he knows how big a fool he is.—Ex

From Farm, Stock and Home.

In the pasture provided with shade the animals give best returns for their summers keep.

War is like a conflagration. Once started no man knows what it will consume before it ends.

Spain says we are very ungrateful for licking her after she did us the favor of discovering us.

To know the language of the clover blossom is to know when clover should be cut to make the best hay.

Dogs often suffer for drinking water, for they are free and frequent drinkers; see that they have access to it at all times.

If Paris green is mixed with Bordeaux mixture for spring potatoes both bugs and blight are given a fright at the same time.

For sweet mercy's sake be patient kind and gentle to the horses that are now such willing, faithful, hard working helpers.

If oats do grow so rank that they fall down, cut while quite green for oat hay which keeps the crop a long way from a dead loss.

To know how to make good hay is one thing, but to have the opportunity to make it is another. Whether there is good weather counts for a whole lot.

It is suggested that every country school house have a cyclone cave. It was formerly said that in country schools the young idea was taught how to shoot; now is it to be taught how to hunt its hole?

Look after the harvesters when an off day permits; find what extras will be needed, and get them.

When the cowboys catch a Spaniard can they resist the force of habit and refrain from branding him?

There is a weed commonly known as "Spanish needle," and no loyal American farmer will allow one to occupy his land!

If the horse could talk he would thank his master every time he removed his hot, sweaty harness for the noon time rest. And besides it makes galls less numerous.

How a man "cannot afford to take Farm, Stock and Home," but can afford to give a good sized note to some fakir that the paper would have protected him from, is one of those mysterious things that "no feller can find out."

Sever Plambry, Minn. "I am not exactly a farmer, but I take F. S. & H. because it is doing all in its power to guard us from humbugs. If I had had the information last fall that you gave certain correspondents during the winter I could have saved the subscription price of the paper for 50 years."

Notice of Summer Training School.

The first annual training school for Red Lake County will convene in Red Lake Falls July 18th, 1898, at 8 o'clock a. m. All teachers and persons intending to teach are invited to attend.

FRANK JEFFERS,
County Supt.

Notice.

To the farmers in the northern part of Red Lake county.

When you went to insure your crop against hail bear in mind that there is a Mutual Hail Insurance Association right here at home known as the Rocksbury Mutual Hail Insurance Association. This company was incorporated last winter and a license granted to said association by the Insurance Commissioner of the State of Minnesota. There is more than one advantage derived by insuring in a home company like this.

First, instead of sending your money abroad you keep them right here at home and next where you pay more or less of your assessment you can feel confident that it goes to somebody who has suffered a loss in place of paying high wages and big salaries to a host of officers.

The expenses in carrying on this business is thought to be a small per cent of the outlay. And last of all but not the least, you know or are aquainted with the men you are dealing with or who manage this affair from year to year.

The territory in which said association intends to insure crops for this season is the following townships in Red Lake county as follows: Bray, Numedal, Narden, North, Rocksbury, Sanders, Polk Center, Black River, River Falls, Wyandotte and fractional parts, town 153 range 42 and town 152 range 43.

For further particulars apply to O. H. Peters in St. Hilaire and Lars Backe in Thief River Falls, duly appointed agent of said association or directly to P. Engelstad secretary of said association or any of its officers.

Please call on the secretary or agents for a sample copy of the company's articles of incorporation and by-laws.

Very respectfully,
P. ÆNGELSTAD.
Secretary Rocksbury M. H. I. A.

Platform of the Democrats, Populists and Silver Republicans.

First. They are unalterably opposed to gold monometallism.

Second. They demand the immediate restoration of bimetallism at the present ratio by the independent action of his country.

Third. They oppose the retirement of the greenbacks.

Fourth. They oppose the issue of paper money by national banks.

Fifth. They oppose the issue of interest-bearing bonds.

Sixth. They favor the income tax as a means of raising part of the revenue necessary to administer the federal government.

Seventh. They favor the abolition of trusts.

Eight. They are opposed to government by injunction.

Ninth. They are in favor of arbitration and means of settling disputes between labor and capital.

The Offensive Word Eliminated.

Mr. Young (presenting a flag lace pin)—Miss Outerdate, how's that for Old Glory?

Miss Outerdate—It's a very pretty glory, sir.—The Jeweler's Weekly.

Is Health Worth Ten Cents?

Man suffers many mysterious ailments from unknown causes, and nine-tenths of them have their origin in the digestive canal somewhere. It does any person good to clean out this canal occasionally in a rational way, provided it is not done in a violent manner. The proper cleansing and disinfecting preparation is Cascarets Candy Cathartic, which are very gentle but at the same time thoroughly effective. A 10c box will purify the whole system and in most cases remove the cause of ill health. When "feeling bad" take Cascarets. They will do you good, and can do you no harm.

Building the Jungfrau Railway.

Swiss papers announce that the Jungfrau railway will be completed as far as the Eiger glacier by July 1. Eighty men are constantly at work, and $[illegible] has already been expended. So far there has been no serious accident.

A Valuable Dictionary.

Daily Inter Ocean, Chicago: "Every promise made by the publishers has been fully redeemed. It is, indeed, a grand book. . . . That there is a drift conservative yet real toward the simpler forms of spelling has been recognized throughout the work. . . ."

See display advertisement of how to obtain the Standard Dictionary by making a small payment down, the remainder in installments.

An Investment.

The Infant—Mamma, what was that woman doing to you?

The Mother—She was measuring me for a new bodice.

The Infant—Oh, then, the maid is going to have a new bodice. I saw papa measuring her for it.—Judy.

A piece-maker—the pie-knife.

SINGULAR STATEMENT.

From Mrs. Rank to Mrs. Pinkham.

The following letter to Mrs. Pinkham from Mrs. M. Rank, No. 3,354 East Susquehanna Ave., Philadelphia, Pa., is a remarkable statement of relief from utter discouragement. She says:

"I never can find words with which to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me.

"Some years ago I had womb trouble and doctored for a long time, not seeing any improvement. At times I would feel well enough, and other times was miserable. So it went on until last October, I felt something terrible creeping over me, I knew not what, but kept getting worse. I can hardly explain my feelings at that time. I was so depressed in spirits that I did not wish to live, although I had everything to live for. Had hysteria, was very nervous; could not sleep and was not safe to be left alone.

"Indeed, I thought I would lose my mind. No one knows what I endured.

"I continued this way until the last of February, when I saw in a paper a testimonial of a lady whose case was similar to mine, and who had been cured by Lydia E. Pinkham's Vegetable Compound. I determined to try it, and felt better after the first dose. I continued taking it, and to-day am a well woman, and can say from my heart, 'Thank God for such a medicine.'"

Mrs. Pinkham invites all suffering women to write to her at Lynn, Mass., for advice. All such letters are seen and answered by women only.

PUTTING AWAY IMPEDIMENTA

CAMP THOMAS BOYS PACKING FOR THE CUBAN EXCURSION.

Twelfth Gets Ready to Leave for the Island—Lieut. Col. McCoy's Promotion to the Regular Army—Gifts to the Regiment Acknowledged—Orders to Boil All Water, but Where Are the Boilers—Personal Notes From the Camp—High Compliment for the Boys.

Camp George H. Thomas, Ga., Special Correspondence.—The recent orders to pack overcoats and articles that cannot be taken on the campaign, for storage with the First army corps quartermaster at Lytle, kept the men of the Twelfth busy all day Monday. Bundles were made of overcoats and extra articles of clothing and the mail box was loaded with packages of photos, views of the park and bundles of old letters, while articles that could not be mailed or taken were destroyed. All drills were suspended and the company streets presented the appearance of a moving day in the cities.

Col. Bobleter was detailed by Brig. Gen. Peter C. Haines, commander of the division, to inspect the nine regiments of the division as to the carrying out of the order. The colonel reports that not one of the eight other regiments is better equipped and better prepared to take the field than his own regiment. At dress parade last night Brig. Gen. Wiley, brigade commander, watched the regiment, and every command was executed so splendidly that the general said to Col. McCoy, who was with him: "I would rather command a regiment like that than to command a brigade."

Col. F. B. McCoy, who has been promoted to a captaincy in the regular army, took his examination yesterday afternoon. Gen. Sanger was president of the board, and Col. McCoy was examined in law, discipline, regulations, engineering and military maneuvers. He was placed in command of a battalion and maneuvered it before the board. It is unnecessary to say that the colonel made a splendid examination. Gen. Sanger telegraphed the result to Washington. The colonel's commission will date from April 26, 1898, the date of his promotion.

Maj. T. C. Clark has received as a gift for the regiment one large field hospital flag and three hospital guidons from the Lewis Malone Ayer society, Children of the American Revolution, of which Miss Georgie H. Ramsey is president.

A set of hospital flags for the division hospital were also presented to Dr. Clark by friends in Minneapolis, and $15 for the hospital from the Red, White and Blue society of the West Publishing Company of St. Paul.

The chaplain has received a box of reading matter from Congressman Tawney of Winona for the use of the regiment. Mr. Tawney was once judge advocate of the Second Minnesota, and has a warm place in his heart for the regiment.

The two men who were in the guard house, one for striking his superior officer, and the other for disrespectful language to an officer, were tried by a field officers' court martial for violation of articles 21 and 62 of the articles of war, and have been sentenced to twenty and fifteen days' hard labor, respectively. The first offense is a very serious one, as a court martial may sentence to death or from one to five years in a military prison, but as there were extenuating circumstances the sentence was light.

Lieut. Walter J. Taylor, M, was notified Sunday that his father had died in Blue Earth City at the advanced age of eighty seven. Lieut. Taylor has been sick in quarters ever since he has been here and has felt compelled to tender his resignation as lieutenant of company M. He will not leave the regiment, but in some capacity will follow it to Cuba.

Col. Bobleter has received information from Washington that Private William K. Naylor, Fourteenth Minnesota, has been appointed second lieutenant by the president and is ordered to report to Maj. Calver Dewitt at Fortress Monroe for examination.

Orders to boil all water used for drinking purposes have been received again, but unless barrels are provided for storage the order will be hard to comply with. Dr. Clark states that swimming in Chickamauga creek is responsible for much of the sickness in camp. The inhabitants here do not bathe in it at all, and they say that "Chickamauga" is an Indian word meaning "river of death."

Lieut. Harry L. Bullis is on duty at division headquarters as acting commissary general. Lieut. Bullis has been little with the regiment, being most of the time on duty at division headquarters.

Capt. Albert Steinhauser, A, is officer of the day, while Lieut. M. A. Hodgkins, B, and Lieut. S. O. Simonson, I, are senior and junior officers of the guard, to-day.

Musician Albert Ellickson, L, has been promoted to be mounted orderly at Gen. Brooke's headquarters. He leaves to-day.

Corporal G. M. Kollen, A, found a centipede on the guard line this morning. Stewart Wilson secured it and quickly stored it in alcohol.

The wagoners and teamsters of the regiment have organized a company, which they have called Company J, and they have elected the following officers: Captain, J. L. Smith; first lieutenant, Tony Weisner, Company A; second lieutenant, Thomas Sheenan; first sergeant, W. W. Thompson, Company H, and quartermaster sergeant, Leo Berlinger. Wagonmaster W. F. Norton wears the star, as he was elected brigadier general of the "Juys."

Albert W. Mueller, Company A, is nursing patients in the measles hospital. He is a graduate of the New Ulm high school and expects to study medicine.

The postmaster received a letter addressed to a member of the first army "corpse". It was delivered. By the way, it would be well for persons writing to members of the regiment to plainly write on envelope the letter of the company and the name of the regiment. Doubtless this would save much confusion and insure the prompt delivery of letters.

Quartermaster Lind and the chaplain were invited to tea at the farm house of Mr. Smith, across the Chickamauga, where the wife of the quartermaster and wives of some of the officers of the regiment are boarding.

Arthur Young, Company D, cut his hand quite badly on some broken glass Monday.

August Riedell, Company E, and J. E. Ford, Company F, are in the employ of Commissary Sergeant Pietke, as cutters and dividers of the fresh beef that comes to the camp every morning.

Lee Bloomer, of the regimental band, was sick a few days, but is up again to-day.

—E. C. Clemans,

Chaplain Twelfth Minnesota.

THEIR NEW GENERAL.

Fourteenth Already Likes the Ex-Confederate Commander.

Chickamauga Park, Special Correspondence.—Last evening Col. Van Duzee, Lieut. Col. Johnson, Adjt. Salter, Adjt. Pierson, Capt. Baxter, Capt. Wood, Lieut. Smiley, Capt. Holmes, Lieut. Cook, Lieut. Wakefield and Adjt. Rogers paid a visit to Gen. Passler, the new commander of the Third brigade. The general made a short speech which was highly appreciated. Gen. Passler served in the Confederate army and carries many scars. He will make a good commander and has already won the esteem of his men.

The canteen of the Fourteenth Minnesota is to be closed. It might be reopened by a private citizen from Chattanooga.

As the result of a fight between Private Mitchell and Hoyt the latter is in the guard house awaiting trial. Mitchell is a middle-aged man and of a mild disposition, while Hoyt has often appeared before. He struck Mitchell first and was sent to the guard house by Capt. Holmes.

A light rain fell yesterday which was welcomed. The ground is dry, and the men would like to see it rain every day.

Private Danielson found more relics yesterday than any one in the regiment.

Private Florence, of Company E, paid his brothers, who are with the Second Wisconsin, a visit to-day.

Capt. Bacon was officer of the day for the last twenty-four hours, Lieut. Baker senior officer of the guard and Lieut. Pratt junior officer of the guard.

The quartermaster sergeants of each company were kept busy to-day issuing new uniforms, socks, shoes, shirts, underwear, blankets, etc., and by the end of the week the Fourteenth regiment will be fully equipped.

Corporal McVenish, of Company E, received an honorable discharge yesterday and left for his home in St. Paul to-day. He has been in ill health ever since his coming here.

Private Cundy, of Company B, who has been sick with kidney trouble for two weeks, has been granted a leave of absence for thirty days and left for his home at Anoka to-day.

It has been rumored that an order will soon be issued from headquarters prohibiting all enlisted men from corresponding for newspapers. All the regiments are full of enlisted men who are writing for newspapers, and they are figuring on how to beat the order. —Chick.

NOT FOR TEN DAYS.

Probable Delay in Leaving Camp Thomas Though Ready Now.

Chickamauga Chattanooga Military Park, Ga.—A work which engaged the entire attention of all the regiments at the park to-day was that of muster and completing the pay rolls. By night the work was practically completed. The rolls will be submitted at once and the task of paying off at least 60,000 officers and men will probably begin to-morrow.

Of the First corps, which has been ordered to be put in readiness for the next expedition, Col. William Richards, adjutant general, said this afternoon: "This corps is about as thoroughly equipped as they ever get to be. The corps could respond to orders to move with its effects packed in from twelve to eighteen hours."

To ascertain what effects the regiments have on hand that they will not be able to carry with them to the front, wagon drills have been in progress in all the divisions and the men have loaded and unloaded their outfits with great rapidity.

The quartermaster and ordnance departments are still rushed and rushing under the strain and daily carloads of clothing, shelter tents and ordnance stores go out to the regulars. One feature which adds to the strain on the quartermaster's department is that on an average the soldiers at Camp Thomas wear out daily nearly five hundred suits of uniforms and other clothing in proportion.

Brig. Gen. Hubbard of Minnesota, who has been assigned to a brigade at Jacksonville, Fla., arrived at the park to-day.

The First corps, under orders for active field service, has received ten days' rations, which indicates that the troops will not move before that time.

To-day there was a very large distribution of ordnance supplies and Capt. Zalinski issued 10,000 blue army shirts and 20,000 rubber ponchos and other supplies. Over 4,000 shelter tents have been turned over to the regiments within two days.

Thirty carloads of supplies are now en route to Camp Thomas.

SHIPS AND MONEY.

Provision for the Next Manila Expedition and Pay Rolls.

San Francisco.—Preparations for the fourth expedition to the Philippines are almost completed. The troops at Camp Merritt are equipped and are drilling five hours daily. Commissary stores for an expedition can be obtained and put aboard vessels within a short time. The sole cause of delay is the necessity of refitting the passenger steamers to serve for transport steamers. Camp Merritt contains 10,000 men and to take this number to the Philippines will require twelve or fifteen vessels. It is not expected the remainder of the men to be sent to the Philippines will go in one vast fleet, but that detachments of two or three vessels will go at a time.

The Montana regiment was inspected this morning. The South Dakota regiment was inspected in heavy marching order. At the field hospital there is only one serious case, though the number of sick has slightly increased.

Private Melle Travaille, Company G, South Dakota, slipped at the Sutro baths, plunging his arm through the glass of a dressing room and severing arteries, tendons and nerves. His arm will be amputated.

The steamer Newport, which has sailed with Gen. Merritt for the Philippines, will bring joy to the hearts of our troops in Manila, as it carries a large sum of money for the pay roll soldiers and the purchase of supplies. It is said that the steamer carries from $1,000,000 to $3,000,000 in gold. It will be remembered that Gen. Merritt, in addition to the money necessary for the use of the troops in the near future, asked the president for $100,000 for an emergency fund. This $100,000 is probably included in the coin shipment on the Newport.

Caught Tripping.

A college professor, who was very rigid as to grammar, suspecting that that a surreptitious game of cards was going on in one of the students' rooms, knocked at the door.

"Who's there?" was the response.

"It's me—Prof. Jenkins," was the reply.

"Impossible!" roared one of the students. "Prof. Jenkins never would say 'It's me;' he'd say 'It is I;' so be off with you, or I'll help you."

The professor recognized his mistake and saw that the boys had scored, so he quietly left.—Spare Moments.

Two Kinds of Luck.

"The man who owns the farm next to mine is the luckiest fellow I ever saw."

"What are you talking about? There is no such thing as luck."

"There isn't, hey? Then you will kindly tell me how it happened that he bored for water and struck oil, while I bored for oil and struck water?"—Detroit Free Press.

Harsh.

"I don't quite see why that very decadent author is the recipient of so much attention," said the old-fashioned lady.

"That is very easily explained," said Miss Cayenne. "There is a natural curiosity to see a person who could put such things into cold type without being ashamed."—Washington Star.

An Astonishing Preference.

"I am so delighted to hear that you take an interest in hunting, Miss Gaswell," said Breechloader. "Now, what sort of gun do you prefer?"

"Popgun," replied Miss Gaswell, shyly, for she is sweet on Mr. Breechloader.—Detroit Free Press.

Couldn't Help It.

see it."—Washington Star.

He—I suppose it's the pride of intellect, but I can't help despising a man that knows less than I do.

"I don't see what else you could do."—Life.

She Doesn't Have To.

"Has your daughter made her debut yet, Mrs. Green?"

"I don't think she has. She ain't obliged to unless she wants to. We can afford to buy the best."—Tit-Bits.

Certainly a Sufficiency.

Mrs. Jhones-Smith-Henry, if you should die what would you leave me? Jhones-Smith—Seven children, Maria. Could you ask for more?—New York Journal.

A GUARDSMAN'S TROUBLE.

From the Detroit (Mich.) Journal.

The promptness with which the National Guard of the different states responded to President McKinley's call for troops at the beginning of the war with Spain made the whole country proud of its citizen soldiers. In Detroit there are few guardsmen more popular and efficient than Max R. Davies, first sergeant of Co. B. He has been a resident of Detroit for the past six years, and his home is at 416 Third Avenue. For four years he was connected with the well known wholesale drug house of Farrand, Williams & Clark, in the capacity of bookkeeper.

The First Sergeant.

"I have charged up many thousand orders for Dr. Williams' Pink Pills for Pale People," said Mr. Davies, "but never knew their worth until I used them for the cure of chronic dyspepsia. For two years I suffered and doctored for the aggravating trouble but could only be helped temporarily.

"I think dyspepsia is one of the most stubborn of ailments, and there is scarcely a clerk or office man but what is more or less a victim. Some days I could eat anything, while at other times I would be starving. Those distressed pains would force me to quit work.

"I tried hot-water treatment thoroughly, but it did not affect my case. I have tried many advertised remedies but they would help only for a time. A friend of mine recommended Dr. Williams' Pink Pills for Pale People, but I did not think much of them.

"I finally was induced to try the pills and commenced using them. After taking a few doses I found much relief. I do not remember how many boxes of the pills I used, but I used them until the old trouble stopped. I know they will cure dyspepsia of the worst form and I am pleased to recommend them."

Dr. Williams' Pink Pills are sold by all dealers, or will be sent postpaid on receipt of price, 50 cents a box or six boxes for $2.50, by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

It Ought.

Wallace—I believe there is some truth in the charge that the working people are falling away from religious observance.

Perry—If that be true, it ought to make religion fashionable again.—Cincinnati Enquirer.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets Candy Cathartic cleans your blood and keeps it clean by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets—beauty for 10 cents. All druggists, satisfaction guaranteed. 10c, 25c, 50c.

Howled Out.

"I thought you were going to the war."

"So I was; but the heartless recruiting officer wouldn't allow me to take my bicycle along."—Philadelphia North American.

Try Allen's Foot-Ease.

A powder to be shaken into the shoes. At this season your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. It cools the feet and makes walking easy. Cures swollen and sweating feet, blisters and callous spots. Relieves corns and bunions of all pain and gives rest and comfort. Try it today. Sold by all druggists and shoe stores for 25c. Trial package free. Address Allen S. Olmsted, Le Roy, N. Y.

When the acts are long-drawn out, it's quite a distance between drinks.

Important to Mothers

The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trade mark. This counterfeiting is a crime not only against the proprietors of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents and mothers in particular, ought to carefully examine the Castoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Castoria bears the fac-simile signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years.

Out-Door Roses.

When planting a rose bush, select a spot as sunny and airy as possible, and be careful that the ground is rich and well drained, says New England Florist. A heavy or clay subsoil is peculiarly adapted to roses, and for enriching it nothing is so good as thoroughly-rotted cow manure. Sandy soil requires more manure. In planting, the roses should be set somewhat deeper than they were in the pots, especially if they are budded or grafted plants, deep enough that the union may be below the surface of the soil. For a small collection of rose bushes a good-sized bed in a circular form, with the four sides scalloped toward the center, would be desirable. This arrangement would enable the cultivator to reach all the points without having to step on the bed. Roses may be planted either in the fall or spring, though I prefer the latter. There is less danger of a severe winter cutting back the shoots or of alternate freezings and thawings, exposing the unestablished roots. May and June are the best months for planting. The beds should be protected from the northwest winds, and have a southern or eastern slope if possible. It is a good plan to have the hybrid roses on the east side of a fence, and the hardier and free-growing climbers to cover the fence itself. Roses that are to be grown for the perfection of their blooms should never be in close proximity to a building or trees. After planting it is well to cover the bed with a light mulching of manure; this will be all the dressing they require the first year. After the roots have become well established, fertilizer may be applied more liberally. Every fall five or six inches of mulch should be placed on the beds—cow manure if obtainable—and in the spring as much of this dug into the ground as possible, and the residue raked up and carried away. The correct pruning of roses can only be learned by experience. As a rule, the strong-growing plants should be pruned but little, while the weak-growing sorts should be pruned severely to induce vigorous growth. The proper time for pruning is late winter or early spring, before the sap commences to move. A summer pruning of many hybrid perpetuals after the June blooming induces the formation of buds for fall blooming. A common mistake with many is leaving the branching spray wood that has already flowered. This will never produce fine roses again. It is well to remove long stems when cutting flowers if new wood is beginning to show at the base of the plant; especially in the case of hybrid perpetuals should these oldest branching stems be cut out if autumn flowers are desired. The older spray will not produce fine roses, while the weak and crowded growth affords a harborage for every rose pest. Where roses grow vigorously and throw large shoots from the bottom it would be well to pinch out the crown bud. This will induce a growth of lateral shoots which will produce good flowers in July and August, and, in fact, give a good supply of roses all summer. This is especially true of Brunners. Roses in perfect health and vigor are less liable to attacks from insects than those that have been neglected and are stunted. The free use of clear water by syringing the plants daily is a preventive against insects.

Feeding Brood Sows.

The important point to be observed in the management of brood sows is the supply of suitable feed and exercise, says a writer in Breeders' Gazette. They should be so handled that they will be obliged to take daily exercise; and it is especially important that during the latter part of the period the grain ration consist largely of bran, oats, shorts, oil-meal, or something of that character that is laxative and nutritious and not heating. In this connection there is no more valuable adjunct to the brood sow's ration than roots, both prior to and after farrowing. We invariably practice root-feeding to all of our brood sows on the college farm, and are abundantly satisfied with the results. The opinion is also prevalent to some extent that brood sows cannot be fed on the droppings of fattening cattle without injury, but there is no practical foundation for this belief provided some roots and nitrogenous grain-feed be furnished in addition. In many cases, however, I have seen good results where they have had practically no other feed and the cattle being fed almost exclusively on corn. It is best, however, to properly supplement this ration. When sows are handled as outlined above, a fair degree of flesh is beneficial rather than injurious.

Oklahoma.—Oklahoma contains now about 40,000 square miles. Governor Barnes officially estimates its population at over 300,000. The great mass of its people are engaged in some form of agriculture. The greater part of the territory is well settled, but there are about 8,000,000 acres of public lands. The soil varies much in appearance and considerably in composition. There are considerable areas where the soil is bright red in color, owing to iron oxides. Many of the "black jack ridges" and some stream bottoms are quite sandy. There are many "alkali spots" in different parts of the territory, but these are usually not large. As a whole, the soil may be described as a fine sand, the particles lying very compactly largely because of the lack of any considerable quantity of decayed vegetable matter. Its appearance leads many to think of it as a clay soil. Most of it has a good supply of fertility; much of it an abundant supply of plant food.

Thinning Fruit.—The number of fruits produced per tree may be regulated in two general ways: By pruning away a part of the branches to prevent the formation of too much fruit, or, by picking off the superfluous fruits soon after they have formed. With such fruits as grapes, raspberries, blackberries and the like, the former method is employed almost exclusively. An experiment reported from New York Cornell Station indicates that in the case of blackberries and raspberries no means of regulating the number of berries per plant is necessary other than the annual pruning. The fruit of Cuthbert raspberries and Early Cluster blackberries was thinned by removing one-half of the clusters and clipping off the tips of most of the others.

Hair Hints

Is your hair dry, harsh, and brittle? Is it fading or turning gray? Is it falling out? Does dandruff trouble you? For any or all of these conditions there is an infallible remedy in Dr. Ayer's Hair Vigor.

"For years, I was troubled with dandruff, large flakes scaling and falling off, causing great annoyance. Sometimes the itching of the scalp was almost unendurable. Prescriptions from eminent physicians, put up in my own drug-store were tried, but failed to afford relief. At length I used Dr. Ayer's Hair Vigor, and in one week I found it helped me. At the end of only two weeks, my head was entirely free from dandruff, and as clean as a child's. I heartily recommend Dr. Ayer's Hair Vigor to all who are suffering from diseases of the scalp."—Edwin Nordstrom, Drugs, etc., Sacred Heart, Minn.

Use Ayer's Hair Vigor

A Beautiful Present Free

For a few months to all users of the celebrated ELASTIC STARCH, (Flat Iron Brand). To induce you to try this brand of starch, so that you may find out for yourself that all claims for its superiority and economy are true, the makers have had prepared, at great expense, a series of

ELASTIC STARCH A GREAT INVENTION J. C. HUBINGER BROS CO.

Game Plaques

exact reproductions of the $10,000 originals by Muvi le, which will be given you ABSOLUTELY FREE by your grocer on conditions named below. These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartment. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

AMERICAN WILD DUCKS, AMERICAN PHEASANT,

ENGLISH QUAIL, ENGLISH SNIPE.

The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

HOW TO GET THEM:

All purchasers of three 10-cent or six 5-cent packages of Elastic Starch (Flat Iron Brand), are entitled to receive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer.

Every Grocer Keeps Elastic Starch.

Do not delay. This offer is for a short time only.

Elastic Starch

has been the standard for 25 years. TWENTY-TWO MILLION packages of this brand were sold last year. That's how good it is.

Ask Your Dealer

to show you the Plaques and tell you about Elastic Starch. Accept no substitute.

GREAT POPULAR OFFER!

By virtue of the unprecedented purchase, in a single order, of one hundred thousand (100,000) copies of this acknowledged masterwork of the Century, we are now enabled to offer it to the public at far less than the publishers' prices! Thousands of persons, who heretofore have not felt able to purchase it, will eagerly welcome this opportunity to secure at reduced price "The Greatest Achievement of Modern Times."

THE FUNK & WAGNALLS

Standard Dictionary

OF THE ENGLISH LANGUAGE.

It is incomparably the greatest, as it is positively the latest, most complete, and most authoritative, new dictionary in existence. It is everywhere the standard.

ENTIRELY NEW FROM COVER TO COVER. It is not a reprint, rehash or revision of any other work, but is the result of the steady labor for five years of over twelve score of the most eminent and authoritative scholars and specialists in the world. Nearly 100 of the leading universities, colleges and scientific institutions of the world were represented on the editorial staff; 20 United States Government experts were also on the editorial staff. Over $960,000 were actually expended in its production before a single complete copy was ready for the market. Never was any dictionary welcomed with such great enthusiasm. The St. James's Budget, London, declares "It is the admiration of Literary England. It should be the pride of Literary America." The highest praise has come from all the great American and British newspapers, reviews, universities and colleges, as well as from eminent men and women everywhere. [illegible] The Standard Dictionary is $15.00. [illegible] price of $12.00, on the following [illegible] $1.00 Cash with Order and $1 per month [illegible] Full particulars by mail. Address,

SUBLIMEST OF SCENES

WHEN THE MAGNIFICENT SHIPS OF SPAIN WERE DEMOLISHED.

First Technical Account of the Execution of Cervera's Fleet Furnished by a Naval Expert Who Took Part in the Action—The Manifold Capacities of the English Language All but Exhausted in This Superb Pen Picture—A Feeling of Pity Leavened the American Fighters' Thirst for Destruction When the Sad Spectacle of Ruin Was Presented.

(From the St. Paul Pioneer Press.)

(In anticipation of a great battle between the American fleet and the Cape Verde squadron commanded by Admiral Cervera, the New York Herald secured the services of an expert naval authority on board one of the battleships to write a technical description of the fight when it occurred. During the engagement the writer was at his post of duty and could not possibly furnish his narrative when the dispatch boat Golden Rod left the scene of action to steam at full speed to Port Antonio and file in the cable office the full account of the battle which the Herald and Pioneer Press printed exclusively on Tuesday morning. When the writer agreed to furnish the Herald with the description which follows, he telegraphed: "I will write the story unless killed in battle. If anything happens to me I trust one of our officers will be spared to render the Herald the service which it requests." This account is therefore the first technical description of the battle printed anywhere. The Pioneer Press regrets that it is not able to sign the name of the writer to the story, but strict naval regulations prevent.)

Story of the Spectacle.

On Board the Iowa, off Santiago, July 4.—By the Dispatch Boat Sommers N. Smith to Port Antonio, July 6.—On Sunday morning, July 3, our watching ships lay rolling in the easy surges off the entrance of the harbor of Santiago. Their distance from the guarded haven was from four to six thousand yards, and there, with an unsparing alertness, they awaited for that promised dash which all hoped for but feared might never come. A little after three bells in the forenoon when the inspection of ships had been concluded and as Lieut. Van Duser, the officer of the watch, was relieving the navigating officer, Lieut. Schuetze, then officer of the deck, he heard a quick cry to call the captain, followed by a shout. "There come the Spaniards out of the harbor!"

The trained eye of the alert officer had marked the thin trail of drifting smoke, and before the signals, "Clear ship for action," had been given, the boats of the Spanish vessels, rushing in "line ahead," were seen darting around Socapa point for the open sea.

In a moment all was bustle and trained energy. Men rushed to their quarters, guns were trained, and in less than twenty seconds the whistling shriek of a rapid-fire gun warned the startled fleet that hot work was awaiting. In two minutes every gun on shipboard was cast loose, manned, loaded and ready for the long-expected signal to fire. At the yard arm on our battleship a string of signal flags warned the fleet the enemy was trying to escape, but even before the answering pennants of the other ships announced their understanding of the message every vessel was dashing to the station long before allotted for the emergency which had come at last. It was a splendid spectacle. The Spaniards with bottled steam

Cleared the Harbor Mouth

seemingly in a moment. Their eager prows whitened the long billows and their bubbling wakes left a furrow as straight and sharp as a racing yacht making a winning run for the finish line. Their course was shaped for the westward, but fast as they sped in their desperate break for freedom faster flew the shells of the Americans. The first heavy shell from the Iowa's battery fell short, and then by a lucky mischance, so did the second, but afterward the following shot fell surely and unsparingly upon the fleeing foe.

Not a whit behind in this eager fusillade roared the batteries of the Spanish ships. Their port broadsides flamed and grumbled. But it was more a display of fireworks than a successful effort to damage the unharmed targets of the Yankee ships.

In fifteen minutes after they were discovered the four Spanish armored cruisers had cleared the wide entrance, and five minutes later the torpedo boat destroyers, hugging the beach and seeking the sheltering broadside of their sister ships, flew into the turmoil of the action. At this time every gun of the American squadron that could be brought to bear was pumping projectiles into the enemy. In an instant, it almost seemed, one ship of the Vizcaya class burst into flames, caused, undoubtedly, by a long sure shot from the Oregon or the Texas. A minute later a twelve-inch projectile sent from her forward turret struck the flagship, Maria Teresa, near her after smoke pipe. A tremendous explosion followed. Then she was shrouded in smoke and was lightened with lurid flames, and then, when the powder cloud blew down the wind, she was seen, helm hard a-port, rushing for the beach.

Twenty-five minutes after the first ship had been sighted half the Spanish fleet had surrendered or was on fire.

As our vessels rushed toward them every ship was hulled time and again and it almost seemed in the sureness and directness of our batteries as if it were the target practice of a summer morning and not the annihilation of a squadron. Even this interval would have been shortened measurably, for aiding them and hindering us was the cloud of smoke which concealed, and at the best, only half revealed the wrecked enemy.

It was a grand, sad sight, a pathetic one to seamen who know how much seamen thought and patriotic effort had gone into the construction of these six splendid vessels now lying bruised and beating on the shores they had hoped to defend. There was no time, however, to indulge in emotions of sympathy or of pity, for still rushing eagerly westward, closely followed by the New York and at further distance by the Indiana, came the torpedo destroyers. In the

Hot Eagerness of Destruction.

we turned loose our smaller guns on these loudly heralded and ineffective craft and finally, by a lucky hit, dropped a twelve-inch shell into the bow of the leading destroyer. At the same instant the little Hist was rapidly closing upon them, pouring a sickening fire into their fragile hulls.

The Gloucester joined in this splendid assault, and so effective was the rain of rapid-fire projectiles that both torpedo boats swung their helms hard aport, ran for the shore and buried what was left of them among the pitiless rocks of the coast.

By 10.15 we were in full cry after the other Spanish ships, then about four miles ahead and busy with hot replies to the determined assault of the Oregon, Texas and Brooklyn. Bending every energy to overtake the Colon, which was then five miles away and perhaps two miles ahead in a direct line a mile and a half further in shore, we picked up

The Flying Vizcaya.

The game must have seemed up to her then, for with a quick turn to starboard she ran shoreward, and we saw in an instant that she was flaming fore and aft. A beautiful Spanish flag flying from her gaff and another higher still from her maintop mast head, showed her to be the flagship of the second in command. She lagged heavily in the water. No longer did she carry a bone in her teeth and her foaming wake was gone. When we drew near we saw something had gone amiss with her, for just as we swung with a touch of our helm to give her a finishing broadside the beautiful flags drifted from truck and gaff end and the white flag of surrender went up, and the cheers of our ship went with it.

We stopped our engines when close aboard, and hoisted out our boats to save her people. We received on board 250 of her crew, the Hist took another hundred and that was all that was left of them, for the other hapless sailors were lying dead and wounded on her burning decks. The conflagration aboard ship was astounding; and even now, when the opportunity for calm reflection has come, it is impossible to explain where so much inflammable matter could have been collected on board an armored vessel.

Through the air ports and gun ports of the doomed ship quivering fires shone with a blood-red light upon the light woodwork of the bridge and upper deck, and long tongues of flame licked the towering masts. Over the ship a cloud of rosy light hovered, and when, after a time, the explosions of the free powder were added, great volumes of smoke shut out the sky. Several explosions of terrible force followed, but notwithstanding this, and while the flames were still quivering through every outlet and encircling the hull, our boats were busy with the rescue of the unfortunate wounded and those more lucky survivors who had sought the water on the shore as their only refuge from a dreadful death.

When the Spanish captain of the Vizcaya, that courteous Eulate, of whom we heard so much when his ship was in the harbor of New York, was lifted over the side and carried aft, he presented his sword to Capt. Evans; but Evans,

Gentle as He Is Brave,

declined to receive it, and, waving it back with a friendly gesture, he grasped the hand of the Spaniard and welcomed his brother officer to the hospitality of the ship.

Much affected by his reception, Capt. Eulate asked permission to meet the Iowa's officers, and to each he gave a warm grip of his hand and a friendly word of gratitude before he was carried below.

The Oregon and Brooklyn joined in the attack, but were a little too far out to get into the best of it, and their efforts were directed more to head off and catch the Colon than to join in the general action. There was a wisdom in this, approved of all good sailors, for they knew what work was cut out for them and in what good hands the other ships were left.

The Glorious Texas, no longer the "hoodoo" of the fleet, gave its principal attention to the Vizcaya, and one of her 12-inch shells, smashing through the fire room of the Spaniard, caused her to make that quick turn to the shore, which at first we did not understand.

The New York was so far to the eastward that she had a long chase and a stern chase, before she got into the action, and she passed us just after the Vizcaya surrendered.

She made a splendid marine picture as she rushed eagerly by in hot chase after the Colon, and as she shot past we gave Sampson cheer after cheer, and cheer after cheer came back to us from as gallant a crew as ever served a gun or fed a roaring furnace.

Some of the Spanish crew had swum to the beach, but finding the hostile shores commanded by alert parties of Cuban soldiers, they fought in a mad endeavor to get aboard the ship's boats rather than surrender to an enemy whom they knew to be pitiless. Every officer and man on the Iowa gave clothes of some sort to the rescued sailors, and their reception must have taught them that the despised Yankee was not the inhuman brute their officers had pictured.

The paymaster's stores of the ship were drawn on lavishly to clothe the Spanish officers and men, and when, after a while, they were dried and fed, it was interesting to note the relief all seemed to feel now that their long suspense of so many weary weeks was over and done.

At one time the Iowa was engaged with all the ships, single handed. The Spanish officers told us later that their orders were to concentrate their fire on her, and every effort must be made to disable her, as she was the

Most Dangerous Antagonist

of all awaiting them. But, as one of the Spanish officers added, with a fine air of perplexity: "We found that all the ships were equally dangerous, and that, after all was said and done, it was four ships against four, and one of these, the Brooklyn, was much more lightly armored and gunned than any of ours."

Reckoning up the data of this memorable fight which it was our good fortune to take part in, we find that:

In less than twenty-five minutes two of their ships were wrecked.

In less than three-quarters of an hour the third surrendered.

In fifty minutes from the time the first dashing Spaniard was sighted all hands were piped down, the guns were secured and our boats were in the water to save what was left of the Vizcaya's crew.

At 5 o'clock in the afternoon of that memorable Sunday, the Iowa arrived off the entrance to Santiago, the Gloucester keeping company with us, after speaking the Indiana and exchanging cheers that made the welkin ring. When alongside the Indiana Capt. Evans hailed his brother-in-law, Capt. Taylor, of that ship and told him to send Admiral Cervera on board and he would put at his disposal the vacant admiral's cabin of our ship.

The gallant but defeated sailor came alongside in the Gloucester's boat and was received with all the honors due his rank and station. The full marine guard was paraded, the bugles flourished a salute, and when the official salute was finished the reception accorded him by the captured officers of the Vizcaya showed the affectionate regard with which this fearless gentleman was held by those who served under him.

Capt. Eulate wore the sword Capt. Evans had refused to accept, and he pointed to it with a pathetic pride as he told of the reception accorded him by the Iowa's captain. It was an affecting and a heart-warming sight, and made a fitting close to a day that will be memorable for the glories it yielded to our arms at sea.

Origin of a Well Preserved Joke.

Nasica, having called at the home of the poet Ennius, and the maid servant having told him, on his inquiring at the door, that Ennius was not at home, saw that she had said so by her master's order, and that he was really within; and, when a few days afterwards, Ennius called at Nasica's house and inquired for him at the gate, Nasica cried out that he was not at home.

"What?" says Ennius, "do I not know your voice?"

"You are an impudent fellow," rejoined Nasica; "when I inquired for you, I believed your servant when he told me that you were not at home, and will you not now believe me when I tell you that I am not at home?"—Cicero's De Oratore.

Facetiae.

As judges and lawyers are fond of citing precedents, here is one from the judicial annals of the English Commonwealth in Cromwell's time, when everybody of high or low degree was steeped to the lips with religious controversy. A fellow was up for sheep-stealing.

"Judge," he said, "it was ordained before the foundation of the world that I should steal that sheep."

"Exactly," said the judge, "and it was ordained before the foundation of the world that you shall receive thirty lashes for doing it."—Green Bag.

Too Much for Endurance.

American Citizen (indignantly)—See here, madam, I want you to see that that boy of yours sits down once in a while and reads the papers. I won't have such an ignoramus about the house. The idea of a boy of his age asking such idiotic questions.

Citizeness—Well, my dear, what has he been asking?

Citizen—The young numbskull wanted to know if the "Hon." before a congressman's name meant honest.—New York Weekly.

New Use for the Tariff.

"All that I am afraid of," said Mrs. Spriggins, "is the possibility of invasion. Suppose Spain should land 100,000 men on our shores?"

"That would be easily handled, my dear," said Mr. Spriggins. "Congress could immediately pass a tariff act charging 60 per cent duty on all Spanish troops. It would ruin Spain to pay it."—Harper's Bazar.

Misled.

"Gosh durn you and your old grocery!" shouted the man who had backed up against the fresh paint.

"Didn't you see that sign, 'Fresh Paint'?" asked the grocer.

"Of course I did; but I have seen so many signs hung out here announcing something fresh that wasn't that I didn't believe it."—Indianapolis Journal.

Our American Policy.

The policy of this country regarding foreign complications seems likely to remain conservative. The Monroe doctrine will be sustained, but patience and prudence in official quarters will restrain public opinion. The wisest and most prudent course for the rheumatic and malarious is to use Hostetter's Stomach Bitters.

At the Reception.

Mrs. Sharpe—Excuse me, Mrs. Uppby; but your—your—

Mrs. Uppby (who has on one of her husband's neckties)—Oh, what is it? Is there anything wrong with me?

Mrs. Sharpe—Yes; I believe your belt has got up around your neck.—Judge.

An Incumbrance.

Lady of the House—Why don't you go to work? Don't you know that a rolling stone gathers no moss?

Tramp—Madam, not to evade your question at all, but merely to obtain information, may I ask of what practical utility moss is to a man in my condition?—Tit-Bits.

The most exasperating thing is to have it clear off when you have dressed for a rainy day.

A man often goes into mourning for his wife by dyeing his white whiskers black.

OFFERED TO SURRENDER

GEN. TORAL'S VERY CHEEKY PROPOSITION REFUSED.

He Offered to Evacuate Santiago, but Insisted That He Be Permitted to March Out Under Arms and Flying Colors, and Declaring That He Would Fight to the Last Ditch if These Terms Were Not Accepted—Gen. Shafter Replied That Nothing but an Unconditional Surrender Would Be Accepted.

(Copyright, 1898, by Associated Press.)

Off Juragua, July 11.—The surrender of Santiago was formally offered by the Spanish commander, Gen. Toral, Saturday, but the conditions caused a prompt refusal of the offer by Gen. Shafter. The negotiations, however, resulted in the extension of the armistice until noon Sunday and white flags of truce floated over the opposing armies. Gen. Toral's proposal contemplated the immediate surrender of the city, but he insisted that his army be permitted to march under arms and flying colors, and declaring he would fight to the last ditch unless the conditions were accepted. Gen. Shafter replied that nothing but unconditional surrender would be accepted by him, but he consented to cable Washington, in the meantime extending the armistice. It was shortly before noon yesterday when a little group of officers under a flag of truce came out from under the yellow wall of the besieged city and slowly made its way toward the American line. A detail was

Sent to Meet Them

and they were escorted to comfortable quarters, while the letter from Gen. Toral was carried to Gen. Shafter's tent, two miles from the front. The letter was couched in the lofty courteous tones characteristic of such communications, and was as brief as possible. It bore the signature of Gen. Toral, who commands at Santiago since Gen. Linares was wounded, and stated that he was prepared to surrender the city provided his army would be permitted to capitulate "with honor." This, he explained, meant that the Spanish forces should be unmolested and go in any direction they wished with arms and flying colors. The letter concluded with the bold statement that surrender under any other terms was an impossibility and would not be considered. Gen. Shafter immediately cabled the facts to Washington and sent to Gen. Toral a refusal of his proposal, but added that he would communicate with his government and would extend the informal armistice until Sunday noon. It is deemed probable that the truce will be extended beyond that time, and the proposal of Gen. Toral on any terms has been taken as an indication that Gen. Toral has

Decided to Surrender

upon the best terms obtainable. The health of the American troops is very good, but the water supply is poor and numerous cases of malaria are reported, no deaths having resulted, however, and in nearly all cases the fever has been broken up by a liberal use of quinine. The second fleet of transports arrived off Juragua, bearing 2,500 troops, including a large detachment of artillery. The days of temporary peace are being utilized by both armies in strengthening their defences. The Americans have strongly entrenched themselves and the artillery now at the front has been placed in a strong position behind earthworks and will be able to cover the advance of the troops much more effectively than during the previous engagement. The feeling is strong among the officers and men that Santiago will surrender without further fighting. The wounded in the hospitals are being well cared for, and in almost every instance are recovering rapidly.

PESSIMISTIC SPANIARDS.

Hopelessness of the War Finally Recognized.

Madrid, July 11.—Information received from the most reliable sources is to the effect that the darkest pessimism pervades Madrid officialism. The hopelessness of the war is finally recognized and the peace idea now seems to predominate in the cabinet and negotiations are considered urgent. The cabinet is likely to cohere until peace is secured. It is now recognized that Santiago de Cuba is completely beleaguered and cannot hold out owing to the lack of provisions and munitions of war. It is considered certain that the Americans will blockade Cuban and Puerto Rican ports, cutting off their supplies, while the authorities are convinced that an American fleet is coming to the peninsula. There is no confidence felt that the powers will interfere even if defenseless seaports are bombarded, and, therefore, what measures of defense are possible are being adopted.

Cycling Record Broken.

Chicago, July 11.—Frank G. Clark and John D. Andrews, members of the First Regiment Cycling and Athletic club, reduced the Chicago-Milwaukee and return tandem record by two hours and twelve minutes. They rode the distance in twelve hours and thirty minutes. The former record was 14:42, made by themselves Sept. 19, 1897.

Sick and Wounded Soldiers.

Washington, July 11.—The war department has been informed of the arrival at Key West of the ship Cherokee with 323 sick and wounded from Shafter's army. A full list of the men will be telegraphed to the department.

Her Last Sleep.

Black River Falls, Wis., July 11.—Mrs. Annie P. Hagen, forty years old, was found dead in her bed five miles from here. She died from natural causes. She leaves a husband and two small children.

SURRENDER TO THE REBELS.

Eight Hundred Spaniards Give Up Their Arms.

Manila, July 3, via Hongkong, July 10.—The water supply of the city is nearly exhausted. The pumps have not been working for three days. Gen. Monet's troops, numbering some 800, have surrendered, giving up their arms to the rebels. The captives were taken to Cavite. Gen. Monet escaped with Augusti's family, who had a passport from Gen. Aguinaldo. He was disguised as a woman, leaving his troops starving. An indignation meeting was held by the Spaniards, who went to the governor general to obtain an explanation as to why Gen. Monet came here without his troops, and demanding that he should be sent back. Owing to the fact that the Spaniards are excitable Monet's position is dangerous. Gen. Aguinaldo to-day issued a proclamation in Spanish and Tagal (the native language) announcing the birth of the Philippine republic, of which he assumes to be president. Gen. Aguinaldo claims that he will take Manila to-morrow or next day. This is not probable, however. Reports of the coming of the Spanish fleet through the Suez canal, coupled with the encouragement given the Spaniards by the Germans, has greatly stiffened Spanish courage, and it is expected the city will not surrender without a hard fight.

ARE STARVING.

Terrible Suffering Among Spanish Troops at Guantanamo.

(Copyright, 1898, by Associated Press.)

Playa del Este, Guantanamo Bay, July 10.—A Spanish soldier, terribly emaciated and so weak that he could hardly walk, was picked up by the men from the United States gunboat Annapolis at a point near the entrance to the upper bay. He had no rifle, for he was too weak to carry it. According to his story there are many Spanish soldiers in Guantanamo in the same state of starving. He says there is absolutely nothing to eat there, but the Spanish soldiers are daily told if they surrender to the enemy they will be killed. A corporal and eight privates from Baracoa came into the bay in a small boat and were picked up by the cruiser Marblehead. They were ostensibly greatly surprised and claimed not to have known that the bay was in possession of the Americans. They report that there is a great scarcity of food at Baracoa and that the Spanish troops there are in a bad way. Over 20,000 rations for reconcentrados have been landed across the bay by Commander McCalla, of the Marblehead, and the half-starved Cubans are flocking in from the hills for food.

MILITARY CHIVALRY.

Spaniards Appreciate the Americans' Conduct Toward Prisoners.

Madrid, July 10.—The feature of to-day was the departure of Duchess Isabel, mother of the queen regent. With her eyes swelling with tears she turned to the generals assembled on the platform and confided her daughter to their care. It was a touching sight. The incomprehensible mercurial Spanish temperament was again vividly demonstrated. Yesterday every one was talking of the war. To-day, after a night's reflection, peace is the word upon almost every lip.

It is curious in this respect that the impression made by the conduct of the Americans toward their prisoners has produced a feeling highly appreciated here, proving that Americans have the innate spirit of military chivalry which up to now it has been denied they possessed. In fact, as a Spaniard sitting next to me justly said, "It shows them to be a race of men who have the true military instinct." Much joy is expressed at the renewal of cable communications with Havana, all the more so as the first news it brings is that reinforcements have reached Santiago.

HOBSON'S WELCOME.

Wild Enthusiasm Marks His Reception on the New York.

(Copyright, 1898, by Associated Press.)

Off Santiago de Cuba, July 10.—The return of Assistant Naval Constructor Richmond P. Hobson, of Merrimac fame, to his ship, the flagship New York, was marked by wild enthusiasm. It was dark when a shout was passed along the ship that Hobson was coming. On the superstructure clambered the crew, ten deep, and on the quarterdeck the officers clustered around the sea ladder and a hundred hands were stretched out to clasp Hobson's. It was not until he was safe once more on deck that the crew of the New York cheered. Then they broke out into a yell that went up again and again until the men were hoarse. Hundreds of the crew reached the forward deck and the men struggled around the tall figure of the man who had dared so much.

LOST IN A STORM.

Eleven Lighters on Their Way to Santiago Swamped and Lost.

Washington, July 10.—The war department was advised that during a severe storm off the coast of Cuba eleven lighters en route to Santiago in tow of tugs were swamped and lost. So far as known no lives were lost. The lighters were from Mobile, New Orleans and Charleston, and were intended for the use of Gen. Shafter in transferring supplies and ordnance from the transports to shore. Their need was essential to the prompt forwarding of all military necessities to the front before Santiago. The war department on receipt of this information immediately put into operation steps to replace the lost lighters at once.

Strongly Opposes Peace.

Rome, July 9.—Italie says that negotiations have been opened among the European powers with a view of arranging peace. The best intentions, the paper asserts, are manifested at Washington, but the Madrid cabinet strongly opposes any idea of peace.

Mrs. Brownell Dead.

Dubuque, Iowa, July 10.—Mrs. Bert Brownell, who was shot by her husband June 22, at Oelwein, died at the home of her parents here. After shooting his wife Brownell killed himself.

BOMBARDMENT HAS BEGUN

SHAFTER NOW HAMMERING AWAY AT SANTIAGO.

Brief Official Telegram From Gen. Shafter Announces the Commencement of the Bombardment—Enemy Opened Fire With Eight Guns, Which Were Soon Silenced by Ours—Spaniards Kept Entirely Within Their Intrenchments—Believes That the Spanish General Will Surrender When He Finds It Impossible to Evacuate the City.

Washington, July 11.—"The bombardment of Santiago has begun."

That was the verbal information obtained shortly before 9 o'clock last night at the war department. Almost immediately three bulletins were posted, the most important of which was from Gen. Shafter. This dispatch announced that Gen. Torral, who succeeded Gen. Linares in command of the Spanish forces in Santiago when the latter was wounded, had declined to surrender unconditionally, and that the bombardment of the town would begin by the army and navy about 4 o'clock yesterday afternoon. The fact that the bombardment was scheduled by Shafter to begin so late in the day created some comment, but no explanation of it was offered. In answer to a question bearing upon that point, Gen. Corbin said, "I have not the slightest information as to the reasons Gen. Shafter had for beginning the bombardment at the hour he named, but is was probable he was ready just at that time. You can speculate about that as well as I can."

Positions Greatly Strengthened.

Information received by the war department during the few days of truce indicate that he has materially strengthened his position. During the past week he has received reinforcements of both artillery and infantry. Randolph's battery of twenty-four guns which left Key West last Tuesday at midnight, is now in position before Santiago, and as one of the war department officials expressed it, "When those long toms of Randolph's begin to talk something will happen in Santiago." Gen. Shafter has nearly fifty siege guns and a number of seven-inch mortars, besides lighter artillery, at his disposal. These guns, taken in connection with the work that can be done by the fleet, will, it is believed, carry

Terror and Destruction

to Santiago. Anxiety has been expressed by the war department officials as to whether Gen. Shafter had a sufficient force to prevent the evacuation of Santiago by the enemy. This anxiety was allayed about 12:30 last night by the receipt of the following dispatch from Gen. Shafter, which contained confirmation, too, of the earlier reports of the beginning of the bombardment:

"Enemy opened fire a few minutes past four with light guns, which were soon silenced by ours. Very little musketry firing and the enemy kept entirely in their entrenchments. Three men slightly wounded. Will have considerable forces to-morrow, enough to completely block all the roads on the northwest. I am quite well.

—"Shafter."

Gen. Garcia reports that the enemy evacuated a little town called Dos Caminos thirty miles from Santiago, and near the bay.

The belief is held by the best informed officials that Gen. Torral will surrender when he finds it will be impossible for him to evacuate the city.

RUSSIA IS BITTER.

Criticism of the Destruction of Cervera's Fleet.

London, July 11.—The press of all the continental cities is most actively discussing the prospects of peace, propagating various rumors to the general effect that the negotiations are all to very little profit.

The Russian papers are very bitter against the United States. The St. Petersburg Novosti characterizes the destruction of Admiral Cervera's fleet as brutal slaughter, and accuses the Americans of employing "some kind of new explosive machine or bomb, contrary to international law."

Starch Factory in Ruins.

Chicago, July 11.—A fire destroyed the plant of the Western Starch Manufacturers' association at West Hammond. The buildings covered seventeen acres of ground and had a capacity of 100,000 pounds of starch a day. Loss, $250,000; well insured.

Officials Arrested.

Yokohama, July 11.—Another plot at Seoul, the capital of Corea, against the government has been disclosed. Several prominent officials have been arrested on a charge of complicity. Others, including a former minister of war, have fled.

All the Passengers Rescued.

New York, July 11.—The Clyde line steamer Delaware, from New York to Charleston and Jacksonville, was abandoned off Barnegat, N. J., the steamer being on fire. There were seventy persons in all and they were all rescued.

Fatal Fire in Cleveland.

Cleveland, Ohio, July 11—Fire gutted the five-story brick building occupied by the Britton Printing company, causing a loss of $100,000. Several employes jumped from windows and one was killed and several injured.

Hospital Trains in Use.

Tampa, Fla., July 11.—The Iroquois and Cherokee, two transports from Santiago, have arrived. The latter ship has a large number of wounded, who are being transferred to the awaiting hospital trains.

THE MARKETS.

Sioux City, Iowa, July 11.—Hogs—$3.75@3.90. Cattle—Beeves, $4.25@4.70; canners, $2.25; heifers, $3.75@4.30; bulls, $2.75@3.50; stockers, $4.15@4.60; yearlings, $4.20@4.65; calves, $4.40@5.50. Sheep, $3.75@5.25.

Corbett and McCoy.

New York, July 11.—It is announced that James J. Corbett and Kid McCoy have agreed upon terms for a twenty-five-round match, to come off at Buffalo, Aug. 27. The purse will be $20,000, with a side bet probable. It is said that McCoy's representative provisionally accepted Corbett's stipulations that should the police interfere the latter is to have the winner's end of the purse.

On Gen. Miles' Staff.

Valley City, N. D., July 11.—This city is proud because one of its citizens, Col. John D. Black, is representing North Dakota at Santiago, while eighty-one citizens are on the way to fight with Dewey. Col. Black is chief commissary in Gen. Miles' staff, and served with this general at Fortress Monroe during the rebellion.

Victory for the Company.

Washburn, Wis., July 11.—The suit of the Ashland Lumber company et al. against the Washburn, Bayfield & Iron River railway, asking for the appointment of a receiver, etc., has been discontinued by stipulation. This is a victory for the railway company, as it avoids costly litigation.

Fatal Hotel Fire.

St. Joseph, Mich., July 11.—Hotel St. Joseph was destroyed by fire. Of the forty guests and employes in the building all escaped alive but I. B. Benson of Logansport, Ind. Benson was an employe and lost his life while trying to save books from the office. Loss, $130,000.

Not Enamored of Alaska.

Winona, Minn., July 11.—W. T. Valentine, who formerly lived in this city, has just returned from Alaska, where he went early last spring in quest of gold. He is much discouraged and says that for a person to realize anything he must spend years in that country.

Blood Poisoning.

St. Paul, July 11.—H. E. Warner, a clerk for the Swift Packing company at South St. Paul, while in the yard in the rear of the office Saturday evening, stepped on a brass screw which entered his foot. Blood poisoning has set in, which the physicians hope to check.

Drowned in a Cistern.

Lincoln, Neb., July 11.—A. H. Mendenhall, vice president of the State Journal company, fell into a cistern at his residence and was drowned. He left his bed to examine the condition of the cistern and was too weak to maintain his balance.

New Engines for the Great Northern.

St. Paul, July 11.—The Great Northern has received six new freight engines for Rocky mountain service from the Brooks locomotive works. A few days ago the company received six new engines for passenger service in the Rockies.

Box Breaks His Leg.

Wyoming, Minn., July 11.—George Murphy, fourteen years old, had his left ankle badly fractured while trying to move a heavy box on the platform of the depot. He was taken to St. Joseph's hospital, St. Paul.

A Dollar Verdict.

Grand Forks, N. D., July 11.—F. B. Feetham was awarded $1 in his libel suit against F. J. Duffy, of the Courier. He claimed $15,000 for allegations against his chastity.

Madden May Not Recover.

St. Paul, July 11.—Henry Madden, the St. Paul & Duluth brakeman whose head was crushed at White Bear Thursday while coupling cars, is said to be in a critical condition at St. Joseph's hospital. The skull is seriously fractured.

Had a Narrow Escape.

St. Paul, July 11.—Mrs. [illegible], a widow, residing at 1015 Randolph street, had a narrow escape in the destruction of her home by fire. The loss will approximate $1,200.

A CLEAN CAMPAIGN.

FERTILE, Minn., July 11, 1898.

Editor Crookston Times.

I see in The Tribune of July 7th an article on Judge Ives. I wish to say to the parties who are so low as to go to Roseau county and personally write out a scandalous lot of rot, that we are onto their little game. I have had a personal conversation with parties from Roseau county and who know the contents of the affidavits spoken of in the Tribune, and they declare it a put up job. I have evidence in writing sufficient to condemn the instigator of this low piece of political cussedness. I, a chairman of the judicial county, have the papers for future use. If the republicans want a mud throwing campaign they can have one if they so desire, but we think the populists will come out as white, if not a little bit cleaner than our republican brothers. Put up your candidate for Judge, no one will complain, give us the best lawyer in your party, come out for an honest fight, but for heaven's sake let mud throwing alone.

J. S. NICHOLS.

Washington Letter.

From our Regular Correspondent.

Admiral Sampson has been much criticised in Congress because of his failure to even mention Commodore Schley's name in his dispatch announcing the destruction of Cervera's fleet, when it was well known that Schley was in command and directed the fight that resulted in the destruction of the Spanish fleet, and that it was to Schley that Cervera surrendered. As a result of this criticism a resolution was offered in the Senate by Senator Pettigrew and in the House by Representative Berry, of Ky., extending the thanks of Congress to Commodore Schley and the officers and men under him for destroying the Spanish fleet. Mr. Berry said of this resolution: "I propose that the officers to whom the glory is due shall be recognized. Schley is the real hero of the incident. He and the brave band of officers and men under his immediate direction are the ones who achieved the victory, and all honor should be given them."

Senator Hoar's protest against the adoption of an imperial colonial policy by this government, made in a speech favoring the annexation of Hawaii—it seems a little paradoxical to favor the annexation of some particular islands and oppose the taking of any others, but that is Mr. Hoar's position caused a sensation in the Senate, especially on the republican side. Of the annexation of Hawaii he said: "If this is to be the first step in a policy of dominion over barbarous archipelagos; if we are to join with Europe in the plunder of China and the pillage of Africa; if we are to be governed in part by people to whom the Declaration of Independence is a stranger, or, if we are to govern people with whom life and property are not sacred, then we should shun this proposition." He thus spoke of a colonial policy: "I believe that if we come out of this war without entering upon the fatal folly of retaining far distant possessions, the world will be so impressed with our strength that no nation will attack us for a hundred years." He declared that this country did not want the enormous debt and increased taxes that a large standing army and a great navy would bring, and that, "The starry flag is no emblem of dominion! In time of peace let it not fly over conquered territory. It is the emblem of peace and freedom."

AMMONIA SAVED HIM.

A PENNSYLVANIA DOCTOR'S EXPERIENCE WITH WOLVES.

Lost In a Wilderness, He Had to Abandon His Horse and For Forty-eight Hours Carried on a Contest With His Life as the Stake.

The following is a true wolf story written from data furnished by Dr. Thornton of Lewisburg, Pa., whose father figures as the hero:

"About the year 1845 wolves were abundant in Tombicken valley, between Catawissa and Hazleton. When the Catawissa railroad, a part of the Philadelphia and Reading, was being built, Dr. Thomas A. H. Thornton, a practicing physician, one cold autumn night was called out of bed to visit a patient about 20 miles from his home. At that time there were no regular roads as we now have. In their place the traveler used narrow paths or trails. Dr. Thornton in his anxiety to reach the bedside of the sufferer attempted to make a short cut. He lost his way and for a week wandered through the wilderness and, having no gun, was obliged to subsist on roots and herbs. The doctor was on horseback and after wandering aimlessly about the pathless forests for four or five days got into a large swamp, where the horse stepped into a quagmire, from which his owner was unable to extricate him, and the animal had to be abandoned, imbedded as he was almost to his belly in the soft and boggy bed. The doctor removed the saddle bags containing his supply of medicine, etc., threw them over his shoulders and started off.

"Several hours after the doctor got out of the swamp where he had abandoned his horse he was horrified to see that he was being followed by a band of five or six wolves. At first they kept at a respectful distance when stones were thrown at them, but finally, as if they appreciated the helpless condition of their intended victim, and as darkness came on, the hungry, bloodthirsty band became bolder and bolder. They circled around the terrified and jaded man and, closing in, started to attack him on all sides. One more vicious and impulsive than the others made a spring at the doctor's throat, but a well directed blow from a club temporarily disabled the animal and caused his ravenous companions to discontinue at that time their premeditated and combined attack.

"The doctor, by this thrilling episode and the frightened condition of the wolves, succeeded in going perhaps a mile unmolested when, to his great horror, he found the whole pack, led by the vicious brute he believed he had maimed with his club, hot on his trail. The stunning blow administered to the leader of the howling band seemed to have only intensified the brute's courage and thirst for blood. The man, weakened by long exposure and loss of food, realized that he would soon be torn to pieces if he did not adopt some new means of defense.

"Fortunately, as the animals began closing around him for another onslaught, he reached a high rock and mounted on its top, where a giant tree served to protect him from falling backward. He reached this eminence in time to provide himself with some stones and two or three good clubs before his pursuers started to attack him. He stood back to the tree, and as the animals attempted to come up he drove them back with his primitive weapons. A large stone hurled with great force and accuracy broke the head of one of the assailants, and this gave the doctor a breathing spell.

"The man, however, realized that he must soon quit his refuge, and, remembering that he had in his saddlebags a large bottle full of ammonia, he determined to employ it as a final resort to save his life. He quickly removed one of his green baize leggings, tied it securely to a stick, and after saturating the legging with ammonia he boldly started down the rocky promontory toward the wolves. The cunning animals, apparently aware that he could be more easily overpowered on level ground, separated, slunk off and permitted him to proceed several hundred yards before they renewed the pursuit. They did not, however, allow much time to elapse before they took the trail of the man who had thus far so successfully baffled their powers.

"The doctor stood still and waited until one of the brutes rushed within an arm's length, when he struck him in the face with the cloth saturated with ammonia. This reception was a most novel and unique one for the wolf, who ran off howling with pain. Two more of the band were slapped across the mouths with the saturated baize, and they also left. After this experience the wolves followed the doctor till daylight next morning, when they gave up the chase, which they had continued for 48 hours and which unquestionably would have resulted in a most horrible death if it had not been for the contents of the ammonia bottle.

"Dr. Thornton succeeded in finding a shanty occupied by the men constructing the Catawissa railroad, where he was carefully cared for, and in the course of four or five days was taken to his home, where he was ill for fully a month."—Philadelphia Record.

Where the World Lives.

Of every 1,000 inhabitants of the globe 558 live in Asia, 242 in Europe, 111 in Africa, 82 in America, 5 in Oceana and the polar regions and only 2 in Australia. Asia contains more than one-half of the total population of the earth and Europe nearly one-fourth.—London Tit-Bits.

An Advanced Stage.

Smith—A physician told me that salt water is a cure for lunacy.

Jones—Well, I know it is a cure for freshness, and that is usually the first stage of lunacy.—Chicago News.

—Every farmer who writes a letter occasionally should get envelopes with his name and address printed in the corner. We will furnish 100 of the best quality printed in any style for the small sum of 75 cts. Send in your order.

By special arrangement with the publishers we are enable to give FARM, STOCK AND HOME one year and the ST. HILAIRE SPECTATOR for **$1.25.**

WANTED!

—I will purchase Red Lake county orders, School District orders and St. Hilaire Village orders at a small discount.

H. E. IVES.

Buying "Gums" In America.

Englishmen and Americans frequently differ greatly in the names they have for the same object. A well known artist came to an American city from London, and after becoming settled went out to buy some artists' materials. He went to a stationery store, and after purchasing several things said:

"By the way, do you keep gums?"

The saleswoman smiled.

"No, indeed," said she, "but I think you can get them next door."

The artist thought it was peculiar that he could not get what he wanted at a stationer's, but thought perhaps it was American. So he went next door and found it was a shoe store.

"A funny place to keep gums," quoth he, but in he walked and asked for gums.

"What size do you wear?" said the woman who met him.

That floored him.

"What on earth has that got to do with it?" thought he, but he discovered that he wore sevens.

Soon the woman appeared, carrying a pair of overshoes.

"Will these suit you?" said she to the surprised Englishman.

"I don't want those. I want gums, something to stick with. It comes in a bottle."

"Oh, you mean mucilage," said the girl radiantly. "You can get that at any stationer's."—St. Louis Star.

The English Patent Office Library.

If the poor inventor is not entirely ignorant of patent procedure, he knows that the patent office makes no search to test the validity of his invention, and so he comes to undertake it himself. If he finds that his invention appears in no previous patent, he is confirmed in his belief that he will at last see his dreams realized and that he will in a short time possess great wealth. If, on the other hand, he finds his ideas have been anticipated, his dreams of fortune fade away like mist before a morning sun, and life, as he has known it for so many weary years—hard, toilsome, pitiless to those who, like himself, lack money—lies painfully clear before his view.

A short three hours—or even less—spent in this library may plunge the man who entered it hopeful and bright into deepest despair, and it is certain that within its walls many silent tragedies of this kind are enacted week by week and noticed by only few if any of those around. But inventors are a hopeful race, and though some who suffer such a disappointment of all their hopes may never recover from it there is no doubt many recommence their experiments and elaborate other inventions from which they expect the same, or even greater, realities of wealth and happiness.—Chambers' Journal.

Not Quite Certain.

A case was being tried in court, and the particular question at issue was the number of persons present when a certain event occurred. An honest but simple minded German was in the witness box.

He had never taken an oath before and was not a little disconcerted. The lawyer who conducted the cross examination saw his opportunity and badgered him with questions after the manner of his kind.

"How many did you say there were present?" he shouted, bringing his fist down upon the table as though the fate of empires trembled in the balance.

"Vell," meekly answered the witness, "off course I gould not ehust say, but I dinks dere vas between six and sefen."

"Tell the jury what you mean by that," roared the lawyer. "How could there be between six and seven? Were there six or were there seven?"

"Vell," answered the witness, "maybe I vas wrong. Dere vas more as six, but dere was not so much as sefen. One was a fery leetle boy."—Pearson's Weekly.

Lobengula's Justice.

Only one old tree marks the spot where the king used to sit administering justice to his subjects. A large part of this justice consisted in decreeing death among his indunas or prominent men who had excited his suspicions or whose cattle he desired to appropriate. Sometimes he had them denounced—"smelled out," they called it—by the witch doctors as guilty of practicing magic against him. Sometimes he dispensed with a pretext and sent a messenger to the hut of the doomed man to tell him the king wanted him. The victim, often ignorant of his fate, walked in front, while the executioner, following close behind, suddenly dealt him with the knobkerry, or heavy ended stick, one tremendous blow, which crushed his skull and left him dead upon the ground. Women, on the other hand, were strangled.—"Impressions of Africa," by Professor Bryce.

Looking Ahead.

New Boarders—That bed's rather narrow for two.

Landlady—Three have slept in it.

New Boarders—Yes, but we haven't boarded here long enough yet to get that thin.—Harper's Weekly.

Extra Inducements.

"Extraordinary Fire Sale" read the advertisement. "Customers are invited to call and examine goods, which will be found still warm."—Philadelphia North American.

Chalky Bed of the Atlantic.

The bed of the Atlantic from 400 to 2,000 fathoms is covered with an ooze, or very fine chalky deposit, consisting to a great extent of minute broken shells.

Near the Caspian sea there are several "eternal fires," so called by the natives, where natural gas issues from the ground and has been on fire for ages.

The stem side of the orange is not nearly so sweet and juicy as the other half.

U. S. LAND OFFICE.

Crookston, Minn., May 31, 1898.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office at Crookston, Minn., on July 14, 1898, viz:

Edwin Evenson, H. E. No. 14100, for the se¼, sec. 8 twp. 152, N. of range 42 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:—Andrew Nelson, Andrew Rolstad, John Olson and Simon Olson, all of St. Hilaire, Minn.

SYLVESTER PETERSON,
45-50 Register.

SHE MISSED IT.

Because What the Congressman Said Did Not Apply to Her.

"I know what I am talking about," remarked a member of congress, "when I say that a congressman has trouble of his own. It's a fine thing to be a statesman and show up in the national parade of greatness at the capital, but there's a good deal more to it than that. And one of the things that is hardest to bear is what they say about us. Why, a lady can't come up here and ask to see a member that there aren't a half dozen people to wink and shake the head and a lot more of the same to make him wish all the women were in Hades. Of course there is some ground among us for remarks, just as there is among preachers and doctors and hod carriers and everybody else human, and I know a woman or two who find their chief delight in trying to involve congressmen and other officials in any kind of a flirtation that comes handy. They are pretty and persuasive, and before a man knows what he is about he is down in the senate restaurant paying for a lunch and listening to some kind of a tale of woe.

"But they miss it now and then, and I am glad to note an instance. A member from a northern state had been invited to call at the lady's hotel the next day, and she had asked him to let her know if he could come. He wrote, saying among other things, 'Tomorrow, madam, I hope to see the loveliest woman in the whole world.' Naturally she was pleased and told all the people around the hotel about it. The next day he did not appear, and the next she saw him at the capitol and asked him what he meant by treating her so.

"'What did I do?' he asked innocently.

"'You said you were coming to see me,' she said, blushing at the remembrance of his words.

"'I think not.'

"'Indeed you did,' she insisted. 'You said you would see the loveliest woman in the world,' and she blushed again.

"'Oh, I beg your pardon,' he said, smiling. 'I meant my wife. She just arrived yesterday.'"—Washington Star.

Welcome Words.

"Yes, his sermons are tiresomely long, but he always says something to the point."

"Well, what did he say to the point last Sunday?"

"'In conclusion.'"—Cleveland Plain Dealer.

The name California, derived from the two Spanish words caliente fornalli—i. e., "hot furnace"—was given by Cortes in the year 1535 to the peninsula now known as Lower California, of which he was the discoverer, on account of its hot climate.

—The SPECTATOR is the official paper of the village and county. Now is the time to subscribe. $1.00 per year if paid in advance—otherwise $1.50.

U. S. LAND OFFICE.

Crookston, Minn., July 1, 1898.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office at Crookston, Minn., on Sept 30, 1898, viz:

Anna C. Braaten, formerly Anna Seaverson, H. E. 14326, for the sw¼ nw¼ sec. 8, twp. 153 n of range 44 w.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:—Nels K. Anderson, Gilbert Peterson, Christian Narveson and Henry Ellason, all of St. Hilaire, Minn.

LIQUOR LICENSE APPLICATION.

To the Common Council of the village of St. Hilaire, in the county of Red Lake and State of Minnesota.

The undersigned, Charles Tedford, hereby make application for a license to be granted to him to sell intoxicating liquors for a period of twelve months from the first day of July 1898.

The place where said business is to be carried on is designated as follows: On the ground floor of the two story building situate on lot three (3) of block forty (40) of the original townsite of St. Hilaire, Red Lake county, Minnesota, said building having two outside entrances, one in front and one in the side.

Said applicant prays that such license be granted to him pursuant to the ordinances of said village of St. Hilaire and the statutes of said State of Minnesota in such case made and provided.

Dated at St. Hilaire, this 8th day of June 1898.

Charles Tedford.

Notice is hereby given that the village council of the village of St. Hilaire, Red Lake county, Minnesota, will meet at the council chamber in the village hall on Broadway in said village on Friday the 22nd day of July 1898, at eight o'clock p.m. at which time objections to granting said license in accordance with the above application will be heard.

[SEAL] J. L. JOHNSON, Recorder.

LOCAL NEWS.

Wheat 70 cents to day.

Yesterday was Orangemen's day.

St. Hilaire now has two drug stores.

Cut the weeds around your premises.

—Get your dresses made at Mrs. Fred Case.

How about the wild mustard in your fields?

Look over the Five cent counter at Hall's.

The county commissioners are in session.

The June berries are ripe and quite plentiful.

Several loads of new hay was marketed last week.

Mrs. Bosworth returned from Minneapolis Monday.

—Dr. Thomas, the Crookston dentist will be here July 25th.

The mosquito crop is a heavy one and causing lots of trouble to stock.

We now have only two butcher shops—the third going out of business.

—Dr. W. A. Moore, dentist of St. Paul has permanently located in Red Lake Falls.

About twenty St. Hilairites will leave tomorrow on the Winnipeg excursion.

Will Sorsoleil handles all kinds of doors, sash and windows. Call and see him.

Two sisters of charity from Grand Forks were here yesterday on missionary work.

Emil Holmes was under the weather a few days last week with feverish inclinations.

Farmers should take a few hours off and mow the weeds along the roads around your farm.

Mr. and Mrs. T. H. Shevlin were here last Friday. This was Mrs. Shevlin's first visit to St. Hilaire.

Two of Ireland's sons—Kelley and Alexander were down from the upper Falls the first of the week.

We forgot to mention last week that a son was born to Mr. and Mrs. J. A. Dainard Sunday July 3rd 1898.

Mr. and Mrs. Atwood and Miss Mabel Owen drove up from Red Lake Falls, Sunday to witness the ball game.

Mrs. C. Eikhoff and Mrs. J. Risch of Crookston are here visiting with Mr. and Mrs. Fred Eikhoff since last Friday.

Any person neglecting to take out his second papers by August 6th will bar himself from voting at the coming election.

Crookston will have another street fair this fall—so it was decided upon at a citizen meeting held last Friday evening.

There is no need sending off for your medicine they can be obtained at the new Drug store. Call in and get a calendar free.

Dr. H. Francis has carpenters at work erecting a fine residence opposite Col. Stranahan's place—one of the finest sites in the village.

Another attempt will be made to organize a fire department soon. Talk it over among yourselves and you will realize we need one.

By reading the Crookston Tribune the past few days one would suppose it was turned into a sewer—good drainage for sore heads, etc.

The Deering machinery speak for themselves—that is the binders, mowers and hay rakes so says Leonard Holmes, the local agent.

The "dog catcher" at Bemidji was caught in the act of stealing chickens and was run out of town on the sharp end of a pitchfork last week.

There is something radically wrong when the bankers pass up St. Hilaire and start in an institution in a town with no farming country behind it.

It was J. Adam Beda who said all political parties in Minnesota use a little Norway pine in their platforms just to catch the Scandinavian vote.

O. T. Romsos of Wylie was looking over the village last Saturday. He noticed many improvements in the building line since the first of the year.

I. O. O. F. Installation.

At the regular meeting of St. Hilaire Lodge No. 147, on Thursday evening, by J. M. Markham D. G. M. were installed the following officers for the ensuing term:

C. G. Rapp, N. G.
E. M. Hoff, V. G.
J. B. O'Brien, Secty.
L. N. Nolan, R. S. N. G.
P. G. Paradis, L. S. N. G.
Wm. Martineau, Conductor.
J. J. Soll, Warden.
Jas. Strader, R. S. S.
J. H. Johnson, L. S. S.
Ed. Gjerswold, O. S. G.
Christ Hall, I. S. G.
John Morgan, R. S. V. G.
W. A. Sorsoleil, L. S. V. G.

The Lodge is in a flourishing condition having a membership of forty and new applications coming in regularly.

George Ossmann, the furrier passed through here to-day enroute to Thief River Falls.

Gov. Ramsey, the first territorial governor of the state, will lay the corner stone of the new capitol on July 27. Senator C. K. Davis will deliver the oration.

The Iroquois Indian Medicine Co., are giving nightly entertainments at Brinks Hall. They will remain here one week. They started in Monday evening.

Mrs. J. P. Johnson left Friday for North Dakota where she will remain a few weeks visiting relatives and friends Mr. Johnson accompanied her as far as Crookston.

The Crookston Tribune says, "The Shevlins are anxious to get a telephone line from Crookston to St. Hilaire and it is not unlikely that the Crookston company will build one.

Ed. Gistie formerly of this place but now in the mercantile business at Elmore, this state, arrived last Saturday and will remain a short time visiting relatives and friends.

July 15th is American day at the Winnipeg exhibition. The Northern Pacific will run special trains on all their lines. A large crowd from here will go via Red Lake Falls.

—Dr. Thomas, the Crookston dentist will be at Hotel Markham (Monday) July 25th well prepared to do anything in the dental line. Remember this and govern yourselves accordingly.

Judge Ives will hold a special term of district court at St. Hilaire July 25th for the purpose of affording an opportunity to all persons who may desire to take out final papers of citizenship.

Street Com. Harris:—Say if I only had time and the council let me fix the streets as I want to, I would round them up so the water could not stay on them. They would be just as good as paved.

Alex McIntosh returned Friday from St. Andrews, Ontario, where he has been the past two months and a half visiting his parents. Mr. McIntosh has been away from home the past twelve years and he enjoyed the trip very much.

If you want a view of an almost ripe candidate for the reform school or penitentiary, just glance at the street-corner critic who prides himself on the extent and fetching wit of the slangy bonmot he hurls at defenseless ladies who are compelled to pass his way.—Prison Mirror.

The Odd Fellows at Thief River Falls at their last meeting appointed a committee of three to consider the advisability of building a two story brick block, the second story to be occupied as their lodge room while the first would be for rent. A similar move is on foot here also.

—If you are in need of a pair of glasses J. Q. Adams will fix you out on his next trip to St. Hilaire which will be July 11th 12th and 13th. If you have a watch or clock that needs repairing or cleaning leave it at Johnson's drug store and that will be attended to.

O. H. Myron has been nominated by the republicans of the 61st legislative district for senator. Myron is a rich Ada politician, in "wid de gang," and supposedly strong. His opponent is H. E. Ives, of St. Hilaire. Ives will be elected. The populists have over 1,000 majority in this district.—Red Lake Falls Gazette.

A scandal-monger is a pest in the community. Like a snake in the grass a thief in the night, they seek to destroy the character of others and drag them down to their own degraded condition. Nothing is so danger to their morality and standing of a community as the spiteful scandal-monger, very aptly remarks an exchange.

Corporals Lord and Coogan of Co. "L" 14th Regiment Minn. Volunteers kindly remembered ye editor last week by sending an ink stand. It is treasured very highly as a relic. It is a root of some kind of a creeping plant taken from the top of the Lookout Mountain and clever hands arranged it so as to make a very unique ink stand.

A statistical genius has figured that an average waltz takes a dancer over about three quarters of a mile. A square dance makes him cover half a mile. A girl with a well filled program travels thus in one evening: Twelve waltzes, nine miles; four other dances at half a mile apiece, which is hardly a fairly big estimate, two miles more, the intermission stroll, and the trips to the dressing room to renovate her gown and complexion, half a mile; grand total 11½ miles. No wonder the poor, dear thing is too tired to help her mother do the housework in the morning.—Ex.

Sociable.

For the benefit of the Sw. Ev. Lutheran church will be held in the Norwegian Lutheran Church, Friday, July 15th at 8 p. m. All are cordially invited. THEO. SEASHORE, pastor.

Base Ball.

Sunday was an ideal day to play ball. The only impediment in the way of having a game was the bad roads between here and the upper Falls. Late Saturday evening the Thief River Falls boys thought they could come and true to their word they arrived about noon. The game was a close one and well played. Wild throws were less numerous than in previous games. The score stood seven to ten in favor of the visitors.

The game was witnessed by a fair sized crowd and very much enjoyed.

Minnesota Day at Omaha.

Minnesota's handsome building on the Trans-Mississippi Exposition grounds will be formally dedicated to exposition purposes on July 20. This will be Minnesota Day at Omaha. Governor Clough will visit the Nebraska metropolis with his staff, and a large number of citizens of the state is expected to take advantage of the reduced railroad rates to visit the exposition.

The Minnesota Building is in the form of a Swiss cottage, and is constructed entirely of Minnesota logs in native condition. Its dimensions are 60x100 feet, two stories high. It stands in a favorable position on the Bluff Tract, near the Nebraska building and almost facing the magnificent Horticulture building.

Following is the program for the dedication ceremonies which will commence at 10:30 a. m.:

PROGRAM FOR MINNESOTA DAY, JULY 20.

Raising of "Old Glory" and State Pennant with "Hail Columbia" by the Band.

Five minute address by John L. Gibbs president Minnesota State Commission.

Five minute address by Governor Clough, turning building over to Exposition.

Response by President Wattles, accepting building.

"America" by the band and audience.

Minnesota Ode—Short poem by W. S. Harwood.

Address (of the occasion) Dr. C. N. Northrop, President University of Minnesota.

Audience invited into building for refreshments.

Music.

E. L. Danfort, secretary of the Minnesota Commission, says a very large number of Minnesotans will attend the dedication of the state building.

Some Naval Definitions.

Fathom—A measure of six feet.

Armament—A term expressing collectively all the guns of a ship.

Jacob's Ladder—A short ladder with wood rungs and rope sides.

Capstan—A machine used on board ship for lifting heavy weights.

Bow Chaser—A gun mounted on the bow to fire on retreating vessels.

Bulkhead—A partition separating compartments on the same deck.

Cable—A long heavy chain used to retain a ship in place at anchor.

Binnacle—The compass box of a ship, with a light to show it at night.

Gangway—The aperture of a ship's side where persons enter and depart.

Displacement—The weight in tons of the volume of water displaced by the ship's hull.

Barbette—A fixed circular belt of armor for protecting the guns in a revolving turret.

Knot—A nautical mile of 2,025 yards, equal to about one and one-eighth statute miles.

Monitor—A low, nearly flat-bottomed armored vessel, with one or two turrets, each carrying two guns.

Bridge—A platform above the rail extending across the deck for the convenience of the ship's officers.

Conning Tower—An armored tower where the wheel, engine, telegraph, etc. are located and from which the captain is supposed to direct his men.

Weekly Crop Bulletin.

For the week ending July 11th 1898.

The weather was warmer in the early and middle parts of the week than at the close. There were showers early in the week; generally light, but in parts of Ottertail and Marshall counties they were heavy, flooding lowlands and in Marshall Co. some grain fields also. Hailstorms caused some damage to crops in Kittson and Marshall counties on the 5th. Small areas in the central portion of the south had showers frequent enough to delay haying, and in some places to cause injury to the curing crop. The week has been very favorable for all small grains. Rust conditions have been almost entirely absent. Small areas may have been knocked down by local storms, but the lodged grain generally shows a tendency to straighten up. Heading in spring wheat has advanced to the northern state line, and it is in bloom, or past the bloom stage, in the southern counties. In Kittson Co., new land and fallow wheat is excellent, but old land wheat is thin and short. The oat crop is a good one, and it is rapidly approaching ripeness. Barley is a good crop, and it is being cut in the southern counties. Rye harvest is on. Hay in Kittson Co. is thin and short, but in other parts of the state the crop is good and where rainfall has been abundant the crop is very heavy. Cutting is general in most of the state, and well advanced in the south. Corn has grown very rapidly and is in tassel in many places. All reporters, except one in Norman Co. say that the potato crop is a good one. Late flax is doing well except on some wet lowlands. Black raspberries and raspberries are yielding large crops.

T. S. OUTRAM,
Section Director.

Methodist Episcopal Church.

Services next Sunday at 10 o'clock a. m. and 8 o'clock p. m. Sabbath School at 2 p. m. Junior League at 3 p. m.

Notice of Summer Training School.

The first annual training school for Red Lake County will convene in Red Lake Falls July 18th, 1898, at 8 o'clock a. m. All teachers and persons intending to teach are invited to attend.

FRANK JEFFERS,
County Supt.

Notice.

To the farmers in the northern part of Red Lake county.

When you want to insure your crop against hail bear in mind that there is a Mutual Hail Insurance Association right here at home known as the Rocksbury Mutual Hail Insurance Association. This company was incorporated last winter and a license granted to said association by the Insurance Commissioner of the State of Minnesota. There is more than one advantage derived by insuring in a home company like this.

First, instead of sending your money abroad you keep them right here at home and next where you pay more or less of your assessment you can feel confident that it goes to somebody who has suffered a loss in place of paying high wages and big salaries to a host of officers.

The expenses in carrying on this business is thought to be a small per cent of the outlay. And last of all but not the least, you know or are acquainted with the men you are dealing with or who manage this affair from year to year.

The territory in which said association intends to insure crops for this season is the following townships in Red Lake county as follows: Bray, Numedal, Norden, North, Rocksbury, Sanders, Polk Center, Black River, River Falls, Wyandotte and fractional parts, town 153 range 42 and town 152 range 43.

For further particulars apply to O. H. Peters in St. Hilaire and Lars Backe in Thief River Falls, duly appointed agent of said association or directly to P. Engelstad secretary of said association or any of its officers.

Please call on the secretary or agents for a sample copy of the company's articles of incorporation and by-laws.

Very respectfully,
P. ENGELSTAD.
Secretary Rocksbury M. H. I. A.

Platform of the Democrats, Populists and Silver Republicans.

First. They are unalterably opposed to gold monometallism.

Second. They demand the immediate restoration of bimetallism at the present ratio by the independent action of his country.

Third. They oppose the retirement of the greenbacks.

Fourth. They oppose the issue of paper money by national banks.

Fifth. They oppose the issue of interest-bearing bonds.

Sixth. They favor the income tax as a means of raising part of the revenue necessary to administer the federal government.

Seventh. They favor the abolition of trusts.

Eight. They are opposed to government by injunction.

Ninth. They are in favor of arbitration and means of settling disputes between labor and capital.

Council Proceedings.

Regular meeting of the Village council Tuesday July 5th 1898.

All members present except Hoff.

Meeting called to order by Pres. Ives.

On motion the minutes of last meeting was read and approved.

On motion it was resolved that we raise the sum of fifteen hundred dollars ($1500) by taxation for current expenses for the ensuing year.

On motion the pool and billiard table license was fixed at $5.00 for the ensuing year.

On motion the following bills were allowed:

S Harris, street work as per bill..	29	25
C Johnson " " " " "..	10	50
Geo Olson " " " " "..	4	12
Jas Squires " " " " "..	9	37

C A Skeie 1 day juror	1	12
" repairs for fire pump.		75
St. Hilaire Lumber Co., lumber as per bill..........	99	61

On motion meeting adjourned.

Attest:— H. E. IVES,
President.
J. L. JOHNSON,
Recorder.

It is well to remember that all promissory notes, deeds and contracts will have to bear a government stamp on and after July 1st to be legal and binding. A two-cent stamp will also have to be affixed to every telegram and telephone message and bill of lading for freight or express matter. Every insurance policy, deed lease and in fact about every kind of a legal paper will have to be stamped also. To those who were in business during the war of the rebellion the affixing of these stamps will come easy enough, but it will take months to accustom younger men to the change.—Aberdeen News.

—The SPECTATOR is for sale—at one dollar a year—strictly in advance.

"I'm So Tired!"

As tired in the morning as when I go to bed! Why is it? Simply because your blood is in such a poor, thin, sluggish condition it does not keep up your strength and you do not get the benefit of your sleep. To feel strong and keep strong just try the tonic and purifying effects of Hood's Sarsaparilla. Our word for it, 't will do you good.

Hood's Sarsaparilla
Is America's Greatest Medicine.

Hood's Pills cure all Liver Ills. 25 cents.

Man.

First Sweet Young Thing—Hasn't he lovely eyes?

Second Sweet Young Thing—Yes; but he drinks awfully.

First Sweet Young Thing—But isn't his moustache too sweet for anything?

Second Sweet Young Thing—It is pretty, certainly; but they say he is such a terrible gambler.

First Sweet Young Thing—What a charming smile he has?

Second Sweet Young Thing—But he is so shockingly immoral.

First Sweet Young Thing—O, well, dear, you can't have everything in a man, can you?—Ally Sloper.

Try Allen's Foot-Ease.

A powder to be shaken into the shoes. At this season your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. SYRUP OF FIGS

NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, Cal.
LOUISVILLE, Ky. NEW YORK, N. Y.

MESSAGE FROM PAST.

It was the spring of 1865. Morning lifted two wings of light above the dark pines and slowly dropped the radiant eastern bars, one by one, for the sun to pass through and crown a perfect day. The sunshine fell like a smile of God upon the beautiful south; but little cared the crowd of angry men, citizens and ragged soldiers in gray, for her beauty as they trampled under foot the golden bells of the jasmine that covered the railroad bank at Barnet, until the air was heavy with fragrance, as they crowded about the car in which Major Moses was carrying gold bullion to deliver to the federal authorities stationed in Augusta, after Lee's surrender.

The war had confused men's ideas, and the soldiers, who were unpaid, swore that the gold was as much theirs as any one's. In front of the angry crowd swaying round the sidetrack where Major Moses had switched off the treasury car stood a young soldier, his arm in a sling, who wore the epaulets of an inferior officer; he was tramping home after the surrender, for he had been with Lee in Petersburg, and helped to form that "thin, gray line" which kept Grant at bay during that terrible winter.

He was heartsore and desperate, and although he knew what fearful suffering a continuance of the war would have meant for the south, his dark eyes flashed as he heard Major Moses say firmly:

"It is my duty to deliver this gold to the United States government—the government which has conquered us—and I shall do so. The law as well as our honor——"

Here a ragged little drummer boy began to pound his drum, drowning the rest of the sentence. Then a soldier cried out:

"We will not let you hand that money over to the Yankees while we starve!"

"Do you want to give them everything?" asked the other, loudly.

Jeers followed. Where drums beat law is silent; the crowd, seizing the treasure car, began pushing it towards the depot.

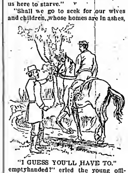
But Major Moses, who stood in front of the train, leaped forward, sprang into the doorway as it rolled along, and, drawing his sword, cried:

"You shall not touch it! It is intrusted to me to deliver, and I will defend it with my life."

The car soon reached the depot, and there two or three other officers came to Major Moses' assistance; they appealed to the honor, the patriotism of the crowd, but they appealed in vain:

"The gold belongs to us!" the soldiers cried. "We have fought and bled for the south, and we will not let you hand it over to the Yankees and leave us here to starve."

"Shall we go to seek for our wives and children, whose homes are in ashes, emptyhanded?" cried the young officer with the sling, who seemed to have fallen naturally into the position of ringleader, in a voice whose passion and desperation thrilled across every heartstring.



"I GUESS YOU'LL HAVE TO."

"I will beg that rations be handed out to the starving soldiers of the south," said Major Moses.

Words sometimes mean more than swords and hurt worse.

"Beg!" they jeered. "Not while we can take our own! And we are armed to do it!" they declared, closing about their leader.

Followed by that desperate, hungry, conquered crowd, the young officer sprang upon the treasure car.

Major Moses had advanced, sword in hand, swearing to plunge it into the first man who entered, when the young officer caught the naked blade. Major Moses' eyes fell upon his epaulets.

"Hold!" he said. "I am one and you are many; but your rank, sir, indicates that you are a gentleman, and your wound that you are a gallant soldier. I appeal to you in the name of that spirit of honor which belongs to all brave men to assist me in the discharge of my trust—and your country's."

The young officer was silent a moment, but he was conquered.

"I must, I suppose," he said at length, and, turning to the crowd, he cried: "Boys, I am one of you, as poor, as hungry, as homeless—but we have not lost all—let us still keep our honor as brave men."

Springing down, he went about from group to group until he quieted them; then, returning to Major Moses, he saluted and said:

"Sir, you can now continue your trip to Augusta in safety—they will not disturb you again."

With a farewell glance of sympathy and pity for those whose garb resembled his own, he turned and left the crowd. Many of them muttered angrily as he passed. He sat down under a great pine up which a jasmine clambered, bearing long arms full of beauty and fragrance far up its stately height. But he heeded neither the radiance nor the loveliness about him, as he drew from his pocket a stained, worn letter and began to read it aloud:

"Dear Jack: Do come at once. We are in actual want of food, and baby is ill——"

He read no further; his voice broke in his throat in a great sob.

"God help you, Nellie, if you are waiting for help at your husband's hands! O, my God! I had two—but I have only one left to fight the enemy, poverty, from our home—if we have a home yet. O, Nellie! My poor Nellie!"

With a groan he flung himself face downwards upon the pine needles, his head upon the arm of the hand which clutched the letter convulsively.

A slight noise aroused him, and, looking up, he saw a mounted union soldier, a mere boy, who held a small shotbag full of something. He had evidently observed the entire scene, for a suspicious moisture dimmed his brave, blue eyes.

"Hello, Johnny Reb!" he cried. "Homesick? I've got to go home, too—to New York—and have just got my pay; but I guess you need it more than I do; I can get some of the boys to help me out." And he threw the bag of gold at his feet.

The rebel rose to his full height, and, picking up the bag, extended it to the union soldier.

"Do you think," he asked scornfully, "that I, who have refused to take gold belonging to us, will touch this?"

"I guess yer'll have to," returned the boy soldier, his blue eyes flashing one merry glance into the disdainful brown ones. "So long!" he cried, as he put spurs to his horse and galloped away.

The young officer, after a moment's hesitation, put the letter in his pocket, and whispering softly, "For Nellie's sake," went on towards the blue mountains, where his home lay in ashes—and where "Nellie" waited for him—with softened thoughts for the enemy who had conquered so generously.

It takes a fine nature to be nobly conquered—to bury in the grave of a past issue all bitterness and hard feeling.

* * * * *

This true story was related to me by one of Atlanta's most successful merchants, and as I write the last words the small, soft hand of his beautiful daughter and heiress is laid upon my arm.

"I want you to send a message for me in your story," her sweet voice entreats. "I want you to tell that blue-eyed soldier that a welcome is always waiting for him in one southern home, as well as in the heart of that officer, the nucleus of whose fortune once lay in the little canvas bag he flung at my father's feet."

I write the message as she gave it, hoping that it may some time find him to whom it is sent.—Exchange.

FAME.

In Cambridge, where Byron was a student, a tradition still lingers that even as a boy his one thought was the world before which he perpetually posed. Whether he ate, or drank, or strolled across the quadrangle, he was, in his own opinion, an actor upon a stage with the whole world for spectators. "In his last days," says a recent biographer, "he talked of death at the head of the Greek troops as the most fitting end to his career, in the eyes of the public.

Another man of genius, who achieved a brilliant fame, dreaded notoriety as much as Byron craved it. There can be no doubt, said the biographers of Mr. Du Maurier, that his sudden and great success made the last year of his life unhappy. He said to a friend in London, "I feel as if thousands of peering, curious eyes were following me wherever I go. I cannot shut them out."

Nothing is more significant in the lives of great workers than the different ways in which they regard the world for which they work.

Carlyle, with an inward necessity upon him to preach, held his great audience as probable enemies, and was always uneasily conscious and bitterly scornful of it.

Robert Louis Stevenson, on the contrary, was so in love with his work that he carried it to the public with the eagerness of a child who calls to his comrades to rejoice with him in a treasure he has found.

The great missionary, John Coleridge Patteson, we are told, "was so absorbed in his work for God that it did not occur to him how that work had made him dear to all England."

Our influence upon our generation largely depends upon the attitude we take towards that hydra-headed, ruthless giant that we call the world. If we live, like Patteson, for work and for God, we shall not care for its notice or be uneasy because of its contempt; but if we live only to win its favor, we may be trampled with countless others under its unheeding feet.

An Impatient Bridegroom.

From the Hartford Courant: Skelton.—(Special.)—James L. Alcott, of Meriden, was to marry Mary E. Blackman at Scattergood tabernacle in this place at 1 o'clock yesterday. They were to rehearse the ceremony at 11 a. m. Mr. Alcott was at the church at that time assisting in putting up the decorations. As Miss Blackman was not feeling well, she was unable to keep the appointment. Mr. Alcott waited till noon, when he went to her house to see her, but as she was busy dressing she did not appear. He called again later, but still she was at her toilet. Thereupon Mr. Alcott got mad and went away, declaring that he would not marry her. While he was eating a good dinner the guests were arriving at the church, and the young lady was in convulsions, caused by his change of heart. The minister being notified that she was sick, the assemblage was dismissed. A doctor had to be called to restore Miss Blackman to consciousness. After his dinner Mr. Alcott relented and went to the house to make amends. The couple kissed and made up, and a messenger was sent for the clergyman.

Double Regret.

Casey—I called one av thim Johnnies a liar, and he says to me, says he: 'Tu quoque.' Now, what might that mean? Dooley—It means "you are another." Casey—Fwat! An' I let um get away widout hittin' um! Ah, that is what a man gits for havin' no education!—Vanity Fair.

As He Found It.

Mrs. Intrade—Where is your father? Adult Son—He is at the store editing his edition of "Society as I Have Found It." Mrs. Intrade—What? A book? Son—Yes; a ledger, full of unpaid and uncollectible bills.—New York Weekly.

A Year's Rain, Snow, Etc.

It is estimated that the amount of water precipitated on this globe annually in the form of rain, snow, etc., is 29,000 cubic miles.

A STARTLED MOTHER.

From the Freeport (Ill.) Bulletin.

While busy at work in her home Mrs. William Shay, corner of Taylor and Hancock Avenues, Freeport, Ill., was startled by hearing a noise just behind her. Turning quickly she saw creeping toward her her four-year-old daughter, Beatrice. The child moved over the floor with an effort, but seemed filled with joy at finding her mother. The rest of the happening is best told in the mother's own words. She said:

Mrs. Shay Was Startled.

"On the 28th of Sept. 1896, while in the bloom of health, Beatrice was suddenly and severely afflicted with spinal meningitis. Strong and vigorous before, in five weeks she became feeble and suffered from a paralytic stroke which twisted her head back to the side and made it impossible for her to move a limb. Her speech, however, was not affected. We called in our family doctor, one of the most experienced and successful practitioners in the city. He considered the case a very grave one. Before long little Beatrice was compelled to wear a plaster paris jacket. Prominent physicians were consulted, electric batteries were applied, but no benefit was noticed until we tried Dr. Williams' Pink Pills for Pale People.

"Busy in my kitchen one afternoon I was startled by the cry of 'Mamma' from little Beatrice, who was creeping toward me. I had placed her on an improvised bed in the parlor comfortably close to the fireside and given her some books and playthings. She became tired of waiting for me to come back and made up her mind to go to me, so her story, 'My Pink Pills made me walk,' which she tells to everyone who comes to our house, was then for the first time verified. She has walked ever since. She has now taken about nine boxes of the pills and her pale and pinched face has been growing rosy, and her limbs gained strength day by day. She sleeps all night long now, while before taking the pills she could rest but a few hours at a time." Dr. Williams' Pink Pills for Pale People are sold by all druggists.

A Very Sad Case.

"Did you hear the latest?" asked a Denver man of his best girl.

"No. Something startling?"

"Not so very. That girl who sat right in front of us at the theater the night has committed suicide."

"What was the cause?"

"She couldn't keep up her dues in the Don't Worry Club."—Denver Times.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets Candy Cathartic cleans your blood and keeps it clean by stirring up the lazy liver and driving all impurities from the body. Gabbler—You were? Where would you get the money?

Jabberly—What money? It doesn't cost anything to think of it, does it?—Roxbury Gazette.

Good Reason.

She—My friends say you are after me for my money.

He—Do you think so, too?

She—O, no! I have no money.—Fliegende Blatter.

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

It is said that gold is so malleable that it can be beaten as thin as the ham in a railway sandwich.—Chicago News.

The less honor a man has the more sensitive he is on the subject.

OPEN LETTERS FROM

Jennie E. Green and Mrs. Harry Hardy.

JENNIE E. GREEN, Denmark, Iowa, writes to Mrs. Pinkham:

"I had been sick at my monthly periods for seven years, and tried almost everything I ever heard of, but without any benefit. Was troubled with backache, headache, pains in the shoulders and dizziness. Through my mother I was induced to try Lydia E. Pinkham's Vegetable Compound, and it has done me so much good. I am now sound and well."

MRS. HARRY HARDY, Riverside, Iowa, writes to Mrs. Pinkham the story of her struggle with serious ovarian trouble, and the benefit she received from the use of Lydia E. Pinkham's Vegetable Compound. This is her letter:

"How thankful I am that I took your medicine. I was troubled for two years with inflammation of the womb and ovaries, womb was also very low. I was in constant misery. I had heart trouble, was short of breath and could not walk five blocks to save my life. Suffered very much with my back, had headache all the time, was nervous, menstruations were irregular and painful, had a bad discharge and was troubled with bloating. I was a perfect wreck. Had doctored and taken local treatments, but still was no better. I was advised by one of my neighbors to write to you. I have now finished the second bottle of Mrs. Pinkham's Vegetable Compound, and am better in every way. I am able to do all my own work and can walk nearly a mile without fatigue; something I had not been able to do for over two years. Your medicine has done me more good than all the doctors."

MRS. SARTORIS' ROMANCE.

Loved by Gen. Douglass for Thirty Years —May Become His Bride.

When Gen. Grant was inaugurated president of the United States his daughter Nellie, then a child, was permitted to sit on the platform from which her father delivered his inaugural address. In the crowd which viewed the impressive ceremony was Henry Kyd Douglass, an ex-confederate general, then and still often spoken of as "the handsomest man in the south." At the inauguration ball that evening the handsome and courtly southerner first spoke to the charming little daughter of the man against whom he had fought so well. Then and there he fell in love with Nellie Grant and vowed fealty to her. The vow has been well kept by all accounts, for it is now persistently declared by persons "who ought to know" that Gen. Douglass and Mrs. Nellie Grant Sartoris are soon to be married. The family of Mrs. Sartoris declare that the report is without foundation, but as this has come to be almost a pre-nuptial form no great amount of reliance is placed in the disclaimer. While the Grants deny, Washington society, wherein the scene of this mature courtship has been enacted, affirm. It hopes and expects that its lovely and beloved Nellie Grant Sartoris will be the chatelaine of Gen. Henry Kyd Douglass' splendid mansion in Hagerstown, Md. Gen. Douglass, though past 60 years old, is still called "the handsomest man in the south." He was one of the bravest officers of the confederacy. He is one of the richest men in Maryland. Society assumes its wisest air and says the match is a fitting one, and sometimes society is right. When Algernon Sartoris wooed and won Nellie Grant, Gen. Douglass hid his disappointment like a gentleman and a soldier. By that time he had come to be a genuine admirer and close personal friend of Gen. Grant, though during the terrible days of the civil war he had hated the silent soldier of the north with bitterness characteristic of his southern race. The hero of Appomattox always had fears that his beloved daughter's happiness was being intrusted to unsafe keeping, and to Gen. Douglass spoke of his misgivings. The latter consoled the anxious parent while suffering his own pain in silence. Ere long the sun of Nellie Grant's happiness had set. The knowledge that his favorite daughter was unhappy embittered Grant's last days and he often talked of his grief to Douglass. Five years ago Algernon Sartoris died and in due time his widow returned to America with her children and went to live at the Washington home of her mother. Nellie Grant Sartoris in a measure renewed her youth in the old atmosphere. The pathetic lines about her mouth disappeared. Something of the old merry light returned to her eyes. She was in the country she loved and whose people loved her. She was a girl again. When her period of conventional mourning had disappeared Gen. Douglass renewed his attentions, rudely interrupted by her marriage twenty-two years before. He followed Mrs. Ulysses S. Grant and her daughter and grandchildren to Sorrento last summer. "Those who know" say he will repeat his pilgrimage this summer, and that before autumn the hand and happiness of Mrs. Sartoris will have passed into the keeping of her faithful lover of thirty years. Her son, Algernon Sartoris, is a manly fellow of 20 years. His sister, Vivian May, is 18; Rosemary, 16. They are, say the gossips, very fond of their mother's elderly and devoted suitor. Mrs. Sartoris is 42 years old. She looks ten years less. She is as fair as when she was first dubbed the most beloved girl in the United States. Society on both sides of the Atlantic is much interested in the rumored engagement, fully approving in advance.

She Wouldn't Move.

From the Denver Post: A Kansas woman has had two husbands drowned in the same creek, and when advised to move away from the murderous stream replied: "Not so long as the Lord giveth and taketh away I won't."

LAUGHING GAS.

"Mamma, didn't papa say he was going to a stag party? What is a stag party?" "It is a party, dear, that is so called because of the horns that are necessary to satisfy its thirst."

"I wonder how much money Billipers makes in a year?" "About $3,000. At least, I heard him talking very eloquently in favor of putting a war tax on all incomes above that amount."—Indianapolis Journal.

Early Ryser: "Why don't you leave the match safe in one place two consecutive times? Every morning I waste five minutes groping for it." Mrs. Ryser (sleepily from under the bed clothes): "How do you expect to find anything in the dark? Why don't you strike a light?"—Philadelphia Call.

Mother: "What is the matter, Clara? You look distressed." Clara (a bride): "George has—has had to go off on a trip, and he won't be back for—for two days—hoo-hoo!" Same mother (some years later): "How long will your husband be away?" Same Clara: "I forgot to ask."—New York Weekly.

Little John (after casting his penny into the fund for the Bannian islanders): "I wish I was a heathen!" Sabbath school teacher: "Oh, Johnny! Why do you wish such an awful thing as that?" Little John: "The heathen don't never have to give nothin'—they are always gittin' somethin'."—Harper's Bazar.

FASHION'S WHIMS.

The combination in gowns of blue and mauve is one of the late ideas. It is really not so bad when cleverly done.

Lace dresses are increasing in favor all the time. They are at once beautiful and expensive, for nothing is more tawdry than an attempt in cheap lace.

Hats of black and white are the proper thing and are worn with all kinds of costumes. The fashionable woman of 1898 does not need to buy a hat to match each organdy or silk gown.

Painted gauze is in the last cry for evening frocks. Skirts that open in the form of rounded tunics over a separate and distinct apron may be accounted in the same category; and Japanese sunshades of frilled China crepe are the latest of the Bois, the accordion-plaited frill coming in one piece from the center, where it is fastened by a jeweled medallion, and falling to two or three inches over the edge

He Didn't Know.

The justice hadn't married many people before; that was why he felt called upon to be somewhat solemn on this occasion.

"Do you realize the full extent of the obligations you are assuming?" he inquired of the groom.

"S-s-s-h!" cautioned the bride. "Of course he don't, judge, or he'd jest cut an' run; but what's that to you? It ain't your business to scare him off, is it? Ain't you goin' to give a poor woman no show at all?"—Chicago Post.

The Climate of Cuba.

Because of frequent rains in Cuba, malarial fevers are a common ailment there, as in many sections of the United States. Ailments of this kind, no matter where they occur, are cured with Hostetter's Stomach Bitters. Besides being a specific for malarial troubles, it has no equal for dyspepsia and constipation.

In Agreement.

Roman Parent—I shall pay your debts this time, sir; but understand that in future, I decline to be a party to your extravagance. It is useless to ask me to increase your allowance, which is already more than sufficient for every reasonable requirement. On two hundred a year, sir, you ought to be able to maintain your position with credit.

Young Hopeful—Yes, dad; and if that's all you're going to do for me, I need plenty of it.—Moonshine.

Piso's Cure for Consumption is the only cough medicine used in my house.—D. C. Albright, Mifflinburg, Pa., Dec. 11, '95.

Just Took What She Could Get.

"You can always tell people by the clothes they wear."

"I don't know about that; there's the ballet girl, for instance."—Chicago Record.

Expert Advice.

Wiggs—How can I make my slow horse fast?

Waggs—Don't feed him."—New York World.

Natural Result.

"Sail in sight, sir!" sang out the lookout.

"Fire or bargain?" asked the captain, who had been lost in thought of home and wife.

She—I told the cook you preferred soft boiled eggs.

He—I thought you did. These are like rocks.—Puck.

Woman was born to love and to be [illegible] and she finds it out on that line.

A TRAVELLER'S TESTIMONY.

What He Carried on the Cars

To Take when Travelling.

Every traveller knows that continuous journeying on the railroad is very apt to derange the system in some way. In spite of springs and soft seats there is a continuous jar and vibration, which acts upon the nervous system, and produces results varying somewhat, according to the strength of the traveller or his predisposition to some specific ailment. The most common consequence of continuous car riding is constipation. And this condition invariably produces headache, and tends to biliousness. J. J. Converse, St. Louis, Mo., found a way to avoid the evil effects of constipation, to which he was subject when travelling. He carried with him "the pill that will" cure constipation and all its sequent sufferings. This is what he says:

"Travelling on the cars tends to constipation with me, but by using Dr. J. C. Ayer's Pills moderately, my bowels are kept in healthy action. They also prevent headache."—J. J. CONVERSE, St. Louis, Mo.

Dr. Ayer's Pills are good for constipation under all circumstances and conditions. They have cured long standing cases after every other medicine had failed. Rev. Francis B. Barlowe, of Atlanta, Ga., furnishes a case in point. He writes:

"For some years past, I was subject to constipation, from which I suffered increasing inconvenience, in spite of the use of medicines of various kinds, until some months ago, when I began taking Dr. J. C. Ayer's Pills. They have entirely corrected the costive habit, and vastly improved my general health."—(REV.) FRANCIS B. HARLOWE, Atlanta, Ga.

Constipation is, perhaps, the most serious physical evil of to-day. It is like the Octopus, that grapples its victim and fastens its tentacles on trunk and limbs one after another, until at last incapable of longer resistance, the helpless being succumbs to his frightful foe. Constipation is the beginning of many of the most murderous maladies, the clogged system becoming charged with poisons that affect the liver and kidneys, and prostrate the entire being mentally, morally and physically. Dr. Ayer's Pills will cure constipation. If you doubt it send for Dr. Ayer's Curebook, free, containing the testimony of those cured by this remedy. Address J. C. Ayer Co., Lowell, Mass.

ELASTIC STARCH
LATEST IMPROVED
A GREAT INVENTION
REQUIRES NO COOKING.
MAKES COLLARS AND CUFFS STIFF AND NICE AS WHEN FIRST BOUGHT NEW.
ONE POUND OF THIS STARCH WILL GO AS FAR AS A POUND AND A HALF OF ANY OTHER STARCH.

ST. HILAIRE SPECTATOR.

VOLUME XVII. ST. HILAIRE, MINNESOTA, WEDNESDAY JULY 20, 1898. NUMBER 51

SANTIAGO HAS SURRENDERED

THE SPANISH COMMANDER GIVES UP THE STRUGGLE.

Under the Terms of Surrender the Spanish Troops Are to Be Shipped Back to Spain—The Whole Eastern Portion of Cuba Falls Into the Hands of the Americans Without Firing a Shot—Miles Gives Shafter All the Credit—Disappointment Over the Absence of Details of the Surrender—A Portion of the Army Infected With Yellow Jack.

(Copyright, 1898, by Associated Press.)

Playa del Este, July 16.—Gen. Toral, commanding the Spanish forces in Santiago, yesterday morning sent a communication to Gen. Shafter indicating his willingness to accept the terms of surrender proposed the day before, and asking the American commander to appoint commissioners to meet Spanish commissioners to arrange to send the Spanish troops back to Spain. This will be promptly done. The surrender of Gen. Toral not only means the fall of Santiago, but by the terms of the surrender the whole eastern end of the island falls into the hands of the United States without firing a shot. The surrender is to include all the Spanish troops at Santiago, Guantanamo, Caney and Sagua, composing the Fourth corps of the Spanish army. The portion of the province of Santiago de Cuba that lies east of the line of Sagua, via Las Palmas to Azradores, is surrendered to the United States.

—o—

Washington, July 15.—"Santiago surrendered at 3" was the significant official announcement that reached the president at 3:06 yesterday afternoon. It came in a dispatch from a signal service officer at Playa del Este, and told the result of the meeting of the capitulation commissioners in the most brief and concise form of any of the numerous dispatches laid before the president during the day. The dispatch was well ahead of the official message from Shafter. Santiago time is 55 minutes ahead of Washington, which accounts for the quick receipt of the result, the commissioners not meeting until 2:30. A few minutes after this message had come to the president the following was received by Chief Signal Service Officer Greely:

Playa. — Gen. Greely, Washington: Santiago has surrendered. —Jones.

The official announcement of the agreement was received in the following brief dispatch from Gen. Shafter:

Adjutant General, Washington: Have just returned from interview with Toral. He agrees to surrender upon the basis of being returned to Spain. The proposition embraces all of Eastern Cuba from Asseraderos on the south to Sagua on the north, via Palma, with practically the Fourth army corps. Commissioners meet this afternoon at 2:30 to definitely arrange terms. —W. R. Shafter,
Major General.

Adjt. Gen. Corbin announced that Santiago had surrendered soon after Gen. Shafter's dispatch was received, the telegram showing that the Spaniards had agreed to our terms. Only details now remain to be adjusted.

Gen. Miles' Official Report.

Washington, July 16.—The war department has received the following message from Gen. Miles:

Playa.—Secretary of War, Washington: Gen. Toral formally surrendered the troops of his army—troops and division of Santiago—on the terms and understanding that his troops shall be returned to Spain. Gen. Shafter will appoint commissioners to draw up the conditions of arrangements for carrying out the terms of surrender. This is very gratifying, and Gen. Shafter and the officers and men of his command are entitled to great credit for their sincerity and fortitude in overcoming the almost insurmountable obstacles which they encountered.

A portion of the army had been infected with yellow fever, and efforts will be made to separate those who are infected and those free from it, and to keep those who are still on board ship separated from those on shore. Arrangements will be immediately made for carrying out further instructions of the president and yourself.
—Nelson A. Miles,
Major General of the Army.

—o—

EAGER FOR DETAILS.

Disappointment Over the Lack of Details of the Surrender.

Washington, July 16. — There was considerable disappointment in administration circles because no details concerning the surrender of Santiago were received. Secretary Alger and Secretary Wilson remained with the president until 11 o'clock, and when they left not a word had been received during the evening. The president was gratified that the surrender had occurred but was anxious for more details. During the evening numerous telegrams were received from different parts of the country congratulating the president upon the success at Santiago, some of them stating that bonfires were blazing in celebration of the event.

Fear American Bombardment.

Gibraltar, July 16. — It is rumored that a French squadron consisting of two battleships and three cruisers will shortly proceed from Toulon to Tangier. Many families at Ceuta and Algeciras, fearing American bombardment, are emigrating to Romba and Tombon.

Good Crop Prospects.

Lanona, N. D., July 16.—All crops in the vicinity are looking fine. Weather has been very favorable for grain during the past week.

PEACE IN THE NEAR FUTURE.

What Spain Is Willing to Pay to Secure It.

St. Paul, July 16.—The Pioneer Press in a special from Washington says:

Independence for Cuba.

The transfer of Puerto Rico to the United States in exchange for the Philippines.

A coaling station in the latter islands for the United States.

Spain is willing to make these concessions to obtain peace, according to a dispatch received by President McKinley from a semi-official sources. Administration officials with whom I talked after they had learned of the contents of the dispatch, informed me that an official proposition embracing these terms would be accepted by the United States. Thus, if President McKinley's informant is correct, peace in the near future is an absolute certainty. His dispatch stated that the ministry at a meeting to-day had definitely determined to abandon the struggle and had decided to sue for peace on the terms set forth.

In some circles I find a disposition to accept the information as entirely trustworthy, while in others there is some doubt. There seems to be a general impression among administration officials, however, that the prospect of the commencement of negotiations for the cessation of war is extremely bright. This impression is primarily based upon the action of Gen. Toral, after consultation with Madrid, in surrendering the city of Santiago de Cuba and the troops under his command. Secondarily, it is based upon the reports received from Madrid showing that the people are becoming convinced of the uselessness of continuing the struggle, and that pressure is being exerted in the interest of peace by the Vatican and by at least one European power.

It can't be stated on authority that no representation has yet been made to this government, either from its agents abroad or from foreign representatives in Washington, respecting its attitude upon the question or the terms which it will be willing to accept. There is no doubt of the intention of the president to push the campaign against Puerto Rico and to dispatch the Eastern squadron to operate against Spain, provided the Madrid government should not be satisfied with the mauling it has been given. Mr. McKinley would, however, much prefer that the war should end, and is, therefore willing to be as lenient with the Spanish government as possible.

AS BEFORE REMARKED.

"Germany Still Preserves Her Neutrality Toward Spain."

Berlin, July 16. — The Cologne Zeitung denounces the story of the German warship Irene interfering at Subig bay, Philippines, as a fabrication. The Lokal Anzieger says the Americans are unreasonably excited about the Irene incident, adding:

"Even if it occurred as Admiral Dewey says, the Irene did not interfere, but retired upon the arrival of the Americans. Therefore, every courtesy was shown that the Americans demand of a neutral country. But if the Irene did hinder Aguinaldo's landing it is no business of Dewey's. If the American admiral sees fit to make common cause with insurgent chiefs it is none of our affair. Germany still preserves her neutrality toward Spain, and does not recognize, nor intend to recognize, Aguinaldo and his horde as belligerents. The matter is so plain that we do not believe any diplomatic step will be taken, and do not doubt for a moment that the American officials will admit the correctness of the German proceedings."

The foregoing is believed to be inspired.

LOOKED LIKE A ROW.

French Gunboat Foolishly Tries to Enter Guantanamo Harbor.

Playa del Este, July 16.—A French gunboat attempted to come into the harbor about dusk without permission and met with a surprise party. The cruiser Marblehead fired a blank shot as the gunboat came into the entrance to the harbor but no attention was paid to this and a shot from a six-pounder was sent across her bows. This, too, was disregarded, the gunboat coming along under full steam. For a few minutes it looked as if a row was possible. The trumpets on the Marblehead rang out a call to quarters and another shot was sent across the French boat's bows, this time in uncomfortable proximity. That warning was sufficient, however, and the Frenchman stopped with extreme suddenness.

Captured by Insurgents.

Madrid, July 16.—Capt. Gen. Augusti telegraphs under date of July 10, as follows: Gen. Monet's column, unable to hold out at Macobaro, left in three boats towed by the gunboat Leyte, to seek reinforcements. It was stopped by the Americans but aided by the current, it succeeded in reaching Estreros and Bulacan. There, however, the column was made prisoners by the insurgents. An official inquiry has been opened into the conduct of Gen. Monet.

Guarding the Canaries.

London, July 16.—Advices from the Canary Islands say that two Spanish torpedo boats were still at Los Palmas, and it was announced that a Spanish warship was at anchor at Teneriffe. Ships are not allowed to enter the harbor after dark and coast lights are extinguished.

He Took Poison.

Maynard, Iowa, July 16.—John Sturr, a young man whose home is in West Union, but who has been working on a farm near here, attempted suicide by poison. Two physicians saved him.

Soldiers' Home Strike.

Danville, Ill., July 16. — Notice has been served on the contractors at the National Soldiers' home by employes that unless there is an increase in wages and a reduction in hours from nine to eight per day, a strike will be declared.

To Restore Order in Italy.

Rome, July 16.—The senate, in extra session, adopted, by a vote of 64 to 40, the government's measures to restore public order which were adopted by the chamber of deputies on Tuesday.

NOW FLOATS O'ER SANTIAGO

OLD GLORY DISPLACES THE YELLOW RAG OF SPAIN.

Gen. Shafter Takes Formal Possession of the City of Santiago—An Immense Concourse of People Witness the Ceremony of Raising the Flag—Spanish Soldiers Lay Down Their Arms—Gen. Shafter Returns the Spanish Commander His Sword—It Would Have Cost 5,000 Lives to Have Taken the City, Says Gen. Shafter.

Santiago de Cuba, July 18. — The American flag is floating in triumph over the governor's palace at Santiago de Cuba. Gen. McKibbin has been appointed temporary military governor. The ceremony of hoisting the Stars and Stripes was worth all the blood and treasure it cost. A vast concourse of 10,000 people witnessed the stirring and thrilling scene that will live forever in the minds of all the Americans present. A finer stage setting for a dramatic episode it would be difficult to imagine. The castle, a picturesque old building in the Moorish style of architecture, faces the Plaza Del Reina the principal public square. Across the plaza was drawn up the Ninth infantry, headed by the Sixth cavalry band. In the street facing the palace stood a picked troop of the Second cavalry, with drawn sabers, under command of Capt. Brett. Massed on the stone flagging between the band and the line of horsemen were the brigade commanders of Gen. Shafter's divisions with their staffs. On the red tiled roof of the palace stood Capt. McKittrick, Lieut. Miley and Lieut. Wheeler. As the chimes of the old cathedral rang out the hour of 12 the infantry and cavalry presented arms.

Every American Uncovered

and Capt. McKittrick hoisted the Stars and Stripes. As the brilliant folds unfurled in a gentle breeze against a fleckless sky the cavalry band broke into the strains of "The Star Spangled Banner," making the American pulses leap and the American heart thrill with joy. At the same instant the sound of the distant booming of Capt. Capron's battery, firing a salute of twenty-one guns, drifted in. When the music ceased from all directions around our line came floating across the plaza the strains of the regimental bands, and the muffled, hoarse cheers of our troops. The ceremony over, Gen. Shafter and his staff returned to the American lines, leaving the city in the possession of the municipal authorities, subject to the control of Gen. McKibbin.

Gen. Shafter's Report.

Washington, July 18.—The war department posted the following bulletin yesterday evening:

Santiago de Cuba, July 17.—Adjutant General United States Army, Washington: I have the honor to inform you that the American flag has at this instant, 10 a. m., been hoisted over the house of the civil governor. An immense concourse of people present. A squadron of cavalry and regiment of infantry presenting arms and a band playing national airs. Light battery fired salute of twenty-one guns. Perfect order is being maintained by municipal government. Distress is very great; but little sickness in town; scarcely any yellow fever. A small gunboat and about 200 seamen left by Cervera, have surrendered to me. Obstructions are being moved from mouth of harbor. Upon coming into the city I discovered a perfect entanglement of defenses. Fighting as the Spaniards did the first day it would have cost 5,000 lives to have taken it. Battalions of Spanish troops have been depositing arms since daylight in the armory over which I have guard. Gen. Toral formally surrendered the plaza and all stores at 9 a. m.
—W. R. Shafter, Major General.

—o—

LAY DOWN THEIR ARMS.

Impressive Feature of the Ceremonies Attending the Surrender.

(Copyright, 1898, by Associated Press.)

Santiago de Cuba, July 18. — Amid impressive ceremonies the Spanish troops laid down their arms between the lines of the Spanish and American forces at 9 o'clock Sunday morning. Gen. Shafter and the American division and brigade commanders and their staffs were escorted by a troop of cavalry and Gen. Toral and his staff by 100 picked men. Trumpeters on both sides saluted with flourishes. Gen. Shafter returned to Gen. Toral the latter's sword after it had been handed to the American commander. Our troops, lined up at the trenches, were eye witnesses of the ceremony. Gen. Shafter and his escort, accompanied by Gen. Toral, rode through the city and took formal possession. The city had been sacked before they arrived by the Spaniards. At the palace elaborate ceremonies took place. Exactly at noon the American flag was raised over the palace and was saluted by twenty-one guns by Capt. Capron's battery. At the same time all the regimental bands in our lines played "The Star Spangled Banner," after which President McKinley's congratulatory telegram was read to each regiment. The Thirteenth and Ninth regiments of infantry will remain in the city to enforce order and exercise municipal authority. The Spanish forces are to encamp outside of our lines.

SENDING THEM HOME.

Arrangements Making for Transporting the Spaniards.

Washington, July 18. — Col. Hecker has completed the proposals calling for bids for the transporting of the Spanish soldiers in and near Santiago to Spain, and they have been approved by Secretary Alger. The call for bids for transporting 1,000 Spanish officers and 24,000 Spanish soldiers from Santiago to Cadiz or such other port as may be designated hereafter.

Capt. Eulate Cranky.

Annapolis, July 18.—Capt. Eulate, of the Vizcaya, has thus far refused to sign the parole pledge. His reasons for it are that Admiral Cervera was only required to give a verbal promise and that his (Eulate's) rank entitles him to the same privilege. The authorities here have no doubt that the matter will be amicably arranged and that the scruples of the gallant officer may be overcome.

Good for Hunker.

Playa del Este, July 18—Capt. Hunker, of the gunboat Annapolis, has returned from Baracoa, where he had been three days watching for blockade runners. He had a slight engagement there with the Spanish, who fired upon him with field pieces, but did no injury. Capt. Hunker returned the fire, setting fire to and burning the Spanish barracks.

Gold From Klondike.

San Francisco, July 18.—After being eagerly watched for, hour by hour, for the past ten days, the steamer St. Paul has arrived from St. Michaels, bringing men and treasure from the Klondike. There were 176 passengers, and the amount of their earnings in gold dust, nuggets and bank drafts is estimated by the ship's officers at $3,900,000.

Clara Barton Will Be First.

Off Santiago, July 18—Admiral Sampson decided to send an officer on shore to see that the Spanish lived up to their assurances to remove the mines from the harbor. He has promised Miss Clara Barton that the Red Cross ship shall be the first to enter the harbor after he is assured the mines have all been removed.

Will Enter the Harbor.

Washington, July 18.—It is expected by the navy department that but few of admiral Sampson's squadron will enter the harbor at Santiago. Enough vessels will be sent in to put the harbor in condition for naval operations and the needs of American interests.

Gov. McCord's Successor.

Washington, July 18.—The president has appointed N. O. Murphy to be governor of Arizona, to succeed Myron W. McCord, who resigned to accept the colonelcy of an army regiment. Mr. Murphy has represented the territory in many official capacities.

Yellow Jack Increasing.

Washington, July 18. — The war department has posted the following from Chief Surgeon Greenleaf: Sixteen new cases past twenty-four hours, one death. Sanitation measures rigid.

The Maine Disaster Killed Him.

Baltimore, July 18.—Lieut. J. J. Blandin, who was officer of the watch on the battleship Maine at the time of the explosion, died at an asylum in this city, as a result of the mental shock.

The World's Wheat Crop.

London, July 18.—The Statist says it thinks the world's wheat crop for 1898 will be 45,000,000 quarters larger than last year, reaching about 325,000,000 quarters.

Swept by Hail.

Dallas, Tex., July 18.—A number of the counties of North Texas have been swept by a terrific hail and wind storm. Great damage was done to the grain and cotton crops.

Arrested for Burglary.

Black River Falls, Wis., July 18. — Four men charged with burglary here were arrested in Eau Claire and returned to this place.

Prof. Budd Is Out.

Des Moines, Iowa, July 18. — The board of trustees for the Iowa agricultural college at Ames has accepted the resignation of Prof. J. L. Budd, in the chair of horticulture for many years. He resigned to care for his own horticultural interests.

Switch Engines Wrecked.

Green Bay, Wis., July 18. — Two switch engines on the Northwestern road here were completely wrecked in a collision. Nobody was seriously injured.

PUERTO RICO COMES NEXT

AN AGGRESSIVE MOVEMENT WILL SOON TAKE PLACE.

The President Holds a Conference With Secretaries Long and Alger and Capt. Crowinshield at Which Plans Are Discussed for an Aggressive Movement Against Puerto Rico in Which Army and Navy Will Take Part—Gen. Miles Will Go Direct From Santiago to Puerto Rico—Active Preparations on Foot.

Washington, July 18.—The president had a conference with Secretary Alger and Secretary Long and Capt. Crowinshield, chief of the bureau of navigation, and a member of the naval war board. It was stated after the meeting that plans had been discussed for an aggressive movement in which both army and navy will take part against Puerto Rico. Before going to the White House Secretary Alger had been in conference with Gen. Brooke for two hours. They had before them a large number of maps of Puerto Rico and the plans of campaign were discussed from every point of view. It is said that Gen. Miles will go direct from Santiago to Puerto Rico and that Gen. Stone and Col. Michler, of his staff, will leave New York in a day or two to join the general at Santiago. Secretary Long would not discuss the naval programme except to say that active preparations are on foot for the next forward movement. It may be two or three days before the details

Of the New Invasion

are worked out, but it is probable that before the end of the present week the military forces of the expedition will have effected a landing not far from San Juan. Prior to the landing a naval demonstration probably will be made against the San Juan fortifications. The vessels taking part in the bombardment will be a part of the fleet of Admiral Sampson, but what vessels have been ordered to Puerto Rico could not be ascertained. No definite decision has been reached as to the strength and personnel of the land forces to be sent to Puerto Rico. For a time it was supposed that few, if any, of the troops now under Gen. Shafter's command at Santiago would be sent to Puerto Rico, but it is now known that at least a part of Shafter's command will be in the new expedition. The president realizes that the war can be prosecuted to a speedy and successful issue only by pressing the advantages already gained, and, as one of the officials expressed it: "The president proposes to strike while the iron is hot."

WORK MUST GO ON

Until the Spanish Flag Disappears From the Western Hemisphere.

Washington, July 18.—Senator Cannon was at the war department when the first news was received that the American flag had been raised over Santiago. "That is a notable episode," said he, "and one which will be recorded in history. The Anglo-Saxon flag is going up constantly, and this is but one more flag to be raised as an emblem of civilization and good government. The work must go on until the Spanish flag disappears from the Western hemisphere, for it is impossible for the Stars and Stripes and the yellow flag of Spain to float together in the new world."

A SAD SCENE.

Arrival of Survivors of La Bourgogne at Paris.

Paris, July 18. — The arrival of the steamer La Touraine, from New York, at Havre with the survivors of the wrecked steamer La Bourgogne was a sad scene and a sensational demonstration on the part of a great crowd which had assembled. The tears and sobs of the relatives of those who were drowned, when they found that their last hope was gone, was heartrending, contrasting markedly with the joy of the friends of the saved. The survivors of the disaster were extremely reticent.

SARCASTIC SPANIARD.

England Will Ask a Fee for Negotiating for Peace.

Paris, July 18.—The correspondent of the Temps at Madrid says: The British ambassador daily presses the government to accept the good offices of the British cabinet, stating that it alone can obtain honorable conditions for Spain. The correspondent sarcastically says: "The ambassador points out that England will only ask a slight extension of Gibraltar or the Island of Tarifa as a fee."

LOOKS SQUALLY.

A British Cruiser Will Sail to the French Shore of New Brunswick.

St. Johns, N. B., July 18.—The British cruiser Cordelia, Commodore Bourke, has gone to the French shore to settle a series of disputes between the owners of British and French lobster factories. A number of British settlers have had their huts torn down by the crews of warships for illicitly packing lobsters. Serious trouble is imminent.

Postal Agent in Cuba Dead.

Washington, July 18.—Eben Brewer, who had charge of all postal arrangements of the United States in Cuba, died near Santiago. He came from Pittsburg. It had been reported that he was sick with malarial fever.

Insurrection in China.

St. Petersburg, July 18.—Advices received here report that on July 1 an insurrection occurred in Kanso, the most northwest province of China, arising from dissatisfaction with the new taxes.

TOOK IN A FEW PRIZES.

Several Well Loaded Vessels Are Captured.

Key West, July 17. — Three prizes were brought here, but none of any great consequence and the captures were effected with only ordinary incidents. The English-built steamer Grenow Castle, which for several years plied on the Cuban coast under the Spanish flag, but on June 8 last returned to her British registry, was taken by the Dixie off Cape Cruz last Sunday. She was bound from Kingston for Manzanillo with a large cargo of food supplies. Her crew consisted of six Spaniards and four Jamaican negroes. The day before this capture the Dixie took two schooners, the Three Bells and the Pilgrim, both flying the British flag and both bound for Manzanillo from Kingston, with food supplies. The Three Bells was originally a Nova Scotian boat. Lieut. S. M. Blunt, with two sailors and two marines, was put in charge to bring her to Key West, but she has not yet arrived. The British schooner E. P. Nickerson was also among the day's arrivals. She was

Captured Off Cape Cruz

on June 30, when the Hornet steamed alongside her and informed those on board that vessel that they were prisoners. There was no resistance. The tug boat Wapteck and gun boat Hist were in signalling distance at the time and an ensign, boatswain and seaman from the Hist were put on board as the prize crew. Two so-called passengers were among those on board. They are A. von Gothard and Frank Berger, and they protested vigorously against the capture, declaring that as British subjects they could claim indemnity from the United States. The vessel's cargo was food, including a deck load of pigs, goats, chickens, flour, pork, potatoes and the like. She was bound for Manzanillo. The auxiliary gunboat Uncas towed in a little Spanish sloop, the Bella Ynez, taken off Cardenas. She had no cargo. The Uncas brought also Ysdlor Dotto, a Cuban messenger from the camp of Col. Alberto, bearing private dispatches for the United States government.

TO SUE FOR PEACE.

President McKinley Anticipating an Early Cessation of Hostilities.

Madrid, July 17—The Official Gazette this morning publishes a royal decree, temporarily suspending throughout the Spanish Peninsula the rights of individuals as guaranteed by the constitution. The decree adds that the government will render an account to parliament of the use it may make of this measure.

The publication of the decree is generally accepted as being convincing proof that Spain is now ready to sue for peace, and that negotiations to that end are now virtually in progress. The government wishes to have full power to suppress any evidence of discontent or rebellion which might appear. The Carlists are furious, and are sure to attempt to create trouble.

One minister expressed the opinion that official overtures for peace will be made before Sunday, and there is reason to believe France has offered her services to Spain, and that Spain has drawn up conditions for peace which offers a basis for negotiations.

Premier Sagasta is quoted as saying that Spain wants peace, but that "it must be an honorable peace as Spain deserves." The army, the premier is said to have added, "is anxious to resist to the last; but the government cannot consent to such a useless sacrifice. Had we our fleet, the situation would be very different."

FIVE HUNDRED SICK.

Fearful Condition of Things on Board the Cruiser Harvard.

Portsmouth, N. H., July 17. — The auxiliary cruiser Harvard, having on board 1,008 Spanish prisoners, arrived in Portsmouth harbor. The port physician boarded the vessel and, in company with the Spanish doctor, made an investigation.

The investigation disclosed the fact that nearly half on board are ill. Six Spaniards died on the passage from Santiago to Portsmouth, another death occurred this forenoon and three patients were not expected to live until night. There were forty serious cases in the sick bay and forty equally as bad in other portions of the ship.

All these patients are said to be victims of malarial fever, with which disease those who died were effected.

Physicians will make further inspection of the vessel and determine whether or not she shall be sent to quarantine. Owing to these conditions nothing has been done in the line of preparation for landing the prisoners.

FEAR A NAVAL BATTLE.

Spaniards Believe One Will Come Off Near Their Shores.

London, July 17.—The Gibraltar correspondent of the Daily News says: "A naval battle off the Spanish coast is considered imminent. The suspension of the constitutional guarantees is a symptom of the distracted condition of Spain. The nation wants peace, the army wants a victory. Spain cannot continue to struggle, yet peace will be the signal for revolution and the European intervention formerly desired is now dreaded."

The government, through El Epoca, advocates direct negotiations with the United States.

The military press indignantly characterizes peace as treason. Wealthy families are deserting Seville and Malaga. Reports are sent from here to the American consul at Tangiers.

No Confirmation at Madrid.

Madrid, July 17. — On leaving the cabinet council the ministers professed still to be without confirmation of the reported capitulation of Santiago. Owing to the state of siege the censorship of dispatches is extremely rigorous and numerous messages are held back.

Vigilance Redoubled.

Washington, July 17.—The outbreak of yellow fever at Santiago has caused the war department to redouble its vigilance over the camp at Tampa, where typhoid fever exists.

LA CROSSE'S TERRIBLE FIRE

VISITED BY THE WORST BLAZE IN TEN YEARS.

Huge Lumber Piles Licked Up by the Fiery Element—Immense Sash and Door Factory of the Segelke-Kohlhaus Company Completely Destroyed — John Paul Lumber Plant Burned Over and Two Million Feet of High Grade Lumber Destroyed — Coleman Plant Saved by a South Wind—Loss Over $100,000.

La Crosse, Wis., July 18. — In the midst of the hottest afternoon of the year the city has suffered the hottest fire since the historic lumber blaze ten years ago, although not rivaling it in destructiveness. It broke out just before 1 o'clock in the sash and door factory of the Segelke-Kohlhaus company, a stone and brick building, most of it of three stories and covering half a block. This was entirely destroyed with all machinery and considerable lumber, including a stock of quarter-sawed oak was burned. North of this was the John Paul Lumber company's plant. Most of one block, 500 feet square, of piled lumber was burned over, destroying between a million and a half and two million feet, all high-grade stuff. The firemen succeeded in stopping the flames in this block, which was a remarkable piece of work. Across the street east was the Paul company's barn with fifty to sixty horses. They were all taken out with harness, but the building, although iron sheeted, burned to the ground. South of the factory was the C. L. Coleman plant, and it was saved without loss by reason of the south wind. Flames burst out several times inside the iron sheeting of the planing mill, but men were watching and did not let them get a start. James Vincent had a small lumber shed burned and Dan Kelly's small house was partly destroyed. The Segelke-Kohlhaus loss is estimated at $70,000 which is a conservative figure; insurance $35,000. The John Paul company's loss is estimated at $35,000, though the condition of the lumber saved cannot now be determined. He is well insured.

Found Guilty of Alienation.

Grand Forks, N. D., July 18 — Ten thousand dollars was awarded William Stewart by a jury for the alienation of his wife's affections by John Casselman, a wealthy pioneer of Grand Forks. The case has excited much interest here. Stewart claimed that Casselman, by continuous false statements, induced Mrs. Stewart to believe her husband was squandering money and was unworthy to be her husband, and on his advice she finally left him.

Metal Checks Illegal.

Spring Valley, Wis., July 18.—S. J. Fox & Sons, the principal merchants here, have been using a system of metal checks as due bills, and these have attained a very wide circulation because the main manufacturing concern here pays its men entirely in orders on the above store. Notice has been received from the government to call in the checks as they are illegal.

Annual Retreat.

La Crosse, Wis., July 18. — The Rt. Rev. Bishop Schwebach has arranged to hold the annual retreat of the clergy of the La Crosse diocese at Prairie du Chien at the College of the Sacred Heart. The English speaking priests will assemble from Aug. 1 to 5 and the Germans Aug. 8 to 12.

Boom Shut Down.

Stillwater, Minn., July 18.— The St. Croix boom was forced to shut down Saturday owing to a scarcity of logs caused by insufficient water for sluicing at Nevers' dam. The boom has turned out over 100,000,000 feet of logs thus far this season.

Corpse in a Water Works Filter.

Grand Forks, N. D., July 18.—A body was found floating in the basin of the city water works filter. It proved to be that of William Mason, a young man who had been missing several days. It is believed he fell in while intoxicated.

Places for Devils Lake Men.

Washington, July 18.—The president has made the following appointments: Register of the land office of Devils Lake, N. D., Ole Serumgard of Devils Lake; receiver of public moneys at Devils Lake, H. P. Baird of Devils Lake.

Creamery for Tyndall.

Tyndall, S. D., July 18.—The contract for putting in the plant of the Farmers' co-operative creamery has been awarded to A. H. Wheaton of Brookings, S. D. It is expected that the creamery will be in operation Aug. 1.

Popular Young Man Drowned.

Arlington, Minn., July 18. — Henry Blasing, one of the most popular young men, and cashier of the First State bank of this place, was drowned in New Auburn lake.

Drowned.

Prairie du Chien, Wis., July 18—Harrison Edgar, nine years old, while bathing in the Mississippi river, was drowned. The body was recovered.

A Plucky Youngster.

Wells, Minn., July 18—A son of Mr. Hutch, engineer at the mills here, fell out of a swing and broke his left arm between the wrist and elbow. The little fellow, who is about twelve years old, showed good nerve by walking several blocks and having it set without taking anything.

Six People Killed.

St. Louis, July 18—A Peoria & Northern train ran into a wagon containing a fishing party from St. Louis four miles east and killed six people.

There is a general curiosity to know "What will John Lind do?" There seems only one thing for him to do—namely, to receive the committee of notification politely, to assure them of his distinguished consideration, to say that his duties in the army prevent him from giving the canvass any attention, and that, if the people of Minnesota wish him for governor, all they have to do is to elect him to that position. After that it will rest with the people.—Wheelock's Weekly.

The gold bug press wants all the other nations to keep hands off in the settlement of our war with Spain, and let Uncle Sam settle his own affairs, but strange to say when it comes to finance they are willing for other nations to come in and dictate the kind of money we must have.—Crawford County Democrat.

Washington Letter,

From our Regular Correspondent.

Had there been less monkeying with flags of truce and more co-operation between Gen. Shafter and Admiral Sampson in the campaign against Santiago, the Washington officials would not now be nearly frightened out of their wits by the appearance in the field of Spain's long expected ally, "Yellow Jack." While our army and navy were waiting for the Spanish army in Santiago to surrender, the Spaniards were hurrying refugees out of the town into our lines, with the knowledge that some of them would be certain to carry the yellow fever along with them. It was probably owing to the panic in which some of the officials were thrown by the news that the yellow fever had made its appearance in our army and that it was allowed to become public. But not one word can be had officially as to the extent of the outlook or in what portion of our army it is, further than the admission that there are fourteen cases in the field hospital and some additional cases elsewhere. This is one case in which the censor does more harm than good. Since it is known that the yellow fever is in our army, it would be much wiser to allow the exact facts to be stated than by suppressing them to cause the public to imagine it much worse that it really is. There can be little public rejoicing over the taking of Santiago until our people are assured that there is no danger of yellow fever becoming epidemic in our army.

Admiral Dewey, the one commander who is not hampered by orders from Washington, has been at it again, and the result is another victory, with the demolition of the Spaniards. The victory was won by the Cruisers Raleigh and Concord, and without the loss of a man or injury to either vessel. A German gunboat might also have been demolished if its commander had not been wise enough to get out of the way before the Americans began to bombard. This German had set himself up as the protector of this particular fort, going so far as to threaten to fire on the insurgents if they attacked it. The insurgents reported that to Dewey and that's why he sent the Raleigh and Concord to capture it. Later the German Commander tried to explain his meddling to Dewey by saying that he acted in the cause of humanity. He wanted Dewey to take charge of a lot of refugees that he had on his gunboat but Dewey told him he had better keep them since he had taken them.

THE OLD CIRCUS MAN.

HIS TALK ABOUT THE FIRST SOUVENIRS GIVEN BY SHOW PEOPLE.

They Were Distributed by the Great Giraffe—A Thrilling Incident Which Attended One Performance—How the People Stood on the Giraffe's Shadow.

"The first souvenirs I ever know of being given out in the show business," said the old circus man, "we gave away in our show at the time we had the big 18 foot giraffe. We never had an attraction that beat the big giraffe. The people were just carried away with him. There wasn't anything about him but what interested them, even the slightest little things. On clear days, when we were where we could do it and the sun was right for us, we used to get the giraffe out in front of the entrance of the main tent and have him stand there like a great sentry. People used to stop and look up at him, and then the first thing you know somebody'd discover his shadder. Anybody'd cast a long shadder at that hour of the day, of course, but the giraffe's shadder reached as far as you could see. And as soon as one man began to look at it 40 others did, and then you'd see 'em. I've seen 1,000 people at a time line up long that shadder and just stand along the edge of it down past the main tent and the sideshow tents, just standing there lookin at it. The giraffe was great, but his shadder fairly staggered 'em. And there they'd stand till the sun dropped down under the edge of the earth, and the first thing they knew there wasn't any shadder. Then they'd stare at each other for a minute, and then all bunch up together again and look at the giraffe till we took him in.

"We used to have a line on the programme saying that at 3 o'clock and at 9 o'clock the great giraffe would hand around ice water. That's where the souvenirs come in. We used to give away the glasses the water was in. The glasses were marked, 'Souvenir of the Great Giraffe,' and whoever got 'em could keep 'em. The seats in our circus were divided into four sections. We used to give away four dozen tumblers at every performance, one in each section. When the time come, we'd march the giraffe around the edge of the ring, and in front of each section his keeper would hand him a wire holder holding a dozen glasses, which he would take by the handle in his mouth. Tall as he was, he could reach easy to the highest back seats. It's astonishing how people used to grab for those glasses. It seems as though the whole section would stand up on the seats and all grab for the holder when it come near 'em. They'd spill the water and get wet and have the greatest time you ever heard of, but nobody got hurt, and so we just let her buzz along. But finally something did happen.

"At one evening entertainment when he was serving out the souvenirs, when we come to one of the sections, there was a man sitting on the fourth tier from the top who picked up his boy, a bright looking youngster about 10 years old, who was sitting alongside of him, and sat him up on his shoulder. The giraffe lifted the holder up and swept it along the seats with the people grabbing, and when it come near this man with the boy on his shoulder the man just lifted him up so that the boy could stand on his shoulders. He was going to get one anyway, and when the holder came along the boy made a grab for it. There was only one glass left in it then, but the boy got it. He upset it lifting it out of the holder and scattered the water all over everybody, but that didn't count. He got the glass and was coming down with it when his father, instead of feeling him jounce down on his shoulder, felt his weight growing lighter, and the next minute he and everybody else saw the boy suspended in the air. When the giraffe saw the last glass go, he lifted the holder, the way he always did, to clear the people before swinging it around and down to the keeper. This time when he lifted it the buttons on the outside of the cuff of the boy's jacket got caught in the wires. They were sewed on the way mothers sew on buttons, and they held the youngster's weight easily, and when the giraffe lifted the holder up he lifted the boy with it.

"Then there was a scene. We knew the giraffe wouldn't hurt a fly, but it looked to the people as though he had the boy in his teeth and was going to sling him through the other end of nowhere. The whole audience rose up and stood leaning forrard, watchin and never sayin boo, but the giraffe swung his neck around as gentle and easy as the arm of a crane and lowered the holder and the boy hanging ta'lt safe into the arms of the keeper in the ring. The boy hadn't even dropped the tumbler.

"Then the people did holler, and the giraffe walked off as stately as you please, the boy climbed back up to his pop, and the show went on. Nobody hurt, but when we run out of the tumblers we had on hand we adopted another style of souvenir."—New York Sun.

Unappreciative.

"Palette felt disappointed because you didn't attend his exhibition of paintings."

"I was detained."

"But he kept the gallery open very late."

"Yes, that's what detained me until a little later."—Cleveland Plain Dealer.

Tetricus, the barbarian, was the first man to wear trousers, the two part garment having been forced upon him by his captor, Aurelian, with the intention of making Tetricus appear ridiculous. The costume, however, seems, after several centuries of usage, to have made a hit.

—I will purchase Red Lake county Orders, School District orders and St. Hilaire Village orders at a small discount. H. E. IVES.

SPRAINS.

Why They Are So Severe and How They Should Be Treated.

It is commonly said that a sprained joint is worse than a broken bone, and this is often true, for in a severe sprain the injury is really greater than in a simple fracture. The ankle is perhaps the most frequently sprained of all the joints, though the knee, elbow and wrist are also very liable to be injured, in falls especially.

A sprain of a joint varies greatly in severity. It may consist of a simple wrench, without the tearing of any of the ligaments, or it may be a more extensive injury, stopping just short of a dislocation.

In a moderately severe case one or more of the ligaments of the joint will be torn slightly, or possibly completely across. The membrane beneath the ligaments, which retains the lubricating fluid of the joint, will be ruptured, permitting the escape of more or less of this fluid into the parts about, and giving rise sometimes to a considerable swelling. This swelling may be increased also by an effusion of fluid into the joint, especially if inflammation sets in, and finally there is usually a slight or even sometimes a quite pronounced escape of blood into the tissues, and this, gradually working to the surface, appears as a black and blue stain.

In more severe cases the tendons passing over the joint and attaching the muscles which move it to the bones may suffer considerable damage, or one of them may be broken or torn from its attachment, bringing with it a sliver of bone. Where so much harm has been done to all the parts—bones, ligaments, tendons and muscles—it is easy to understand that much pain will result and that the cure will be tedious.

In the treatment of a sprain the first thing to be aimed at is to relieve pain and prevent inflammation, then to favor healing of the torn structures, and after that to restore the use of the limb.

The first of these objects is accomplished by absolute rest of the injured part, the limb being raised, and by lead and opium wash, a spirit lotion, or such other local applications as the physician may prescribe. Swelling is prevented in a measure and pain is sometimes relieved by firm bandaging with a flannel bandage.

When the swelling, heat and pain are gone, the limb should not be used too soon, but should be brought gradually back to health by cold douching, dry rubbing in a direction toward the body and passive motion. It is sometimes necessary in very severe cases to treat the sprain by means of splints, exactly as if it were a fracture or dislocation.—Youth's Companion.

MUZZLED DUCKS.

Not Because They Might Bite, but to Silence Their Quacking.

A baggage man on the Santa Fe who runs into Kansas City from out in the western part of Kansas has lost lots of sleep. It is doubtful if he can ever catch up with it. He leaves Hutchinson at night and reaches Kansas City in the morning. Nearly every night he brings in his car two or three coops of live domestic ducks. During the night, when he has no baggage to deliver at small stations, it has been his habit and privilege to lie down on an improvised couch and doze. With the advent of the ducks the dozing stopped. The almost constant quacking of the ducks, who could not understand their strange environment, would not permit of sleep.

For many nights as he lay awake he planned relief. He thought of strangling the ducks or chloroforming them. But neither expedient seemed good. One night a bright idea came to him. After he had put it into execution the ducks were silent.

The next night he had two coops of unusually vociferous ducks. As soon as it came time for sleep he wrenched a slat from one of the coops, reached in and pulled out a duck. From his pocket he took a small rubber band, which he slipped over the duck's bill just back of the nostrils. The duck tried to quack, but the rubber band, while it stretched a little, would not permit the duck to open its bill far enough to use its tongue. Only a murmur came from it. One by one the ducks were muzzled, and the baggage man rested comfortably.

The commission men were surprised next morning when they received a lot of ducks with rubber bands around their bills, and when the bands were removed the shouts of protest from the ducks were deafening.—Kansas City Star.

"By Hook or Crook."

In old times the poor of a manor were permitted to obtain as fuel the dead wood from the surrounding woodland. The dead twigs and branches which were beyond their reach they were allowed to lop off with a hook or a crook.

There is a document among the records of the town of Bodmin which gives the right to the burgesses of the town, under the concession of the prior of Bodmin, "to bear and carry away on their backs and in no other way the lop, crop, hoop, crook and bog wood in the prior's wood of Danmeer."

Another part of this paper mentions this as "a right with hook and crook to lop, crop and carry away fuel, etc., in the same wood."

The date of this record is 1525.—New York World.

What He Thought.

"I know," said the candidate for the small office to the veteran, "that you wouldn't sell your vote." "No, suh, I wouldn't!" "That you can't be bribed?" "Now yo' talkin, sah!" "But suppose I should make you a present of $10? What would you think?" The voter looked thoughtful, then said, "Wall, Marse Jim, jedgin by yo' pas' record, I'd either think yo'd done los' yo' min', or else yo's in de counterfeitin business!"—Atlanta Constitution.

U. S. LAND OFFICE.

Crookston, Minn., May 31, 1898.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office at Crookston, Minn., on July 14, 1898, viz:

Crookston, Minn., May 31, 1898.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register and Receiver of the U. S. Land Office, at Crookston, Minn., on July 14, 1898, viz:

Nels Evenson, H. E. No. 14501, for the lot 1, sec. 4, sw¼ sw¼, lot 1, sec. 3, twp. 152 N. of range 42 W.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:—Andrew Nelson, Andrew Rolstad, John Olson and Simon Olson, all of St. Hilaire, Minn.

SYLVESTER PETERSON,
45-50 Register.

LIQUOR LICENSE APPLICATION.

To the Common Council of the village of St. Hilaire, in the county of Red Lake and State of Minnesota.

The undersigned, Charles Telford, hereby make application for a license to be granted to him to sell intoxicating liquors for a period of twelve months from the first day of July 1898.

The place where said business is to be carried on is designated as follows: On the ground floor of the two story building situate on lot three (3) of block forty (40) of the original townsite of St. Hilaire, Red Lake county, Minnesota, said building having two outside entrances, one in front and one in the side.

Said applicant prays that such license be granted to him pursuant to the ordinances of said village of St. Hilaire and the statutes of said State of Minnesota in such case made and provided.

Dated at St. Hilaire, this 6th day of June 1898. Charles Telford.

Notice is hereby given that the village council of the village of St. Hilaire, Red Lake county, Minnesota, will meet at the council chamber in the village hall on Broadway in said village on Friday the 22nd day of July 1898, at eight o'clock p.m. at which time objections to granting said license in accordance with the above application will be heard.

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD.

The success of THE RECORD rests upon its reliability.

It prints the news—all the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world.

Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

Sold by newsdealers everywhere and subscriptions received by all postmasters. Address THE CHICAGO RECORD, 181 Madison street, Chicago.

Wheat 74 cents to day.

Farmers are busy putting up hay.

Cut the weeds around your premises.

—Get your dresses made at Mrs. Fred Case.

Look over the Five cent counter at Hall's.

Book agents were numerous here yesterday.

Sheriff Norland was in the village the first of the week.

—Dr. Thomas, the Crookston dentist will be here July 25th.

Mike Rosenberg's fire cracker band is getting along nicely.

Attorney Richardson of the upper Falls was here yesterday.

The board of equalization are in session at Red Lake Falls.

Try a lunch, a meal or a weeks board at the Ideal Lunch Room.

There is still talk of organizing a fire department and also a band.

Leonard Holmes handles all kinds of farm machinery and binding twine.

Postmaster Rapp made a business trip to Crookston the first of the week.

About a dozen men came up from Minneapolis Monday to work in the mill.

—Dr. W. A. Moore, dentist of St. Paul has permanently located in Red Lake Falls.

Supt. Ballard of the St. Hilaire Lumber Company, and wife, returned from the east Monday.

The large double store of Rapp & Post's looks fine after two coats of paint have been added.

The Minneapolis beer house was replenished with a car load Monday of kegs and bottled goods.

Ben Rosenberg left Saturday for the east to buy a stock of clothing. He will be gone about two weeks.

Messrs. Mattes and Strenahan with Misses Bell and Quandy will leave Sunday for a days outing at Maple Lake.

Judge Ives was here a short time Monday enroute to Red Lake Falls where he held a special term of court.

The St. Hilaire Lumber Company has an advertisement in this issue. Look it up perhaps it will interest you.

Mrs. Tony Monssean and children, arrived Friday and will remain some time visiting with husband and father.

Charley Rapp passed another mile stone Monday. He is now of age with just one score of years piled on top of it.

Fred Carlstrom, of Cannon Falls, came up to-day and will remain a week or so visiting with Mr. and Mrs. E. J. Holmes.

Any person neglecting to take out his second papers by August 6th will bar himself from voting at the coming election.

Miss Katie Powers is up from Crookston visiting friends. She will take in the teachers training school at Red Lake Falls also.

The Meehans of Thief River Falls are building a new passenger boat to ply the Red Lake river between Thief River and the Agency.

Crops never looked better than they do at present and if this weather continues a few weeks longer it will equal the 1895 crop or better.

County Commissioner Johnson was in the village Monday, enroute to Red Lake Falls to act in the capacity of one of the equalization board.

Miss Hughes and D. Collins left here last Saturday afternoon on their bicycles for Crookston. They returned Monday on the Great Northern.

Jos. Cavanaugh came up from Crookston Saturday to greet his many friends He is now foreman of the Crookston Lumber Co.'s planing mills.

The time of the year has arrived that saw mills find it difficulty to hold their men. From now until after harvest time its men going and coming.

Judge Ives will hold a special term of district court at St. Hilaire July 25th for the purpose of affording an opportunity to all persons who may desire to take out final papers of citizenship.

Arne Grundysen was nominated by the populist legislative committee last week at Crookston as successor to P. M Ringdahl as a candidate for state senator.

An excursion to Red Lake Agency by steamer is on the tapis and several from here are booked to go on the trip which will spoil the greater part of one week.

Over in North Dakota at a convention held at Fargo the Populists and Democrats fused under the head "Independent-Democrats." They will put up a strong ticket later on.

Chas. Latta who for several years has been connected with the Crookston Tribune as city editor, has accepted a like position on the Peoples Press a new paper just started at Crookston.

Geo. A. Burke came up from Minneapolis yesterday to accept a position in the machine shop at the mill. He is a first-class machinest as he has been tried here last fall and not found wanting.

H. E. Ives returned yesterday from a twelve days tour to the Pacific coast. He says the trip over the C. P. R. is the finest he ever had for sight seeing. A description of the outing will be given in our next issue.

If reports are true, an example should be made of the last setter that left the mill. These boys are getting too gay, making it a regular business to beat merchants. Work the thumb-screw racket on a few of them.

Judging from the number of soap advertisements (all kinds) painted on fences, barns and all over Winnipeg it must be the cleanest city in the world. The Canadians are great advertisers (in papers as well as on fences) and they have lots of money, too.

Sam Dainard, ex-sheriff of Red Lake county who has been making his home in British Columbia for the past year and a half returned to St. Hilaire Monday. Sam looks as though the country agreed with him. His many friends are glad to see him back.

Geo. Aftercit who has been with the St. Hilaire Lumber Co., for the past year and acting in the capacity of yard salesman left Saturday for the south. He will go into business for himself, if a suitable location can be found and he has several points in view.

Lars Kjos, a prosperous farmer living in the town of Rocksbury who went to Norway last November on a visit to relatives returning Monday accompanied by an acquaintance. Mr. Kjos enjoyed the trip very much but is glad to get back to his Minnesota home.

Would it not be a good idea for our business men to get together and come to some kind of an understanding in regard to trusting the floating population that come to our town in the summer? It seems to us that this dead beating racket should be stopped.

Judge Ives will be at Thief River Falls next Tuesday, July 26th for the purpose of turning out full fledged citizens. He will be at St. Hilaire Monday. Remember the dates as this will be a grand opportunity to take out your papers right at home—so to speak.

If you are in need of medicine go to the new Drug Store. We carry a full line of Humphreys and Munyon's Homaeopathic Remedies patent medicine, hair brushes, tooth brushes and a full line of prescription goods. We can fill all perscriptions and quantity no substitute. Call in and get a calandar free.

Among those from here who took in the Winnipeg excursion last Friday (American Day) were: Mr. and Mrs. A. Dainaad, Mr. and Mrs. Ed Gistie Mr. and Mrs. A. Arthur, Misses Olson, Danielson, Holmes, and Messrs. Post O'Brien, Olson, Sorsolcil, Bjerk and Soll. They all report as having a real good time over the border with their Canadian cousins.

A complaint has been lodged against the St. Hilaire Lumber Company for dumping edgings in the river north of the county bridge. The county commissioners will investigate and perhaps order the east side to be protected from being washed out. This could easily be done if the mill company would dump edgings on the other side of the river from the bridge up and around in the first bend.

Jim Hill has been continually kicking about the branch lines of Northern Minnesota not making enough to pay the legal rate of interest on money invested. It seems very strange to us, as on our trip to Winnipeg last week fully one-third of the box cars seen along the line had the St. Hilaire Lumber Company's shipping labels on them. The query is: Is Jim Hill shipping lumber free for this company?

The base ball excursion train Sunday last between Red Lake Falls and Thief River Falls was the largest ever pulled over this line. It contained nine coaches, each coach with a seating capacity of ninety-two. Every coach was crowded—three and four in a seat, the isles full and platforms and steps likewise. Some over three hundred from St. Hilaire went up on the train to say nothing of those who drove up by team.

To get rid of the mustard fields between here and Crookston the fields should be mowed down and the crop burned. After the crop is burned the land should be plowed at once, so that if there is still more seed in the ground that has not germinated it will come up and can be destroyed later on in the fall. By going over the ground four or five times with plows, harrows and discs, the weed can be gotten rid of in one year. It is a terrible sight to see acres and acres of nothing but mustard. These very same fields were alike last year and something should be done at once to stop the spread of this noxious weed.

Ringdahl Will Be Elected.

Speaking of the nomination of P. M. Ringdahl, of Crookston, for congress, the Willmar Tribune says:—A wiser and better nomination could not have been made. Mr. Ringdahl has demonstrated his ability as a legislator in the state senate. He has a commanding presence, is a good, forcible speaker, and what is best of all, he is true to the people. Their demands have received his careful attention in the position he has held, and to day there is not a man in the state more feared by the monopolistic rings in this state than P. M. Ringdahl of Crookston. Mr. Ringdahl, with a becoming modesty, would have preferred to remain in the state senate, but when called in this way by a unanimous sentiment of the people to accept the nomination for congressman, he would not refuse. The convention was the most harmonious and enthusiastic one the people's party of the district has ever held. All that is necessary in this district to elect our man is to give him the full party vote. Mr. Ringdahl is a man that ought to and will have the hearty support of every people's party man and silverite in the district. A district that gave Bryan a majority for president ought not to be represented by a "gold-bug" in congress. A pull altogether, boys, and Eddy will not know that he was in the contest.

DON'T BE ASHAMED—

To tell us if you have company.
If a child is born.
If you are going to get married.
If any relative or friend has died.
If your wife has gone away on a visit.
If anything happens worth printing.

What would happen to American girls if the English laws of 1670 were in force, provided of course, that the witchcraft laws were also in force? In that year the parliament enacted: "That all women, of whatever age, rank profession or degree whether virgins, maids or widows, that shall, from and after the passing of this act, impose upon and betray into matrimony any of his majesty's subjects by scents, paints, cosmetics, washes, artificial teeth, false hair, Spanish wool, iron stays, hoops, high heeled shoes, or bolstered hips shall incur the penalty of the laws now in force against witchcraft, sorcery, and such like misdemeanors, and that the merriage upon conviction shall stand null and void."—Ex.

—Dr. Thomas, the Crookston dentist will be at Hotel Markham (Monday) July 25th well prepared to do anything in the dental line. Remember this and govern yourselves accordingly.

In an exchange last week we noticed the following: "The stationary printed at this office last week is giving the best of satisfaction. Last week we printed one thousand statements for a man, and by their aid he has collected a small fortune. Two months ago a man bought of us some fine paper and envelopes to use when writing to his sweet heart. He is married now. Another young man forged the name of a friend on a check printed here, and is in the penitentiary. Another young man stole some of our paper to make cigarettes with and he is dead. A young lady bought some paper to curl her hair on, and now she has a beau. By using our stationery a person can collect old accounts, tell fortunes, make rain, change the color of the hair, have teeth extracted without pain, find out the name of future husband or wife, be successful in business, triumph over enemies and get elected to office. Put up in packages to suit the purchaser."

The Junior League will give an "Apron Sociable" Wednesday evening, July 27th at the M. E. church. Also ice cream and cake and lemonade will be served. Every body cordially invited to attend.

Pickling Corn, Beans and Cucumbers.

N. P. Nelson, Minn. "1, Will you please tell me how to pickle down green beans? 2. Green cucumbers? 3. And also green sweet corn?"—Ans. 1 Procure a wide-mouthed stone jar, lay on the bottom of it some freshly pulled beans, and over them put a layer of salt; fill the jar up in this manner with alternate layers of beans and salt. The beans need not all be put in at the same time, but they are better if the salt be put on while they are quite fresh. They will keep good all through the winter. When going to use them, steep for same hours in fresh cold water, or pickle with vinegar, sugar and spices to suit the taste. 2. Make a brine by putting one pint of salt into a pail of boiling water, and pour it over the cucumbers; cover tight to keep in steam, and let them remain all night and part of a day; make a second brine as above and let them remain in it the same length of time, then scald and skim the brine as it will answer for the third brine, and let them remain in it as above; then rinse and wipe them dry, and add boiling hot vinegar; throw in a lump of alum as large as a nut to every pail of pickles, and you will have a fine, hard and green pickle. Add spices if you like, and keep the pickles under the vinegar; a brick on top of the cover, which keeps the pickles under has a tendency to collect the scum which may arise. 3. Gather it with the husks on, put in the bottom of a clean barrel, some salt, proceed and fill the barrel as with pork, a layer of corn then a layer of salt; when full, put on a large stone for pressure, add a little pickle of salt and water. Set the barrel in a cool place in the cellar, do not let it freeze. When you wish to use it, take off the husks, soak it twenty hours in cold water boil it and eat.

—If you are in need of a pair of glasses J. Q. Adams will fix you out on his next trip to St. Hilaire which will be August 11th 12th and 13th. If you have a watch or clock that needs repairing or cleaning leave it at Johnson's drug store and that will be attendedto.

Weekly Crop Bulletin.

For the week ending July 11th 1898.

The week was dry till the morning of the 18th, when there were scattered showers, except in the southern part of the state. The middle and latter parts of the week were very warm, with temperatures frequently above 90 in the day time, though the night temperatures were moderate.

Spring wheat has advanced rapidly, so that it is now turning color as far north as the center of the state. A few correspondents are fearing that the hot weather will cause premature ripening, with consequent deterioration in quality and lessened yield, but most of them state that the filling is going on nicely. It is said that in the Red River Valley the quality is not even over large areas, which gives a patchy appearance. There are local complaints of rust, but no injury is anticipated. It is thought that the first cutting in the state will be from the 20th to the 25th. Winter wheat is all cut. A good rye crop has been secured, and a fine crop of barley is now being harvested. Oats are ripening in the southern counties. The crop is generally very good, with a heavy straw growth. Corn is growing very rapidly. A great deal of excellent clover and timothy hay has been saved in splendid condition. Haying is about to begin in the extreme north. Pastures and late potatoes need rain.

T. S. OUTRAM,
Section Director.

Those who got up early enough this morning had the pleasure of seeing the sidewalks coverd with white frost. However no damage was done to the tenderest garden truck.

When a man comes into his own town once a week, the place where he is accommodated with credit, and also the place that makes his farm worth $20 an acre more then it would if the town was not there and where three or four churches are kept in running trim, where he can come in every Sunday and sing "Hallelujah," free of charge, and then be found quoting Montgomery Ward prices or some other foreign house to his home merchant every ten cent article he buys, we are becoming more and more convinced that it would be no more than right when such a fellow dies, these foreign firms should be notified with a request to take charge of the obsequies It certainly does not belong to the place he lives in because every one knows if he could he would kick on his own funeral expenses and would have all necessary articles bought from Montgomery, Ward & Co., did he know when he would need them.—Ex.

Notice.

To the farmers in the northern part of Red Lake county.

When you want to insure your crop against hail bear in mind that there is a Mutual Hail Insurance Association right here at home known as the Rocksbury Mutual Hail Insurance Association. This company was incorporated last winter and a license granted to said association by the Insurance Commissioner of the State of Minnesota. There is more than one advantage derived by insuring in a home company like this.

First, instead of sending your money abroad you keep them right here at home and next where you pay more or less of your assessment you can feel confident that it goes to somebody who has suffered a loss in place of paying high wages and big salaries to a host of officers.

The expenses in carrying on this business is thought to be a small per cent of the outlay And last of all but not the least, you know or are aquainted with the men you are dealing with or who manage this affair from year to year.

The territory in which said association intends to insure crops for this season is the following townships in Red Lake county as follows: Bray, Numedal, Norden, North, Rocksbury, Sanders, Polk Center, Black River, River Falls, Wyandotte and fractional parts, town 153 range 42 and town 152 range 43.

For further particulars apply to O. H. Peters in St. Hilaire and Lars Backe in Thief River Falls, duly appointed agent of said association or directly to P. Enge' ad secretary of said association or any of its officers.

Please call on the secretary or agents for a sample copy of the company's articles of incoporation and by-laws.

Very respectfully,
P. ENGELSTAD.
Secretary Rocksbury M. H. I. A.

Platform of the Democrats Populists and Silver Republicans.

First. They are unalterably opposed to gold monometallism.

Second. They demand the immediate restoration of bimetallism at the present ratio by the independent action of his country.

Third. They oppose the retirement of the greenbacks.

Fourth. They oppose the issue of paper money by national banks.

Fifth. They oppose the issue of interest-bearing bonds.

Sixth. They favor the income tax as a means of raising part of the revenue necessary to administer the federal government.

Seventh. They favor the abolition of trusts.

Eight. They are opposed to government by injunction.

Ninth. They are in favor of arbitration and means of settling disputes between labor and capital.

If there is anything that gives an editor a swift pain it is to stand and talk of some way to boom the home town, and keep the trade at home with a business man who presists in sending away for his job printing. How much do you think such a man benefits a town when he can not afford to take his home paper, much less advertise? These same men will take a half dozen foreign papers and pay a good big price for the same and patronize foreign institutions for their printing—if they use any—and yet they want home people to stand by them. Yes, these men are a great benefit to any town, we don't think.—Delaware Herald.

"Like a rooster—jist like a rooster—with his spurs on!"—New York Weekly.

Important to Mothers.

The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trade mark. This counterfeiting is a crime not only against the proprietors of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents and mothers, in particular, ought to carefully examine the Castoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Castoria bears the fac simile signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years.

A Shrewd Suspicion.

CAMPFIRE SKETCHES.

GOOD SHORT STORIES FOR THE VETERANS.

Why Indians Are Afraid of the Black Troops—Story of Two Brave Men—Heroism and Chivalry—He Became a Hero.

The Old Brigade.

The new brigades are mighty fine—the
boys are brave an' true,
An' the gray is marchin' side by side
with them that wore the blue;
I see 'em on the hilltops—they're drillin'
in the glades,
But we won't forgit the old boys who
made the old brigades.

We won't forgit the fellers that fought
on land an' sea,
An' follered "Stonewall" Jackson, an'
charged with old Bob Lee!
An' Grant's an' Sherman's fellers—their
mem'ry never fades;
We won't forgit the old boys who made
the old brigades.

They're thinnin' out—the old boys—
they're few now on the sod;
They're crossin'—crossin' over to the
campin' ground of God;
I see the young boys marchin' on hills
an' fields an' glades,
But we won't fergit the old boys who
made the old brigades.

Black and Red.

It is well known that the colored troops in the United States army have proved very efficient in the service of the plains and frontier, but perhaps it is not so well known that the Indians are more afraid of the black soldiers than of the white soldiers. That this is the fact is vouched for by an army officer who has been "interviewed" on the subject by the Washington Star.

"The cavalry troop to which I belonged," this gentleman said, "soldiered alongside a couple of troops of the Ninth cavalry, a colored regiment, during the last Sioux troubles. We were performing chain-guard—that is hemming-in duty—and our task was to prevent the Ogallalas from straying from the reservation. If any of them attempted to pass, we had authority to prod them with our bayonets.

"The result was the white troop often had to perform the risky job of forcing back armed six-foot savages with the bayonet, and there were some very dangerous moments; but the black troops alongside had no such trouble. While the Indians were continually crowding upon the white soldiers, they let the blacks entirely alone.

"Moreover, the black troops obtained from the Indians ten times as much general obedience about the camps as the white ones did. The Indians would fairly jump to obey the uniformed blacks. One day a black sergeant saw a minor chief, who was sunning himself at the door of his tepee, send his squaw with a couple of pails down to the creek to get water. The black sergeant walked up to the lazy savage and prodded him.

"'Look aheah!' he exclaimed, 'jes' shake yo' no-'count bones an' go tote dat watah yo'se'f! Yo' heah me?'

"The Indian did not understand the words, but he comprehended perfectly the gesture, especially when the black man took the pails from the woman's hands and put them into those of her lord and master. He went after the water, and at an astonishingly rapid pace."

During the Pine Ridge troubles, when the Indians were on one occasion in line of battle, the duty of charging them was confided to the two black troops. The negroes began to yell as soon as they started, and their yell went on increasing with every jump of their horses, until it seemed to the listening white soldiers as if the air were being rent with the screams of ten thousand demons.

As soon as the Indians caught sight, through the cloud of alkali dust, of the black faces and open mouths of the charging blacks, and got the full effect of this mounting roar, they broke and fled, and were soon surrounded and disarmed. The chiefs afterward confessed that the braves were scared by the awful howling of the black troopers.

These black soldiers can fight as well as they can howl. Their record on the plains has been one of absolute intrepidity.

Two Brave Men.

Smith, a gunner in the service of the East India Company, was known as "the sweep," a derisive name given to mark some eccentricity, for the man was a character. He had charge of the boats belonging to the military station, and one day wrote to the brigade major, asking: "When shall I have the bote ready?" The major replied, "Have the boat ready at such an hour."

When the major went down to the river with a party of ladies, he asked Smith how he spelled "boat." Unabashed by the presence of the ladies, Smith, without a symptom of nervousness, answered the officer, "Some people spells it b-o-a-t, but I spells it b-o-t-e."

But Smith, notwithstanding his mocking nickname, was not a man to be laughed at. One day the roof of the building which held the ammunition caught fire. There was a panic; even the best disciplined soldiers lost their heads. But "the sweep" mounted the roof, pulled off the thatch, poured buckets of water over the flames, and saved the magazine. It was as plucky a thing as it was possible for a man to do; for there was powder enough in the building to wreck the station.

There is no telling what "a singed cat" will do. The present writer knew a Gloucester boy, so weak in body and so effeminate in disposition that his brothers, who were seamen, used to speak of him as our "poor little Davie." At the beginning of the Civil War Davie enlisted in the navy, and being a high school graduate, was made a petty officer.

One day a fire broke out on the vessel near the magazine. Davie, seeing that the men and officers hesitated to take the pipe of the hose down into the smoky between-decks, snatched it, jumped down and held it against the fire until the water had quenched the fire. Then he fell down, senseless, overcome by the heat and smoke.

Davie was again promoted, and had to listen to the commander's praise uttered from the quarter-deck, the sailors and officers standing at attention. Davie almost fainted again.

Heroism and Chivalry.

No event since the gallant action in Manila Harbor has stirred the enthusiasm of our people more than the brave deed of Lieutenant Hobson and his little crew at Santiago de Cuba. They took the collier Merrimac, under a heavy fire from Spanish guns, directly into the mouth of the harbor, in reckless disregard of the mines planted for their destruction.

When they had reached the narrowest part of the channel they anchored the vessel, let her swing across the entrance to the harbor, then deliberately fired torpedoes beneath her, and caused her to sink. They almost miraculously escaped injury. The collier at once settled down to the bottom, where she effectually prevents the Spanish fleet from leaving Santiago.

It was one of those acts of bravery that will live in history. More than that, it was a piece of strategy unique in the annals of war, where a great victory was won without bloodshed. A whole fleet was imprisoned by eight men and a worthless tramp steamer.

Nevertheless the story is but half told. These same men naturally became prisoners in the harbor which they had so effectually closed, and their capture gave the Spanish admiral an opportunity to show that the boasted chivalry of his nation is not all a fiction. He might well have been angry at the humiliation of defeat by such a weak foe; but he showed no resentment. Rather he hastened to testify his admiration of their heroism in the most striking way in his power. He immediately sent a flag of truce to the American squadron to announce the safety of Hobson and his crew, to give assurance that they would be kindly treated, and to offer to exchange them for Spanish prisoners.

This conflict will not last forever; we hope it will not last long. When it has ended this dramatic episode will leave us two precious memories—one of a gallant deed that perhaps spared two nations the necessity of fighting the greatest naval battle in history, the other of a graceful and noble act that has won the hearts of our people, and for chivalrous courtesy takes its place among the knightly deeds of knightly men that light up many a dark page of human history.

He Became a Hero.

A Kentucky newspaper, the Harrodsburg Democrat, says that some "ex-Confederates" were swapping war stories recently, when one of them told the following, which conveys a wholesome lesson against hasty judgment.

Just before the battle of Murfreesboro a detachment of Morgan's command was guarding a mountain pass a few miles from Bradyville, Tenn. A portion of the valley leading to the pass was densely wooded and swampy. The marshy ground abounded in bullfrogs of huge proportions, and the trees afforded a roosting place for numerous owls. Among the soldiers was a stripling by the name of Spreeler. It was a wild and windy night when Spreeler was called upon to do guard duty.

About 1 o'clock, when the sky was of a leaden hue and the wind sighed fitfully through the trees an owl on a near-by limb hooted:

"Who—who—are you?"

"John Spreeler," exclaimed the sentinel, trembling in his boots.

Just at that moment a bullfrog, in deep bass tones, seemed to say:

"Sur—sur—surround him!"

"I'll be hanged if you do," exclaimed Spreeler, as he fired his musket and broke for camp, which had been thrown into the wildest confusion by the alarm, which was supposed to mean that the enemy was attacking the outposts.

When the true state of affairs was understood the other men made life a burden for John until the Battle of Murfreesboro, when the Lincoln county stripling was promoted for conspicuous bravery. He was afterward assigned to Bragg's army, and died like a hero at the "battle above the clouds" while in the forefront of the charge, trying to spike an enemy's cannon.

General Gordon's Seal.

The seal which General Gordon used on all the documents he signed while shut up in Khartoum had a history, which is narrated in the "Life of Chauncey Maples," missionary bishop of Likoma, East Central Africa. While at Cairo the bishop stopped at the house of a friend named Floyer, of whom he writes:

Floyer had seen a great deal of General Gordon, and showed me one very interesting letter—the last he received from him. The occasion of it was interesting. Floyer had volunteered to prepare Gordon a seal with his name in Arabic characters upon it. For this purpose he chose an old coin, which he partially melted and refashioned.

When the seal was completed, it was found that two words that had been on the coin were still legible. The words were in Arabic, and signified "The Messenger of God." Gordon noticed them and was much pleased, and in the letter in question commented on them, saying he prayed he might always remember to be as the messenger of God to the Soudan people.

The Danger of Paint.

Dr. James Law reports an interesting case of poisoning by lead, which he recently observed. He found several sick cows, suffering from nervous disorders, in a herd from which one had but recently died. An examination of the dead animal revealed nothing, but a glance at the new tub silo gave the reason. It had been painted inside with a thin coat of lead, last summer, the knots being coated again. The acetic acid, developed in the ensilage, had dissolved some of the paint, forming the poisonous sugar of lead, lead acetate. By prompt treatment of the sick animals, they were saved, but one in the herd, apparently well, succumbed suddenly, making the second victim. Coal tar would have been safe, and quite effectual, in covering the wood.

A Harrassing Serial Story.

Puck: Louise—"I've fixed Kitty so she will answer my letter at once." Belle—"What did you do?" Louise—"I wrote her a lot of gossip and forgot to send the middle pages."

Wagner's music is not synonymous with snoring in sleeping-cars.

STONE IN HER STOMACH.

From the Gazette, Blandinsville, Ill.

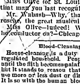
The wife of the Rev. A. R. Adams, pastor of the Bedford Christian Church at Blandinsville, Ill., was for years compelled to live a life of torture from disease. Her case baffled the physicians, but today she is alive and well and tells the story of her recovery as follows:

"About six years ago," said Mrs. Adams, "I weighed about 140 pounds, but my health began to fail and I lost flesh. My food did not agree with me and felt like a stone in my stomach. I began to bloat all over until I thought I had dropsy.

"I had pains and soreness in my left side which extended clear across my back and also into the region of my heart. During these spells a hard ridge would appear in the left side of my stomach and around the left side.

"These attacks left me sore and exhausted. All last summer I was so nervous that the children laughing and playing nearly drove me wild. I suffered also from female troubles and doctored with ten different physicians without receiving any help.

"My husband having read in the newspaper of Dr. Williams' Pink Pills for Pale People, induced me to try them. I began taking them last November but experienced no relief until I had taken six boxes. I am now taking the eleventh box and have been greatly benefited.



"My Husband Read."

"I was also troubled with nervous prostration and numbness of my right arm and hand so that at times I could hardly endure the pain, but that has all passed away. I now have a good appetite and am able to do my own work. Have done more this summer than in the past four years put together. Dr. Williams' Pink Pills for Pale People cured me, and I think it my duty to let other sufferers know it."

Hundreds of equally remarkable cases have been cured by Dr. Williams' Pink Pills.

Insidious.

"I must say," remarked Farmer Corntossel, "that I don't like these here long speeches."

"You don't have to read them."

"That's jes' the p'int. That's their only strength. Ye skip 'em, an' then feel that maybe there was something in 'em thet would of changed yer mind if you'd read it."—Washington Star.

And Such Is Fame:

Miss Olive (of St. Louis)—Who was that man you last recognized?

Mr. Wabash—Why, that was Damrosch, the great musical conductor.

Miss Olive—Indeed! What road is he conductor on?—Chicago News.

Blood-Cleaning.

House-cleaning is a duty in every well-regulated household. People don't wait until the filth becomes painfully apparent, but it stands to reason that in every day use more or less dust or dirt accumulate. It is so with the human blood. From the enormous variety of eatables taken into the stomach, a quantity of useless material is bound to accumulate in the blood and clog the free and wholesome flow in the vessels. Every person should from time to time have a "blood-cleaning" and the best cleanser and blood purifier is Cascarets Candy Cathartic. We recommend them to all our readers.

Suspicion.

"I really believe," said Mr. Meekton, "that I would like to be a chef."

His wife dropped her knife and fork and frowned.

"Leonidas," she exclaimed, severely, "I believe you have been reading some of those silly paragraphs about the way cooks browbeat the woman of the house."—Washington Star.

FITS Permanently Cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. Send for FREE $2.00 trial bottle and treatise. DR. R. H. KLINE, Ltd., 931 Arch St., Philadelphia, Pa.

The Cheerful Idiot.

The Cheerful Idiot met his lawyer. "I want to ask your opinion," he said, "about the right of the United States to retain the Philippines. I don't mean a legal opinion," he hastily added, "I only want your honest opinion."—Indianapolis Journal.

COSMO BUTTERMILK TOILET SOAP makes the skin soft, white and healthy. Sold everywhere.

Not a Hurry Call.

Aunt Mary—Isn't that your mother calling you, Tommy?

Tommy—Yes'm.

Aunt Mary—Well, why don't you answer?

Tommy—Oh, what's the use? Papa isn't at home to-day.—Chicago News.

On the wave of popularity—fans in warm weather.

I believe my prompt use of Piso's Cure prevented quick consumption.—Mrs. Lucy Wallace, Marquette, Kans., Dec. 12, '95.

The absent are never without fault, nor the present without excuse.—Franklin.

Educate Your Bowels With Cascarets.

Candy Cathartic cure constipation forever, 10c, 25c. If C. C. C. fail, druggists refund money.

The Reading Terminal—the end of a serial story.

PERIODS OF PAIN.

Menstruation, the balance wheel of woman's life, is also the bane of existence to many because it means a time of great suffering.

While no woman is entirely free from periodical pain, it does not seem to have been nature's plan that women otherwise healthy should suffer so severely. Lydia E. Pinkham's Vegetable Compound is the most thorough female regulator known to medical science. It relieves the condition that produces so much discomfort and robs menstruation of its terrors. Here is proof:

DEAR MRS. PINKHAM:—How can I thank you enough for what you have done for me? When I wrote to you I was suffering untold pain at time of menstruation; was nervous, had headache all the time, no appetite, that tired feeling, and did not care for anything. I have taken three bottles of Lydia E. Pinkham's Vegetable Compound, one of Blood Purifier, two boxes of Liver Pills, and to-day I am a well person. I would like to have those who suffer know that I am one of the many who have been cured of female complaints by your wonderful medicine and advice.—MISS JENNIE R. MILES, Leon, Wis.

If you are suffering in this way, write as Miss Miles did to Mrs. Pinkham at Lynn, Mass., for the advice which she offers free of charge to all women.

OUR BUDGET OF FUN.

SOME GOOD JOKES, ORIGINAL AND SELECTED.

Some of the Best Jokes of the Season, Original and Selected—A Sad but Glorious Day for the Spaniards—Wit and Sarcasm.

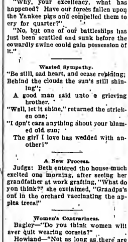
A June Fantasy.

June time—joy time—nature all aglow,
And the land a-glittering
With the vernal show.
Happy birds a-twittering
In each shady nook—
What delight to look,
In and out, all about, as we come and
go,
At the glory and the glamour of
June!

Sunshine, funshine, thrilling as a kiss,
Flirting in the merriest
Mimicry of bliss.
Dawdling is the veriest
Disregard of time—
Making blooms of grime
By a playful, gayful metamorphosis,
Mysterious as imperious June!

Play days—heydays—languorous and
long;
Flowerful and howerful,
And hourful of song—
But, alas! the powerful
Whirligig of time
Soon will end, the chime.
Then will wander far afield the frolic
throng,
Of fascinating fantasies of June!

Of Course.



She—Your ambition is to be a scorcher, they tell me.

He—Yes—preparing to be in shape for Cuba.

A Sad but Glorious Day.

"Victory!" cried the Spanish minister. "Write out a proclamation at once authorizing our people to celebrate!"

"Why, your excellency, what has happened? Have our forces fallen upon the Yankee pigs and compelled them to cry for quarter?"

"No, but one of our battleships has just been scuttled and sunk before the cowardly swine could gain possession of it."

Wasted Sympathy.

"Be still, sad heart, and cease repining;
Behind the clouds the sun's still shining";
A good man said unto a grieving
brother.
"Well, let it shine," returned the stricken one;
"I don't care anything about your blamed old sun;
The girl I love has wedded with another!"

A New Process.

Judge: Beth entered the house much excited one morning, after seeing her grandfather at work grafting, "What do you think?" she exclaimed, "Grandpa's out in the orchard vaccinating the apple trees!"

Women's Contrariness.

Bagley—"Do you think women will ever quit wearing corsets?"

Howland—"Not as long as there are any obtuse men around to maintain that the things are detrimental to health."

Putting Him in Training.

"Do you really want to go to war, Henry?"

"Of course I do."

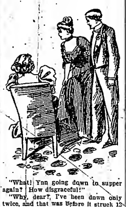
"Well, suppose you try your hand at intimidating our cook."

Defective.

The Professor—And now what do you think of the cinematographe?

Letty Caramel—Why, they might get a man with a steadier hand to work the arrangements.

Must Have Been Famished.



"What! You going down to supper again? How disgraceful!"

"Why, dear? I've been down only twice, and that was before it struck 12—this is the first time today!"—Ally Sloper.

The First Requisite.

Miss Gushington—I, too, Herr Slovawaki, should like to become a great violinist. What is the first thing to do?

Herr Slovawaki—Learn to play.

Remote, But Interested.

"I wonder how Spain feels about the war."

"Well, I fancy she is almost as badly scared as Boston."

Sensitive Nerves.

"The climate of Cuba is hard on our boys at first," said the passenger with the skull cap, "but it won't be so bad when they become—"

"Acclimated," said the passenger with the spectacles. "Excuse me for interrupting you, but I feared you might pronounce it with the accent on the first syllable."—Chicago Tribune.

A Philippine Heroine.

One of the Philippine insurgent leaders is a beautiful woman, whose life seems to be charmed. Frequently we see people in this country whose lives seem charmed, also; but the only charm about it is that they keep up their strength and vitalize their blood with that celebrated remedy, Hostetter's Stomach Bitters.

Annoying.

"Human nature is mighty queer," remarked one of the sailors in Camara's fleet.

"The only thing to do is to mind your own business," replied the other.

"Even that doesn't make any difference. We can't go peaceably away and try to keep out of trouble without arousing the impertinent curiosity of the whole world."—Washington Star.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets Candy Cathartic cleans your blood and keeps it clean by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly, bilious complexion by taking Cascarets—beauty for 10 cents. All druggists. Satisfaction guaranteed. 10c, 25c, 50c.

The Outlook.

Fond Mother—What do you think baby will be when he grows up?

Exasperated Father—I don't know; town crier, likely.—Tit-Bits.

Wheat 40 Cents a Bushel.

How to grow wheat with big profit at 40 cents and samples of Salzer's Red Cross (80 Bushels per acre) Winter Wheat, Rye Oats, Clovers, etc., with Farm Seed Catalogue for 4 cents postage. JOHN A. SALZER SEED CO., La Crosse, Wis. w.n.u.

Read the Advertisements.

You will enjoy this publication much better if you will get into the habit of reading the advertisements; they will afford a most interesting study, and will put you in the way of getting some excellent bargains. Our advertisers are reliable; they send what they advertise.

She Had Not.

"Have you been married previously?" asked the license clerk.

"Naw," said the young and blushing [illegible]; "but paw, he says he thinks I am getting married too previously now."—Indianapolis Journal.

A willing mind makes a hard journey easy.—Massinger.

To Cure Constipation Forever.

Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

Some thirsty people will tell you that even soft drinks are hard to get.

Hard up—The out-of-door elevator.

Everybody Turned Out.

Billinger—What's the great rush down the street there? Is there a fire somewhere?

Ackley—No, there's no fire. Those fellows are going to Washington. Somebody started a rumor, a little while ago, that the president had decided to appoint six more colonels.—Chicago News.

Try Allen's Foot-Ease.

A powder to be shaken into the shoes. At this season, your feet feel swollen, nervous and hot, and get tired easily. If you have smarting feet or tight shoes, try Allen's Foot-Ease. It cools the feet and makes walking easy. Cures swollen and sweating feet, blisters and callous spots. Relieves corns and bunions of all pain and gives rest and comfort. Try it today. Sold by all druggists and shoe stores for 25c. Trial package free. Address Allen S. Olmsted, Le Roy, N. Y.

What He Got for Asking Questions.

Fat Citizen—You're a pretty small chap to be runnin' an elevator, ain't you, huh?

Small Chap—Yes, I guess I be. They hired me 'cause the darned rope broke so many times with the heavier elevator boys.

And the fat man walked up.—Cleveland Plain Dealer.

He Didn't Quit.

The Gray-Haired Man—Yes, I once made over $[illegible] in three hours, dealing in wheat.

The Innocent Maiden—Goodness! What did you do with it?

The Gray-Haired Man—Lost it in another deal next day.—Chicago News.

Within the past month the first iron bridge erected in the State of Ohio has been removed. This bridge was over [illegible] Creek on the Central Ohio division of the Baltimore and Ohio Railroad in Muskingum county and was built in 18[illegible]. It was a single span, 71 feet in length and was known as a "Bollman deck truss bridge with plate girders." Bollman was at that time Chief Engineer of construction of the Baltimore and Ohio Railroad.

Two Different Views.

Mrs. Weigh—Young Singleton is just crazy to get married.

Mrs. Wisterly—Yes; he certainly must be.—Chicago News.

Too Much.

"Your guest didn't stay long?"

"No, you see, she begged me to treat her like one of the family. I did. And now she's gone."—Moonshine.

Don't Tobacco Spit and Smoke Your Life Away.—To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker that makes weak men strong. All druggists, 50c or $1. Cure guaranteed. Booklet and sample free. Address Sterling Remedy Co., Chicago or New York.

The Saving Grace.

"I say, Murphy, do yez belave there is any of the good old blood in the Spaniards?"

"Begorra, there may be; but if there is, sure it's tainted wid yaller."—Phila-

For a perfect complexion and a clear, healthy skin, use COSMO BUTTERMILK SOAP. Sold everywhere.

He who hurts your feelings may be helping your life.

The hair

is like a plant. What makes the plant fade and wither? Usually lack of necessary nourishment. The reason why Dr. Ayer's Hair Vigor restores gray or faded hair to its normal color, stops hair from falling, and makes it grow, is because it supplies the nourishment the hair needs.

"When a girl at school, in Reading, Ohio, I had a severe attack of brain fever. On my recovery, I found myself perfectly bald, and, for a long time, I feared I should be permanently so. Friends urged me to use Dr. Ayer's Hair Vigor, and, on doing so, my hair immediately began to grow, and I now have as heavy and fine a head of hair as one could wish for, being changed, however, from blonde to dark brown."—Mrs. J. H. HORSNYDER, '152 Pacific Ave., Santa Cruz, Cal.

Ayer's Hair Vigor.

A Beautiful Present Free

For a few months to all users of the celebrated ELASTIC STARCH, (Flat Iron Brand). To induce you to try this brand of starch, so that you may find out for yourself that all claims for its superiority and economy are true, the makers have had prepared, at great expense, a series of

Game Plaques

exact reproductions of the $10,000 originals by Muville, which will be given you ABSOLUTELY FREE by your grocer on conditions named below. These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartment. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

AMERICAN WILD DUCKS, AMERICAN PHEASANT,
ENGLISH QUAIL, ENGLISH SNIPE.

The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

HOW TO GET THEM:

All purchasers of three 10-cent or six 5-cent packages of Elastic Starch (Flat Iron Brand), are entitled to receive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer.

Every Grocer Keeps Elastic Starch.

Do not delay. This offer is for a short time only.

Elastic Starch

has been the standard for 25 years. TWENTY-TWO MILLION packages of this brand were sold last year. That's how good it is.

Ask Your Dealer

to show you the Plaques and tell you about Elastic Starch. Accept no substitute.

BEATS ANYTHING IN HISTORY

REMARKABLE ACHIEVEMENTS IN THREE MONTHS OF WAR.

The President and All Responsible Officers Express the Greatest Satisfaction at the Progress Made—Battles Preceding the Fall of Santiago Have Covered the Troops Engaged With Imperishable Glory—Gen Henry's Tribute to Gen. Shafter—Almost Insurmountable Difficulties Overcome—Heroism and Patience of the Troops Under Discomfort.

Washington, July 25.—With the week just closed the United States saw the end of the third month of the war with Spain, and the responsible officers, from the president down to the last employe who had to do with the shaping of the course of events, feel nothing but satisfaction at the progress made. An army of a quarter of a million of men has been mobilized, armed and equipped, and much of it has seen service. The battles preceding the capture of Santiago have been remarkable in many respects, and in the opinion of the military experts have covered the United States army engaged with imperishable glory. Modern warfare of a type developed in these engagements was absolutely new and untried, not only to the United States army, but to the world. No such charge is recorded in history as that made upon the stone fort and the blockhouse crowning the hills of El Caney. There have been engagements between trained troops and savage races in the jungles of India and on the hills of South Africa of late years that conveyed in a slight manner the possibilities of modern weapons. But these battles fought by the Fifth army corps have been the first to which large bodies of troops of civilized nations on both sides

Have Been Engaged

with all the implements of modern warfare, and the result is bound to be highly instructive to the military student and to extort admiration for the splendid fighting qualities of the United States, even from the most unwilling critics. Few officers in our army have had more experience in hard fighting, especially in rough country, than that old Indian fighter, Gen. Henry, so some weight must be attached to the opinion of the merits of our officers and troops expressed by him in the following personal letter addressed by him to Adjt. Gen. Corbin, dated in front of Santiago, July 12:

"We had a pleasant sail down, but having to row the men ashore it took some time to get off. We left Siboney at 2 p. m. yesterday with the Eighth Ohio and came into camp here, about three miles from the front. The company with Gen. Breckinridge rode to the front to Gen. Wheeler's headquarters, and a flag of truce being up, had an opportunity to see the lines. We were almost on top of them in front of Wheeler, being about 800 yards to the right of them, but the country is rough, given to the falling and ascendant,

Covered by Their Fire.

The country all the way is the roughest I ever saw. You have to follow roads or trails and come under heavy fire, their positions commanding every approach. The work done by these troops since landing, their heroism and patience under discomfort, heat and rain, calls for the highest praise, and the work accomplished by Shafter, his pertinacity and goaheaditiveness under adverse circumstances and discomforts, is a revelation to me. I doubt if there is another officer who would have 'gotten there' as he did. Our loss was most unfortunate, but from the character of the country could not have been avoided 'if we had to get there.' Last night the Eighth Ohio were almost drawn out, and it appears to-day to be due to the climate, and to get out of it it would be cheaper to lose more by fighting and success than by sickness and inactivity and staying. We have about thirty cases of yellow fever and many of malaria, but the men are cheerful. Gen. Duffield and Capt. Wilcox have yellow fever, they say a mild form, gotten from sleeping in infected buildings, which are now to be burned. Miss Clara Barton and Mrs. Addison Porter rode to the front yesterday in an army wagon over rough roads and raining; they are unselfish women. Too much credit cannot be given the heroism, pertinacity, pluck, patience and endurance of the men who have borne the brunt of this work."

TO ATTACK MANILA.

Augusti Telegraphs the Government Grave Events Are Impending.

London, July 25.—A special dispatch from Madrid says that Gen. Augusti, captain-general of the Philippines, has telegraphed the government as follows: "The Americans are about to attack Manila. Grave events are impending."

Don Carlos in Switzerland.

London, July 25. — Don Carlos, the Spanish pretender, according to a dispatch from Brussels to the Daily Mail, has hurriedly started for Switzerland.

Queen's Name Day.

Madrid, July 25. — The members of the cabinet visited the queen regent, it being her name day. Senor Sagasta, the premier, says that not all the troops included in the capitulation of Santiago agreed to surrender.

Bitten by a Dog.

St. Paul, July 25.—Adolph Myers, six years of age, living at 66 East George street, was bitten in the leg by a dog. The injury is not serious. The same dog is said to have bitten a number of people.

BAY OF NIPE IS CAPTURED.

Sampson Reports the Success of the Expedition.

Washington, July 24. — The following message has been received at the navy department:

Playa, July 22.—Expedition to Nipe has been entirely successful, although the mines had not been removed for want of time. The Spanish cruiser Jorge Juan, defending the place, was destroyed without loss on our part. The Annapolis and Wasp afterward proceeded from Nipe to assist in the landing of the commanding general of the army on arrival at Puerto Rico.

—Sampson.

This brief report from Admiral Sampson declaring the success of the expedition to Nipe is really more important than appears on the surface. The Bay of Nipe lies on the northeast coast of Cuba, almost directly across the island from Santiago. It is proposed to establish a base there which will save at least two days' time in getting supplies into Cuba as compared with the Santiago route. It will also form a good point of operations against Holguin, not far distant, and if it should develop unfortunately that a restraining hand must be laid upon the Cubans themselves, Nipe, in connection with Santiago, would be an effective means of doing this. The war department has not yet been informed that Gen. Shafter's Cuban allies have quit the American lines for the reasons set out in a printed letter by Gen. Garcia, but it is scarcely doubted that such is the case, for the friction has been growing more pronounced every day since the fall of Santiago, and it is feared that a severance of relations cannot longer be avoided. That the Cuban junta is still hopeful of avoiding such a measure is evidenced by the confidence shown by Senor Quesada in an amicable settlement.

GEW-GAWS FOR AGUINALDO.

The Insurgent Chief Will Put on Lots of Airs.

London, July 24. — The Hongkong correspondent of the Daily Mail says: The latest mail from Manila reports that the rebels have lately suffered several reverses and have lost territory south of Malaet. Gen. Aguinaldo has issued an absurd proclamation dealing chiefly with official insignia. He, as president of the Philippine ministry, is to wear a gold collar with a gold triangular pendant, engraved with the sun and three stars, and to carry a gold whistle, as well as stick with a gold handle and a tassal of gold. The badges of immediate officers are minutely described in the proclamation. Gen. Williams, the United States consul general at Manila, has written as follows to Mr. Wildman, the United States consul general at Hongkong:

"If the United States will be the suzerain and protecting power Aguinaldo will hoist our flag and look to us for honor and emolument which would be liberal and lasting and be followed by a free government for his people."

A CABINET CRISIS.

Gen. Polavieja's Arrival at Madrid May Precipitate It.

London, July 24.—The Madrid correspondent of the Daily Mail says: Senor Sagasta told a representative of El Imparcial that the government had already entered upon the preliminary stage of peace negotiations. Gen. Polavieja has arrived and will have an audience with the queen regent.

A special dispatch from Madrid says the arrival of Gen. Polavieja has increased the persistent talk of a cabinet crisis. The queen regent is credited with exclaiming: "Thank God" when she knew he was coming. Opinions differ as to whether a semi-military cabinet would make for peace or for a continuance of the war; but all are agreed that it would at any rate put an end to the present policy.

MOVING OF TROOPS.

A Large Contingent Leaves Camp Thomas for the Front.

Chickamauga, July 23.—The actual movement of troops from Camp Thomas for the Puerto Rican expedition began yesterday when Gen. Haines' brigade, the Second of the First division, First corps, broke camp and marched to Rossville. The regiments included were the Fourth Ohio, Fourth Pennsylvania and the Third Illinois. The route is to Cincinnati and thence to Newport News. These troops will be followed by Gen. Brooke and staff, the first ambulance company, the reserve hospital corps, the signal corps and Gen. Brooke's guard, consisting of Troop H, Sixth United States cavalry, and Company F, Eighth United States infantry.

TROOPS AT MANILA.

The Disembarkation of the Second Expedition Being Pushed.

Manila, July 19, via Hongkong, July 24.—The disembarkation of the American troops composing the second expedition is being pushed with the utmost energy. The Colorado regiment is already in the field near Paronajo, and other regiments will be transferred without any loss of time to the camp in native boats. The cruiser Boston has been detailed to cover the landing parties. She now occupies a position almost within range of the guns of Fort Malato, which is only a short distance from Manila proper. The brigade commanded by Gen. Anderson is still at Cavite, but his troops are ready to move.

Summer Instruction.

Lake Benton, Minn., July 24. — Assistant State Superintendent Hyde lectured in the opera house here to the teachers' summer school. The school is under the instruction of Messrs. McConnell and Phillips. The attendance is good.

Galveston, Tex., July 24.—The First regiment, United States volunteers, Galveston immunes, have left for New Orleans on three trains. They will arrive in New Orleans to-day and will immediately embark on the steamer Berlin for Santiago.

GEN. MILES' EXPEDITION

WAR DEPARTMENT LOOKING FOR NEWS FROM PUERTO RICO.

Official Dispatches Are Expected Some Time To-Day—Whether Gen. Miles Will Undertake to Make a Landing in Advance of the Arrival of the Whole Expedition Depends Upon Conditions as He Finds Them—Department Making Every Effort to Hurry Along the Remainder of the Troops—Lack of Lighters May Cause Delay.

Washington, July 25.—It was said at the war department late yesterday that no news can be expected from any official source as to Gen. Miles' movements until to-day at the earliest. It is calculated that he arrived last evening at the point on the coast of Puerto Rico selected as the rendezvous for all the vessels of the expedition. Whether or not he will undertake to make a landing in advance of the arrival of the whole expedition probably will depend entirely upon conditions as he finds them. Should there be no Spanish force or at least an inconsiderable one on the coast the troops will be landed to relieve them from the disastrous effects of being confined closely on shipboard under a tropical sun. The general has with him sufficient artillery to hold any position he may choose to occupy, supplemented as this artillery will be by the guns of the convoy. Meantime the department is making every effort to hurry along the remainder of the expedition. Some troops

Are Now on Their Way

from Tampa and Charleston and should reach Puerto Rico by the middle of the week. Naval officials are assisting actively in getting the troops off and were engaged in sending the necessary orders to that end to the commanders of the naval auxiliary vessels which have been placed at the service of the war department. In the course of a day or two the troops brought from Chickamauga by Gen. Brooke will sail from Hampton Roads, where they have been arriving and are ready for the transports. There is a probability that Gen. Miles may be delayed for several days in his landing operations for lack of lighters, but several of these are now on their way and others will be hurried forward as rapidly as possible. However it may be as to his speedy landing on Puerto Rican soil, it will be well along toward the end of this week before the active land campaign can be begun in Puerto Rico.

THEY TELL OF DEFEAT.

Spanish Reports of Engagements With Americans and Insurgents.

Madrid, July 25. — A telegram from Havana reports that the insurgents attacked Gibara, on the north coast of the Province of Santiago de Cuba, and the garrison, after a severe fight, evacuated the place. Many of the insurgents were killed. The dispatch also reports that a force of Americans landed at Guamalacoa and invested Tunas de Gaca and the warships shelled Guamalacoa.

IT WAS MURDER.

Daniel McCrea Killed by Toughs at Valley City, N. D.

Ashland, Wis., July 25.—Daniel McCrea, who has been brought here, having been reported accidentally drowned at Valley City, N. D., was murdered. His father has arrived from there and says that the young man was attacked by a gang of toughs, robbed and murdered. His body was thrown in the lake to conceal the crime. He was twenty-five years old and was well known here.

STRUCK BY LIGHTNING.

House Destroyed, but Seven Inmates All Escape.

Watertown, S. D., July 25.—The most severe thunder storm of the season visited this section. Lightning struck the house occupied by W. G. Rainey, tearing it to pieces and severely shocking all the members of the family. It is a wonder that not one of the seven was killed. Three inches of rain has fallen in eighteen hours.

Inhabitants Were Shocked.

Valparaiso, Chile, July 25.—A violent shock of earthquake, lasting a minute, was felt at Concepcion, capital of the Chilean province of that name, and at Talcahuano, on the Bay of Concepcion and eight miles from Concepcion city. Many houses were destroyed and the telegraph and electric light wires were severed. The inhabitants were terrified and fled from their homes, spending the night in the open.

Four Were Captured.

Black River Falls, Wis., July 25. — Four out of five prisoners who escaped from here a few days ago have been captured near Trempealeau. They were captured by the deputy sheriff of the county after a determined stand, one being seriously shot.

What For?

Gibraltar, July 25. — The Spanish transport Valdez has arrived at Algeciras and landed guns and war material.

Both Were Drowned.

Dayton, Ohio, July 25.—While playing along the river bank Harmon Nickins, aged eight, fell into the water. His brother, Louis, aged fourteen, jumped in to save him but the boy clinched him and both were drowned.

Suspects Arrested.

St. Paul, July 25.—Two men were arrested in Anoka, supposed to have stolen the horse and rig taken from James N. Whidden July 16. The rig was in possession of the men when arrested.

THE MARKETS.

Latest Quotations From Grain and Live Stock Centers.

St. Paul, July 25. — Wheat — No. 1 Northern, 88@89c; No. 2 Northern, 85@87c. Corn — No. 3 yellow, 32 1-2 33c; No. 3, 32@32 1-2c. Oats — No. 3 white, 24@25 1-2c; No. 3, 23@24c. Barley and Rye—Sample barley, 23@32c; No. 2 rye, 44@44 1-2c; No. 3 rye, 43@44c.

Duluth, Minn., July 25. — Wheat — Cash, No. 1 hard, 86c; No. 1 Northern, 85c; No. 2 Northern, 82c; No. 3 spring, 80c; to arrive, No. 1 hard, 86c; No. 1 Northern, 85c; September, No. 1 hard, 70 3-8c; No. 1 Northern, 69 3-8c; December, No. 1 hard, 68 3-8c; No. 1 Northern, 67 3-8c; oats, 24@25c.

Minneapolis, July 25.—Wheat — July opened at 87 1-2c and closed at 87 1-2c; September opened at 67 1-2c and closed at 67c; December opened at 66c and closed at 65 3-8c. On track—No. 1 hard, 90 3-4c; No. 1 Northern, 88 3-4c; No. 2 Northern, 84 3-4c.

Milwaukee, Wis., July 25.—Flour is firm. Wheat firmer; No. 1 Northern, 90c; No. 2 Northern, 89c; September, 70c. Oats higher at 26 1-4@27 1-4c. Rye steady; No. 1, 47 1-2@48c. Barley steady; No. 2, 43 1-2c; September, sample, 33@37c.

Chicago, July 25.—Wheat—No. 2 red, 78 1-2c; No. 3 red, 73@76c; No. 2 hard, 75@75 1-2c; No. 3 hard, 73 1-2@74 1-2c; No. 2 spring, 75c; No. 3 spring, 70@82c; No. 1 Northern spring, 88c. Corn—No. 2, 33 1-4@33 3-8c; No. 3, 33c; No. 2 oats, 24c; No. 3, 23c.

Chicago, July 25. — Hogs — Light, $3.70@3.95; mixed, $3.75@4; heavy, $3.75@4.05; rough, $3.75@3.80. Cattle—Beeves, $4.20@5.40; cows and heifers, $2.40@4.70; Texas steers, $3.60@4.70; stockers and feeders, $3.10@4.65. Sheep—Natives, $3@4.90; Westerns, $4@4.75; lambs, $3.75@6.50.

South St. Paul, July 25. — Hogs — $3.60@3.95. Cattle—Cows, $2.25@3.70; stockers, $3.60@5; heifers, $2.50@3.50; oxen, $3.25; bulls, $2.80@3.25; calves, $4.50@4.75.

Sioux City, Iowa, July 25. — Hogs — $3.65@3.80. Cattle — Beeves, $4.60@4.70; canners, $2.25; cows, $4; heifers, $3.65@4; bulls, $3@3.60; stockers, $3.90@4.40; yearlings, $3.90@4.25; calves, $4.10@5.25. Sheep, $3.50@5.

CROP CONDITIONS.

Little to Be Complained of on the Eve of Harvest.

Worthington, Minn., July 25. — Rye and barley in this county are now about in shock and the farmers are commencing on their oats. No wheat has been cut, but the prospects of all small grain are very fine. Barley has been estimated at from thirty to forty-five bushels per acre.

Balaton, Minn.—Wheat, oats, barley, flax and corn have the best stand that this section has had for years, and with no drawbacks wheat will go from fifteen to twenty-five bushels per acre.

Fairmont, Minn.—Harvesting is just about to begin and the outlook is excellent. Wheat acreage is largely increased.

Britton, S. D. — Heavy rains have fallen for two nights in succession. The ground is thoroughly saturated and crops will now mature without further moisture.

RAIN, HAIL AND LIGHTNING.

A Number of Farms Laid Waste in South Dakota.

Huron, S. D., July 25. — The hail storm in Clyde, Clifton, and Grant townships, in the south part of Beadle county was more disastrous than at first reported. Farmers in the city say that about 1,500 acres of wheat and small grain were destroyed and corn badly damaged. The path of the storm was a mile and a half wide by fifteen miles long. Among the heavier losers are Edward Murraine, George Witherall, Curt Vandergriff, Henry Grant, John Triplett, O. I. Gray, John Vandergriff, John Musser, Neil Harper, Chas. Smith, George Wallace, W. T. Bleroft, Charles Hotalling. Most of the wheat was ready for harvest. Very little rain fell with the hail, which was most destructive. Stock was killed by lightning.

WITH SIX SHOOTERS.

Is This Black Hills Man Searching for His Absent Wife.

Sturgis, S. D., July 25. — Peter Lebreque, a bachelor living near Galena, and a young married woman, eloped from this city, taking with them a team and wagon owned by a local business man. The sheriff was put on the trail and the pair were caught at Rapid City and brought here. The woman's husband has a star mail route, and when he reached this city and learned of the affair, he threw up his contract, quit a regular job in a local business house, bought six-shooters, took another team and started after his wife and her companion.

MINES CAVE IN.

Assay Office Is Wrecked and Three Men Are Killed.

Prescott, Ariz., July 25. — A cave-in occurred at the United Verde copper mine, causing the destruction of the assay office and part of the property of the surface. W. J. Grundy, a civil engineer, nephew of W. A. Clark, owner of the mine; C. A. Beveridge, the assayist, and a laborer named Leason, were killed. A mining expert from New York, whose name is not known, was seriously wounded. Supt. Giroux, whose office is in the assay building, had just left the building when it collapsed.

Stores and Residences Burned.

Red Wing, Minn., July 25. — Three stores and several residences at Bay City, Wis., were burned to the ground. The origin of the fire is not known.

Charged With Embezzlement.

St. Paul, July 25.—Andrew Harrison, agent for the White Sewing Machine company, has been arrested, charged with embezzlement. The firm alleges that he is short in his accounts to the extent of $90.

Col. Lamant There.

St. Paul, July 25.—Col. Dan Lamant, vice president of the Northern Pacific railroad, is here on business connected with the rate trouble with the Canadian Pacific, in which his road is interested.

PROSPECTS FOR PEACE

GREATLY IMPROVED DURING THE LAST FORTY-EIGHT HOURS.

Spanish Foreign Minister's Diplomatic Exploitation Has Been More Practical Than Supposed—Tolerably Certain That the Government's Efforts Are Entering a New Phase Which May Lead to Tangible Results—Nature of the Change Is a Secret—Possibly Direct Negotiations Between Spain and the United States — Hint to Spain to Hurry Up.

London, July 25.—The Madrid correspondent of the Times says:

Peace prospects have greatly improved during the last forty-eight hours. The diplomatic exploitation of Duke Almodovar de Reyo, the foreign minister, has been more practical than was supposed, and it is now tolerably certain that the government's efforts are entering a new phase, which may gradually lead to tangible results. The precise nature of the change is a secret, but there is little doubt that it tends to direct negotiations between Spain and the United States, there being no inclination to seek the mediation of any neutral power. The moment has arrived when America, having reached the parting of the ways, must choose between war with a specific object and an indefinite war of conquest. The present pause in hostilities is held to prove that the United States is reluctant to plunge into a wider sphere of action, and it may be confidently predicted that, if direct negotiations are opened without delay both countries will find their views on the main point—the future of Cuba—far from irreconcilable. The growing dissensions between the Cuban insurgents and the American authorities are noted here with great satisfaction, and on all sides I hear it said: "If we must lose Cuba it is better that the island should be annexed to America, because the traitors would thereby be punished and the enormous Spanish interests in the island would be protected."

The French embassy at Washington seems the most likely channel for opening negotiations and the semi-official statement that America intends to retain Puerto Rico is regarded here as a hint to Spain to hurry up.

CHEERED "OLD GLORY."

Unusual Spectacle of Prisoners of War Cheering the Flag of Their Captors.

New York, July 25. — Prisoners of war cheering the flag of their captor was the unusual sight witnessed at the Union dock in Brooklyn. The sight was all the more significant as the cheers came from Spanish throats. The 254 prisoners captured on the four prize steamers now in port were about to sail for home under the British flag. They were on board the Hesperia, of the Anchor line, and just as she backed out of the dock, one of the patrol gunboats came by. With one accord the prisoners raised three mighty cheers, which startled the people on the Brooklyn shore and could be heard on Governor's Island. It was the best they could do in thanking Uncle Sam for the kindness lavished on them while they were prisoners.

ON THE MEND.

Condition of Troops at Santiago Is Greatly Improved.

Washington, July 25.—Gen. Shafter reported by cable that the condition of the troops at Santiago was rapidly improving, and said he hoped in the course of a day or two to have them all located in comfortable camps where they may rest and recuperate and where the sick may recover. He is feeding 11,000 of the Spanish prisoners of war, and although he has not yet been able to furnish them tents, yet this deficiency is being made good, and meanwhile their present condition is no worse in this respect than was their condition before the surrender. The general makes no mention of the alleged letter from Garcia to himself, nor does he speak of any friction between them, whence the department has come to doubt the authenticity of published stories on these subjects.

Bryan Is Well Pleased.

Jacksonville, Fla., July 25. — Maj. Russell Harrison has just received information from the Rock Island arsenal that the Seventh army corps will receive precedent in equipment at once. Col. Bryan has just completed his regimental headquarters at Panama Park, two miles from Jacksonville, and he is well pleased with his location.

Postoffice Robbed.

La Crosse, Wis., July 25.—The postoffice at La Crescent, Minn., was entered by a burglar and $12 stolen, of which $6 was cash in a registered letter and the rest in stamps. Postmaster Webster thinks an effort was also made to break into the house. He has suspicions as to the thief.

Shortage Alleged.

La Crosse, Wis., July 25. — Peter Samby, agent for the Hyde Elevator company at Rushford, Minn., was arrested here charged with being short in his accounts. He thinks he can square the matter up and will be given a chance to do so.

The Amount Probably Stretched.

Victoria, B. C., July 25.—The steamer Garrone has arrived from St. Michaels. Her purser reports that her 166 passengers brought down close to $1,000,000, but a talk with the passengers leads to the belief that this amount is exaggerated.

Drowned in the Wabash.

Marshall, Ill., July 25.—John F. Taylor, George Wilson and Ed Stricker, all well known citizens of Wabash township, were drowned in the Wabash, eight miles from here, while seining.

WILD WITH DELIGHT.

Soldiers at Camp Thomas Who Receive Marching Orders.

Chickamauga, Ga., July 23.—It now looks as if two-thirds of the troops at Camp Thomas are to be ordered to the front as an expeditionary force to go to Puerto Rico under Gen. Brooke. The movement began this morning when the Second brigade of the First division, First corps, commanded by Brig. Gen. Haines, left for Newport News. Last night the brigade received marching orders a few minutes before 6 o'clock. The regiments of that brigade are the Fourth Ohio, Third Illinois and Fourth Pennsylvania. The order to move was greeted with intense enthusiasm. The regiments of the brigade joined in yells of frantic delight and the regimental bands discoursed national airs. This brigade is the only organization that left the Park to-day, but if there is not a sudden change in the plans as they are understood here, the entire First corps will follow, the different brigades going out as rapidly as transportation can be arranged.

MILITARY GOVERNOR.

Gen. Wood of the Rough Riders Gets the Job.

Santiago, July 23. — Gen. Leonard Wood, commander of the rough riders, has been designated as military governor of Santiago city, and has succeeded Gen. McKibbin, who has been filling that office temporarily since the Americans took formal possession of the city last Sunday. Gen. McKibbin has resumed command of his brigade. Gen. Wood's selection for this important position has given rise to considerable jealousy, although I am told on all sides that Gen. Wood is well qualified for his new duties, particularly so because of his medical knowledge. This jealousy seems to exist mainly among the regulars, who feel that the volunteers are receiving more than their just proportion of recognition. Gen. Wood's selection, it is understood, was requested from Washington.

SAMPSON'S REPORT

At Last Reported on Its Way to Washington.

Washington, July 23.—The anxiously awaited report of Admiral Sampson on the naval fight with Cervera's squadron is now on its way here on the cruiser St. Paul, under Capt. Sigsbee, which left Siboney day before yesterday. The trip to New York is three or four days, so the report is due to be in the hands of the government Saturday or Sunday. After going over it the authorities will make public liberal extracts on the details of the engagement. This, and the supplemental reports of the fleet officers are awaited with great interest, not only from the light they will throw on this memorable fight, but from the technical lesson they will give on explosives, projectiles, etc.

SPANIARDS IN A PANIC.

Owing to Fear of the Approaching American Squadron.

London, July 23.—A dispatch to the Standard from Corunna gives a lively account of the panic in the country owing to the fears of the approaching American squadron. The correspondent says there is a daily stream of bullock carts with furniture, and the town is nearly deserted by the better class of inhabitants. The local papers have frightened the people so much that the captain general summoned the editors and threatened them all with imprisonment if they printed another word about Commodore Watson's squadron. The exodus, however shows no sign of diminishing as yet.

CERVERA WILL STAY.

Take Up His Residence in Boston After the War.

Annapolis, Md., July 23.—A well defined rumor, which cannot, however, be traced to an authoritative source, was on everybody's lips here to-day to the effect that Admiral Cervera had expressed a determination not to return to his native country at the close of hostilities between the United States and Spain. It is said the admiral has decided to take up his residence in Boston, whither he will repair with his son, Lieut. Cervera, who is also a prisoner, as soon as peace is declared.

Spanish Prisoners Escape.

Atlanta, Ga., July 23. — It was reported at midnight that four of the Spanish prisoners confined at Fort McPherson since the beginning of hostilities with Spain had escaped. The officer in charge of the barracks refused to either deny or confirm the report, but seven enlisted men who came in from the post said that three of the Spaniards had gotten away yesterday and one last night.

Morocco's Neutrality.

Tangier, via Gibraltar, July 23.—The news of the neutrality of Morocco is confirmed. The announcement is published in Tangier to-day.

The Giralda has left. Two Italian warships are expected here. The exodus from Malilla and Ceuta has begun. The reports of supplies going from Gibraltar to the American consulate are absolutely false.

Destroyed in the Storm.

Floyd, Iowa, July 23.—During a severe thunder storm a large barn of Mrs. Duenhoslie was struck by lightning and burned to the ground, together with a large amount of hay.

Sergeant Commits Suicide.

New York, July 23.—Sergeant Neal Molloy, of Battery I, Seventh United States artillery, killed himself at Fort Slocum.

His Face in the Pillow.

Des Moines, Iowa, July 23.—Mearl J. Marsh, the five-year-old son of a man living at 419 Madison street, died by being smothered with a pillow, which he had in some manner pulled over his face while asleep.

Bombarded a Signal Tower.

Madrid, July 23. — A dispatch from Havana says the American warships near Manzanillo separated, five proceeding to a point off Cape Cruz, where they bombarded a signal tower, causing damage.

AND STILL THEY COME

SURRENDER OF SPANISH TROOPS STILL GOES ON.

Gen. Shafter Announces That Lieut. Miley Has Received the Surrender of 3,005 Spanish Troops at San Luis and Palma Sariano — Spaniards Tickled at the Prospects of Returning Home to Spain — They Were on the Verge of Starvation —3,000 Stands of Arms Turned In—Will Be 24,000 Spaniards to Ship Away.

Washington, July 25. — The war department at midnight posted the following:

Santiago, via Hayti, July 24. —Adjutant General of the Army, Washington: Lieut. Miley has returned from San Luis and Palma Sariano, where he went four days ago to receive surrender of Spanish troops. The number surrendered was larger than Gen. Toral reported, 3,005 Spanish troops and 250 volunteer guerrillas gave up their arms and gave parole and have gone to work; 3,000 stands of arms were turned in, loaded on ox carts and started to the railroad. Spanish troops accompanying to San Luis and apparently greatly delighted at the prospects of returning home. They were on the verge of starvation and I have to send them rations to-morrow. If the numbers keep up as they have there will be about 24,000 to ship away—nearly 12,000 here, 3,000 from San Luis, 6,000 from Guantanamo and over 2,000 at Sagua and Baracoa. —Shafter,

Major General, Commanding.

HOBSON'S PLANS.

Scheme for Raising the Sunken Spanish Vessels.

Washington, July 25.—Lieut. Hobson came over from New York and had a long conference with Assistant Secretary Allen, Capt. Bradford and several other officers of the navy department regarding the raising of the Spanish cruiser Cristobal Colon. The lieutenant succeeded while in New York in arranging with the Merritt & Chapman Wrecking company for the execution of the plans he had prepared for saving the vessels. The wreckers have promised to get together the pontoons, air bags and compressed air apparatus which will be required to lift and right the vessels, and expect to start this material for Santiago from New York on a fast vessel within three days. Lieut. Hobson is confident that if the work can be undertaken before a cyclone sets in it will result successfully. Secretary Long said that the lieutenant's plan for raising the Colon seemed entirely feasible. The proposed plan involves methods and appliances outside of those usually employed in wrecking. They necessitate the use of air apparatus of various kinds in righting and raising the ship that rarely, if ever before, have been used on vessels of the size and weight of the Colon, and, although there is some doubt of its success, the navy department officials think the prize well worth the experiment. Lieut. Hobson will go to Santiago to supervise the wrecking work.

GOOD FOR GOMEZ.

He Says Mr. McKinley Is Running This War.

Jacksonville, Fla., July 25. — Lieut. Charles Eritot, of the Cuban army, of this city, who was a member of the Cuban expedition on the steamer Florida, and who recently returned from Cuba, states that the Florida expedition was met by Gen. Gomez, and that he had a personal talk with the general in the course of which he said when asked what message he had for the American people: "I have only to say," said Gen. Gomez, "that the only man that has anything to say in the direction of matters is Mr. McKinley, and we shall do whatever he says. I have given instructions to all my forces to co-operate with the Americans, to whom they are much indebted."

VIA GIBRALTAR.

Vessel to Leave Cadiz to Bring Spanish Prisoners Home.

Gibraltar, July 25.—The Isla de Luzon will leave Cadiz for Santiago to bring home the Spanish troops. The British warship Illustrious will proceed to Tangier on Tuesday. Admiral Camara is going to Ceuta after repairing the Pelayo's engines. Ceuta will be the Spanish base of operations.

No Yellow Fever at Tampa.

Washington, July 25.—Owing to persistent reports that there was yellow fever at Tampa, notwithstanding denials by the Florida state officials, Dr. Brunner, the yellow fever specialist, was directed to make an investigation. He reports that after a close inspection of Tampa it can be stated that there is not a case of yellow fever there.

Seized the Mail Bags.

Santiago, July 25. — Twenty bags of mail were seized at the Santiago postoffice on the day of the American occupation. It consists of Spanish official and private correspondence. The Spanish customs authorities asked to have the mail bags turned over to them but the request was refused and the matter was sent to New York.

Light Plant Destroyed.

Livingston, Mont., July 25.—The electric light plant in this city was almost entirely destroyed by fire. Loss, $32,000; insurance, $21,600. The plant was the property of the Livingston Water Power company. It will be replaced at once. The fire started from an overheated box.

Drowned in the Mississippi.

Winona, Minn., July 25. — Hippolyte Couche, aged eighteen, was drowned. He got beyond his depth while wading in the Mississippi.

A DELIGHTFUL TIME.

Minnesota Editors Enjoyed The Excursion to The Coast.

By Invitation of The Dominion Government Over The Canadian and Soo Pacific Railways, July 7 to 18, 1898. Not a Moment's Dullness in the whole Ten Days—Hospitality of The Canadian People So Great as to Occasion Surprise. Splendid Domain Through Which The Canadian Pacific Runs—Some Features of The Country Outlined—Resolutions Passed—Roster.

[The Official Report.]

Anglo-Saxon alliance is the watchword of Canada. Friendliness to everything American, cordiality to their American cousins and a kindly feeling almost beyond belief, is found all through the dominion, or at least all through Western Canada. This was the political lesson learned by the Minnesota editors who took the recent trip half way across the continent from Winnipeg to Victoria. It was a magnificent trip and full of surprises, but this was the most significant fact of the journey and the most unexpected.

A Most Cordial Reception.

The journey of nearly 2,000 miles was tendered the editors of Minnesota by the Canadian Pacific Railroad company, at the suggestion and through the request of the Hon. Clifford Sifton, minister of the interior, who, since he has taken control of that department, has enthused great spirit into the development of Western Canada. He is a man of great resourcefulness and has adopted new methods and progressive ideas for the conduct of the department.

The excursionists numbered 185—the largest in the history of the Editorial association. They were personally cared for by Mr. Will J. White, press representative of the land department of the Canadian government. We were taken to Winnipeg by the Northern Pacific road and there our long journey practically began with a most cordial reception by the officials and board of trade of that city. For the first time in our lives we were "foreigners," but it was impossible to realize it. Our Canadian cousins use our language, look like us, dress like us, and though they speak English with a slight "brogue," are readily forgiven that by Uncle Sam's boys and girls. Indeed, there was absolutely nothing to show that we were not at home except that nowhere in our own country did we ever have quite so delightful and so cordial a reception as here, and that we were under the English flag which, however, was everywhere joined with "Old Glory," just as everywhere were played by the bands or sung, our national airs with "God Save the Queen," while cheers for the president of the United States mingled with cheers for Her Majesty.

Extent of Western Canada.

Starting from Winnipeg we traveled to the Rocky mountains over a magnificent prairie country, through the southern part of the provinces of Manitoba, Assiniboia and Alberta. North of the last two are the provinces of Saskatchewan, Athabasca and Yukon, which five form the Northwest Territory. This section, which is as large as the Northwestern states, includes a vast amount of desirable land for ranching and general farming. For 900 miles west from Winnipeg and 500 miles north from the American line is arable soil. It is a great territory, capable of sustaining tens of millions of population, while the total population today is but about 500,000. It is not all a vast prairie, as so many think, though much of Manitoba and of the southern stretch of boundary land is treeless like the Red river valley and includes some of the richest and most fertile lands to be found on this continent. North of the Canadian Pacific it is more varied and a splendid country is just being opened to settlement and railroads are being pushed through to give the new settlers a market. In all these provinces named, a homestead law is in operation which is similar to that of the United States; it is, in fact, modeled after it. At the end of only three years, however, he can prove up, the expense being but $16. Vast amounts of this best land is thus subject to the homestead law, even in Manitoba and in the southern counties of the Northwest Territory where substantial towns afford a near and reliable market.

The Question of Market.

This question of market is an important one, but when the traveler sees from two to twelve elevators at such towns as Portage la Prairie, Carberry, Brandon, Virden, Griswold, Moose Jaw and at dozens of other stations, they are the certain evidence of strong local markets. An examination of them develops resources, also shows where much of the wheat and of the immense shipments of cattle go, while the surplus goes to England, which naturally prefers the products of its own colony. In this regard, moreover, the source of the early settlement of the country is important. As is well known England is the richest country in the world. It has practically endless capital for investment, and from the days of the Hudson Bay company, which earned large dividends for its stockholders, Canada has been a favorite dumping ground for English money. Hundreds, indeed thousands, of young Englishmen have come here with money, for it must be remembered that while trade is not considered just the thing for younger members of the British nobility, agriculture, mining and ranching are highly regarded, and the freedom of the Western life also had great attractions for many of the more restless spirits. So it has been that so much money has come here almost in advance of the real settlement of the country to begin large operations, to open and develop mines, build cities and make markets before the smaller settler arrived. These men, too have prospered, and they spend their money freely. Money appears plenty and everything is prepared in advance for the well being of the poorer settler. In short it is just the reverse of the settlement methods in our country. With us poverty was the pioneer and frugality went in advance of development. Our early settlers lived for years waiting for railroads and markets, and towns only came after the homesteaders by their little accumulations had increased the mercantile demand. For this reason Canada today presents the new phase of "pioneering made easy."

A Home For Small Farmers.

To the small farmer who is seeking a new home, we believe Western Canada offers great inducements. While it seems a long way north the Canadian Pacific railway line is far south of Edinborough, the climate is about that of Northern Minnesota and the land raises splendid and sure crops. Of course any farmer who has a Minnesota farm and is fairly prosperous, would be foolish to exchange it for any other location. We saw nothing on our trip that we thought equalled our own state; but there are always men who will go somewhere, men who would not be satisfied after a residence in heaven; young men who have the pioneer spirit and men whom misfortune drives from their homes. To such we say if you must leave Minnesota, Western Canada will give you a warm welcome and great opportunities. You can reach there by way of Winnipeg and the Canadian Pacific will take you West from there, or you can go direct by the Soo line to Moose Jaw in the Assiniboia district. If you will write to Mr. Will J. White at Ottawa, Ont., or to any Canadian government agent in the United States, you will be sent all needed information and told how to get cheap railroad rates.

The Country More in Detail.

To call more particular attention in certain districts outside of Manitoba, the land seeker should not forget the northern part of Assiniboia and Saskatchewan which gave its name to the finest hard wheat the world has known. Taking the Manitoba and Northwestern road from Portage la Prairie or the Canadian Pacific branch from Regina, you reach the Saskatchewan river country and the newly opened Swan river district, two of the choicest districts in all Western Canada for small farmers, and practically all homestead and railroad lands. The present railroads are being extended that way and now once built, so that by fall a nearby market will be ready for those who are now pushing that way. These regions are well watered with large rivers and lakes, and have a varied landscape with plenty of timber land along the waterways. Another fine timber district is north from Calgary in Alberta, the Edmonton district, the present terminus of that branch of the Canadian Pacific railroad. South around Calgary is the great cattle country, and this town itself is remarkable. Built almost entirely of white sandstone, the business buildings and residences would be a credit to a large city, yet in Calgary are only 4,000 people. But it has much wealth. It is the commercial center for the vast cattle region and the extensive mining district northwest. Here also and at Edmonton are outfitted those who take the overland route to the Yukon, and the railroad is soon to be extended to those famous gold fields. When this is done, Calgary will be a city in size as well as in appearance. A noticeable feature of all Canadian cities is their observance of the Sabbath. There is an unexpected quiet; all business absolutely ceases; the saloons are closed tight from 7 o'clock Saturday evening to Monday morning; the churches are well attended and the day is one of perfect order and quietness. The school facilities are good and the school land provision is about the same as our own.

This agricultural region was the most interesting part of the trip. The substantial character of the towns, the present development of the country along the railroad, the continuous line of elevators showing the extent of the annual crop, the great herds of cattle, and other evidences of present prosperity, with the limitless resources and possibilities, were the most significant facts we met.

The Fuel Problem.

The only puzzle to us was the fuel problem for the prairie country, but it is considered as practically solved by the cheap coal product, for it must be known that between the Red river and the Rockies is some 65,000 square miles of coal bearing strata and coal is supplied at a cost of from $2.50 to $5 a ton, while the northern timber is supplied at $3 a cord.

Diversified Farming Practiced.

It must not be thought that grain and cattle are the only products of that vast country. Mining ranks as their equal, and sheep, hogs and dairying are important sources of revenue. For example, in Manitoba the butter and cheese output, both of factories and farms, in 1894 was but $34,000, while only three years later in 1897 the creamery butter sold for $366,317, and the cheese product for $83,895. And the provinces are moving similarly along the same line and Canada will soon be a great dairying country.

Points of Special Interest.

The points of especial interest in the agricultural division are too numerous even for mention. Portage la Prairie, with 4,500 population, is the first large town west of Winnipeg on the direct line of the Canadian Pacific railroad. Here the Manitoba and Northwestern road runs 223 miles north and a branch runs from Gladstone through the Lake Dauphin district and will extend to the Swan River country. Stations from here are but five to six miles apart, varying in population to towns of 1,500 people. Brandon, the next large town, 5,800, is the headquarters of the Dominion land department. It has a provincial asylum and an experimental farm, one of the five supported by the general government, and attesting the great interest in agricultural problems. Another branch railroad here extends south and connects with the Soo. Smaller towns succeed each other to Virden, the market town of Dennis county, a very attractive section, from which 227 cars of cattle, hogs and sheep were shipped in 1897. Near here is Griswold, another progressive village, but smaller. At Indian Head is another government farm. The most important town next reached is Regina, the capital of the Northwest Territory, where the lieutenant governor lives, and the legislature meets. This is the political and social headquarters of all these five provinces. There is much of interest here, one thing being the mounted police, a splendid body of men organized under strict military discipline, but with the powers of civil officers of the law. At Moose Jaw the Soo line connects with the Canadian Pacific railroad, and from here for many miles are the alkali prairies, fit only for grazing until irrigation can bring to them the fruitfulness denied by the lack of rainfall. Here are some large sheep ranches, the annual round up at Swift Current being 16,000 sheep for one company. At Calgary we reached an altitude of 3,388, a gradual rise of 2,700 feet from Winnipeg, and soon the foothills of the Rockies are seen like clouds in the horizon. This is a beautiful country and has a fine climate, the cattle feeding themselves in the fields all winter long.

British Columbia.

The extreme western province, British Columbia, is a succession of mountain ranges and fertile valleys. As the lands belong to the province and not in the dominion government, they are not open to homestead and are more expensive. Mining, lumbering, salmon fishing and fruit raising are the chief industries, while the grandeur of the landscape brings thousands of sight seers. We met men who had traveled the world over, and all said with the greatest of enthusiasm that no where else on earth could be found the equal of the magnificent scenery to be seen between Banff and Vancouver. The Rockies, the Selkirks and the Cascades are grand beyond description, with their charming valleys, mountain gorges, plunging cascades, snow capped peaks and awful heights, yet grandest of all and most beautiful is the great Fraser river.

The Canadian Pacific Railroad.

It will be long before the people of Canada realize all they owe to the Canadian Pacific Railroad company. It has had great land grants and immense subsidies, but it has builded well and spent well for the whole country. Its roadbed is the equal of that of any road in the east and surpasses any other western road; its trains are palacial, and every known safeguard is provided. At each important town and at many minor stations it has first class hotels, run in the best style, while in the mountains it has many resorts, always attractively designed to win and hold the sightseer and invalid. The finest of these, of course, is the matchless Banff, with its huge buildings planted high on the mountain side and overlooking the valley of the majestic Bow, while nearby are endless attractions: The Cascade and Spray rivers, falls, caves, lakes, hot sulphur springs and baths and mountain drives and climbs. Here, too is a sanitarium and the National park. Wherever nature has shown possibilities the Canadian Pacific has developed them or helped others to do so. Its employes are especially courteous and gentlemanly and it is said that in no other way can one so surely get his discharge as by discourtesy to its guests, the traveling public. The company here has vast tracts of lands and it sells them at $3 an acre and less, its one desire being to have them occupied by industrious, progressive settlers. The road issues a guide book, the best thing of the kind we have ever seen, and anyone interested in this country should write for a copy.

Seattle, the Queen City.

The only American city visited was Seattle, which is certainly the Queen City of the Northern Pacific coast. All were amazed at the splendid buildings and public improvements, and the enormous business done at the wharves and in the business districts. The excursionists are especially indebted to Mr. Alden J. Blethen, formerly of Minneapolis, who arranged for their comfort and entertainment. We stopped at the Butler, the finest hotel in the city where prices were found moderate and the accommodations par excellence. It is a magnificent hotel and its gentlemanly proprietors certainly stop at nothing to satisfy the wants of their guests.

The trip from the first day in the last was a delight to every member of the party and none will ever cease being thankful it was his good fortune in take it.

THE EXECUTIVE COMMITTEE.

(To be Continued Next Week.)

Now is the time to get the SPECTATOR.

SEVERE WIND AT MINOT.

North Dakota Town Visited by a Twister. Many Houses Demolished.

MINOT, N. D., July 25.—A furious cyclone struck Minot at 7 p. m., totally demolishing 16 dwelling houses, but fortunately very few people were injured as the storm was seen coming, and most of the families took refuge in their cellars.

The county hospital, a 2-story brick, was totally demolished. There were a good many inmates who escaped with only slight injuries.

About 15 barns and outhouses were totally destroyed. Six loaded box cars on the Soo track were blown 115 feet from the track and totally demolished with their contents. Chickens were stripped of feathers and a good deal of live stock killed.

It was followed by a terrific hail storm, which did immense damage to windows and growing crops.

NO DEATHS FOR THE DAY.

Cheering News From Shafter to the War Department.

WASHINGTON, July 25.—Adjutant General Corbin has received a dispatch from General Shafter announcing that there had been "no deaths today." The dispatch contained only the three words quoted, but it was freighted with cheering intelligence to the war officials. The outbreak of yellow fever among the troops at Santiago has given the administration much concern, but the reports of the medical officers agree in the statement that the disease is of a comparatively mild type.

The length of the rifle of a big gun—according to the American ratio—is thirty times the diameter of the bore—that is to say, the caliber. Thus a 13-inch gun is 390 inches or about 33 feet long, including the breech chambers, about 36 feet. The projectile is three times as long as its diameter. The charge of powder weighs about half as much as the projectile. The weight of the projectile may be determined by dividing the cube of its diameter in inches by two.

Big projectiles cost something. The 1,100 pounders for the 13-inch guns cost $350 apiece. The 500 pounds of powder (approximately) that starts the projectile on its errand of destruction, cost $175. That makes a total of $525. But that is not all. Since a hundred shots use up a gun, each shot destroys a hundredth part of its money value, which is $60,000. That adds $600 to the cost of each discharge of a 13-inch gun, making its total cost $1,125.

The weight of the projectile varies somewhat according to its nature, but as a general rule the caliber of the guns and the weight of the projectiles are as follows:

	Pounds.
13-inch rifle	1,100
12-inch rifle	800
10-inch rifle	500
8-inch rifle	250
6-inch rifle	100
5-inch rifle	50
4-inch rifle	33

—The SPECTATOR is the official paper of the village and county. Now is the time to subscribe. $1.00 per year if paid in advance—otherwise $1.50.

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD.

The success of THE RECORD rests upon its reliability.

It prints the news—all the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world.

Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

Sold by newsdealers everywhere and subscriptions received by all postmasters. Address THE CHICAGO RECORD, 181 Madison street, Chicago.

Depart for Red Lake Falls at	1:20 p. m
Depart for Crookston at	4:00 p. m

LOCAL NEWS.

Wheat 70 cents to day.

Farmers are busy putting up hay.

Dance at Valhall Saturday evening.

Cut the weeds around your premises.

—Get your dresses made at Mrs. Fred Case.

Good thing to stay away from—hall game.

Look over the Five cent counter at Hall's.

Farmers are getting along nicely with haying.

Register of Deeds Swanson is in the village to-day.

—Dr. Thomas, the Crookston dentist will be here August 22nd.

Try a lunch, a meal or a weeks board at the Ideal Lunch Room.

County Supt. of Schools Jeffers was here a short time yesterday.

O. W. Brink received a car load of McCormick machinery yesterday.

Gus. Sandberg and sisters were visiting friends in St. Hilaire Sunday.

For harvester whips, call on C. A. Skeie, the St. Hilaire harness maker.

Dr. Francis was called to Thief River Falls Friday night to attend a patient.

The Great Northern train men get an increase in salary all along the line.

Describing the Editorial trip to the coast will be given in two installments.

The flowing well has been cleaned once more by pumping the quick-sand out.

—Dr. W. A. Moore, dentist of St. Paul has permanently located in Red Lake Falls.

There will be a dance at Valhall next Saturday evening. Every body invited to attend.

Mrs. A. F. Bell, of Thompson N. D., arrived here last Thursday on a visit to her husband.

Otto Olson is the artist who done the graining and painting in the St. Hilaire Sample Room.

Emil Zeh and W. J. Kelley of the upper Falls spent Sunday in the village greeting friends.

A Piche, the butcher has rented his building here and moved back to Thief River Falls yesterday.

Ole Brooten, a farmer who resides in the town of Wyandotte died Saturday. An eating cancer was the cause.

Cashier Mattes of the St. Hilaire Lumber Company returned Monday from a business trip to Crookston.

Mr. Fred Carlstrom, after spending a week visiting old time friends here left Monday for his home at Cannon Falls.

Some machinery in the Crookston saw mill broke down yesterday which will compel them to shut down all week.

Dr. Thomas, the dentist was here Monday and Tuesday and relieved a number who had tooth-ache and bad teeth.

Thirty-four citizens were turned out here last Monday by Judge Ives' yankee mill, assisted by Clerk of Court Perrault.

The 8th day of August is the very latest that you can get out your final citizenship papers and vote at the fall election.

Geo. Afterett lately salesman for the St. Hilaire Lumber Co., came up from Crookston Monday and remained between trains.

Mr. and Mrs. Ed. Glette terminated a two week visit here visiting relatives and friends and left for their home at Elmore, Monday.

A smooth spoon peddler worked Crookston to the amount of over $200 and then drove off saying "Just tell them that you saw me."

D. Collins has improved the looks of his photograph gallery by giving it a coat of paint and says he can turn out photos cheaper than anybody.

We acknowledge the receipt of an invitation to attend the ceremonies of laying the corner stone of the new state capitol building at St Paul on July 27th.

A colonel in the army draws $9.00 a day while a private who does most of the fighting gets 52 cents a day. One should be raised and the other cut down.

The lightening got in its work on the city ball flag staff at Thief River Falls last Thursday and slivered it into kindling wood. No other damage was done however.

H. E. Mussy editor of the Thief River Falls Press passed through here yesterday enroute to St. Paul where he goes to witness laying the corner stone of the capitol building.

A hail storm passed through Cass county, N. Dak., last week destroying 26,130 acres of grain. The territory the storm passed through is three and a half miles wide by about eighteen miles long.

Judge Ives was up from Crookston Monday accompanied by his estimable wife. The former to hold a special term of court while the latter came up as a visitor and note the growth of the town.

The Junior League will give an "Apron Sociable" Wednesday evening, July 27th at the M. E. church. Also ice cream and cake and lemonade will be served. Every body cordially invited to attend.

—Dr. Thomas, the Crookston dentist will be at Hotel Markham (Monday) and Tuesday Aug. 22 and 23 well prepared to do anything in the dental line. Remember this and govern yourselves accordingly.

A party came down from the reservation last week and stopped long enough to say that he was a life long republican and was going to vote for Ames for governor. He appeared to be sober too.

Nels Lundstrom a young man living east of here in the town of Wyandotte left Saturday for an extended trip to Sweden. He has recently received a large sum of money left him by his fathers death.

Day F. Stacy, deputy county surveyor moved his household effects from Thief River Falls to Red Lake Falls last week. This was found necessary on account of the most work being done in that part of the county.

At the head of the local column we publish the departing time of trains out of St. Hilaire. We publish this to accommodate the many readers of the SPECTATOR as it will in a measure save asking great many questions.

The county commissioners in Norman county have taken steps and will rid the county of "Russian Thistle" according to the state law. Something should be done in this county in regard to wild mustard, in fact to all noxious weeds.

A surprise party was given to Misses Holmes and Danielson at the residence of Mr. and Mrs. E. J. Holmes last Saturday evening and it proved to be a very enjoyable time to all present. Dancing singing and all kinds of games was on the program.

A. G. Schmidt the Crookston painter was here the first of the week and went to Thief River Falls to charter the excursion steamer for a week. A select party has been made up and everything will come off according to the program laid out.

Now that Congress has adjourned, attention will be drawn to the state campaigns. Many Senators and Representatives must explain why they voted for interest-bearing bonds instead of Treasury notes.—Silver Knight Watchman.

Misses Holmes and Danielson of Cannon Falls, who have been visiting with Mr. and Mrs. E. J. Holmes for the past two months left Monday for home. While here the ladies made many acquaintances who regretted they could not stay permanently among us.

—If you are in need of a pair of glasses J. Q. Adams will fix you out on his next trip to St. Hilaire which will be August 11th 12th and 13th. If you have a watch or clock that needs repairing or cleaning leave it at Johnson's drug store and that will be attendedto.

Montgomery, Ward & Co., of Chicago sends us a ten dollar proposition and if we will accept it they will give us two dollars. We don't do business that way. No foreign advertiser can do business with us on the Cheap John scale. Our motto is: "Treat all alike."

The many friends of Mrs. A. L. Arpin formerly a resident of St. Hilaire will be pained to learn that she is no more. A short letter from Mr. A. L. Arpin stated that she passed away at Denver, Colorado July 17th and the remains were shipped to Grand Rapids, Wis., where the funeral took place on the 22nd.

The Thief River Falls Press, a republican paper, jacks up the republican county committe in a becoming manner. Right you are Brother Mussey. When the campaign gets fairly started the republican candidates may have an opportunity to blow their own horn at so much cash per line, telling about their good qualities as county officials, and at that, you will be giving them a dose of their own medicine.

The St. Hilaire base ball team went to Thief River Falls last Sunday for the purpose of playing a return game. Everything went along smoothly up to the fourth inning and then the game broke up in a jangling match with a score of 7 and 8 in favor of St. Hilaire. It seems as though the time has come when it is necessary to throw up entrenchments and place heavy artillery on each side in order to carry on a ball game in Red Lake county. About two dozen base ball enthusiasts from here went up to see the game.

—The SPECTATOR is for sale—at one dollar a year—strictly in advance.

They Don't Like it.

The Republican county convention, for the purpose of nominating a full county ticket and electing delegates to the legislative and judicial convention, has been called. It will meet at Red Lake Falls on August 5th.

We believe a serious mistake was made in not having the convention held at St. Hilaire, by far the most convenient place in the county. The idea of having all conventions held at the county seat may result in the moving of the court house to a more central portion of the county. It makes it very inconvenient for the farmers living in the townships west and north of here to attend.—T. R. F. News.

If the Thief River Fall and Red Lake Falls base ball nines can be brought together a championship game will be played on the St. Hilaire diamond Sunday. A special train will be run up from Crookston and both upper and lower Falls towns.

E. J. Kellogg, a former station agent here and son-in-law of Col. Stranahan, but now of Walhalla, N. Dak., has just completed a fine residence judging from the following clipping from the Mountaineer, a paper published at the place. "E. J. Kellogg has just had completed one of the neatest frame residences in the county. It is an architectural beauty and the rooms large are well laid out. The location is one of the finest in the city and will in time be more valuable as a residence site than it is at present, even."

The Army and Navy.

Have covered themselves with glory during the war. The Army and Navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of navy and army terms, translation of Spanish words, etc. Send ten cents to Chas. S. Fee, general passenger agent, N. P. R., St. Paul, Minn., for a copy.

State Binding Twine.

A large number of inquires and complaints are comming to hand from Minnesota farmers regarding prison binding twine. It is asked why it is impossible for farmers to get prison twine, why it was impossible very early in the season, and it is complained that the twine had been sold to dealers, who are making a big profit on it, and that thus the object in establishing the twine plant at the prison is defeated and Farm, Stock and Home is asked to reply to queries and complaints.

An investigation reveals facts that indicate that the prison twine plant needs shaking up and reorganizing. It is a fact that the twine has been so largely sold to dealers that there is not enough to anyway near supply the demand of farmers; and not only that but the price obtained from dealers was much below the market price at the time sales were made. One large wholesale implement house in Minneapolis reports that it bought a large quantity of prison twine at 6½ cents a pound, when at the same time the market price in New York was 8 cents for the same quality. Proofs of several large sales are at hand, but it is unnecessary to detail more than to show the methods employed, and the manner in which the farmers' interests are not looked after. Mr. W. N. King, of Waverly, Minn., bought two carloads, for which he paid 6½ cents a pound. It was delivered after June 15th, and bought after it was known that the price was not only much higher than the one named, but must inevitably be still higher. One large dealer estimates that the difference between what the prison twine sold for and the market price will aggregate fully $75,000 on the amount manufactured. Of, course, the theory is that the prison was to sell at cost, but the sales were to be made to consumers. It was upon this theory that the twine plant was established, the object being to prevent a twine corner, or to defeat a twine trust that existed at the time under the title of the National Cordage Co. This year there was an opportunity to do the farmers almost an incalculable amount of good; the state could afford to sell twine at 6½ cents, probably a little more for small lots, and it should have been so turned over to them, but instead of that it was sold to dealers who are now getting or will get probably a clean hundred per cent profit on it.

There is an attempt made to deny that sales have been made to dealers, "for in only a very few instances," it is said, "has the twine been sold in more than single car lots. Well farmers do not buy in car lots: and besides, it is not denied that one dealer may have got several, "single car lots."

Another charge is made, and no reason is found for believing it false, that Wisconsin farmers are driving to Stillwater and buying twine, the only condition being that they claim to be from Minnesota, and no effort is made to learn if the claim is a valid one. The farmers of Minnesota are very indigant about this matter, and on the face of the returns they have abundant reason to be. An institution that they demanded, that they insisted upon with such emphasis that the lawmakers thought it unsafe to ignore it, and that would be of great advantage to them if faithfully administered, have been prevented from its original and true purpose, and is made to harm farmers at the very moment when it could do them the most good.—Farm, Stock and Home.

This Would Build a Court House.

"In Hennepin county the county auditor is taxing up all mortgages to parties who own them regardless of whether the owners live in the state or not. This is in accordance with a decision of the supreme court. Norman county should do likewise, as it will add probably a million dollars to the taxable property of the county, and would fairly load down the county treasury with cash. At present outside mortgages are taxed where owned, but they should be assessed here. By going over the county records the ownership of every mortgage could be traced.

The above was clipped from the Ada Index. Perhaps another court house could be built in Red Lake county if the above was lived up to.

Where We Are At.

Day F. Stacy has worked out the latitude and longitude of Thief River Falls. He says the latitude 48 degrees, 7 minutes, 2 seconds, and the longitude 96 degrees, 12 minutes, 35 seconds. The latter is west from Greenwich.—Thief River Falls News.

Methodist Episcopal Church.

Services next Sunday at 10 o'clock a. m. and 8 o'clock p. m. Sabbath School at 2 p. m. Junior League at 3 p. m.

REV. U. M. CREATH, Pastor.

LIND IN THE RACE.

The committee appointed by the late democratic and populist conventions to notify John Lind of his nomination for governor has received his official letter of acceptance. Mr. Lind apologizes to the committee for the delay in sending in the reply, and excuses himself with the statement that he has not had time to attend to the matter earlier. The committee to which the letter is addressed is composed of A. T. Ankeny, of Minneapolis, chairman: C.D. O'Brien J. H. Johnson, E. M. Pope, Albert Schaller, Frank Zins and Martin Shea.

In his letter, written from Camp Thomas, Mr. Lind says:

Having been formally advised by the several committees of my nomination for the high office of governor of our state by the same forces who co-operated so harmoniously in the reforms set forth, and for the correction of the abuses so forcibly arraigned in the platforms adopted, I have the honor to say to your committee (as I have this day advised the others), that while I did not desire the nomination which you have given me, this feeling was not prompted by indifference to the cause which you and your action represent, but solely by a desire that my present separation from my family should end my connection with public affairs in any other capacity than as a private citizen. But with the renewed evidence of your confidence so unanimously expressed, I feel that I owe it to you and to the people to co-operate with you, in the capacity which you have assigned me, to wrest our state from the dominion of personal greed and ambition to which it has so long been subjected and to restore in its place the rule of law—equally administered—with justice to all interests and to all of our citizens.

Neither my situation nor my time permit a discussion of the question involved in the coming campaign at this time. I regret this the less, as my views and attitude on public questions have been fully expressed by my acts and in my utterances in public life, as well as in the last campaign.

Referring to the names on your ticket, other than my own, I congratulate you on the selection of candidates. The patriotism of the convention is demonstrated by the choice of men for our supreme court, whose ability is an honor, and whose probity and courage have proven a protection to the people of our state.

Neither can I forbear to express my appreciation of the wisdom of the convention, as shown by its determination not to permit the shimmer of a proposed imperial policy in distant lands to blind the eyes of the people to existing abuses at home. This war was undertaken to drive oppression and the last vestige of imperialism from the American continent. You propose the same for our state. I pledge you and the people of the state of Minnesota my best efforts in behalf of both undertakings.

Thanking you and through you the convention for the honor conferred, I am

Very respectfully,
Your obedient servant,
JOHN LIND.

Mr. Lind adds that he has just completed the equipment of the Twelfth regiment and that immediate orders to sail for Porto Rico are expected.

Teacher's Examinations.

Fall examinations for teachers will be held as follows, St. Hilaire, Friday and Saturday, August 5th and 6th. Thief River Falls, Friday and Saturday August 19th and 20th. Red Lake Falls Friday Saturday September 23rd and 24th.

FRANK JEFFERS,
County Supt.

Washington Letter.

From our Regular Correspondent.

The clashing between Gen. Shafter and Admiral Sampson, which formed such a disagreeable feature of the compaign against Santiago, broke out in the Cabinet last week, Secretaries Long and Alger respectively taking the sides of their subordinates as to whether the valuable Spanish merchant ships that were in the harbor at Santiago when the place was surrendered to Shafter should be held by the army and thus become the property of the government without the payment of prize-money or should, in accordance with Sampson's demand, be turned over to the navy. Just as the two Secretaries were getting warmed up in their dispute Attorney General Griggs settled the whole business by saying: "Neither of you may have the ships. The Supreme Court has rendered a decision on that very point. When there is a joint capture of ships by army and navy, or when the army alone captures them they are not to be considered prizes. Nobody gets any prize money." Official orders have been issued in accordance with what Griggs said.

The Porto Rico expedition, now under way, under command of Gen. Miles and Admiral Sampson, is no bluff, for one of the certainties of the war is that we are to get and keep Porto Rico for our very own. The landing of the advance guard of the troops is expected to be accomplished by the first of next week, and then the combined land and water movement against San Juan will begin. How soon the town will be captured will, of course, depend upon how vigorously the campaign is conducted.

Whether the administration is making a gigantic bluff for the purpose of frightening Spain into begging for peace upon any terms that we may choose to offer, or has actually determined to utilize the enormous resources at its command to force the fighting in every direction until Spain is whipped to her knees, is not clearly apparent at this writing. But everything points to one or the other. Members of the administration say it is the latter. Every good American ought to hope it is.

There is much criticism in Washington of the hobnobbing of American officers with Spanish officers of the surrendered army at Santiago. The general opinion is that if our officers properly remembered the Maine they would confine their associations with Spaniards to military courtesy.

Council Proceedings.

Special meeting of the Village council Friday evening July, 22nd 1898 pursuant to call.

All members present except Pres. Ives.

Meeting called to order by the recorder.

On motion J. C. Dahl was appointed President Pro-tem.

On motion Chas Tedford was granted a license to sell intoxicating liquors for one year commencing on July 1st 1898.

On motion meeting adjourned.

Attest:— J. C. DAHL,
Pres. Pro-tem.
J. L. JOHNSON,
Recorder.

Two from J. Adam Bede's Budget:—"A Scandinavian remarked that the head of the ticket was Eustis as good as any other." "Every speech made against John Lind while he is in the army will make votes for Lind."

Weak Stomach

Sensitive to every little indiscretion in eating, even to exposure to draughts and to over-perspiration—this condition is pleasantly, positively and permanently overcome by the magic tonic touch of Hood's Sarsaparilla, which literally "makes weak stomachs strong." It also creates an appetite—makes you feel real hungry, and drives away all symptoms of dyspepsia. Be sure to get

Hood's Sarsaparilla

America's Greatest Medicine. All druggists.

Hood's Pills cure all Liver Ills. 25 cents.

The Boy's View.

"Mother," said the boy king, "I hope you will not consider your teachings in vain through what I am about to say."

"What is it, my son?" asked the "I can't help thinking that a little queen regent. less sacred honor and a few more victories would be a crack-a-jack thing for my kingdom."—Philadelphia North American.

In Great Luck.

"Bill's got back from the Klondike."

"Any luck?"

"You bet. Ten thousand dollars in dust and two fingers froze off, so's he can't be made to go to war."—Indianapolis Journal.

Life and the Liver.

"Success in life depends upon the liver" is the way Chas. Lamb, the poet and punster put it. Medical science has proven, that nine-tenths of the ailments of living have their origin in the liver, and in constipation caused by its derangements. Keep the liver lively and it will be well. Modern science points out Cascarets as the only perfect, gentle, positive liver regulator fit to be used in the delicate human organism. All druggists sell Cascarets 10c, 25c, 50c, and we recommend them most heartily.

Speed of Electricity.

The speed of electricity is so great that its passage from point to point along a conducting wire may be regarded as practically instantaneous. Various attempts have been made to measure the rate at which it travels, and observers with delicate instruments have affirmed that it was not less than 114,000 miles per second, and in one or two places its speed was as high as 240,000 miles.

Have You a Son, Brother,

Husband or Lover in the Army or Navy? Mail him to-day a 25c package of Allen's Foot-Ease, a powder for the feet. All who march, walk or stand need it. It cures aching, tired, sore, swollen, sweating feet, and makes hot, tight or new shoes easy. Feet can't Blister, get Sore or Callous where Allen's Foot-Ease is used. 10,000 testimonials. All druggists and shoe stores sell it, 25c. Sample sent FREE. Address Allen S. Olmsted, Le Roy, N. Y.

He Walked.

Fat Citizen—You're a pretty small chap to be runnin' an elevator, ain't you?

Small Chap—Yes, I guess I be. They hired me 'cause the darned rope broke so many times with the heavier elevator boys.

And the fat man walked.—Cleveland Plain Dealer.

Read the Advertisements.

You will enjoy this publication much better if you will get into the habit of reading the advertisements: they will afford a most interesting study, and will put you in the way of getting some excellent bargains. Our advertisers are reliable; they send what they advertise.

Reed—Well, this war has made a boom in prices, anyhow.

Wright—Not in everything. I had a lot of Klondike jokes that went down to nothing.—Cincinnati Enquirer.

Piso's Cure for Consumption is the best of all cough cures.—George W. Lotz, Fabucher, La., Aug. 26, 1895.

Looking the Matter Over.

"Have you considered the trouble we may have with people abroad if we annex these outlying islands?"

"Not much," replied the matter-of-fact congressman. "But I have given some thought to the trouble we're likely to have with constituents at home if we don't."—Washington Star.

Hens and flies are really what you might call "Shoo" makers.

Action may not always bring happiness; but there is no happiness without action.—Disraeli.

COSMO BUTTERMILK TOILET SOAP makes the skin soft, white and healthy. Sold everywhere.

The rapture of pursuing is the prize the vanquished gain.—Longfellow.

The obstinate man is usually too weakminded to give up.

No-To-Bac for Fifty Cents.

Guaranteed tobacco habit cure, makes weak men strong, blood pure. 50c, $1. All druggists.

After a long experience in the world, I never knew a rogue who was not unhappy.—Junius.

SYRUP OF FIGS
NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the California Fig Syrup Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the California Fig Syrup Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the California Fig Syrup Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.

SAN FRANCISCO, Cal.

LOUISVILLE, Ky. NEW YORK, N. Y.

MAKING PAPER MONEY.

HOW NOTES ARE TURNED OUT FOR UNCLE SAM.

The Bonds and Stamps—Paper Used in the Issue Is Manufactured Under Government Supervision and Carefully Watched—The Process.

The making of the artistic green and black notes, so much more common in the northern than in the southern part of our country, is more complicated than might be imagined from a casual glance at their gracefully lined surface. The lengthy process is most unique and interesting, and a visit to the bureau of engraving and printing in Washington, where it may be seen, is a very entertaining one. The large red brick building is situated on an eminence between the green lawns at the base of the tall, chaste shaft of the Washington monument and the fragrant gardens that surround the agricultural department. The first floor, besides the offices of the superintendent, etc., is devoted to the department of engraving, the second to that of examining and the third to the preparing and printing. There is a great deal of work accomplished here, as this bureau issues the government bonds, legal tenders, silver certificates, bank notes, and internal revenues and postage stamps. All the work that can be accomplished so is done by manual labor, thus giving employment to several hundred people. The largest face value of any issue is a registered bond of $50,000, and the smallest a one-cent stamp. All of the engravers are specialists in their particular department, and the delicate figures and intricate designs of their work are often marvels of artistic skill. Portraits of living persons are never put on the notes, and all figures, vignettes, borders, etc., are engraved separately before they are put on the plates. The engravers sit, each one below a window, with a screen of ground glass around them, and another of white linen above their heads. Their work is so fine and delicate that the greatest precision and care is required, and the room in which they work is not open to visitors. First the engraver works out his design of face, or figure, and after transferring it by hand to a plate of soft steel the plate is hardened and a soft steel roller takes the impression from it. After this roll is chilled another impression is taken upon another steel plate, and after this latter has been hardened it is ready for use. The geometric lathe which makes the border is so complete and wonderful a piece of mechanism as to seem almost alive. The graceful lines for the borders, backs and other conventional designs seen on the notes are made by this machine, if, indeed, it may be called one. After a calculation the machinery is set in motion by steam power and steel points begin their work, and the result of this mathematical calculation shows on the small section of steel an intricate border or the undulating, circular lines, with their strange effect of light and shade. This lathe work is one of the surest guards against counterfeiting, for each bit of work represents an obtuse problem. In the engraving room are two large vaults, in which are kept all the plates, rolls and other implements, the position of head of the department being a very important and trustworthy one, as it is one of the few offices where great confidence is placed in the honesty of one man. The paper for all the issues is manufactured in Dalton, Mass., under the supervision of government officials, and that used for the bank notes, silver certificates, etc., is sent out in sheets large enough to contain four notes. In appearance it is like any other very heavy linen paper, except that it has two perpendicular lines of short, uneven silk threads running through it. On being received it is taken with the blue and white papers for the internal revenue and postage stamps (both water marked) to the "wetting department," as it is called, where it is counted and recounted, and a receipt given for it. Then it is put between wet cloths and pressed, being shifted about every six hours, to insure each sheet a gradual amount of moisture. This process lasts about three days, then, after another counting, it is delivered to the printer, who must give a receipt for the sheets given him. At the end of the day he returns another check, stating the quantity received, the number of notes he has printed and the blank or spoiled sheets to be returned. The printing room is a scene of great activity, with its many presses and workers. Here the paper is again moistened by applying it to a wet board, then it is laid on a steel plate that has been carefully prepared with ink, which also is made on the premises. There are two workers at each press, usually a man and a woman. The man fills the plate with ink from a roller, then wipes it off, and, finally, after dusting his hands with chalk, he gives it a last polishing. Then, after wetting the paper, the woman lays it on the plate, the press is applied, and behold, the clear, clean back of the notes, which must be carefully examined before they leave the printer's hands. This process is repeated each time. The press is a self-registering one, and the employes are allowed to spoil a certain percentage of their work, but if they exceed it, their labor is deducted. Then the notes are sent downstairs, and for twelve hours are subject to great heat in an air-tight room. In the room adjoining they are again examined, assorted, and sent back to receive their "face value" from the plates prepared, showing the denomination and the fac-similes of the signatures of the proper officers. Then comes the "wet count," as it is called, and after being dried, the notes are put in a solution of sizing, which gives a greater durability to the paper. After this short process they are sent to the numbering room, where the edges are trimmed and the number is put on by a machine, whose every revolution automatically throws the figures one digit higher. In this room they are given the last count, and are then sent to the treasury department, where the red seal of the United States treasury is affixed and the single sheet cut into four notes. Near this room is a great vault with a double time lock, where all the work, no matter what its stage of development, is sent for the night. It must be in and all the accounts must balance, or no one is allowed to leave the building. The supply in this vault is always a little in advance of the demand of the treasury, and once in, there is no getting it out, except on the requisition of the chief of the division. One man is never allowed alone in the vault, there must be two or more in at the same time. The postage stamps are printed in sheets of 400, and the machine for putting the mucilage on the back is the only one operated by electricity. The sheets are put in and a roller of rough glass spreads on the mucilage, which is made in the building, from potato starch. Then they fall upon an endless chain that carries them through a hot air box, whence they emerge perfectly dry. Afterwards comes the pressing, perforating and division into sheets of 100, as no larger sheets are ever issued, and from the packing room they are sent to the different postoffices. The imperfect notes are macerated in a machine, somewhat smaller than the one used in the treasury. With the great mass of pulp sent from there, this maceration is placed in another machine, that, after separating the silk fiber from the paper, washes it and takes all the coloring matter out, leaving a hard, stiff substance, that is sold to the paper manufacturers at $40 a ton. Yet, with all this economy practiced for them, we still hear our august Uncle Sam's ungrateful children complaining of hard times.—Philadelphia Times.

A STOKER'S MEDAL.

Toward the end of the year 1897 the British torpedo boat-destroyer Thrasher, with its mates Lynx and Sunfish, left St. Ives on a passage to Falmouth. On the way the Thrasher grounded on a point, causing serious injury to the boilers and the bursting of the main feed pipe.

The burst pipe instantly filled the stoke hold with scalding steam. In it were two stokers, Edward Lynch and James Paul. All the rest of the boat's company were landed on the rocks, but the doubling up of the deck had prevented the egress of the stokers by the starboard hatchway.

There was still a port hatchway, which was partially closed and toward this the two men made their way, Lynch in the lead. Directly under the hatchway, and discharging through it, was the break in the steam pipe. Lynch rushed through it safely, and turned to help his mate Paul.

But an instant convinced him that Paul was unable to follow. Then Lynch lay down on the deck with his head and face in the escaping steam, seized hold of the sinking Paul, and by a remarkable exercise of force and tenacity drew him up on the deck.

Lynch then rose on his feet, but it was observed that he was badly scalded about the head, arms and upper portion of the body. The surgeon began to apply oil and wool to his burns, but he repelled the attention.

"I'm all right," he exclaimed; "look after my chum; he's very bad!"

He had said nothing about the way he had rescued Paul, but his manly conduct led the surgeon to investigate, and it was ascertained that, in order to rescue his comrade, he had plunged the whole upper part of his body into what was practically a boiling caldron. More than this, it appeared that Lynch had previously sacrificed his own chance of escaping from the stoke hold the other way in order to stay with Paul.

In recognition of this act of self-sacrifice and bravery, Lynch was presented with the Albert medal of the first-class, which is given primarily for gallantry in saving or attempting to save life at sea, and in some cases, for similar acts ashore.

Not His Money's Worth.

Ringolski—"Poor Grabstein! His was a sad death!" Cohenstein—"Ad der theater, vasn't it?" Ringolski—"Yes and pefore der show vos halluf ofer."—Judge.

SPICE AND GINGER.

The latest government census in India showed 6,016,759 girls between 5 and 9 years of age who were already married, of whom 170 had become widows.

The beautiful colors seen in the soap bubble arise from the fact that the bubble, being very thin, reflects light from both the outer and inner surfaces of the film.

A beggar died at Auxerre, France, not long ago, and in his trunk were found stock securities valued at 1,000,000 francs. In his cellar were found 400 bottles of rare wines.

The mines in Manchuria, according to the report of a Chinese official, are situated in a country covered twelve feet deep with snow in winter, and infested in summer and autumn with an insect which makes life unbearable.

G. W. Swink, of Rocky Ford, Col., gave a watermelon lunch to his friends the other day, at which one watermelon furnished the feast. It was grown on his own farm last summer and kept on ice all winter. It weighed 98 pounds, was five feet long and thirty-four inches in circumference.

Ammon Fowler, of Brooklyn, after viewing the ancient mine in Mexico discovered by his son, which has been harder to locate than some of the submarine mines at Guantanamo, is convinced that it is the lost Toyopa and will claim the reward of $15,000 offered by the Mexican government.

A Hanover postage stamp dealer named Decker, known throughout Germany as a high philatelic authority, has been sentenced to a month's imprisonment for embezzlement. He substituted less valuable stamps for those sent to him for his expert opinion on their genuineness and value.

A correspondent of the Frankfurter Zeitung writes that, in proportion to its size, Barcelona is the most theater-loving city in the world. With 500,000 inhabitants, it has eleven theaters, one of which holds 3,600 spectators, half a dozen music halls, etc., all of which are crowded nightly, notwithstanding the war.

Concerning Buckles.

Not long ago a Radcliffe College girl thus telegraphed to a Boston book store: "Send me one Buckle on Spain." A few moments later the answer came back: "Can find nothing but the hymn beginning 'Buckle on Your Armor.' Pardon me, miss, but ain't that more appropriate for these times?"—Philadelphia Times.

Where It Hurt Him.

"By George, I haven't been able to sleep nights since this war talk began!"

"Why? You're too old to be drafted, aren't you?"

"Yes; but the captain of our militia company owes me $250."—Chicago News.

PLOWING MADE EASY.

A New Invention—A "Stone Dodger" Plow.

From the Farm Implement News.

The Fuller & Johnson Mfg. Co., of Madison, Wisconsin, have brought out a new implement, namely, a riding plow, that is attracting much attention wherever it is seen. Heretofore there has been very serious objection to the riding plow where there is stone. In striking a stone not only has there been danger of breaking the plow and harness, but the blow on the shoulders of the horses was very injurious, and worse than all, the driver was in danger of being thrown off and injured. These objections are overcome in this appropriately named "stone dodger plow. When it strikes a stone the plow part only is raised up and slides over the stone, and pulls itself into the ground again without any action on the part of the driver. The sulky part is not raised at all. A boy or an old man who can handle the team can thus readily do the plowing.

So much interest has been taken in this plow wherever it has been shown that the manufacturers have adopted a novel plan to aid in presenting its manifest advantages to the farming community. They are having a large number of models made and in any section where there is no sample plow that can readily be seen, any reputable farm can, by writing to the company, have a model sent to him by express for inspection, without expense to him, the company paying expressage both ways. The farmer, after examination, simply returns it to the express office. The model is a nice piece of work. It weighs only ten pounds. The plow is made as a single plow for three horses and as a double or gang for four horses. A very effective potato planting attachment can be had with these plows at small extra cost.

No Explosion.

"Well, I've fired the cook," said Mrs. Jones to her husband.

"Did she go off with a bang?" said he, jocosely.

"No, she went off with a pompadour," added she, smartly.—Harper's Bazar.

Shake Into Your Shoes.

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting feet and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight-fitting or new shoes feel easy. It is a certain cure for sweating, callous and hot, tired, nervous, aching feet. Try it to-day. Sold by all druggists and shoe stores. By mail for 25c in stamps. Trial package FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

How He Got There.

"There goes a Florida millionaire."

"Why, he was as poor as Job's turkey a month ago."

"I know; but he owned an artesian well and sold water to the government at 10 cents a gallon."—Atlanta Constitution.

The gross earnings of the Chicago Great Western Railway Company for the fiscal year ending June 30th, 1898, were $5,383,403.79

The operating expenses were.. 3,777,372.70

Net.... .. .. $1,608,671.09

The amount required to pay taxes, fixed charges and full dividends on the 4 per cent debenture stock is....... $1,366,236.42

Excess.... .... $242,431.67

This excess is equal to a little more than 2 per cent on the Preferred A stock.

The operating expenses include, besides other extraordinary expenses, the entire cost of 220 freight cars, which were purchased during the year to make good all the cars which have been destroyed and gone out of service from any cause since the organization of the company.

The largest local crop in the history of the company is about ready for the harvest.—News Item From Chicago Great Western Railway. George H. Mead, G. A. A.

Chicago, July 20, 1898.

We are never so ridiculous by the qualities we have, as by those we affect to have.—Rochefoucauld.

Isn't a blush a shame-faced thing, though?

Not used to a sleeping potion—"Nap."-tha.

YOUNG AT SIXTY.

Serene comfort and happiness in advanced years are realized by comparatively few women.

Their hard lives, their liability to serious troubles on account of their peculiar organism and their profound ignorance concerning themselves, all combine to shorten the period of usefulness and fill their later years with suffering.

Mrs. Pinkham has done much to make women strong. She has given advice to many that has shown them how to guard against disease and retain vigorous health in old age. From every corner of the earth there is constantly coming the most convincing statements from women, showing the efficacy of Lydia E. Pinkham's Vegetable Compound in overcoming female ills. Here is a letter from Mrs. J. C. Orms, of 220 Horner St., Johnstown, Pa., which is earnest and straight to the point:

"Dear Mrs. Pinkham:—I feel it my duty to tell all suffering women that I think your remedies are wonderful. I had trouble with my head, dizzy spells and hot flashes. Feet and hands were cold, was very nervous, could not sleep well, had kidney trouble, pain in ovaries and congestion of the womb. Since taking your remedies I am better every way. My head trouble is all gone, have no pain in ovaries, and am cured of womb trouble. I can eat and sleep well and am gaining in flesh. I consider your medicine the best to be had for female troubles."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

Tent Caterpillars.

In answer to an inquiry in the Farm, Stock and Home, Prof. Lugger says: Great sections of the country are again overrun by herds of tent caterpillars. Two species occur, with very similar forms, markings and habits. The one, the genuine tent-maker, prefers cherries or plums or allied plants. Here the young, as soon as they leave the eggs, which form a genuine ring around some twig, commence to build a tent, inside of which they spend much of their time. As they grow older the tent is gradually enlarged, until at last it is a very bulky affair, discolored by excrement, and spotted with the cast-off skins of the worms. These are social insects; they feed twice a day, and march to their feeding grounds in a very orderly way. In doing so each worm spins a silken thread, so that the road traveled by them is soon covered with a silken carpet. After casting off their skins four times, and thus reaching their full size, they are no longer social, but each worm wanders about in search of a snug place in which to change to a pupa, or later to a brown moth. Before changing to a pupa they make a most beautiful silken cocoon, quite transparent, so that all the actions of the worms inside can be observed. When the cocoon is nearly finished it is soaked with a fluid, which on drying leaves behind a sulphur-yellow deposit. The second kind does not build such a uniform tent, but is equally social and possesses similar habits. Both insects, being social, always cause much damage to trees infected by them. The tree tent-caterpillar, feeding upon the foliage of such small trees as plums, cherries, apples, shadberries, etc., is mere rapidly destroyed, as it can be reached with a common spraying machine. By using one spoonful Paris green to a bucketful of water, and spraying the foliage carefully, all worms will be killed, as they can stand but very little poison. As plum trees are, however, also readily affected with the free arsenious acid in the Paris green or London purple, some little unslacked lime should be added to neutralize the acid. Prevention is better than a cure, hence the prominent rings of eggs should be removed during autumn, winter or early spring. As soon as the small tents become visible they, with their contents, should be crushed or burned with a torch. The tent caterpillars living upon our forest trees, but chiefly upon the linden, are not as readily killed. Tent-caterpillars will remain in any given locality for about three years, after this term a disease takes hold of them and kills the great majority.

Rye, Beans and Wheat.

I saw that a subscriber wanted to know whether it was best to plow under rye, sow to buckwheat and plow it under for wheat, writes C. A. S., in Michigan Farmer. I will give a little of my experience in plowing under rye, if anybody can profit by my mistakes, which are many, I am willing they should. In the fall of 1895 I sowed ten acres to rye. The next spring after the rye was partly headed out, we plowed it under, fitted the ground nicely, marked it straight both ways. Planted with a hand corn-planter to beans. They looked well until they commenced to pod, then they seemed to go back every day until they were pulled. I sowed the field to wheat; on account of wet weather did not sow until late. Undoubtedly that had a good deal to do with my having a poor crop, for that's what it was. I had a very good catch of seeding and it may be I will come out all right in the end. In the fall of 1896 I sowed six acres to rye. The following June I plowed it under and summer fallowed it. Top-dressed it and sowed it last fall to wheat. I think the summer fallowing and top-dressing far ahead of plowing under buckwheat. I did not have quite enough manure to go over the whole field last fall, so I finished it last winter; spread it on even and not thick enough to smother the wheat. I expect a fair crop of wheat and a good catch of clover.

Potatoes Under Mulch.—On March 26 we planted a small patch of potatoes under horse manure. The soil was worked up fine, and potato fertilizer at the rate of 1,000 pounds per acre worked into it. Small whole tubers of June eating potatoes were planted in shallow drills 15 inches apart each way, and covered about two inches deep with soil. The whole patch was then covered three inches deep with horse manure, and has not been touched since. Every plant started, and on Decoration day at least a dozen of them were in bloom. The seed was some of our last year's crop—little nuts too small to sell even to bakers. This scheme of planting early potatoes under a mulch, on light, warm soil, certainly works well. I wish now we had put potatoes into half an acre of light, warm sand in just this way. It would have paid this year.—Rural New Yorker.

Farm Well Water.—The water from artesian wells does not change, as no surface drainage can come into contact with it. If there are any impurities they are due to the minerals with which the water comes in contact as it passes through the earth's lower strata. These minerals may be beneficial to health, and are very rarely injurious. As the danger increases that surface wells will become contaminated, sinking these wells deeper, or better still, making artesian wells in their stead, will become more common. It will be better for the public health in many localities when this is done. Much of the ill-health in all new settlements comes from drinking surface water, or, what is just as bad, getting it from wells so shallow that they depend mainly on surface drainage for their supply.—Ex.

Exterminating Quack Grass.—A buckwheat crop will exterminate quack or couch grass, and without other labor than plowing, sowing and harvesting. Sow it thick and stimulate with fertilizer. Though grass and wheat may come together, the buckwheat will outgrow the other, and by shading kill it and rot the tough sods. If any grass remains, put in rye, and repeat the crop of buckwheat next year.—Ex.

When some of the hogs fall sick do not leave the well hogs in the pen, and remove the sick ones. Remove the well ones, as the sick ones may have already contaminated the ground.

Couldn't Oblige Him.

"Please, sir, let me have Chaucer," said the man at the Free Library to the new assistant.

"No, sir," replied the assistant, "I never chew tobacco."—Philadelphia North American.

What Will Become of China?

None can foresee the outcome of the quarrel between foreign powers over the division of China. It is interesting to watch the going to pieces of this race. Many people are also going to pieces because of dyspepsia, constipation and stomach diseases. Good health can be retained if we use Hostetter's Stomach Bitters.

Too Hasty.

Coal Dealer (anxiously)—Hold on! That coal hasn't been weighed. It looks to me rather large for a ton.

Driver—'Tain't intended for a ton. It's two tons.

Dealer—Beg pardon. Go ahead.—New York Weekly.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets Candy Cathartic cleans your blood and keeps it clean by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly, bilious complexion by taking Cascarets—beauty for 10 cents. All druggists. Satisfaction guaranteed. 10c, 25c, 50c.

Good counsels observed are chains of grace.—Fuller.

If thou knewest how to use money, it will become thy handmaid; if not, it will become thy master.—Diogenes.

The Receivers of the Baltimore and Ohio Railroad have purchased 40 miles of 80-lb. 60-foot steel rails, and will experiment with them on the Pittsburg division and in the Baltimore tunnel. These rails were originally bought for the Columbia and Maryland Electric Railroad which was designed to parallel the Baltimore and Ohio Railroad between Baltimore and Washington and to become an important factor in business between those points. The project failed and the material which was purchased has been sold. These are the first 60-foot rails to be used on the B. and O.

The pearl of patience comes from the irritating grain of persecution.

SKILL OF DOCTORS TESTED.

Fifteen Years of Suffering.

"I thought I should surely die."

When the stomach begins to fail in its duties, other organs speedily become affected in sympathy, and life is simply a burden almost unbearable. Indigestion and dyspepsia are so common that only the sufferer from these diseases knows the possibilities of misery that inhere in them. A typical example of the sufferings of the victim of indigestion is furnished in the case of John C. Pritchard. He went on for fifteen years, from bad to worse. In spite of doctors he grew constantly weaker, and thought he would die. He got well, however, and thus relates his experience:

"For fifteen years I was a great sufferer from indigestion in its worst forms. I tested the skill of many doctors, but grew worse and worse, until I became so weak I could not walk fifty yards without having to sit down and rest. My stomach, liver, and heart became affected, and I thought I would surely die. I tried Dr. J. C. Ayer's Pills and they helped me right away. I continued their use and am now entirely well. I don't know of anything that will so quickly relieve and cure the terrible sufferings of dyspepsia as Dr. Ayer's Pills."—John C. Pritchard, Brodie, Warren Co., N. C.

This case is not extraordinary, either in the severity of the disease or the prompt and perfect cure performed by Dr. Ayer's Pills. Similar results occur in every case where Dr. Ayer's Pills are used. "They helped me right away" is the common expression of those who have used them. Here is another testimony to the truth of this statement.

"I formerly suffered from indigestion and weakness of the stomach, but since I began the use of Dr. J. C. Ayer's Pills, I have the appetite of the farmer's boy. I am 45 years of age, and recommend all who wish to be free from dyspepsia to take one of Dr. Ayer's Pills after dinner, till their digestive organs are in good order."—Wm. Steinke, Grant, Neb.

Dr. Ayer's Pills offer the surest and swiftest relief from constipation and all its attendant ills. They cure dizziness, nausea, heartburn, palpitation, bad breath, coated tongue, nervousness, sleeplessness, biliousness, and a score of other affections that are, after all, only the signs of a more deep rooted disease. You can find more information about Dr. Ayer's Pills, and the diseases they have cured, in Ayer's Cure book, a story of cures told by the cured. This book of 100 pages is sent free on request, by the J. C. Ayer Co., Lowell, Mass.

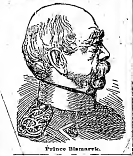
DEATH CLAIMS BISMARCK

IRON CHANCELLOR SUCCUMBS TO THE GRIM REAPER.

Passed Away Peacefully Surrounded by His Family and His Faithful Physician, Dr. Schweninger — Death Came as a Surprise to All Europe—Culmination of Chronic Disease, Neuralgia of the Face and Inflammation of the Veins — Recent Apparent Improvements in the Prince's Condition Had Given the Impression That the End Was a Long Way Off.

Berlin, Aug. 2. — Prince Bismarck died shortly before 11 o'clock Saturday night. He passed away peacefully. The death of the ex-chancellor came as a surprise to all Europe. Despite the family's denials, there was an undercurrent of apprehension when the sinking of the prince was first announced, inspired more by what the family left unsaid than by any information given. But when the daily bulletins chronicled improvements in the prince's condition, detailed his extensive bills of fare and told of his devotion to his pipe, the public accepted Dr. Schweninger's assertion when he said there was no reason why Bismarck should not reach the age of ninety years. The reports were deemed to be a repetition of the alarm that Prince Bismarck was in extremis, which had been often repealed in the past. It appears that the ex-chancellor's death was not precipitated by sudden complications, but was rather the culmination of chronic disease — neuralgia of the face and inflammation of the veins—which kept him in constant pain that was borne with the iron fortitude which might have been expected.



Prince Bismarck.

Unexpected by German Papers.

London, Aug. 1.—A special to the Associated Press says that the news of Prince Bismarck's death reached Berlin at a late hour Saturday, and was only generally known Sunday morning. A number of papers, among them the Post, Vorwerts and Deutsche Zeitung, did not contain the news of the death. The Kreuz Zeitung only had a brief notice. The Tageblatt issued a Bismarck supplement Sunday afternoon. The Lokal Anzeiger prints the fullest details from its special correspondent at Friedrichsruhe, but the other papers, misled by Dr. Schweninger's and the family's statement regarding the prince's condition, made no provision to obtain news of his death. A majority of the provincial papers did not contain the news. The Hamburger Correspondent and the Nachrichten appeared with mourning borders and publish long obituary notices. The latter gives the fullest details of the last days and death of Bismarck. It says:

"On Tuesday evening an improvement set in in the prince's condition, in which repeated changes for the worse had occurred since October last, and he was able to appear at the table and take part in the conversation, drinking champagne, and afterward smoking several pipes, which he had not done lately. His condition was so satisfactory that Dr. Schweninger, after the prince had gone to bed, left with the intention of returning on Saturday. His condition

Was Comparatively Satisfactory

throughout Friday and Saturday morning. He read the Nachrichten and conversed on politics, particularly referring to Russian affairs. In the forenoon he took luncheon, grumbling jocularly at the small proportion of spirits in his drinking water. Then a sudden change for the worse occurred in consequence of an acute attack of pulmonary oedema, and in the course of the afternoon he frequently became unconscious. On Saturday evening grave symptoms appeared. Death came easily and painlessly. The last words Prince Bismarck uttered were addressed to his daughter, Countess von Rantzau, who wiped the perspiration from his forehead. They were 'Thanks, my child.' The whole family were assembled at the bedside at the time of his death and Dr. Schweninger, Dr. Crysanther and Baron and Countess Merck were also present. Dr. Schweninger telegraphed the news to Emperor William in Norway. In accordance with Prince Bismarck's wish he will be buried upon the hill opposite the castle in the vicinity of Hirschgrappe."

Suffered Terrible Agony.

According to an unofficial account the death agony was prolonged. The prince died without taking leave of the family. For fully an hour he suffered terrible difficulty in breathing, and his groans were fearful to hear during the death struggle. He had been placed in a sitting position and propped up with cushions in order to relieve the frightful spasms in breathing. His powerful constitution fought to the last. The family, gathered in an adjoining room, were plunged into the very anguish of grief by the moans from the death chamber. During the agony of dying the prince repeatedly pressed his hands to his eyes. His appearance in death is said to recall strikingly that of the first Emperor William, the smallness of skull as compared with a large body being remarkable. The strongly contrasted, small, pale features, greatly emaciated, suggested long and severe suffering, though the expression was calm. Count Hubert Bismarck refuses to allow anybody to visit the death chamber until Emperor William has seen the dead statesman.

Emperor Deeply Affected.

Bergen, Aug. 1. — The news of the alarming change in the condition of Prince Bismarck reached Emperor William late Saturday evening. When the emperor was informed of the prince's death early Sunday morning he was deeply affected and ordered his yacht to return immediately. The yacht with the emperor on board will reach Kiel this evening. The flag on the yacht is flying at half-mast.

Will Not Affect European Politics.

Paris, Aug. 1. — The French papers express the belief that the death of Prince Bismarck will have no influence upon European politics as the deceased retired from public life eight years ago.

COL. SHANDREW ILL.

Commander of the Fifteenth Minnesota Is a Very Sick Man.

St. Paul, Aug. 2.—Col. Shandrew, of the Fifteenth Minnesota, was obliged to leave his command Friday afternoon a very sick man. He took cold Thursday afternoon which seemed to settle in his face and throat, and he almost completely lost control of his vocal organs. He was given every attention by the regimental surgeons, but rapidly grew worse and was removed to his home. Surgeons say the ailment has many of the symptoms of cerebro apoplexy. Sunday a marked improvement in the colonel's condition was noted, he practically regaining the power of speech, and it is now thought that with close attention and careful nursing he will pull through all right.

BRING HOME THE SICK.

Preparations for Their Reception Being Rapidly Pushed.

Washington, Aug. 2.—Secretary Alger is hastening preparations at Montauk Point for the reception of the Fifth army corps, now at Santiago. Surgeon General Sternberg has just dispatched Col. Forwood, of his bureau, to the site of the camp with instructions to erect at once a hospital capable of accommodating not less than 500 soldiers. Gen. Shafter has been authorized by a cablegram to notify his soldiers of the good fortune in store for them in order that the men may be cheered up to wait with patience for their removal. This cannot be effected immediately owing to the condition of the men themselves.

GREETING THE TEXAS.

Big Battleship Receives a Tremendous Ovation at New York.

New York, Aug. 2.—Fresh from the coast of Cuba, battle-stained, scarred and punished in spots, with her Maxim guns glistening in the sunlight and her officers and crew laughing and cheering like school boys on a holiday trip, the battleship Texas, Capt. J. W. Phillip in command, steamed slowly up the lower bay from Santiago on her way to the Brooklyn navy yard. Salutations of welcome came from all sides. Every vessel that boasted a steam whistle let it fly for all it was worth, and the man in charge of the steam siren on the Texas worked like a beaver replying to the hearty reception.

CONFESS THEIR CRIME.

The Murderers of the Marquis De Mores Have Been Found.

London, Aug. 2.—Advices have been received here from Tunis to the effect that three natives have been arrested in connection with the murder of Marquis de Mores, who was reported on June 17, 196, to have been assassinated south of Tripoli. The advices add that the prisoners have confessed to the murder of the marquis. The marquis left Floutia, a Tripolitan village, on June 8 for Grandamas, with eight companions and an escort of Touraigs and Sohambas. He was attacked by the Toureg escort, who shot him and left him lying in the road.

UPPER MISSISSIPPI.

Capt. Townsend Has a Million to Spend Below St. Paul.

Rock Island, Ill., Aug. 2.—Capt. Curtis McD. Townsend, engineer in charge of the upper Mississippi river improvement, from St. Louis to St. Paul, has received official notification that the sundry civil bill passed by the last congress carries $900,000 for work in his jurisdiction next season, which is considered liberal in view of the war expenditures. There still remains in the fund of the upper Mississippi $150,000, so that there will be ample to carry on the work of improving the channel for some time to come.

The Bella Mac Sinks.

La Crosse, Wis., Aug. 2.—The large steamer Bella Mac, owned by the Mississippi River Towing Company of La Crosse, sank in fifteen feet of water above St. Louis. The crew and passengers reached shore safely. She will probably be abandoned.

Two Fatally Injured.

Milan, Mo., Aug. 1.—During a celebration here over victories of the army and navy the fireworks exploded, fatally wounding two and injuring six others.

The Pope's Appeal to the Scotch.

Rome, Aug. 2.—The pope has issued an encyclical to the Scottish people, the terms of which are significant in view of the recent reports that the thoughts of his holiness are absorbed with his death. He says that in his stress he addresses them because he sees that his last day is approaching, and in the most solemn terms he recalls the services of dead Scotch heroes to the church and beseeches the people to return to their ancient faith.

THE CORNER STONE IS LAID

IMPRESSIVE CEREMONIES AT THE NEW CAPITOL AT ST. PAUL.

Memorable Day in the Annals of the State—Immense Throng Takes Part in the Exercises Connected With the Important Event of the Day—Civic and Military Bodies Make Up an Imposing Parade—Senator Davis Delivers a Masterly Oration—Ex-Governor Ramsey Performs the Ceremony of Placing the Stone in Position.

St. Paul, July 29.—With petitions to the Almighty for his favor and countenance, with ceremonies as solemn and imposing as human agencies could make them, in the presence of a great concourse of citizens and of military and civic bodies, including the newly recruited Fifteenth regiment of volunteers from Camp Ramsey, the corner stone of the new state capitol was laid at St. Paul yesterday afternoon.

Above its final resting place the huge block of polished granite swung in the grasp of a pair of exaggerated iron pinchers. At the close of the musical selection which followed the eloquent address of Senator Cushman K. Davis, every eye in the assembly unconsciously sought the point where the stone was suspended. Gov. Clough stepped to the front of the gaily decorated platform in the silence which fell on the throng of spectators. He said: "We will now proceed to place the corner stone of the new capitol upon the foundation prepared for it. In this box, made of copper, we have placed various articles and memorials indicative of our progress in art, literature and agriculture, a list of which will be read by Nathaniel P. Langford." The list was read by Mr. Langford. Gov. Clough resumed: "I will request the commissioners to place this box in the cavity prepared in the corner stone for its reception." The casket, gleaming in its rich tints, was laid away.

In the Rocky Sepulcher.

When their burden had been deposited in the heart of the stone Gov. Clough again stepped forward and spoke in his capacity as representative of the commonwealth. He said:

"This massive corner stone is a production of our own state, designed by our architect, and shaped by the skill of our workmen. It gives me great pleasure to now call upon our honored fellow citizen, Alexander Ramsey, the first territorial governor of Minnesota, a man who has resided among us and watched with pride the wonderful growth of this—first territory and then state—since 1849, to lay this corner stone."

At this point Judge Charles E. Flandrau stepped to Gov. Ramsey's side and presented him with a glistening trowel with which to lay the stone. The governor bowed his thanks. Then, as the band struck up, Gov. Ramsey leaned forward, and, with a steady hand, smoothed the mortar with which the foundation stone had been spread. He did it skillfully and well. Then, stepping back, he signaled that so much of the task was done. Great blocks and ropes creaked. A donkey engine puffed and slowly the massive corner stone settled into place. As it did so the crowd broke out into more cheering. At last the stone was in its bed, in which it shall rest for, perhaps, centuries. Standing upon the stone, Gov. Clough delivered the proclamation, saying:

"I proclaim that the corner stone of the new capitol of the State of Minnesota has this day been well and properly set in its permanent resting place. May its fidelity to the trust imposed upon it ever be a silent monitor to the rulers of the people for whom this house is being erected."

It was fitting that the band just then should strike up the national anthem, and that the throng should join in singing "America." A

Tremendous Volume of Sound

floated away from the capitol enclosure. Bishop Whipple, of the Episcopal church, then delivered the closing prayer and benediction, the audience standing with uncovered heads. The arrangements for the comfort of the public were admirable.

The parade started shortly after 2 o'clock, having the scene of the ceremonies for its terminus. A portion of the contents of the box placed within the corner stone was selected by ex-Gov. Ramsey. Among the books were a Bible, reports of state officials, legislative manuals, historical publications, photographs and engravings of Minnesota scenes, an American flag, the original draft of the capitol bill, portraits of Alexander Ramsey and Henry Sibley, copper plates of the state seal and other designs and drawings, copies of the daily papers and papers relating to the corner stone laying. Two bronze plates were also deposited on the box, one bearing an epitome of memorable historical events within Minnesota, beginning with the cession by Virginia in 1784, and the other engraved with a statement that the corner stone had been duly laid, and naming some of the participants.

The Parade.

The most spectacular and stately feature of the corner-stone celebration was the parade of military, veteran, civic, secret and labor organizations. Early settlers, who bore the brunt of making a way in the wilderness, the remnant of Indians who once owned all this territory, veterans of the primitive struggles with the aborigines, honored survivors of the army and navy of the Civil war, state, county and city officials, department officers of the federal army, uniformed members of social organizations, sturdy trades union bodies and the St. Paul fire department made a panorama of the state's history and illustrated its finest resources, its wealth of men, its achievements in war and civilization.

Under Chief Marshal McCardy the line formed, and at 2:1 the platoon of mounted police, under Lieut. Budy swung from Rice Park into Fifth street. Then followed the long line of marching men, which took fifty-five minutes to pass. The last third of the line was taken up by the city fire department, which never made a better appearance.

The march was made without mishap and with few untoward incidents. The crowds were admirably handled by the police department.

All day along the line the sidewalks were densely packed, and at every cross street theaters were improvised of packing boxes and delivery wagons, while every second-story window was fluttering with ribbons and blooming with bright faces. There must have been a hundred thousand persons in the holiday crowd.

St. Paul Entertains.

Before the ceremony at the capitol, after the ceremony, during all of last evening, St. Paul indulged its just civil pride by relaxation into sports and jollities.

A mimic battleship, a grotesque street car, paraded the lines of the electric railway. Bands played at the principal parks and street corners. Colored jubilee singers made droll melody in the open air. Trick cyclists diverted the street crowds. Races were run at the parks. Flags tickled the eye by day, rockets and colored lights amused the eye by night. The high-fettled horses of the fire department galloped on exhibition review in front of the glittering fire engines. And processions of real and decoy soldiers, of soldiers active and retired, old and young, on foot and on horseback, with uniforms significantly severe or theatrically brilliant, delighted the 20,000 visitors no less than the many more residents that thronged every downtown thoroughfare.

SENATOR DAVIS' ADDRESS.

A Masterly Oration, Embodying Many Timely Observations.

Senator Davis began his address as follows:

We have met here to perform a great political ceremony: to dedicate by an impressive symbolism, employed by many nations throughout all time, the edifice which represents and typifies the state.

An ideal significance inheres in every act by which the hand of man, guided by his will, his reason and his imagination, seizes the forms of matter and compels them to artistic or useful inventions.

"The veriest utilitarian mechanisms, those slaves of man, the creations of his genius which do his work, the most luxurious products of his imaginative art, everything from the reaper and the sewing machine to the painting in which nature is given a beauty beyond her own, or the presses harmonies sweeter far than any presses harmonies sweeter far than any heard in groves, has its transcendental significance, which is the very soul of the material creation.

After remarking that architecture was, as Ruskin said, "the distinctively political art," and that state architecture discloses a political significance beyond its manifest qualities, Senator Davis spoke of the mystical and symbolic meaning that has always been associated with corner stones. It was particularly fitting that Gov. Ramsey, who had come to Minnesota just forty-nine years and two months ago, should lay the corner stone of the capitol of the state, the corner stone where political foundations were also laid by him. "Memory spans with its triumphal arch the breadth of half a century. Upon every year of that arch is built his acts as governor, senator, secretary of war, diplomatic negotiator and citizen, are ineffaceably traced. It is only the ideal and the spiritual that is eternal. Other peoples must decipher the record of ruins, but we have with us the men who laid the foundations of the state. The capitol would embody in marble and granite this modern conception of a free and independent state. It does this both in general form and in details. The building would be the great political sensorium of the state. The significance of the word capitol was considered at length and illuminated with much learning. More and more both it and the building it stood for han become identifien with ing it stood for had become identified with sion was therefore a fitting one for contemplation of the part Minnesota, as a component of the United States, is destined to play "in the swelling act of the most important theme of all the ages." It was to be noted that the hundred years now drawing to a close have been the most eventful and productive of any epoch. The civilization of Europe and the United States have been on unconscious process of preparation for destinies heretofore unperceived. A great secular change is now taking place throughout the world. Ancient international balances have become unpoised.

It was a mystery why China had so long been spared from the fate of India and America. But at last it has yielded to the encroachments of Europe without resistance, and is about to become as subject to it as were Peru and Mexico. In Europe the nations have rearranged themselves on race lines. The Teutonic, the Slavonic and the Latin races present themselves nationally. Until recently the Anglo-Saxon races had divided themselves into two political divisions, but they are beginning to be drawn toward each other. The general movement of the Europeans in Africa has been towards the Orient. Another significant eastward movement is the fact that the center of the manufacturing industry in Europe is moving eastward. Within the last thirty years Germany has become a great manufacturing nation, and has established herself in the East; Russia continues her movement toward the East, begun in the time of Peter the Great.

After pointing out that the United States could not hold aloof from the movement towards the East, the senator said:

What action by the United States do its peace and safety require to insure to it the rightful and most advantageous results of these new international relations and adjustments? The situation in the Chinese Orient is pregnant with wars, and wars, in these days of fleets built of steel and driven by steam are different from those of the times of wooden walls and sails. There is not a habitable spot on the earth's surface too remote or secluded or too strong to be exempt from the attacks of rapacious and unscrupulous military and naval power. All history is false or this is true, that such wars are inevitable. Their arena has been enormously extended. The recent aggressions of the powers of Europe upon China were acts of war. It is not long since that the war between Japan and China ended by depriving the latter power of her fleet, by compelling her to pay an enormous indemnity, and, provisionally, to cede a portion of her territory of the greatest military and naval importance, of which Japan was in her turn deprived by the duress of Russia and Germany, only to see Russia substantially acquire the same territory and Germany make a compensatory seizure near by.

Next to China, the Pacific possessions of the United States are the most inviting objects of attack. Under existing conditions their defense would be difficult. Had Spain triumphed at Manila as decisively as did the United States, her navy could have seized Honolulu and have operated from there upon the entire coast of the United States from Mexico to the Yukon. An overwhelming European force in the same waters could do the same thing. So could Japan.

The condition is plainly one of alternatives. The United States must become an efficient element in the Asiatic situation or it must entirely abstain from any participation in it, return to its own shores, receive the smallest possible share of its commercial advantages, and prepare for its own defense against the same aggressions which have reduced China to her present condition. It may be objected that all this is without precedent. So it is. But all great human evolutions must precede precedents in order to create them.

The present war restored confidence to those who feared that the spirit of our people and their patriotism had been enervated by a long and prosperous peace. That they would support the government no one doubted. But it was only faintly hoped that a war, not onerous when compared with our resources, would completely fuse all political and sectional differences into unanimity of support to the honor, dignity and safety of the nation.

It is now manifest that the United States will be, at the conclusion of this war, a great and actual naval and military power. Many thousands of her citizens will be trained to modern warfare on land and sea. The military spirit has inspired the people. They have been raised to a high plane of patriotism. The additions to our fleet have been very considerable and that fleet will never be less. The appropriations for its increase, already liberal, will continue to be so. The astounding victories of Commodore Dewey and Commodore Schley have convinced our people of the vital importance of the sea power. The organization and operations of a great army and navy will teach them their own strength.

The heroism of our soldiers and sailors will be a heritage of national glory and honor. Our people are carried to the highest top of national pride by witnessing at Manila and Santiago (to paraphrase Napier) with what majesty the American sailor fights. It is also perceived, with the greatest satisfaction, that certain exponents of European opinion, who, until recently spoke with a condescending assumption of superiority, of intervening in the present contest, have abated their hauteur of expression.

The Monroe doctrine, in the sense of an expression by this government to intervene to prevent encroachments by European nations upon the republics of the Western hemisphere, has been confirmed and has received a steadying force. The press of continental Europe has adopted, during the last few years, a fashion of resenting even any theoretical assertion of this great principle of American security, which was recently characterized by Bismarck as a doctrine of "uncommon insolence." It is now probable that any European power will deliberate before acting upon that assumption.

The necessity for the immediate construction of the Nicaragua canal has been undeniably demonstrated by recent events. The voyage and perils of the Oregon are conclusive upon this proposition.

The unpleasant relations which have existed between the United States and England for so many years were caused by a traditional aversion, which was aggravated by certain events of our Civil war, and by many minor irritating controversies, the worst feature of which is the fact that few of them have ever been settled. But through all this it has been felt by the people of both countries that a tie binds them together, however much they may irritate each other by straining it.

Aversion and even specific controversies between peoples so related are often composed by the force of events with which their connection seems merely ideal and sympathetic.

This day will soon end. The invocations, the choral rejoicings of triumphant and patriotic music sent out by instruments and voice; the words of oratory vainly essaying to be adequate to its theme; the gleaming banners of our country; the emblems of our industry; the trophies of our conquest of innumerable facilities here exhibited; the militant youth of Minnesota marshalled for war—all that constitutes this pageant will soon cease to be seen or heard.

Not for hundreds of years will this ceremony be again performed. But of one indubitable and changeless fact we can feel assured, and that is that when, in a distant age, a corner stone shall be laid for another and a greater capitol of Minnesota, they who place it, in contemplating the reverend structure here begun, will glory in and emulate the glory of their fathers.

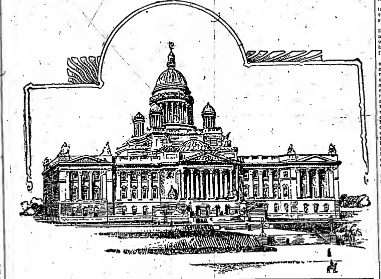
For, as a great master of English, a seer in economics and an authority in art, has truly said of such structures raised by states:

"Men cannot benefit those that are with them as they can benefit those that come after them; and of all the pulpits from which human voice is ever sent forth there, is none from which it reaches so far as from the grove."

Nor is there, indeed, any present loss, in such respect for futurity. Every human action gains in honor, in grace, in all true magnificence, by its regard to things that are to come. It is the far sight, the quick and confident patience, that, above all other attributes, separate man from man and near him to his maker; and there is no action nor art whose majesty we may not measure by this test. Therefore, when we build, let us think that we build forever. Let it not be for present delight nor for present use; let it be such work as our descendants will thank us for, and let us think, as we lay stone on stone, that a time is to come when these stones will be held sacred because our hands have touched them, and men will say as they look upon the labor and wrought substance of them: "See! This our father did for us!"

For, indeed, the greater glory of a building is not in its stones, or in its gold. Its glory is in its age and in that deep sense of voicefulness, of stern watching, of mysterious sympathy, nay, even of approval or condemnation which we feel in walls that have long been washed by the passing waves of humanity. It is in their lasting witness against men, in their quiet contrast with the transitional character of all things, in the strength which, through the lapse of seasons and times, and the decline and birth of dynasties, and the changing of the face of the earth, and of the limits of the sea, maintains its sculptured shapeliness for a time insuperable, connects forgotten and following ages with each other, and half constitutes the identity, as it concentrates the sympathy of nations.

It is in that golden stain of time that we are to look for the real light, and color, and preciousness of architecture, and it is not until a building has assumed this character, till it has been entrusted with the fame, and hallowed by the deeds of men, till its walls have been witnesses of suffering, and its pillars rise out of the shadows of death, that its existence, more lasting as it is, than that of the natural objects of the world around it, can be gifted with even so much as these possess of language and life."



A Good Excuse.

A Western teacher in a town in which the women have the right of suffrage, received the following note accounting for the absence of one of her pupils on election day:

Dere Teacher—Please be so kind as to excuse Lizzie for not having went to school yesterday. I kep her home to mind the baby, while I give out votes at the polls, an otherwise done what I could to elect the right man, who, as you will see by the morning paper, got there by a big majority. So I am glad I kep Lizzie home an done what I could at the poles.—Harper's Round Table.

A Slight Objection.

"Of course," said Farmer Corntossel, "I want to see my country get along. And there's no gettin' round the fact that England and us have sentiments in common. But I don't want any Anglo-American alliance."

"But that's merely a name."

"That's what I don't want it to be. Look at the Farmer's Alliance. That's merely a name, too, an' I want this un to amount to somethin'."—Washington Star.

Considering the Jokes It Brings.

"The sight of these brave men—men who cannot physically qualify for the army, who cannot pass their physical examination, breaks me all up," said the kind-hearted official.

"But you needn't cry about it."

"You see, circumstances compell me to shed a few volunteers."

War is all that Sherman claimed it was.—Buffalo Enquirer.

Castigation.

"Don't you think this country ought to have extended the olive branch to Spain?" asked the man with queer ideas.

"It did," was the prompt answer. "The difficulty was that the only way to make any impression was to strip the leaves off it and put it where it would hurt."—Washington Star.

Isn't it just like a woman to object to the present war because the Spanish names are so hard to pronounce!

GREAT STRIDES TOWARD PEACE

Surprising Outcome of Negotiations at Washington.

Washington, Aug. 2—Events of the most momentous character occurred at the White House Saturday afternoon between the president, Ambassador Cambon of France and Secretary Day, carrying the peace negotiations far beyond the mere submission of terms of peace by the United States and reaching the point of a preliminary basis of peace between the government of Spain and the government of the United States, needing only the ratification of the Madrid cabinet of what was done to bring the war to an end. This was accomplished on the part of Spain when Ambassador Cambon presented to the president credentials he had received from the Spanish government appointing him minister extraordinary and plenipotentiary, with complete instructions as to action upon every one of the peace propositions submitted by the United States, including the disposition of Cuba, Puerto Rico, the Philippines, the Ladrones, indemnity, armistice and all other questions likely to arise in the course of negotiations. With these credentials Ambassador Cambon, on behalf of Spain, not only received the

Peace Conditions

laid down by the American cabinet earlier in the day, but thereupon entered upon their full discussion with a view of reaching a final and complete agreement. After strong argument the president and Secretary Day consented to a modification of the American demands in one particular. There is much speculation as to the nature of this amendment, but all that can be knowingly stated is that it relates to that part of the answer which deals with the future of the Philippines. It is known that the Spanish efforts were concentrated upon the retention of the islands, and the Madrid cabinet was willing to make almost any sacrifice in its power to secure that end. Whether or not the ambassador prevailed in this is not known, but there is reason to believe that the success he attained was limited, and that the United States proposes to retain some foothold a little more important than a simple coaling station in the islands. The persons best informed as to the probabilities declare that the answer of the Spanish government to the terms of peace outlined by the government of the United States is not expected until Tuesday. This opinion is based upon a knowledge of the time when the United States' communication was received in Madrid, the time required to decipher it, the necessity for an

Extended Consideration

of the matter by the Spanish cabinet, and also the necessity for framing the Spanish rejoinder. It was not known to our government that M. Cambon had such powers to act in behalf of Spain when he appeared at the White House to receive the American answer, but once the president was satisfied that he was competent to deal in an authorized manner with our government the production of his credentials was hailed with satisfaction as tending to hasten the reaching of an agreement without loss of time and in the most direct manner, for, technically, the United States is now treating with Spain without the intervention of a third power. It may be said incidentally that M. Cambon is proceeding with straightforwardness toward his object, and that there is no fear of devious diplomacy being introduced into the negotiations.

SUSPENSION OF HOSTILITIES

Will Not Take Place Until Spain Fully Accepts Our Conditions.

Washington, Aug. 2 — The progress made by the peace negotiations has given rise to a supposition in some quarters that hostilities are to be suspended very soon. This will depend entirely upon the attitude of the Spanish government and the nature of its answer to our demands. It has been made clear to the French ambassador that hostilities will not be suspended except upon the assurance of a full acceptance of our conditions and the Spanish cabinet has doubtless been informed that it depends upon Spain when the war shall cease. Meanwhile, as an earnest that our government has not interrupted the execution of its campaign, an order was issued from the war department for the dispatch of an entire army division to reinforce Generals Miles and Brooke in Puerto Rico. This will be known as the provisional division and will be commanded by Maj. Gen. Wade, at present in command at Camp Thomas. He is ordered to turn over that command to Maj. Gen. Breckenridge and to report to Secretary Alger at Washington for instructions before departing for Puerto Rico, bringing with him his adjutant general and his aides.

THE FOUR BIG LINERS.

No Longer Needed by the Navy Department—War Department Wants Them.

Washington, Aug. 2—The navy department has concluded that it can dispense with the four big American line steamers, formerly known as the New York, St. Louis, St. Paul and Paris, and the war department has begun negotiations for chartering them. Mr. Griscom, the president of the line, will meet Col. Hecker, in charge of transportation, to-day by appointment at the war department to make the necessary arrangements by which the soldiers of the Fifth corps can make flying trips on these vessels from Cuba to the North.

Five Were Drowned.

Chicago, Aug. 2 — Five persons attending the picnic of the Chicago Cloakmakers' union at Columbia park, were drowned in the Desplaines river.

NUEVITAS BOMBARDED.

Key West, Aug. 2. — Reports have reached here that Nuevitas, on the North coast of the Province of Puerto Principe, Cuba, has been bombarded by the ships of the blockading squadron, evacuated by the Spaniards and subsequently burned. No details are known, and the only information of the affair was that given to Capt. Maynard, of the gunboat Nashville, by Lieut. Col. Rojas, of the insurgent forces.

Washington Letter.

From our Regular Correspondent.

Mr. McKinley and his advisers never had more need for all their wits than now that Spanish trickery has made a start, through the French Ambassador, for the opening of "negotiations" for peace. They have got to remember that while no European power would dare to fight the U. S., there are several of them that would be only too glad to aid Spain in getting the best of us through diplomacy, and if Mr. McKinly consents to make the terms of peace subject to "negotiations" there are numerous ways in which it might be done. There are men in this country, especially those who have connections with the great European financiers who have money invested in Spanish bonds that are secured by Cuban revenues, who would be only too glad to have a chance to try to save something out of the wreck by having the terms of peace arranged by diplomatic negotiations. It is not a case for negotiation. Senator Morgan correctly stated the case when he said: "It is the duty of Spain, if she wants to make peace, and that means if she wants to surrender, to ask terms of the U. S., and state what she will be willing to accept. Spain, having lost the control of her colonies because of her incompetence, either to govern or to defend them, the U. S., ought to accept nothing except a full and complete surrender of the soverignity of all of these islands, from Porto Rico to the Philippines. To make a treaty with Spain to which Cuba becomes a party by being an agent in the negotiation of the treaty or being provided for in the treaty itself will lead to embarrassment and complications in the future. The war has not yet progressed to that stage in which the people of Spain, or even the Spaniards in Cuba, have realized the fact that the U. S. has power to suppress Spain utterly if it should choose to do so."

There is much anxiety to know how Mr. McKinley will meet the Spanish peace play, and fear is expressed that his desire to bring the war to a close may cause him to get caught in some diplomatic trap that may cost this country a whole lot of money. The people have been able to extract a great deal of satisfaction from the victories we have won from the Spaniards on land and on water, but when men who are honest and aboveboard get to negotiating with men whose knavery is a byword all over the world, the result is seldom satisfactory to the honest man. A good motto for the administration just now would be "No negotiations, but unconditional surrender." If Spain won't accept that now, we can soon whip her into doing so.

The news from Gen. Miles is entirely satisfactory, as far as it goes. He had no trouble in landing on Porto Rico early this week, without the loss of a man, and this force is being daily increased by new arrivals. The expectation at the War Department is that he will get his campaign actually started within a week.

The Army and Navy.

Have covered themselves with glory during the war. The Army and Navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of navy and army terms, translation of Spanish words, etc. Send ten cents to Chas. S. Fee, general passenger agent, N. P. R., St. Paul, Minn., for a copy.

A DELIGHTFUL TIME.

Minnesota Editors Enjoyed The Excursion to The Coast.

By Invitation of The Dominion Government Over The Canadian and Soo Pacific Railways. July 7 to 16, 1898. Not a Moment's Dullness in the whole Ten Days—Hospitality of The Canadian People So Great as to Occasion Surprise. Splendid Domain Through Which The Canadian Pacific Runs—Some Features of The Country Outlined—Resolutions Passed—Roster.

RESOLUTIONS.

adopted by the Minnesota Editors and Publishers' Association while en route homeward from the Pacific coast, July 16th, 1898. We, the members of the Minnesota Editors and Publishers' Association, whose good fortune it has been to devote ten days to the enjoyment of the grandest trip possible on the American continent—from St. Paul over the Northern Pacific railway to the proud city of Winnipeg, thence west via the Canadian Pacific railway through the rich agricultural lands of Manitoba, and the grand scenic mountains beyond, to the cities of Vancouver, Victoria and Seattle, take pleasure in the unanimous and sincere expression of our gratitude to those whose great consideration and courtesy have made it possible for us to thus make the excursion of 1898 the most pleasureable and instructive in the history of our Association.

We take especial pleasure in acknowledging our indebtedness to the Honorable Clifford Sifton, Minister of the Interior for the Dominion of Canada, who several months ago extended to us a cordial invitation to take the trip as the guests of the Dominion and of the Canadian Pacific railway, and who, through his very able and courteous representative, W. J. White, has been so alert and active to extend to us every possible attention.

Our obligations are due to the great trans-continental railway, the Canadian Pacific, for its magnificent special train service for a distance of fifteen hundred miles and return, and the many courtesies extended by its president, Sir William C. Van Horne, William Whyte, General Manager, and Robert Kerr, Western Division Traffic Manager, besides E. J. Coyle, the company's Vancouver representative, A. D. Calder, Traveling Passenger Agent, and P. S. Jenkins, Superintendent of the Canadian Pacific telegraph service, to whom we are indebted for frequent news bulletins. The Canadian Pacific is one of the continent's greatest railway systems, and we have found its officials to be uniformly courteous and attentive.

We express our deep appreciation of the services rendered to us by the Wisconsin Central railway in carrying our sleeping cars from Chicago to St. Paul and return; to the Northern Pacific railway in transporting our party from St. Paul to Winnipeg, and for placing at our service the magnificent steamer, "City of Kingston," for the memorable ride, through the Straits of Fuca, from Victoria to Seattle; to the Canadian Pacific Navigation Company for its liberal courtesy in conveying us from Vancouver to Victoria on the finely equipped "Charmer;" to the Seattle & International Railway Company for taking us from Seattle to Mission Junction; and to the Soo Line for returning us from Portal to St. Paul, a distance of nearly six hundred miles.

We are grateful to the citizens of the Dominion of Canada for the cordial receptions and hearty manifestations of friendliness accorded us on every hand. We were especially pleased with the repeated assurances of their interest and sympathy with the United States in the present war with Spain.

We recall the cordial reception tendered us at Winnipeg with much satisfaction, and extend thanks to Mayor A. A. Andrews, the city council, Board of Trade and citizens for the attention devoted to us while the guests of that city. The banquet served at Elm Park by the ladies of Winnipeg, and the music provided by the Ninetieth Battalion band, were enjoyable features. The cordial reception given us at Portage la Prairie by Dr. Rutherford, M. P., Mayor Garland and citizens, was most gratifying, and made particularly enjoyable by reason of the drive among the rich and highly developed farms surrounding that city.

The visit to the Government Experimental Station at Brandon impressed us with the great progress being made in the agricultural development of the Dominion, and was one of the valued observations of the trip. At this beautiful city, the home of Honorable Clifford Sifton and Press Representative W. J. White, our visit was made pleasant by the personal attention of Mayor E. Evans and the city council.

We will ever remember with joy the greeting accorded us at Griswold, where the little girls wearing capes of paper, sang "America," and the "Star Spangled Banner," and presented us with beautiful buttonieres, and where many of the warriors who participated in the Sioux massacre of '62, and afterwards fled to Canada, had gathered to gaze at the descendants of their frontier victims; at Virden, gaily decorated with the stars and stripes, where the ladies tendered us a banquet that could not be excelled, and Mayor D. McDonald and W. J. Wilcox, president of the Board of Trade, presented us with a handsomely engrossed address of welcome; at Indian Head, where the entire populace, headed by Reeve Stevans and council, and escorted by the Indian band from the Government School at Qu'Appelle, gave us a rousing welcome; at Regina, the capital of the Northwest Territories, where, in addition to a cordial reception by Premier Haultain, representing the Northwest Assembly, acting Mayor S. A. Clark and citizens, we enjoyed the exceptional courtesy of being welcomed by His Honor Lieut. Gov. M. C. Cameron; at Vancouver, where Mayor Garden, city council and Board of Trade were profuse in their attention, which included a delightful steamer ride up the North Inlet; at Victoria, where Mayor C. E. Redfern, city council and Board of Trade gave us a royal welcome to this magnificent capital city of British Columbia; at Seattle, where Alden J. Blethen, editor of the Daily Times, greeted us with the announcement that "Santiago had fallen," and proceeded in his energetic and hospitable manner to make us acquainted with the Queen City of the Pacific coast; and at Calgary, where on our return we were conveyed to the fair grounds and witnessed the novel and exciting exhibitions of Indian war dances and horse racing, cowboy broncho busting and roping the wild steers.

We extend thanks for favors granted us at Banff, by Howard Douglass, Superintendent of the Canadian National Park, and Sergeant S. Crosthwait, of the Northwestern Mounted Police.

While we recognize in the grand and beautiful mountain scenery to be viewed from the Canadian Pacific railway, a great source of delight to the traveler, we are the most impressed with the great agricultural wealth of that vast empire reaching from the base of the mountains eastward to Winnipeg. Yet but partially developed, it is easy to see that this vast and rich agricultural area offers the greatest possible inducements to home seekers, and is destined to become one of the richest sections of the North American continent.

We extend sincere thanks to President S. A. Langum, Secretary C. P. Stine and Messrs. H. P. Hall, C. C. Whitney and C. S. Mitchell, members of the executive committee, for the painstaking care exercised by them in timing and so successfully managing the longest and most important excursion ever taken by our Association.

W. R. Hodges,
C. L. Luce,
S. G. Peterson,
C. B. Tyler,
Committee.

SINGING VERY POPULAR.

Among the many enjoyable features of the trip was the singing of popular songs. In many cases words were improvised and sung to familiar airs. The following, from the versatile pen of W. A. Foland of the Benson Times, are good examples:

Air: Good Bye, My Lover Good Bye.

The editor and the editors wives,
Good bye, my lover, good bye,
Are taking the trip of all their lives,
Good bye, my lover, good bye,
From Winnipeg west and all the way,
Good bye, my lover, good bye,
Warm friends have cheered us every day,
Good bye, my lover, good bye.

Chorus.

The Stars and Stripes and Union Jack
Waved side by side along the track,
And America and God Save the Queen
Were sung by all, where e'er we've been.
Good bye, my lover, good bye.

The Yanks and British hand in hand
Have joined their cheers for freedom's land,
Our English cousins have touched our hearts—
The sole regret is we must part.
Good bye, my lover, good bye.

We gazed on mountains high and grand,
Whose likes are in no other land,
On glaciers white and peaks of snow,
Whose ice endures while ages go.
Good bye, my lover, good bye.

On prairies wide, whose fertile soil
Is a mine of wealth to the son of toil,
And whose acres vast will soon be filled—
With farmers and with fields well tilled.
Good bye, my lover, good bye.

We enjoyed it all—yes, every bit,
Since the trip began to the end of it,
From the Fraser's mouth to the Kicking Horse,
O'er rocks and streams and mountain gorse.
Good bye, my lover, good bye.

Such sights as these who would have missed,
Or the tunnels where the girls were kissed,
And of all the roads, both east or west,
The C. P. R. is first and best.
Good bye, my lover, good bye.

Now to White and Hall, and Calder, too,
We give three cheers and a tiger, too,
And to Whitney, Stine and Mitchell, C. S.,
Who labored for our happiness
Good bye, my lover, good bye.

The pleasures of our trip are due
To the efforts of these men so true,
Their kindness we will ne'er forget,
And pray for them each night, you bet.
Good bye, my lover, good bye.

(Air, "Johnny, Fill Up the Bowl.")

Oh, here's a fond farewell to White,
Football! Football!
Oh, here's a fond farewell to White,
Football, says I,
Oh, here's a fond farewell to White,
Who worked for us both day and night,
And we'll all drink stone blind,
Johnny, fill up the bowl.

We like the man, we like his ways,
We like the man, we like his ways,
We like the man, we like his ways,
And gratefully we sing his praise.
Chorus.

Such pleasures cannot always last,
Such pleasures cannot always last,
Such pleasures cannot always last,
As we have had for ten days past.

And now the time has come to part,
And now the time has come to part,
And now the time has come to part,
It makes us sad and sore at heart.

And so we shake the parting hand,
And so we shake the parting hand,
And so we shake the parting hand,
But visit us in Yankee land.

A Trade Secret.

"Oh, Mr. Scannerton," she exclaimed effusively, "I have been waiting to see you! I wanted to tell you how much I appreciate that poem you had in the latest issue of The Cerebrum Magazine."

"You mean the one that begins:

"Through the turgid depths we plod and plow
And clamber on, we know not how,
To find the goals that promised rest
But weary starting points at best."

"Yes," she answered, with dreamy, downcast eyes. "I like that. And it gets better as you go on. It gets very much better. There were parts of it that I could hardly understand at all."

"Oh, you flatter me!"

"No, indeed. You ought to do more things like that. You ought to write in a more dignified measure and be profound, you know. I like that so much better than these little things that sound as if they were done offhand. Yet I know there must be a great temptation to do that kind of work."

"There is," was the answer. "I very narrowly escaped making this one sound so."

"Tell me how."

"I had to send the thing away in a hurry. I didn't have time to make it sound offhand."—Washington Star.

—The SPECTATOR is for sale—at one dollar a year—strictly in advance.

THE STEAMER'S CHIMNEY.

Some Details of Interest Regarding Its Construction and Use.

The stroller along the wharfs who should see rising from the smokestack of a big steamer a small and at the start perfectly defined column of smoke which seemed to come from a small smokepipe within the big one might wonder if the great smokestack was filled with smaller stacks, one for each boiler. As a matter of fact it is not so filled, but there is within it a smaller smoke pipe called the donkey stack, which is the chimney for the boiler of the donkey engine, which is used when the vessel is in port in hoisting cargo in and out. It is from this pipe that the small column of smoke is seen to issue.

The donkey stack is placed sometimes against the forward inner side of the big stack, sometimes against the after inner side. It may be a complete pipe, or it may be formed of iron in the shape of half a pipe, with flanges riveted to the main pipe.

If a single one of the large boilers were used, as it might be when the ship is in port, it might be connected with the donkey stack, but in their regular and common arrangement and use the uptakes of all these boilers run into the great chimney, whose whole interior is open, except for the braces running across it to strengthen and support it.

The chimneys of all large steamships, however, and of many other steam vessels as well are built double, with an inner and an outer shell, with a space between varying according to the size of the vessel. It may be from five to ten inches. The primary purpose of this chamber around the smokestack is to afford ventilation for the engine room and the stokehole. In at least one modern passenger ship ventilating pipes from the passenger quarters have been carried to these chambers. Incidentally the space between the shells helps to keep the stack sightly, for thus constructed the chimney is cooler on the outside than it would otherwise be, and so it holds paint the better.—New York Sun.

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD.

The success of THE RECORD rests upon its reliability.

It prints the news—all the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world.

Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

Sold by newsdealers everywhere and subscriptions received by all postmasters. Address THE CHICAGO RECORD, 181 Madison street, Chicago.

LOCAL NEWS.

Wheat 65 cents to day.

Farmers are busy putting up hay.

Cut the weeds around your premises.

Look over the Five cent counter at Hall's.

H. E. Ives went to the county seat Monday.

The rye fields are being harvested in these parts.

For a choice cigar go to the new Drug Store.

Brink Bros will build another business block.

E. M. Hoff was a Crookston business caller last Friday.

—Dr. Thomas, the Crookston dentist will be here August 22nd.

Try a lunch, a meal or a weeks board at the Ideal Lunch Room.

If you are in need of any medicine go to the new Drug Store.

Will Eikhoff commenced his barley harvest Monday August 1st.

T. H. Shevlin came up with a dozen labores from Minneapolis last Friday.

Wheat harvest will commence in about ten days or perhaps a litte earlier.

—Dr. W. A. Moore, dentist of St. Paul has permanently located in Red Lake Falls.

T. H. and E. C. Shevlin were here last week looking after their saw mill interests.

Seventy-five cents will buy a ladies shirt waist at E. M. Hoff's formerly sold for $1.50 to $1.75.

Charley Rapp's eye sight has been failing him of late and is now compelled to wear glasses.

Twenty-nine days from now and then you will have a license to shoot chickens and not before.

The wheat fields on the sand ridges are about ready for the harvester and the yield will be good.

Leonard Holmes has the well drillers at his residence and expects to have a flowing well this week.

James Strader left Monday for Crookston where he goes to take charge of Crookston Lumber Co., barn, as barn boss.

Mrs. Henry Peterson of Crookston is spending the week here visiting relatives while Henry is up at Red Lake Agency.

Charley Alexander, who has been making his home at St. Hilaire for the past two years left yestesday for Lewiston, Idaho.

The Greatwestern Clothing store is now receiving a large stock of fall and winter clothing.

The interior of Rapp & Post's hardware store has been repaiated and other improvements made.

Ben Rosenberg, who has been in the east for the past two week purchasing a stock of clothing returned home today.

J. H. Kildee, formerly of this place, but now a resident of Cavalier, N. D., was here yesterdey looking after his property interests.

A letter in the Crookston Times from Mr. Hilligoss who is in Alaska prospecting, says he struck it rich and will remain another year.

P. Lemay has purchased a quarter section of land a mile south of town and will build a residence and barn in the very near future.

The pot gang brigades are closing in on the Northwest. The potato patch and chicken roosts are visited frequently along the line of march.

Marcus Johnson, of St. Paul was here yesterday for a few hours and proceeded to Red Lake Falls where he goes to look after his milling intersts.

T. J. Thorkelson, of the Imperial Drug Store, left Saturday for Evansville where he will remain about three weeks visiting with his family.

Some chicken hunters went out from Thief River Falls last week and bagged a covy of young turkeys. The next day they were presented with a good sized bill which they settled promptly,

Tie Game at Ninth.

The ball game last Sunday between Red Lake Falls and the home team was by far the best exhibition ever seen on the St. Hilaire grounds. There was no quareling done and good clean ball was played by both teams. The game was very even standing 8 to 8 at the ninth innings. In the tenth Red Lake Falls won; Warnor having hurt his hand. Considering that our visitors played their Crookston battery our boys are to be congratulated on having done as well as they did. Manager Watson should also be congratulated for having a very gentlemenly lot of ball players.

The Odd Fellows have leased Brink's Hall for a period of three years and carpenters are at work putting in partitions and otherwise fixing it up for lodge purposes.

A large lot of ladies shirt walsts received this spring, which have been selling for $1.50 to $1.75 will now be sold for 75 cents. Take your choice of the lot at E. M. Hoff's.

Try a bottle of Cristle Cream for your complexion it positively and effectually removes freckles, ringworms, pimples, sunburn and all facial blemishes for sale at the new Drug Store.

Ben Strawbridge came up from Crookston Saturday and had a man along with him to introduce him to his many friends here—and all on account of losing the hair on his upper lip.

Martin Forder and sons left Tuesday for their farms which are located about thirty miles north-east of here. They will put up hay and make other improvements in the building line.

C. G. Rapp, M. E. Bjerk and Will Peterson of this place joined A. C. Schmidt, Dan McKinnon and Lloyd Erisson of Crookston yesterday and left for a week outing at Red Lake.

If your apetite is poor and you don't relish your food try a bottle of Macks Celery Nervins Co., it gives good apetite purifies the blood and gives refreshing sleep. For sale at the new Drug Store.

C. A. Brummond, lately station agent for the Great Northern at Red Lake Falls is at St. Paul consulting the head officials of that road. If a satisfactory answer is not made as to his removal, someone is liable to jump sideways, and pretty quick too.

The current number of Farm, Stock and Home Minneapolis, Minn., should be read by every farmer in the State. In fact, for a farmer to miss reading any number of that excellent journal is a misfortune which he can escape almost without money and without price by taking it in connection with the SPECTATOR.

Mike Tricker has purchased two lots near the Standard Oil Co., ware house, and has commenced the erection of a good sized building which will be used as a feed store. He says he will soon be in shape to grind all kinds of feed including graham flour, etc. Farmers should bear this in mind when wanting anything done in this line.

Railroad men on the eastern divisions of the railways report more tramps and pot gangs along the line of the railway this season than there has been for several years. The fact that a great many men have enlisted in the army doesn't seem to diminish the number of the tramps. They are not the class of men, as a rule, that would enlist in the army, for fear that they would have to do duty of some kind.

A gentleman from this city recently returned from the coast. While on his way home the ticket happened to blow out of the window and he was compelled by the conductor to buy another ticket. On reaching here he wrote to the Northern Pacific headquarters stating the case and by return mail got a check for full amount less the two cent revenue stamp. If it had been on the Great Northern road he would have had gone to lawing to recover the amount.

The man who sits down at a card table and wins a few dollars possessed by his opponent is a gambler. The fellow who, after grain has passed out of the hands of those who produced it, sends the price way up at the expense of the masses who are consumers, is called a shrewd speculator. The one who robs only an individual is subject to punishment, but the other, who robs the entire population, bringing misery and hunger upon thousands, is applauded by the multitude. We bless the greater wrong and damn the smaller.—Pikeville Reporter.

We have received the annual catalogue of Pillsbury Academy located at Owatonna, Minn. This institution is twenty years old and has a faculty of thirteen teachers. There are six large buildings, fitted with modern improvements. The principal's certificate admits to state university and many colleges. There are graduating courses in music and art. The catalogue shows an attendance of 269, and a class of 55 has just been graduated. The purpose of this school is to furnish the best education at the lowest cost. See advertisment in another column in this issue.

The United States land office at Crookston has received the advance sheets containing the description of the pine lands on the Indian reservations that are to be exposed for sale at public auction on August 16th. The lists cover an amount upwards to 61,000 acres, at an estimated value of more than $300,000. The bidding at this sale premises to be spirited, as the prominent pine men from all points in the Northwest are there in person or by representetives looking over the plats and noting the location of the heaviest bodies of timber. Stillwater, Chippewa Falls, LaCrosse, Rhinelander and Minneapolis are all represented, as well as many eastern points.

A New Confidence Game.

Some nice, well-dressed, good appearing canvassers dropped down on Mower county last week, says an exchange, and began canvassing among the farmers for the sale of binding twine. They sympathized with the farmers over the high price of twine and represented that they would sell it for six cents delivered at Austin and sugar at four cents per pound also delivered at Austin. As a condition for them to furnish the twine and sugar at those prices, they represented that their firm had a large bankrupt stock of gold watches which they had bought at a big sacrifice and were selling at $20. They had their watches with them as they could carry them in small compass and before the farmer's order for twine could be taken, he must take the watch, when their order for twine or sugar would be forwarded to Chicago and would be shipped in a car to Austin to be delivered at a certain date. About fifty farmers are reported to have gone into this scheme, and on the day appointed appeared in Austin with teams to take out their twine and sugar. But they found no twine or sugar, and they have not been able to find any since. The result is that the farmers have some imitation gold watches and no sugar or twine. In several instances farmers who had already given their orders for twine, cancelled them and roasted the local dealers for asking such exorbitant prices. Still the world moves and still such games will be played.

The 13th Minnesota Kicking too.

Jesse Yaw, a volunteer with the 13th Minn., on the Para enroute to Manila wrote to his sister in Grand Forks:

"Our grub is the only thing we can kick on now. It's a fright; our people have been imposed upon and they should look into it and see where the money they gave the boys is going to for we have not seen a cent of it. We have had nothing to eat but sour bread and coffee without sugar ever since we started. It does no good to kick. One of the sergeants came near being put in irons because the colonel heard him say we couldn't eat the bread."

—Dr. Thomas, the Crookston dentist will be at Hotel Markham (Monday) and Tuesday Aug. 22 and 23 well prepared to do anything in the dental line. Remember this and govern yourselves accordingly.

Transcription of Red Lake County Records is Full and Complete.

S. A. Swanson, register of deeds of Red Lake county, today made the last entry in the books of record which tell the story of the property which was separated from that known as Polk county and given the title of Red Lake county.

This task has been a long one, and has required a considerable force of copyists to accomplish. It was begun in February 1897, and has continued up to the present time without interruption, a force of from five to eleven copyists being employed the entire time.

The work includes a transcript of the records of deeds to all lands from the government patent to the latest transfer, the mortgage and miscellaneous records, all powers of attorneys and a vast amount of indexing.

The entire cost of the work up to date has been nearly $5,000. It has been well and thoroughly done, everything has been compared, and the record sheet of Red Lake county is equal to that of any in the state.—Crookston Times.

Things Worth Knowing.

A mile is 320 rods.
A mile is 1760 yards.
A mile is 5280 feet.
A rod is 16½ feet or 5½ yards.
A square rod is 272¼ feet.
An acre contains 160 square rods.
An acre contains 43,560 square feet.
An acre is about 208¾ feet square.
A pint of water weighs one pound.
A square foot is 144 square inches.
A square yard contains 9 square feet.
A solid foot contains 1728 solid inches
A gallon of water holds 231 solid inches.
An acre is 8 rods wide and 20 rods long.
A solid food of water weighs 62½ pounds.
A gallon of milk weighs 8 pounds 10 ounces.
An inch of rainfall is equal to 14,500,000 gallons per square mile.

Council Proceedings.

Regular meeting of council Monday August 1st 1898.

All members present except Hoff and Rapp.

Meeting called to order by Pres. Ives.

Minutes of previous meeting read and approved.

On motion the following bills were allowed.

Ed Whaley, work on street	15 75
Chas Hellberg " " "	13 00
Bert Young " " "	10 50
Geo Lipcomb " " "	15 00
Carl Johnson " " "	1 50
Christ Halt service as marshal	40 00
" sundries	5 50
Walter S Booth & son blank books	5 00
Dan Patterson team work as per bill	31 25
S Harris street work as per bill	51 00
Christ Himle lumber as per bill	45 24
St. Hilaire Spectator printing	3 60
N W Stamp works mdse as per bill	3 50
St Hilaire Lumber Co., lumber as per bill	35 06

On motion meeting adjourned.

Attest:— H. E. IVES, President.
J. L. JOHNSON, Recorder.

Orchids command $1,000 apiece.
Annual cigar output, 140,000,000.
Weyler was governor for four years.

Eddy and Free Homesteads.

Republicans in this congressional district referring to Congressman Eddy and the Free Homestead bill have so much to say in that gentleman's behalf in that regard that one might almost think that Mr. Eddy had, or might in the future, do something toward procuring free homesteads for the settlers on the reservation, but a glance at the fact is enough to convince any one that such is not the case, and that with a republican congress no free homestead bill will ever be passed. In the issue of the Polk County Journal of July 21st, referring to Eddy, the editor says:

"No new man could ever take up the Free Homestead bill, affecting Red Lake reservation lands, and accomplish what Mr. Eddy can in that matter."

Now, what has Mr. Eddy and the republican party accomplished in that matter? From 1862 down to the passage of the act for opening the reservation, passed by the republicans in 1889 and 1890, the republican party had been committed to the policy of free homesteads. It became evident in 1889 that a large amount of lands on the several Indian reservations must soon be thrown open to settlement, and the railroad companies and other land speculators were quick to see that if this should be done it would stop the sale of the railroad lands and other lands held by other speculators to those seeking homes. Then to deter settlers from going upon the reservation lands it was provided in the law that in addition to living upon the lands for five years the settler should pay $1.25 an acre for each acre in his homestead. This the republican politicians in congress, together with the railway lobbyists, figured would be sufficient to deter the settlers from going upon the reservation lands, and accordingly the republican party abandoned its homestead policy for the benefit of the railway companies and to the determent of the settlers. This was more than eight years ago, and the republican party shows no sign of returning to their former free homestead policy. In the Republican National Convention of 1896 that party placed in its platform as a glittering bait to catch suckers the following plank:

"We believe in an immediate return to the free homestead policy of the republican party and urge the passage by congress of the satisfactory homestead measure which has already passed the House and is now pending in the Senate."

On that platform Mr. McKinley and the republican congress, including Mr. Eddy, were elected. Now mark the result: When the free homestead bill came up to be voted upon every populist and every democrat in congress voted for the bill while nearly every republican, excepting those republicans in whose districts the lands in question were situated, voted against the measure and defeated it. If it had been a populist congress the bill would have received an unanimous vote. It is true Mr. Eddy voted for the bill and pretended to make a fight in favor of it; and it is equally true that Mr. Eddy could have secured the passage of the bill if he had refused to support the republican party on other measures until the free homestead bill was passed. The fact that he did not do this and the further fact that he, while in congress, has voted against the people and in favor of the corporations on nearly every other question that came up, shows that he was not sincere in his pretended support of the free homestean bill, but simply did it to make himself solid with the people of his district whom he knew were unanimous in their support of the bill. Mr. Eddy well knew that his support of the bill would amount to nothing, as it was doomed to defeat at the hands of the republican members of congress; and the chances are 100 to 0 that Mr. Eddy himself would have voted against the bill if he had resided in any other district than one directly affected by the measure. His record in congres shows that he voted with his republican colleagues against most all other good laws, and we have no reason to suppose that he favored the free homestead bill for any other reason than to secure a reelection.

Mr. Eddy made, or claimed he made, a speech in favor of the bill which he is now circulating through the district in which speech he gives a large amount of taffy to the homesteaders in geneal and to the Norweign homesteader in particular, referring to the fact that they are the decendants of Viking, and are great warriors. This speech shows on its face that it was written for home consumption and had but little to do with the merits of the bill in controversy. It was the republican party led by such politicians as Knute Nelson who secured the passage of this iniquitous homestead law now in force; and it is the height of impudence for another set of republican politicians to come along now and talk of undoing the bad work done by their republican predecessors, especially in view of the fact that the last republican congress went back on the republican platform of 1896 and defeated by a large majority the very law which that republican platform pledged them to enact. Mr. Eddy had better secure some new bait for his political hook in this campaign, as no fish, not even a bullhead or a sucker, will again bite at the same bait with which they were previously caught. Vote for Hon. P. M. Ringdahl who will honestly and ably support the free homestead bill.

A VOTER.

Teacher's Examinations.

Fall examinations for teachers will be held as follows, St. Hilaire, Friday and Saturday August 5th and 6th. Thief River Falls, Friday and Saturday August 19th and 20th. Red Lake Falls Friday Saturday September 23rd. and 24th.

FRANK JEFFERS,
County Supt.

Hood's Pills cure Liver Ills, easy to take, easy to operate

Most Pleasant Pictures.

Photographers, in their constant studies of the face, find that the left side make the more pleasant picture, and that the profile as seen from the left gives a more correct likeness than when viewed from the right.—New York World.

Important to Mothers.

The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trade mark. This counterfeiting is a crime not only against the proprietor of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents and mothers in particular, ought to carefully examine the Castoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Castoria bears the fac-simile signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years.

Largest Sun Dial.

The largest sun dial in the world is Hayon Horoo, a large promontory extending 3,000 feet above the Aegean Sea. As the sun swings round the shadow of this mountain, it touches, one by one, a circle of islands which act as hour marks.—New York World.

NO SCARE IN COLOMBIA.

Presence of Italian Squadron at Cartagena Causes No Worry.

Colon, Colombia, July 31.—The latest advices from Cartagena indicate that there is no scare whatever over the presence of the Italian squadron at that port. The outward relations between the Italians and Colombians continue to be exceedingly amicable, and a similar remark applies to the isthmus. In fact there is much apparent indifference and scepticism prevailing there and here in regard to the rumored intention of the Italian admiral to bombard Cartagena. The general opinion of those best able to judge is that the indemnity in the Cerruti case will be immediately forthcoming if peremptorily demanded. A sore point with the Colombian government all along has been President Cleveland's alleged adjudication of questions extraneous to those submitted for arbitration. The Italian third-class cruiser Calabria has finished coaling and is expected to leave here for Mexico.

Submarine Defenses.

Seattle, Wash., July 31. — Two carloads of submarine defense for the United States arrived here to-day.

How It Happened.

Jay Green—Are you the wild man?

Museum Freak—Yes.

Jay Green—H'm! Wal, what makes you wild?

Museum Freak—The fool questions that are being constantly asked me.—Puck.

The Oldest Volunteer.

A New York State doctor, aged 109, volunteered his services to the President recently as an army surgeon. At his advanced years he can read without glasses and walk ten miles a day. The oldest medicine is Hostetter's Stomach Bitters, which has no equal for indigestion, dyspepsia and constipation. One bottle does much good.

Glory.

"Of course it was patriotism that induced young Mr. Jiggins to accept a commission in the army," said one girl.

"No," said the other, "it was filial affection. He wanted to show the public what a great man his father is."—Detroit Free Press.

PATENTS.

McDonald, fire escape; George Wagner, St. Paul, Minn., truing device; John A. Olson, Minneapolis, Minn., acetylene gas generator; Andrew Paulson, Snake, Minn., grapple for lifting logs.

Merwin, Lothrop & Johnson, Patent Attorneys, 910 Pioneer Press Building, St. Paul.

Some men are worth more than others, and some are worth less.

A thing of comfort is seldom a joy to a woman of fashion.

Coe's Cough Balsam

Is the oldest and best. It will break up a cold quicker than any thing else. It is always reliable. Try it.

Many a poor man finds it harder to get drunk than to stay sober.

The earnings of the Chicago Great Western Railway for the third week of July were $85,019.96, an increase, as compared with the same week last year of $4,701.74. The total increase since the beginning of the fiscal year (July 1) is $11,552.28 as compared with the same period in 1897.

It is rumored that Spain will issue a new map of her possessions after the war—that is, if she has any possessions left.

WANTED—Case of bad health that R-I-P-A-N-S will not benefit. Send 5 cents to Ripans Chemical Co., New York, for 10 samples and 1,000 testimonials.

Woman was made from the rib of man, but as to the origin of ladies, history is painfully silent.

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Snake-charmers ought to make excellent bartenders.

COSMO BUTTERMILK TOILET SOAP makes the skin soft, white and healthy. Sold everywhere.

It is far easier to purchase old jokes in the comic paper than it is to sell them.

To Cure Constipation Forever.

Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

The only way some married people manage to avoid quarrelling is by refusing to make up.

Two bottles of Piso's Cure for Consumption cured me of a bad lung trouble.—Mrs. J. Nichols, Princeton, Ind., March 26, 1895.

There are times when the absence of crankiness shows the absence of sense.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets Candy Cathartic cleans your blood and keeps it clean by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly, bilious complexion by taking Cascarets—beauty for 10 cents. All druggists. Satisfaction guaranteed. 10c, 25c, 50c.

"How dared you surrender?" fiercely inquired the Spanish general's superior officer.

"It was purely an accident," was the humble answer. "Nothing was further from my intentions when they asked me if I would surrender, and, of course, I didn't think of telling them the truth. And I'm blest if they didn't take me at my word, and make themselves at home before I knew what had happened."—Washington Star.

Real Warm Weather Rest and Comfort.

There is a powder to be shaken into the shoes called Allen's Foot-Ease, invented by Allen S. Olmsted, Le Roy, N. Y., which druggists and shoe dealers say is the best thing they ever sold to cure swollen, burning, sore and tender or aching feet. Some dealers claim that it makes tight or new shoes feel easy. It certainly will cure corns and bunions and relieve instantly sweating, hot or smarting feet. Allen's Foot-Ease costs only a quarter, and the inventor will send a sample free to any address.

Kiss a Miss.

"To kiss," said he, "is rapturous bliss."
"To kiss," quoth she, "necessitates a
miss."
"To kiss a miss," protested he,
"Is an aggravation."
"To miss a kiss," responded she,
"Is poor navigation."

University of Notre Dame.

We call attention to the advertisement of the University of Notre Dame in this issue. This great institution of learning takes rank with the first in the country and in the world. It is beautifully situated at Notre Dame, Ind., a place famous in the early history of Christian explorations in the New World. The educational course is fully as complete as at Harvard, Yale or Princeton. A new 184-page catalogue just issued by the institution gives some very valuable information that should be read before arranging to sending your boys elsewhere. St. Edward's Hall for boys under 13 is complete in all its equipments and has many advantages. It is possible for a boy of 10 to enter Notre Dame and remain until he graduates in Divinity, Classics, Letters, Science, Law, Engineering, etc.

The gas meter has more feet than any other inanimate thing.

Don't Tobacco Spit and Smoke Your Life Away.

To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or $1. Cure guaranteed. Booklet and sample free. Address Sterling Remedy Co., Chicago or New York.

FITS Permanently Cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. Send for FREE $2.00 trial bottle and treatise. DR. R. H. KLINE, Ltd., 931 Arch St., Philadelphia, Pa.

An old bachelor declares that even the sweet girl graduate will ferment in time.

Consistency may be a jewel, but it is apt to have an alum flavor.

For a perfect complexion and a clear, healthy skin, use COSMO BUTTERMILK SOAP. Sold everywhere.

Kissing may be unhealthy, but every girl considers herself an immune.

CAUSE FOR ALARM.

How baldness begins.

How to prevent it.

Every person, male or female, shrinks from baldness. It adds to the appearance of age and is a serious discomfort. The cases are rare when the falling out of the hair may not be stopped, and a new and healthy growth of the hair promoted. The hair grows in the scalp like a plant in the soil. If a plant flourishes, it must have constant attention; it must be watered regularly and find its food in the soil where it is rooted. It's so with the hair. Neglect is usually the beginning of baldness. Dandruff is allowed to thicken on the scalp. The hair begins to loosen. The scalp loses its vitality. The hair, insufficiently nourished, begins to fade and to fall. The instant need in such a case is some practical preparation which, applying the needed nourishment to the scalp, will feed the hair, give it strength, and so produce a strong and healthy growth. All this is done by Dr. Ayer's Hair Vigor, the most practical and valuable preparation for the hair that can be obtained. It tones up the scalp, does away with dandruff, stops the hair from falling, restores the original color to gray or faded hair, and gives an abundant and glossy growth. Those who are threatened with approaching baldness will be interested in the following voluntary statement, made by Alderman S. J. Green, of Spencer, Iowa. He writes:

"About four months ago, my hair commenced falling out so rapidly that I became alarmed, and being recommended Dr. Ayer's Hair Vigor by a druggist, I resolved to try this preparation. I have been now using it for three months, and am much gratified to find that my hair has ceased falling out and also that hair which had been turning gray for the past five years has been restored to its original color, dark brown. It gives me much pleasure to recommend this dressing."—S. J. GREEN, Alderman, Spencer, Iowa.

Those who are interested in preserving and beautifying the hair will do well to send for Dr. Ayer's Curebook. A story of cures told by the cured. This book of 100 pages is sent free, on request, by the J. C. Ayer Co., Lowell, Mass.

FOUGHT THEIR WAY THROUGH

AMERICANS CAPTURE GUAYAMA AFTER A SHARP SKIRMISH.

Troops Under Gen. Haines Viciously Attacked by Spaniards, Who Are Compelled to Retreat by the Terrific Fire Poured Into Them by an Ohio Regiment—Three Americans Slightly Wounded and None Killed—After Taking Possession of the Town the Americans Were Forced to Repel an Attack by the Spanish Troops—This They Did With Marked Success.

Guayama, Porto Rico, Aug. 8.—After a sharp skirmish with 100 Spaniards, in which three Americans were wounded, the town of Guayama, the principal point on the southeastern coast of Porto Rico, was captured by Gen. Haines. Our men had to fight their way through Spanish bullets in order to get into the town, and they were forced to repel an attack made by the Spaniards soon after the town had fallen. This they did with marked success, and the Stars and Stripes now float over another American possession. All of the three Americans who were wounded in the skirmish are in the Fourth Ohio regiment. It is not known what casualties the enemy had. The Fourth Ohio, Col. Colt, and the Third Illinois, Col. Benitt, with two dynamite guns, all under command of Gen. Haines, composed the expedition that moved out on the Guayama road from Arroyo. Gen. Haines ordered his men to advance cautiously and their progress was slow. When the Americans had reached a point about three miles from Arroyo they were viciously attacked on both their right and left flanks. Col. Colt's Ohio troops, who were leading the advance, were splendidly handled and did telling work against the enemy. The Spaniards for a time managed to conceal themselves behind their barricades, but the Americans soon got at them and

Poured a Terrific Fire

in their direction. It was impossible for the Spaniards long to withstand this fire, and they soon retreated. As the American troops entered the town they found it practically deserted. All of the houses had been closed, and the Ohio regiment raised its colors over the town hall. A crowd of citizens soon gathered about the invading troops and welcomed them with enthusiasm. While this demonstration was under way the Spaniards returned, making a heavy attack on the town from the north. The Fourth Ohio was sent out to engage the enemy, and a hot fight between the two bodies of troops took place during the next two hours. The dynamite guns were finally put in position by the Americans and five shots were fired. These completely silenced the enemy, and our men are now holding the town securely. Gen. Haines has been very considerate in the treatment of his men and has matters well in hand. He says he does not need reinforcements at present in order to retain the advantage gained in the day's operations. The conduct of the Ohio men under fire was admirable. When the first attack came they displayed no evidence of nervousness. Being armed with Krag-Jorgensens, they considered themselves a match for the Spaniards. The dynamite battery did excellent service.

Madrid, Aug. 8.—An official dispatch from Porto Rico says the Americans seized the custom house in the village of Farjardo, which place was without a garrison. An American column, the dispatch also says, supported by artillery, advanced on Guayama. The Spaniards made a brave defense but were forced to withdraw to Alturas. Seventeen of the Spaniards were killed.

GENERAL ADVANCE.

American Troops in Porto Rico Are Moving Forward.

Ponce, Porto Rico, Aug. 8.—A general advance of the American forces began yesterday morning. The remainder of Gen. Ernst's brigade, constituting the advance center, supported by two batteries, moved out at 6 o'clock and a part of the eleventh infantry, of Gen. Henry's division, started to the left toward Adjuntas. Troop A, of New York, the Philadelphia city troop and Troop H, of the Sixth regulars are convoying Gen. Brooke's transportation column along the road through Salinas to Arroyo. Wire communication with Gen. Brooke on the right has not yet been established. Col. Rice, of Gen. Miles' staff, will probably be assigned to the command of the Sixth Massachusetts.

IN SECRET SESSION.

Congress of Colombia Is Discussing the Cerutti Claims.

Colon, Colombia, Aug. 8.—It is understood in local circles that congress is holding a secret session at Bogota, discussing the matter of the settlement of the Cerutti claims. The dissatisfaction over the eventual forced settlement of the claim and the consequent drain upon Colombia's resources is beginning to create much bitter feeling throughout the country.

Killed Five Horses.

Lamberton, Minn., Aug. 8. — Lightning struck the barn of Gunder Becker, killing five horses and burning the barn. A boy was sleeping within eight feet of where the bolt struck, but was not injured.

Queen's Condition Serious.

London, Aug. 8. — The Paris correspondent of the Sunday Times telegraphs that private advices from Copenhagen say that the condition of Queen Louise of Denmark is most serious.

IN BISMARCK'S HONOR.

Impressive Memorial Ceremony Held at Berlin.

Berlin, Aug. 8.—A Bismarck memorial service, organized by the Berlin Bismarck committee, was held in the Royal opera house. There was a ceremony that was impressive and worthy of the occasion. The walls of the balcony of the auditorium were draped with black. After the funeral march had been performed, curtains were drawn aside, disclosing a laurel surmounted bust of Prince Bismarck. In front of the pedestal was a golden wreath trimmed with mourning ribbons. Ernest von Wieldenstadt recited a poem "Our Bismarck," and the chorus of the opera sang "Wie Sie Sanft Ruhen." Privy Councillor Kahl, an old friend of the dead statesman, then delivered an oration in which he referred to Prince Bismarck as "the conscience of the German people, a heritage ever defended with our blood." At the conclusion of the oration the assembly arose and sang "Ich hab mich ergeben mit Herz und Hand" grabe." The services were concluded by the rendering of a funeral march by Wagner. The Stantsburger Zeitung says that after the funeral service in Berlin on Thursday last at which the emperor and empress and many diplomats were present, the emperor, in conversation with his ministers, expressed the wish that the "memory of the great chancellor shall remain fresh and undimmed with the German people, and his grave become a place of national pilgrimage for all time."

DISASTER OR NOT?

Hearsay Evidence on the Newfoundland Coast Mystery.

St. Johns, N. F., Aug. 8.—Inspector O'Reilly, of the revenue police, has arrived here from Tilt Cove. He stated that he examined the man Jenkins, who brought the news there respecting the reported loss of a fine steamship. Jenkins, who lives at Bryant's Cove, thirteen miles across Pengnin peninsula, says a schooner from Quirpon island, off the northern extremity of Newfoundland, at the entrance to the strait of Belleisle, arrived there and reported that on the previous night, while in the Straits of Belle isle, she saw the lights of a steamer and heard a terrible crash, followed quickly by a screaming as of victims of a marine disaster. Then there was absolute silence, as if all had sunk. Jenkins walked across the peninsula to convey the news, but had neglected to question the crew of the schooner closely to the details. He was sent back by the officer to make further inquiries, but the schooner had sailed again for the fishing grounds. The inspector says that majority of the people in that section believe that a disaster has occurred.

TERRIBLE TRAGEDY.

A Wife Murders Her Blind Husband and Then Cuts Her Own Throat.

New Brunswick, N. J., Aug. 8. — A murder and suicide, which occurred late Friday, was discovered in South River, a village six miles from here. Charles Yohansen, a blind man forty-three years old, and his wife, three years his junior, were both found dead. It is the opinion that the woman killed her husband and then committed suicide. They managed a little hotel on Main street. The two did not live happily together.

ENTIRELY DESTROYED.

Large Grape Basket Factory Goes Up in Smoke.

Painesville, Ohio, Aug. 8—The large plant of the Robinson Basket company, the largest grape basket factory in the United States, was entirely destroyed by fire. The fire started in the dry kiln and the fire department was unable to do anything toward extinguishing the flames owing to there being no water in the vicinity. The total loss is estimated at $100,000; insurance $55,000.

Awaiting Orders.

Playa del Este, Aug. 8.—The fleet is still here intact awaiting orders from Washington. The collier Lebanon, towing a coal schooner, has arrived. The schooner Admiral Sampson, with provisions for sale, also arrived. Both schooners are from Key West. The converted yacht Vixen was sent to Santiago to get the registered mail held there for the fleet.

Deserters Arrested.

Baltimore, Aug. 8.—Eleven members of the First Maryland regiment, United States volunteers, now in camp at Old Point, came to Baltimore on the Norfolk steamer and were arrested, charged with deserting from the army. The boys were locked up and will be returned to camp, where they will probably be court martialed.

Plenty of Coal.

Pittsburg, Aug. 8. — Forty-six towboats with tows aggregating nineteen coal boats, 349 barges and fifty-four flats started down the Ohio yesterday, carrying 5,000,000 bushels of coal for Louisville and Cincinnati. To-day's shipments will probably amount to over 3,000,000 bushels.

An Anarchistic Plot.

Madrid, Aug. 8.—El Poca states that the police are investigating an anarchist plot against the life of a high political personage which was to have been carried out upon the occasion of the anniversary of the assassination of Senor Canovas del Castillo.

A Strike Settled.

Syracuse, N. Y., Aug. 8.—The strike of the employes of the Syracuse Rapid Transit Railway company has been settled and the men have returned to work.

Only a Little Gold.

Seattle, Wash., Aug. 8.—The steamer Alliance has arrived here from St. Michaels with 120 passengers, 112 of whom are from Dawson City. Of these only about forty had gold. The amount is estimated at $300,000.

Plunged Into the Canal.

Utica, N. Y., Aug. 8.—Two cars on the Belt line trolley road went through Bradley's bridge near Whitesboro, and eighteen passengers were precipitated into the Erie canal. One was killed and several injured.

SPAIN ACCEPTS OUR TERMS

AT LAST THE CABINET COUNCIL REACHES AN AGREEMENT.

Conditions Which the United States Make an Essential Preliminary to Peace Are Accepted Without Reservation—Spain Suggests That in Order to Avoid Complicating Negotiations by the Incidents of War That a Suspension of Hostilities be Agreed to Beforehand—Queen Regent Approves of the Reply to America's Note—Sagasta Believes It Will Be Satisfactory to the United States.

Madrid, Aug. 8.—The cabinet council terminated after having completely affirmed the reply to the United States which it is said accepted American conditions. The reply was telegraphed to Senor Leon Castillo, the Spanish ambassador to France, so that M. Cambon, the French ambassador at Washington, will receive it to-day. The government is fully convinced that the note will be satisfactory to the Washington government and a suspension of hostilities will be its immediate consequence. From a well informed source it is learned that while the answer does not discuss the conditions which the United States make as an essential preliminary to peace, and which Spain accepts without reservation, it points out that in order to avoid the definite negotiations being in any way complicated by the incidents of war it is necessary to agree beforehand to a suspension of hostilities. It is said that Duke Almodevar de Rio, minister of foreign affairs, and Mgr. Merry del Val, the Spanish ambassador to the Vatican, will be selected to represent Spain in the negotiations. The newspapers make no comment on the situation owing to the strictest censorship.

Madrid, Aug. 8.—Senor Sagasta has just concluded a conference with the queen regent. Her majesty approves the general lines of the reply of Spain to America's peace terms, which Senor Sagasta explained to her. The government believes that the United States will accept Spain's answer, which will certainly reach the White House by Tuesday. As a consequence of the United States accepting the reply hostilities will immediately afterward be suspended.

Assembling the Cortes.

Paris, Aug. 8. — The Madrid correspondent of the Temps says: The cabinet council discussed the question of assembling the cortes, but no decision was reached as the ministers desire to ascertain if the United States considers the approval of parliament necessary to the ratification of the treaty of peace.

COULDN'T HEAR THEM.

McKinley Turns a Deaf Ear to Spain's Suggestion That Porto Rico Be Left to Them.

London, Aug. 8.—The Madrid correspondent of the Times says: "To-day all the best authorities agree that the government has decided to accept the American conditions. The American reply to Spain's request for explanations reached Madrid Friday evening. The text is not divulged, but it is known that it brought little consolation. President McKinley turned a deaf ear to the suggestion that Porto Rico might be left to Spain and compensation sought elsewhere. Regarding the Philippines the reply was not altogether satisfactory, but it was of such a nature that there was no longer any necessity for postponing a decision on the main question.

THE SPANISH NOTE.

Asserts That Spain Bows to the Force of Circumstances.

Madrid, Aug. 8. — According to the most reliable sources of information the Spanish note is couched in dignified language. It asserts that Spain bows to the force of circumstances, having done nothing to provoke the war into which she has been unwillingly led in the defense of her rights and territory. It expresses a willingness to appoint delegates to meet the American commissioners to discuss a regime for the Philippines. It is understood that both Senor Sagasta and the foreign minister told the queen regent that they felt deeply the painful duty circumstances imposed upon them.

WITH LEE'S MEN.

Some of His Troops Detached for Service in Porto Rico.

Jacksonville, Fla., Aug. 8. — Lieut. Col. Maxfield, of the regular army signal corps, is now here and has taken command of the signal men attached to the Seventh army corps. Orders have been issued detaching the First North Carolina, Second Texas and First Alabama regiments from the Seventh corps, and the regiments will hold themselves in readiness for departure for Porto Rico. The First Texas regiment arrived yesterday and went into camp in the eastern section of the city. The regiment is much pleased with its location, which is on the bank of the St. John's river in a shady grove, with good water running through the camp.

Col. Broadhead Dead.

St. Louis, Aug. 8. — Col. James O. Broadhead, minister to Switzerland under Cleveland, is dead as the result of a disease from which he has been wasting away for some time. He leaves a widow and three children.

Husband's Vengeance.

Red Lodge, Mont., Aug. 8.—Driven to desperation by the alleged infidelity of his wife, George W. Savage of this city shot and killed D. J. Nelson, the alleged despoiler of his home. Savage gave himself up.

DON'T FORCE RESISTANCE.

Sagasta Gives Orders Regarding Porto Rico.

New York, Aug. 7.—A special cable to the Herald from Madrid says: The government has given orders that the minister of war should not force resistance in Porto Rico to the utmost. This is at the instigation of Premier Sagasta, who deplores any unnecessary loss of life, knowing that Porto Rico will inevitably fall into the hands of the Americans. Capt. Gen. Macias has been instructed to obtain terms like those obtained by Gen. Toral, or better, so as to save Spanish honor as much as possible. One of the greatest preoccupations of the government is regarding the return of the garrisons in Cuba and Porto Rico. The calculations made so far show that it would have to contract with the Compania Transatlantica for 200,000 passages of different categories, which would cost about 50,000,000 pesetas. The graver problem is that here we have 100,000 men returning vanquished, and, therefore, in anything but a pleasant mood. With not less than 2,000 officers, they are considered to form a serious danger to social order. Speaking half-sarcastically, a well known military authority said it would be much cheaper for the United States to pay the army in Cuba to fight for them against the rebels than to send American soldiers there. An important personage of the Carlist party says the

Carlists Will Not Rise

until peace is declared, and if Spain loses her colonies the Carlists will rise. I am told by one who hears a good deal of the Carlist gossip that the followers of Don Carlos have plenty of money, which has been singularly lacking up to now. "Where have they got it from?" I asked. "From the Frailes of the Philippines." The Frailes are rich priests of the Philippines, who lived a life of luxury and license, but they have at their back an accumulated capital of forty millions, which they are now making practical use of to help the party which failing the one now in power, they think may come to their rescue. The above statement, which was made quite seriously, is scarcely creditable, but I have no means at hand of affirming or contradicting it. It is a fact, however, that the Carlists have found money, and the worst feature of the affair to those who wish well to Spain is that, well armed, equipped, financed and with promises such as they are pledged to, it will be little short of a miracle if trouble is avoided or, to speak plainly, if a Carlist rising is [illegible].

WHAT ALGER HAS TO SAY.

A Statement Regarding the Troops at Santiago.

Washington, Aug. 7.—In proof of the allegation that the war department had bestirred itself to succor the unfortunate army in Santiago before the united protest was made the following statement was given out by the secretary of war regarding the shipment of troops north from Santiago:

"Until quite recently it was supposed that yellow fever was epidemic in Santiago, and it was not believed that it would be safe to send ship loads north of men largely infected with yellow fever. The disease, it was believed, would rapidly spread on shipboard and result in the death and burial of many at sea. On the 28th ult. the secretary of war telegraphed to Gen. Shafter that as soon as the fever subsided the men of his command would be moved north to a camp that had been selected for them on Montauk Point. On the 30th of July Gen. Shafter telegraphed the secretary of war that he had informed the troops they would be moved north as soon as the fever had subsided, and it had a very good effect on them. When the true condition was made known an order was issued to Gen. Shafter to move his command as rapidly as possible, and all ships in the quartermaster's service possible to get there would be sent, including the Yale and Harvard. Over 150 surgeons and a number of immune nurses have been sent to Santiago in addition to the usual hospital corps that attends such a brigade. There were less deaths by yellow fever at Santiago than by typhoid fever in any camp of the same size in the United States.

Bustle at Santiago.

Santiago, Aug. 7.—From the moment Secretary Alger's cable message was received ordering the instant removal of the army north, everything has been bustle and activity at headquarters. The transports here, six in number, have been ordered to discharge their cargoes and to get ready without loss of time to take on board the first shipments. Other transports are expected here shortly, and it is expected that eighteen transports will soon be conveying the soldiers back to the United States. The Yale and Harvard, among others, are understood to be on their way here.

FOOD PRICES.

Gen. Wood Is Compelled to Fix Them Himself.

Santiago, Aug. 7. — Gen. Wood will fix the price at retail of provisions in the market. Complaints in every quarter of enormous charges for stuffs by retailers forced him to take the matter in hand, though he had hoped the large cargoes recently landed and the reduction in duties would soon bring values down to normal figures. Dealers still, however, force up the prices, causing additional misery and much complaint. Beef is retailed at 80 cents a pound, 400 per cent over the true value, and prices of other goods are in proportion. Gen. Wood will hold a conference with the merchants and fix prices, with a fair margin of profit, and promulgate an order.

Killed in a Mine.

Bozeman, Mont., Aug. 7. — A boy named Hugh Friel was killed in the Chestnut mines by a cave-in. He was a brother of Mrs. James Johnson, wife of one of the owners of the mine.

Wisconsin Soldier Dead.

Jacksonville, Aug. 7. — Private B. Hart, of Company G, First Wisconsin, died of typhoid fever after a short illness. The body will be sent to Oregon, Wis.

TROOPS ARE LEAVING CUBA

SICK SOLDIERS OVERJOYED AT PROSPECT OF COMING HOME.

Gen. Shafter Reports the Departure of Part of Two Regiments—Three Transports Will Leave To-Day and Three Tuesday—Roosevelt's Rough Riders Embark on the Miami for the Return Voyage—All the Men Looked Fit, but Worn Out—The Men Ready and Eager to Return for the Havana Campaign in the Fall—Five Sick Rough Riders Remain Behind.

Washington, Aug. 8.—The troops of Gen. Shafter's command at Santiago have begun to leave Cuba for the United States. A part of two regiments of cavalry are now en route from Santiago to Montauk Point, L. I., as indicated in the following dispatch received at the war department from Gen. Shafter:

"Gate City with 550 men, Third and Sixth cavalry, has sailed for Montauk Point this morning."

Three other transports bearing troops will leave Santiago to-day, and three are scheduled to leave to-morrow, all of which will sail for Montauk Point.

Santiago, Cuba, Aug. 8.—The First regular and the First volunteer cavalry, rough riders, sailed yesterday on the transports Miami and Mattewan. Of the rough riders, the following remain here sick:

Second Lieutenant Tiffany, Troop K; Corporal Edgar A. Schwartz, Troop G, and Privates William Hoyt, Troop E; P. G. Whale, Troop A, and D. Steadman, Troop D. They will probably leave in ten days in care of Dr. Gonzales.

Cummings' battery will sail on the Vigilance. The rough riders came to town by rail from their camp. At the station they fell into line, each company being preceded by a red and white banner bearing the number of the regiment and the company letter. Col. Roosevelt rode at the head of the regiment as it marched down the Alemeda, skirting the water front to the dock, where the Miami was moored. All the men looked fit, but worn out. They presented a picturesque appearance. Some wore new khaki uniforms, while others were attired in heavy blue flannel shirts, with their old equipment. All expressed regret at leaving their five comrades behind, but were wild with joy at the prospect of so soon returning home. They take no tents or baggage with them. The work of embarkation was very easy and was quickly performed. The men were ready and eager to return for the Havana campaign in the fall.

TROOPS FOR MILES.

Reinforcements Being Pushed Forward Regardless of Peace Negotiations.

Washington, Aug. 8. — Reinforcements for Gen. Miles are going forward regardless of the progress of peace negotiations. The agreement to negotiate a treaty of peace does not necessarily carry with it a cessation of hostilities. In the case of the Mexican war it was a month after peace negotiations opened before hostilities were declared to be closed. The present terms of Secretary Alger all contemplate that the reinforcements shall leave the United States, and especially as it is felt that the practical field of experience they will acquire in Porto Rico, under the favorable climatic conditions, they will make good material to use then and in Cuba in case of the government's reconstruction policies.

SHIPPING TORAL'S ARMY.

War Department Satisfied With the Progress Made.

Washington, Aug. 8. — The war department officials are entirely satisfied with the progress so far made toward the shipment to Spain of Gen. Toral's army surrendered at Santiago. The vessels which are to be used for this purpose are now on the way to Santiago, and, barring accidents, they are expected to arrive there about the 13th inst., when the troops will be embarked as rapidly as possible and proceed at once to Spain. It is recalled that most of the other competitors of the transportation contract required until Sept. 1 to accomplish the embarkation, which, under the present arrangement, it is expected will be completed by Aug. 15 or very soon thereafter.

UNCAS' GOOD WORK.

She Sinks One Spanish Sloop and Captures Another.

Key West, Aug. 8.—The tug Hudson, which has been with the Uncas on the north coast blockade, sank a little Spanish sloop a few nights ago and captured another one off Cardenas. The captured sloop was the Christina, and was loaded with fish, a quantity of which was served for breakfast by the Hudson's men, who had been out for a month and had little left in the way of provisions.

A Russian Back Down.

London, Aug. 8.—The correspondent of the Daily News at Odessa gives a report that the Russian charge d'affaires at Peking, M. Pavloff, will soon be removed, and he regards it as indicating a Russian back-down.

Indiana Regiment to the Front.

Washington, Aug. 8.—An order has been issued by Adjt. Gen. Corbin for the 161st Indiana infantry, now at Camp Mount, Indianapolis, to proceed at once to Jacksonville, Fla., for duty at the Seventh army corps.

Sioux City, Iowa, Aug. 8. — Hogs — $3.62@3.70. Cattle—Beeves, $4.50@4.90; cows, $2.85@3.65; heifers, $4@4.25; bulls, $2.75@3.25; stockers, $4.15@4.50; yearlings, $4.35; calves, $5.50.

First Bankruptcy Case.

St. Paul, Aug. 8.—Charles Wallblom is the first St. Paul man to file a petition in bankruptcy in the United States court. The schedules filed showed debts of $4,112.49, and the assets beyond what the law exempts. The petition was referred to Referee Michael Doran, Jr., who adjudged Wallblom to be bankrupt.

The Porte Won't Pay.

Constantinople, Aug. 8.—The porte on Friday replied to the American demand for compensation for losses sustained by American subjects during the Armenian massacres. The reply is the same as that given to other powers, repudiating all responsibility for the losses.

Precisely as It Should Be.

Ottawa, Ont., Aug. 8.—The dominion government has granted the request of a section of the Grand Army to visit Hamilton, Ont., to attend a celebration, carrying their arms. As soon as the request was made it was answered, the permission being granted with pleasure.

Fired on a Gunboat.

Key West, Aug. 8.—The converted yacht Oneida came from the blockade yesterday. She reported that a Spanish infantry company fired about fifty shots at her from a point on the beach several miles east of Morro castle. The gunboat did not return the fire.

Garment Makers in Session.

Cincinnati, Aug. 8—The Association of United Garment Makers of America will begin their fourth annual convention here to-morrow, which is expected to last a week. The executive committee has cut out the work for to-morrow.

Tired of Life's Struggles.

St. Paul, Aug. 8. — William Peglow hanged himself in his barn in the rear of his home at 162 Rondo street. His sister found him dead when she returned from a drive. He was despondent over illness and financial troubles.

Wife Murder and Suicide.

Davenport, Iowa, Aug. 8. — Henry Schultz of Valley City, Iowa, shot and killed his wife to-day and then killed himself. The wife had applied for a divorce on the ground of cruelty.

Russia in Possession.

London, Aug. 8. — The Shanghai correspondent of the Daily Mail says: Russia is now practically in possession of New Chwang and the "open door" in North China is already closed.

German Tourists Killed.

Vienna, Aug. 8.—Two German tourists, Herren Zoll and Durbeck, have been killed during an attempted ascent of the Dreisch Usterspitz, in the Dolomite Alps.

A Disastrous Fire.

Hamburg, Aug. 8.—A fire on Oswald quay Friday night, originating in spontaneous combustion amid cotton, destroyed over 1,000,000 marks' value of merchandise.

Big Lumber Firm Fails.

Cleveland, Ohio, Aug. 8.—A deed of assignment has been filed by the Purdy & McNeil company, lumber dealers. Assets placed at $55,000 and liabilities at $50,000.

Sicily Shaken Up.

Messina, Island of Sicily, Aug. 8. — There was a severe earthquake shock here. The inhabitants were panic-stricken, but there was no damage done.

Bonds for School House.

Winona, Minn., Special, Aug. 8.—The school board has voted to issue $17,000 worth of bonds for the new school house now building.

Damaged by Fire.

St. Louis, Aug. 8.—The plant of the St. Louis Dressed Beef and Provision company was damaged to the extent of $10,000 by fire.

Eugenie Seriously Ill.

Paris, Aug. 8.—Ex-Empress Eugenie is reported seriously ill.

WAR SUMMARY.

Monday, August 1.

Spain's answer is expected Tuesday.

Gen. Henry takes a few more towns in Puerto Rico.

Another division goes to Puerto Rico to reinforce Miles.

Gen. Wade has been ordered to take command of the next division for Puerto Rico.

No forward movement will be made by Gen. Miles until the bulk of the army is disembarked.

There will be no cessation of hostilities until Spain gives full assurance that our conditions will be accepted.

The town of Neuvitas, in the Province of Puerto Principe, is reported to have been bombarded by American warships.

The French ambassador is clothed with full power to negotiate peace and all that is now needed to close the war is Spain's ratification of what has been agreed upon by the president and M. Cambon.

Tuesday, August 2.

All eyes are now turned on Spain.

Spain's answer is expected to-day.

Gen. Merritt has completed his preparations for the attack on Manila.

A fleet of transports will sail for Manila Thursday. Gen King will command.

The town of Juan Diaz near Ponce, surrendered with great enthusiasm and greetings for American troops.

The president will call an extra session of both houses of congress as soon as Spain's answer is received.

Gen. Merritt reports the situation at Manila very unsatisfactory and dangerous owing to the attitude of the insurgents.

The volunteer army goes out of existence with the termination of the war, so provision must be made for an adequate army for garrison duty in our new possessions.

Wednesday, August 3.

The president will not assent to any essential modifications.

American warships take in a few more Puerto Rican towns.

Sagasta's ministry making a bluff to placate the Spanish people.

Spain's answer not yet received but it is believed it will come to-day.

It is believed that Gen. Miles will achieve almost a bloodless victory over Puerto Rico.

Garcia is believed to have had a hard fight with Spaniards in which he came out victorious.

From unofficial sources it is learned that the proposals of the United States have been accepted by Spain.

The attitude of the Philippine insurgents is causing great anxiety among Washington officials. No surprise would be felt at the receipt of news of an outbreak.

Thursday, August 4.

Manzanillo offers to surrender to Garcia.

Gen. Grant's brigade will sail for Porto Rico to-day.

Sick Spaniards are taken to Havana by an American ship.

Gen. Wade's division has been made up and will start for Porto Rico at once.

Spaniards at Madrid express disgust at the lack of loyalty of Porto Rican volunteers.

M. Cambon holds a conference at the White House with the president. Both parties maintain the strictest secrecy regarding the proceedings.

Friday, August 5.

Spanish papers are not allowed to mention peace negotiations.

Secretary Alger gives Col. Roosevelt a sharp rap on the knuckles.

This government will make no modification or changes in the terms submitted.

Gen. Brooke's troops are landing at Arroyo, Porto Rico, under cover of the guns of the St. Louis and Cincinnati.

In order to meet the criticisms of political opponents, the Spanish cabinet may submit a counter proposition.

The discovery that Spaniards have mined the military road leading to San Juan has caused Gen. Miles to change his plans.

Brigade and division commanders at Santiago unite in an appeal to Gen. Shafter to urge the immediate removal of the army to the United States.

Saturday, August 6.

Spain's answer has not yet been received.

Manzanillo is anxious to surrender to the Americans.

The embarking of Shafter's troops has already commenced.

Sagasta has given orders not to force resistance in Porto Rico.

The American note demands possession of Manila bay and Subig.

Gen. Miles is proceeding entirely without regard to peace negotiations.

Americans have taken peaceful possession of the eastern portion of Porto Rico.

Marines land at Cape San Juan and light lamps in the lighthouse there and at other places along the coast.

Sagasta given to understand that the time for argument, counter proposals and modifications has gone by.

St. Paul, Aug. 7.—Private Lord, of Company M, Fifteenth regiment, was put under arrest at the home of his mother in Minneapolis yesterday after he had escaped from the guardhouse, and within a few days he will be placed on trial on the charge of desertion.

Washington Letter.

From our Regular Correspondent.

When the war is over there is likely to be some plain talk from men who kept their mouths shut while the fighting was going on, because they did not wish to even seem to encourage the enemy to believe that the government was not loyally supported by all our people in its conduct of the war. Among the acts of the administration that are likely to be fully ventilated at the next session of Congress, whether it be an extra session or not, are the following, already plainly touched upon by Representative James Hamilton Lewis: Why did the government pay $362,000 for the collier Merrimac, in bad condition, that only cost $102,000. Why was Senator Hanna's brother paid $102,000 for a yacht that only cost $48,000? Why did the Navy Department offer Mr. Vanderbilt $250,000 for a yacht that only cost him $60,000? How did a wealty New Yorker get $100,000 for an old hulk that was raised out of the mud to be sold to the government? Why were certain contacts made for transportation of troops at a rate of $12 a man when responsible bidders had offered to do the work for $7.29 a man? These are specimens of hundreds of questions that will be asked, and answers demanded, when it can be done without injury to the country. Unless an unusual lot of lying has been indulged in, the administration is responsible for putting a lot of unearned money into the pockets of favored individuals. Democrats will probe these stories to the bottom and let the people know the truth from the floors of Congress.

As the official statement of the terms of peace offered to Spain, issued this week from the White House, has no mention whatever of the $500,000,000 in Spanish bonds which are charged against Cuba, it seems that the newspaper statements saying that as a part of the terms of peace Spain was notified that neither Cuba nor the U. S. should be responsible for any portion of these bonds, was erroneous. This is to be regretted, because it will leave this bond question where the holders of the bonds will seek an opportunity to force it upon the consideration of the peace commission, something that should not be allowed. These bond holders have been entirely too great a factor in determining the attitude of this government towards the Cuban question. Spain received the money paid for these bonds, and to Spain alone should their holders look for their redemption.

Interest in the war served the republicans numerous good turns this year not the least of which was preventing the attention of the public being centered upon the big deficit the government closed the fiscal year with. Although the government received from the sale of the Pacific Railroads $64,751,223, the expenditures for the year were $38,047,247 in excess of receipts, and leaving the railroad money out of the calculation the deficit was $98,249,103. A very clever statement prepared by Assistant Secretary Howell of the Treasury Department has been made public, in which an attempt is made to show that war expenditures were largely responsible for the big deficit. But even accepting Mr. Howells estimate: that $56,000,000 of the expenditures were made for war purposes, would leave a deficit of $42,249,103 for the year.

—The SPECTATOR is for sale—at one dollar a year—strictly in advance.

THE QUICK HORSE.

An Outgrowth of Improved American Methods of Fire Fighting.

In St. Nicholas there is an article on "The Quick Horse," by F. S. Dellenbaugh, devoted to the horses of the modern fire department. Mr. Dellenbaugh says: It is only within recent years that quick horses have been developed and appreciated and admired, and the poet has not yet attempted to sing the praises of this more prosaic but noble animal. Yet, after all, to one who carefully examines the matter the quick horse appears to have quite as good, if not a better, claim upon our admiration and sympathy and encouragement. The swift horse wins the race, and in these days he may cause considerable money to change hands, in which there is certainly nothing that is commendable. But the quick horse I write about saves life, saves property and under modern conditions of life is essential to our safety and general well being. He is the result indirectly of poor building—an outgrowth of our skillful American fire departments, which could not now exist without him.

Not so very many years ago when a fire broke out everybody far and near began to run and especially began to yell, and the volunteer firemen of that time, being in the service for the excitement of it, joined in the yell and started out the old hand engine from its solemn repose, while the foreman running ahead shouted innumerable orders hoarsely through his trumpet, to the great delight of hundreds of small boys panting to keep up in the glorious race.

The fire—that was altogether a secondary matter, and when they all finally got there they went to work with more or less efficiency. There was a great deal of fun in the business, but fires were not extinguished. Our cities in the early days were not built to prevent fires, but seemed, if anything, rather built to encourage them.

In France we may well be amused as we watch the pompier corps trundle its bathtub on wheels to the scene of the conflagration and deliberately fill its apartments with water dipped up from the gutter, whence it is thrown by a little pump upon the flames, because we know much of the architecture there is solid, and if the fire is not extinguished it will soon burn itself out. But in our country a mere spark may in a few seconds become a devouring furnace and destroy house after house and block after block. Many buildings are tinder boxes, and our dry climate adds to their inflammability, while the ever present careless or lazy workman by improper construction gives the fire its first opportunity.

UNCLE MOSE'S PRAYER.

He Prayed Eloquently, but Gestured a Little Too Forcibly.

Uncle Mose come down from the country to visit his son, who worked in the livery stable. Uncle Mose was a deacon in a little country church and was noted for his long, fervent prayers, but when his son Ike took him to the colored church in the city and when he heard the organ and gazed upon the well dressed darkies he felt as if the Lord was a long ways off. Uncle Mose had met the parson the day before, and what was his surprise when that person said during services, "We'll all join in pra'r wid Brother Mose Smith." Uncle Mose went down on his knees and threw his deep voice and soul in a prayer which shook the rafters. As he came to the close his old white head was shaking and his voice was bringing each saint and sinner to the shouting point;

"O Lawd, we knew dat we is weak in dy sight an hab been follerin aftar things which sabor ov de debil, but, O Lawd, we knew dat dow in dy richness of mercy gwine tuw swipe hit offen de big book an say, 'Yo' count is squah.' Haccome we hain' been doin' right ez darin de las' month, ner de las' week, ner de las' day, but, O Lawd, please swipe hit offen de big book—yeah, swipe hit off. When de pale hoss an de white rider cum ridin down from da valley ov de shadder ov death, de pale rider gwine swing his lef' laig onten de stirrup, cotch us by de shart, jerk us behin him an b'ar us 'way to de blazin sun, an when we put our feet upon de san's ov de sho' fotch de boat up close to de bank, an ez we gits in de seat den waf' us an raw us away to da glory lan. Amen."

"How did dat pra'r go, Ike?" said he as he went home.

"Pap, dar wern't but one 'jection, 'specially year gestures. When yeu talked 'bout de pale rider swingin his lef' laig onten de stirrup, you kicked Sister Brown right in de side."—Louisville Dispatch.

The Matter of Whiskers.

Jules Ferry's whiskers were often an index to his state of feeling. I saw him on the day he escaped from the commune of Paris to Versailles. He related his adventures at the Hotel des Reservoirs to friends who gathered round him. The whiskers, which habitually stood well out, like those (his enemies said) of a garcon de cafe, were limp and lay flat to the cheeks.

The most leonine whiskers I ever saw were Skobeleff's. They were of immense length when he drew them out, as was his wont, but when let alone seemed only half as long. I dare say they had their lank days, but not so far as I know. The term "whiskerando" (now well nigh obsolete) had more meaning than those who used it thought.—London Truth.

What to Say.

A member of the house went to Speaker Reed one day and said that he had been selected by his delegation to deliver a eulogy on a deceased member. "I did not know the member very well," remarked the congressman, "and so I thought I would ask you what I should say."

"Well," said Mr. Reed, with his inimitable drawl, "say anything except the truth."—Washington Post.

The Army and Navy.

Have coveted themselves with glory during the war. The Army and Navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of navy and army terms, translation of Spanish words, etc. Send ten cents to Chas. S. Fee, general passenger agent, N. P. R., St. Paul, Minn., for a copy.

FIGURES OF SPEECH.

While nunty was reading a story one night,
To good little Oliver's smiling delight,
She came upon something remarkably queer
That good little Oliver wondered to hear.

And this was the something she placidly read:
"Jane Ann then determined to enter the shed,
And, cautiously dropping her eyes on the floor,
They fell on the snake which had caught them before."

Interruption was rude, the dear child had been taught,
So he said not a word, but he thought, and he thought,
And the longer he pondered the stranger it grew—
The thing that Jane Ann was reported to do.

He felt of his eyes with mysterious doubt
And wondered how she could have taken hers out;
And how—this was really what puzzled him more—
They could fall on a thing which had caught them before.

—Mary E. Bradley in St. Nicholas.

A SHERMAN ROMANCE.

His Old California Sweetheart Loyal to the General.

When General William Tecumseh Sherman was a raw subaltern in the United States army, without fame or laurels and little apparent hope of winning either, relates the Chicago Chronicle, he wooed and won a beautiful Spanish girl then living in Monterey, Cal. Dona Maria Ygnacia Bonifacio fell beneath the ardent glances of the lank, ungainly youth just as the flag of the sister republic was lowered before the triumphant army led by Scott. Today she is still true to her early love and unaware of the fame and death of her lover.

California was then a part of the Mexican republic. Sherman, like many another, was forced to make war against the land of the Montezumas. In the closing year of the struggle, when California was occupied and became a part of the United States, Sherman was assigned to duty on the coast. Here he met the fair dona, lost his heart to her and won hers in return. She was a member of an old aristocratic Spanish family, and the subaltern was congratulated upon his luck. To emphasize his devotion, the young officer in 1855 planted a rose tree before the entrance to the home of his beloved.

Then come the inevitable misunderstanding which accompanies every romance. The lovers disagreed. Sherman left the army and went east to take up the law. He never afterward saw his sweetheart, nor did she ever permit his name to be mentioned in her hearing. She speaks Spanish only, never reads a newspaper, and while the nation has sung the praises of the hero of Atlanta the Spanish maiden knows nothing of him from the day he left her. She still, although long past her youth, waits for the return of the man whose image has never left her heart.

But in spite of the separation of the sweethearts that rose tree throve and waxed great. Now its branches have spread until they form a beautiful bower over the doorway of the old Spanish mansion. Here the dona, sole survivor of her race, sits and waits, silent and alone, for the return of him who cannot come. Under the bower of roses due to her lover's care she stood recently and permitted her portrait to be taken. She is still very beautiful in spite of the ravages of time and secret sorrow.

Apt Quotation.

There is sometimes more wit in the application to the business in hand of words already chosen for another purpose than in the invention of an appropriate phrase. Bishop Whipple, according to The Church News, loved to tell this story:

A devout colored preacher, whose heart was aglow with missionary zeal, gave notice to his congregation that in the evening an offertory would be taken for missions and asked for liberal gifts. A selfish, well to do man in his congregation said to him before the service:

"Yer gwine to kill dis church ef yer goes on saying give, give. No church can stan it. Yer gwine to kill it."

After the sermon the colored minister said to the people:

"Brother Janes told me I was gwine to kill dis here church ef I kep' a-askin yer to give, but, my brethren, churches doesn't die dat way. Ef anybody knows of a church dat died 'cause it's been givin too much to de Lord, I'll be very much obliged ef my brother will tell me whar dat church is, for I'se gwine to visit it, and I'll climb on de walls of dat church under de light of' de moon, and cry, 'Blessed am de dead dat die in de Lord.'"

Another Nuisance.

It was the first time he was being married, and he was naturally a little nervous and upset, but he managed to say "Yes" all right and to keep time to Mendelssohn, sailing down the aisle, and to sign his name in the register without making more than a dozen blots.

He thought then that it was finished, but when they got to the church door they found it was raining.

"Confound it!" he cried, putting up his umbrella. "Another nuisance now!"

And then, though he cannot guess why, the people around all laughed, and his mother-in-law bridled and his wife refused to speak.—Pick Me Up.

The Effect of Environment.

"One of the tallest men I ever knew was a Rhode Islander. He measured nearly 7 feet in height."

"Perhaps he had to grow that way. There was no room for him to spread out."—Chicago Tribune.

In the Baltic sea there is an island of Denmark called Bornholm which consists almost entirely of magnetite. It is much dreaded by navigators because it renders steering a ship by means of a needle impossible.

English people, it seems, eat more butter than any other people on the face of the earth. It is partly through this that the British complexion is the purest in the world.

He Got It.

"Mister," said Meandering Mike, "would you like to have all the money you wanted?"

"Of course I would," was the natural reply.

"Well, then, I kin approach you as man to man an tell you me own feelinks. It's a good deal to be able to depend on sympathy an co-operation in advance. All the money I wants for the present is 10 cents; which is somethin you could help me to without missin."—Washington Star.

A Woman's Way.

"Forty cents for a telegram, please," said the dentist's attendant. "There," said the dentist, as he opened and read the document, "that's from one of my patients, breaking an appointment, and she makes me pay for the telegram. Would any one but a woman do that? That goes on her bill."—New York Times.

It is not an uncommon thing, according to a traveler in Russia, to meet a herd of cows or oxen in certain parts of that country wearing blue glasses to counteract the effects caused by the reflection of the snow in winter time.

Australia is 26 times as large as the United Kingdom, 15 as large as France and almost equal to the United States.

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD.

The success of THE RECORD rests upon its reliability.

It prints the news—all the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world.

Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

Sold by newsdealers everywhere and subscriptions received by all postmasters. Address THE CHICAGO RECORD, 181 Madison street, Chicago.

Commissioners' Proceedings.

RED LAKE FALLS, MINN.,
July 11th, 1898.

Board of county commissioners of Red Lake County met in regular session this day.

Meeting called to order by Wm. C. L. Demann, chairman.

Present, commissioners Demann, Johnson, Anderson, Hansen and Gibeau.

The petition of P. D. [illegible] and others for the alteration of the boundaries between school districts Nos. 27 and 102 signed by a majority of the legal voters in each district with notice of hearing on same presented to the board.

On motion carried unanimously the following order was made:

ORDER ALTERING BOUNDARIES OF SCHOOL DISTRICTS

State of Minnesota,
County of Red Lake.

The petition of P. D. [illegible] and others who constitute a majority of the freeholders who are legal voters residing in each of the districts Nos. 27 and 102 in said county, asking that the boundaries of such districts be altered, having been presented to the board of county commissioners of said Red Lake County, and the county superintendent of schools having endorsed on such petition his written approval thereof, and the county commissioners having appointed a time and place for hearing upon said petition, and the notice thereof having been given as by law required, and it appearing that neither of said old districts will be left with less than thirty-five residents between the ages of five and twenty-one years of age.

Now, said petition having been publicly read at a meeting of said board of county commissioners held at Red Lake Falls on the 11th day of July, 1898, being the time and place specified in said notice, and it having been duly considered by said board, it is by said board ordered that the boundaries of school districts Nos. 27 and 102, within said county of Red Lake be and they are hereby altered as follows, to-wit:

That part of the northern boundary described as follows: Beginning at the northeast corner of section No. 19, T 152, R 42, running [illegible] on the section line between sections 18 and 19, [illegible] to the Red Lake river.

Said boundary to be changed to run as follows: Beginning at the northeast corner of section No. 19, T 152, R 41, running thence south to the [illegible] quarter line of sections 19 and 17, to the Red Lake river, thence following the river to the north section line of section No. 20 of said town.

Said new boundary to include in Dist. No. 27 the south ½ of section No. 19 and all of that part of the south ½ of section No. 17, lying west of the Red Lake river.

Also to change the southern boundary line of Dist. No. 102 as follows from its present location to correspond with the described northern boundary of Dist. No. 27, and to exclude from said Dist. No. 102, all the south one-half of sec. No. 19, T 152, R 41, also all that part of the south ½ of sec. No. 17 lying west of the Red Lake river.

Such alterations being as prayed for in said petition.

By order of the board of county commissioners of Red Lake County, Minnesota, at a meeting held July 11th, 1898.

WM. C. L. DEMANN,
Chairman board of County Commissioners.

Attest:
W. T. MULLARKY,
Auditor Red Lake County.

The petition of Lars [illegible] and others to alter the boundary lines between school Dist. No. 163 and 74 signed by a majority of the legal voters in each district, with notice of hearing on same presented to the board.

On motion by Johnson, seconded by Hansen the following order was made:

ORDER ALTERING BOUNDARIES OF SCHOOL DISTRICTS

State of Minnesota,
County of Red Lake.

The petition of Lars [illegible] and others who constitute a majority of the freeholders who are legal voters residing in each of the districts Nos. 163 and 74, in said county, asking that the boundaries of such districts be altered, having been presented to the board of county commissioners of said Red Lake County and the county superintendent of schools having endorsed on such petition his written approval thereof, and the county commissioners having appointed a time and place for a hearing upon said petition, and due notice thereof having been given as by law required, and it appearing that neither of said old districts will be left with less than thirty-five residents between five and twenty-one years of age.

Now, said petition having been publicly read at a meeting of said board of county commissioners held at Red Lake Falls on the 11th day of July, 1898, being the time and place specified in said notice, and it having been duly considered by said board, it is by said board ordered that the boundaries of school districts Nos. 163 and 74, within said county of Red Lake be and they are hereby altered as follows, to-wit:

All that part of the south boundary running between sections 9 and 16, T 153, R 41, and all that part of the west boundary running between sections 17 and 16, in said town and range, be changed as follows:

Beginning at that point where the said section line between sections 9 and 16 intersects the Red Lake river, thence south along the center of the channel of said river to a point where the section line between sections 16 and 21, T 153, R 41, intersects said river, thence along said section line between said sections 16 and 21, to the SW corner of section 15, T 153, R 41. And so as to include all that part of section 16, T 153, R 41 lying east of the Red Lake river within the boundaries of said school district No. 163, and that the boundary lines of school Dist. No. 74 be correspondingly changed so as to exclude all that part of sec. 16, T 153, R 41, lying east of the Red Lake river from within the boundaries of school Dist. No. 74, and thus make the Red Lake river the boundary line between said districts Nos. 163 and 74.

Such alterations being as prayed for in said petition.

By order of the board of county commissioners of Red Lake County, Minnesota, at a meeting held July 11th, 1898.

WM. C. L. DEMANN,
Chairman Board of County Commissioners.

Attest:
W. T. MULLARKY,
Auditor Red Lake County.

On motion duly carried a recess was taken until 9 o'clock a. m., July 12th.

July 12th, 9 o'clock a. m.

Board reconvened.

Full board present.

Meeting called to order by the chairman.

The petition of Anton Peterson and others for the formation of a new school district to be composed of sections 5, 6, 7, 8, 17, and 18, town of Wyandotte, approved by the Co. Superintendent with notice of hearing and affidavit of publication presented to the board.

After giving all parties interested a hearing, on motion carried unanimously the following order was made:

ORDER OF CO. COM. FOR FORMATION OF NEW SCHOOL DISTRICT—LAW OF '91.

In the matter of the formation of school district No. 6, Red Lake County.

Whereas the board of county commissioners of Red Lake County, state of Minnesota, was duly petitioned by a majority of the freeholders residing within the territory hereinafter described to form and erect the same into a new school district, and

Whereas, A hearing upon said petition was duly ordered by said board of county commissioners, and had upon due and proper notice;

Now, therefore, it appearing to said board of county commissioners that the prayer of said petitioners should be granted, it is hereby ordered and directed that the following named territory be and the same is hereby formed into a new school district numbered 6, to-wit:

All of sections 5, 6, 7, 8, 17, and 18, town of Wyandotte, Red Lake Co., Minn.

WM. C. L. DEMANN,
Chairman Board of County Commissioners,
Red Lake County, Minn.

Attest:
W. T. MULLARKY,
County Auditor and ex-officio clerk of board.

On motion duly carried a recess was taken until 1 o'clock p. m.

1 o'clock p. m.

Board reconvened.

Full board present.

Meeting called to order by the chairman.

Petition of J. F. [illegible] and others for the formation of a new school district composed of the following described territory, to-wit:

All of sections 1, 2, 3, 10, 11, 12, town 151 N. of range 41 W. and all of sections 34, 35, 36, 25, 26 and 27 lying south of the Clearwater river, town 152 N. R. 41 W., all in town of Equality, approved by the supt. of schools with notice of hearing and affidavit of publication presented to the board.

On motion by Hansen seconded by Gibeau and carried unanimously the following order was made:

ORDER OF CO. COM. FOR FORMATION OF NEW SCHOOL DISTRICT—LAW OF '91.

In the matter of the formation of school district No. 8, Red Lake County.

Whereas, the board of county commissioners of Red Lake County, state of Minnesota, was duly petitioned by a majority of the freeholders residing within the territory hereinafter described to form and erect the same into a new school district; and

Whereas, a hearing upon said petition was duly ordered by said board of county commissioners, and had upon due and proper notice;

Now, therefore, it appearing to said board of county commissioners that the prayer of said petitioners should be granted, it is hereby ordered and directed that the following named territory be, and the same is hereby formed into a new school district numbered 8, to-wit:

All of sections 1, 2, 3, 10, 11, 12, twp 151 N. range 41 W. and all of sections 34, 35, 36, 25, 26 and 27 lying south of the Clearwater river twp 152 N. range 41 W., all in the town of Equality, Red Lake County, Minn.

WM. C. L. DEMANN,
Chairman Board of County Commissioners,
Red Lake County, Minn.

Attest:
W. T. MULLARKY,
County Auditor and ex-officio clerk of board.

Petition of Ralph H. Green and others for the formation of a new school dist. to be composed of the following described territory, to-wit:

All of sections 4, 5, 6, 7, 8, 9, and N ½ of sections 16, 17, and 18, T 151, R 40 W, and also all of sections 31, 32 and 33 lying south of the Clearwater river T 152, R 40 W, all in the town of Equality approved by the supt. of schools with notice of hearing and affidavit of publication, presented to the board.

On motion by Gibeau seconded by Anderson and carried unanimously the following order was made:

ORDER OF CO. COM. FOR FORMATION OF NEW SCHOOL DISTRICT—LAW OF '91.

In the matter of the formation of school district No. 10, Red Lake County.

Whereas the board of county commissioners of Red Lake county, state of Minnesota, was duly petitioned by a majority of the freeholders residing within the territory hereinafter described to form and erect the same into a new school district; and

Whereas A hearing upon said petition was duly ordered by said board of county commissioners, and had upon due and proper notice;

Now, therefore, it appearing to said board of county commissioners that the prayer of said petitioners should be granted, it is hereby ordered and directed that the following named territory be, and the same is hereby formed into a new school district number 10, to-wit:

All of sections 4, 5, 6, 7, 8, 9, and the north ½ of sections 16, 17, and 18, twp 151 N. range 40 W. also all of sections 31, 32 and 33 lying south of the Clearwater river, twp 152 N. range 40 W. all in the town of Equality, Red Lake Co., Minn.

WM. C. L. DEMANN,
Chairman Board of County Commissioners,
Red Lake County, Minn.

Attest:
W. T. MULLARKY,
County Auditor, and ex-officio clerk of board.

The petition of Bernt A. Wold and others for the formation of a new school dist. in town of Equality, taken from the table and presented to the board.

On motion by Johnson seconded by Anderson the petition was rejected on the ground that it conflicted with school districts already organized.

The petition of Olaf Tande and others for the formation of a new school dist. to be composed of sections 1, 2, 3, 10, 11, 12, 13, 14, and 15 and the fractions lying south of the Clearwater river adjoining sections 1, 2, and 3, presented to the board.

On motion duly carried Nov. 14th, '98, was set as a day of hearing on said petition.

The following report from the board of audit was presented to the board:

Red Lake Falls, Minn.,
May 23rd, 1898.

To the Honorable Board of County Commissioners of Red Lake Co., Minn.

Gentlemen:

We, the board of audit of Red Lake County, report as follows:

That on the above named date we examined the accounts, books, and vouchers of the treasurer of Red Lake county and counted and ascertained the kind, description, and amount of funds in the treasury belonging to said county as follows:

Balance in treasury, May 21st, 1898	9613 50	
Cash received May 23rd, 1898	463 61	
Cash on hand, currency		46 00
" " " silver		26 70
" " " nickels		60
" " " coppers		06
Orders received in payment of taxes		13 18
P. O. money orders		12 18
Deposit in First State Bank of Red Lake Falls		8551 76
Deposit in First State Bank of Thief River Falls		425 42
	10076 31	10076 31

Respectfully submitted,
WM. C. L. DEMANN, Chm. } Board
JOSEPH PERRAULT, } of
W. T. MULLARKY, } Audit.

On motion by Hansen seconded by Anderson the report was adopted.

The following applications for correction of assessment and abatement of taxes were recommended as follows:

John W. Wallin 16-100 of an acre cut off of NE corner of se¼ sw¼, sec 34 town 151, R 41 year of 1897. Value as assessed $[illegible], as recommended $2.10.

Eli Lasha, SW¼ SE¼ sec 29, T 151, R 41, year of 1897. Valuation as assessed $72.50 as recommended $[illegible].

On motion by Gibeau seconded by Johnson and carried unanimously fractional township No. 152, R 41 was designated as road dist. No. 2.

On motion carried unanimously Anthony [illegible] was appointed road overseer of road dist. No. 2.

On motion duly carried a recess was taken until 9 o'clock a. m., July 14th.

9 o'clock a. m., July 14th.

Board reconvened.

Full board present.

Meeting called to order by the chairman.

The following resolutions were on motion unanimously adopted:

By Hansen, seconded by Johnson.

Resolved, that the following sums and taxes be levied as a basis for taxation for the year 1898 for the county of Red Lake, viz:

County Revenue Fund	[illegible]
Road and Bridge Fund	2 00
Poor Fund	3 00
Bond and Interest Fund	1 20
School Fund	one mill
Court House and Jail Fund	[illegible]

By Anderson, seconded by Hansen:

Whereas an error occurred in the computation of the Judge of Probate's salary for the year 1897 in consequence whereof the Judge of Probate received $70.00 less compensation than allowed by law, and

Whereas, the Attorney General has ruled that the salary of said Judge of Probate should have been $[illegible] instead of $[illegible] received by him.

Therefore, be it resolved that the County Auditor be authorized and directed to draw his warrant on the County Treasurer in favor of the Judge of Probate for the sum of $70.00 in full payment of deficiency as above set forth.

By Hansen, seconded by Gibeau:

Resolved that the County Auditor be instructed to draw his warrant in favor of L. V. Stevens for $[illegible] in payment of interest and exchange due July 1, '98 on county bonds.

On motion duly carried a recess was taken until 1 o'clock p. m.

1 o'clock p. m.

Board reconvened.

Full board present.

Meeting called to order by the chairman.

Commissioner Gibeau offered the following resolution and moved its adoption:

Be it resolved, that $500 be and is hereby transferred from the revenue fund to the incidental fund.

Which resolution was seconded by Anderson and on motion carried unanimously was adopted.

Commissioner Hansen offered the following resolution and moved its adoption:

Resolved, that the Co. Treas. be instructed to purchase out of the incidental fund the necessary postage stamps for the use of all county officers and also to pay all freight charges on books, blanks, etc., consigned to any county officer and keep a record of such postage and freight.

Which resolution was seconded by Gibeau and on motion carried unanimously was adopted.

On motion duly carried, the following bills were allowed:

Co. Auditor.

A Maccabee Gathering.

Among the attractions that will add to the street fair interest this year is the convention of Knights and Ladies of the Maccabees that is to be held here during that time. The object is to bring the order into greater prominence in this portion of the state, and a united effort to that end is to be made. The ladies are greatly interested and have begun to plan a float that will be the feature of one of the parades.

It is expected that the gathering will place at least 150 uniformed and mounted Knights in line in the parade. This will be a beautiful and attractive feature of the big amusement event and the management will welcome the proposition.—Crookston Times.

BEWARE

OF SETTING FOREST AND PRAIRIE FIRES.

Office of State Forest Commissioner,
ST. PAUL, MINN., March 26, 1898.

Under the act of the Legislature of Minnesota for the preservation of forests and for the prevention and suppression of forest and prairie fires, approved April 18, 1895.

The following are liable to a penalty not exceeding $100 or imprisonment not exceeding three months:

Any person refusing, without cause, to assist fire wardens, in extinguishing forest or prairie fires.

Any fire warden who neglects to perform his duties.

Any person who wilfully, negligently or carelessly sets on fire, or causes to be set on fire, any woods, prairies, or other combustible material, thereby causing injury to another.

Any person who shall kindle a fire, on or dangerously near to forest or prairie land and leave it unquenched, or who shall be a party thereto.

Any person who shall use other than incombustible firewads for firearms or carry a naked torch, firebrand or other exposed light in or dangerously near to forest land.

Any person who shall wilfully or heedlessly deface, destroy or remove this or any other warning placard posted under the requirements of the above mentioned act.

Any railroad company wilfully neglecting to provide efficient spark arresters on its engines, or to keep its right of way to the width of 100 feet cleared of combustible material; or which shall fail to comply with other provisions of section 12 of the above mentioned act.

The following are liable to a penalty of not less than $5 nor more than $50:

Any railroad employe who wilfully violates the provisions of section 12 of the above mentioned act.

Any owner of threshing or other portable steam engine who neglects to have efficient spark arresters, or who shall deposit live coals or hot ashes without extinguishing the same.

The following are liable to a penalty not exceeding $500 or imprisonment in the state prison not over ten years, or both:

Any person who maliciously sets or causes to be set on fire any woods, prairie, or other combustible material whereby the property of another is destroyed and life is sacrificed.

R. C. DUNN, (State Auditor),
Forest Commissioner.

C. C. ANDREWS,
Chief Fire Warden.

Soldier's Dictionary.

An army is three corps.

A corps is three divisions.

A division, three brigades.

A brigade, three regiments.

A regiment, three battalions.

A battalion, three companies.

A company, one hundred men.

The above figures represent averages and are subject to change.

Major Generals will command corps and divisions.

Brigadier generals, brigades.

Colonels, regiments.

Majors, battalions.

Captains, companies.

A lieutenant-colonel is a vice-colonel, that is, takes place of his superior when absent. The adjutant and quartermaster rank as lieutenants and are appointed by the colonel. The surgeon ranks as major, assistant surgeon as captain. Chaplain ranks as captain.

RED LAKE FALLS ITEMS.

(From The Gazette.)

Mrs. Louis Witt, nee Miss Louise Buse, will shortly arrive from West Superior on a visit here.

Frank Hunt's many friends will be pleased to know that he is getting along well, and able to be out again.

Miss Bradford, who had been in attendance at the training school, returned to her home at Erskine Sunday.

The gang will soon be put in place at the saw mill. Operations with an increased force will begin Monday.

Miss Carey, of Thief River Falls, returned home Monday, after two weeks' attendance at the training school.

Morning Star Lodge Daughters of Rebecca had a card party Tuesday night, participated in by members and friends.

Otto Ittner has, by faithful attention to duties, been promoted to G. N. section foreman, between Crookston and Ives.

Rev. Fr. Lawrence met with a painful accident Saturday, when his left thumb was badly lacerated by the capers of his horse. He was unable to celebrate mass in consequence.

Mr. and Mrs. Dan Latendresse, Mr. and Mrs. E. D. Bray, Mrs. M. Verbonner, and daughter Fannie, and Louis Paul formed a party which took in the sights at Maple Lake Saturday.

Mrs. Chas. Westler, Mrs. Jas. Meehan Jr., and Mrs. C. C. Jackson, came down from the upper Falls Friday to spend a few days with friends. Mrs. Westler, a former resident of this city, is now of Minneapolis.

John Lester's laundry sign was torn down Monday night by local toughs. Mr. Lester says they are known, and if they do not settle within a reasonable length of time, he will see that they are punished to the fullest extent of the law.

The republican county convention will be held in this city tomorrow. The Thief River Falls News (republican) is kicking because the convention was not called to meet at St. Hilaire, and makes a threat of moving the county seat. How does this suit Red Lake Falls republicans? Thief River Falls is decidedly against us.

J. E. Ford, who has been at work transcribing records for Red Lake county, completed his labors Saturday and came up Monday to bid his friends adieu before starting on his journey for French Mountain, near Lake George, N. Y., where his mother and other relatives reside. After a visit of several weeks at the old home Mr. Ford will return to this city.

Joseph Goulet, who was injured in an open gearing at the saw mill Saturday, is doing well under the skillful treatment of Dr. N. M. Watson. Goulet was caught in the gearing and several pounds of flesh torn from the thigh of his leg ground up. It is thought he will pull out without a stiff leg. He has been dealt handsomely with by the management who pay his doctor bill. A collection of $50 was taken up for him. He was off his beat some 15 feet when the accident occurred.

There was an enthusiastic gathering of populist county committeemen and candidates in this city Tuesday to start the active work of the campaign. Frank Jeffers was elected assistant secretary of the county committee. An executive committee, composed of the following members, was also appointed: L. A. Kaufer, chairman; Joseph Perrault, secretary; Henry Norlund, Van R. Brown, Frank Jeffers. A lively campaign will at once be inaugurated.

Mr. Anthony and the Misses La Prentere entertained a party of young people at their home Saturday night. Games and music made the time glide pleasantly. Those present were: Messrs. Brady, John and Mike McNerthney, Joe and Peter Poulin, Wilfred and Adelard Lavalleur, Allard, LaBissonière, Krueger, Knight, Freund, Paul, Kuke, and Lamont. Misses Brown, Connelly, Cary, Landy, Kuke, Venn, McNerthney, Marvina and Agnes Allard, Curran, McKearney, Beauman, Walden.

Edward J. Hodgson, of St. Paul, president of the Security Trust Company, was in the city several days last week, returning home Saturday. In company with Fred Gossweiler he looked over his extensive real estate holdings in this vicinity. He owns some ten farms hereabouts, and considerable city property. Mr. Hodgson was astonished at the progress made by our city since his visit several years ago, and enthusiastic over its future. To THE GAZETTE, he said: "You are going to have one of the best crops ever harvested. I have been all through the surrounding country. The way it is developing and settling up is very encouraging."

Prof. Parr, superintendent of the public schools of St. Cloud, was in the city Friday and Saturday, in his capacity as inspector of the teachers' training school and special instructor in child study. Friday evening he gave a public lecture in Hunt's hall on the standing of the English language as affecting the relations of England and the United States. Mr. Parr is a good reasoner and a learned man, and his lecture was well worth listening to. The attendance was large. His work before the Red Lake County teachers' training school embraced lectures on the following topics: Friday morning "How Children Learn to Spell, Pronounce and Use Words"; Friday afternoon, "How Learners Make Mistakes of Speech"; Saturday morning, "The Way to Better English"; afternoon, "The Relation of Correct Expression to True and Vigorous Thought." The training school will complete its third week tomorrow. The attendance is still large despite the hot weather, and those in charge of the institute are pushing it on to a very successful close.

Proceedings of the Board of County Commissioners.

Red Lake Falls Minn,
July 21st, 1898.

Board met pursuant to adjournment on July 13th.

Present—Commissioners Demann, Johnson, Hansen, Gibean and Anderson.

Meeting called to order by Wm. C. L. Demann chairman.

The committee on roads and bridges offered the following report:

Red Lake Falls, Minn.,
July 21st, 1898.

To the Honorable Board of County Commissioners of Red Lake County.

Gentlemen:

We the undersigned, being members of the road and bridge committee, that on the 13th day of July, 1898, we investigate and report to you the condition of the main bridge and the river banks at the saw mill in the village of St. Hilaire, beg leave to report to you as follows:

That on the 13th day of July, 1898, we examined said bridge and river banks and found the bridge in good condition.

Further, we found that the St. Hilaire Lumber Company are filling up the river on the west side with saw mill wood and saw dust and up to date they have filled up the river to a width of about 100 feet for a distance of about 250 feet below the saw mill, and thereby changing the original channel in the river towards the east end of the bridge below and thereby in our opinion endangering the piers of the bridge on the east end of said bridge as well as the approach to the bridge on same end. And we recommend that your board take such action as you think best to insure the safety of said bridge.

Swan Anderson
O. J. Johnson
Committee.

On motion by Hansen, seconded by Gibean and duly carried the report was adopted.

The petition of Leon Huot to be set off from school district No. 48 to school district No. 124, presented to the board.

On motion duly carried, Nov. 14th was set as a day of hearing on said petition.

Sheriff's list of uncollected personal property taxes for the year 1897, presented to the board.

On motion duly carried the following personal property taxes for the year of 1897, delinquent on the first day of March 1898, were canceled:

J H Kaiser, Polk Centre	51
Samuel McRoberts, Poplar River	1 14
Myron Davis, Emardville	2 14

Co. Auditor

Proceedings of The Board of Equalization

Wm. C. L. Demann, O. J. Johnson, Swan Anderson and Samuel Gibean, constituting a majority of the board of county commissioners of Red Lake county, met at the auditor's office, July 18th 1898, and in conjunction with the county auditor took and subscribed the statutory oath and entered upon their duties as a board of equalization.

Wm C. L. Demann was duly elected chairman.

On motion duly carried the following resolution was adopted:

Resolved, that as a basis of equalization the valuation of personal property be fixed as follows:

Horses, mules and asses, one year old	$8 00
Horses, mules and asses, two years old	15 00
Horses, mules and asses, three years old and over	25 00
Cattle one year old	4 00
" two years old	7 00
Cows	8 00
Working oxen	18 00
Sheep all ages	1 00

H. W. Lee appeared before the board in behalf of the Hamm Brewing Company and P. & J. Meehan of Thief River Falls, and complained that the property of the parties which he represented was assessed too high.

On motion duly carried meeting adjourned to meet at 9 o'clock a. m., July 19th.

July 19th, 9 o'clock a. m.

Board met pursuant to adjournment. Present, commissioners, Anderson, Gibean, Johnson, Demann and W. T. Mullarky, Co. Auditor.

L. C. Simons came before the board in behalf of the Red Lake Falls Milling Co. and complained that the personal property assessment of said company was too high and asked that the same be reduced.

On motion duly carried a recess was taken until 1 o'clock p. m.

1 o'clock p. m.

Board reconvened. Commissioner K. M. Hansen takes and subscribes the statutory oath and takes his place on the board. All members present. Meeting called to order by the chairman.

Other towns were not changed.

The board having examined, compared and equalized all returns of the assessment of the real and personal property of the county, on motion duly carried, meeting adjourned.

Wm. C. L. Demann,
Chairman Board of Equalization.

Attest:
W. T. Mullarky,
Co. Auditor.

RED LAKE FALLS ITEMS.

(From The Gazette.)

Mrs. P. McNeathney has been seriously ill this week, but is convalescing.

Born, to Mr. and Mrs. Dennis Cyr, on Sunday a little daughter. Mother and child doing well.

Mrs. Day F. Stacy made a flying trip to the Upper Falls on Friday, returning Saturday.

The Rev. Carl Selz, Lutheran minister of Wylie, held services at Huot's hall Sunday afternoon.

Jas. Brady will teach the Polk Centre school the coming term. Both Mr. Brady and the district ought to be well pleased.

Mrs. Frank McKinnon is in the city. She arrived Saturday on a visit to relatives and is at present a guest of her son, Frank Cyr.

Fred Schmitz has one of the best farms around here. He has recently added to the good appearance of things by painting his buildings.

Agnes, the seven year old daughter of Mr. and Mrs. Thos. Crouque, who has been ill two months, is much weaker and it is thought the end is near.

Wm. Henry Eustis, republican candidate for governor, was at Crookston Saturday. He wouldn't talk politics—says the campaign hasn't opened.

Mr. and Mrs. Day F. Stacy have gone to housekeeping on Champagne ave for the present but are not settled yet and will not be for some time.

Miss Jennie Schaefer, representing School Education, was a guest of Mrs. H. M. Kays this week. Miss Schaefer is a very charming and talented lady.

The Gazette has received a new stock of ladies' visiting cards. Price $1.00 a hundred, printed, 50c a hundred, blank. Printing done in exact imitation of stylish engraving.

M. Skala has painted all his buildings in the Skala block. He is putting a stone foundation under the corner building. The appearance of the property is greatly improved.

The Misses Newton and Zaiser have opened a dancing school. Dancing lessons will be given twice a week at Huot's hall. The young ladies have a class of eleven, and their efforts appear to be meeting with enthusiasm.

Tom Dargan left for Crookston Sunday to consult Dr. Dunlap. He has been troubled the past two months with a swelling in his throat, that seems to be steadily growing and is now the size of an egg. It is either a tumor or rupture of a blood vessel.

Mrs. Eliza Cote died at Grand Forks Monday after an illness of seven months. She leaves a husband and four children, the eldest six years, the youngest one month old. Mrs. Cote is a daughter of Damase Bray and a sister of Ed Bray. The gentlemen received the news Monday morning just in time to catch the train, and went over to attend the funeral. Mr. and Mrs. Cote were married in this city seven years ago.

A School Girl's Nerves.

From the "New Era," Greensburg, Ind.

Mothers who have young daughters of school age should watch their health more carefully than their studies. The proper development of their body is of the first importance. After the confinement of the school room, plenty of out-of-door exercise should be taken. It is better that their children never learn their a, b, c's, than that by learning them they lose their health.

But all this is self-evident. Everyone admits it—everyone knows it, but everyone does not know how to build them up when once they are broken down. The following method of one mother, if rightly applied, may save *your* daughter:

The young lady was Miss Lucy Barnes, the fifteen-year-old daughter of Mr. and Mrs. Stephen Barnes, who lives near Burney, Ind. She is a bright young lady, is fond of books, although her progress in this line has been considerably retarded by the considerable amount of sickness she has experienced. She has missed two years of school on account of her bad health, but now she will be able to pursue her studies, since her health has been restored.

Her father was talking of her case to a newspaper man one day recently. "My daughter has had a very serious time of it," said Mr. Barnes, "but now we are all happy to know that she is getting along all right and is stronger than ever." Asked to relate the story of his daughter, Mr. Barnes continued: "About three years ago, when she was twelve years old, she began to grow weak and nervous. It was, of course, a delicate age for her. She gradually grew weaker and her nerves were at such a tension that the least little noise would irritate her very much, and she was very miserable. There was a continual twitching in the arms and lower limbs, and we were afraid that she was going to develop St. Vitus' dance.

"She kept getting worse and finally we had to take her from her school and her studies. She was strong and healthy before, weighing eighty-five pounds and in ten months she had dwindled to sixty-three pounds. She was thin and pale, and was almost lifeless. We did everything we could for her, and tried all the doctors who we thought could do her any good, but without result.

"There was an old family friend near Milford who had a daughter afflicted the same way, and she was cured by Dr. Williams' Pink Pills for Pale People. They came here one day to spend Sunday, and they told us about their daughter's case. It was very much like Lucy's, and they advised us to try Dr. Williams' Pink Pills for her. We had no faith in them, but were finally persuaded to try the pills. We have never been sorry for it. They helped her at once, and by the time she had taken eight boxes of the medicine she was entirely cured. She took the last dose in April, and has not been affected since. She is now stronger than ever, weighs ten pounds more than ever before, and her cheeks are full of color. She can now gratify her ambition to study and become an educated woman."

Those who are in a position to know, state that Dr. Williams' Pink Pills for Pale People is not a patent medicine but a prescription used for many years by an eminent practitioner who produced the most wonderful results with them, curing all forms of weakness arising from a watery condition of the blood or shattered nerves, two fruitful causes of almost every ill to which flesh is heir. The pills are also a specific for the troubles peculiar to females, such as suppressions, all forms of weakness, chronic constipation, bearing down pains, etc., and in the case of men will give speedy relief and effect a permanent cure in all cases arising from mental worry, overwork, or excesses of whatever nature. They are entirely harmless and can be given to weak and sickly children with the greatest good and without the slightest danger. Dr. Williams' Pink Pills are sold by all dealers, or will be sent post paid on receipt of price, 50 cents a box or six boxes for $2.50 (they are never sold in bulk or by the 100), by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

THE
AMERICAN MONTHLY
REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the *Bookman* says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

"We know of no review published in this country or in Europe [illegible] —"

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; is "a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

13 ASTOR PLACE, NEW YORK

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD.

The success of THE RECORD rests upon its reliability.

It prints the news—all the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world.

Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

Sold by newsdealers everywhere and subscriptions received by all postmasters. Address THE CHICAGO RECORD, 181 Madison street, Chicago.

LOCAL NEWS.

Wheat 65 cents to day.

To-day is pay day at the mill.

M. Fricker is now grinding feed.

Look over the Five cent counter at Hall's.

Harvesting will begin in some localities this week.

Mrs. F. Bosworth left Monday for Minneapolis on a visit.

—Dr. Thomas, the Crookston dentist will be here August 22nd.

Try a lunch, a meal or a weeks board at the Ideal Lunch Room.

Candidates have already commenced to do a little missionery work.

Editor Eastman of Thief River Falls was a visitor here over Thursday.

Miss Buse of Red Lake Falls is visiting with her cousin Millie Stranahan.

C. G. Rapp is the republican committeeman for Eddy in Red Lake county.

Mrs. Wm, Loughridge of Warren is here visiting with her sister Mrs. Fred Case.

Marcus Johnson of St. Paul was a visitor in the village to-day between trains.

Mrs. Fred Eikhoff returned Monday from a short visit with relatives in Crookston.

Mr. Bay of Crookston came up to-day and will be an assistant in J. H. Penno's barber shop.

Base ball dance at Hotel Markham Saturday night August 13th. Everybody invited.

Rapp & Post have a fine new check book with the revenue stamps lithographed thereon.

Misses Annie and Lizzie Hall are spending a two week vacation with relatives at Argyle.

Supt. of Schools Frank Jeffers was here Friday and Saturday holding teachers examination.

Miss Katie Powers commenced teaching a term of school sixteen miles southeast of here Monday.

E. T. West, organizer of the St. Hilaire Lodge K. O. T. M. was here Monday enroute to Red Lake Falls.

Now would be the proper time to take the census of North Dakota—the population would nearly be doubled.

The dates for the Second Annual Street Fair at Crookston has been set, and they are September 28th 29th and 30th.

A. L. Arpin, a member of the St. Hilaire Lumber Company was here last week looking over the lumbering business.

About a dozen from here took advantage of the fine roads and drove to Red Lake Falls Sunday to spend the afternoon.

A. F. Blomburgh the Scandinavian doctor and A. P. Johnson the Sweede dentist will be at Hotel Markham Aug. 10th, 11th and 12th.

A full report of last commissioner proceedings and also proceedings of the board of equalization appear in supplement form this week.

We notice by looking over Eddy's congressional committee list that very nearly all are postmasters recently commissioned, and o. k-ed by Eddy himself.

The Greatwestern Clothing House has now on display a big stock of clothing. Look over the window display for you can get any suit shown for $5.99.

Messrs. Mattes and Stranahan accompanied by Misses Quandy and Bell drove to Maple Lake Sunday for a days outing. They left at 4:00 a. m., returning at 11:00 p. m.

F. C. Frazer agent for the National Sunlight Acetolene Gas Generator of Minneapolis has contracted with Landlord Markham to have a pland put into Hotel Markham.

C. G. Rapp, W. Petersen and M. E. Bjerk returned Saturday evening from a weeks hunting at Red Lake. They enjoyed the trip very much and say they will go again.

A dance will be given at Hotel Markham next Saturday evening under the auspices of the base ball club. Every body cordially invited. Tickets including supper $1.00.

A large lot of ladies shirt waists received this spring, which have been selling for $1.50 to $1.75 will now be sold for 75 cents. Take your choice of the lot at E. M. Hoff's.

Brink Bros. have rented their business block to Strewbridge Bros. who will occupy the same about November 1st. They will put in a large stock of general merchandise.

E. J. Holmes will build a 30,000 bushel elevator at Wylie in time to handle the coming crop. I. Dahleen, the contractor, and a half dozen men are now at work building the same.

The Ladies base ball nine of Thief River Falls will play the ladies nine here a week from next Sunday, August 20th. It is needless to say a large crowd will be present. Remember the date.

O. W. Brink went down to get the nomination for sheriff and came back a candidate for treasurer on the republican ticket. Political machinery don't work as well as the McCormick kind Ole?

A fine flowing well was struck at the residence of Leonard Holmes last Friday at a depth of 142 feet. Neighbors in that neighborhood have become regular customers and appreciate it very much.

Dr. Francis' new residence on Water street is fast nearing completion. The carpenters and painters are now putting on the finishing touches. It will be one of the handsomest residences in town.

Dakota is the best advertised state in the Union—especially this time of the year. They all say the going wages for harvest hands is $2.25 and consequently make for that state.—only, to find out its different.

The public can always bear in mind the fact that the merchant advertises his goods, because he wants your trade and will appreciate it. The man who don't advertise, don't care whether he sells goods or not.

Mr. Theo. Mattes of Brainard is here visiting with his son, Cashier Mattes of the St. Hilaire Lumber Co. This is Mr. Mattes first visit to St. Hilaire and he is greatly impressed with the town and surroundings.

Laboring men are scarce at Thief River Falls and the Meehans find it necessay to employ Indians to work their saw mill. In all cases the Indians prefer to work on the night shift for some unaccountable reason.

The most rabid republican sheets are resorting to their old time methods of calling opposition candidates horse thievs and like names. That way of running a newspaper perhaps was alright thirty or forty years ago.

Dr. Henault, the dentist will be here August 20th for the purpose of attending to anything that comes in his line. There is no need of any one going around with tooth ache as three dentists will be in St. Hilaire this month.

Two medicine fakirs are about in this country curing farmers of ailments of long standing and taking their notes for same. They know less about curing a patient than a Spaniard knows about fighting with Uncle Sam—you all know what that amounts to.

If you have not token out your second papers before this; don't try and vote at the Nov. 8th election—you will get into trouble. Your opportunity to take out your last papers and vote at the coming election slipped by since last Monday. Again we say: don't try to vote unless you are a full fledged citizen.

The current number of Farm, Stock and Home Minneapolis, Minn., should be read by every farmer in the State. In, fact, for a farmer to miss reading any number of that excellent journal is a misfortune which he can escape almost without money and without price by taking it in connection with the SPECTATOR.

By strict economy and a wise and conservative administration the populist party has reduced the per cent of taxation for county purposes from year to year and the county revenue tax is now several mills less on the dollar than it was under former republican rule. No one will dispute this as the records in the auditor's office show it to be a fact.—Crookston Times.

It is said that although Frank M. Eddy has served about four years as congressman from this district he not even succeeded in getting one passed in congress and still the present congress is republican by a large majority. Can it be said that this man Eddy is possessed of any statesmanship whatever? The people next November will most emphatically say "nit."—Moorhead News.

We don't really understand how a business man expects to do business in this town when he don't patronize home business men himself. He sends away to get his printing done when we have the very best of facilities for doing like work in the SPECTATOR office. His advertisement don't appear in this paper. We will have more to say about this later on and perhaps he will have to depend on customers from outside towns—simply a little dose of his own medicine.

The following are the names of candidates nominated for county offices at the republican county convention held at Red Lake Falls last Friday afternoon:

Treasurer—O. W. Brink.
Sheriff—Chas Sampson.
Judge of Probate—N. K. Anderson.
Supt. of Schools—Miss. L. Wallin.

The rest of the ticket, auditor, attorney and surveyor were left blank.

14th MINNESOTA REGIMENT.

Company L.

LYTLE, GA., Aug. 5th 1898.

FRIEND SOLL AND ALL.

Well it has been some time since I wrote last and I suppose you have given up all hopes of hearing from me again.

Well I don't know as there is much news here in camp only that we have given up all hopes of ever getting out of here unless it is to go back home. The chances are against us of ever going to the front although, we are fully equipped and I dare say that our regiment will stand a better showing than most of the regiments in camp. We are as well drilled as any and our deciplin is way above the average while we have the least number of sick on the sick report books. I understand that the 12th Minn. has about a quarter of its members on sick report.

Yesterday morning we went out on a practice march we were in heavy marching order, that is with shelter tents, poles and pins ponchos or rubber blankets, haversacks, canteens, guns, belt and bayonette which makes a good load on a hot day. We marched about 5 or 6 miles and only stopped once for a short rest, we came back to camp in good order not one having to fall out on account of the heat or load as was the case in the first month we were here.

Camp life goes on about the same, drilling and marching keeps up the same with once in a while a change of program. We were ordered Tuesday to pack everything up, tents taken down, packed and loaded on the wagons with the rest of the things we were allowed to have carried for us, then the teams were hitched on and they started off just a short ways and back again. After the tents came back the wagons unloaded and camp pitched again, that was just for to give us practice in striking and pitching camp. At first it looked as if we were to move but we were not that lucky to get a chance.

We are all well and are in the best of health.

Co. gan and myself sends best regar... to all of the boys.

I remain as ever your friend,
Corp. CHAS. E. LORD.

E. M. Hoff, H. E. Ives, C. Gillette and J. Morgan drove to Red Lake Falls last Sunday to witness the ball game between the home team and Fertile. When about to hitch the team up and return home one of the horses got away and Mr. Hoff jumped on the other one and proceeded to head it off from returning home. On reaching the Clearwater bridge Mr. Hoff was thrown off the horse receiving several cuts and bruises which rendered him unconcious for several minutes. He was taken back to town and doctor summoned who applied bandages and relieved the patient of awful suffering. They hired another horse and returned home about eleven o'clock.

CLOUGH ON LIND.

Upon being interviewed by a Minneapolis Times reporter Governor Clough paid the following tribute to John Lind who has just written his acceptance of the fusion nomination for governor:

"John Lind is a first class man, a very strong man before the people of Minnesota. Probably no man knows that better than Clough. He was a little too good a man to suit me two years ago. He made it very interesting for me. What be will do this year remains to be told. I can truthfully say, no man ever heard me say aught of John Lind. I think him a man of exceptional ability, a straightforward, honest man, and no man ever heard me say otherwise, even when he was my opponent. I could not say otherwise and tell the truth. He is a very dangerous man for his opponent, no matter what that man may be. I so consider him in the last gubernatorial campaign, and I so consider him this year. I have never changed my mind, since the canvass of two years ago. There is no question, but that the man, no matter who his opponent may be, will find him just as I say."

The governor was asked what he thought would be the leading issue of the campaign this year.

"I do not know," he said.

"What do you think, how will Mr. Lind's accepting the nomination effect the republican party; will it put that party upon its metile?"

"You bet it will. When they have met John Lind, they will know they have been in a fight. I don't care who the man is who is opposing, at the end of the campaign he will know that he has been in a fight.

"The people of Minnesota have great confidence in John Lind. It has been stated by many that his great popularity or strength, as it may be, was owing to my weakness. But the other fellow will have a chance to prove that.

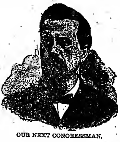
"Of course, I believe Mr. Lind, as I have said before, is a very strong man, and anyone thinking to the contrary, or acting contrary opinion, will show very poor judgment, or, else he don't know the man. Again, I say he is a very strong man before the people. He has been associated with them in various public capacities. He has represented them in congress; he is a good and able lawyer and there is no question about his honesty. I am talking today just as I talked two years ago. I tried hard to beat Lind when he ran against me, and I did beat him, but it was too close for comfort."

"Well governor, how would you like to be a candidate against this man, this year?"

"Thank God, I am not a candidate."

—If you are in need of a pair of glasses J. Q. Adams will fix you out on his next trip to St. Hilaire which will be August 11th 12th and 13th. If you have a watch or clock that needs repairing or cleaning leave it at Johnson's drug store and that will be attended to.

PETER M. RINGDAL.



OUR NEXT CONGRESSMAN.

The friends of Senator Ringdal and all lovers of good government and clean politics will be interested in the following from the Crookston Times:

Hon. P. M. Ringdal, the populist nominee for congress in the Seventh congressional district of Minnesota, at the convention held here recently, starts in the race under favorable auspices and we have no doubt will lead the reform forces of the Red River valley to victory in November.

The subject of our sketch and the gentleman The Times commends to the voters of the Seventh district for their suffrage is a native born citizen of our state, having been born on the farm in Goodhue county, Minnesota, in 1861, and is consequently 37 years of age. He has for the past ten years been a citizen of Crookston where he and his estimable wife have made for themselves a large circle of friends who are more than pleased over his unanimous nomination and who, regardless of party wish him success at the polls. Mr. Ringdal was educated in the common and village schools of his county and in St. Olaf's academy at Northfield. After leaving school he for ten years engaged in the business of a telegraph operator and railway office work and messenger for the American Express Co. Prior to coming to Crookston he was for a short time engaged in the mercantile business at Redwood Falls, Minnesota. Since coming to Crookston in 1888 he has been actively engaged in business, at one time in wholesale fruit business and for the past five years a member of the firm of J. O. Sundet & Co., dealers in marbel and granite monuments, with their principal office at Crookston, but doing a very large business in their line in northern Minnesota and North Dakota.

Senator Ringdal joined with the farmers in the great farmers alliance movement which swept the Red River valley in 1890 and has been a consistent worker in the populist ranks since the formation of that party. He was nominated by acclamation for the office of state treasurer at the populist convention in 1892, but went down with the rest of the ticket at the succeeding election. In 1894 he was nominated by acclamation for the office of state senator and was elected by an overwhelming majority. His record as a state senator is known to all. He soon became known to the state as the leader of the reform forces in the state and had the respect and confidence of his fellow senators regardless of party, because of his able and fearless championship of the cause of the common people against corporate aggression. That his course as state senator was approved by his constituents at home is attested by the fact that he was again renominated by the late populist legislative convention by acclamation. It is a significant fact that Mr. Ringdal has four times been nominated by acclamation by his party and each time without his request and without his working for one moment in his own behalf to secure a nomination. Mr Ringdal's friends alone are responsible for his present nomination as he insisted to the very last moment on being allowed to continue his work in the state, and desired that some other person be selected as congressional candidate, and only yielded to the universal demand of the reform forces of the state. The Times joins hands with the reform forces of this great district, and pledges Senator Ringdal its enthusiastic and hearty support.

—Dr. Thomas, the Crookston dentist will be at Hotel Markham (Monday) and Tuesday Aug. 22 and 23 well prepared to do anything in the dental-line. Remember this and govern yourselves accordingly.

Teacher's Examinations.

Fall examinations for teachers will be held as follows:

Thief River Falls, Friday and Saturday August 19th and 20th.

Red Lake Falls Friday Saturday September 23rd and 24th.

FRANK JEFFERS,
County Supt.

Good Country Roads.

"The great secret of success in road-making and road-keeping is to drain the roads, and keep the roads drained by keeping the ditches open," writes John Gilmer Speed on "How to have good county roads," in the August Ladies Home Journal. "The old method was to run a plow through the side ditches and throw the disturbed soil, sod and all, in the middle of the road. There it would stay till a heavy rain came to wash this soil back into the ditches and fill them up again. If there were money enough this kind of thing would be done over and over again as often as four times in a year. Where there were wet spots broken stone or gravel would be placed in the road and left for the passing wagons to wear this metal into ruts. The money spent was absolutely thrown away.

"By the new process all the road-mender needs to do is to provide ditches and outlets for them, and then so shape the road that the water falling in a rain storm will run off at once into the ditches. The water must not be suffered to run in the road, but off the road. The rainfall, being thus simply and effectively disposed of, becomes a most beneficial instead of a destructive agent; it cleans and shapes, and hardens the roadway, instead of washing it away and deepening the ruts. When there are wet places, such as springs, in the roadway gravel and broken stone will not cure such things. The water must be drained—off underneath the roadway and into the ditches by means of pipe or blind drains. The whole thing is so simple that anyone can easily master the principles and put the details into practical operation."

Methodist Episcopal Church.

Services next Sunday at 10 o'clock a. m. and 8 o'clock p. m., Sabbath School at 2 p. m. Junior League at 3 p. m.

SYRUP OF FIGS
NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

HOT SPANISH BLOOD.

IT BOILS AT THE SLIGHTEST PROVOCATION.

The Present Trouble Between Chili and Peru the Result of Differences Which Two American Farmers Would Hesitate to Quarrel About.

Chili and Argentine are almost at war over a disputed boundary of the line fence variety. The line between the two nations is the top ridge of the Cordilleras and relates to but small tracts of almost inaccessible mountain heights entirely valueless for any human purpose.

But as the people of the United States are interested, and as the war with Spain figures in the case, a review of the facts may be timely. The dispute as to the right of ownership in these Andean summits and precipices has been of long duration. At frequent intervals it has appeared to be almost irreconcilable. But from time to time negotiations have been patched up with prospects of a peaceful result.

What was supposed to be a final treaty of arbitration was concluded in 1896. President Cleveland was the arbitrator. It was agreed that if either country was dissatisfied with his award an appeal should be taken to "his aunt" the queen of England. As the trial of arbitration proceeded there were almost open ruptures, and neither nation is satisfied with the award. That part about the queen of the hated British was too much for the Castilians to stomach, and they can't be blamed very much. So neither side has become so exasperated as to appeal the case.

Yet each nation has consequently been constantly prepared for war. It was this state of affairs which prevented Chili from selling the fine armored cruiser O'Higgins to the United States before the outbreak of the war. Chili would not sell the O'Higgins unless Argentine would sell a vessel of equal power, leaving the relative naval strength of the two nations unchanged.

There is a large and powerful Spanish party in Argentine, under the influence of which the government of that country refused to sell any of its vessels to the United States. This broke off the trade with Chili for the O'Higgins. A subsequent rumor that the vessel was to be sold to Spain proved unfounded. It is to be hoped that the two South American republics will not go to war. If the Monroe doctrine is to be maintained it is essential that there should be peace between the nations which claim the shield of its protection.

Chili, which has been a gold country, recently suspended gold payments for thirty days, and the time is likely to be extended. This was for the purpose of preventing gold exports, which usually begin when there is a prospect of war. It is a measure of precaution and warning and may have some such an effect as demonstration of strength by sea or land when negotiations between powerful nations reach an acute stage. In such cases a powerful bluff often produces the best results.

DUDES AND "MOTHER'S BOYS."

If the unfortunate people who gloat over sensational romances can be wooed to read anything else—for instance, true tales of daring deeds—the events of the present war may tend to dispel certain of their illusions and supply them with some new ideals.

These students of ferocious fiction have always imagined heroes as rough in appearance and manner; careless, if not profane, in speech, and not at all strict as to habits. They have appeared to cherish the notion that bravery flourished best when unaccompanied by any other virtue.

It will surprise such persons to learn that, long ago, the hero of Manila was nicknamed by his intimates, "Dandy Dewey." Stranger yet—so, at least, they may think—the young lieutenant who took the Merrimac into Santiago harbor was always proud to be known as a "mother boy." Both of these officers are members of the church, and Hobson was an active worker in the Young Men's Christian Association.

These are facts that may make silly people wonder. But the people who have studied character as expressed in human lives are not surprised that men like Dewey and Hobson were first to gain renown. All experience teaches that, when hoodlums would bluster and run away, the man who rises to an emergency is the quiet, modest, God-fearing gentleman who respects his body and realizes that he has a soul.

Stronger Than Oak.

Foot bridges in Morocco that are used for heavy traffic have been the subject of much concern to the engineers. Elm planks on oak string pieces were the materials employed, but these wore out so rapidly that a return to the old style of building was proposed. This consisted of cables made from the fiber of the aloe. These cables are plaited and twisted from fiber and are nearly two inches thick, and eight and a half inches wide. They are saturated with tar and firmly nailed to oak planking. The ends are fastened by iron straps. These cables make most admirable foot paths. They are sufficiently elastic to be pleasant under the feet, and experience has demonstrated that they are far more durable than any material henceforth applied for this purpose.

Castigation.

"Don't you think this country ought to have extended the olive branch to Spain?" asked the man with queer ideas. "It did," was the prompt answer. "The difficulty was that the only way to make any impression was to strip the leaves off it and put it where it would hurt."—Washington Star.

His Experience.

Mrs. Younglove—"Do you think absence really makes the heart grow fonder, Harold?" Mr. Younglove—"I guess it does. At all events, you are about twice as dear to me when you're away at one of those high-priced summer hotels as when you're at home."—Chicago News.

In a Strait.

"Hit do happen," said Uncle Eben, "that a man's hahd puzzled whether to pay $2 tax on 'is watchdog or spend de money foh summin wut wuf-whiu'."—Washington Star.

Lost His Life Saving Others.

A country boy visiting New York stopped a runaway team that was about to dash on the sidewalk where there were hundreds of women and children. He saved their lives, but lost his own. Hundreds of lives are saved every year by Hostetter's Stomach Bitters. People with disordered stomach, liver and bowels are brought back to good health by it.

Some folks never expect to get what they expect.

Real Warm Weather Rest and Comfort.

There is a powder to be shaken into the shoes called Allen's Foot-Ease, invented by Allen S. Olmsted, Le Roy, N. Y., which druggists and shoe dealers say is the best thing they ever sold to cure swollen, burning, sore and tender or aching feet. Some dealers claim that it makes tight or new shoes feel easy. It certainly will cure corns and bunions and relieve instantly sweating, hot or smarting feet. Allen's Foot-Ease costs only a quarter, and the inventor will send a sample free to any address.

A business man needs to have a mind of his own.

Don't Tobacco Spit and Smoke Your Life Away. — To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or $1. Cure guaranteed. Booklet and sample free. Address Sterling Remedy Co., Chicago or New York.

There's nothing longer than the summer days to the girl who is to be married in the fall.

A bath with COSMO BUTTERMILK SOAP, exquisitely scented, is soothing and beneficial. Sold everywhere.

It always hurts a girl when one of her old beaux marries her best girl friend.

TO MRS. PINKHAM

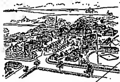
From Mrs. Walter E. Budd, of Patchogue, New York.

Mrs. Budd, in the following letter, tells a familiar story of weakness and suffering, and thanks Mrs. Pinkham for complete relief:

"Dear Mrs. Pinkham:—I think it is my duty to write to you and tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I feel like another woman. I had such dreadful headaches through my temples and on top of my head, that I nearly went crazy; was also troubled with chills, was very weak; my left side from my shoulders to my waist pained me terribly. I could not sleep for the pain. Plasters would help for a while, but as soon as taken off, the pain would be just as bad as ever. Doctors prescribed medicine, but it gave me no relief.

"Now, I feel so well and strong, have no more headaches, and no pain in side, and it is all owing to your Compound. I cannot praise it enough. It is a wonderful medicine. I recommend it to every woman I know."

EDUCATIONAL.



UNIVERSITY OF NOTRE DAME,
NOTRE DAME, INDIANA.

Classics, Letters, Science, Law, Civil, Mechanical and Electrical Engineering.
Thorough Preparatory and Commercial Courses. Ecclesiastical students at special rates.
Rooms Free. Junior or Senior Year Collegiate Courses. St. Edwards Hall, for boys under 13.
The 100th Term will open September 6th, 1898. Catalogue sent Free on application to Rev. A. Morrissey, C. S. C., President.

BEAUTIFUL HOMES.

The Tendency of the Age Is Toward Mural Decorations.

Probably at no time in the world's history has so much attention been paid to the interior decoration of homes as at present. No home, no matter how humble, is without its handiwork that helps to beautify the apartments and make the surroundings more cheerful. The taste of the American people has kept pace with the age and almost every day brings forth something new in the way of a picture, a draping, a piece of furniture or other form of mural decoration. One of the latest of these has been given to the world by the celebrated artist, Muville, in a series of four handsome porcelain game plaques. Not for years has anything as handsome in this line been seen. The subjects represented by these plaques are American Wild Ducks, American Pheasant, American Quail and English Snipe. They are handsome paintings and are especially designed for hanging on dining-room walls, though their richness and beauty entitles them to a place in the parlor of any home. These original plaques have been purchased at a cost of $50,000 by J. C. Hubinger Bros. Co., manufacturers of the celebrated Elastic Starch, and in order to enable their numerous customers to become possessors of these handsome works of art they have had them reproduced by a special process in all the rich colors and beauty of the original. They are finished on heavy cardboard, pressed and embossed in the shape of a plaque and trimmed with a heavy band of gold. They measure forty inches in circumference and contain no reading matter or advertisement whatever.

Until September 1st Messrs. J. C. Hubinger Bros. Co. propose to distribute these plaques free to their customers. Every purchaser of three ten-cent packages of Elastic Starch, flat-iron brand, manufactured by J. C. Hubinger Bros. Co., is entitled to receive one of these handsome plaques free from their grocer. Old and new customers alike are entitled to the benefits of this offer. These plaques will not be sent through the mail, the only way to obtain them being from your grocer. Every grocery store in the country has Elastic Starch for sale. It is the oldest and best laundry starch on the market, and is the most perfect cold process starch ever invented. It is the only starch made by men who thoroughly understand the laundry business, and the only starch that will not injure the finest fabric. It has been the standard for a quarter of a century, and as an evidence of how good it is twenty-two million packages were sold last year. Ask your dealer to show you the plaques and tell you about Elastic Starch. Accept no substitute. Bear in mind that this offer holds good a short time only, and should be taken advantage of without delay.

DAN, A WISE AND DUS DOG.

He Lives in Oklahoma, Works Hard, and Enjoys Himself.

Mrs. Emil V. Carter of Arlington, Okla., has a very intelligent dog. He is a St. Bernard and his name is Dan. She has reared him from puppyhood and trained him. He is now four years old and weighs 150 pounds.

Dan can do almost anything, and is fond of work. He goes to any store in town with a note and brings home anything sent after. He goes to the postoffice and gets the mail, and can carry a check to the bank and get the money, and nobody can take it away from him, either, until he arrives home. On occasions of this kind, his mistress always gives him 5 cents, which he takes to a grocery store and spends for crackers for himself to eat. He goes to the butcher shop only when he is sent. Whenever he is given a nickel to spend for himself he invariably buys crackers. He never forgets anybody he once makes friends with, and will walk up and offer his big black paw for a handshake a year after meeting you.

At one time there was a severe storm at Arlington. Houses were wrecked and articles of every description were scattered all over town. Dan worked hard for two days picking things up, hats, shoes, clothing—anything he could find. When he had finished, he had a pile of things in the yard as high as the fence. He always goes regularly to his meals, which, as Mrs. Carter says, is more than some men do. When he hears the dinner bell he starts for home.

Dan makes a mistake once in a while, but not very often. He sometimes picks up packages of goods in the store which had been wrapped up for other buyers and carries them to his own home. One time he took home a side of breakfast bacon; another time a lamp chimney, and once a nice patent leather shoe with a silk stocking in it. Mrs. Carter always makes him return such articles. The meanest thing Dan ever did was to carry some clothing home which a young man had purchased to wear to a picnic. He was to meet his sweetheart at the train, but Dan's mistake caused him to miss the train, girl, picnic and all.—Kansas City Star.

At Close Range.

Hattie—So you and Jack quarreled, did you?

Ella—He said something that I didn't like, and I told him we must be strangers henceforth.

Hattie—And did he fall on his knees and ask you to forgive him?

Ella—Not he. You see he—that is, his knees were occupied at the time.—Chicago News.

Baltimore and Ohio Engine No. 89, which has just been laid aside at Grafton, W. Va., and will be consigned to the scrap pile, has quite a history. It is one of the Ross Winans camel engines, and was built in 1851. There are only four of this class of engines now remaining. During the late war this engine was one of several captured at Martinsburg by the Confederates, and hauled across the country by pike to Staunton, Va., under direction of Col. Thomas R. Sharp. President John W. Garrett, after the war was over, hunted up Col. Sharp and appointed him Master of Transportation, in recognition of the ability displayed in that unparalleled achievement.

He Knows Them.

"Barb-wire entrenchments!" exclaimed the non-combatant to the Santiago veteran. "Phew! If you want to realize their full terrors, come with me some morning when I attempt a short cut across the fields from my country boarding house to catch the early train!"—Philadelphia North American.

His Real Meaning.

"When a man asserts that he is just as good as anybody else, do you really think he believes it?"

"Certainly not. He believes he is better."—Indianapolis Journal.

In the Schools.

Professor—So, then, by the term reptile, we mean a creature which does not stand on feet, but moves by crawling on the ground? Will one of you name for me such a reptile?

Freddy—Baby brother—Judy.

ACROSS THE CONTINENT.

How the Lasley Family Traveled in Their Own House.

Quite a curiosity in the shape of a house on wheels is making the rounds of Washington streets. It is owned by M. E. A. Lasley, of the most northwestern portion of the state of Washington, who, together with his wife, five children and three pets, came all the way from that state across the continent, to the Atlantic coast. The long journey was begun March 22, 1894, and Lasley expects, after making a tour of the New England states, to go across the ocean and see some of Europe's countries, incidentally taking in the great Paris exposition. In 1891 Lasley lost his home in Washington, and being an invalid, decided to strike out for California, but having no funds he was at a loss how to proceed. Finally he and his wife decided upon the plan of a house on wheels, and in it they made the trip to the land of sunshine. Lasley then decided to broaden the original plan, and try a trip across the continent, which scheme was immediately put into effect, with the result that Lasley has entirely recovered his health, is a strong, robust, healthy-looking specimen of American manhood, while his wife and children have all the appearances of the genuine happy family. The trip across the continent was made by way of Denver, starting from San Francisco; Paris, Tex.; St. Louis, Chicago, Cincinnati, Pittsburg, Buffalo and Albany to New York city. Their travels were confined to the summer periods, winter stays being made in Denver, St. Louis and New York. From New York the family made their way to this city by way of Philadelphia and Baltimore, and expect to retrace their steps by the same route. Lasley has, of course, had some rather interesting experiences during his long trip, especially in the mountain regions of the West and even in Pennsylvania, but there has never been ever the slightest accident to mar the pleasure of the journey. The house itself is the only house on wheels in existence, according to Lasley, there being none of the regular accessories to a wagon, such as a fifth wheel or couplings, to be found in its make-up. On the rear wheel there is a register that has been ticking continuously since the beginning of the trip, and which now shows a fraction over 7,000 miles. One remarkable feature of the trip is the fact that one of the pets, a dog, has walked the entire distance, it being claimed that he is the only canine that has walked across the continent. Twenty horses have been used since Lasley started, some of them dying from being worn out and others being traded for younger and better animals. The stay of the Lasley family of the house-on-wheels frame in Washington will be of short duration. While here they are taking in the sights of the capital city and, when they are exhausted, will begin the return trip to New York. From there, as stated, a trip through the New England states will be taken.—Washington Star.

Dramatic Criticism in Montana.

The beauty of the young women was somewhat on the order of that peculiar charm that idealizes the crookneck squash in the eyes of a judge of a county fair in the rural districts.—Helena Independent.

VANITY FAIR.

The well-known Camden house and estate at Chislehurst, which was the home for some years of Napoleon III., and after his death, of the Empress Eugenie, is to be saved from the hands of the builder. A syndicate of the residents has been formed and $165,000 raised to purchase the historic mansion and seventy acres of land. The property will be used for golf links and the mansion converted into a clubhouse.

Queen Victoria has used nothing but bays of late, and her magnificent animals seen in London, on the occasion of the last royal visit, were universally admired. Her majesty is, personally, no judge of horseflesh, but shows great taste in favoring bays, as they are this season a fashionable color. Her majesty's rare appearance in town is now distinguished by a great deal more ceremony than was the case a few years ago. The queen's carriage is drawn by four superb horses, driven by postilions and preceded by outriders. Except upon state or semi-state occasions the Princess of Wales has a great objection to more than two horses being used in her carriage, and dispenses whenever possible with both postilions and outriders.

"The consciousness of seeing her own charms reflected in a man's eyes is something which appeals to every woman," writes Edward W. Bok in the Ladies' Home Journal. "Nothing else ever makes her so proud and so happy in exactly the same way. But that consciousness is not always for expression. Sometimes it is a thing for one's inner self, to be enjoyed at the time and to be lived over in the years to come. No; women do not wilfully turn away from their own happiness. Some higher and fundamental duty sometimes calls, loftier motives sometimes quiet the deepest heart-longings, a God-given task sometimes points a woman in the opposite direction to her own instincts. Memories take the place of realities, and in those memories, sweet and tender, many women are living today. At one time in their lives the necessity of choice came to them. Prayerfully and tearfully, and yet resolutely, they made the choice. Today they are not wives simply because they are heroines."

OBVIOUS DEFINITIONS.

Foolish—A man who imagines he understands women.

Matrimony—The destroyer of many delightful engagements.

Idiots—Harmless persons who have impediments in their thoughts.

Conversationalist—A person who can talk without saying anything.

Impulse—Something that makes a girl want to try on another girl's new hat.

Expert—A man who convinces others that he is less ignorant than he really is.

Regret—A feeling frequently induced by the discovery that there is more than one way to do a thing.—Chicago News.

Dropsy treated free by Dr. H. H. Green's Sons, of Atlanta, Ga. The greatest dropsy specialists in the world. Read their advertisement in another column of this paper.

ST. HILAIRE SPECTATOR.

VOLUME XVIII. ST. HILAIRE, MINNESOTA, WEDNESDAY AUGUST 17, 1898. NUMBER 3

THE NEWS RESUME

DIGEST OF THE NEWS FROM ALL PARTS OF THE WORLD.

A Comprehensive Review of the Important Happenings of the Past Week Culled From the Telegraph Reports—The Notable Events at Home and Abroad That Have Attracted Attention.

People Talked About.

Nebraska Republicans have nominated M. L. Hayward for governor.

Republicans of the Fifth district of Virginia nominated Edmund Parr for congress.

Col. James G. Broadhead, former minister to Switzerland, died at St. Louis.

Pope Leo is ill as a result of an internal chill caused by a sudden fall in the temperature.

Robert Bead, a bookseller known to every public man and scholar who has lived in Washington, died there aged sixty-one years.

In the event of the appointment of Hon. George Curzon as viceroy of India, as appears certain, he will probably be raised to the peerage.

John H. Lane, storekeeper of the United States transport Minnewaska, dropped dead on his boat at Savannah, Ga., recently.

W. Ramsden, for over thirty-five years British consul at Santiago de Cuba, has just died at Kingston, Jam., in the fifty-eighth year of his age.

Casualties.

Fire at New Orleans damaged the stocks of several retail stores to the extent of $200,000.

A hundred lives are reported to have been lost in the recent violent storms and floods in Formosa.

John Miller, a wealthy farmer living near Independence, Iowa, was killed in a runaway recently.

Three men were killed and several mail clerks severely injured in a railroad wreck at Canton, Mass.

At Lineville, Iowa, John Elliston, his wife and two children were drowned while fording a stream.

Two trolley cars went through a bridge at Utica, N. Y., and seventeen people were percipitated into the Erie canal. One person was killed and several were injured.

An entire Alaskan prospecting party of seventeen persons are reported to have perished. The party was being piloted by a Moravian missionary and got caught in a terrific storm.

Sporting Notes.

Jimmy Michael defeated Fred Titus in a fifteen-mile bicycle race at Baltimore.

Harry Elkes defeated Tom Linton in a twenty-five-mile race at Philadelphia. The time was 42:42.

Jake Gaudaur has issued a challenge to row any oarsman in the world, previous to his retirement from professional rowing.

The Milwaukee police have a clue to the murder of the woman whose body was found on the breakwater with a weight attached.

Harry Goddard, brother of Joe Goddard, has gone into the fistic business. He is matched to box Fred Preston at Perth, Western Australia, this month.

Star Pointer equaled his own world's record when he paced a mile at Columbia in 1:59 1-4. The track was not very fast, and the time is considered all the more wonderful.

The New York Yacht club, at a special meeting, unanimously voted to accept the challenge of the Royal Ulster Yacht club to race for the America's cup.

Judge Wood, of the circuit court at St. Louis, appointed President B. S. Muckenfuss receiver of the St. Louis Browns, on application of the holders of first mortgage bonds.

Hamlin declares that a trotter will go a mile inside the two-minute mark in a very short time. He adds that The Abbott is more likely to turn the trick than any other trotter.

Foreign Notes.

Advices received from Seoul say Corea intends to adopt the gold standard.

Great Britain has adopted a firm attitude in the matter of railway concessions in China. The situation is now cleared unless Russia makes a counter move.

The British consul at Port Said, Egypt, in his annual report, gives details of the arrival and departure of the Spanish fleet, and notes Egypt's strict observance of neutrality.

Mr. Dukane—But the United States will be awarded damages.—Pittsburg Chronicle.

A CONGRESSMAN-AT-LARGE.

The Result Was That She Preferred Stay at Home.

"On one occasion," remarked the veteran statesman and oldest representative in congress, Galusha A. Grow, congressman-at-large from Pennsylvania, "during the campaign previous to my coming to the house the last time, I was riding along a road through one of the remoter valleys lying at the foot of the Blue Ridge mountains, when I came to a farm house, which looked as if it might afford a luscious drink of cool water from a fine well in the yard. A tidy-looking woman, not especially handsome or of superior intelligence, responded to my appeal, and, while I drank the cooling draught, she talked to me.

"'I presume there is no dearth of politics in your neighborhood at present?' I said, at a venture.

"'Yes; my husband and the boys ain't talkin' much else these days.'

"'Doesn't it interest you?'

"'No. I don't keer who gits elected, so long as we can git along and keep out of debt, with a little to lay by for the children.'

"'That's good enough politics for anybody, madam,' I said, with a bow which made her blush in embarrassment.

"'It's the only kind I know, good or bad,' she said, apologetically.

"'Do you ever have any of the candidates up this way?'

"'Not right here; but they come down to the store, half a mile across the valley.'

"'Do you ever see any of them?'

"'Not this year; but I have other years.'

"'Why not this year? Are you losing your interest in the great statesmen of Pennsylvania?'

"'No, not that,' and she hesitated awkwardly, 'but they say there's a congressman-at-large this year, and I thought it would be safer for me to stay pretty close around home till after 'lection and they took him in.'"—Washington Star.

Iowa Has a Namesake.

THE ROAR OF BATTLE CEASES

GRIM - VISAGED WAR HATH SMOOTHED HIS WRINKLED FRONT.

The Protocol Which Will Form the Basis of a Definite Treaty of Peace Signed by Secretary Day and M. Cambon—Simple and Impressive Ceremonies at the White House—The Struggle Which Has Lasted Three Months and Twenty-Two Days Quietly Terminated—President McKinley Thanks M. Cambon and Through Him the Republic of France for the Exercise of His Good Offices in Bring About Peace.

Washington, Aug. 14. — With simplicity in keeping with republican institutions the war which has raged between Spain and the United States for three months and twenty-two days was quietly terminated at 4:23 o'clock yesterday afternoon when Secretary Day, for the United States, and M. Cambon, for Spain, in the presence of President McKinley, signed a protocol which will form the basis of a definite treaty of peace. It is but simple justice to our sister republic of France to record the fact that to her good offices this speedy termination of a war that might have run on indefinitely was brought about, and the president himself deemed that action on the part of the French government as worthy of his specific praise. The closing chapter of events that led up to the signature of the protocol and the cessation of hostilities was full of interest. At 2:45 o'clock Secretary Thiebaut, of the French embassy, appeared at the state department

To Inform Secretary Day

that the ambassador was in full possession of the Spanish note; was fully empowered to sign the protocol for Spain, and only waited the pleasure of the state department. He intimated that the ambassador would be pleased to have the final ceremony conducted in the presence of President McKinley, where the negotiations were begun. Leaving the secretary of the embassy in his office, Secretary Day made a short visit to the White House to learn the president's wishes in the matter. The latter immediately consented to accept the suggestion, and M. Thiebaut hastened to inform his principal that the president would receive him at the White House at 4 o'clock. At the appointed hour a driving rain storm prevailed, obliging all the parties to resort to carriages for transportation to the White House. Secretary Day came first, with a large portfolio under his arm enclosing copies of the protocol, of the proclamation to be issued by the president

Stopping Hostilities

and some other necessary papers. He was accompanied by Assistant Secretary Moore, Second Assistant Adee and Third Assistant Cridler. They went immediately into the cabinet room where the president was waiting. He had invited to be present Assistant Secretaries Pruden and Cortelyou and Lieut. Col. Montgomery. When Ambassador Cambon and Secretary Thiebaut reached the White House it was just 3:55, five minutes in advance of the appointed hour. They went direct to the library, adjoining the cabinet room on the upper floor. At 4:05 they were announced to the waiting party in the cabinet room and were ushered into their presence. After an exchange of diplomatic courtesies unnecessary loss of time did not occur, and Assistant Secretary of State Cridler, on the part of the United States, and First Secretary Thiebaut, on the part of Spain, retired to a window where there was a

Critical Formal Examination

of the protocol. The examination was satisfactory, and the document was handed to M. Cambon first and then to Secretary Day, who affixed signatures in that order to each side of the two copies. Then the last detail in making the protocol binding was administered by Assistant Secretary Cridler, in charge of the chancery work, who attached the seal of the United States. It was 4:30 o'clock when the final signatures were attached to the protocol, and within the knowledge of all the officials present this was the first time that a protocol or treaty had been signed at the White House. As this ceremony concluded, Acting Secretary Allen, of the navy department, Secretary Alger, and Adjt. Gen. Corbin appeared, having been summoned to the White house by the president, and they were admitted into the cabinet room just in season to witness one of the

Most Impressive Features

of the ceremony, when the president requested the hand of the ambassador, and, through him, returned thanks to the sister republic of France for the exercise of her good offices in bringing about peace. He also thanked the ambassador personally for the important part he had played in this matter, and the latter replied in suitable terms. As a further mark of his disposition President McKinley called for the proclamation which he had caused to be drawn up suspending hostilities, and signed it in the presence of M. Cambon, who expressed his appreciation of the action. Without delay Acting Secretary Allen hastened to the telephone and directed the cable messages to be immediately sent to all of the naval commanders to cease hostilities immediately.

Vesuvius Is Spouting.

Messina, Sicily, Aug. 14.—An earthquake shock was felt here this afternoon and at various points on the islands and the southern part of the peninsula. No damage resulted from the disturbance.

COMMANDERS ARE NOTIFIED.

Suspension of Hostilities to Take Place at Once.

Washington, Aug. 14. — In accordance with the proclamation issued by the president suspending hostilities orders were issued to the naval commanders at the several stations in the United States, Cuba and the Philippines, carrying into effect the directions of the proclamation. The navy department not only transmitted the president's proclamation in full to the several commanders-in-chief, but also directions as to the disposition of their vessels. The following orders are, in that sense, self-explanatory:

Navy Department, Washington, Aug. 12, 1898. — Sampson, Santiago: Suspend all hostilities. Blockade of Cuba and Porto Rico is raised. Howell ordered to assemble vessels at Key West. Proceed with New York, Brooklyn, Indiana, Oregon, Iowa and Massachusetts to Tompkinsville. Place monitors in safe harbor in Porto Rico. Watson transfers his flag to Newark and will remain at Guantanamo. Assemble all cruisers in safe harbors. Order marines North in Resolute.

—Allen, Acting Secretary.

Navy Department, Washington, Aug. 12, 1898—Remey, Key West: In accordance with the president's proclamation telegraphed you, suspend immediately all hostilities. Commence relieving vessels of blockade. Ordered vessels in Cuban waters to assemble at Key West.

—Allen, Acting Secretary.

The notification to Admiral Dewey was not made public. Assistant Secretary Allen stated that besides being put in possession of the president's proclamation he was ordered to cease hostilities and raise the blockade of Manila.

In compliance with the orders sent Admiral Sampson and Commodore Remey will each send a vessel around the coast of Cuba to notify the blockading squadron that the blockade has been raised. Admiral Schley being on the Brooklyn, and included in the orders to that vessel, will come north with her.

BY THE WAR DEPARTMENT.

Orders Issued to Merritt, Miles and Shafter.

Washington, Aug. 14.—The orders to Gen. Merritt to suspend were as follows:

"Merritt, Manila: The president directs all military operations against the enemy be suspended. Peace negotiations are nearing completion, a protocol having been signed by representatives of the two countries. You will inform the commanders of the Spanish forces in the Philippines of these instructions. Further orders will follow. Acknowledge receipt. By order of the secretary of war.

—H. C. Corbin, Adjutant General.

The order sent to Gen. Miles and Gen. Shafter were identical with the above, save as to names.

THE PROCLAMATION.

President McKinley Orders Hostilities Suspended at Once.

Washington, Aug. 14.—The president has issued the following proclamation:

Whereas, By a protocol concluded and signed Aug. 12, 1898, by William R. Day, secretary of state of the United States, and his excellency, Jules Cambon, ambassador extraordinary and plenipotentiary of the Republic of France, at Washington, respectively representing for this purpose the government of the United States and the government of Spain, the United States and Spain have formally agreed upon the terms on which negotiations for the establishment of peace between the two countries shall be undertaken; and

Whereas, It is in said protocol agreed that upon its conclusion and signature hostilities between the two countries shall be suspended, and that notice to that effect shall be given as soon as possible by each government to the commanders of its military and naval forces;

Now, therefore, I, William McKinley, president of the United States, do, in accordance with the stipulations of the protocol, declare and proclaim on the part of the United States a suspension of hostilities, and do hereby command that orders be immediately given through the proper channels to the commanders of the military and naval forces of the United States to abstain from all acts inconsistent with this proclamation.

KIRKLAND DEAD.

The Rear Admiral Surrenders to the Grim Reaper.

Vallejo, Cal., Aug. 14—Rear Admiral Kirkland, U. S. N., died at 7 o'clock last evening. He expired peacefully, his wife and son being by the death chamber at the time. Dr. Ricketts, of the United States steamship Independence, and Dr. Walsh, navy yard surgeon, were also present. Father Reginald, of St. Vincent's church, was with the admiral three hours before he breathed his last. The admiral had rallied from the effects of an operation for acute obstruction of the bowels, which was performed on Tuesday by Dr. W. E. Taylor of San Francisco, assisted by several other surgeons, and Thursday night it was stated that he had a fighting chance for life. Friday morning he seemed somewhat better and during the day his family and friends were hopeful that his life might be spared. About 5 o'clock p. m., however, he began to sink, and as the darkness came on grew gradually worse until two hours later he ceased to breathe, dying without evidence of pain.

TOWN ALMOST WIPED OUT.

Entire Business Portion of Wheatland, Cal., Destroyed by Fire.

Wheatland, Cal., Aug. 14.—The entire business portion of this town was destroyed by fire. Only one small grocery store is left standing, and there are 5,000 people, including transient hoppickers, to feed. The floating population became riotous and began plundering the town. A large force of deputy sheriffs were sworn in from among the citizens to protect the property.

SUMMARY OF THE PROTOCOL

OFFICIAL STATEMENT GIVEN OUT BY SECRETARY DAY.

Spain Relinquishes Sovereignty Over Cuba and Cedes Porto Rico and Other Spanish Islands in the West Indies to the United States—Disposition of the Philippines Left to the Peace Commission—Commissioners Are to Meet in Paris Not Later Than October 1—Immediate Evacuation of Cuba, Porto Rico and Other Spanish Islands Arranged For.

Washington, Aug. 14.—The following is the official statement of the protocol's contents as prepared and given to the press by Secretary of State Day:

First—That Spain will relinquish all claim of sovereignty over and title to Cuba.

Second—That Porto Rico and other Spanish islands in the West Indies and an island in the Ladrones, to be selected by the United States, shall be ceded to the latter.

Third—That the United States will occupy and hold the city, bay and harbor of Manila, pending the conclusion of a treaty of peace, which shall determine the control, disposition and government of the Philippines.

Fourth—That Cuba, Porto Rico and other Spanish islands in the West Indies shall all be immediately evacuated, and that commissioners, to be appointed within ten days, shall, within thirty days from the signing of the protocol, meet at Havana and San Juan, respectively, to arrange and execute the details of the evacuation.

Fifth—That the United States and Spain will each appoint not more than five commissioners to negotiate and conclude a treaty of peace. The commissioners are to meet at Paris not later than Oct 1.

Sixth—On the signing of the protocol hostilities will be suspended, and notice to that effect will be given as soon as possible by each government to the commanders of its military and naval forces.

FAVORS SCOFIELD.

Indications Are That He will Have a Majority in the Convention.

Milwaukee, Wis., Aug. 14.—The returns from the Republican caucuses to-night for the selection of delegates to the state convention indicate that Gov. Scofield has carried Milwaukee county, securing at least 80 of the 144 delegates against his opponent, Robert M. La Follette. The throughout the state, with several counties yet to hear from, go to show that Gov. Scofield will enter the convention with a safe majority. In the Fourth and Fifth congressional districts the delegates selected were favorable to the re-nomination of Congressmen Otjen and Parney, the present incumbents.

Two Were Drowned.

Algona, Ind., Aug. 14—While a party of six young folks was returning from boating in Crooked lake the boat capsized and Leonord Roby, son of Judges Roby of Auburn, and Lena Rempis of Waterloo were drowned in seventy feet of water.

Visit by Capt. Clark.

Cheyenne, Wyo., Aug. 14.—Capt. Clark, of the battleship Oregon, is expected in Wyoming for a two-weeks' visit to his brother-in-law, N. R. Davis, in a few days.

DARING COUNTERFEITERS.

Secret Service Officials Make a Great Haul at Detroit.

Washington, Aug. 15.—Information has been received by Chief Wilkie, of the treasury secret service, of the arrest at Detroit, Mich., of a gang of counterfeiters whose operations have given the government considerable trouble. They are Charles, Edward and David Johnson, with headquarters at 794 Twenty-sixth street, from which, through the efforts of Secret Service Operator Webb, the department has secured the important paraphernalia used by the men. Charles and Edward were arrested on Friday on the charge of passing counterfeit quarters, and this was followed up by the arrest of David and a search of the premises. Chief Wilkie regards the arrest as a most important one, as he identifies the men with the issues of the Hancock and Windom $2 counterfeits which have been circulated freely in the West, and also in the East during the last eight years. At the headquarters of the gang the officials recovered the face and back plates from which the Hancock counterfeit was made, and also the plates for making the large and small seals on these bills.

CLOUDBURST IN TENNESSEE.

Seventeen People Living Along Beech Creek Are Drowned.

Knoxville, Tenn., Aug. 15—News has just reached here that a cloudburst has occurred at Beech Creek, a remote locality in Hawkins county, nearly twenty miles from Rogersville. Seventeen people lost their lives. Thirteen of the bodies have been recovered. Their cabins in the narrow valley were swept away in the flood following the cloudburst.

ORDERS COUNTERMANDED.

Troops Will Not Sail on the Scandia and Arizona for Manila.

San Francisco, Aug. 15. — It is announced that the order for sailing of troops for Manila on the transports Scandia and Arizona have been countermanded. The transports will sail for the Philippines on Monday, as scheduled, but they will carry only stores, consisting of medical, commissary and quartermaster's supplies.

PRISONERS SHOT.

Spaniards Find This Easier Than Providing Food.

Yokohama, Aug. 15. — A Japanese paper prints a story to the effect that the Americans at Guam found a number of unburied corpses. The governor recently explained that they were bodies of prisoners sent him from Manila. Provisions were short and some 150 of them were ordered out to be shot as the easiest way out of the difficulty.

Train Held Up.

Albuquerque, N. M., Aug. 15.—The west-bound train on the Santa Fe Pacific was held up by four masked men at Grants, fifty miles west of here, at 1 o'clock this morning. The express car was cut off and run about two miles down the road, but an armed guard in the car prevented the robbers from entering, and after holding the train for two hours they took to the woods without having secured the booty.

Increase in Exports.

Washington, Aug. 15.—The monthly statement of the imports and exports of the United States shows that during July the imports of merchandise amounted to $50,674,360, of which $18,511,265 was free of duty. As compared with July, 1897, a decrease is shown of about $3,000,000. The exports of domestic merchandise amounted to 71,198,742, an increase of over a million dollars.

Centenarian Dead.

Lincoln, Neb., Aug. 15.—Mrs. Delilah Cromwell, the oldest woman in Nebraska, is dead at her home near Table Rock. She was a small girl when Washington was president, and insisted that she was born in 1778. Neighbors who have known her for thirty years believe that she was about 110 years old. Her fourth husband died of old age a quarter of a century ago.

William Unseated.

Berlin, Aug. 15.—Emperor William, while riding at Wilhelmshoehe yesterday, was approached by two ladies carrying bouquets which they offered to his majesty. The emperor reached down to accept the bouquets, when his horse reared and unseated him. His majesty was uninjured, and, joking about the accident, mounted a fresh steed and returned to the castle.

Tobacco Crop Destroyed.

Wheeling, W. Va., Aug. 15.—A special to the Intelligencer from Sarahsville, Ohio, says that a terrific storm passed over that part of Noble county, accompanied by heavy hail, which largely destroyed the large tobacco crop. Streams were flooded and other crops destroyed. Lightning set fire to many hay stacks, and over half the wheat is spoiled.

Lee Called to Washington.

Washington, Aug. 15—Gen. Fitzhugh Lee, in command of the Seventh army corps at Jacksonville arrived in Washington in response to telegraphic orders from the secretary of war. The general was accompanied by his son, who is a member of his staff.

Spanish Commanders' Orders.

Madrid, Aug. 15. — The governors general of Cuba and Porto Rico have acknowledged the receipt of the news of the suspension of hostilities between the United States and Spain and have commenced the carrying out of the orders.

Four Transports Arrive.

New York, Aug. 15.—Four transports—the St. Louis, Vigilancia, Mattawan and Miami—having on board troops who were ordered home from Santiago de Cuba, have arrived off Camp Wikoff, Montauk point, Long Island.

A Bullet Through His Heart.

Viroqua, Wis., Aug. 15. — Charles Wood committed suicide by shooting himself through the heart with a revolver at the home of his parents a few miles from this city. No cause is given.

WEARY OFFICIALS TAKE A REST

USUAL SUNDAY QUIETUDE RESUMED AT WASHINGTON.

A Condition Which Has Not Prevailed Since the Maine Was Blown Up—Disposition of the Philippines the Most Serious Problem the Commission Will Have to Contend With—The Adjustment of Affairs in Cuba and Porto Rico Will Receive Immediate Attention—Porto Rico Will Be Under Military Control for the Present.

Washington, Aug. 15. — The White House, the war department and the navy department yesterday resumed their usual Sunday quietude, a condition which has not prevailed since the Maine was blown up in Havana harbor Feb. 15. Secretary Alger was at the department a few minutes and also went to the White House but did not remain long. Gen. Corbin came into his office during the day and looked over dispatches, but did not remain constantly on duty as he has been doing. There were a few clerks about the departments, but scarcely a Sunday passes in peace times that this does not happen. The busy warlike attitude has entirely disappeared and Washington has settled down to a peace basis. The president believes that the most serious problem which the peace commissioners will be called upon to deal with is the Philippines. Before the commission assembles it is hoped that the affairs of Cuba and Porto Rico will be found in such progress of adjustment as to leave little

For the Commission

to consider under that head. The absolute relinquishment by Spain of all sovereignty over the islands in the West Indies will allow only the property questions to be settled between the governments, that is what Spain shall take away and what shall remain as captures of war, and the protection of Spanish subjects and their property in the islands. The greater questions growing out of the war alluding to Cuba and Porto Rico will have to be dealt with by the United States alone. In fact the Philippines will present the difficult problem in the peace negotiations, and has caused the administration to give it a great deal of careful consideration. Several suggestions have been made as to what shall be done—one being the retention of the bay, city and harbor of Manila, just what the protocol gives temporarily. Another is that Subig bay and a sufficient amount of territory for a naval and coaling station be secured and the building up of an American city at that place begun. Still another idea which

Is Being Considered

is the retention of the island of Luzon, the advocates of that plan believing that there would be trouble between the governments which occupied a part of the island with a line of demarkation such as would exist in case Manila and the bay only were obtained. The island of Luzon is the largest of the group and contains about 3,000,000 people which are said to be the better class in the Philippines. It is believed, however, that the administration and commission will be greatly influenced by the reports which Admiral Dewey and Gen. Merritt will make upon the subject. Their reports are expected before the commission meets. The final determination as to the government of Porto Rico and the settlement of the government of Cuba are problems for settlement, but the impression prevails that these islands will become quite rapidly Americanized, and every encouragement for them to do so will be given. Porto Rico will be under military control for the present. Cuba also will be similarly governed, but it is probable that American reforms in the matter of government will be such that the people of Cuba will see the advantage of becoming annexed to the United States.

ARMY AT A STANDSTILL.

Peace News Stops All Forward Movements in Porto Rico.

Ponce, Porto Rico, Aug. 15. — The peace news has stopped all forward movements of the American army in Porto Rico. Gen. Wilson, at Coamo, and Gen. Schwan, at Mayaguez, will remain at these places. Gen. Henry, who is at Utuado, will return to Adjuntas, and Gen. Brooke, who has advanced beyond Guayama, will return to that town. Gen. Miles expects to do nothing, pending the arrival at San Juan of the peace commissioners.

DECREPIT OLD MAN.

Pope Leo's Condition Is Becoming Precarious.

Berlin, Aug. 15. — The Rome correspondent of the Cologne Gazette says: The condition of the pope no longer admits of disguise. His health has gradually grown from bad to worse, and he is now a decrepit old man who rarely speaks. His voice is of the weakest; thinking tires him and prayers confuse him. He has been observed to whisper the same prayer ten times without noticing the repetitions. Cardinal Rampolla, papal secretary of state, conducts all Vatican business.

Hongkong Hears the News.

Hongkong, Aug. 15 — News of the cessation of hostilities between the United States and Spain was received here Saturday. The British steamer Australian, bound for Sydney, N. S. W., was chartered to carry the news to Manila.

Seven Persons Killed.

Paris, Aug. 15.—The night train on the railway to Lisieux, thirty-four miles east of Caen, was derailed near Bonvillers. Seven persons were killed and forty-one were injured.

H. E. Ives for State Senator.

The Gazette commends H. E. Ives, of St. Hilaire, to the voters of the 61st district, for the state senate. Mr. Ives is the populist nominee, and his selection was a wise stroke. Pitted against him is O. H. Myron, the political boss of Norman county. The people will not hesitate long in choosing between these two men. They will select Harry Ives, representing them, as against Myron, representing the corporations, and Jim Hill's right bower. Harry Ives is pre-eminently a man of the people; a native of the district, who has grown up with the country, he is with and for the people, knowing their needs and having the ability to effectively champion them. As the editor of the populist paper, the St. Hilaire Spectator he has been laboring week after week and year after year placing the principals of his party before the public. We know of no one who better deserves the honor or who would make a more trustworthy and capable representative of the people of this district.—Red Lake Falls Gazette.

"The wire nail trust," reads an Anderson, Ind., dispatch of the 5th inst., "has completed the building of a fourteen-foot solid plank barricade around its plant in this city, which is closed because the 800 workmen refuse to accept a 40 per cent reduction, it is reported the trust will employ Hungarians." This statement of hard fact hardy corresponds with or confirms the assurances of prosperity so liberally given by republican newspapers. There is prosperity for trust and syndicates and tariff barons and coupon clippers and army contractors and high salaries public officials, but there is none for labor.—Dubuque Telegraph.

STARVING WAGEWORKERS.

Coal miners in the anthracite district of Pennsylvania are starving.

Consumers of anthracite coal are required to pay an increased price for the products of the Pennsylvania mines.

These two facts appear to be contradictory. If the price of coal is raised, surely the men who mine the coal ought to receive some benefit.

But such is not the case. The coal trust is in the business to make money for the managers of coal roads and the owners of coal mines. It is far from the trust's designs to benefit the consumer or to save the miners from the pangs of starvation.

Presidents of coal lines have met in New York and have resolved to raise the price of coal and to reduce the days of labor for the miners. At present the men who delve in the mines have but two days work in a week; now they will have only one.

Much sympathy has been extended to the reconcentrados of Cuba by the people of the United States, but Butcher Weyler was never more brutal, more cruel, more inhuman than are the highly refined, richly clad, elegant gentlemen who receive princely salaries as president of railroads and who rob the starving miners of the necessities of life and the purchasing public of its money by reducing the days of labor for one and raising the price of coal for the other.

It is well to pity the Cubans, but there are starving men and women and children in the United States who demand a deeper and closer sympathy. How long shall robbery and murder be considered "good business" in this country?—Hancock Democrat.

—The SPECTATOR is the official paper of the village and county. Now is the time to subscribe. $1.00 per year if paid in advance—otherwise $1.50.

IN THE NICK OF TIME.

AN INCIDENT OF THE WAR HITHERTO NOT PUBLISHED.

Story of the First Expedition to Fort Fisher—The Sailing Master of the Ella Knight Tried to Deliver His Charge to the Enemy.

On the first expedition to Fort Fisher a captured blockade runner called the Ella Knight was used as a government transport. The cargo of this vessel was Light Battery E, Third United States artillery, and the Sixteenth New York Independent Light battery. About 160 horses, 12 fieldpieces, 12 caissons and 12 limber chests made a valuable cargo.

The sailing master's name was Adams, but as we sailed under sealed orders, to be opened off Cape Henry lighthouse, the ranking military officer aboard, who held these orders, became ranking or commanding officer of the ship. This officer was First Lieutenant J. R. Myrick of Light Battery E, Third United States artillery.

Adams, a Baltimore man having some influence, was appointed sailing master in the United States transport fleet. He was a genuine Confederate at heart and had in his mind a way to help the Confederacy, which was to await his opportunity and run the first good cargo in his charge into the Confederates' hands.

As a signal the flagship fired a gun over the waters of Hampton Roads, and the transport fleet of the first expedition, without outside lights, sailed out into the darkness of night—into the broad Atlantic.

The Ella Knight was not the last to reach Cape Henry lighthouse, but when she did the sealed orders were opened and Adams was advised of the ship's destination—Fort Fisher.

Soon after turning southward from Cape Henry the wind began to blow strongly from the south. The sea became extremely rough, the decks were wet and slippery and the horses' stalls gave way. The horses began to slide back and forth on deck, so heavy were the lunges and rolls of the ship. At the same time the guns began to roll on the upper deck. Ropes were procured and the guns lashed through the wheels to prevent rolling on deck and knocking a hole through the transport's sides. Then ropes were stretched lengthwise and through the center of the deck, and several times crosswise to help support the horses, but many were killed and many disabled.

Some time past midnight Adams quietly turned the ship to the north and scudded with the wind. Then at the end of a few hours he turned the ship south again. His orders were to keep within sight of the transport fleet, but when daylight came no transport fleet was in sight. He gave as his excuse that the ship's engines were weak and that he could not make the speed required of him. We knew that the Ella Knight was a fast ship, and from that time on we knew that Adams was a man who would stand watching.

By the middle of the day the storm had passed over and Adams took a reckoning off Cape Hatteras, North Carolina. Then we continued our journey without much of interest until nearly daylight the next morning.

All was quiet aboard the transport. As she rode through the darkness there was a report of a cannon, and the next instant a shell burst over the deck of the Ella Knight. From the short interval between the report of the gun and the shell's explosion the battery officers knew that we must be near the shore. Besides, the sound of the breakers from the heavy ocean swells could be heard lashing the sandy beach.

Each commissioned officer quickly reached for his side arms, and they were soon on deck. J. R. Myrick (now major Fifth United States artillery) was the first to reach the pilothouse. Adams was at the wheel.

Myrick asked him, "Where are we?"

Adams replied, "I reckon we are pretty nigh Fort Fisher—that was the orders, wasn't it?"

Quick as a flash Myrick's revolver swung under Adams' ear, and he ordered him to turn to sea. Adams turned deathly white as he remarked:

"We are in the inside channel. If we turn to sea, we will have to ride the reef. If we ride it, we will be caught by the pirates outside of it," meaning the Union fleet. But at the same time he gave several fast turns to the wheel, and the transport swung half way round and headed for the reef. As we gained it there was a roaring and hissing sound and the waves shone with phosphorescent light. Soon we were in the line of seething, glowing waves. One sudden bump of the vessel, and she had crossed the reef unhurt and was sailing in the old Atlantic.

Soon we saw the dim outline of a swift steamer approaching us from the larboard side. A challenge came through a trumpet:

"Lay to, or we'll send a shot through you!"

Adams rang the engine bell. The ship soon lost its headway and swung idly in the sea. A few moments later a Union ensign appeared on deck. After learning the name and character of our ship he informed Adams that he had been under the guns of Half Moon battery, one and a half miles above Fort Fisher. Then he continued:

"I am Ensign —— of dispatch boat No. 2 of the blockading fleet. The balance of the transport fleet is 20 miles due east at sea."

Again our engines were started, and in a short time daylight began to creep over the ocean and we could see the transport fleet steaming toward land.

Nothing was done with Adams, but I have always believed he intended to beach the Ella Knight under the guns of Fort Fisher.—Eugene Scott in New York Commercial Advertiser.

At the defense of Thermopylæ the shower of Persian arrows was so dense it cut off the light of the sun.

The Army and Navy.

Have covered themselves with glory during the war. The Army and Navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of navy and army terms, translation of Spanish words, etc. Send ten cents to Chas. S. Fee, general passenger agent, N. P. R., St. Paul, Minn., for a copy.

RAILROADING AS A BUSINESS.

Hustle Once, Last and All the Time, Says Chauncey Depew.

The railway profession presents more attractions for a young man than any other line of business, says Chauncey M. Depew in "Railroad Men." It has greater opportunities for advancement, and its employment is more permanent. To succeed in it in any department requires health, brains, honesty and equipment. The young man must make up his mind that if he would rise in the profession he must never question the kind of work that is put upon him, the hours which are required of him or the places, agreeable or disagreeable, to which he is assigned.

Railway organization is essentially military, because upon the ability, vitality and integrity of the vast number of men in the various positions working harmoniously together depend most of the internal commerce of the country, the prosperity of business, the activities of communities, great and small, the funds of investors and the safety of hundreds of millions of passengers.

The young man who proposes to enter railway service should first decide whether he will take his chances for a career in outdoor or indoor work. If outdoor work, which is in the operating department, he will be immensely assisted if he has had the opportunities which are offered in the technical schools. In these days of thorough training it is almost impossible for a young man of ordinary education to get on in competition with the graduates of the Sheffield Scientific school at Yale, the scientific schools of Columbia, the special education of Cornell, the big advantages of the Troy Polytechnic and the Stevens institute, and the instruction given in many other of the schools and colleges of the United States.

If he selects indoor work, he must make up his mind that much more will be required of him at first than in commercial lines. If he is in the treasurer's department and shows special efficiency and intelligence, when a vacancy occurs in the freight department, in any discussion that should happen between the heads of these departments, he is almost certain to be drafted for a better position by the traffic manager, and vice versa.

Railroading differs from no other business or profession in its beginnings. The salary is small. The work is hard. It is only the few who by cheerful readiness at all times to perform their own tasks and to stay several hours—and if necessary all night—to meet the requirements of the office or to do the work of the lame, lazy and incompetent attract the attention of their superiors and are marked for promotion.

In the service every one's eye is on every one else. There is a generous appreciation of comradeship, at the same time there is severe criticism of the conduct and character of fellow employees and officers. The moment an officer becomes careless of his duties, inattentive and out of reach when wanted, his chances for promotion are over, and the accident of a discharge or displacement is imminent.

There is but one rule of success in railway service, and that is, no matter how high you get, once a hustler always a hustler and a hustler until you die or resign.

FORTUNE FOR A VASE.

Celebrated Pieces of China, Their Value and Their Owners.

Ten thousand guineas paid by the Earl of Dudley for an antique vase and ewer of early Sevres china was the largest sum ever paid for a vase. It was afterward sold to Baron Schroder for 8,000 guineas. Five thousand guineas was paid at the sale of the Lynes-Stephens collection in 1895 for an oviform vase of old Sevres porcelain, painted with horsemen and figures, after Wouvermans, and a trophy of arms in two medallions with fluted neck and handles formed as gilt figures of boys, by Dodin and Morin, 15¾ inches high. The price included a pair of oviform, flat shaped vases of comparatively small value, apart from the one above described, the three being one set which formed part of the Earl of Pembroke's collection.

In Mr. Jones' collection of pottery and porcelain at the South Kensington museum there is an egg shaped Gros Bleu Sevres vase with medallions of Cupid and Psyche which was acquired for 8,000 guineas. The celebrated Barberini or Portland vase, now preserved in the gold chamber of the British museum, was purchased by Sir W. Hamilton for £1,000, and afterward sold to the Duchess of Portland for £1,800. A historical vase was recently put under the hammer at Christie's. It was one of a pair presented to the Marquis of Montcalm (the defender of Quebec) by Louis XV. The last bid for this splendid work of art was £1,905. One of the largest vases in the world was a present from the late czar to the city of Paris. It is made from an immense block of jasper, is eight feet high and is valued at £1,500.—London Tit-Bits.

Takes His Own Medicine.

In Baluchistan when the physician gives a dose he is expected to partake of a similar one himself as a guarantee of his good faith. Should the patient die under his hands the relatives—though they rarely exercise it—have the right of putting him to death, unless a special agreement has been made freeing him from all responsibility as to consequences, while if they should decide upon immolating him he is fully expected to yield to his fate like a man.

A Grateful Patient.

"Doctor," said the substantial citizen, as he rushed up to the young physician, "I owe you my life."

"Eh?"

"Yes. I was taken suddenly ill two days ago, and my wife sent for you—and you were not in."—Cincinnati Enquirer.

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD.

The success of THE RECORD rests upon its reliability.

It prints the news—all the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world.

Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

Sold by newsdealers everywhere and subscriptions received by all postmasters. Address THE CHICAGO RECORD, 181 Madison street, Chicago

Attorney Lee and Jas. Meehen Jr. of Thief River Falls returned to-day from the pine land sale which was held in Crookston yesterday.

The Royal Neighbors will give a dance at Hotel Markham Saturday evening, Aug. 20th. Every body cordially invited to attend.

Arno Mereen, foreman for the St. Hilaire Lumber Company returned Tuesday from a few days visit with his family at Minneapolis.

Resolutions of the first annual teacher's training school for Red Lake county received too late for this weeks issue, but will appear in our next.

When the farmers are ready to market their grain the price of wheat will be at the lowest notch. When there is no wheat to market the price goes up.

No less then a dozen lumber barons were present at the pine land sales at Crookston yesterday. The St. Hilaire Lumber Company were heavy buyers.

The chicken season opens in North Dakota next Saturday. The city sports of Minnesota made the law to suit themselves—which is September 1st, in this state.

Mrs. James Strader and children left Monday for Crookston where they will make their future home. Mr. Strader preceding them and getting a house last week.

A large lot of ladies shirt waists received this spring, which have been selling for $1.50 to $1.75 will now be sold for 75 cents. Take your choice of the lot at E. M. Hoff's.

Mrs. S. Covert and two children returned to their Minneapolis home Monday, after a three months stay in St. Hilaire. Mr. S. Covert accompanied them as far as Crookston.

No wonder some of the agents of insurance companies are thinking seriously of going out of business. Just think of it! Licking as high as sixty stamps to go on one policy.

The Minneapolis Times will give a winter excursion to Hawaii. It promises to be largely attended. The rate for the entire excursion will be announced as soon as possible.

The Great Northern run their new invented 'grass burner" up this line last evening and for a few weeks we expect her on time as the grass won't hinder now from coming in on time.

North Dakota has suffered a great deal from the effect of hail storms and cyclones this year. The latest hail storm struck Sunday and threshed out 20,000 acres in Foster and Eddy counties.

Quite a number of young men from here left Monday for the Dakota harvest fields. Among them were M. E. Hoff, Geo. Olson, Alex. and James Strader, Herman Adams, Geo. Humphry and M. S. Hoff.

Martin E. Hoff returned to day from Dakota having found a suitable location for starting a short order restaurant. Mr. Hoff in company with A. F. Lang will start Friday for their new location to embark in business.

A. R. Jones came up from his homestead near Crookston Monday to take charge of the St. Anthony and Dakota elevator at this place. This will make the fourth season that Mr. Jones worked for this company at St. Hilaire.

A man who was too poor to take a newspaper, sent a dollar to a Yankee for a receipt to stop a horse from slobbering. He got the receipt, and he'll never forget it. It read: "To keep your horse from slobbering, teach him to spit."—Ex.

The deputy revenue collector down in Crawford county Indiana is making a clean sweep as he goes. The other day he unearthed a lot of patent medicines bearing revenue stamps of 1862. Wonder if medicine like whiskey—improves with age?

The dance given at Hotel Markham Saturday evening under the auspices of the base ball club was largely attended and a real nice time is reported by all those that attended. The Thief River Falls orchestra furnished the music, which was first-class.

A prize was given the couple who could waltz the longest. This happened down in Indiana and they stayed on the floor one hour and six minutes. Now they have been reported to the society for the prevention of cruelty to animals. Thats tuff.

Will Stranahan terminated a two weeks visit with parents and friends and left Monday to represent his Duluth hardware house. While here Mr. Stranahan caught more fish and lost more spoon hooks than any four men, and it required a wholesale house to furnish him with the later.

Game Warden Fullerton, of Minnesota, insists that if there is any violation of the state game law as regards chickens it will go hard with somebody. He has given his agents orders to bring in the offenders dead or alive, and in cases that dogs are used, they are to be shot on sight. The season opens September 1st and the warden asserts he will see to it that infringers are severly punished.

The Canadian Press is still talking of Minnesota editors in a way that sounds good. From all accounts, they—the editors—must have been on their good behavior while over the border. The most of them have such good words to say of our Canadian cousins that we would not be surprised if they duplicated the same trip next year. Not being in the party—but reading papers on both sides—Canada should be annexed.

The navy of the United States has every reason to be satisfied with the part it has played in the war with Spain. It has destroyed ten Spanish cruisers, twenty gunboats, two torpedo boat destroyers, two transports, and one storeship; total, thirty-five, representing an estimated value of about $26,500,000. The United States has not lost a vessel or had one materially injured, and our navy has lost but three men in doing all this damage.

The wheat crop is ripening very unevenly. It would be a good plan to see that your shocks are well capped, to prevent shrinkage. Last season a large portion of the crop was cut green causing shrinkage and lowering grade. This time there is more sap in the straw than last year, but you cannot be to careful. The wheat kernel is very large this year and will shell very easily. Why not cut the ripe pieces and let the green stand until ripe? What you destroy driving through the green wheat will not amount to half as much as the loss of grain by shelling and lowering the grade.

By special arrangement with the publishers we are enable to give FARM, STOCK AND HOME one year and the ST. HILAIRE SPECTATOR for **$1.25.**

THE WAR IS OVER

The following summary of the war with Spain shows its duration, cost, casualties and result:

War began	April 21, 1898
War closes	Aug. 12, 1898
Duration of hostilities	114 days
Expense of war	$141,000,000
Americans killed	279
Americans wounded	1,465
Spaniards killed	2,199
Spaniards wounded	2,948
Vessels destroyed (American)	0
Vessels destroyed (Spanish)	35

TERRITORIES LOST BY SPAIN.

	Square miles	Population.
Cuba	41,655	1,631,000
Porto Rico	3,670	806,708
Guam	150	8 000
Phillipines	52,650	7,000,000

One Was Here.

A fakir dropped into town last Friday for the purpose of selling "cheap stuff." He proceeded to get a few small boys into his confidence and by offering and giving them a nickle they gathered around his buggy and yelled a few times—just a nickle's worth. This brought around a few more boys and a few more nickles were distributed. Quite a few were curious to know what all this noise was about so the people commenced to congregate—but as all the people of St. Hilaire read the SPECTATOR and have constantly read about these fakirs they simply passed on and the aforesaid fakir soon closed his grips disgusted and got out of town. He will never forget the "warm reception" received by the people of St. Hilaire. The town is ahead the peddlers license fee, the people are winners by not patronizing him and the small boys say its just like finding money and only wish a few more fakirs would show up.

The Crookston Lumber Company are having their share of trouble with the saw mill purchased last winter. Scarcely a week passes that unless the mill is compelled to shut down. Last Saturday a set of boiler flues exploded and several men were injured. They expect to have everything in shape for the mill to start up the latter part of this week.

—Dr. Thomas, the Crookston dentist will be at Hotel Markham (Monday) and Tuesday Aug. 22 and 23 well prepared to do anything in the dental line. Remember this and govern yourselves accordingly.

Program for Week of The State Fair.

The program for Minnesota State Fair week presents race attractions for visitors.

Monday, Sept. 5th, Bicycle Day, with a program which will make the most entertaining wheelman's meet ever held in the Northwest.

Tuesday, Sept. 6th, Reunion of Territorial Pioneers, who will have headquarters on the grounds. In the afternoon will come off the 2:30 class pacing race and 2:10 trotting race, each for a purse of $1,000, which, with other racing events, will make a great program.

Wednesday, Sept. 7th, St Paul Day.—In addition to the 2:40 and 2:50 trotting classes, both of which will be strong events the great 2:13 pacing class race for $2,000 purse contributed by the business men of St. Paul will be the feature of the day. For this extraordinary race and purse 24 horses are entered, among them some of the fastest pacers in the world, many of which have made phenomenal records since the entries for this race were made.

Thursday, Sept. 8th, Minneapolis Day—On the program for this eventful day are the 2:18 pacing and 2:45 trotting races, and the 2:13 trotting contest for the $5,000 offered by the business men of Minneapolis. For this race 21 horses are entered, most of them very fast ones, and it is not necessary to say that the contest will be a hot one.

Friday, Sept. 9th, Farmer's Day.—The 2:05 and 2:22 classes of pacers, and the 2:17 trotting class, each race for the magnificent purse of $1,000 are features of Farmers' Day. The races will be fast and exciting, and other special attractions will add to the interest of the afternoon.

Saturday, Sept. 10th, Childrens' Day, will be crowded with entertaining features, and special race events will come off at the grand stand in the afternoon second in interest and excitement to no other day of the Fair.

On every afternoon during the week there will be running races, thrown in between trotting and pacing heats, balloon ascensions, Japanese Day Fire works, curious and novel, and that wonderful show of five pacers that pace a mile race, without rider, sulky or driver, making an actual race in time lower than 2:10, the most marvellous display of horse sense and horse education ever seen on any track. These with other special features and a daily Band Concert will make a grander race and amusement program than has ever been announced before for any fair in any state. Every visitor will be handsomely entertained, as well as instructed by the practical and educational features of this—the greatest event of the year to the majority of the people of Minnesota and the Northwest.

Porto Rico.

These are some of the facts and delights of Porto Rico:

Width, 47 miles.

Wealth, immense.

Poverty, unknown.

Area, 3,530 square miles.

Trees, always green.

Every man owns a horse.

Older than the United States.

Principal sport, cock fighting.

One mountain, 900 feet high.

Every house has a roof garden.

All people in San Juan are Catholic.

Principal pastime, horseback riding.

Mosquitoes, more and ohlor than those of New Jersey.

San Juan, the capital, 300,000 inhabitants.

People sleep in the day and shop and visit at night.

Water supply is one of the principal sources of revenue.

ANOTHER OPENING.

A Washington dispatch says:—Three hundred and sixty-seven thousand acres of land will be restored to the public domain in Minnesota and on October 5th next entries for homestead titles can be made. The land is in the Duluth and Crookston districts and is a part of the Red Lake Indian reservation. The area of ground involved comprises sixteen townships. This is the land that was once estimated among the pine holdings, and was withdrawn from sale. The re-estimation shows it to belong to the class known as agricultural lands, and it will be held for entry as such. Receiver George of the U. S. land office here says that considerable interest is being taken in the opening of this tract and many inquiries have been made as to the date when filings would be received.—Crookston Times.

Teacher's Examinations.

Fall examinations for teachers will be held as follows:

Thief River Falls, Friday and Saturday August 19th and 20th.

Red Lake Falls Friday Saturday September 23rd and 24th.

FRANK JEFFERS,
County Supt.

Washington Letter.

From our Regular Correspondent.

If proof were needed that Mr. McKinley made a serious mistake in not definitely naming all the terms of peace that Spain must accept, instead of leaving some of them to be settled by a joint commission, it was furnished in chunks by Spain's first answer, accepting the terms of peace, but no condition that numerous things, including whether Cuba should be responsible for a portion of the Spanish bonded debt, should be determined by the Peace Commission. That it was compelled to waive the conditions and accept the terms of peace without conditions, does not lessen the mistake Mr. McKinley made in leaving anything to be settled by commision, as the country will realize long before that commission completed its work. Spain was whipped to her knees and was bound to accept any terms of peace Mr. McKinley chose to offer and there was not a single good reason why the terms should not have been made such that their acceptance would have settled the whole business for good and all. The excuse for not doing that is not a valid one. It is that the administration had not decided what should be done with the Philippines. The people have decided that Spanish rule ought not to be continued in any part of the Philippines, if the administration hasn't.

Now that they no longer have the Spaniards to fight, and army officials who have been so busy trying to shift the responsibility for the shameful short comings in the furnishing of proper supplies to the men in the army, not only at Santiago, but in camps in the U. S. from their own to somebody else's shoulders, can give their entire attention to fighting each other, instead of wielding the official, whitewash brush. Perhaps it may be possible when congress assembles to get an investigation that will really investigate. If so, there is little doubt that much incompetence will be located, and some crookedness, too. By that time many volunteers now in the service will have ceased to be soldiers and their evidence will be available, while now their tongues are tied my military regulations.

There is trouble, and lots of it ahead of the War Department, on account of its management of its end of the war, and that my account for the rumor that Secretary Alger intends shortly to resign and that his portfolio will be offered to Gen. Joe Wheeler, of Ala. It would be a shrewd move on the part of the administration to attempt to head off democratic criticism of the War Department by making such a good democrat as Gen. Wheeler Secretary of War, but it remains to be seen whether Gen. Wheeler would accept the place, if it were offered him. Gen. Wheeler is as good a politician as a fighter, and he would see through the scheme at once, and would probably decline with thanks. It is very probable that Alger contemplates resigning as an easy method of escaping criticism.

Sampson's "pull" extended to Mr. McKinley, as it has been decided to make him a Real Admiral for his services in the war, although not a few persons say that his share of prize money, on prizes he had no hand in taking, will largely overpay him for anything he has done. The public agitation in favor of Schley is doubtless the cause of his also getting made a Real Admiral, but the pleasure at his promotion is lessoned by Sampson being promoted ahead of him, thus keeping up the injustice by which Sampson was jumped over his head in the first place.

An Englist Journal thus comments on the infurious effects of anger. "Anger serves the unhappy mortal who indulges in it much the same as intoxicants, constantly taken do the inebriate. It grows into a sort of disease which has various and terrible results. Every time a man becomes white or red with anger, his life is in danger. The heart and brain are the organs mostly affected when fits of passion are indulged in. Not only does anger cause partial paralysis of the small blood vessels, but the heart's actions becomes intermitteat; that is every now and then it drops a heat,—much the same thing as is experienced by excessive smokers."

—If you are in need of a pair of glasses J. Q. Adems will fix you out on his next trip to St. Hilaire which will be Sept. 12th 13th and 14th. If you have a watch or clock that needs repairing or cleaning leave it at Johnson's drug store and that will be attended to.

RAPP & POST

DEALERS IN

GENERAL MERCHANDISE AND HARDWARE

Something . . .

For Nothing is what some people promise you, but everyone knows this is impossible. We have one of the largest and very best assorted stocks of General Merchandise in the Northwest, and we can, and will sell our goods cheaper than they can be bought elsewhere.

In our Hardware Department we carry a full line of Shelf and Heavy Hardware, Stoves, Ranges, Tinware, Barb Wire and Nails, Paints, Oils, Varnish, Etc. Will compete with T. M. Roberts or others on Wire and Nails.

We want you to give us a call and look at our goods and prices on everything and compare with others, and we are sure you will appreciate and patronize us. Yours truly,

Nervous People

Are great sufferers and they deserve sympathy rather than censure. Their blood is poor and thin and their nerves are consequently weak. Such people find relief and cure in Hood's Sarsaparilla because it purifies and enriches the blood and gives it power to feed, strengthen and sustain the nerves. If you are nervous and cannot sleep, take Hood's Sarsaparilla and realize its nerve strengthening power.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5.

Hood's Pills cure all liver ills. 25 cents.

He Knew Stiggins.

Stiggins—Bromlert is a man I can't bear.

Wiggins—What did Bromlert ever do for you?—Indianapolis Journal.

Important to Mothers.

The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trade mark. This counterfeiting is a crime not only against the proprietors of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents and mothers, in particular, ought to carefully examine the Castoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Castoria bears the fac-simile signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years.

When a girl tells a young man that she dreamed of him the night before he should begin to save up money for the furniture.

$500.00 REWARD—$500.00.

For any case of Catarrh or Hay Fever that Dickson's Invincible Catarrh Salve will not cure. The worse the case the better the result. We positively guarantee to cure any case of Nasal Catarrh, Hay Fever, headache, dull pains over the eyes, dizziness and absolutely prevent the catching of colds in head, throat, bronchial tubes and lungs, and will make the head as sound as a bell.

This marvelous salve not only cures Catarrh and Hay Fever, but will stop any cough no matter how severe or long standing, by a few applications and make the catching of colds a thing of the past. This we absolutely guarantee. (A sure sign of Catarrh is dizziness or catching of colds easily.)

We positively guarantee to cure or money paid over. This $500.00 reward is a bona fide offer, and all we ask is to have our patients follow our directions, and a sure cure will follow.

This salve is purely vegetable and perfectly harmless. Price for large-size boxes 50c, mailed free to any part of the United States or Canada.

Address

A woman's strength lies in her weakness.

Coe's Cough Balsam

Is the oldest and best. It will break up a cold quicker than any thing else. It is always reliable. Try it.

Going on all along the line—the trolley cars.

AIDED BY MRS. PINKHAM.

Mrs. W. E. Paxton, Youngtown, North Dakota, writes about her struggle to regain health after the birth of her little girl:

"Dear Mrs. Pinkham:—It is with pleasure that I add my testimony to your list, hoping that it may induce others to avail themselves of your valuable medicine.

"After the birth of my little girl, three years ago, my health was very poor. I had leucorrhœa badly, and a terrible bearing-down pain which gradually grew worse, until I could do no work. Also had headache nearly all the time, and dizzy feelings. Menstruations were very profuse, appearing every two weeks.

"I took medicine from a good doctor, but it seemed to do no good. I was becoming alarmed over my condition, when I read your advertisement in a paper. I sent at once for a bottle of Lydia E. Pinkham's Vegetable Compound, and after taking two-thirds of the bottle I felt so much better that I send for two more. After using three bottles I felt as strong and well as any one.

"I think it is the best medicine for female weakness ever advertised, and recommend it to every lady I meet suffering from this trouble."

Maternity is a wonderful experience and many women approach it wholly unprepared. Childbirth under right conditions need not terrify women.

The advice of Mrs. Pinkham is freely offered to all expectant mothers, and her advice is beyond question the most valuable to be obtained. If Mrs. Paxton had written to Mrs. Pinkham before confinement she would have been saved much suffering. Mrs. Pinkham's address is Lynn, Mass.

BEN'S BOMBSHELL.

A Juvenile Story.

"Please come over to our barn right after dinner, I've got a scheme for celebrating the Fourth that will wake up the town."

So ran the note which Farmer Tully's son Benjamin had sent to his four friends—Will Chester, Walter Casey, Hal Gossman and Eddie Wilmoat.

"Benjamin" (his chums always call him Benjamin) "has got up something new again. Wonder what it is?" muttered Will, as he read his note. Benjamin was very versatile in schemes, and for this reason, probably, he was looked upon as a sort of leader among his companions.

After dinner Will went directly to the Tuly farm.

In the rambling old barn that squatted close to the sluggish river he found the other four; Benjamin, sitting on a feed cutter, was thoughtfully chewing a straw.

"Well, what is it, what is it?" queried Will, impatiently.

"I will tell you. You know what a mortar is?"

"A mortar? Why, mortar is the stuff they stick bricks together with."

"That ain't the mortar I mean. I mean these sawed-off little cannon that point up in the air and are used to shoot bombshells out of. My idea is to make a mortar and some bombshells. They would make as much noise as a cannon, and when the bomb went off in the air it could be seen and heard for miles in all directions."

The boys looked at each other aghast.

"Why, we can't do that," said Eddie. "Those things have to be made in factories."

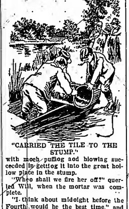
"We can make 'em all right," said Benjamin. "There's a big iron drain tile about a foot in diameter down in the field that will make a splendid mortar. All we need to do is to fit it into a log to stop up one end. I know where there is just that kind of a log, or stump, too, and it will prevent the tile from bursting when the thing goes off."

"But what would you make your bombshell out of?" asked Hal Gossman.

"I have thought that out, too," was Benjamin's ready reply. "We can take two baseball masks, rip the leather off and fit them together and plaster clay over them until they are thick enough to be pretty solid, leaving the inside empty to be filled with powder. We can get all the powder we want."

That afternoon four of them got the tile and carried it in Benjamin's boat to the spot chosen by Benjamin, close to the stump which they intended to put to such a new use.

The stump was curiously examined. It was the remains of an oak tree perhaps three feet in diameter. In its center was a deep opening which seemed just about large enough to accommodate the tile. All together the boys carried the tile to the stump, and with much puffing and blowing succeeded in getting it into the great hollow place in the stump.



"CARRIED THE TILE TO THE STUMP."

"When shall we fire her off?" queried Will, when the mortar was complete.

"I think about midnight before the Fourth would be the best time," and the others thought so, too.

The powder was bought, a bombshell made and hidden away in the barn, together with the remainder of the powder.

About an hour before midnight on the 3d the five boys crept noiselessly down to the river shore where Benjamin's skiff was moored. They pulled down the stream and landed in utter darkness, for Benjamin said it would be dangerous to have a lantern near the powder.

The charge for the mortar, about two pounds, was emptied from its sack into the tile. Paper was placed on top of it and rammed down solid. Then the "shell" was dropped into the mortar. Nothing was placed on top of this. The mortar was now loaded and ready for firing, for Benjamin had run a long fuse through a hole in the stump and up into the pipe until it touched the powder.

"Ain't it pretty near midnight?" asked Eddie Wilmoat, eagerly. He voiced the impatience of the others.

"Let her go!" said Chester.

Benjamin, on his part, was as anxious as his companions to put their experiment to the test. Striking a match, he touched the blaze to the end of the fuse projecting from the pipe. Hissing and sputtering, the fire crept toward the charge.

"Now get to cover!" advised Benjamin, excitedly. "She will reach the powder in another minute, and the air may be full of flying iron and wood."

They hurried down the river bank to the boat. Then came a roar that almost deafened them, and a great glare shone over woods and river.

"Look! Look!" shouted Benjamin, pointing up. "There she goes!"

A ball of fire had leaped from the stump, and with one great bound had reached an enormous height, leaving a fiery stream behind it. They could see it away up in the air, glowing like a star. It seemed to remain motionless for a minute and then began to descend.

"Ain't that immense?" cried Benjamin, waving his hat in great glee.

Down, down, it rushed like a blazing comet. The paper wadding had stuck to the shell, and becoming ignited from the explosion continued to burn fiercely. A stream of sparks rushed upward from it. The air was full of burning paper. Then, as it was about to drop into the river a quarter of a mile away, it burst. A heavy crash again woke the echoes and another blaze of light flashed for an instant. Then came darkness.

"It is all over," said Benjamin.

But he was mistaken. There was a good deal to follow, something which he and his companions had not counted on.

It chanced that some public-spirited men in the village had decided to give an exhibition of fireworks on the night of the Fourth also. Having determined to keep the matter quiet until the Fourth had arrived, the fireworks had been purchased very slyly and carried to a spot on the river bank about a quarter-mile below the place where Benjamin's bombshell had begun its flight. Here a raft had been made, and upon it the fireworks were put. This was done on the evening of the 3d. Two men were hired to sleep on the raft to see that it was not disturbed.

The men poled the raft out into the middle of the river and lying down on their blankets went to sleep surrounded by a wholesale assortment of sky-rockets, roman candles, giant crackers, bombs, pinwheels, and all manner of things, without a thought of danger. They had been sleeping soundly for about two hours when the noise of the mortar awakened them.

They saw the bombshell darting down with marvelous speed, which increased every second, and before they could pull in the rope to which the anchor was fastened which held the raft it was right above them.

Horror-stricken, they plunged into the river and hurried away as fast as they could through the shallow water.

Then the shell exploded.

The men ducked their heads. There was a great splashing in the water as pieces of the bursted shell were hurled into it, but neither of the men was hit. Half dazed, they lifted their heads. The red glare of the exploded shell and the accompanying roar had gone.

All was darkness for a brief moment. Then came a vicious hissing from the raft, and the air was filled with flying sparks. It was one of the pinwheels which had caught, and as though inspired by a spirit of mischief it was whirling at a great rate, sending its sparks everywhere.

The men rushed back to the raft to save the cargo.

Then the trouble commenced in earnest.

Firecrackers began to bang away in unsuspected spots, and no sooner was a pack snatched out and thrown into the river than other packs took up the chorus.

"Yank 'em out, yank 'em out!" cried one of the men, making a dash for them at the risk of burning his fingers.

Just then a couple of pinwheels started at the same time and began to buzz and fluster as though each was trying to outdo the other and both bent on putting out the men's eyes in a shower of sparks.

Now that they had got agoing the fireworks were evidently bound not to be interfered with, for while the rockets and roman candles were bombarding one man a giant firecracker did its best to tear the other's fingers off and to help defeat his assault a big bomb exploded almost in his face.

The tumult was at its height, but the men worked desperately to save what they could of the fireworks, but in the midst of their forlorn task they heard hoots, yells and loud laughter from the shore.

Looking shoreward they could dimly see a large crowd of people on the river bank. The village had been aroused and had come to witness the novel spectacle. Moreover, from the sounds from that way, they seemed to be enjoying it immensely.

"Well, that settles me," said one of the men on the raft, disgustedly. "Them people is laughing at us. Let's get out of this hornet's nest. This stuff is bound to blow itself all up anyway," and he coolly jumped into the river and waded ashore. His companion followed him.

Once ashore they were surrounded by a crowd of people curious to learn all about the matter.

The men were very discreet, however, in regard to who owned the fireworks, but told how they happened to be set on fire. Where the troublesome fiery visitor had come from appeared to be a mystery. Many had seen it, but none knew whence it came.

Benjamin and his friends were in the crowd. As soon as they learned that the bomb had caused the mischief to somebody's fireworks down the river they had rowed that way. Before they reached there they saw that the fireworks on the raft were too far gone in their career of self-destruction to be saved, and they rowed their boat ashore and watched the queer exhibition, somewhat frightened at the calamity the bomb had caused.

The uproar from the raft grew less after awhile, the firecrackers ceased to be heard and all became dark and silent.

The secret of who shot the shell did not come out until long after, for the boys kept very quiet.

CHARLES F. WELLES.

The Word "Wife."

"What do you think the beautiful word 'wife' comes from? It is the great word in which the English and Latin languages conquer the French and Greek. I hope the French will some day get a word for it instead of their femme. But what do you think it comes from? The great value of the Saxon word is that they mean something. 'Wife' means weaver. You must be either housewives or house moths, remember that. In the deep sense you must either weave men's fortunes and embroider them, or feed upon them and bring them to decay. Wherever a true wife comes, home is always around her. The stars may be overhead, the glowworm in the night's cold grass may be the fire at her feet; but home is where she is, and for a noble woman it stretches far around her better than houses ceiled with cedar or painted with vermilion, shedding its quiet light for those who are homeless. This, I believe, is the woman's true place and power."—Ruskin.

Often the Case.

She—"As a rule a man judges all other women by his wife." He—"Yes; and a woman judges her husband by the worst things she hears about other men."

Often the Case.

Crops in Oregon and Washington.

Portland Commercial Review: News of the progress in the wheat fields is now attracting the attention of our exporters and grain dealers. Reports to hand from the state of Washington show crops in some parts of the state are two weeks late, but are in excellent condition. State Grain Inspector George Wright returned from a tour of the Eastern Washington wheat districts. He says: The Washington wheat yield this year may amount to 23,000,000 bu or 24,000,000 bu. It will likely be larger than that of last year, but I would not make any positive statements as to the outcome. The fact that a large part of the Washington wheat sought the seaboard via the Columbia river last year has made it impossible for us to get complete figures as to the crop. Whitman county farmers claim they will produce 10,000,000 bu this year. Whitman is a large county and the soil is rich, and such a yield would mean that Whitman county is the greatest wheat-producing county in the state. The joint is just beginning to form in the late Whitman county fields. The farmers have planted more wheat and less barley this year, because wheat demanded a better price than barley last year, but the barley crop should be fairly large even this year. Estimates placed by dealers state that the crop of the state of Washington will be from 22,000,000 bu to 25,000,000 bu. The acreage of the state is estimated as 5 per cent increase over that of 1897. In Oregon the wheat shows up well, and harvesting is progressing rather slowly. By next month work will become quite active. Reports from the harvest fields show that the crop is turning out very good, and that the yield will be as large as that of 1897. According to this basis, the crop of the two states will be fully 45,000,000 bu, but we think that the figures are a trifle too large and dealers here think that our figures, from 41,000,000 bu to 43,000,000, are almost correct. In the wheat market here very little doing can be said. Holders are offering sparingly, and those selling are pressed for ready money.

The Indiana Fruit Prospect.

Early in the season Prof. J. Troop of Purdue University published the results of inquiries sent to every county in the state concerning the prospect for fruit. At that time 24 counties gave the prospect for apples as good, 42 only fair and 9 as poor. Pears, 55 good, 17 fair; 3 poor. Peaches, 62 good, 8 fair, 5 poor. Plums, 61 good, 9 fair and 5 poor. Not all of the counties reported. In order to ascertain whether these estimates would hold good or not, a second lot of inquiries was sent out to the same persons about ten days ago, and 70 have been heard from. This time the result is as follows: Apples, 57 poor, 13 fair and none good. Pears, 6 poor, 40 fair and 24 good. Peaches, 20 poor, 30 fair and 20 good. Plums, 6 poor, 29 fair and 35 good. These counties are well distributed over the state, from the extreme north to the Ohio river, so that these last figures may be taken as representing the fruit prospect for the whole state. As will be seen, the percentage has dropped very materially since the blossoming period, and it now appears that we shall be obliged to look to other states for our winter apples.

Liquid Manure.

The following directions for preparing a liquid manure are given by the Gardeners' Chronicle: Put into a forty gallon tank or cistern two bushels of fresh horse dung; stir it well about, and leave it to clear; and in about a week add one peck of fresh soot enclosed in a canvas bag, squeeze this a little every third day, so as to make its contents exude. Let the mixture get clear, and then use, say one quart to three gallons of rain or soft water. This is a good manure for all kinds of soft-wooded plants. It may be made stronger by adding chickens' or pigeons' dung, at the rate of half a peck to the above quantities. If, in summer time, bubbles generate on the surface, it is a symptom of fermentation, and the latter should be stayed, by the addition of a small quantity of white vitriol. Of course, after the cask has been filled up twice, the contents should be turned out and a fresh lot made up. Instead of clear water, soap suds may be used in filling up the cask.

Antiquity of Agriculture.—The art of tilling the soil for the production of food is as old as human civilization. The discovery of the nutritive quality of the grains, fruits and vegetables as they grew wild must have preceded the cultivation of them. The fertile valleys of the Nile, the Euphrates and the Ho-ang-ho must have abounded in these spontaneous productions, and population would be invited by this natural supply, till its density would demand an increase of production, which would naturally lead to cultivation. In conformity with this hypothesis we find that Egypt, Chaldea and China each claim the introduction of the agricultural art. It is possible that cultivation of the soil for the production of crops was practiced in each of these countries without the knowledge of the others. But the similarity of the ancient processes and implements strongly suggests a common origin, most probably that detailed in the ancient Hebrew narrative.

Getting Iron Into Eggs.—An exchange says a French physician has conceived of a novel method of administering iron, if not to his patients in general, at least to his immediate family. He has noticed that hens have powerful digestive organs, and has discovered that they can digest considerable quantities of iron, and send it back through the albumen of their eggs, in a form which is more easily digested by the weaker stomach of men than if taken in any other way. So he feeds his hens salt of iron, mixed with their wheat, and they lay eggs extremely rich in predigested iron. The amount of iron contained in the animal tissues of a man weighing 150 pounds is about 100 grains, or a quarter of an ounce. Yet even this small amount is as necessary to the economy of human nature that a few grains less may produce serious disturbance in the system.

One form of lime, gypsum, has been shown to be a most effective corrective of black alkali, found in some of the soils of the arid portions of the United States.

Homeopathists tell us that like cures like, but they fail to suggest a cure for dislike.

Wheat 40 Cents a Bushel.

Kissing may not be dangerous, but it often causes palpitation of the heart.

A bath with COSMO BUTTERMILK SOAP, exquisitely scented, is soothing and beneficial. Sold everywhere.

Summer girls think there should be enough naval engagement to go round.

A DOCTOR'S DIRECTIONS.

They save a daughter from blindness.

When a father writes that yours "is the best medicine in the world," you can allow something for seeming extravagance in the statement if you know that the medicine so praised, cured a loved daughter of disease and restored to her the eyesight nearly lost. The best medicine in the world for you is the medicine that cures you. There can't be anything better. No medicine can do more than cure. That is why John S. Goode, of Orrick, Mo., writes in these strong terms:

"Dr. Ayer's Sarsaparilla is the best medicine in the world. My daughter had a relapse after the measles, due to taking cold. She was nearly blind, and was obliged to remain in a dark room all the time. The doctors could give her no relief, one of them directed me to give her Ayer's Sarsaparilla. Two bottles cured her completely."

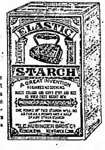
The thousands of testimonials to the value of Dr. Ayer's Sarsaparilla repeat over and over again, in one form or another the expression: "The doctors gave her no relief; one of them directed me to give her Dr. Ayer's Sarsaparilla. Two bottles completely cured her."

It is a common experience to try Dr. Ayer's Sarsaparilla as a last resort. It is a common experience to have Dr. Ayer's Sarsaparilla prescribed by a physician. It is a common experience to see a "complete cure" follow the use of a few bottles of this great blood purifying medicine.

Because, it is a specific for all forms of blood disease. If a disease has its origin in bad or impure blood, Dr. Ayer's Sarsaparilla, acting directly on the blood, removing its impurities and giving to it vitalizing energy, will promptly eradicate the disease.

The great feature of Dr. Ayer's Sarsaparilla is the radical cures that result from its use. Many medicines only suppress disease—they push the pimples down under the skin, they paint the complexion with subtle arsenical compounds, but the disease rages in the veins like a pent up fire, and some day breaks out in a volcanic eruption that eats up the body. Ayer's Sarsaparilla goes to the root. It makes the fountain clean and the waters are clean. It makes the root good and the fruit is good. It gives Nature the elements she needs to build up the broken down constitution—not to brace it up with stimulants or patch it up on the surface. Send for Dr. Ayer's Curebook, and learn more about the cures effected by this remedy. It's sent free, on request, by the J. C. Ayer Co., Lowell, Mass.

A Beautiful Present Free



For a few months to all users of the celebrated ELASTIC STARCH, (Flat Iron Brand). To induce you to try this brand of starch, so that you may find out for yourself that all claims for its superiority and economy are true, the makers have had prepared, at great expense, a series of

Game Plaques

exact reproductions of the $10,000 originals by Muville, which will be given you ABSOLUTELY FREE by your grocer on conditions named below. These Plaques are 40 inches in circumference, are free of any suggestion of advertising whatever, and will ornament the most elegant apartment. No manufacturing concern ever before gave away such valuable presents to its customers. They are not for sale at any price, and can be obtained only in the manner specified. The subjects are:

AMERICAN WILD DUCKS, AMERICAN PHEASANT,
ENGLISH QUAIL, ENGLISH SNIPE.

The birds are handsomely embossed and stand out natural as life. Each Plaque is bordered with a band of gold.

HOW TO GET THEM:

All purchasers of three 10-cent or six 5-cent packages of Elastic Starch (Flat Iron Brand), are entitled to receive from their grocer one of these beautiful Game Plaques free. The plaques will not be sent by mail. They can be obtained only from your grocer.

Every Grocer Keeps Elastic Starch.

Do not delay. This offer is for a short time only.

Elastic Starch

has been the standard for 25 years. TWENTY-TWO MILLION packages of this brand were sold last year. That's how good it is.

Ask Your Dealer

to show you the Plaques and tell you about Elastic Starch. Accept no substitute.

Remember

if you are dissatisfied with the size of piece or with the quality of the chewing tobacco you are now using—

get **Battle Ax PLUG**

and you 'll get your money's worth. The 10-cent piece of Battle Ax is larger than the 10-cent piece of any other brand of the same high quality, and is the largest piece of really good chewing tobacco that is sold for 10 cents.

Remember the name when you buy again.

"A HAND SAW IS A GOOD THING, BUT NOT TO SHAVE WITH."

SAPOLIO

IS THE PROPER THING FOR HOUSE-CLEANING.

PITH OF THE NEWS

EVENTS OF THE PAST WEEK IN A CONDENSED FORM.

A General Resume of the Most Important News of the Week From All Parts of the Globe, Boiled Down and Arranged in Convenient Form for Rapid Perusal by Busy People.

Washington Talk.

The United States government has placed an order in England for 10,000,000 cartridges.

Regulations have been issued concerning military taxes to be collected in the Philippines.

Gen. Miles has official acknowledgment from Capt. Gen. Macias that the latter acquiesces in the terms of peace.

It has been decided by the postoffice authorities to allow all mail addressed to Spain to proceed as before hostilities began.

The subsistence department will have plenty of supplies ready to forward to Cuba in case it is found necessary.

The secretary of the treasury has decided that vessels of the United States only will be cleared with the transportation of merchandise between the United States and Porto Rico.

The express companies have been informed that the law does not state whether the company or the shipper shall bear the revenue tax, but that the company shall be held responsible for its payment.

Several promotions in the marine corps have resulted from the advancement of Lieut. Col. W. R. Huntington to the grade of colonel. Maj. R. L. Meade becomes a lieutenant colonel, Capt. J. M. T. Young a major, First Lieut. C. H. Lucheimer a captain, and Second Lieut. J. H. Russell a first lieutenant.

People Talked About.

The death of Dr. Zeller, the musical composer, is announced at Berlin.

Mrs. Nelson A. Miles and Miss Miles will join Gen. Miles at Ponce, Porto Rico.

Sir William Augustus Frazer, bart., the author and one of the queen's bodyguard for Scotland, is dead.

Elmer J. Gourdain, Company K, Second New York volunteers, and John D. Drawand, Third United States infantry, died at Fort McPherson, Ga., of typhoid fever.

King Leopold II. of Belgium has promised to visit Hartford City, Ind., on his coming American tour. Many of his former subjects are employed in the glass factories.

The reported death of Mrs. Terriss, widow of the actor who was murdered by Richard Arthur Prince Dec. 1 last, proves to have been an error. Mrs. Terriss is seriously ill in London.

Casualties.

Two members of a threshing crew in Idaho were killed by lightning. Three others were severely injured.

Horace Adcock, twelve years of age, died from fright received during a heavy electrical storm at Macomb, Ill.

Samuel Byers of New York was drowned in the St. Joseph (Mich.) river, near the Truscott boat works. His body was recovered.

Severe wind, hail and rain storms, which visited Southwestern Iowa and Western Illinois, caused considerable damage to grain and fruit.

A conflagration devastated a vast area in the packing house district at Fresno, Cal. The loss is estimated at nearly half a million dollars.

The steel Yukon river steamer Mabel Lane, owned by Lane & Cole of Chicago, and in tow of the steamer Portland for St. Michael, was lost in Bering sea by the foolish action of a frightened crew. The men were saved with great difficulty.

A caboose and several cars ran off a siding on the Valley railway at Akron, Ohio, colliding with a freight. Chris Murray, brakeman, of Leavittsburg, Ohio, and Ross Morris, an operator, of Fairmont, W. Va., were killed. Both were asleep in the caboose.

Advices from Melbourne report that the American bark C. C. Funk, Capt. Nissen, which sailed from Tacoma May 22 for Melbourne, has been wrecked on Flinders Island, Tasmania. Eleven of those on board, including Capt. Nissen, his wife and two children, were drowned.

A great fire at Nijni Novgorod, capital of the government of the same name near the confluence of the Oka and the Volga, about 250 miles northeast of Moscow, has destroyed a number of factories and eighty houses. Forty persons have been injured, and damage to the amount of 1,500,000 roubles has been done.

Criminal Record.

John Searles, a wealthy farmer, killed his wife and himself at Princeton, Ill. With his pocket knife he cut his wife's throat.

Rev. Flavius J. Borbst of Chicago is accused by his wife of having given her the alternative of poison or a revolver with which to end her life.

Mrs. Womert, wife of Emanuel Womert, who was murdered in bed near Lancaster, Pa., by supposed burglars, while his wife was asleep by his side, committed suicide.

J. W. Jago, chief officer of the White Star Line steamship Britannic, who is held at London on a warrant issued at the request of the United States embassy on the charge of embezzlement and larceny, was refused bail and remanded for a week.

The body of Thomas Jansen was found in a well on the farm of Andrew Hawkins, near Stockville, Neb. Jansen was a wealthy money loaner from Beatrice, who has been missing. He was known to have $1,000 in cash and negotiable securities.

Foreign Notes.

The American Bar association held its annual convention at Saratoga, N. Y.

Eight deaths from sunstroke occurred in Paris.

Columbia has agreed to all the points of Italy's ultimatum regarding the Cerutti claim.

The bubonic plague is again epidemic at Bombay. There were 103 deaths officially reported last week.

Japanese papers say the government will protest against the United States holding the Hawaiian islands.

A violent shock of earthquake was felt at Messina recently, throwing the inhabitants into a great panic.

The British press makes favorable comment upon the conclusion of the Spanish-American peace protocol.

A dispatch published in St. Petersburg declares that England has assumed a protectorate over the whole of South Arabia.

The Portuguese ministry has resigned, and Senor Jose Sucanlo has been charged with the task of forming a new cabinet.

The lights in the harbor at Teneriffe, Canary Islands, which were extinguished shortly after the declaration of war, have been relit.

The death is announced at London of Ferdinand Hake, a usurer, who was worth £2,000,000. His estate will go to his daughter, who is a domestic servant.

The London Daily Mail's Biarritz correspondent says: It is clear that everything is ready for a Carlist uprising immediately upon the conclusion of peace negotiations.

William Ogilvie, the newly appointed commissioner of the Yukon, says he has no power to abate the royalty on Klondike gold or to deal with the matter of the government reserved claims.

After Sept. 1 a bounty will be granted by the French government on refined French native and colonial sugars for export, as follows: Per hundred kilos, first grade, 2.42 francs; second grade, 2.77 francs; third grade, 3.13 francs.

Otherwise.

Republicans of the Fourth Wisconsin district nominated Theobald Otjen for congress.

New York capitalists will start a bank at San Juan, Porto Rico. It will be capitalized at $500,000.

The French ambassador and his staff recently paid a visit to the tomb of Washington at Mount Vernon.

Gen. Shafter reports the customs receipts at Santiago, from July 30 to Aug. 13, inclusive, $58,145.21.

The Piccadilly club of Cincinnati has had made a beautiful loving cup which is to be presented to Admiral Dewey.

Andrew Carnegie has offered the town council of the town of Dumfries, Scotland, the sum of £10,000, to build a public library.

Charles W. Depauw of New Albany, Ind., has filed a petition of bankruptcy. He places his liabilities at $850,000 and assets at $45,000.

The attorney general of Ohio has decided to bring an action against the American Steel and Wire company, under the anti-trust law.

The twelfth biennial convention of the Bavarian societies of North America have closed at Pittsburg. Cincinnati was chosen for the next meeting place.

Gov. Culberson and his entire cabinet, accompanied by forty prominent state politicians, left Atlanta, Ga., for the Omaha exposition in a special train.

The conference of state and provincial boards of health in session at Detroit, declared tuberculosis to have killed more people than any other affection.

The Pullman company recently distributed almost $8,000,000 in dividends to the stockholders. This was a special dividend, amounting to $20 per share.

Gen. Wilson, chief of engineers, has ordered all mines, cables and electrical apparatus connected with harbors and rivers of the United States moved as rapidly as possible.

A syndicate has been formed of all the alleged heirs of the late merchant prince, A. T. Stewart, and they have determined to make one more fight for the money they claim to be entitled to.

Harry C. Young of Middletown, Pa., on whose farm it is proposed to establish a military camp, secured a preliminary injunction against the Pennsylvania Railway company to prevent it building stations on the farm.

The directors of the Home brewery of Indianapolis have voted to sell the plant to the Indiana Brewing company, which is supposed to represent the malt trust. The price to be paid is $100,000.

Creditors of the estate of the late Adolph Sutro of San Francisco, have been busy for several days on an investigation. The total indebtedness is a trifle over $700,000 and the appraised value is more than three times that amount.

Tennessee Republicans meet in state convention at Nashville and nominate James A. Fowler of Clinton for governor. The platform indorses the administration of President McKinley and reaffirms allegiance to the St. Louis platform.

Gen. C. Hart Merriam, chief of the United States biological survey on the Pacific coast, says: "We are working out the natural life belts of animals and plants so as to determine what plants are best adapted to specific regions." A bulletin will soon be issued.

A conference of manufacturers and business men of Illinois will be held to discuss the development and furtherance, by the government, of its trade. John Wanamaker of Philadelphia, Senator C. K. Davis of Minnesota and Senator C. W. Fairbanks of Indiana have been invited.

Mrs. J. J. Gest of Cincinnati, who has made an inspection of the army camps, reports that in the Sixty-ninth New York the only fund for the purchase of delicacies for the sick is derived from the profits of the canteen.

MINNESOTANS IN THE CHARGE

THIRTEENTH REGIMENT IN THE THICK OF THE FRAY.

Hardest Fighting in the Manila Battle Was Done by the Astor Battery, Which Was Supported by the Minnesota Volunteers—A Few Moments of Fierce Fighting—Brave Sons of the North Star State Receive Their Baptism of Blood and Iron—One Man Killed and Nineteen Wounded—Spanish Loss Estimated at 200.

New York, Aug. 21.—A dispatch to the World from Manila city, dated Aug. 13, via Hongkong, says:

The hardest fighting at the capture of Manila was done by the Astor battery, which led the advance. Brig. Gen. McArthur, commanding the brigade, complimented the men in the highest terms right in the midst of the battle for their valor and success. The Astor battery led the column, supported by the Minnesota volunteers and the Twenty-third regulars. The Utah battery's guns were too heavy to move through the swamps. The march was along the Pasay road, on the right of the River Pasig, where the fleet could give no assistance. At the junction of the Cingalon road the vanguard came without warning upon a strong Spanish intrenchment. Suddenly the enemy raised a deadly fire upon the Americans, killing two men of the Astor battery — First Sergeant Holmes and Second Sergeant Cremins—and one Minnesota man, Private Patterson, at the same time wounding a score of others. Sergeant Cremins, after he was shot, started to his gun, fired it, and the next moment fell dead beside the piece. The Astor battery was forced to fall back from the murderous fire, temporarily leaving two guns, but the reserves under Col. Ovenshine came up promptly and, with their support, the Astors charged the enemy with only revolvers for weapons, quickly regained their guns and put both into action again with increased vigor. The Spaniards were then speedily put to flight.

The losses in the Astor battery were two killed and eight wounded. The losses in the Thirteenth Minnesota were: Killed, Archie Patterson, bugler, Company I. Wounded, Capt. Oscar Seebach, Company G, Red Wing; Capt. A. W. Bjornstad, Company H, St. Paul; Lieut. C. G. Bunker, Company C, St. Paul; Sergt. Charles Burnsen, Company C, St. Paul; Sergt. M. M. Carleton, Company E, St. Paul; Capt. H. C. Williams, Company E, St. Paul; Private W. A. Jones, Company G, Red Wing; Private L. H. Wallace, Company H, St. Paul; Artificer G. Thoorsell, Company H, St. Paul; Private Charles Little, Company F, Minneapolis; Private C. A. Gilmore, Company H, St. Paul; Private C. P. Rice, Company A, Minneapolis; Private H. Borrowman, Company K, Stillwater; Private G. F. Tenney, Company L, Minneapolis; Private L. Ulmer, Company L, Minneapolis; Private George Kahl, Company L, Minneapolis; Private R. L. Moore, Company C, St. Paul; Private H. H. Tetzlaff, Company C, St. Paul; Private Carlson, Company E, St. Paul.

The Spanish loss is estimated at not less than 200, including killed and wounded, and in the neighborhood of 8,000 captured. Vast stores of military and naval supplies were seized. The casualties on the American side were confined to the land side. Not a man on the fleet was injured. Through four lines of intrenchments, extending for two miles, the enemy was driven in panic to the walled portions of Manila. There the Spaniards surrendered.

As the Stars and Stripes were raised over the official residence of the governor, Capt. Gen. Jaudenes burst into tears and his suite hid their faces in their hands. Almost impregnable fortifications had been stormed, including four blockhouses and innumerable street blockades. All were carried with the pluck and valor characteristic of Americans. In Gen. Green's brigade the Colorado and California volunteers and the Eighteenth regulars drove the Spaniards back in panic. East and West vied in deeds of bravery.

WAITING FOR THE REPORT.

Authorities Anxious to Get a List of Casualties From Merritt.

Washington, Aug. 21.— There were few developments of importance in the post-war situation yesterday. The authorities are still waiting for Gen. Merritt's report on the list of casualties and the state, war and navy departments are interested in knowing the exact terms on which Manila was surrendered—whether the city alone, or if the Philippines were included. It was stated by officials that nothing additional on this point had been received up to the close of office hours. The efforts to restore the Manila cable continue, but they have not proved successful thus far. The claims made in Madrid that the protocol and not the capitulation controls the status of affairs in the Philippines will not be discussed by state department officials. The Madrid discussion is looked upon as rather academic, as it is taken for granted that claims will be made on both sides that the Paris tribunal will be the final arbiter of the case.

Roughly Handled by a Mob.

Selma, Ala., Aug. 21.—Alex Walker, a negro living near Pleasant Hill, was called from his cabin by a party of white men and carried to the woods. He was strapped to a stump and beaten. He died an hour later.

Spanish Prisoners to Be Moved.

Atlanta, Ga., Aug. 21. — The fifteen Spanish prisoners of war who have been under guard at Fort McPherson since the beginning of hostilities with Spain will be taken to Plymouth, N. H., Sunday.

GREAT ARRAY OF WARSHIPS.

Fortress Monroe Will Witness an Inspiring Spectacle.

Washington, Aug. 21. — One of the largest fleets of warships ever assembled in an American port will be brought together within the next few days at Fort Monroe. Already fifty-seven warships are under orders to rendezvous there, and the orders still to be issued will raise the total to the neighborhood of seventy. Naval officials say it is difficult to realize the extent of such a marine aggregation in one harbor. The orders began issuing last Monday when five ships were ordered to Fort Monroe. On the 16th another ship was added. On the 17th eight more were sent and on the 18th seventeen more ships were added. Yesterday's orders include eighteen more ships. Before the orders began issuing there were eight warships at Fortress Monroe, so that the total up to date is fifty-seven. The movement of these ships northward is due to the close of hostilities, and more particularly to the desire to get the ships away from points of possible fever infection. They will now be

Put In Thorough Repair

and their crews will be gradually changed from naval militiamen to sailors of the regular navy. The navy department has not yet determined what ships will go to Havana, San Juan and other points of Cuba and Porto Rico. There is felt to be no hurry about this until the authority of the United States is fully established throughout the islands. In the meantime the matter of policing the shore points is being considered and in due time a number of the light-draft auxiliary craft and some of the single turreted monitors will be used for this coast patrol. It is found, however, that only four of the old monitors of the Civil war are fit for this service in Southern waters. As many naval vessels will be centered about the West Indies from this time forward, the navy department will send the new floating dock, recently bought in New York, down the coast to Pensacola, Fla., where it will be kept for docking the warships. At that point also there are good naval workshops to be worked in conjunction with the floating dock. The dock is now being covered and will be towed to Pensacola as soon as the September gales are over.

FROM PORTO RICO.

Over Two Hundred Sick and Wounded Soldiers Arrive at New York.

New York, Aug. 21. — The United States hospital ship Relief has arrived here from Porto Rico with sick and wounded soldiers. The Relief left Ponce on the 14th, and Mayaguez on the 15th inst. She carried 248 sick and wounded soldiers from Gen. Miles' army. Ten deaths from typhoid fever occurred on the voyage. Nine of the victims were buried at sea. The following sick and wounded Wisconsin volunteers were aboard the Relief:

Robert E. Eastbrook, private, Company E, Second Wisconsin; Henry B. Harkrider, corporal, Company D, Second; Herbert S. Sternberg, corporal, Company D, Second; Fred Armstrong, private, Company I, Second; Edward K. Hungerford, private, Company E, Second; Robert Morton, Company A, Third; Robert C. Foyle, private, Company F, Third; Wilbur H. Elmer, private, Company M, Second; Robert Gray, Company M, Second; John Klaze, corporal, Company M, Second; Richard J. Yund, private, Company I, Third; Louis F. Jensen, private, Company B, Second; George Upham, corporal, Company I, Second; John McDougall, private, Company M, Second; Thomas D. Young, private, Company B, Second; Silas W. Lewis, sergeant, Company L, Third; John Piler, sergeant, Company F, Second; John H. Johnson, private, Company L, Second; Frank Mayer, private, Company F, Second; Robert J. Kinnie, Company I, Second; John I. Marshall, Company E, Second; Richard J. Rutherford, Company I, Second; Melton C. Klas, private, Company D, Second; Henry J. Frepholz, private, Company L, Second; William F. Appleby, private, Company M, Second; Jesse Goke, private, Company B, Second; Gustave Pawastet, private, Company A, Second; Allen R. Hillegs, Emil Zimmerman, Charles Hahn, Stephen Ricker, John F. Juell, Henry Wright, Roscoe C. Carpenter, Walter Welse, Otto M. Lekell, Jul Benin, John Bowker, M. J. Nicholson, James Colin, privates, Third Wisconsin; Hans Folsom, Nelson Parson, Fred K. Maxenhaven and Martin Haughe.

Officers: Capt. Arthur M. Lee, British army; First Lieut. Charles R. Hunter, First artillery; First Lieut. John P. Haines, Third artillery; First Lieut. Joseph C. Byron, A. D. C., Eighth cavalry; Lieut. Charles Green, Company A, Second Wisconsin; Capt. Asa C. Barnes, Second Wisconsin; First Lieut. Frank E. Lawton, Sixth Illinois; First Lieut. Joseph H. Showalter, Sixth Illinois; Second Lieut. Ralph B. Sherman, Sixth Illinois; Maj. Morris F. Cautey, surgeon, Fourth Pennsylvania.

THE PHILIPPINE QUESTION.

Many Difficulties Will Be Avoided by American Annexation.

London, Aug. 21. — The Times says editorially that it foresees circumstances which may compel the United States to a permanent occupation of Cuba, and adds: "If America is prepared to undertake the responsibility of the government of the whole Philippine group it is hard to see how any other power could legitimately interfere. If the United States repudiates such a responsibility a very perilous state of things might ensue, because it would not be easy to dispute the right of other powers to terminate the state of anarchy. Therefore, many difficulties will be avoided by American annexation. In any case no European power need reckon upon finding the United States so easy to coerce as Japan."

Where Is Prince Herbert?

Berlin, Aug. 21.—It is reported that Prince Herbert Bismarck has hidden himself for the purpose of correcting the proofs of his father's memoirs, which were prepared with the assistance of Dr. Schrysander, the late ex-chancellor's secretary, and Prof. Bucher. It is alleged on good authority, however, that the memoirs contain no startling disclosures, though they are likely to provoke interesting comments from other actors in the events narrated.

Suicide by Drowning.

Menomonie, Wis., Aug. 21.—August Elsnor, a German at North Menomonie aged 57 years, committed suicide by drowning in the Red Cedar river here. He attached a stone to his body and jumped out of a boat.

Russia Wants a Piece.

London, Aug. 21. — The Daily Mail's Odessa correspondent says he hears on incontestible authority that Russia has opened pourparlers with Spain for the cession of a coaling station in the Philippines.

THESE WERE THE TERMS

GEN. MERRITT'S REPORT TO THE WAR DEPARTMENT.

It Gives a Statement of the Agreement, With All Its Stipulations—All the Honors of War Accorded to the Spaniards—Officers Retain Their Side Arms, Horses and Private Property—All the Funds in the Spanish Treasury to be Turned Over to the United States—Provisions Governing the Immediate Future.

Washington, Aug. 22.—The war department has posted the following cablegram from Gen. Merritt, giving the terms of the capitulation of Manila:

"Hongkong, Aug. 22, 1898.—Adjutant General, Washington: The following are the terms of the capitulation:

"The undersigned, having been appointed a commission to determine the details of the capitulation of the city and defenses of Manila and its suburbs and the Spanish forces stationed therein, in accordance with an agreement entered into the previous day by Maj. Gen. Wesley Merritt, U. S. A., American commander-in-chief in the Philippines, and his excellency, Don Fermin Jaudenes, acting general-in-chief of the Spanish army in the Philippines, have agreed upon the following:

"First—The Spanish troops, European and native, capitulate, with the city and defenses and with all the honors of war, depositing their arms in places named by the authorities of the United States, and camp in the quarters designated and under orders of their officers and subject to the control of the aforesaid authorities until the conclusion of a treaty of peace between the two belligerent nations. All persons included in the capitulation remain at liberty, the officers remaining in their respective homes, which shall be respected as long as they observe the regulations prescribed for their government and the laws in force.

"Second—Officials shall retain their side arms, horses and private property. All public horses and public property of all kinds shall be turned over to the staff officers designated by the United States.

"Third—Complete returns in duplicate of men by organizations and a full list of property and stores shall be rendered to the United States within ten days from date. All questions relating to the repatriation of officers and men of the Spanish officers and of their families and of the expenses which said repatriation may occasion shall be referred to the government of the United States at Washington. Spanish families may leave Manila at any time convenient to them.

"Fourth—The return of the arms surrendered by the Spanish forces shall take place when they evacuate the city or when the American army evacuates.

"Fifth—Officers and men included in the capitulation shall be supplied by the United States, according to their rank, with rations and necessary aid, as though they were prisoners of war, until the conclusion of a treaty of peace between the United States and Spain. All the funds in the Spanish treasury and all other public funds be turned over to the authorities of the United States.

"Sixth—This city, its inhabitants, its churches and religious worship, its educational establishments and its private property of all description are placed under the safeguard of the faith and honor of the American army.

—"F. V. Greene, Brigadier General of Volunteers United States Army.
—"B. L. Lamberton, Captain United States Navy.
—"Charles A. Whittier, Lieutenant Colonel and Inspector General.
—"E. H. Crowder, Lieutenant Colonel and Judge Advocate.
—"Nicholas de la Pena, Auditor General,
—"Carlos Reyes.
—"Col. de Ingenieros.
—"Jose Maria Olaguer Feliu de Estado, Major. —Merritt."

MERRITT PROCLAIMS.

He Declares That Natives Must Not Resist Present Officers.

Manila, Aug. 22.—Gen. Merritt has issued a proclamation declaring that the provisional government and the local authorities shall maintain their offices and that everything shall remain unchanged for the present except so far as the supreme jurisdiction is concerned. The proclamation further declares that any native who resists the present authorities shall be treated as a law breaker. Gen. Jaudenes in the course of an interview said he knew the fight was a hopeless one, but he intended to resist the Americans in the name of honor, but was prevailed to surrender on account of the non-combatants. He eulogized the Americans for the humanity they have shown.

Submitting Plans.

San Francisco, Aug. 22.—Engineers sent by the navy department to prepare proposals for bids for the construction of a naval station at Pago Pago harbor, Samoan islands, have arrived. Contractors are now submitting plans to the engineers and the contract for constructing this station will probably be let within a week.

Convalescent Soldier Returns.

Princeton, Minn., Aug. 22.—Lieut. Caswell, Company M, Fourteenth Minnesota volunteers, arrived home from Camp Thomas to-day much reduced in strength by malarial fever. It will take three months' rest and treatment before he can resume work.

Commission Appointed.

Madrid, Aug. 22.—The Porto Rico commission, it is announced, has been appointed. It is composed of Admiral Vallerino, Gen. Ortega and Senor Sanchez Delaguila.

CAPT. BJORNSTAD DEAD.

The Gallant Captain of the Thirteenth Dies of His Wounds at Manila.

New York, Aug. 22.—A World special from Manila says:

Private C. Dunn, of the Astor battery, and Capt. Bjornstad and Sergeant Burnsen, of the Minnesota volunteers, have died of their wounds since the battle. The other wounded officers and men are doing well. Privates Pratt and Dickson have died from typhoid fever. All the wounded are doing well and will recover. The total number of dead in the campaign is twenty-five, of wounded one hundred.

Maj. Reeve, has been appointed chief of police, and Capt. Bleu, inspector, with the Thirteenth Minnesota as a guard, to police the city. The regiment is quartered in the best suburb of Manila.

The whole number of prisoners taken proves to be 13,000, a figure considerably larger than they highest estimate immediately after the battle. They delivered up 15,000 stands of arms. The troops continue in peaceful possession of the city of Manila and its suburbs. Brig. Gen. MacArthur has appointed as provost marshal Col. Ovenshine, of the Twenty-third regulars, and for deputy marshal Col. Smith, of the California volunteers. Brig. Gen. Greene has been appointed fiscal administrator and Col. Whittier collector of customs.

HEROES OF MANILA.

The War Department Receives the Official List From Gen. Merritt.

Washington, Aug. 22.—The war department has received the following from Gen. Merritt:

In the assault upon Manila, Aug. 13, Gen. Anderson commanded the division, Gen. MacArthur the First brigade and Gen. Greene the Second. The losses were as follows:

Killed—First Sergeant Holmes, Astor battery; Sergeant Cremins, Astor battery; Bugler Patterson, Thirteenth Minnesota; Private Dunlen, Twenty-third infantry; Private Dinsmore, First California.

Wounded—Capt. Seebach, Thirteenth Minnesota, seriously; Capt. Bjornstad, same regiment, badly; Lieut. Bunker, same regiment, slightly, and forty enlisted men. —Merritt.

Note—Forty names of private wounded have already been published and are probably the same as those referred to above.

Washington, Aug. 22.—The department has no news concerning the wounded at Manila since it received Merritt's report. So far as is known here Capt. Bjornstad, of the Thirteenth Minnesota, was not dangerously wounded.

LETTER FROM SCHLEY.

Admiral Schley Deprecates Controversy Over Honors of War.

Duluth, Aug. 22.—Following is an extract from a letter received from Admiral Schley, written on board the flagship Brooklyn at Guantanamo, Cuba, July 28, in answer to a letter of congratulation written by Congressman Page Morris, of the Sixth Minnesota district, on the naval victory at Santiago:

"I have uniformly held that I only shared the honors of that day with my brave comrades; and I deprecate the unseemly controversy that has arisen over the honors. I felt then as I feel now, that the victory was so uniquely complete in results and so rich in glory that there would be honors for all."

Spanish Conservative View.

Madrid, Aug. 22.—Senor Silvela, the leader of the Conservatives, expresses the views of that party on the capture of Manila in the following statement:

"The capture of Manila in no wise affects the rest of the archipelago, and the Cortes should be summoned with urgency to prevent the world gaining the impression that Spain has lost her sovereignty in the Philippines. The Liberal party should conclude peace, but the Sagasta cabinet cannot effect the task."

If the queen regent tenders him an invitation Senor Silvela is disposed to accept the office.

Plans for a Cable.

Sidney, N. S. W., Aug. 22.—Rt. Hon. Sir Hugh Nelson, premier of Queensland, Rt. Hon. Sir George H. Reid, premier of New South Wales and Rt. Hon. Sir George Turner, premier of Victoria, met in conference on Saturday and discussed plans for a Pacific cable. They decided to make the definite offer that if Great Britain and Canada collectively would guarantee five-ninths of the expense of the construction of the new cable they would recommend to their respective legislatures to contribute one-ninth each, asking New Zealand to contribute the remaining one-ninth.

First Mail to Spain.

New York, Aug. 22.—The French line steamer La Normandie, which sailed Saturday for Havre, carried the first mail to leave this country for Spain since the beginning of the war. There were two sacks of letters and one sack of papers for Madrid, two sacks of letters and one sack of papers for Barcelona and three sacks of letters and one sack of papers for the North of Spain. This mail consisted of 11,082 letters and 900 papers.

Private Tetzloff.

Arlington, Minn., Aug. 22.—Private H. H. Tetzloff, of the Thirteenth Minnesota, wounded at Manila, is a nephew of Fred Tetzloff, of this place. His home is in New York state, but he enlisted at St. Paul. Private John A. Curtin, of Company C, Second regular infantry, who died of fever at Santiago, was a resident of this county. His mother and brothers reside on a farm near here.

Mill Sold at a Sacrifice.

Grand Forks, N. D., Aug. 22.—The North Dakota Milling company's plant, including a 500-barrel mill and 60,000 bushel elevator, was sold by Receiver Whitted to Frank Crane of Cummings for $8,500 cash. The plant was valued to $90,000.

Female Aeronaut Killed.

New York, Aug. 22.—Addie Christiansen, a balloon performer, was killed at Bergen Beach by a fall of several hundred feet. Her parachute failed to open.

THE PRESIDENT IS SATISFIED

DEWEY AND MERRITT SECURED THE BEST POSSIBLE TERMS.

Conditions About the State, Navy and War Building Have Assumed Their Normal State—The Terms of the Capitulation of Manila a Topic of Discussion Among War Officials—Some Believe the Surrender Includes Only the City of Manila and Its Immediate Surrounding.

Washington, Aug. 22. — Conditions about the great state, war and navy building practically have assumed their normal aspect. Only a few clerks were on duty in the principal bureaus yesterday and they did only a few hours work.

Acting Secretary of the Navy Allen said in the evening that it had been the quietest day in his department since the destruction of the Maine. During the afternoon he received sixteen dispatches, fourteen of which related to the movement of vessels, arrivals or departures, the remaining two referring to matters of the merest detail. Not a word was received from Admiral Dewey notwithstanding the report that the cable communication had been opened.

Among the war officials the terms of the capitulation of Manila as cabled by Gen. Merritt was a topic of discussion. No light had been thrown upon the terms by Gen. Merritt. He cabled the terms themselves, expecting probably to forward by mail the construction placed upon them by the American and Spanish officers at Manila.

Unofficial advices from Manila received previous to the arrival of the text of the terms indicated that the capitulation of the city included the surrender of the Philippines and that Spanish sovereignty over the whole archipelago was temporarily at least at an end. This view is not sustained by the conditions of the surrender as cabled by Gen. Merritt and it may be said, it is not the view taken by the best informed officials of the administration. While some of the war authorities last night were inclined to the opinion that the articles of capitulation, necessary temporary and naturally somewhat elastic in their phraseology, might be construed to mean the surrender of the Spanish control over the islands, the prevalent opinion now is that they mean precisely what they say and that the surrender includes only the city of Manila and its immediate surroundings or suburbs as it is expressed in the articles.

It can be said authoritatively that the president is satisfied with the terms as made by Gen. Merritt and Admiral Dewey. The instructions afforded them considerable latitude for individuality of action, the president feeling confident that they would secure the best possible terms in the circumstances. That they have done so, he is certain.

WITH HONORS.

Befitting Them Michigan's Naval Reserve Are Welcomed Home.

Detroit, Mich., Aug. 22.—With honors befitting them, Detroit citizens welcomed home the Michigan naval reserves, who served throughout the war on the auxiliary cruiser Yosemite. A special train carried a party of relatives and friends to Toledo where the men were given their first welcome. On alighting from the train at the depot in Detroit the reserves were met by one of the largest crowds ever seen in Detroit. The revenue cutter Fessenden fired a salute of welcome, all the steamers on the river and the locomotive whistles chiming in with shrill blasts. Amid the cheers of thousands the reserves and a military escort which was waiting to do them honor, paraded through the principal streets.

Lady's Generous Offer.

Cincinnati, Aug. 22.—The story of the destitution of the sick of the Sixty-ninth New York at Fernandina has brought a generous offer from a lady in New York city. She writes Mrs. J. J. Gest, offering through the Cincinnati Army and Navy league the use of Tiger island, off Fernandina, for hospital purposes. The island is admirably adapted for such a purpose. This lady calls attention to the danger of long journeys and change of climate for typhoid patients.

New Revenue Cutter.

Cleveland, Ohio, Aug. 22.—Orders have been received by the Globe Ship building company to convey the Onondaga to the seacoast. The Onondaga was built in Cleveland and for the revenue service, but later was assigned to the navy. She is at Ogdensburg, N. Y., and will be cut in halves to get her through the St. Lawrence canal. It is understood that she will go into service as a revenue cutter.

Druggists' Rebellion.

Chicago, Aug. 22.—The Chicago Retail Druggists' association stands sponsor for a call issued to retailers throughout the country, asking them to send delegates to St. Louis Oct. 20. The object is to form an association for concerted action against the manufacturers, who, the retailers say, have thrown the whole burden of the stamp tax on proprietary articles on the retailer.

New York Republican Convention.

New York, Aug. 22.—The Republican state committee has decided to hold the state convention at Saratoga on Sept. 27.

Postmaster for Marshall.

Washington, Aug. 22.—The president has appointed Frank W. Sickler postmaster of Marshall, Minn.

Now Being Operated.

Hongkong, Aug. 22.—The cable line between Hongkong and Manila is now being operated.

Editor Flack of the Crookston Tribune is evidently trying to serve his masters as well as he knows how. His servility would not be greater if his skin were black and hair curly.

HIS RECORD IS CLEAN, TOO.

The cool, deliberate, off-hand manner in which these republican papers lie is really refreshing. Take for instance, the statements now being cuckooed by them about the district, that the independent and populist papers are making the campaign for Senator Ringdal solely on his good looks, and can find nothing to recommend him to the voters but the claim that he is handsome.

No one ever heard this claim made by an independent or populist paper. The first reference made to Mr. Ringdal's personal appearance was in the Fergus Falls Journal when that gentleman was touring the southern portion of the district last month, and with the fact was coupled some very nice statements concerning Senator Ringdal that any man would be warranted in thinking no matter what his politics.

The republicans now seek to put this claim into the mouths of their opponents, and having done so proceed in an attempt to make political capital out of it.

Granting however, that Mr. Ringdal has a pleasing personal appearance, it is surely as much to his credit as Mr. Eddy to be classed as the homeliest man in congress. There certainly is much credit in one being regular featured, and cleanly and neat in appearance as there is in his being ill favored by nature, and then drolling tobacco spittle all over his clothing. This portion of the state never has had a call to feel especially proud of the comment of the Washington correspondent of a western paper who said Minnesota's representative from the seventh district looked like a hodo and voted like a millionaire. —Crookston Times.

The Crookston Tribune was long on NIT'S in last Saturdays issue in a leading editorial and that is the way the voters in this district size up the Tribune. Sort up on "caps" Flack—evidently you need them.

States That Vote This Fall.

In the coming fall election there will be more state offices filled than at any election—other than presidential contests—since 1882. This year New York elects a governor, a lieutenant governor, and all other state officers, together with both branches of the legislature and a full congressional delegation. Pennsylvania will elect state officers and a legislature, which will choose a United States senator to succeed Matthew S. Quay. A very unusual event of this year will be the simultaneous election of governors in New York, Pennsylvania and New Jersey. The rarity of this coincidence is explained by the fact that in Pennsylvania that the term of a governor is four years, while in New York and New Jersey it is two and three years, respectively.

In Alabama a governor and all state officers are to be voted for this month, and a governor and other state officers will be chosen for Arkansas, Maine and Vermont in September. Governors will also be elected in the following states: Kansas, Michigan, Minnesota, Nebraska, California, Colorado, Georgia Connecticut, Idaho, Nevada, New Hampshire, North Dakota, South Dakota, South Carolina, Tennessee, Texas, Wyoming, and Wisconsin. The regular annual election will be held in Massachusetts; Iowa, Indiana, and Ohio will elect state officers; North Carolina, a chief justice; and Connecticut, in addition to a governor, will elect other state officers. In Maryland, Delaware, West Virginia, Kentucky and Missouri the elections will be unimportant this year.

On the fourth of March, 1899, the terms of thirty United States senators will expire, among them being twelve Republicans, twelve Democrats, three silver Republicans, two gold Democrats and one Populist. Of these some have already been re-elected.

Washington Letter.

From our Regular Correspondent.

Hurrah for Admiral Dewey! He's the top-notcher of the whole outfit. He fought the first battle of the war and the last battle, and won both without the injury of a ship or the loss of a man, and some of his ships may be fighting yet, as he started them, after the capture of Manila, and before he knew anything of the armistice, for some of the other islands in the Philippines, with orders to take possession of everything in sight and to raise the American flag over everything captured. There was no way of recalling these ships after news of the armistice reached him, so that it is among the probabilities that every one of the Philippine islands may be under the American flag before the commanders of those ships find out anything about an armistice, and the armistice is not binding upon them until they have official knowledge of it.

No man's hand has been shaken oftener or more cordially this week than that of "Fighting Joe" Wheeler who came to Washington in response to orders from the War Department. Gen. Wheeler has a better opinion of the Cuban insurgents than most of the officers who have been heard from on on the subject. He said of them: "The Cubans were poorly clad and poorly fed. They did not make a very impressive appearance as soldiers. They probably misunderstood the conditions and circumstances about Santiago. Very few of them talked any English, and communication between Americans and Cubans was very difficult. I know of the charges that they would not work on the roads and other projects for the assistance of the American army. I think that was due to a large extent to their not understanding what the work was for. I found Cubans who were willing to work after interpreters had explained to them why the work was necessary."

NOBODY CLAIMED THE PAPER

A Rebuke by General Washington That Evidently Frightened the Owner.

Major William Pierce left behind him a partial record of the debates in Philadelphia which supplement those of Madison, Yates and King; also the following anecdote:

When the convention first opened at Philadelphia, there were a number of propositions brought forward as great leading principles for the new government to be established for the United States. A copy of these propositions was given to each member, with an injunction to keep everything a profound secret. One morning, by accident, one of the members dropped his copy of the propositions, which, being luckily picked up by General Mifflin, was presented to General Washington, our president, who put it in his pocket. After the debates of the day were over and the question for adjournment was called for the general arose from his seat and, previous to his putting the question, addressed the convention in the following manner:

"Gentlemen, I am sorry to find that some one member of this body has been so neglectful of the secrets of the convention as to drop in the statehouse a copy of their proceedings, which by accident was picked up and delivered to me this morning. I must entreat gentlemen to be more careful, lest our transactions get into the newspapers and disturb the public repose by premature speculations. I know not whose paper it is, but there it is (throwing it down on the table). Let him who owns it take it." At the same time he bowed, picked up his hat and quitted the room with a dignity so severe that every person seemed alarmed. For my part, I was extremely so, for, putting my hand in my pocket, I missed my copy of the same paper, but, advancing up to the table, my fears soon dissipated. I found it to be the handwriting of another person. When I went to my lodgings at the Indian Queen, I found my copy in a coat pocket which I had pulled off that morning. It is something remarkable that no person ever owned the paper.—American Historical Review.

Inadequate Identification.

A woman who is newly come to town went into one of the banks one day last week to have a check cashed. The paying teller examined the check with that air of suspicion a paying teller never loses.

"You'll have to be identified, madam," he said politely.

The woman was in a great hurry.

"Identified!" she said. "Why, I haven't time to go and get anybody to identify me! Besides, I don't know three people in town."

"I'm sorry," said the teller, "but the rule is invariable."

"But," protested the woman, "I really am the Mary L. Brown named on the check. You don't doubt that, do you?"

The teller looked embarrassed.

"It's only a form, madam," he said, "but we must insist on some identification."

A happy thought struck the woman. Her name was on her handkerchief.

"Would the name on my handkerchief be any identification?" she asked. The teller replied that it would.

"Well, then," said she majestically, handing over the square of linen, "perhaps you'll be good enough to give me the money now!"

The teller examined the handkerchief and handed it back without a word. In one corner was daintily written in indelible ink, "Sarah Jones."

The check was not cashed till next day, and the newly arrived woman has discharged her laundress.—Washington Post.

AN EGYPTIAN ETON.

SCHOOLS IN WHICH THE RICH BOYS OF CAIRO ARE EDUCATED.

Difficulties That English Teachers Have to Contend With—Pupils Are Boys In Name Only, For the Egyptians Have No Genuine Youth.

They were training for the sports. In the sunny playground was a row of big, fat boys—though none of them came within six inches of the slim, young, befezzed English head master—hanging on to a rope made fast round a tree. The trained instructor from Aldershot—he not so young or slim as he has been, but with muscles all, india rubber and steel—was teaching them the tug of war. His white toothed, black faced, khaki clad Sudanese assistants were helping him.

I was in the Egyptian Eton. It was one of three schools originally founded for training teachers capable of giving instruction in English or French. But now it contains primary and secondary schools and a training college for the teachers, so that I was in a fair way to see at its best a summary of the whole system of public instruction in Egypt. It is only in its infancy as yet.

First we went into the primary school. There were not many pupils because the fees here are high—as much as $60 and $75 a year for day boys—and nobody much comes to the primary part except those who have failed elsewhere and whose fathers think the high fee a guarantee of high cramming. The primary course in Egypt takes four years; in the first, only Arabic subjects are taught; after that, English or French is introduced and gradually extended till in the two last years it takes 13 hours out of the weekly 33. All the instruction in languages is given in the language itself, but by natives. Only one—English or French—is taught, but that is taught thoroughly.

In the lowest class there were just four boys—absurd little owls with the gravity of old men, dressed in fez and overcoat. They were getting a drawing lesson from an elderly Arab with a shawl round his head. When I went in, they all stood up and saluted. In the highest class they were having an English lesson from a young native in a large butterfly tie. Their English was thick and sloppy; so, if it came to that, was the master's. Still you could understand it. In this class mustaches were already budding, and it seemed strange to hear young men reading infantile stuff about the sparrow.

The great difficulty in schools like this arises from the fact that a Mussulman is never a boy. As soon as he leaves the harem and is no longer a baby he jumps at a bound to being a man. A boy will do well in his classes up to 14, 15, 16, and then suddenly the cafes and hasheesh and lights o' love claim him, and from a bright eyed urchin he becomes a sallow, flashy, sodden, stupid, dissipated man about town. In one primary school two boys, 16 and 11, have just been married—not betrothed, you know, but really married, and living with their wives. The native master saw nothing extraordinary in a married sixth standard boy. Under the former system a boy took his primary certificate, which qualifies for lower government posts, at 14 or so, then spent six years getting his secondary certificate, and then perhaps went on to the training college or the schools of medicine or of law. Consequently he might easily be the father of a very fair sized family years before he started to earn a piastre.

Lately, by shortening the secondary course from five years to three, a real effort has been made to get boys out of hand and into the world before 20 or so. When we got on to the top form of the secondary school, there was no appreciable difference in the sort of boy—all befezzed, all overcoated, most mustached, all grave, as if school were a matter of life and death.

There is no difficulty in point of discipline with the Egyptian schoolboy. The French masters have some trouble sometimes, I was told, but in the very, very rare cases where an English master finds his classes too much for him he must go. It will not do to bring up the young in the idea that they may set at naught the authority of an Englishman.

And what, when all is said and done, of the Egyptian schoolboy? Does he do any good in return for the patient, intelligent, honest care his English masters bestow on him? Well, he is learning to play football, and that will be good for him, only when a boy says to his master, after playing the Egyptian Sandhurst, "The ground was too undulating; it recalled to me Hannibal's passage of the Alps," why, then, you perceive that even football will not necessarily turn a precocious man into a boy again. He is astonishingly industrious. The difficulty is not to make him work, but to prevent him from overworking. Eight hours' home work after five and a half in school is by no means an unknown performance. Some of his work in English literature which I saw compares quite well with that of university extension students at home, but, like theirs, it reads very textbooky. He has an astonishing gift for languages, and he can appreciate a play of Shakespeare with ghosts or witches in it and a good allowance of florid metaphor, no worse—perhaps better—than an English schoolboy.

But at the end of it all he is parrotlike in his unintelligence, incorrigible in his inaccuracy, hopelessly fatuous in his dishonesty. He understands ordinary English, if you ask him questions, uncommonly well, but he will reel you off a page of textbook, understanding the meaning of each word, but without an idea of the connected sense of it.

Will they ever make a boy of him? If skill and trying can do it, they will, and if he can be made a boy he can be made a man. But it is work against the collar, and it will not be done today or tomorrow.—G. W. Stevens in London Mail

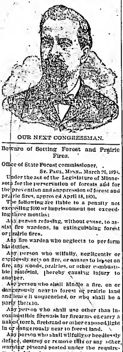
PETER M. RINGDAL.



OUR NEXT CONGRESSMAN.

Beware of Setting Forest and Prairie Fires.

Office of State Forest commissioner,
St. Paul, Minn., March 26, 1898.

Under the act of the Legislature of Minnesota for the preservation of forests and for the prevention and suppression of forest and prairie fires, approved April 18, 1895.

The following are liable to a penalty not exceeding $100 or imprisonment not exceeding three months:

Any person refusing, without cause, to assist fire wardens, in extinguishing forest or prairie fires.

Any fire warden who neglects to perform his duties.

Any person who wilfully, negligently or carelessly sets on fire, or causes to be set on fire, any woods, prairies, or other combustible material, thereby causing injury to another.

Any person who shall kindle a fire, on or dangerously near to forest or prairie land and leave it unquenched, or who shall be a party thereto.

Any person who shall use other than incombustible firewads for firearms or carry a naked torch, firebrand or other exposed light in or dangerously near to forest land.

Any person who shall wilfully or heedlessly deface, destroy or remove this or any other warning placard posted under the requirement of the above mentioned act.

Any railroad company wilfully neglecting to provide efficient spark arresters on its engines; or to keep its right of way to the width of 100 feet cleared of combustible material; or which shall fail to comply with other provisions of section 12 of the above mentioned act.

The following are liable to a penalty of not less than $5 nor more than $50:

Any railroad employe who wilfully violates the provisions of section 12 of the above mentioned act.

Any owner of threshing or other portable steam engine who neglects to have efficient spark arresters, or who shall deposit live coals or hot ashes without extinguishing the same.

The following are liable to a penalty not exceeding $500 or imprisonment in the state prison not over ten years, or both:

Any person who maliciously sets or causes to be set on fire any woods, prairie, or other combustible material whereby the property of another is destroyed and life is sacrificed.

R. C. DUNN, (State Auditor),
Forest Commissioner.

C. C. ANDREWS;
Chief Fire Warden.

By special arrangement with the publishers we are enable to give Farm, Stock and Home one year and the St. Hilaire Spectator for **$1.25.**

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD.

The success of THE RECORD rests upon its reliability.

It prints the news—all the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world.

Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

Sold by newsdealers everywhere and subscriptions received by all postmasters. Address THE CHICAGO RECORD, 181 Madison street, Chicago.

LOCAL NEWS.

Wheat 54 cents to day.

Monday September 5th is Labor day.

The price of wheat is still going down.

Look over the Five cent counter at Hall's.

Threshing will begin the later part of next week.

School begins a week from Monday—September 5th.

Otto Olson is in the employ of Rapp & Post's again.

Try a lunch, a meal or a weeks board at the Ideal Lunch Room.

The rain the first of the week retarded grain cutting somewhat.

Mrs. J. H. Johnson is very low being troubled with heart disease.

Dr. Francis expects to move into his fine new residence next week.

Most all the wheat in this county will grade No. 1 northern or better.

LOST:—Office key of the jack knife make-up. Leave at this office.

There is a split in the republican ranks in the 14th judicial district.

Mr. and Mrs. J. G. Ballard spent Sunday in Crookston visiting friends.

Fifteen men came up from Minneapolis Monday to work in the mill.

WANTED:—A girl to do general house work. Apply to Mrs. J. A. Dainard.

J. A. Dainard delivered a car load of cattle at St. Paul and returned yesterday.

The Odd Fellows will meet in their new hall for the first time tomorrow evening.

J. M. Markham returned yesterday from a several days trip at his old home in Aitkin.

H. E. Ives returned Monday from Crookston where he had been on a short visit.

Brink Bros. will commence building their new business block sometime next week.

Roseau county is the hot bed for scrappers judging from reports in the several papers.

Two threshing rigs were shipped in from the south last week. Both were second handed.

Look over the fire wardens notice in this weeks issue. It may prove beneficial to you.

Jake Thill the well known elevator man at Wylie was here the first of the week on business.

It is claimed trains will be running over the line from Fosston to Deer River next Monday.

Our merchants are all stocking up heavily for the fall trade. Cases after cases are arriving daily.

The threshing season will be short on account of so many threshing machines being shipped in this fall.

The St. Hilaire Lumber Company are shipping out fourteen cars of lumber per day on an average.

Mrs. Hoppe mother of August Hoppe of the town of Sanders, died Sunday at the ripe old age of 92 years.

O. A. Wiste of Hellock came over on his bicycle last Saturday to make a short visit with his parents.

Street Commissioner Harris is improving the looks of the side streets by cutting the unsightly weeds.

It looks now like the Fourteenth Minnesota Regiment will be sent home and mustered out of the service.

J. I. Johnson's large St. Bernard dog was shot last Saturday on account of biting one of L. N. Nolan's children.

Mike Fricker has his feed mill in running order and can accommodate anyone wanting anything in this line.

A week from tomorrow and you can shoot chickens and grouse in Minnesota—and not before according to law.

The family of Mr. J. Knowles arrived from Aitkin Monday and are now nicely settled down in their new home.

Fred Eikhoff who had the contract for doing the carpenter work at the school house completed the work yesterday and turned over the keys.

A colored gentleman is acting as porter at the Hotel St. Hilaire arriving one day last week.

Pike fishing is good and its not necessary to get off-fish stories these days. Just set the number and you can get them.

Dewey began the war by a brilliant engagement in the Philippines and ended it in the same way. All honor to Dewey

—Remember the SPECTATOR when you market your grain this fall. Your bill is small, but don't let that keep you away.

Dr. Thomas the Crookston dentist was here on professional business Monday. He was accompanied by his estimable wife.

A great many farmers have signified their intention of holding their wheat until such a time as they can see a profit to themselves.

Soldiers when discharged are to be carefully examined as to health and disabilities, in order to prevent pension frauds in the future.

Supt. of Schools Jeffers was here Thursday and stopped over night while enroute to Thief River Falls to hold teachers examination.

Sam Dainard is following up his old vocation of buying and selling cattle. He shipped a car load to the St. Paul markets last Saturday.

At the end of the present week the wheat harvest will be about finished and it will be one of the best and heaviest crops ever cut in these parts.

Two machines at the planing mill have been running nights since last Monday and expect to continue for some time to catch up with orders.

It is estimated that 700 Minnesota bird dogs were shipped over into North Dakota last Saturday for the purpose of training them—the shooting season opened on the 20th.

A large lot of ladies shirt waists received this spring, which have been selling for $1.50 to $1.75 will now be sold for 75 cents. Take your choice of the lot at E. M. Hoff's.

A. R. Jones has been busy since he came up here last week cleaning up inside and around the St. Anthony & Dakota elevator. He has everything in shape and ready to handle grain.

Miss Ellen Brady, cousin of Prof. J. B. O'Brien was here between trains last Friday on her way home to Red Lake Falls from Winona where she has been for some time attending teachers training school.

The Crookston Tribune is not satisfied the way the republican judicial convention was pulled off and came right out and said so the following day. The machine would not break at the proper time.

T. J. Thorkelson of the Imperial Drug Store returned Thursday from a three weeks stay at his old home. He returned with his wife and both are welcomed additions to the society going people of St. Hilaire.

Mary had a little lamb; that time has passed away. No lamb could follow up the pace that Mary sets to-day. For now she rides an air-shod wheel, in skirt too short by half; no lambkin shares her airy flight, but you can see her calf.—Ex.

Ben Rosenberg and L. N. Nolan drove to Thief River Falls last Saturday on business. Ben did the driving and came home with a broken buggy pole which is not bad considering it is the first time he ever drove a team.

Some of the farmers in this neighborhood have let some of their grain standing too long and now complain that as soon as the sickle strikes the grain it shells on account of being too ripe. It is too bad such is the case.

Mrs. A. J. Wheelock of Fergus Falls is still writing and describing the trip of the Minnesota Editors to the coast. It is the best written description we ever have seen—but then perhaps it is because Mrs. W. was on the pilot most of the time taking observations.

We don't really understand why the republican sheets of this district object to newspapers running the cut of Hon. P. M. Ringdal—our next congressman. Two years ago all the republican papers were running the cut of their champion—Frank M. Eddy—and the opposition papers said nothing about his looks or running said cut.

At the republican judicial convention held at Crookston last Thursday the Norman county delegation got disgusted the way a certain few handled the machine and walked out of the hall before the vote was taken, and still some of the papers are talking about a "harmonious" meeting as though "harmonious" was spelled in capital letters.

The dance given by the Royal Neighbors in Hotel Markham Saturday evening was a grand success socially and financially. The dancing commenced early in the evening and continued with increased gayety until supper was announced. A spread was served such as the ladies of the order are famous for. The inner person being well satisfied dancing was again resumed and continued until the hour of retiring.

Wm. Watts resigned as attorney for the N. P. railroad company, in order that he might not be accused of being a corporation lawyer in his fight for judge. It is said that his resignation had a string to it and that the job was to be returned to him in event of his defeat. In the meantime his political manager, R. J. Montegue acts as the attorney for the road. The question that presents itself is, where will Mr. Watts be with reference to this corporation in event of his election?—Crookston Press.

Now is the time to get the SPECTATOR.

CAMP GEO. H. THOMAS.
August 17th 1898.

FRIEND SOLL.

As I am at leisure this afternoon I concluded I would write to you.

We are living in great expectancy of being excused from the arduous task of being soldiers, with no scrap in sight and plenty of fever and other sickness staring us in the face for our sick list is gradually increasing as the season advances and no doubt if kept here through the fall months a great many will die heroes to the cause without ever once seeing the enemy. We had another general review to-day of all the soldiers in the park, some 11,000 in all; there were a great many visitors as it was a general holiday with the people of Chattanooga. All business places were closed and I believe every one who could attend were spectators to the pageant parade. It is possibly the last review we will take part in and all joined I am sure in hoping so. Since peace has been declared I must state John, I like Chattanooga very well it is a very picturesque place and we find her people of a very hospitable nature and seem to appreciate the fact that this vast army of men are mobilized here but from a business standpoint. I believe they have reason to be satisfied with $1,000,000 monthly circulated amongst them. John, that beats a saw mill all hollow, don't it? There is no use of me going on and telling you any of our troubles because I am sure a man in your business has troubles enough of his own. A great many of the people here do not wait to get shot, but I actually have heard them kicking when I know they were only about half shot and they will not stand for that kind of beef here, but as I have no reason to think otherwise. I will say although there are others as good, the 11th is not playing second to any of them in any manner whatsoever. I am not a good enough correspondent to give you the particulars of this days review but will send you to-morrow mornings Chattanooga Times which will have a full account of the days proceedings. I think it took them about 1½ or 2 hours to pass the reviewing office that is Artillery Cavalry, Infantry, Red Cross hospital corpse and all Well John, I have just received an invitation to go down to the West Virginia canteen and as I can hardly overlook a bet of this kind on this sultry afternoon I will close with best wishes to all.

Yours etc.,
Corp. C. W. COOGAN.

Teacher's Examinations.

Fall examinations for teachers will be held as follows:

Red Lake Falls Friday Saturday September 23rd and 24th.

FRANK JEFFERS,
County Supt.

DON'T BE ASHAMED—

To tell us if you have company.
If a child is born.
If you are going to get married.
If any relative or friend has died.
If your wife has gone away on a visit.
If anything happens worth printing.

Arrow Shots.

There are only a few women who know how to cook.

How our estimate of some people falls as we learn to know them.

You can tell by the length of time it takes to wind a clock how long it will run.

We can not understand why shoes that look well are always so uncomfortable.

If women had more pockets in their clothes they would not lose half as many things.

A woman isn't happy when out shopping unless she is losing half her packages.

A womans idea of correct house keeping is not to leave anything where her husband puts it.

Ask a girl her age and she always tells how old she will be her next birthday, as long as she is young.

When a women misses a social gathering the rest of the women wonder if she didn't have clothes to wear.

Sometimes a man wears his socks wrongside out for luck, and sometimes because he is drunk and don't know any better.—Fertile Journal.

Methodist Episcopal Church.

Services next Sunday at 10 o'clock a. m. and 8 o'clock p. m. Sabbath School at 2 p. m. Junior League at 3 p. m.

REV. U. M. CREATH, Pastor.

Platform of the Democrats, Populists and Silver Republicans.

First. They are unalterably opposed to gold monometallism.

Second. They demand the immediate restoration of bimetallism at the present ratio by the independent action of his country.

Third. They oppose the retirement of the greenbacks.

Fourth. They oppose the issue of paper money by national banks.

Fifth. They oppose the issue of interest-bearing bonds.

Sixth. They favor the income tax as a means of raising part of the revenue necessary to administer the federal government.

Seventh. They favor the abolition of trusts.

Eight. They are opposed to government by injunction.

Ninth. They are in favor of arbitration and means of settling disputes between labor and capital.

The Army and Navy.

Have covered themselves with glory during the war. The Army and Navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of navel ships, glossary of navy and army terms, translation of Spanish words, etc. Send ten cents to Chas. S. Fee, general passenger agent, N. P. R., St. Paul, Minn., for a copy.

—The SPECTATOR is for sale—at one dollar a year—strictly in advance.

From Farm, Stock and Home.

There are too many who would rather dress good than be good.

Never say in a letter to another what you would not be free to say to his face.

The very rich are in favor of only such taxes as can be shifted on to the other fellow.

Children are made better men and women by teaching them to be kind to animals.

"Failure to break ground for a fire-break around the stacks last fall broke me," writes an ex-farmer.

The agility of the acrobat is not in it with that of the corporation or every rich individual in dodging war taxes.

Speed, coolness, skill and good marksmanship seems to count for more than thickness of armor in modern sea fighting.

The strongest temperance papers advertise medicines that are much richer in alcohol than beer, and some of them are practically beverages, too.

Nine million dollars worth of Minneapolis street railway property is valued for taxation at $120,000. At this rate a $5,000 farm would be valued at $66.66. Is it, and if not, why not?

Years ago Wendell Phillips said: "Our greatest danger in this country now is corporate wealth." And that was before it owned legislatures and courts, and dictated to men how they must vote.

The young ladies down east are having their Bathing Suits made of red, white and blue, in order to stimulate patriotism into the young men to "rally round the flag."

Resolutions.

WHEREAS, the first annual Teacher's Training school for Red Lake county, after a four weeks session is about to come to a successful close, and,

WHEREAS, we feel the benefit derived have been a great and lasting good to us in better preparing us for the high and noble calling of teachers in the public schools; and,

WHEREAS, Conductor Ballard and Assistant White have earned the gratitude of the school by their courteous and kindly attention, and their efficient instruction, and county superintendent Jeffers has in a like degree merited our sincere thanks and commendation for his enterprise in providing this Training school for the teachers of Red Lake county, over which he so ably presides; and,

WHEREAS, the Board of Education of Red Lake Falls has manifested liberal spirit in the donation of the school building for our use, and the citizens of Red Lake Falls have spared no efforts to make the stay of the visiting teachers among them pleasant and agreeable; Therefore be in resolved, that we hereby express to Mr. Ballard, to Mr. White, to Co. Supt. Jeffers, to the Board of Education and to the citizens of Red Lake Falls our sincere and hearty appreciation, and that we return to our work bettered and made more fitted for the duties before us, with pleasant, and abiding recollection. Resolved also, that we ask Supt. Jeffers to use his influence in securing Mr. Ballard and Mr. White for our instructor's in the next training school in this county;. Resolved further, that a copy of these resolutions be published in all the county newspapers.

BY ORDER COMMITTEE.

—If you are in need of a pair of glasses J. Q. Adams will fix you out on his next trip to St. Hilaire which will be Sept. 12th 13th and 14th. If you have a watch or clock that needs repairing or cleaning leave it at Johnson's drug store and that will be attended to.

Program for Week of The State Fair.

The program for Minnesota State Fair week presents race attractions for visitors.

Monday, Sept. 5th, Bicycle Day, with a program which will make the most entertaining wheelman's meet ever held in the Northwest.

Tuesday, Sept. 6th, Reunion of Territorial Pioneers, who will have headquarters on the grounds. In the afternoon will come off the 2:30 class pacing race and 2:10 trotting race, each for a purse of $1,000, which, with other racing events will make a great program.

Wednesday, Sept. 7th, St Paul Day.—In addition to the 2:40 and 2:50 trotting classes, both of which will be strong events the great 2:13 pacing class race for $2,000 purse contributed by the business men of St. Paul will be the feature of the day. For this extraordinary race and purse 21 horses are entered, among them some of the fastest pacers in the world, many of which have made phenomenal records since the entries for this race were made.

Thursday, Sept. 8th, Minneapolis Day—On the program for this eventful day are the 2:18 pacing and 2:45 trotting races, and the 2:13 trotting contest for the $5,000 offered by the business men of Minneapolis. For this race 21 horses are entered, most of them very fast ones, and it is not necessary to say that the contest will be a hot one.

Friday, Sept. 9th, Farmer's Day.—The 2:05 and 2:22 classes of pacers, and the 2:17 trotting class, each race for the magnificent purse of $1,000 are features of Farmers' Day. The races will be fast and exciting, and other special attractions will add to the interest of the afternoon.

Saturday, Sept. 10th, Childrens' Day, will be crowded with entertaining features, and special race events will come off at the grand stand in the afternoon second in interest and excitement to no other day of the Fair.

On every afternoon during the week there will be running races, thrown in between trotting and pacing heats, balloon ascensions, Japanese Day Fire works, curious and novel, and that wonderful show of five pacers that pace a mile race, without rider, sulky or driver, making an actual race in time lower than 2:10, the most marvellous display of horse sense and horse education ever seen on any track. These with other special features and a daily Band Concert will make a grander race and amusement program than has ever been announced before for any fair in any state. Every visitor will be handsomely entertained, as well as instructed by the practical and educational features of this—the greatest event of the year to the majority of the people of Minnesota and the Northwest.

WRONG IN ITALY.

CAUSES OF DISTURBANCES IN THE SUNNY LAND.

The People Are Easily Led—And the Accounts Published in the Home and Foreign Papers Greatly Exaggerated the Real Situation.

The following extract from a private letter written from Florence to a London friend by an experienced Dutch journalist, who was taking a holiday in Italy when the rioting took place, will be read with interest, says the London Outlook: "There have been disturbances, of course, but if you did not chance to be in a place just when they occurred, or if, being in that place, you had stayed in another part of the town, you would have known, if you did not read the papers, as little about the facts as if you had remained in London. I do not say that the facts in the Italian papers, and consequently in most of the telegrams to other countries, are not true, but they are much exaggerated and put in such a light as makes them look far more dreadful than they really are. The cause of this is quite simple. The Italian newspapers, so far as I know them, do not live on advertisements. They have but few of them, mostly quacks and notices which are thought useful for foreigners. Remember that for centuries, in fact, as long as the Christian world has existed, much of the population of Italy, more especially that of the great towns, lives by the forestieri (foreigners, pilgrims and tourists). Consequently the newspapers, just as in France, or more especially in Paris, are condemned to live upon the sale of copies, if they have no other more occult and somewhat questionable forms of income. The result is, as with a certain class of newspapers in other countries, that they are forced to publish sensational news, enough to lead a wise man to take their statements with a very large pinch of salt. As to the causes of the troubles: 1. It is fifty years since the most of the component parts of now united Italy got a constitution. This was to be joyfully celebrated, and, of course, some of the agitators thought this a splendid occasion 'to throw soot in the soup.' 2. Parliamentary government (as in most countries) has come to this, that there are no longer two or three great parties governing in turn, but only fractions. In Italy the so-called unity is still very young and somewhat weak; there is still much particularism. It is quite clear what may happen in such a state of affairs. At every moment some of these fractions can make a combination to throw over a ministry. It serves no good purpose to do this; it leads to nowhere, as mostly they are not strong enough to form another ministry. But, especially here in Italy, they seem to like very much this kind of sport. They are very much inclined to do it for the fun of the thing. 3. There is the economic situation. That it is not sound is a truism; that big faults have been committed by the administration (not only by the actual one, but by all preceding it) is well known. Consequently, there is material enough for the agitators to work upon, and moreover these very kind and simple Italians of the lower classes seem prepared to swallow all you tell them. If you tell them bread is exorbitantly dear and that they are upon the point of being starved, they believe it quite readily without even trying to investigate if it is really true. Some days ago I, being then in Rome, went to Castel Gandolfo with a party of ladies and a gentleman, who happened to be the cellulario (the brother having to buy the necessaries of life) of his college of Benedictines. When at Castle Gandolfo I took the seat next to the driver, and he told me in apparent good faith that he had to pay one lire for a pound of bread. This never could be true, as our cellulario immediately said that in Rome the price was only 22 centesimi, and Genzano (where the man lived) was only some two hours from Rome. The man gave in somewhat. He may have overdone it in the first instance to work upon my feelings, looking for a somewhat big tip, but still he maintained that, if this was so in Rome the rich people paid the difference to the bakers in order not to have disturbances (which is sheer nonsense, as nothing of the sort is going on). But for the rest he maintained that bread was horribly dear, and that he had to make 10 lire a day to be able to sustain his family. Well, partly he lied quite simply; but then partly he himself believed it, having lied so often or being hypnotized in that belief by others. The real truth is that the price of bread has risen by a small fraction, but there is really nothing whatever of a nature to bring the poor people to despair. There is discontent, as there always must be in a country where people are much inclined to have all good things for no work done. There must have been a conspiracy to make a big disturbance, even if it could lead to nothing whatever, and it seems the making of such a disturbance is quite easy in a country where people are so easily moved, and, I may add, so easily calmed down again. When we came to Genzano there was no vestige of the troubles two days ago, when five men had been killed by the military in this very place and many soldiers wounded. The only things we saw were the apparently strong garrison and the soldiers patrolling in small parties. For the rest the people looked as meek and kind as they looked everywhere in the places we visited where we did not see one cross face, met nothing but kindness and politeness, even from the cabmen and the street arabs. Real danger there is none, and for this cause, that the army is entirely to be trusted. The soldiers are quite loyal and have that sense of duty which makes them act as they are told to do, sustaining without grumbling much discomfort. For a foreigner there is not the slightest reason to leave Italy. You may safely move everywhere—of course, with some prudence, but not more than is always necessary, even in the ordinarily quiet big towns of the world. I see by foreign papers that much fuss is made of the state of siege (martial law) which is proclaimed in different towns. How silly people are when they do not understand things! In my country, where the surrounding parks and woods of big country, seats are quite open to the general public (meaning that they are not surrounded by walls or fenced in), you may read upon the beginning of every way or footpath: 'No walking is allowed.' You walk just the same, but you do not go quite near the house, or make noises, or generally do anything which could annoy the proprietor to proceed against you if you really commit a nuisance. The same thing with these proclamations. It is only the necessary formality to allow the authorities to act quickly when something serious is going on."

FLATBOATS FOR THE YUKON.

Klondike Boom Has Stirred Up Boat Building on Puget Sound.

The gold craze in the Klondike region has created a great boom in steamboat building on Puget Sound. No less than seventy-five steamboats, twelve barges and seven schooners have been launched since January 1 of this year. The aggregate cost amounted to $2,463,600, an average cost of $26,200 each. Marine Engineering shows a photograph of twelve sternwheel flat-bottom boats recently built at Seattle at a cost of $50,000 each for different parties. This is said to be the largest fleet that has ever been put together at one time in any American yard. These boats are substantially alike, the net tonnage of each one is 409.06; the gross tonnage, 718.68 tons. The boats are each 175 feet long, 35 feet beam, and vary in depth of hold from 4½ to 6½ feet. When fully loaded they are to draw but four feet of water. Each boat is provided with an electric searchlight and with incandescent electric lights throughout. There will be accommodations for 200 passengers on the main deck, and first-class staterooms for twenty-four passengers on each boat. One of these boats was built for the Standard Oil company, two for the Blue Star Navigation company, three for the Seattle-Yukon steamship company, three for Frank Waterhouse and four for the Empire Transportation company, which sent the Philadelphia fleet of the American line around to the Pacific coast. The indications are that ample accommodation for those prospectors who are willing to take the long journey up the Yukon river can now be obtained at reasonable rates, competition having killed extortion. Some of the expeditions have been well planned, and prospectors and tourists will not suffer the hardships experienced by those who cross the trails or navigate the river on rudely constructed rafts and row boats. One expedition was fitted out in this city for an exploring tour to cover two years, and was provided with every convenience and many luxuries, including a paid physician in its staff. A chemist with complete assaying paraphernalia and a photographer were among the paid employes. This party was fitted out by a company of wealthy men, bankers and others, and will devote their energies to discovering valuable minerals of all sorts within the boundary of the United States.

An American Girl's Parisian Honors.

For several years Paris has been showering honors on a young American girl, who as yet has only scant fame in her own country. Of her and her work the London Studio says: "Elizabeth Nourse is an example of strength in the weak body of a woman. When it became known that the artist who produced 'Good Friday' and 'The Family Meal' was but a girl, the world of art was fairly surprised. Puvis de Chavannes was among the first to discover the talent of the young American, and when she was made an associate of the Society Nationale des Beaux-Arts in 1895, the great French painter expressed his satisfaction at the general recognition of her powers. Elizabeth Nourse has since exhibited at each yearly salon at the Champ-de-Mars, and has always been much noticed. Her fame is, moreover, steadily spreading far beyond the borders of France, and her pictures are always in great demand for exhibitions in all parts of the world. For instance, last year pictures from her brush were on show in Tunis, Copenhagen, Nashville, Pittsburg, St. Louis, Chicago and Washington."

The Old Mare's Funeral Expenses.

In North Manchester, Ind., last week an old mare died that had in younger days had the "sweeny," and to cure the disease her shoulders had been slit and a piece of silver money placed in each. The places healed and the cure proved effectual. When the mare died the lady who owned her had Mr. Tom Wilmott cut the money out of the mare's shoulders, and it was given to a man to bury the animal. Thus the animal laid up money for burial expenses, more than some people do.

Her End of It.

George (rapturously)—Now, darling, please name the happy day. Dulcie (blushing)—Three weeks from next Wednesday, George, dear. Betsy (through keyhole)—If you please, miss, that's my reg'lar day out. You'll have to git married in the early part of the week, not the middle, 'cos Thursday, Friday and Saturday are my cleanin' days.—Tit-Bits.

His Discernment.

Gagger—"Why do you refuse to have any business transactions with Wagger?" Nagger—"I'm afraid to deal with a man so much sharper than myself." Gagger—"Sharper? In what way, old man?" Nagger—He had a chance to marry my wife and didn't, that's all."—Pick-Me-Up.

STAGE WHISPERS.

John A. Lane will join Modjeska.

The count, up to date, of Cuban war dramas pauses at nineteen.

Robert Mantell is to perform "A Lesson in Acting" in the vaudevilles.

Gossip has it that Melbourne McDowell is to go starring in melo-drama.

Edward E. Kidder's latest play is a military drama, entitled, "A Gallant Surrender."

Talk is going around about Henry Miller's making a trip to Manila, where he expects to act.

Burr McIntosh will begin his starring tour in "A War Correspondent" early in September.

Dore Davidson expects to produce his war drama, "A Nation's Hero," early in the coming season.

Olga Nethersole has practically determined to make another American tour the coming season.

Their Action.

Stranger—Have the people of this community done anything for the country in the way of sending men to war?

Landlord Pettyville Tavern—Waal, I don't know as we've done much for the country, but we've done ourselves a great favor. We've sent the local brass band to the front.—New York World.

Shake Into Your Shoes.

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting feet and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Manner.

Manner is one of the principal external graces of character. It is the ornament of action, and often makes the commonest offices beautiful by the way in which it performs them. It is a happy way of doing things, adorning even the smallest detail of life.—Self Culture.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets Candy Cathartic cleans your blood and keeps it clean by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets—beauty for 10 cents. All druggists. Satisfaction guaranteed. 10c, 25c, 50c.

A Pliable Girl.

"That palm-reader said I must never marry a girl with a stiff thumb—she would always want her own way."

"Look at my thumb; see how limber it is."—Chicago Record.

COSMO BUTTERMILK TOILET SOAP makes the skin soft, white and healthy. Sold everywhere.

The flower of meekness grows on a stem of grace.—Montgomery.

and will do: this is the only law of success.—Mirabeau.

It doesn't take more than one whisky straight to get some men terribly twisted.

The Falling Leaves Give Warning of Winter

So the falling of the hair tells of the approach of age and declining power.

No matter how barren the tree nor how leafless it may seem, you confidently expect leaves again. And why?

Because there is life at the roots.

So you need not worry about the falling of your hair, the threatened departure of youth and beauty. And why?

Because if there is a spark of life remaining in the roots of the hair

AYER'S HAIR VIGOR

will arouse it into healthy activity. The hair ceases to come out: it begins to grow: and the glory of your youth is restored to you.

We have a book on the Hair and its Diseases. It is free.

The Best Advice Free.

If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed. Address,

DR. J. C. AYER, Lowell, Mass.

HUMMING BIRDS.

Only Species That Can Move Backward While Poised on the Wing.

Most of the hummers sip honey from the flowers. Poised on wings that move so rapidly that they appear like a semi-circle of film around their swaying bodies, the birds insert their long beaks into the tubes of the flowers and extract nectar with relish. It is true that some of the warblers and kinglets will sometimes poise in this way before a leaf and peck an insect from its surface, but this occurs rarely, and is not a regular habit of these birds. The susurrus of the hummer's wings, as he balances in the air or darts from flower to flower, has given the birdling his name. One of the most wonderful features of hummer flight is the bird's ability to move backward while on the wing—probably the only instance in which a bird is able to accomplish this feat. Mr. Ridgway says that this movement is greatly assisted by a forward flirt of the bird's expanded tail.

There are, however, a few exceptions to this rapid manner of flight, even in the hummer family. One of the most striking is that of the giant humming bird, which flaps its wings in a slow, leisurely way as it hovers over a flower, much like the desultory vibrations of a large butterfly's wings. During flight its tail is constantly expanded and closed like a fan and its body is kept in an almost vertical position and seems to be suspended from a central point. It is not to be wondered at that the humming birds are sought for decorative purposes. Their rich colors and bright ornaments make them a tempting prize to the lovers of gaudy fashion. Vast numbers are slaughtered in Mexico and South America, being killed with fine shot or caught with nets and lime. On account of this ruthless destruction some species are said to be on the verge of extinction, and, of course, it will be exterminated first. At a sale held in London on March 21, 1888, more than 12,000 hummer skins were disposed of, and in one week 400,000 hummers and other American birds were sold in London at auction. A brilliant hummer flitting airily amid the foliage and flowers is a "thing of beauty and a joy forever;" on a woman's bonnet such a decoration is a little short of garish. All the colors of the spectrum, with many intermingled tints, are combined in their plumage, so that some of them seem to be truly kaleidoscopic. One of the most striking ornaments of many of the hummers is the "gorget," as it is called—that is, a gleaming throat patch of imbricated feathers. In the common ruby throat it is ruby, as the name implies; in several species, like Costa's humming bird, the tips of the feathers are purple and the basal portions snow white. In others they gleam in the most metallic red or violet. Sometimes the feathers of these gorgets are elongated into a beautiful ruff on each side of the neck or into a bearded tuft reaching down from the chin.

Still more wonderful are the crests worn by a number of the species. There, for instance, is Guergin's helmet crest, whose head is surrounded by a tall, slender topknot that looks like a miniature pyramid, while a pointed beard of almost the same length depends from its chin. Princess Helena's coquette has a double crest, both parts running to a sharp point, making them look like two tiny horns, while its gorget is decorated at its base with a semi-circle of elongated feathers that stream out like pennants. The spangled coquette has a crest of the finest spray spread out in the form of a round fan, dappled with metallic black spots.

No less varied and wonderful are the tails of the hummers. Robert Ridgway says: "The shape and development of the tail feathers of the humming birds vary to a degree that has no parallel among other birds, many of the forms assumed being also entirely unique." There are deeply forked and scissor-shaped tails, wedge-shaped tails, double-rounded and double-emarginated tails, tails with streamers of curious forms, tails whose quaint and elaborate structures defy description by any specific terms. Several species have long feathers that sweep around in graceful festoons, either running parallel or crossing each other. These pennants are often free of vanes, save at the end, where there is a broad, fan-like expansion. In one form these elongated appendages make a graceful double curve and cross each other twice. In another they bend outward and then turn and cross each other near the end like two curved swords.—London News

High Praise.

A story told by John Ross Dix, in his "Pulpit Portraits," shows how strong a current of life ran in the veins of Dr. Lyman Beecher, when he had passed the allotted threescore years and ten. When about seventy-five years of age, he spent a fortnight in the eastern part of Maine. A party of gentlemen, at Calais, went with him, some thirty miles up a series of lakes to Indian territories. When about to embark upon a chain of lakes in the birch canoes, the Indian guide, Etienne, rather objected to so old a man attempting the adventure, fearing that he would give out. The doctor paddled with the best of the youngsters; caught more trout than all the party together, and returned each day from the various tramps, in the lead; ate his fish on a rock, with a sea biscuit for a trencher, and fingers for knives and forks; slept on the ground upon hemlock branches under the tent; and at length the Indian guide went from the extreme of depreciation to the highest expressions of admiration in his power, saying "Ah! old man, all Indian!"

Had No Effect on Them.

Minister (concluding long address): "I have shown how wicked it is to cherish a spirit of revenge for injuries. Now what would you do if another boy struck you?" Sunday school class (with unanimity): "'It 'm back."—Modern Society.

All On One Side.

Finnegan—They say that a lot av thim Spaniards is part Irish.

Fogarty—Who says it?

Finnegan—The historians.

Fogarty—Show me wan av thim. Molke—show me wan av thim! There moight be Irish in some av the Spanish, but Oi'll prove that there's no Spanish in anny av the Irish.—Cleveland Leader.

The Biggest Bicycle in the World.

A German has just completed a bicycle that has one wheel nine feet in diameter. Two people ride on it—one on each side. It runs easily because of its scientific construction. The scientific formula of Hostetter's Stomach Bitters is the reason of its great virtues in making the weak strong. If your health is poor, try a bottle.

Encouraging Bachelorhood.

A fifteen-story bachelor apartment building is to be erected on the southeast corner of Fifth avenue and Forty-fifth street, New York, by the Matthew Byrnes estate, at a cost of $750,000 or more. Matthew Byrnes, who made a fortune as a builder, bought this plot in 1857 for $80,000. It is now worth $1,000,000.

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

A Point Scored.

The facetious boarder had the train all laid for a killing joke. "It's a wonder," he said, "that you didn't serve up this hen feathers and all."

"The next time," said the landlady, with marked emphasis, "I'll serve her up bill and all."

And the joke was ruined.—Cleveland Plain Dealer.

The prisoner who wants to be bailed out will not find any relief from a sponge cake.

To Cure Constipation Forever.

Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

A stale cake is a cracked old maid, and a tin of dry biscuit is a crusty old batch.

SYRUP OF FIGS
NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company —

VOLUME XVIII. ST. HILAIRE, MINNESOTA, WEDNESDAY AUGUST 31, 1898. NUMBER 5

THE NEWS RESUME

DIGEST OF THE NEWS FROM ALL PARTS OF THE WORLD.

A Comprehensive Review of the Important Happenings of the Past Week Culled From the Telegraph Reports—The Notable Events at Home and Abroad That Have Attracted Attention.

From Washington.

Anglo-American commissioners have decided not to make their deliberations public until their work is completed.

And now comes Jamaica, and wants to get under Uncle Sam's protecting wing.

President McKinley cabled to Admiral Dewey and Gen. Merritt his and the nation's congratulations upon their capture of Manila.

The gold reserve is now $199,403,989.

The appropriations of the last session of congress aggregated $893,231,615, including $361,859,927 on account of the war.

The secretary of the treasury has decided that, under existing conditions, there is no reason why Spanish vessels should not enter, load and clear at ports in the United States. Collectors of customs have been instructed to this effect.

People Talked About.

The death is announced of Don Frederic Madrazo, the celebrated Spanish painter, in his eighty-fourth year.

The Democrats of the Third district of Ohio nominated J. L. Brenner to succeed himself in congress.

James Bradley, aged thirty-two, the well know turfman, died at his home in Lexington.

Moody Currier, a former governor of New Hampshire, died at his residence in Manchester, N. H.

Charles Edward Pratt, first president of the League of American Wheelmen and a pioneer in bicycling, died at New York.

Capt. Mills has been appointed superintendent of the West Point academy. Capt. Mills is one of the heroes of the Santiago campaign.

Dr. John Frederick Morse, a member of the San Francisco board of health and of the state board of health, Mason, Odd Fellow, Knight Templar, died at San Francisco of hemorrhage of the brain, induced by overwork. As a skillful surgeon Dr. Morse's fame was world-wide.

Foreign Notes

It is reported that Russia intends to start colonies in China.

Extraordinary heat in France has been the cause of many deaths.

A terrible thunderstorm did great damage in Denmark, recently.

The Queen Regent has signed a decree convening the cortes for Sept. 5.

Great Britain has called upon Spain to arise and explain her action in erecting fortifications near Gibraltar.

Mrs. George N. Curzon, wife of the newly-appointed viceroy of India, was accouched of a daughter at the Priory, Reigate, recently.

The typhoid epidemic at Belfast is growing rapidly. Six hundred cases have been reported in six weeks and every household is filled to overflowing.

The British government has directed the governor of Hongkong to accept Admiral Dewey's application for permission to dock and clean his ships at Hongkong.

The typhoid epidemic at Belfast, Ireland, is growing rapidly. Six hundred cases have been reported in three weeks, and every hospital is filled to overflowing.

Sporting Notes.

Kid McCoy will do only light practice work from now until three weeks before the fight.

Sir Thomas Lipton, the challenger for the America's cup, has been elected a member of the Royal Clyde Yacht club.

Alexander Scott, a heavy-weight pugilist, was so severely beaten by Tommy Butler in a boxing bout at the Greenwood Athletic club, Brooklyn, that he was taken from the ring unconscious. Butler has been arrested.

Joe Gans' backer, Al Herford, is hot because George Kerwin, the "Chicago mystery," withdrew from his contract with Gans, alleging the Baltimore negro's color to be the cause. Kerwin has already fought Eddie Jones (colored.)

Seventy men are now at work on the Hawthorne Athletic club's new club house at Buffalo, and Manager Wilson declares that it will be completed in ten days. Mr. Wilson believes the date for the Corbett-McCoy contest will be announced very soon.

Casualties.

The British steamer Toledo, Capt. Wishart, which sailed from Galveston July 20, for Rotterdam, struck on Crim Rock, Scilly Islands, in a dense fog, and foundered almost immediately. There was just time to launch a large boat, and all were saved, many clad in their night clothes.

John Hudgins of Indian Territory was killed by jumping from an upper window at the Hot Springs (Ark.) fire. Two of the other bodies have been identified as Abe Matthews of Greenville, Miss., and W. H. Wells, residence unknown.

The Southern hotel, Casino and four cottages at Tybee island, a summer resort near Atlanta, Ga., burned. Loss, $25,000. The crossing of electric light wires caused the fire.

Anton Wozonecski, a Pole of Jersey City, died from the effects of a dose of roach poison, administered him by his wife, instead of Rochelle salts, for which she had asked. The drug clerk says she called for roach poison, and he marked it plainly as such. Mrs. Wozonecski insists that she asked for Rochelle salts.

Otherwise.

The Stars and Stripes replaced the Hawaiian flag, with impressive ceremonies.

German-American Catholics, at their annual convention, selected St. Paul as the next meeting place.

Hay is so plentiful this year in some parts of Western Connecticut that it is offered for sale at $1 per ton.

The authorities of San Luis report acts of rowdyism by members of the Eighth Illinois colored regiment.

J. W. Fordney has been nominated for congress by the Eighth district (Mich.) Republicans on the first ballot.

The Erie mine, at Bingham, Utah, is shipping ore said to go 16 per cent copper, 30 ounces of silver and $150 gold to the ton.

Canadian Pacific earnings for the week ending Aug. 21 were $491,000; for the same period last year, $505,000; decrease, $14,000.

Edwin H. Low (Low's exchange) of New York, dealer in steamship tickets and foreign exchange, assigned to Henry B. Culver without preferences.

The authorities at San Francisco have received orders from Adjt. Gen. Corbin countermanding the orders to send a large body of soldiers to Honolulu.

The employes of Mayo & Sons' woolen mills, Foxcroft, Me., have received notice that the plant will close for an indefinite period. A dull market is the cause.

The auxiliary cruiser St. Paul has arrived at Cramp's shipyard. The St. Paul will be returned to the International Navigation company by the government.

With honors befitting them, Detroit people welcomed home the Michigan National reserves, who served throughout the war on the auxiliary cruiser Yosemite.

The members of the Eighteenth Pennsylvania volunteers, who have been garrisoning Forts Brady and Wayne, have left for Middletown, Pa., where they will be mustered out.

At a meeting of the Woman's National War Relief association at the Windsor, at New York, it was announced that Miss Helen M. Gould had given $25,000 to purchase food and delicacies for the ill and wounded soldiers in Camp Wikoff.

The Olivette, hospital ship, which arrived at Montauk Point with 200 sick on board, has been ordered to proceed to Boston. The sick soldiers will be taken to hospitals in Boston, which have volunteered to Surgeon General Sternberg to take care of them.

The brickmakers' strike at Haverstraw, N. Y., has ended, the laborers yielding to the manufacturers, who would make no concessions. Some of the yards have resumed work. All are expected to resume work in full during the week. The strike lasted over two months and resulted in a loss of nearly $500,000 to Haverstraw business interests.

Two judgements amounting to $207,170 were obtained against William H. M. Sistare and Harold Clemens (Geo. K. Sistare's Sons), bankers and brokers, New York, who failed in 1890, one for $120,035 in favor of August Heckshler, and the other for $87,035 in favor of Richard Heckshler, for the balance due on stock transactions between 1886 and 1891.

"Kismet."

A London journal tells of a certain lady who has in her room a piece of statuary which bears the inscription, "Kismet." The housemaid was dusting the room one day when the mistress appeared.

"Sure, ma'am," said the girl, "would you mind tellin' me the m'anin' of this writin' on the bottom of this figger?"

"'Kismet' means 'fate,' answered the lady.

"Sure, an is that it?" said the girl.

A few days afterward the housemaid came limping into her mistress' room.

"Why, what is the matter with you, Bridget?" asked the lady.

"Oh, ma'am, sure an' I have the most terrible corns on me kismet!" said the girl.

A Summer Reflection.

"It's hard to tell just what to do," said the man who was sitting on the back porch in his shirt sleeves.

"Yet one ought to get a start, with such brilliant prospects opening up all over the world," remarked the next-door neighbor, who was mending a hole in the fence.

"Yes. But supposing I had gone to the Klondike. I'd be so far away now that I couldn't go and help develop Cuba. And if I go to Cuba, I'll miss a chance to go when the next rich territory opens up. There's no use trying to deny it. This is a hard life."

And then he tilted his chair back against the wall and went to sleep.—Washington Star.

Suspected as Genuine.

"How do you like your new boarding house, Jones? Is it one of the regulation affairs we bachelors have to contend with in these times?"

"I'm inclined to think not," slowly replied Jones, who is cultivating a judicial style and hopes to run for a judgeship. "I noted distinct traces of beefy ingredients in the hash we had for dinner this evening."—Detroit Free Press.

The Summer Husband.

Now Dolly's home again—dear me!
My rest and peace are o'er;
I cannot dash my garments off
And drop them on the floor.

No more I throw my papers round;
My smoking I restrain;
In neatness I am tightly bound,
Now Dolly's home again.
—Chicago Record.

Superiority.

Ted—My pop's a bigger man than Blanco.

Ned—Oh, go on!

Ted—He is, so. Why, he kin talk all around Blanco.—Philadelphia North American.

Rather Monotonous.

"Is your daughter having a good time at the seashore?"

"No. She writes home that she is engaged to the same man she met last year."—Chicago Record.

DISCUSSION OF THE WAR

WILL NOT BE PERMITTED IN THE CORTES, SAYS SAGASTA.

The Deputies Would Be Entirely Lacking in the Material Necessary for a Discussion—Necessary Information Has Not Yet Arrived—Discussions Might Be Provocative of Undesirable Complications While Negotiations Are in Progress—Spain Is Still at War With the United States — Merely Concluded a Suspension to Negotiate Peace.

Madrid, Aug. 29.—Senor Sagasta, the premier, is quoted as having in the course of an interview made some important statements, declaring that it was the government's intention to repress the discussion of the war in the cortes. He said that as soon as the cortes met the government would submit a bill, authorizing peace negotiations, and next a measure relating to the suspension of the constitutional guarantee. Although Senor Sagasta did not state the nature of this measure, it is thought it will provide for a continuation of the suspension. "The government," said the premier, "will not discuss in any form the questions of peace or war. Indeed, the deputies would be entirely lacking in the material necessary for a discussion. The debate could not be based on concrete, positive facts, founded on indisputable documents, since the necessary information has not yet arrived. I believe that no discussion of the surrender of Santiago or Manila will occur, nor the destruction of the Spanish fleet, unless trustworthy data and proofs are at hand. Moreover, no discussion is possible of matters under consideration of the supreme courts of the army and navy. Mistakes have undoubtedly been made, but so far we have not sufficient material to judge. A reason that

Questions of War and Peace

should not be discussed is that negotiations are now in progress and discussions might be provocative of undesirable complications. It must not be said that peace is signed and discussions are now allowable. Peace is not signed. Spain is still at war with the United States. The two nations have merely concluded a suspension of hostilities in order to negotiate peace. These negotiations may be brought in a substantial issue, but it may happen that hostilities will be renewed. That is why I think the cortes will only be able to discuss strictly neutral questions; that is, to make itself acquainted with the situation of the interests now at stake, which are so important for the nation, but not to engage in debate which would assume some such proportions as to infringe upon the direction which the gravity of the circumstances requires of the cortes. Should they ask to have presented the documents concerning the surrender of Santiago and Manila and the destruction of the fleet now in the government's possession the government would not accede to the request. These papers are now in the possession of the supreme councils, which alone, until the establishment of peace, can institute inquiries and establish responsibilities. The inquiries may result in acquittals or severe sentences, even the capital penalty."

EXTREMELY BAD.

Condition of Troops at Santiago Who Are Preparing to Return.

Santiago, Aug. 29. — The transport Roumanian will leave for Montauk Point to-day with 650 men of the Seventy-first New York, Second and Ninth Massachusetts, the Second regulars, the Tenth cavalry and the Sixteenth and Twenty-first regiments. The condition of the men is extremely bad, the disappointment over the delays in getting them away having greatly affected their spirits. Ambulances were found to be necessary to convey most of them to the steamer. The transports San Francisco, San Augustine and Leonara will leave tomorrow for Guantanamo, Barcelone and Sagua for the Spanish prisoners there. The Spanish condition is desperate and it is feared death will claim nearly all of them before they reach Spain. Their condition is the result of hard living and poor food. The rations and medicine sent from Santiago was practically too late.

GRANT IN COMMAND

Of the Second Brigade, Relieving Gen. Haines.

Guayama, Porto Rico, Aug. 29.—Gen. Brooke has not yet received his instructions and credentials as a member of the Porto Rican commission, which he will await before proceeding to San Juan. The troop of the Sixth cavalry will escort him overland to San Juan unless objection is offered by Gov. Gen. Macias, in which case he will proceed by sea. Gen. Haines has been ordered north. He will be relieved in the command of the Second brigade by Gen. Grant, who arrived yesterday. The First Kentucky regiment will be attached to Gen. Ernst's division, relieving the Second Wisconsin. Gen. Grant will have only the Third Illinois and four companies of the Ohio regiment under his command.

Killed by a Live Wire.

Decatur, Ill., Aug. 29.—John Hamilton, six years old, while playing in the yard at his home yesterday became entangled in a live electric wire. The nine-year-old son of James Lee tried to pull him out and was killed by the shock.

Fever Patient Convalescent.

Galveston, Tex., Aug. 29.—The artilleryman, with a suspicious case of fever at Fort Point, is convalescent. The other cases reported as suspicious can scarcely be called suspicious.

ADMIRAL SCHLEY.

Hobson Is Found to Be Not the Only Kissee.

Washington, Aug. 29. — Admiral Schley received a great demonstration at the navy department. As soon as he was seen cheers rent the air, from the clerks who had assembled to catch a glimpse of the hero of Santiago. The officers and clerks from the navy, state and war departments crowded the corridors leading up to the navy department until it was impossible to pass through. They crowded around the admiral, eagerly reaching forward to shake his hand. The lady clerks were even more demonstrative and the admiral was kissed by old and young without discrimination. It was finally necessary to form a line and pass the crowd around through the large rooms of the secretary's office in order to give them a chance to shake hands with the admiral. Many prominent army officers took part in the demonstration. The admiral left Washington and expects to sail for Porto Rico Wednesday with the military commission.

MILES MUM.

Refuses to Say a Word About Mutilation of Dispatches.

Ponce, Porto Rico, Aug. 29. — Maj. Gen. Miles positively refuses to discuss the mutilation of the dispatches which was mentioned in the alleged interview with him recently published in the American newspapers. The lines in his face hardened when I broached the subject and his voice deepened as he sternly said: "I will not enter upon that subject."

Concentration of the troops here preparatory to the homeward movement has begun—six light batteries, five troops of cavalry, the Fourth Pennsylvania, the Sixth Illinois and the Second Wisconsin, all volunteers, about 5,080 in all. This will leave about 10,000 United States troops on the island. Gen. Miles will leave in about three days, as will also Gen. Wilson. This will leave Gen. Henry in command.

HOBSON HIGHER.

Examining Board Recommends Him for Naval Constructor.

Washington, Aug. 29.—Assistant Naval Constructor Hobson was to have been examined for promotion last week, but owing to his duties he could not go before the board. It was ordered that his record be examined to see if that would entitle him to the higher rank. The board says: "The board joins with all the world in admiring the skill, courage and gallant conduct of Assistant Naval Constructor Richard P. Hobson in the sinking of the Merrimac, as set forth in the letter of the commanding officer of the North Atlantic station." The report then refers to the various papers submitted in respect to Mr. Hobson's promotion and closes with a recommendation that he be promoted to naval constructor.

SAN MARCOS ARRIVES.

Brings Home Soldiers to the Number of 528.

New York, Aug. 29. — The United States transport San Marcos, Capt. Itsen, which sailed from Tampa Aug. 20 and Key West Aug. 22, has arrived here with two batteries of the First United States artillery, two companies of the Third Texas volunteers and the general hospital corps and a detachment from the corps of engineers. The total number of men on board was 528, of which fifteen are officers. Capt. A. H. Miller, First artillery, is in command. The San Marcos landed off the Sandy Hook lightship, where she anchored until daylight, when she proceeded up the bay to quarantine. Deputy Health Officer Sanborn boarded the transport and after a brief inspection permitted her to proceed.

DESERTING CAMP THOMAS.

Soldiers Are Being Rapidly Moved Away.

Chickamauga, Aug. 29.—The last of this week will see almost every regiment of volunteers gone from Camp Thomas. This morning when the First Pennsylvania left for Lexington it completed the removal of the First army corps. At Knoxville now are the following regiments: Thirty-first Michigan, First West Virginia, Second Ohio, Fourteenth Minnesota, First Pennsylvania, One Hundred and Fifty-eighth Indiana, Eighth Ohio and First Georgia. At Lexington are the Twelfth Minnesota, Fifth Pennsylvania, Eighth Massachusetts, Twelfth New York, Twenty-first Kansas, Ninth Pennsylvania, Second Missouri, First Missouri, Fifth Missouri and First New Hampshire.

A SERIOUS LOSS.

Anglo-Egyptian Expedition Loses a Gunboat.

London, Aug. 29.—A dispatch from Camp Hegiar, opposite the island of Gibal Rayan, says the Anglo-Egyptian expedition has suffered a rather serious loss by the sinking of the gunboat Sea Fires. The boat sprang aleak when near Shendy and within a few minutes went down. All on board were saved. The dervishes continually retreat before our line. Last evening the entire line was illuminated with signal fires.

Congress of Filipinos.

London, Aug. 29.—The Manila correspondent of the Times says: The situation, though undoubtedly quiet, remains as pending the settlement of the war. The large town of Malleton, Province of Belucan, has been made headquarters of Aguinaldo. There he will shortly assemble a congress of Filipinos who favor the rebel cause. He intends to send a representative to Paris to argue his case before the peace commission.

Invoices in Order.

Washington, Aug. 29.—United States consular officers in every part of the world have been informed by the department of state that they may issue bills of health and certify invoices for Santiago, Ponce, Manila or other ports in the actual possession of the United States.

Yellow Fever in Louisiana.

Franklin, La., Aug. 29.— There has been one new case of yellow fever and two suspect cases since the last death two weeks ago.

GEN. MILES COMING HOME

LARGE DETACHMENT OF TROOPS COMING WITH HIM.

The Second Wisconsin Volunteers and the Pennsylvania and Illinois Troops Are Among the Number—The Whole Detachment Comprising Five Thousand Men Will Parade in New York — Gen. Miles Will Review Them — Reports of Disorders Continue — Authorities Believe Outbreaks Will Soon Quiet Down.

Ponce, Porto Rico, Aug. 29.—Details of the homeward movement have been practically completed. Gen. Miles and his staff and eight companies of the Second Wisconsin volunteers leave on the Obdam to-morrow night. The Fourth Pennsylvania volunteers are to start home on Wednesday. All of the cavalry horses, guns, carriages of batteries, etc., of the Pennsylvania will leave on the Mississippi to-morrow, while the men of the three Pennsylvania batteries and the Third battalion of the Second Wisconsin sail the same day on the Concho. The men and guns of the Missouri, Illinois and Indiana batteries are to leave on the Alamo Friday and the battery horses on the Rio on Saturday. The Sixth Illinois volunteers will follow on the Seneca and another ship not yet named. It has been arranged that the whole detachment of about 5,000 men will land in Brooklyn. After resting there a few days they will parade across the bridge to Wall street, to Broadway, to Fifth avenue and thence to Central Park. The men in line will be commanded by Gen. Wilson, and Gen. Miles will review them. Gen. Brooke is preparing to move to San Juan. One hundred wagons have been sent to him from Ponce to transport supplies across the mountains. It seems probable that he will take all the forces at Guamana, including the mounted troops.

Reports of disorders continue. The authorities believe the outbreaks are sporadic and will soon quiet down. Gen. Miles will probably issue a proclamation calling for order and decreeing severe penalties for disobedience. The trial by a military commission of twelve civilians charged with burning the town of Cotto begins to-day in Ponce. Col. Griffin, of the First volunteers, will preside. The prisoners having no counsel, Gen. Wilson has detailed Maj. Walton, of the pay corps, to act in that capacity. This is the first trial of civilians since the military occupation of the island.

THE ANTILLES EVACUATION.

Spanish Government Has Issued Instructions to Its Commissioners.

Madrid, Aug. 29.—Duke Almodovar de Rio, minister of foreign affairs, and Senor Gmazo, minister of public instruction and public works, have arrived at an agreement as to how to instruct the Antilles evacuation commissioners and the instructions have been mailed. Lieut. Correa, minister of war, informed the queen regent of the arrival of the transport Isla de Luzon at Vigo and the Monserrat at Corruna with troops returning from Cuba. Forty-two deaths occurred on the steamers during their passage.

HOSPITALS ALL RIGHT.

Gen. Boynton Makes a Searching Investigation.

Washington, Aug. 29. — A few days ago Secretary Alger issued an order to Gen. H. V. Boynton, now at Chickamauga Park, to make a thorough and searching investigation of all the hospitals in Camp Thomas. The following telegram was received by Adjt. Gen. Corbin: "Have completed investigating hospitals under secretary's orders. Results exceedingly favorable in all essential features. The facts effectually dispose of all recent sensational adverse criticism. Report will be written to-morrow. —Boynton."

PROMOTIONS.

Col. C. McC. Reeve Commissioned Brevet Brigadier eneral of Volunteers.

Washington, Aug. 29.—President McKinley has commissioned Col. Charles McC. Reeve, Thirteenth Minnesota volunteers, to be brevet brigadier general of volunteers. The president also commissioned Capt. Bjornstad and Capt. Seebach, Thirteenth Minnesota volunteers, to be brevet majors of volunteers. The appointment of Capt. Bjornstad is not explained as the department had official notice of his death. Lieut. Lackore, Thirteenth Minnesota, is commissioned brevet captain of volunteers.

Ensign Powelson Injured.

Philadelphia, Aug. 29.—Ensign Wilfred Powelson, who served on the battleship Maine when she was blown up, and whose testimony relative to the explosion was accepted as of great importance, sustained a compound fracture of the right leg and fracture of the foot by falling down an elevator shaft on board the cruiser St. Paul, which is now at Cramps ship yard.

No Carlist Bands.

Madrid, Aug. 29. — Premier Sagasta declared to a number of journalists that bands of Carlists do not exist in Spain.

President Goes to Jacksonville.

Washington, Aug. 29.—The president expects to be in Jacksonville, Fla., on Sept. 15 and review the soldiers of the Seventh corps, Gen. Lee's command. It is quite likely that Secretary Alger will accompany the president.

Critical in the Ladrones.

Madrid, Aug. 29.—Negotiations have been opened with Washington to obtain permission for the Spaniards in the Ladrone islands to go to Manila, as the situation in the Ladrones is extremely critical.

PEACEFUL PURSUITS.

Are Being Pursued by the Natives at Manila.

Manila, Aug. 29. — The indications are that the natives are resuming peaceful pursuits. They are tearing away the trenches around Santana and Passag and beginning the cultivation of the fields. Aguinaldo has removed the seat of government from Bakoor to Malilos, twenty miles north on the railroad, leaving the country between there and Cavite free of insurgents. Seven hundred Taglo soldiers, under a captain, on Saturday at noon, were arrested in San Sebastian. They were dragging a Spaniard, bound and gagged, along the street. They said they were taking a Spanish spy out to shoot him. The rebels had a pass signed by Col. Montenegro authorizing them to patrol the city. Some of the rebels on Friday abducted a woman from the Binondo district, taking her away from a child four months old. The woman has not been seen since. The provost officers are on the track of her kidnapers. Plans for the sanitation of Manila are almost completed.

BUSINESS IS BRISK.

Affairs at Manila Take on a Progressive Aspect.

Manila, Aug. 29.—Steamers are entering the river as usual. The Americans are temporarily maintaining the former Spanish tariff. Business is brisk. The United States warships Olympia and Raleigh have gone to Hongkong to go into dock. Admiral Dewey has transferred his flag to the Baltimore. Gen. Merritt will sail on the steamship China, on Tuesday on his way to Paris to attend the sessions of the peace conference. No agreement has yet been reached with Aguinaldo upon any subject, although circumstantial rumors are current that everything has been settled to the mutual satisfaction of those concerned.

IRELAND APPOINTED.

Archbishop a Member of the Lafayette Memorial Commission.

Chicago, Aug. 29.— The Times-Herald says: Archbishop Ireland has been appointed a member of the Lafayette memorial commission to the Paris exposition by Commissioner General Peck. Dr. Edward Everett Hale of Boston has accepted a membership on the commission.

FIVE KILLED.

A Railroad Train on the Boston & Maine Strikes a Buckboard Party.

Ware, Mass., Aug. 29. — A railroad train on the Boston & Maine railroad struck a buckboard at Whiting's crossing and killed five members of a pleasure party.

Affairs Greatly Improved.

Lima, Peru, Aug. 29.—It is asserted on reliable authority that the aspect of affairs between Chile and Peru in connection with the boundary dispute is greatly improved. The Associated Press is authorized to state that Senor Fernando Zermino has not abandoned his estate near Guayaquil, and that he had absolutely no connection with the disturbances at Piura.

Zionist Conference.

Basle, Switz., Aug. 29.—The Zionist conference was opened here. Dr. Theodore Harzl, the originator of the project to purchase Palestine and resettle the Jews there, presided, and welcomed the delegates. Dr. Max Ordau made an address on the situation of the Jews during the past year.

Rough Rider Kills Himself.

New York, Aug. 29.—Private Harry Duval, of Troop A, of the rough riders, killed himself by shooting himself in the temple at Camp Wikoff. The suicide took place in the guard house, where he was under arrest. He had been absent from camp without leave and feared to face a court martial.

Million for New Mail Sacks.

Columbus, Ind., Aug. 29.—W. Mooney & Sons, who operate one of the largest tanneries in the world, located here, have been awarded a contract to furnish the government leather for the manufacture of mail sacks. The contract extends over a period of five years and amounts to $1,000,000.

Verge of an Outbreak.

London, Aug. 29.—A dispatch from Shanghai says it is reported there that the Russians at New Chwang are trying to compel native owners of land there to sell their holdings at absurdly low prices, and that, in consequence the Chinese are on the verge of another Russian outbreak.

Demand Their Share.

Shanghai, Aug. 29. — A dispatch from Pekin, dated Aug. 27, says the French, Italian and Dutch ministers have formally demanded a share for their respective nationalities in the professional chairs at the new university, of which an American, Prof. Martin, is president.

Secretary Day at Canton.

Canton, Ohio, Aug. 29.—Secretary of State Day and Mrs. Day have arrived at Canton. They were met at the station by a committee from the board of trade. The secretary expects to remain here until he and Mrs. Day leave for Paris with the peace commission on Sept. 17.

Broke a Record.

Cleveland, Ohio, Aug. 29.—The Cleveland century record was broken by W. H. Emerick, who was paced by a tandem. The route was to Geneva, Ohio, and back. The time was 5:15, lowering the record over that course which has stood for three years, by an hour.

Watchmakers Strike.

Elgin, Ill., Aug. 29.—A strike is on at the plant of the Elgin National Watch company which threatens to tie up the works. One hundred and twenty-two finishers have gone out on strike for a restoration of their old pay.

The Oregon's Commander.

Benton Harbor, Mich., Aug. 29.—Capt. Clarke, of the battleship Oregon, has arrived here, having left the New York hospital to join his wife and daughter, who have been spending the summer here.

GOV. MATTHEWS PASSES AWAY

DIES PEACEFULLY, SURROUNDED BY HIS FAMILY.

Only Word He Spoke After Being Stricken Was to His Wife a Few Hours Before He Died—Body Will Be Removed to Clinton, Where a Quiet Funeral Will Be Held—Gov. Mount and Other State Officials Will Attend—His Wish Not to Lie in State in Indianapolis Will Be Respected.

Wingate, Ind., Aug. 29. — At 6:20 o'clock yesterday morning at the quiet Meharry homestead, where he was taken immediately after his sudden affliction, ex-Gov. Claude Matthews passed away peacefully, surrounded by the members of his family. The only word he spoke after he was stricken was to his wife, a few hours before he died. He immediately lapsed into a profound coma from which he did not recover. Mrs. Matthews will start from Wingate this morning with the remains of her husband and will arrive at Clinton at 1:30 in the afternoon. From Clinton the party will go direct to Hazel Bluff, the Matthews home. Out of respect to the oft expressed wish of Gov. Matthews his body will not be taken to Indianapolis to lie in state. The funeral will occur Wednesday afternoon and will be held in the beautiful grove adjoining the cemetery. Gov. Mount and staff will attend the funeral and a special train will leave Indianapolis Wednesday morning to carry state officials and others.

THE PRESIDENT'S VACATION.

He Spends a Quiet Day at the Home of His Brother.

Somerset, Pa., Aug. 29. — President McKinley came to Somerset to pass a restful day, and he has certainly accomplished that purpose. Providence provided fine weather, in fact the most delightful day of the season here. And the president took advantage of it. He rose early in the morning and passed an hour walking about the town with his brother Abner. The president's determination to attend the morning service at the Methodist Episcopal church became known and every seat was occupied. The edifice was tastefully decorated with flowers. The president's wife did not attend church. The people of this town have seen the president go to church before, yet the sight is a rare one for them and many took positions along the streets to witness it. This caused the chief executive to lift his hat frequently along the way, and he bowed gracefully to the right and left as he passed along. After the service the president took a long drive and in the evening received a number of personal friends. The presidential party left today for Cleveland.

THEY WERE TOADSTOOLS.

Mother and Child Die From Poisoning.

Chambersburg, Pa., Aug. 29.—Mrs. Rev. George Jefferies and child of Philadelphia died in Shippensburg from the effects of eating toadstools. Rev. Dr. Jefferies, who is a member of the Lutheran church, was spending his vacation in Shippensburg with his wife's father, George Davidson. Friday he and his wife and child, while on a walk in the country, found what they thought were mushrooms. They gathered a number and ate them. Instead of mushrooms they were toadstools. Some time after the three persons became very sick. Mrs. Jefferies and her child died and her husband is in a critical condition.

VERY SATISFACTORY.

Progress Thus Far Made by the International Commission.

Quebec, Que., Aug. 29.—The international commissioners will meet in joint session again today and probably each day until Friday. Separate meetings of the American and Canadian commissioners and meetings of subcommittees will continue during the week. Senator Fairbanks stated that the first week's work had been very satisfactory and that everything up to this point indicates the best results. He anticipates considerable progress will be made between now and next Friday, when a recess will be taken until Sept. 20.

MINNESOTA IRON.

Enormous Sales of Stock at Greatly Increased Figures.

Cleveland, Ohio, Aug. 29.—It is estimated that from ten to twenty thousand shares of Minnesota Iron stock were sold by Cleveland parties yesterday and Friday. Parties known to be large holders of the stock have been steady sellers throughout the last week and the total transactions have been enormous. Nearly all of the shares were sold at prices ranging from 92 to 99. The stock in many cases was bought in Cleveland at 45 and 46. As late as six months ago Minnesota Iron was quoted at 50.

Spark From a Thresher.

Green Isle, Minn., Aug. 29. — John Kiernan lost two stacks of wheat while threshing. Sparks from the threshing engine set them on fire. The Green Isle fire company saved two stacks from burning.

Two Soldiers Killed.

Birmingham, Ala., Aug. 29.—Two enlisted men of the Sixty-ninth New York volunteers were killed instantly, one fatally, and six seriously injured in a wreck which occurred on the Louisville & Nashville railway near here.

Kicked in the Jaw.

Pipestone, Minn., Aug. 29. — Mr. Cook, a livery man from Edgerton, while hitching up his team was kicked in the jaw, breaking it in three places. His case is very serious and recovery is doubtful.

QUEER OLD NATURE.

"Why is it," asked a wondering child
(Sweet, simple little thing),
"That the foolish tree puts on its clothes
When the sun shines in the spring,
And then, when chilly autumn comes
And the winds of winter blow,
Why does it stand out there, all bare,
In the frost and sleet and snow?"

"Wise nature has arranged it thus,"
I told the little one,
"The rustling leaves can only live
Beneath a smiling sun;
The tree that in the summer time
Makes shady bowers for you
Must have its rest, therefore it stands
Asleep the winter through."

She sat in silence for awhile
And gazed far into space,
And lines of thought and trouble came
To mar her childish face,
And so, at last, she turned and said:
"I'm sorry for the tree,
And glad that nature wasn't left
To fix things up for me!"
—S. E. Kiser in Cleveland Leader.

THE GAME OF HIS LIFE.

Showing One's Varying View of Golf as He Plays Well or Ill.

On the links of the Island Golf club at Garden City, N. Y., two men were having a hot game, with success about even. They were good friends and complimented each other on their good shots and looked the other way after a foozle. Just as the younger one stepped upon the tee to drive off for the sixth hole a very swagger cart came spinning up the road that crosses the links near that tee. A stunning young woman was driving. She pulled up sharply near the tee and called out to the man about to drive:

"George, dear, won't you come home now and not delay luncheon?"

The man straightened up with an air of disgust at the interruption and replied:

"Not now. I'm playing the game of my life."

"I wish you'd come," she said.

"No, not now," he answered. "I'm playing too well. I wouldn't quit this for 40 luncheons. I'm breaking my record by ten strokes."

"Well, I'll drive up and down here and wait for you," she said.

As she started off George, dear, turned to continue the game of his life. He sliced his drive and lost the ball in the blackberry bushes in the ravine. He dropped a new ball and lost one stroke. Then he topped the ball on the niblick shot out of the whir and didn't gain three feet. Finally he got out with seven and was bunkered in the road that crosses the field. There he lost two more strokes and the rest of his temper. Finally he got out of the bunker and with a beautiful lie used his brassy for a three-quarters iron and overshot the hole by 50 yards into the tall grass. There the ball was lost.

Ten minutes later the swagger cart was spinning down the road at the top speed of the horse, the stunning young woman sitting very erect and statuesque and driving with superb skill. In the back of the cart, with his heels dangling and brandishing two golf clubs, sat George, dear.

The game of his life was over.—New York Sun.

Not Unique.

"Madam," said the smooth spoken tramp, "I am not an ordinary hobo!"

"Oh, I don't know," said the lynx eyed housekeeper, as she leisurely took down her husband's gun from the wall, "you're about the same as the rest of 'em. You can work, but you won't. Git." And he gat.—Vim.

In Peking, China, so runneth the tale, a mandarin of wealth and taste presented a luminary of the stage with a pack of cards made of human skin, 400 years old, and originally captured from a pirate of the most blood curdling sort.

The king of Greece, when conversing with the members of his family, never employs any but the English language. He seldom speaks French and only uses Greek when compelled to do so.

Now is the time to get the SPECTATOR.

THE NEW YORK YOUTH.

Story of a Promising Boy, a Schoolteacher and an Escaped Dog.

A drawing teacher in the upper regions of the borough of Manhattan tells me of a curious instance of what she calls the crescent freshness of the metropolitan youth. Tommy was the most incorrigible pupil in that particular room, making the half hour spent there daily one of mingled doubt and anguish of spirit to the drawing teacher. The other day Tommy was evidently engaged in some new form of mischief. His drawing pad lay upon the desk before him and his hands were hovering over it, now swooping down at one side of the paper, now at the other, as if corralling some unwilling ant or other insect seeking to escape.

"Tommy," said the drawing teacher suddenly and sharply, "what are you doing?"

"Nothin," was Tommy's instant reply. Then he added, "Nothin but keepin this 'ere dawg from runnin away."

"What dog?" queried the drawing teacher. "I see no dog. What do you mean?"

"Course ye don't see no dowg," said Tommy, ceasing his gymnastics under her sharp glance and straightening up. "Yer too far awoy." The other scholars were all attention by this time, which was precisely what Tommy wanted, and he assumed a look of unsmiling innocence as he continued, "I drored a runnin dowg, not a standin still one, an I was a-headin 'im off so's he wouldn't run off th' tablet an git on th' floor."

The other children laughed uproariously at this, whereupon Tommy surveyed them with such an assumption of surprised indignation that their mirth was redoubled. The teacher was now genuinely angry. She was a matter of fact young woman to whom normal school methods were both law and gospel, and here was a flagrant case of downright falsehood that must be exposed as an awful example to the entire grade of pupils. She walked slowly and firmly down the aisle and picked up Tommy's tablet. The white sheet was unsullied by a single mark of any kind.

"Tommy," she said sternly, exhibiting the sheet to the pupils, "there isn't a dog or anything else here."

"Course there isn't," said the unabashed Tommy. "Wha'd I tell ye? Y made me get up, an he got away. He was a greyhound, he was."—Town Topics.

HE HAD HIM THERE.

How a Passenger Got Even With a Street Car Conductor.

He was intent upon his newspaper when the conductor came along and stopped in front of him.

The conductor stooped down to get a better look at his face and said, "Fare, please."

The man with the paper paid no attention, and finally the conductor tapped him gently on the arm.

"Did I get your fare?" asked the conductor as the man with the paper looked up.

Now, if there is anything in this world that has a tendency to make a man who has paid his fare get angry it is to have the agent of the corporation to whom such fare was paid come along and ask him if he has paid it. It may be all right, but it always seems as if there was an inference that some one is trying to beat the road. Thus it happened that the man with the paper replied rather sharply:

"You ought to know."

"Oh, it's all right, sir!" explained the conductor hastily. "No intention to offend, you know. I merely wanted to make sure."

Then he returned to the platform, while the man with the paper returned to his reading.

A few minutes later the man with the paper went out on the platform himself, and just before reaching his corner he gently tapped the conductor on the arm, even as the conductor had tapped him.

"Did you ring up my fare?" he asked.

There were immediate indications that the conductor was getting mad. He tried to say something, but only spluttered.

"Oh, it's all right!" the man with the paper hastened to explain. "No intention to offend, you know. I only wanted to make sure."

Then he swung off the car, and when he reached home his wife detected traces of a faint smile on his face.—Philadelphia Times.

Bullets Point to Point.

A correspondent relates the following remarkable personal reminiscence of an incident which occurred during the Franco-German war: "A perfect stranger (an Englishman)," said he, "called upon me and handed to me a chassepot rifle, which he related he had picked up on the field of battle after Gravelotte, which had a bullet or two stuck in about the middle of the barrel and which he requested me to get removed. This was done, and upon examination two bullets were found to have met point to point. A German bullet must have entered the muzzle of the French rifle barrel just as the French rifle had been fired, and the two bullets had met together without bursting the barrel. I inclose my card."—London Telegraph.

Must Have Loved Him.

Many stories have been told of a Manchester man who is supposed to be the—well, to put it humanely—plainest man in England. But we think the following is the funniest:

"Mamma," a child was heard to say in an awestruck whisper, after a prolonged survey of the peculiar features of the guest, "that gentleman's mamma must have loved children very, very, much."

"Why so, my dear?" inquired the unsuspecting parent.

"Oh," returned the child in the same audible whisper, "'cause she brought him up."—Strand Magazine.

The Army and Navy

Have covered themselves with glory during the war. The Army and Navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of navy and army terms, translation of Spanish words, etc. Send ten cents to Chas. S. Fee, general passenger agent, N. P. R., St. Paul, Minn., for a copy.

Spoiled the Rescue.

Major Tom Williams some time ago told me the story of one of Colonel Gib Wright's adventures in South Carolina in the closing months of the war.

It seems that General Kilpatrick, the Federal cavalry commander, had captured a number of Confederates, and Wright was anxious to rescue them. He called for volunteers to go with him into the enemy's camp at night and picked out the men he needed from those who responded.

The Federal troopers were snoozing quietly in their camp and on both sides of the road leading to it, and their prisoners dozed by a fire near the center.

Just how they got there would be hard to explain, but shortly after midnight Gib Wright, at the head of a few men, rode at a gentle pace into the camp.

The drowsy Federals took them for a party of their own men returning from a scout, and paid no attention to them. Everything was working smoothly until one of the prisoners caught a glimpse of the newcomers. The fellow lost his head and ruined the whole business. He leaped to his feet and looked into the faces of the advancing Confederates.

"Horray, boys!" he shouted in his delirious delight. "Hang me, if there ain't old Gib Wright and his crowd. Durned if the whole Confederate army ain't right behind him!"

The prisoners all rushed forward with the regular rebel yell, and the sleeping Federals suddenly became very wide awake. From every side they showered bullets on their visitors, and Wright and his men had almost a miraculous deliverance. Several were killed and wounded, but the leader and the majority of the party managed to get away.—Atlanta Constitution.

Getting Up.

The Duke of Wellington slept on an iron camp bedstead 18 inches wide and argued that "when a man wants to turn over it is time to turn out." Edward Everett Hale quotes this remark of the duke in the "Ten Times One Record" and takes issue with him. "The principle is well enough," says Dr. Hale, "but I think the detail is wrong. Sleep is far too important to be made uncomfortable." Dr. Hale goes on to tell of various ingenious devices for automatically waking a sleeper. A friend of his fixed his alarm so that at the foreordained moment the bedclothes were dragged from the bed. The same gentleman found another contrivance which worked better. "The alarm struck a match, which lighted the lamp which boiled the water for Rossiter's shaving. If Rossiter staid in bed too long, the water boiled over upon his razor and clean shirt and the prayer book his mother gave him and Coleridge's autograph and his open pocketbook and all the other precious things he could put in a basin underneath when he went to bed; so he had to get up before that moment came."

A Generous Admission.

The London Graphic tells the following story about Hans Richter in an article on conductors:

Dr. Richter's popularity with his men is easily intelligible, for while nothing escapes his argus eyed vigilance he always recognizes and acknowledges good work. A few years ago, while he was conducting—from memory, as usual—one of Brahm's overtures at St. James' hall, "a strange thing happened," as Mr. Haggard used to say. Band and conductor lost touch for several bars, and when the piece was ended Dr. Richter signaled to the orchestra to play the overture again from the beginning. This time everything went without a hitch, and at the close Dr. Richter turned round, and addressing the audience said, "Ladies and gentlemen, the mistake was mine, not the orchestra's," a generous admission which provoked a salvo of applause.

Carlyle's Humptiousness.

Joachim, the great violinist, was introduced to Carlyle by a mutual friend. The sage was about to take his morning walk, and he asked Joachim to accompany him. During a very long walk in Hyde park Carlyle kept the conversation running on Germany and its great men—the Fredericks, Moltke and Bismarck—until at last Joachim thought it was his turn to take a lead, and he started with the inquiry, "Do you know Sterndale Bennett?"

"No," was the reply, and, after a pause, "I don't care generally for musicians; they are an empty, wind baggy sort of people."

Playing Gooseberry.

Playing gooseberry or "to play gooseberry" is common enough in connection with sweethearting. A lass arranges a walk with a lad, but for some reason she does not care to go alone, so she takes a friend, another girl, and the friend "plays gooseberry." Sometimes the girl who is invited to share the walk refuses, saying, "Nay, I'm not going to play gooseberry." The girls speak of the lad in this connection as "gooseberry fool." By the way, green gooseberries stewed with a little water, mashed, and sugar added, constitute "gooseberry fool."—Notes and Queries.

Just In Time.

A butcher's lad went to deliver some meat at a certain house in Newcastle where a fierce dog is kept. The lad entered the back yard, and as soon as the dog saw him he pinned him against the wall. In a short time the mistress of the house ran out and drove the animal away. "Has he bitten you?" she asked.

"Noa," said the lad, "na kept him off by giving him your suet, an ye just cam' in time to save the beef."—London Fun.

Beware of Setting Forest and Prairie Fires.

Office of State Forest commissioner.
ST. PAUL, MINN., March 26, 1898.

Under the act of the Legislature of Minnesota for the preservation of forests and for the prevention and suppression of forest and prairie fires, approved April 18, 1895.

The following are liable to a penalty not exceeding $100 or imprisonment not exceeding three months:

Any person refusing, without cause, to assist fire wardens, in extinguishing forest or prairie fires.

Any fire warden who neglects to perform his duties.

Any person who wilfully, negligently or carelessly sets on fire, or causes to be set on fire, any woods, prairies, or other combustible material, thereby causing injury to another.

Any person who shall kindle a fire, on or dangerously near to forest or prairie land and leave it unquenched, or who shall be a party thereto.

Any person who shall use other than incombustible firewads for firearms or carry a naked torch, firebrand or other exposed light in or dangerously near to forest land.

Any person who shall wilfully or heedlessly deface, destroy or remove this or any other warning placard posted under the requirements of the above mentioned act.

Any railroad company wilfully neglecting to provide efficient spark arresters on it engines, or to keep its right of way to the width of 100 feet cleared of combustible material; or which shall fail to comply with other provisions of section 12 of the above mentioned act.

The following are liable to a penalty of not less than $5 nor more than $50:

Any railroad employe who wilfully violates the provisions of section 12 of the above mentioned act.

Any owner of threshing or other portable steam engine who neglects to have efficient spark arresters, or who shall deposit live coals or hot ashes without extinguishing the same.

The following are liable to a penalty not exceeding $500 or imprisonment in the state prison not over ten years, or both:

Any person who maliciously sets or causes to be set on fire any woods, prairie, or other combustible material whereby the property of another is destroyed and life is sacrificed.

RELIABILITY

is a quality some newspapers have lost sight of in these days of "yellow" journalism. They care little for truth and a great deal for temporary sensation.

It is not so with THE CHICAGO RECORD.

The success of THE RECORD rests upon its reliability.

It prints the news—all the news—and tells the truth about it.

It is the only American newspaper outside New York city that has its own exclusive dispatch boat service and its own staff correspondents and artists at the front in both hemispheres.

It is the best illustrated daily newspaper in the world.

Its war news service is unapproachably the best.

Says the Urbana (Ill.) Daily Courier:

"We read the war news in the other papers, then we turn to THE CHICAGO RECORD to see how much of it is true."

Sold by newsdealers everywhere and subscriptions received by all postmasters. Address THE CHICAGO RECORD, 181 Madison street, Chicago.

LOCAL NEWS.

Wheat 56 cents to day.

Monday September 5th is Labor day.

The price of wheat is still going down.

Look over the Five cent counter at Hall's.

Mike Rosenberg made a flying trip to Ada yesterday.

A. R. Mattes and A. R. Jónes drove to Crookston Sunday.

Try a lunch, a meal or a weeks board at the Ideal Lunch Room.

Phil Zeh and Jos. Jerome of the upper Falls are with us to-day.

Court Stenographer Strawbridge was up from Crookston Monday.

LOST:—Office key of the jack knife make-up. Leave at this office.

WANTED:—A girl to do general house work. Apply to Mrs. J. A. Dainard.

J. M. Markham returned Monday from a few days trip at Minneapolis.

—Dr. W. A. Moore, dentist of St Paul has permenently located in Red Lake Falls.

P. G. Paradis made a business trip to the county seat Monday between trains.

All of the St. Hilaire nimrods will take in the grand opening of the hunting season.

Wm. Bloom of Crookston was up the first of the week on matters pertaining to business.

J. B. O'Brien accompanied J. H. Johnson as far as Crookston Friday, returning Saturday.

For a delicious smoke go to the New Drug Store the finest line of cigars ever shown in St. Hilaire.

Dr. Blumburg of Moorhead is in the city for a few days and will be found at the New Drug Store.

Sam and J. A. Dainard shipped another car load of cattle to the St. Paul markets last Saturday.

Misses Lizzie and Annie Hall returned Thursday from a three weeks visit with relatives at Argyle.

Adam Zeh, of Red Lake Falls, candidate for county auditor was greeting friends here the first of the week.

On Sept. 8th. the Ladies Aid will meet with Mrs. W. A. Arthur. All members requested to be present.

Sheriff Norland is now filling out summons notifying jurymen to appear at the October term of district court.

An Ice cream social will be given at the Norwegian Lutheren Church Tuesday Sept. 13th, 1898. Come one and all.

Mr Cadieu a well known pedagogue of Terrebonne passed through here Tuesday on his way to Thief River Falls.

Occasionally a republican editor—trying to be original or "independent"—slips off into populism before he knows it.—Fargo Forum.

Photographer Collins, M. E. Bjerk and ye editor will leave in the morning for a few days outing taking "snap shots" at anything that will fly.

—The Minnesota State Fair week, Sept. 5 to 10 inclusive, will be a great week. Do not fail to enjoy it. No event of the year will equal it.

Hon. P. M. Ringhal congressional candidate on the populist ticket was renewing acquaintances here Monday, taking the train to Red Lake Falls.

Miss Harriet J. Makinson of St. Paul a graduate of the State Normal School of Mankato, has accepted the position in the Grammer grade of our school.

Miss Laura J. Betts of Litchfield has accepted the position in the Intermediate grade of our schools. Miss Betts is a graduate of the St. Cloud Normal School.

Just received at the New Drug Store a fine lot of school supplies such as tablets, slates, copy books, pens and pencils, ink drawing books and stationery of all kinds.

Methodist Episcopal Church.

Services every Sunday at 8 o'clock p. m. Sunday school at 2 o'clock p. m.
REV. U. M. CREATH, Pastor.

Mr. and Mrs. H. E. Adams, who have been residents of this place for the past three years will leave one week from next Monday for an extended visit to their old home in New York state.

Monday Sept. 5th being a legal holiday school will open Tuesday Sept 6th. A special effort on the part of the parents should be made to have all the pupils enter school at the beginning of the term.

Jas. Cavanaugh went to Crookston Saturday for the purpose of hireing fifteen or twenty men to labor at the saw mill. He returned Monday with only five saying men looking for work were very scarce.

Conductor Murray after spending a three weeks vacation on the Pacific coast returned Saturday and is now punching tickets again on this line. Mr. Murray is very popular and his friends are glad to see him back.

Messrs. Carpenter and Coan of Minneapolis are here and will enjoy themselves for a few days hunting the festive prairie chicken. H. E. Ives will pilot them through the country and check them up when the law limit is reached.

John Christie made a trip to his homestead in the town of Garnes last Sunday accompanied by his friend E. Ruck who acted in the capacity as body-guard and was well prepared should any wild animals camp on their trail waiting for a meal.

How easy it is for some republican papers to pick up a candidate from some other party—paint him up so to speak—and pass him off on their readers as a life long republican. Several cases of this kind has been done not a thousand miles from here of late.

On Wednesday evening Sept. 7th the ladies of the M. E. church will give a Harvest Home Supper for adults at 25 cents per supper, and on the following evening, Thursday, for all children under 12 years of age, supper will be served for 10 cents. Every body invited.

Judge, that supposed-to-be funny paper which made so much fun of everyone who claimed, during the campaign of '96, that there was not enough money in circulation, has assigned with liabilities of one million. Funny isn't it? And right in the middle of our McKinley prosperity.—Ex.

An inquiry comes as to what is a protocol. Webster says: "In diplomacy, (a) A perliminary document upon the basis of which negotiations are carried on; (b) a convention not formally ratified; (c) an agreement of diplomatists indicating the results reached by them at a particular stage of a negotiation."

A letter from our old friend Corp. G. W. Coogan dated Aug. 27th says "We are busy packing up and will leave tomorrow for Knoxville, a distance of 112 miles and there go into camp." Up to date he has never answered sick-call. When mustered in he weighed 168, but constant drilling reduced his weight down to 153 pounds.

For destroying flies an exchange gives the following recipe: To one pint of milk add a quarter pound of raw sugar and two ounces of ground pepper; simmer the same together eight or ten minutes, and place them about in shallow vessels. The flies attack is greedly, and in a few moments is suffocated. By this method you may keep your kitchens, etc., clear of flies all summer without the danger of attending poison.

There are now 210 vessels in commission in our navy, the greatest number in active service since the civil war. Of the regular navy 11 belong to the first class; 10 to the second class: 43 to the third class and six to the fourth class; 12 are tugs, 6 sailing vessels; and 5 receiving ships. In addition to these there are 114 vessels auxilary to the navy, taking in 36 cruisers and yachts, 32 steamers and colliers, 25 tugs, 15 revenue cutters and 4 light house tenders.

Now the time has come when the house-wife who does much of her own cooking or preserving must often have her fingers stained with the juice of berries, peaches, etc., and it may be well to remind her that the fumes of sulpher will remove most fruit stains from the fingers. Put a tiny lump of sulphur in a tin plate, pour on a little alcohol, and set it on fire. Hold the finger-tips above the flame, and the discoloration will disappear.—Harper's Bazar.

The mayoralty of Minneapolis is not going begging, but there is a heavy demand for heavy men. Candidates are thick, most of them being self seeking. A movement to make T. H. Shevlin mayor had obtained good headway before Mr. Shevlin was appraised of it, but when it came to his notice he forthwith declined to receive the honor and job. A man with a large working interest in four saw mills with the disposal of their lumber stock has enough hard work without taking the ruling of a large municipality upon his hands.—Lumberman.

The editor of an exchange has discovered that there is a wide difference between the school books of the present and those of long ago. He says that when he first went to school he read his lesson something like this: "See the cow. Is not the cow nice? Can the cow run? Yes, the cow can run. Can the cow run as fast as the horse?" But the latest up-to-date style of reading it by the average kid is about as follows: "Git onto the cow. Hain't she a beaut? Sure she is a corker. Can the cow get a move on herself? You bet she can get a move on herself. Can she hum it like the hoss? No she ain't in it wid de hoss."

—The SPECTATOR is for sale—at one dollar a year—strictly in advance.

Died.

Thursday morning August 25th at her home on Water street occured the death of Mrs. J. H. Johnson. Mrs. Johnson was a long and patient sufferer from heart trouble which was contracted three years ago after an attack of typhoid fever. No seriousness of the dreaded disease was apparent until about two weeks before her death. She then became violently ill and the worst was to be expected at any time. The funeral services were held Friday under the auspices of the local I. O. O. F. and M. W. A. Lodges. The orders assembled at their hall and marched in a body to the residence from there to the M. E. Church where Rev. U. N. Creath preached a very touching and appropriate funeral sermon. The procession then followed the remains to the depot and saw them aboard the train. At Crookston Mr. Johnson was met by relatives who took the remains to Fisher that evening by team where the interment took place Saturday.

Mr. Johnson has resided with us about a year and had just recently got comfortably located in his new residence. He had the sympathy of his many friends and neighbors.

Card of Thanks.

I wish to express my heartfelt thanks to my many friends and neighbors who so kindly assisted me during the illness and death of my wife.

J. H. JOHNSON.

A small boy on war: "My pa has gone to fit the Spaniard and there hasn't been no row in the house since he left. Ma says peace was declared when he went. And pa—pa wrote home and says he thanks God for war and now he'll have a holiday, an' he says he hopes the war last ten years, and then so far away from home that he can't get back, and when ma read that she said 'ahem?' They goes on in that way. But I guess that if pa was killed she'd put on mourning for him and make out that she was sorry. Men is curious, but women is curiouser, and neither one knows more than they orter know.—Ex.

Ex Postmaster General Wanamaker says—"I have been a republican since 1860, but my party now stinks in the nostrils of decent men. If the people are willing to uphold such corruption as many of the leaders practice, and to condone their dishonesty, God help the country." Such is the testimony of honest men who are not led around by the politicians and the venal press. Let every republican use his think box and he will arrive at the same conclusion.—Wilmar Tribune.

Teacher's Examinations.

Fall examinations for teachers will be held as follows:

Red Lake Falls, Friday Saturday September 23rd and 24th.

FRANK JEFFERS,
County Supt.

The binder has served its purpose another year, and now the difference between the successful farmer and his shiftless neighbor will be made manifest by the way each disposes of this expensive piece of farm machinery for the winter, says the Scott County Argus. With the most intelligent use and the best of care farm implements are the profit consumers of the farm, and where the money put into them is almost thrown away by allowing them to be exposed to the wind and weather, and even the snows of winter, in the field where the last bundle was cut, or last swath finished, or the last furrow turned, there you find a farmer steeped in poverty. It needs but a few dollars in lumber, and a little extra work at carpentering to construct sheds for all the machinery used on the farm, and the saving in cost of repairs and new machines will soon amount to more than the outlay for the buildings. Don't plow around the binder rather than haul it to the barnyard.

The free text-book system was unanimously adopted by the School Board at a special meeting called for that purpose with the understanding that the text-books now owned by the children be donated to the district.

Signed { D. Patterson, clerk.
W. A. Sorsoleil, treas.
J. C. Dahl, dir.

The Rational Remedy.

This from the Plaindealer tells a story that is applicable to Northern Minnesota merchants as well as those over across the Red River of the north.

The fact that Montgomery, Ward & Co., and T. M. Roberts are advertising their bargains in the weekly press is a matter which should open the eyes of the average retail dealer. These two firms are the main competitors of the North Dakota retailer. This state has brought thousands and thousands of dollars worth of goods from these two concerns. The retailer has stood quietly by and seen the business taken right from under his nose. Occasionally he has kicked to the travelling man and claimed that the jobber was not making him prices by which he could compete. But the main trouble lays in the fact that the retail merchant fails to let the people know what he can do for them in the way of prices. He fails to advertise his bargins in a way that will attract the trade. T. M. Roberts takes advantage of this failing, uses printers' ink liberally, and the result is easy to see. If the North Dakota retailer holds his own from this on he must do more advertising.

For a plain, practical and instructive paper, made largely by farmers and wholly for farmers, Farm, Stock and Home of Minneapolis, Minn., has no equal among agricultural journals. We can furnish it in connection with the SPECTATOR one year for only $1.25

—Every farmer who writes a letter occasionally should get envelopes with his name and address printed in the corner. We will furnish 100 of the best quality printed in any style for the small sum of 75 cts. Send in your order.

The Man Wanted.

St. Paul Broadaxe: John Lind is a great man. He has proven it by a great record. Of the common people, he is ever with them. For the common people he is for ever their unserving champion. A Scandinavian by birth, he is an American by education and instinct. He is our candidate not because of his birth, but because he is an American of the Americans. The people will elect him. John Lind is a poor man and that proves that he is an honest one because he has been in a position for years where he could have made a fortune had he chosen to betray the people. His opponent is not only a rich man but a man who has at all times taken advantage of the main chance. Mr. Eustis has much to explain. John Lind has nothing. There is no Guaranty Loan or hospital scandal ringing about the ears of John Lind. In the last campaign Mr. Lind was falsely charged with declaring that he was an atheist. The Dispatch paid for the falsehood after the jury branded the article a libel. The Scandinavian people are conscientious and religious and they do not like to have God mocked by one of their number, so they are unwilling to vote for one who was so branded. But the lie won the election in '96. It will react now and the soldier candidate will be elected by a very large majority.

—If you are in need of a pair of glasses J. Q. Adams will fix you out on his next trip to St. Hilaire which will be Sept. 12th 13th and 14th. If you have a watch or clock that needs repairing or cleaning leave it at Johnson's drug store and that will be attended to.

Pacing Race Without Drivers.

When it was announced that Marian Mills had been trained to pace a mile without sulky or driver, making fast time, it was thought the limit of horse education was reached, but the managers of the Minnesota State Fair, which comes off on September 5 to 10, have engaged a string of five fast pacers, trained to make an actual race in fast time, without driver or sulky. These "Guideless Wonders" not only pace the mile, but make it a hot contest, taking the pole when they can get it and in other ways showing wonderful intelligence and skill in making the most of every chance to "get there." The time made will not be higher than 2:10 and will probably be much lower as they are a fast lot.

Girl Cashier's Mind Reading Methods of Making Change.

The girl cashier of a Madison street restaurant was for three weeks believed by one of the customers to be a lineal descendant of Morgan le Fay and to have some of the family traits of Heller, the second sight magician, for she seemed to know by intuition or instinct or something else what was the price of the meal he had consumed and also just the amount of money in his hand when he approached to pay. He first noticed that when he presented a 35 cent check she immediately laid upon the rubber mat a dime and a nickel which she had been holding for change.

"How," this man inquired of himself, "did she know that 15 cents would be the correct change? There was no earthly way for her to tell what money I was going to offer her either. How did she come to have the exact change ready without a second's delay or without having to go to the cash register for it?" He could not answer to his own satisfaction.

The next day he bought a 45 cent meal, and she promptly laid a nickle before him, the 5 cent piece being the only coin she held in her hand. It was the correct amount, as he gave her a half dollar. He experimented several times afterward and at last appealed to her for information.

"Why," she said, "didn't you ever notice the tint of your check?" When I see you coming 20 feet away, I know by the slate colored check that you have eaten 20 cents' worth. If you have a red ticket, that warns me that you want to pay for a two bit meal. A blue one means 30 cents. This yellow one is, of course, for 40 cents. The amount is printed upon the check, but the color is my warning."

"Yes," said the other, somewhat relieved, "that seems easy. But still my money is not of different colors. How do you know what change to have ready? That's mind reading, sure."

"Not at all. When you come with a quarter ticket, you will usually give me the exact change or half a dollar. I have a quarter ready for you in my left hand in case you give me a half. Suppose your ticket is a 35 cent one; you'll either give me the correct amount or a half dollar—or perhaps a dollar. With 15 cents in one hand and 50 cents in the other I'm ready for any demonstration almost."—Chicago Record.

Prussian Streets.

The German emperor as king of Prussia has the sole right to name streets, and he has just refused his consent to the proposal to call two streets after the names of Dr. Bertram and Dr. Langerhans, two popular members of the municipal council. His majesty disapproves of such a course during the lifetime of the godfathers. This apparently refers to men of official standing only, whose political opinions might change after the streets had been named, for the Mommsenstrasse in Charlottenburg was recently passed with approval. Some new German streets have a tendency to long names. "Prince August von Wurtembergstrasse" is today a name and nothing more. The houses have still to be built.

Arranging For a Bargain.

Juvenile Customer (in large candy store)—You mix candies here any way a feller wants 'em, don't you?

Shopgirl—Yes.

Juvenile Customer—I want a nickel's worth. Give me some of every kind you've got.—Chicago Tribune.

The ancient Mexicans used wooden swords in war that they might not kill their enemies.

The principal theater in Havana, the Tacon, was built by convict labor.

—The SPECTATOR is the official paper of the village and county. Now is the time to subscribe. $1.00 per year if paid in advance—otherwise $1.50.

Pimples

Are the danger signals of impure blood. They show that the stream of life is in bad condition, that health is in danger of wreck. Clear the track by taking Hood's Sarsaparilla and the blood will be made pure, complexion fair and healthy, and life's journey pleasant and successful.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5.

Hood's Pills cure indigestion, biliousness.

She Enjoyed no Earthquake.

An old lady from Oxford, Mich., who with her husband had spent the winter in California, was asked by one of her neighbors if she had heard an earthquake while in California.

"Yes, I heard one," she answered, "and rather enjoyed it, for it was the first thing that has happened since John and I have been married that he did not think I was to blame for."—San Francisco Argonaut.

ARTISTIC HOMES.

How a Great Manufacturer Has Brought Them Within Reach of All.

Probably at no time in the world's history has so much attention been paid to the interior decoration of homes as at present. No home, no matter how humble, is without its handiwork that helps to beautify the apartments and make the surroundings more cheerful. The taste of the American people has kept pace with the age, and almost every day brings forth something new in the way of a picture, a draping, a piece of furniture or other form of mural decoration. One of the latest of these has been given to the world by the celebrated artist, Muville, in a series of four handsome porcelain game plaques. Not for years has anything as handsome in this line been seen. The subjects represented by these plaques are American Wild Ducks, American Pheasant, American Quail and English Snipe. They are handsome paintings and are especially designed for hanging on dining-room walls, though their richness and beauty entitles them to a place in the parlor of any home. These original plaques have been purchased at a cost of $50,000 by J. C. Hubinger Bros. Co., manufacturers of the celebrated Elastic Starch, and in order to enable their numerous customers to become possessors of these handsome works of art they have had them reproduced by a special process in all the rich colors and beauty of the original. They are finished on heavy cardboard, pressed and embossed in the shape of a plaque and trimmed with a heavy band of gold. They measure forty inches in circumference and contain no reading matter or advertisement whatever.

Until October 1 Messrs. J. C. Hubinger Bros. Co. propose to distribute these plaques free to their customers. Every purchaser of three ten-cent packages of Elastic Starch, flat-iron brand, manufactured by J. C. Hubinger Bros. Co., is entitled to receive one of these handsome plaques free from their grocer. Old and new customers alike are entitled to the benefit of this offer. These plaques will not be sent through the mail, the only way to obtain them being from your grocer. Every grocery store in the country has Elastic Starch for sale. It is the oldest and best laundry starch on the market, and is the most perfect cold process starch ever invented. It is the only starch made by men who thoroughly understand the laundry business, and the only starch that will not injure the finest fabric. It has been the standard for a quarter of a century, and as an evidence of how good it is twenty-two million packages were sold last year. Ask your dealer to show you the plaques and tell you about Elastic Starch. Accept no substitute. Bear in mind that this offer holds good a short time only, and should be taken advantage of without delay.

A Girl of To-day.

Father—But, my dear, I thought you had promised to marry tha young gentleman.

Daughter—Oh, no, papa. I only said he could be engaged to me if he wanted to.—Philadelphia Inquirer.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets Candy Cathartic cleans your blood and keeps it clean by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets—beauty for 10 cents. All druggists. Satisfaction guaranteed. 10c, 25c, 50c.

When a man has not a good reason for doing a thing he has one good reason for letting it alone.—Walter Scott.

To Cure Constipation Forever.

Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

Some men resemble dice—easily rattled but hard to shake.

NO WOMAN IS EXEMPT.

Regularity is a matter of importance in every woman's life. Much pain is, however, endured in the belief that it is necessary and not alarming, when in truth it is all wrong and indicates derangement that may cause serious trouble.

Excessive monthly pain itself will unsettle the nerves and make women old before their time.

The foundation of woman's health is a perfectly normal and regular performance of nature's function. The statement we print from Miss GERTRUDE SIKES, of Eldred, Pa., is echoed in every city, town and hamlet in this country: Read what she says:

"DEAR MRS. PINKHAM:—I feel like a new person since following your advice, and think it is my duty to let the public know the good your remedies have done me. My troubles were painful menstruation and leucorrhœa. I was nervous and had spells of being confused. Before using your remedies I never had any faith in patent medicines. I now wish to say that I never had anything do me so much good for painful menstruation as Lydia E. Pinkham's Vegetable Compound; also would say that your Sanative Wash has cured me of leucorrhœa. I hope these few words may help suffering women."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

All suffering women are invited to write freely to Mrs. Pinkham, at Lynn, Mass., for advice about their health.

SENATOR JONES BANQUETED

SENATOR JONES OF ARKANSAS TALKS TO MINNESOA DEMOCRATS.

The Leaders of Democracy pay Their Respects to Senator James K. Jones of Arkansas Chairman of the National Democratic Committee—Senator Jones Entertains the Banqueters With a Splendid Resume of Democratic Principles.

Minnesota's leaders of Democracy to the number of [illegible] gathered last evening at the Ryan around the banquet table to tender their respects to Senator James K. Jones of Arkansas, chairman of the national Democratic committee, and The programme included a list of speakers, with T. D. O'Brien of St. Paul, state national committeeman, as toastmaster, comprised of L. A. Rosing of Cannon Falls, chairman of the state central committee; A. T. Ankeny of Minneapolis; Patrick Fitzpatrick of Winona; John L. Townley of St. Paul, chairman of the Ramsey county committee; James Gray of Minneapolis, Democratic candidate for mayor of that city; Editor C. W. Stanton of Appleton; Congressman Charles A. Towne of Duluth and Senator Jones of Arkansas.

"The Health of William Jennings Bryan," was the toast to which Senator Jones responded.

"I am profoundly grateful to you, fellow Democrats of Minnesota, for the cordial welcome that you have extended to me," Senator Jones said, "but I feel that it is not due to me personally, but because of the fact that as chairman of the national Democratic committee in 1896 I had control of the Democratic campaign and did what in my humble power I could to bring forth the best results for all the people of this great and glorious nation. There are two great parties in this country. One offers to the people equal and exact rights and justice, with special privileges to none. This is its motto. The other has as its watchword the sentiment that special privileges should be extended to a favored few who should reap the reward of toiling masses. These great parties were first represented by Jefferson on the one hand and Hamilton on the other. They are now known as the Republican and Democratic parties.

"Fortunes beyond the dreams of avarice have grown up for the favored few during the forty years that the Republican party has been in control and the toiling masses have poured millions into their hands. What is the cause of all this? We need but to look back over the history of our country to find it. The one condition which has brought distress to the homes of the poor has been that one specter—falling prices. When a man has sown his crop he has reaped it worth less than it was when he planted it. Falling prices are recognized as distributing wealth in favor of the few against the masses. Rising prices distribute wealth to the masses as against the classes. This great truth is not denied by our best economists the world over. When commodities are plentiful the price goes down; when they are scarce the price goes up.

"But there is one thing which will explain the general falling of prices, and that is the volume of money. We have had falling prices since 1873 till now because the volume of money has decreased. It is our idea to increase the volume of money, to restore silver to its natural basis. To illustrate my point, I read in an English paper that prices in England fell 10 per cent in twelve months, due to the calling in of silver coin in India. Now, here is the point, taken from the Bible parable of the worthy and the unworthy disciple. One man, we will say, has $1,000, which he invests in real estate. He is the worthy disciple. Another has $1,000, which he wraps in a napkin and buries. At the end of a year, under present conditions, the man that has bought real estate finds that his property has depreciated in value 10 per cent, and that for his original investment he can now only secure $900. The man who has buried his $1,000, the unworthy disciple, digs up his $1,000 and has all of it intact and can buy 10 per cent more with his money than he could when he consigned it to the ground. This is his reward. In these later, degenerate days, for having proved himself an unworthy servant. He is a wicked man in the face of his God.

"But suppose he had placed his original $1,000 out at 6 per cent interest instead of burying it. He amply secures himself with mortgages, etc., and at the end of the year he gets back his principal and interest. He gets back his 6 per cent interest, yes, and 10 per cent added to it for the increase in the value of his money. That is why during falling prices men seek bonds and to invest their money securely and, if they cannot get bonds, bury it. This accounts for the bond issues of the Republican party, taking every opportunity to issue these bonds, and while falling prices continue, is saddling the people of the country with debt. A man who would write a worthless check for $25 is a forger, but a man who helps to keep up falling prices and increase the value of money, so that, $100 will be worth to him $125, is a great financier and any one who protests against this practice is an anarchist and a silver fanatic.

"When the Civil war closed this country was $2,600,000,000 in debt. We have since that time paid the interest and reduced the principal one-half, and, yet, measured by any product of our farms, by wheat, cotton, corn, or whatever you may choose, it will take twice as much now to pay this indebtedness as it would at the time the debt was contracted. This condition is made possible by the unjust, corrupt actions of unequal and unjust laws, created by corrupt legislatures.

Greater Than Washington and Lincoln.

"In 1896 there met in Chicago a body of men, the members of which will go down in history as the grandest men this nation ever knew. That body of men elected a leader, whose picture adorns this hall to-night, William Jennings Bryan, (cheers) to stop this evil, and proposed a change by increasing the volume of money. The Republicans in their convention at St. Louis did not dare to say that we were not right, but proposed to bring it about by international agreement on bimetallism. The American people were not considered intelligent enough, not possessed of brains and brawn enough, to bring about this themselves. But how has the Republican party kept its agreement? When you ask a Republican now when international bimetallism is to be brought about he sticks his fingers in the armholes of his vest and talks about something else.

"McKinley was heralded as the advance agent of prosperity. Whether he was elected or not, he became president of the United States. We were told that then prosperity would come. Is it here? I will illustrate. The Dingley bill was passed after he became president. It is the highest priced tariff law that was ever passed, more monstrous than the McKinley bill. And yet June 30 last, twelve months after it had been in operation, the revenues of the government were $40,000,000 short of the expenditures, and that after certain railroads had paid into the United States treasury $60,000,000, receipts that will not accrue next year nor hereafter. What is the significance of this? It is that prosperity has not come yet. McKinley and the Republican party have not brought prosperity to the people as was promised.

"Famine abroad, scarcity of the crop in Europe, gave a stimulus to the price of wheat, and the Republicans claim that they did it, and jealously refuse to give credit to Divine Providence that alone brought it about and poured millions of dollars into the pockets of the farmers of this country.

"Falling prices continue. The weight of evil is felt in every home in the country. The masses have not felt the coming of prosperity. Who has, then? I will tell you. Look back over the stock market. You will see that when the Dingley bill became law sugar stock was at 85. Now it is at 140 and has remained there ever since. It is the capitalists that are feeling prosperity; the rich are getting richer and the poor are growing poorer and this is the prosperity that was promised us in 1896; that was proclaimed from every stump in the country. I do not believe that this is the kind of prosperity that the people of this country want or will ever be satisfied with.

"The power to correct this evil lies in the hands of the people, and when the Republican party shows that it has failed the people, sitting as a jury on its past misdeeds, will rise in their might and cast their ballot for the party of the people—the Democratic party of 1896."

Senator Jones continued his masterly arguments for half an hour or more.

He Insisted That the

intelligent people favor the Democratic party's issue and that thousands of ignorant foreigners were compelled to vote the Republican ticket for fear of losing their positions. "But, as sure as God rules," Senator Jones continued, "the cause of right and justice will triumph in the end with the ascendancy of the Democratic party under the leadership of its truest advocate, William Jennings Bryan, and we will then, and only then, come into that prosperity that has been promised." Senator Jones paid his respects to the war with Spain and said that the Democratic party forced it on the Republicans who are now trying to claim the credit. He said that he honored the Republicans who had stood shoulder to shoulder in congress in advocacy of the war to relieve suffering Cuba from Spanish oppression. "Never was there a time," said Senator Jones in closing, "when I had so much confidence in the future of this country as now. The election of John Lind as governor of Minnesota will carry the glad tidings from here to every state in the Union, and when we elect William Jennings Bryan president of the United States the people of this country will witness the greatest revival of prosperity that has ever come to us."

In the address of welcome to Senator Jones, Chairman Rosing, of the Democratic state central committee, said that he did not think it necessary to formally tell him of the warm place that he occupies in the hearts of Minnesota Democrats. Every breath of Minnesota ozone that he has taken in during the past two weeks, Mr. Rosing said, has welcomed him to the state. "In behalf of the state organization we extend to you a most cordial welcome here. Silver-Republican Democrats, Populist-Democrats are all welcome to this table."

Toastmaster O'Brien.

Toastmaster O'Brien said in part: "We recognize in Senator Jones the head of our party. He made a gallant fight under most adverse circumstances. The Democrats of Minnesota are heart and soul with the Democrats of the nation. We are still against the corporations and money power. For forty years the Republican party has been in power—has been the trustee of railroads and corporations." Mr. O'Brien commended the supreme court and Attorney General Childs for the decision in the Steenerson grain rate case, which, he said, eliminated watered railroad stocks, and asserted that the Republican party in its recent state convention turned down three members of the supreme court and Attorney General Childs because of this stand against the railroads and sent them to mourn with A. Y. Merrill, the "hero of the Anderson bill," to reflect how much better off they would have been had not their names appeared in behalf of the people.

Charles A. Towne, in response to the toast "John Lind," paid a glowing compliment to the Democratic candidate for governor, whom he considered to be honest, not in the sense of being differentiated from other men less honest, but who is honest from principle. Lind, the speaker said, will win, no matter who runs against him. He has worn his opinion in regard to the silver question upon his sleeve that every one might know what it is. The silver question is the issue, now that the war is over, and Lind's position on the money question will secure to him the silver vote.

All the notable silver Democrats in Minnesota were present at the meeting, but it was noticeable that none of the old wheelhorses such as Judge Flandrau, Michael Doran and the others that have labored earnestly for the party in the past were present. It is truly a new party. At the speakers' table were T. D. O'Brien, Judge John W. Willis, Dr. E. H. Whitcomb, John L. Townley, T. R. Kain of St. Paul; A. T. Ankeny, James Gray, P. B. Winston and Matt Walsh of Minneapolis; L. A. Rosing of Cannon Falls, Patrick Fitzpatrick of Winona; Timothy O'Connor of Renville; C. F. Macdonald of St. Cloud, Congressman Towne of Duluth, C. W. Stanton of Appleton, J. J. Thornton of St. James.

About fifty-seven came over from Minneapolis in a special car and half a hundred more were from the country districts.

The dining room of the Ryan was tastefully decorated with American flags, and over the speakers' table were portraits of George Washington, Thomas Jefferson and Andrew Jackson.

From 8 until 8:30 in the evening a reception was tendered Senator Jones in the parlors of the hotel, where Judge Willis and T. D. O'Brien presented the faithful of Minnesota to Senator Jones, after which the banquet was served.

What She Called Him.

"Pardner, I was never so deeply insulted in my life," said Tired Thompson to Weary Willie, as he joined his companion in the road.

"Did she ask you to work for your dinner?"

"Naw!"

"Did she invite you to take a bath!"

"Naw!"

"How did she insult you?"

"She said I was an unfumigated fraud."—Judge.

A Good Giver.

Though Wesley was never rich and never had a large salary, he managed to give away over $200,000 during his life. He founded in England an enterprise for loaning poor people small sums to tide them over transient difficulties. A cobbler who received a loan of $20 from this fund, was able to show Wesley before the latter's death, that the profits of his business were $150,000 per year.

Lonelyville Ways.

Mr. Citily (of the city, visiting the Isolates, of Lonelyville)—What in thunder makes them so slow in assorting and handing out the mail? It has been in for an hour!

Mr. Isolate (suavely)—Oh, Lizzie McCracken, the daughter of our genial station agent and postmaster, is collecting stamps, and it takes her some time to soak them off the letters.—Puck.

The Strange Part of It.

Mrs. Wedderly—Yes; my husband and I met and became engaged at the seaside.

Mrs. Van Laub—Dear me, how singular!

Mrs. Wedderly—I don't see anything so remarkable about it. Young folks are always getting engaged at the seaside.

Mrs. Van Laub—I know; but you seem to have subsequently got married to each other.—Chicago News.

Traduced.

"You don't look as if you'd ever had anything to do with water in all your born days," said the hard-featured woman standing inside the kitchen door.

"Nevertheless, ma'am," replied Tuffold Knott, stiffening himself up and speaking in a tone of insulted dignity, "when I was a young man I run a ferry for a whole year."—Chicago Tribune.

Strategy.

The Nurse—She says she doesn't want any broth, and won't eat it.

The Doctor—Take it back and tell her that it isn't good for her, and she mustn't eat it.—New York Journal.

TOLD BY THE SERGEANT.

From the Democrat, Grand Rapids, Mich.

At the Michigan Soldiers' Home, in Grand Rapids, lives Sergeant Richard Dunn, hale and hearty, although he carries the scars of several wounds sustained in some of the battles of the Civil war. In recounting his experience to a reporter, Mr. Dunn said:

"About a year and a half ago I began to have trouble with my stomach. My suffering was so intense that I tried different medicines and doctored with several physicians, but without permanent relief.

A Wounded Soldier.

"I read an account of Dr. Williams' Pink Pills for Pale People having cured a case much like mine, and I decided to give them a trial, which I did.

"After taking five boxes I was cured. I never felt better than I do now, even in my younger days. I am naturally a robust man, but that stomach trouble, together with rheumatism, which afterward set in, were making fast inroads upon my health and I am satisfied that it would have been but a short time before my comrades would have been conducting the regulation funeral ceremonies over my remains, had I not chanced to read of and taken Dr. Williams' Pink Pills for Pale People.

"There are several others in the home who are taking these pills and are receiving great benefit." RICHARD DUNN.

Subscribed and sworn to before me, this 1st day of Nov. 1897.

HENRY GIBSON, *Notary Public.*

Sergeant Dunn is perfectly willing that anyone should write him in reference to his case, provided stamp is enclosed for reply.

All the elements necessary to give new life and richness to the blood and restore shattered nerves are contained in a condensed form in Dr. Williams' Pink Pills for Pale People. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. In men they cure cases arising from mental worry, overwork or excesses of whatever nature.

A Distinction.

"Isn't that new neighbor of yours rather eccentric?" inquired the commercial traveler.

"No," answered one of the village's prominent citizens. "He ain't rich enough to be called 'eccentric.' He's just a plain crank."—Washington Star.

PATENTS.

List of Patents Issued Last Week to Northwestern Inventors.

Charles Anderson, Minneapolis, Minn., swivel connection; John H. Atkinson, Winnebago, Minn., wrench; James O. Bane, Waseca, Minn., spring attachment for pumps; James F. Hennessy, Winona, Minn., vehicle running gear; Tilley G. McWithey, Cloquet, Minn., corn-popper; Joseph Sanford, Elysian, Minn., tire furnace; Edward H. Schultz, and E. R. Starkey, Grant, Minn., back-pedaling brake; Samuel L. Smith, West Duluth, Minn., speed gearing for cycles; Levi Twist, Albert Lea, Minn., combined scoop and hand-truck; James N. Wilson, Minneapolis, Minn., two-horse evener; John Lauritson, Tyler, Minn., tension device for twine binders.

Merwin, Lothrop & Johnson, Patent Attorneys, 910 Pioneer Press Building, St. Paul.

An ounce of pluck is worth a ton of luck.—James A. Garfield.

Hall's Catarrh Cure

Is taken internally. Price, 75c.

The girl in love is often unable to express her thoughts, but it is quite different after marriage.

No-To-Bac for Fifty Cents.

Guaranteed tobacco habit cure, makes weak men strong, blood pure. 50c, $1. All druggists.

Many a man is out in the back yard bemoaning his luck when fortune knocks at his front door.

COSMO BUTTERMILK TOILET SOAP makes the skin soft, white and healthy. Sold everywhere.

The wife who chases her husband with a poker rules him with a rod of iron.

Don't Tobacco Spit and Smoke Your Life Away.

To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or $1. Cure guaranteed. Booklet and sample free. Address Sterling Remedy Co., Chicago or New York.

Some men have a delicate sense of humor and the humor of others is senseless.

Mrs. Winslow's Soothing Syrup.

For children teething softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

The less heart a man puts into a task the more labor it requires.

The cup of happiness usually springs a leak before it begins to run over.

For Lung and Chest diseases, Piso's Cure is the best medicine we have used.—Mrs. J. L. Northcott, Windsor, Ont., Canada.

The joke you play on another fellow is a mean trick when he plays it on you.

FITS Permanently Cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. Send for FREE $2.00 trial bottle and treatise. DR. R. H. KLINE, Ltd., 931 Arch St., Philadelphia, Pa.

There are times when the brave deserve immunity from the fair.

A bath with COSMO BUTTERMILK SOAP, exquisitely scented, is soothing and beneficial. Sold everywhere.

The tongue is sometimes mightier than a bullet, though it may not speed as true.

TOWER'S FISH BRAND TRADE MARK

POMMEL SLICKER

The Best Saddle Coat.

Keeps both rider and saddle perfectly dry in the hardest storms. Substitutes will disappoint. Ask for 1897 Fish Brand Pommel Slicker—it is entirely new. If not for sale in your town, write for catalogue to A. J. TOWER, Boston, Mass.

CURE YOURSELF!

Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous.

Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles, $2.75. Circular sent on request.

CURES in 1 to 5 days. Guaranteed not to stricture. Prevents contagion. THE EVANS CHEMICAL CO. CINCINNATI, O. U. S. A.

WANTED—Case of bad health that R-I-P-A-N-S will not benefit. Send 5 cents to Ripans Chemical Co., New York, for 10 samples and 1,000 testimonials.

If afflicted with sore eyes, use Thompson's Eye Water.

LOW INTEREST RATES

DAYS OF SIX AND SEVEN PERCENT GONE.

The Maistor, Who Formerly Lived on His Interest, Compelled to Work on Account of the Changed Conditions—Lack of Industries.

In an address recently delivered before the New York State Bankers' Association the Hon. A. B. Hepburn directed attention to the fact that "the days of six per cent interest are fast vanishing, only to return at troubled intervals, when normal conditions are disturbed. He showed that property is steadily receiving less and labor more in the general division of revenue. People who have lived comfortably on their incomes from six, seven and eight per cent investments find themselves compelled to reinvest at 3½ and 4 per cent, and are obliged to resort to economies or to supplement their incomes with labor. As proof of his assertion he showed that in one of the large banks of the metropolis the average salary paid from president down to messenger boy was $1,508, the earning power of this average employe thus equaling that of $54,473 invested in government bonds at present prices."

In Canada the tendency is in the same direction, the fall of the rate being especially noticeable in the low interest paid upon loans for which the highest security is given. During the last half dozen years the rate upon deposits with the government or in the chartered banks has steadily dropped, until now it is practically down to 2½ per cent, for that is the rate which the government has given notice will hereafter be paid upon deposits in the government and postoffice savings banks. A similar reduction of the part of the banks will immediately follow, with the result that the incomes derived by these investors upon what, in the majority of cases, are the fruits of small savings, will be further cut down.

The rate of interest, like the rate of wages or the price of goods, is principally regulated by the law of supply and demand; and the falling of the rate generally during the past ten years is due to changed conditions. However, when the Canadian government last spring announced the further reduction on the rate on the people's savings, a special reason was assigned. It was stated that the purpose was to enable the banks and financial institutions to lower the rate all around, and so give cheaper capital to the commerce and manufacturing of the country. No doubt this desirable end will to some extent be furthered thereby, but this reason seems to be based upon the assumption that to enable the banks to charge borrowers less they must compel lenders to take less also; that is the benefit extended to the commercial borrower, must be at the expense of the depositor. When one looks over the rate of dividends paid by most of the banks, and finds that they range from eight up to twelve per cent, it would appear that the banks could well have afforded to loan at a lower rate, and still earned a fair profit for the shareholders.

Fijian Fire Ceremony.

Two New Zealand medical men, Drs. Hocken and Colquhoun, recently visited Fiji, where they had an opportunity of witnessing the now rare fire ceremony of the natives. It is so rare that the power is now confined to a single family living on an islet twenty miles from the Fijian metropolis, Suva. These people are able to walk, nude and with bare feet, across the white-hot stony pavement of a huge oven. An attempt was made on this occasion to register the heat, but when the thermometer had been placed for a few seconds about five feet from the oven, it had to be withdrawn, as the solder of the covering began to melt. The thermometer then registered 282 degrees, and Dr. Hocken estimates that the range was over 400 degrees. The fire-walkers then approached, seven in number, and in single file walked leisurely across and around the oven. Heaps of hibiscus leaves were thrown into the oven, causing clouds of steam, and upon the leaves and within the steam the natives sat or stood. The men were carefully examined by the doctors, both before and after the ceremony. The soles of their feet were not thick or leathery, and were not in the least blistered. The men showed no symptoms of distress and their pulse was unaffected. Preliminary tests failed to show that there had been any special preparation. Both doctors, while denying that there was anything miraculous about the experiment, expressed themselves as unable to give any scientific explanation.—London Chronicle.

Universal Tongue.

A statement made in good faith, but difficult to accept, was recently offered to his congregation by a country pastor. He had been holding forth on the advantages of plain speaking. "Why, brethren," he said, bringing his hand down upon the pulpit with great vigor, "there's no need of all these long words and high-sounding terms; not a bit. Look at St. Paul! Look at St. Paul, I say! His words were full of the meat of knowledge and help, and he didn't make use of any five-syllable talk. No, he always spoke in plain, simple English, my brethren!"—Tit-Bits.

Tram Line With Gas Motor Cars.

The town council of Neath, England, is shortly to grant a lease of the Neath corporation tramways to the British Gas Traction Company, Limited, of London. The lease will be for a term of seven years from July 1 next, at the option of the lessees for a further period of seven or fourteen years. This company will pay a rent of $6,500 per annum, and will equip the tram lines with gas motor cars of improved design and construction, providing a continual through service of cars, starting from each terminus at intervals of fifteen minutes.

Berlin's Bird Catcher.

Berlin pays a salary to a professional bird catcher, who keeps scientific institutions supplied with birds, nests and eggs. He is the only man in the empire permitted to do so.

Mistress—Where have you served before?

Servant—Just give me a city directory and I'll mark the places where I have not served.—Fliegende Blaetter.

Has Not Slept for Five Years.

It is reported that a man in Indiana has not had an hour's sleep for five years. Thousands of men and women are unable to sleep for more than an hour or two at night because of dyspepsia, headache and constipation. A certain remedy for these disorders is Hostetter's Stomach Bitters. All druggists sell it.

When a man says he does not feel at all like himself, some of his acquaintances are glad of it.

Wheat 40 Cents a Bushel.

How to grow wheat with big profit at 40 cents and samples of Salzer's Red Cross (80 Bushels per acre) Winter Wheat, Rye, Oats, Clovers, etc., with Farm Seed Catalogue for 4 cents postage. JOHN A. SALZER SEED CO., La Crosse, Wis. w n.n.

Nothing curdles the milk of human kindness like indifference.

Educate Your Bowels With Cascarets.

Candy Cathartic cure constipation forever. 10c, 25c. If C. C. C. fail, druggists refund money.

A great mind will neither give an affront nor bear it.—Horace.

For a perfect complexion and a clear, healthy skin, use COSMO BUTTERMILK SOAP. Sold everywhere.

The rolling wheel gathers the punctures.

Keep Coughing

We know of nothing better to tear the lining of your throat and lungs. It is better than wet feet to cause bronchitis and pneumonia. Only keep it up long enough and you will succeed in reducing your weight, losing your appetite, bringing on a slow fever and making everything exactly right for the germs of consumption.

Stop coughing and you will get well.

Ayer's Cherry Pectoral

cures coughs of every kind. An ordinary cough disappears in a single night. The racking coughs of bronchitis are soon completely mastered. And, if not too far along, the coughs of consumption are completely cured.

Ask your druggist for one of

Dr. Ayer's Cherry Pectoral Plaster.

It will aid the action of the Cherry Pectoral.

If you have any complaint whatever and desire the best medical advice you can possibly obtain, write us freely. You will receive a prompt reply that may be of great value to you. Address, DR. J. C. AYER, Lowell, Mass.

VOLUME XVIII. ST. HILAIRE, MINNESOTA, WEDNESDAY SEPTEMBER 7, 1898. NUMBER 6

THE NEWS RESUME

DIGEST OF THE NEWS FROM ALL PARTS OF THE WORLD.

A Comprehensive Review of the Important Happenings of the Past Week Culled From the Telegraph Reports—The Notable Events at Home and Abroad That Have Attracted Attention.

From Washington.

Commodore Philip has been designated as commander of the second division, to succeed Admiral Schley.

An order has been issued ordering a resumption of contract mail service between Tampa, Fla., and Havana.

The secretary of war has set aside the proceedings of a court martial convened by Brig. Gen. Greene on the steamer China.

The president has accepted the resignation of Brig. Gen. Charles Rowe, of the volunteer army, and he will return to his home in New York.

Mr. Perry Heath, first assistant postmaster general, said that the postal service would be extended to Porto Rico as rapidly as possible.

In answer to inquiries, the commissioner of internal revenue has held that there is a provision of law for the redemption of documentary revenue stamps.

President McKinley has appointed C. D. Woodward as one of the commissioners to represent this government at the Paris exposition. The title is that of assistant commissioner.

A naval board, composed of officers of the highest rank, has been designated to consider final report on all cases of officers deserving of reward for services in the war who have not already been recognized.

People Talked About.

Col. J. J. Van Horne, of the Eighth infantry, died at his home at Fort Russell, Wyo., of rheumatism of the heart.

Capt. Clark, of the Oregon, has arrived at St. Joseph, Mich., and expects the lake breezes will fully restore his health.

The Republicans of the Fourteenth Illinois district have renominated Joseph V. Graff of Pekin for congress, without opposition.

Capt. Charles E. Clark, formerly commander of the Oregon, when discharged from medical treatment, will be granted three months' leave of absence.

Prince Maximilian of Saxony, who became a priest a few years ago, has been appointed bishop of Kulm, in West Prussia. The prince is twenty-eight years of age.

Prof. A. J. Marks, author of "Holy Land" and "A Birdseye View of Palestine" and a lecturer of note, is dead in Chicago. He was born in Dupuyster, N. Y., March 16, 1832.

Frau Dannenburg, a talented portrait painter, has committed suicide in Berlin because, it is said, she could not get news of her son, who fought with the American army in Cuba.

Judge Horace Taylor of Rockford, Ill., died suddenly at the sanitarium at Kenosha, Wis. He was the oldest jurist in Illinois and was master in chancery for the last thirty years.

William Ferris, a wealthy resident of Mt. Vernon, died, aged ninety-five years. He served on board an American privateer in the war of 1812 and subsequently was a member of the expedition that cleared the gulf of Mexico of privateers.

Eros L. Tosca, who has been connected with the Havana consulate for six years, and who was Gen. Lee's secretary for three years, has been designated to go to Havana with the Cuban military commission as one of its secretaries.

William Ferriss, a wealthy resident of Mount Vernon, N. Y., is dead, aged ninety-five. He served on board an American privateer in the War of 1812, and subsequently was a member of the expedition that cleared the Gulf of Mexico of pirates.

Assistant Secretary Webster Davis, of the interior department, has directed that the representatives of recognized attorneys who have written authority from their employes, be granted the same privileges of examining the certificates of examining surgeons as it is provided by law for the attorneys in person.

Foreign.

Famine exists in several of the provinces of Russia.

The Samoan Islands may be divided among the United States and other powers.

Gen. Le Mouton de Boisdeffre, chief of the general staff of the French army, has tendered his resignation to the government.

The trades unions congress at Bristol, Eng., decided to send two delegates to the meeting of the American Federation of Labor.

The congress of Ecuador has suspended its sessions until it can obtain government protection. Consequently the cabinet has resigned.

At Nancy, France, a court martial has just sentenced a private soldier to three months' imprisonment and 500 francs fine for shouting "Vive Zola."

It is officially announced at Simla that there were 2,300 deaths from the plague last week in the Bombay presidency. The epidemic is spreading.

The Melbourne correspondent of the London Times says that the steamer Duke of Sutherland, from Brisbane, has sailed for Manila with meat and vegetables for the American forces.

It is asserted on reliable authority that the aspect of affairs between Chili and Argentina, in connection with the boundary question, is greatly improved.

Sporting Notes.

John R. Gentry lowered the track record of 2:11 1-4 to 2:06 at Goshen, N. Y.

Fred Titus of New York defeated Frank Starbuck of Philadelphia in a ten-mile paced bicycle race at the Coliseum, Baltimore. Time, 18:33 2-5.

E. W. Dodge of Lowell, Mass., rode a mile on the boulevard in 1:49 2-5, thus breaking the world's record for a mile paced road race, held by Ferguson of Terre Haute at 1:56 1-5. Local consuls of the L. A. W. certify to the record.

Criminal Record.

During a brawl at Bessemer, Mich., Elias Kissola inflicted fatal injuries upon Isaac Antio.

A crazy woman attempted to fire the Catholic church at Peoria, Ill. About $1,000 damage was done.

Joseph Shires, uncle of the condemned murderer, George H. Jacks, ex-chief of police at Muskegon, Mich., is under arrest at Chicago, charged with the famous Hagenow diamond robbery.

The body of Mrs. Catherine Doerr, wife of Peter Doerr, cashier of the Lafayette Bank, St. Louis, who was an invalid and had been missing for more than a week, was found in a well on Lempe avenue, not far from where she lived.

A gang of convict counterfeiters has been discovered manufacturing spurious coin at the Kansas state penitentiary. The work was performed in the coal mine, the metal used being babbit, buckets and spoons, which were melted and cast in plaster of paris molds.

Casualties.

Fire at Nashville, Tenn., destroyed property to the value of $8,500,000.

Hays Mackinson was fatally gored by an enraged bull at Sibley, Iowa.

A vapor-bath apparatus exploded at Chicago, inflicting burns upon H. T. Higgins from which he died.

Frank A. Nichols, a filer in the stave mill of the Buckley & Douglas Lumber company, at Manistee, Mich., met instant death by the bursting of an emery wheel.

The Los Angeles (Cal.) Soap company's entire plant was destroyed by fire. The blaze was preceded by an explosion. The loss is placed at $10,000; partly insured.

During a heavy gale of wind, fire broke out in D. R. Butler's large sawmill at Frankfort, Mich., spreading to the Frankfort Hardwood Manufacturing company's broom handle factory, near by, completely burning both to the ground. The total loss is $30,000.

While patrolling the lake two miles south of Frankfort, Mich., Capt. Morency, of the life-saving station, came upon an empty sailboat, bearing marks of having capsized during the recent storm. A pair of oars floated half a mile distant, and the boat's lugger sail was torn into shreds. Search for bodies was made, but it was fruitless.

A train on the Boston & Maine railroad struck a buckboard at Whiting's Crossing, near Ware, Mass., and killed five members of a pleasure party. The killed are: George Whiting, aged fifty; Jesse Whiting, aged eighteen; George Whiting, Jr., aged thirteen; Sadie Whiting, aged ten; a boy, not identified. The following were seriously injured: Harold Rich, aged fourteen; John Scott, aged six; Mildred Scott, aged four.

Otherwise.

Gen. Wheeler has ordered an investigation into the conditions at Camp Montauk.

Mrs. Rev. George Jeffries and child died at Philadelphia from the effects of eating toadstools.

The Merchants, Chase and Stafford cotton mills at Fall River, Mass., shut down in order to curtail the output for a time.

The will of Albert Munger, the Chicago elevator and real estate man, bequeaths over $200,000 to charitable institutions.

The Republican Business Men's League of Pennsylvania has adopted measures against the re-election of Senator Quay.

A Havana advice says the attitude of the insurgents is "completely pacific." Gen. Blanco, who is indisposed, is about to go into the interior.

George Engike and Peter Edmiston, who left Riverside, Cal., over a year ago to prospect on the Colorado desert, have not since been heard from.

The steamer Progresso has arrived at Seattle, Wash., from St. Michaels with 300 passengers and an abundance of gold dust, the property of a few persons.

Eugene Sandow, the strong man, has become the editor of a new English journal called Physical Culture. Paderewski is going to contribute an article on piano playing and music.

The bankruptcy of E. D. Conkey of New York is announced, with liabilities estimated at $350,000. He was formerly a railroad contractor in New York and failed in Baltimore during the year 1877.

W. S. Witham of Atlanta, Ga., is president of twenty-three banks in the Gopher State. Each bank is independent of the others, and some of them have paid as high as 40 per cent cash dividend.

In order to divert his mind temporarily from colonial difficulties, Mr. Chamberlain has written a play, the plot of which is laid in the political world, and which will be acted on private stages, before strictly limited audiences.

At the division hospital at San Francisco there are ninety-two patients from the Seventh California regiment, seventy-five from the Tennessee, fifty-two from the Iowa, thirty-two from the Twenty-third and twenty-five from the Twentieth Kansas.

During the four years just ended the mint at San Francisco has coined $153,697,834, of which over $125,000,000 was gold of Pacific coast production. The coinage for the month amounted to $8,160,000, breaking all previous rec-

DEATH BLOW TO MAHDIAM

DERVISHES COMPLETELY ROUTED BY ANGLO-EGYPTIANS.

Savage Warriors Advance With All Their Old-Time Ardor, but Are Unable to Withstand the Withering Fire of Gen. Kitchener's Forces—Dervishes Withdraw and Re-Form for a Supreme Effort to Retrieve Their Fortunes, but Are Finally Put to Flight, Leaving the Field Strewn With Dead—Anglo-Egyptian Losses Were 200, While Thousands of Dervishes Were Killed and Wounded.

Omdurman, Opposite Khartum, on the Nile, Nubia, Sept. 2, by Camel Post to Nazri.—The sirdar, Gen. Sir Herbert Kitchener, with the khalifa's black standard, captured during the battle, entered Omdurman, the capital of Mahdiam, at 4 o'clock this afternoon at the head of the Anglo-Egyptian column, after completely routing the dervishes and dealing a death blow to Mahdism. Roughly our losses were 200, while thousands of the dervishes were killed or wounded. Last night the Anglo-Egyptian army encamped at Agaiga, eight miles from Omdurman. The dervishes were three miles distant. At dawn to-day our cavalry, patrolling toward Omdurman, discovered the enemy advancing to the attack in battle array, chanting war songs. Their front consisted of infantry and cavalry stretched out for three or four miles. Countless banners fluttered over their masses and the copper and brass drums resounded through the serried ranks of the savage warriors, who advanced unwaveringly, with all

Their Old Time Ardor.

Our infantry formed up outside the camp. At 7:20 a. m. the enemy crowded the ridges above the camp and advanced steadily in enveloped form. At 7:30 our artillery opened fire, which was answered by the dervish riflemen. Their attack developed to our left, and, in accordance with their traditional tactics, they swept down the hillside with the design of rushing our flank. But the withering fire maintained for fifteen minutes by all our line frustrated the attempt, and the dervishes balked, swept toward our center, upon which they concentrated a fierce attack. A large force of horsemen, trying to face a continuous hail of bullets from the Cameron Highlanders, the Lincolnshire regiment and the Soudanese was literally swept away, leading to the withdrawal of the entire body, whose dead strewed the field. The bravery of the dervishes can hardly be overstated. Those who carried the flags struggled to within a few hundred yards of our fighting line, while the mounted emirs absolutely threw their lives away in bold charges.

Reformed for a Supreme Effort.

When the dervishes withdrew behind the ridge in front of their camp the whole force marched in echelon battalions toward Omdurman. As our troops surmounted the crest adjoining the Nile the Soudanese on our right came into contact with the enemy, who had reformed under cover of a rocky eminence, and had massed beneath the black standard of the khalifa in order to make a supreme effort to retrieve the fortunes of the day. A mass 15,000 strong bore down on the Soudanese. Gen. Kitchener swung round the center and left of the Soudanese and seized the rocky eminence, and the Egyptians, hitherto in reserve, joined the firing line in ten minutes, and before the dervishes could drive their attack home the power of the khalifa's army was cast in a depression and within a zone of withering cross-fire from three brigades with the attendant artillery. The devoted Mahdists strove heroically to make headway, but every rush was stopped, while their main body was

Literally Mown Down

by a sustained deadly fire. Defiantly the Dervishes planted their standards and died beside them. Their deep masses gradually melted to companies, and the companies to dribbles beneath the leaden hail. Finally they broke and fled, leaving the field white with jibbah-clad corpses, like a snow drift-dotted meadow. At 11:15 the sirdar ordered an advance and our whole force in line drove the scattered remnant of the foe to Omdurman. The heroic bravery of the dervishes evoked universal admiration. Time after time their dispersed and broken forces reformed and hurled themselves upon the Anglo-Egyptians, their emirs conspicuously leading and spurning death. Even when wounded and in death agonies they raised themselves to fire a last shot. Among the wounded is Col. Rhodes, the correspondent of the London Times, and a brother of Cecil Rhodes.

Large Number of Prisoners.

London, Sept. 5.—The war office has received the following dispatch from Gen. Kitchener: "The remnants of the khalifa's force has surrendered and I now have a very large number of prisoners on my hands. Our cavalry and gunboats are still pursuing the khalifa and his chiefs, who, with only about 100 fighting men, are apparently making for Kordofan."

Shut Out of Memphis.

Memphis, Tenn., Sept. 5.—The Memphis board of health has established a rigid quarantine against the entire country. No one will be allowed to enter the city from any direction. This action was taken on account of prevalence of yellow fever in Mississippi.

The Gloucester Arrives.

New York, Sept. 5.—The Gloucester, Commander Wainwright, which sailed from Guantanamo last Monday, has arrived in port, all well, and anchored off Tompkinsville.

FULL LIST FURNISHED.

Regiments to Be and Not to Be Mustered Out.

Washington, Sept. 5.—The Fifteenth Minnesota volunteer infantry has been ordered to Meadville, Penn., the new camp of the Third army corps. The Twelfth and Fourteenth have been ordered to the home rendezvous at St. Paul, and will be mustered out within sixty days. In reaching this conclusion the war department has been governed largely by the wishes of the men. It was the intention at first to keep the Twelfth in service, and Col. Bobleter will be greatly disappointed, for he had received assurances that his men would be sent to Cuba. But from the individual applications for discharges and the influence of Minnesota congressmen, Gov. Clough, with others, deemed it best to muster out the Twelfth with the Fourteenth, which has been on the list all along. It is understood here that the Fifteenth, almost to a man, desires to be retained. The other Northwestern regiments to be mustered out are the Second Wisconsin infantry, Fifteenth Iowa infantry, Second Iowa infantry, Fifth Iowa battery and Sixth Iowa battery.

Those remaining in the service are the Forty-ninth Iowa, the Fifty-first Iowa infantry and the First South Dakota infantry.

DESTROYED BY EXPLOSION.

Four Men Killed on a Government Steamer.

New Orleans, Sept. 5.—The government steamer John I. Meigs was destroyed by an explosion at St. Philip. She had aboard Lieut. Jarvey and a party engaged in removing the torpedoes laid in the Mississippi river during the beginning of the war. Lieut. Jarvey had a narrow escape. The killed are Capt. Starr, commander of the boat; Sergt. John Newman, of the engineers; Pat Carlos and Ralph Baggers. Those wounded were Fritz Koch and D. B. Reilly. Maj. Quinn, of the engineer corps, has been advised that the Meigs was blown up by a torpedo or mine. The engineers had been unable to recover the mines and torpedoes from shore by means of the cables to which they had been attached owing to the fact that the sand in the river had weighted them down and caused the cables to part. On this account a crew was ordered down on the Meigs to grapple for the mines and bring them to the surface. The crew had almost completed the work when the accident occurred.

PANDO DID NOT FLEE.

The Story of His Departure From Havana Was Untrue.

New York, Sept. 5.—The story from Havana that Gen. Pando, the former commander of the Spanish troops at Manzanillo, had secretly fled from Cuba on the French steamship Notre Dame de Salut for Spain, with 12,000,000 francs, was proven unfounded when the Ward line steamer Philadelphia came to her dock. Gen. Pando was the first of the forty-two passengers to land. He paced the deck and wore nothing to indicate his high rank in the Spanish army. He looks more like a Frenchman than a Spaniard, being short and stout and wearing a thick black beard. He claims to speak no English, and after arranging for the removal of his five pieces of baggage, drove to a hotel where he engaged a suite of rooms.

JOINED AGUINALDO.

Large Force of Insurgents Who Have Hitherto Opposed Him.

London, Sept. 5. — A Manila correspondent says: "Regular trains will begin to run on the Manila-Dagupan railroad to-morrow. Gen. Aguinaldo refused to permit repairs to the line and a reestablishment of train service except upon the significant condition that no foreign troops were to be conveyed. To-day he effected an important alliance with the Santiagaleisa party in the northern provinces of Pangan and Cubelos. This party commands 5,000 armed troops and has hitherto resisted Aguinaldo's pretentions to dictatorship. There are active movements among the insurgents everywhere north of Manila. Vigan has recently been occupied and a campaign has been directed against Bamur.

SPANISH COMMISSION.

Names of the Peace Negotiators Announced in Madrid.

Madrid, Sept. 5.—Senor Montero Rios will preside at the Paris conference. Leon Castillo will represent the political side, Senor Villarutti the diplomacy, Senor Montero the judicial and Gen. Cerero the military. Madrid is full of politicians. Gen. Polavieja, the lion of the hour, had a long audience with the queen regent and is surrounded and besieged by friends, admirers and followers. Senor Silvela is here and his star shines brightly in the political firmament. Gen. Weyler arrives to-morrow and has declared his adherence to Senor Robelo. He says he advocates the reorganization of the army and navy as France did after Sedan.

HEROINE IN THE WATER.

Mrs. Charles Edward Brown Saves the Life of Her Father-in-Law.

Lynn, Mass., Sept. 5.—G. F. Brown of Chicago, general manager of the Western Pullman Palace Car company, was saved from drowning at Beach Bluff by his daughter-in-law, Mrs. Charles Edward Brown, also of Chicago. Mrs. Brown is an expert swimmer, and although temporarily crippled and unable to use one limb, she kept Mr. Brown above water for a considerable time and brought him to the shore, when assistance finally reached her.

Rebellion Continues.

London, Sept. 5. — The Hongkong correspondent of the Mail says: The rebellion in Hainan continues and that the American consul at Canton has repeatedly but without avail urged the authorities to send troops there to protect the missionaries.

Hanged Himself.

La Crosse, Wis., Sept. 5. — Anton Stritt, a well known citizen, was found hanging to a rafter in his cooper shop by his two little children. He was sixty years of age.

VISITED BY THE PRESIDENT

HEROES OF THE WAR SALUTED BY THEIR COMMANDER-IN-CHIEF.

President McKinley Spends Five Hours in the Camp at Montauk Point Visiting the Sick and Inspecting the Camp—Makes a Speech to Assembled Infantrymen and Reviews the Cavalrymen—A Word for Every Sick Soldier Who Can Summon Attention—Tireless Patience of the Chief Magistrate.

Camp Wikoff, Montauk Point, Sept. 5—President McKinley spent five hours in the camp Saturday, bareheaded most of the time, visiting the sick in the hospitals and inspecting the well in their cantonments. He made a speech to the assembled infantrymen, reviewed the cavalrymen, expressed his opinion of the camp to the reporters and issued an order directing the regulars to return to their stations east of the Mississippi. Gen. Wheeler, his staff, and nearly every officer of prominence in the camp met the president at the station except Gen. Shafter, who is still in detention, and Gen. Young, who fell and broke his arm. The president drove to Gen. Shafter's tent in the detention camp. The general, who was flushed and weak from a mild case of fever, was in full uniform, sitting in a chair at the door of his tent. He tried to arise, but Mr. McKinley said:

"Stay where you are, general. You are entitled to rest." The president congratulated Gen. Shafter on the Santiago campaign, and after a few minutes' rest proceeded to the general hospital. The soldiers recently arrived on transports and waiting in the detention shed on the camp lined up on one side of the road and cheered. Mr. McKinley took off his straw hat then and scarcely put it on for more than a minute or two at a time during the remainder of the progress through the camp. Miss Wheeler, a daughter of the general, happened to be in the first row of the hospital tents and showed the president through her division. Gen. Wheeler announced in each ward: "Boys, the president has come to see you," or "Soldiers, the president of the United States." Some of the soldiers slept on unconsciously, some listlessly raised on their elbows, others feebly clapped their hands. Mr. McKinley gently shook hands with many, and at every cot he paused an instant, and if he saw the sick man looking at him he bowed in a direct and personal way. The party left on a special train. On the train Mr. Kinley made this statement: "I was very much pleased to meet the heroes of Santiago and to observe their splendid spirit. What I saw of the care of the sick men in the hospitals by those in charge and by the noble women engaged in that work was especially gratifying to me."

FIFTY DEAD.

The Heat Almost Unendurable in New York City.

New York, Sept. 5.—Fifty dead and over 100 prostrations in one day was the record of the heat in old New York Saturday. The sun gave a sweltering heat all day. Night followed almost like day, and many deaths from heat were reported at intervals in the various city hospitals, police headquarters and the coroner's office. A cold wave, accompanied by showers and thunder storms is prognosticated.

Chicago, Sept. 5. — Three dead, six critically ill and thirteen prostrations was the heat record for Saturday.

BAYARD IS DYING.

Thought That He Cannot Survive Many Days.

Dedham, Mass., Sept. 5.—The conditions of Thomas F. Bayard, former ambassador to England, who is at Karlstein, the home of his daughter, Mrs. Warren, was critical yesterday. So pronounced has been the change in the past two or three days that it was thought the patient would not survive many days.

Promise a Sensation.

Oshkosh, Wis., Sept. 5. — Alphonso Sandon was found burned to death in his home last Wednesday. The authorities now have evidence to prove that he was murdered for $400 which he had in the house and the murderer burned the house to hide the crime. Joseph Cranfield, a tenant of Sandon's, drove the deceased home late Tuesday night and was the last person to see him alive. Sandon had made a will in favor of Cranfield's wife. The authorities promise a sensation.

No Yellow Fever at Key West.

Key West, Fla., Sept. 5. — State Health Officer Porter issued a proclamation stating that he believes no yellow fever exists in this city, nor has there been any this summer. The quarantine will be kept on for a few days as a means of extra precaution to avoid the possible error of last year on the upper gulf coast.

Sampson Sails.

New York, Sept. 5. — Rear Admiral Sampson of the victorious North Atlantic squadron, and Maj. Gen. Butler, of the Cuban commission, held a conference in the Astor house, at which it was decided to sail for Havana on the steamer resolute from the Brooklyn navy yard to-day.

Zealandia Damaged.

Nagasaki, Japan, Sept. 5. — The steamer Zealandia, United States transport, Capt. Dowdell, from Manila, has arrived here in a damaged condition. A survey was held and it was recommended that the steamer be docked for examination.

Three Were Drowned.

Stamford, Conn., Sept. 5. — Frank, George and Mabel Ferguson, aged 24, 19 and 14, of Brooklyn, were drowned by the upsetting of a rowboat in a pond about a mile off Norton islands.

BACK TO FORT SNELLING.

The Third Infantry Will Soon Leave Camp Wikoff for Good.

New York, Sept. 5.—A special from Washington says orders have been prepared at the war department for practical abandonment of Camp Wikoff at Montauk Point. All the volunteer regiments now there will soon start for their homes and will receive furloughs as soon as they are mustered, while most of the regulars, as soon as they have recuperated sufficiently, will resume duty at the posts which they garrisoned before the war began.

Third Cavalry — Fort Ethan Allen, Vt., and Jefferson barracks, Mo.
Sixth Cavalry—Fort Myer, Va., and Fort Wadsworth, N. Y.
Third Infantry—Fort Snelling, Minn.
Fourth Infantry—Fort Sheridan, Ill.
Sixth Infantry—Fort Thomas, Ky.
Ninth Infantry — Madison barracks, N. Y.
Thirteenth Infantry — Forts Columbus, Porter and Niagara.
Seventeenth Infantry — Columbus barracks, Ohio.
Twentieth Infantry — Fort Leavenworth, Kan.
Twenty-first Infantry — Plattsburg barracks, N. Y.

The remaining regiments of regulars at Montauk will be disposed of next week. Some of them will probably be held at posts yet to be selected in Cuba.

COL. VAN DUZEE RETURNS.

Commander of the Fourteenth Minnesota Home on Sick Leave.

St. Paul, Sept. 5.—Col. Charles A. Van Duzee, of the Fourteenth Minnesota, arrived in St. Paul Saturday night, returning home on ten days' sick leave. Col. Van Duzee has been troubled for some time with the malarial complaint which has been so prevalent at Chickamauga. Once or twice he has been threatened with serious illness, but was able to ward it off, although his system has been becoming more and more debilitated, since the removal of the Fourteenth to Knoxville to more favorable conditions and surroundings. Col. Van Duzee concluded that the best thing he could do would be to return to Minnesota and have it out to a finish with the malaria.

Retiring Black Powder.

Washington, Sept. 5.—Probably the navy has fought its last war with black powder. Bids were opened at the navy department for supplying the warships with one million pounds of smokeless powder, a quantity at least to supply the the secondary batteries of all the ships in the service, and this supply will be augmented until in a year or two all the black powder will have been retired, except possibly some that will be retained for saluting purposes.

Shooting Suspects.

Manila, Sept. 5. — According to advices from Iloilo Gen. Rios, governor of the Visayas, is arresting and shooting suspected persons, including prominent natives of Manila. The obstructions on the railway from Manila to Caloran have been removed and the first train left yesterday. The steamers Ohi and Valencia have sailed for San Francisco.

Route of Wisconsins.

Jacksonville, Fla., Sept. 5.—The contract for transporting the First Wisconsin regiment to Milwaukee was awarded to the Plant system. The route will be the Plant system to Montgomery; Louisville & Nashville to Louisville; Pennsylvania lines to Chicago, and Milwaukee & St. Paul railroad to Milwaukee, which will be the mustering out point.

Wants Bryan's Regiment Discharged

Lincoln, Neb., Sept. 5—Gov. Holcomb has telegraphed to Washington asking if it was possible to secure an honorable discharge of the members of the Third regiment, Bryan's regiment, on their application. Private advices from Jacksonville telling of four deaths in a week and an alleged increase in the sick list has prompted the governor's action.

But One Instance.

Washington, Sept. 5. — The alleged overcharging by stewards on board transports is stated at the quartermaster general's office to be one single instance where a steward charged a soldier 25 cents for a sandwich. No other complaints of the kind have been made.

Sweden and Norway Accepts

Stockholm, Sept. 5. — On the recommendation of the Swedish-Norwegian council King Oscar has notified the czar of his acceptance of the invitation to send delegates to a peace conference.

Killed by a Horse.

Independence, Iowa, Sept. 5.—John Burke, an aged farmer, was killed at a picnic. His son was riding a running horse which bolted the track, striking Burke, killing him instantly.

Supposed to Be Andree.

Winnipeg, Sept. 5.—A Dauphin dispatch says Indians report having heard from Eskimos on Hudson's bay that a strange man, supposed to be Andree, appeared there.

Returns From Manila.

San Francisco, Sept. 5.—The transport Colon which has carried troops from this port to Manila, has arrived here on her return trip.

Back to Manila.

Washington, Sept. 5.—The Olympia and Raleigh, of Admiral Dewey's squadron, sailed yesterday from Hongkong for Manila.

A $200,000 Fire.

New York, Sept. 5.—Fire in Newark Celluloid works, destroyed the building and adjoining structures. Loss, $200,000.

Brothers Quarrel.

Marshalltown, Iowa, Sept. 5—During a quarrel on the street Joseph Dond fired three shots at his brother, Milo Dond, at close range. Two bullets took effect, but the injuries are not serious. The assailant was arrested.

Queen of Denmark's Illness.

London, Sept. 5.—The illness of the queen of Denmark has taken a serious turn. She has suffered a hemorrhage and lay for a long time speechless and unconscious. It is feared that a crisis is imminent.

MINNESOTA NEWS

STATE HIGH SCHOOL BOARD.

And Its Operations Among the Schools of the State.

Inspector Rankin of the state graded schools, reported to the state high school board that there are now forty schools receiving state aid. A large number of others would soon qualify and receive the aid. The applications of the schools at Zumbrota and Albert Lea for state aid were granted. The schools at Chatfield, Hastings, Red Wing, Spring Valley, Laverne and St. Paul were placed on the list as entitled to the $300 aid granted schools giving special instructions in the common branches. O. V. Thiele was given a high school permit. The following were granted permits to teach in graded schools: C. T. Morgan, Elysian; Clifford Pierce, Carleton; Frank Dobbin, Atwater; F. E. Hamline, Houston; Thyrza McClure, Windom.

The list of graded schools entitled to receive the appropriation from the state was fixed as follows: Ada, Aitken, Annandale, Argyle, Arlington, Atwater, Barnesville, Belgrade, Bird Island, Blooming Prairie, Breckinridge, Browns Valley, Browntown, Buffalo, Caledonia, Cambridge, Carleton, Carver, Chaska, Clearwater, Hovey, Dundas, East Grand Forks, Elmore, Elysian, Evansville, Excelsior, Eyota, Fairfax, Fertile, Fosston, Fountain, Fulda, Gaylord, Gibbon, Good Thunder, Graceville, Grand Meadow, Grand Rapids, Hallock, Herman, Hopkins, Houston, Jasper, Jordan, Kasota, Lake Benton, Lake Crystal, Lakefield, Lakeville, Lamberton, Long Prairie, Lyle, McIntosh, Mabel, Marine Mills, Mazeppa, Montgomery, Montrose, Mora, Morgan, Morristown, Morton, Mountain Lake, New Auburn, New Paynesville, New Richmond, North St. Paul, Norwood, Oak Park, (Stillwater P. O.), Olivia, Osakis, Osseo, Park Rapids, Pelican Rapids, Perham, Biddlesdale, Rockford, Royalton, Rush City, St. Louis Park, Sherburne, South Stillwater, Staples, Stephen, Stewartville, Taylors Falls, Tower, Soudan (one district); Two Harbors, Verndale, Virginia, Waverly, Wayzata, Wheaton, White Bear, Winthrop, Wykoff.

LIST IS GROWING.

There Is No Let-Up in the Epidemic of Typhoid in Camp Ramsey.

As the days go past and the fever cases continue to develop at Camp Snelling, as the result of the infection taken in at Camp Ramsey, the medical staff and the colonel of the Fifteenth regiment grow well-nigh discouraged. When the first dozen cases appeared, three weeks ago, one of the doctors made the prophetic remark that there would be 300 before the epidemic was over. The truth of his prediction is borne out in the hospital reports, which show that over 300 of the men have been smitten with the fever since the first case appeared. To-day there were about twelve more, whose conditions will probably result in their going to the hospital before the day is over. Yesterday twelve men were taken down town to the hospitals. The day before sixteen were taken, the latter number being an accumulation of Sunday, Monday and Tuesday.

It must not be understood that 300 men are sick at the present time, for they are being discharged from the hospitals at the rate of four and five daily. Many of the cases have proven very light. The increase just now is but slightly greater than the number of discharges, but it is the steady, unremittent manner in which the cases continue to develop which causes so much anxiety.

ON SICK LEAVE.

New Ulm Men Return From Chattanooga in Bad Shape.

Lieut. Louis Mueller and Maj. Koch, of the Twelfth regiment, arrived at New Ulm last night from Camp George H. Thomas, on a thirty-day sick furlough. Lieut. Mueller is in a critical condition with typhoid fever, and collapsed when he arrived here. He was at once taken in charge by a doctor, who, after several hours' work with him, felt safe in removing him to his brother's house, where he is now being cared for.

The boys report very unfavorably of Camp Thomas from a sanitary standpoint, and feel that a big step in the right direction has been taken by moving the regiment to Lexington.

DIVISION OF POLK.

Question Came Up Before the State Commission.

The Polk county division matter came up before the state commission at St. Paul, and a decision was again deferred. It was the argument of the divisionists which was heard. They were represented by Judge Jamison of Minneapolis and J. H. Johnson of Polk county. The divisionists desire to cut off the southeastern corner of Polk county and organize a new county named Garfield, with McIntosh as the county seat. The proposed new county is composed of eighteen townships, and it is claimed that this still leaves Polk with about forty townships, or more than twice as many as the new organization.

HEAVY COLLECTIONS.

Receipts of the Internal Revenue Office for August Amounted to $253,000.

Collector Von Baumbach of St. Paul reports the August collections of the internal revenue office for the district of Minnesota at $253,000. Of this, $70,000 was received from the sale of the new revenue stamps, while $18,000 was received from the added war tax on beer. The total receipts from the beer tax figure $86,294.

THIS IS A STRAW

Indicating the Revival of Business in Minnesota.

Secretary of State Berg presented State Auditor Dunn and State Treasurer Koerner with a substantial proof of the fact that business in Minnesota is improving. The proof took the form of a report that the fees for new corporations paid during August amounted to $13,440. A couple of years ago the $440 would have made a very good month's business in this individual line.

Hawaiian Immigration.

The following article is taken from the Pacific Commercial Advertiser, a paper published at Honolulu, Hawaii and may be of great benefit to those who have an idea of going there at some future time, hence we give it space.

The present issue of this paper will go to many places, and to many persons in the States, who may be looking to these Islands as a nursery of business opportunities. The Island can maintain a much larger population than now lives upon them, after there is a better adjustment of the land, the labor, and the transportation question. We invite rather than discourage any one who proposes to emigrate. At the same time, in order to prevent misery, and perhaps suffering, we desire to represent accurately the conditions here.

The great and profitable industry here is the production of sugar. It involves a large outlay of capital, and can be handled only by large capitalists. The rich industry is entirely in the hands of the Chinese.

The coffee industry is still in its experimental stage, but may be regarded as extremely well adapted to farmers with some means, who do their own work. Its profits have not yet been determined. As the product comes in competition with the coffee of all tropical countries, it is only safe to state that its profits will be regulated by that competition. These Islands have no monopoly in the coffee business, but the article is of a superior quality.

All of the tropical fruits readily grow here. The banana and the pine apple, the guavas do well. Whether the profits from their cultivation will yield any more than the profits of good horticultural work in the States has not yet been determined. Brains and industry and skill are just as necessary in the tropics for successful work as they are in the temperate zones. The best work produces the best results. Nature here has the trick of appearing lavish and generous, but in the end she is as exacting as she is elsewhere.

The fruits that are raised here are in competition with the fruits of Mexico, the Central American States, and the British West Indies. The bananas of Honduras and Bluefields compete in the markets of California with the banana from these Islands. At present owing to the high rates of transportation, there is no profit in the cultivation of the banana on several of the Islands. In the course of time, the freight rates will be adjusted. When it is done, there will be an outlet for large quantities of early vegetables, and the Pacific Coast will consume them. Only industrious and skilled workers will make profits out of it. The markets here are now largely supplied with apples, grapes, oranges and lemons, and even with vegetables from California owing to the neglect of residents here to produce them. The Chinese are the chief market gardeners.

The population of the Island is small. The supply of mechanics of merchants of bookkeepers, of professional men is greater than the demand.

The rule of "the survival of the fittest" applies here, as it does elsewhere.

It would not be right or just to say that there are better opportunities here than there are on the vast Mainland, with its immense extent of territory, and its undeveloped resources. If the advertisements and "Inducements" offered all over the states to persons proposing to emigrate, are true, there will be no lack of business opportunities on the Continent for a hundred years to come.

These who desire, above all things, a tropical climate will find it here in perfection.

We earnestly desire immigration from the continent. We as earnestly desire that no one shall charge any one here with making incorrect statements. Misrepresentations regarding "great opportunities" have caused infinite suffering in the States, during the last twenty years. It would be a crime to encourage people to strand themselves in this Paradise.

First Elephant In America.

It is not generally known that a former citizen of Owensboro brought across the ocean the first elephant that was ever in America. The name of the gentleman was Moses Smith, who at one time owned a vast body of land from the mouth of Panther creek up the river, embracing nearly all the present farms in the neighborhood of Sorgho. Mr. Smith was at Paris with his brother and had "more money than he knew what to do with." He told his brother that he intended taking something to America that the people had never seen. "You had better buy an elephant," said the jocular brother, and that was what Moses did.

He picked out the biggest animal he could find and paid an enormous price for it. He brought it to New York, where it was a nine days' wonder, but the owner soon found that he had something worse than the proverbial white elephant on his hands. He tried to sell it, but could find no buyer and at last undertook to give it away, in which he was equally unsuccessful. Finally he found a man who agreed to pay him $100 for it, and this individual put it on exhibition. He was so successful that he went into the show business and made a fortune out of Mr. Smith's folly. Colonel Frank McKernan of Adairville is a grandson of Mr. Smith, who lived to a great age at his home in this county.—Owensboro (Ky.) Inquirer.

Satan at Camp Meeting.

We will call him Bishop Simmons. During the afternoon the younger ministers had listened to him with veneration and respect, and when their turn came they found him a dignified and careful listener.

The afternoon was delightful and the camp meeting service was a long one. The good bishop was a keen lover of the weed, and after the meeting had closed he strolled off for a smoke. At a little distance he found an abrupt ledge entirely out of the view of the camp grounds, and going down around to the foot of this he lit his cigar and prepared for a quiet half hour.

As it chanced, soon after one of the younger ministers took a walk from the grounds, and finally came to the top of the same ledge, and, looking down, saw the bishop.

For the space of a moment or two he stood with a gleam in his eye, and then, stooping down, he said in a sort of triumphant tone:

"Ah, Father Simmons, I've caught you burning incense to the devil."

The bishop took out his cigar and turned about till he had swung the speaker fully into view, and then added slowly in a deep voice:

"But I didn't know he was so near."—Current Literature.

An Example of O'Connell's Wit.

Daniel O'Connell, though brilliant and witty, was daringly vulgar when he set out to attack an opponent. At a Dublin election he started to assail Recorder Shaw, who was a very dignified and handsome man, by declaring him a fellow whose visage would frighten a horse from his oats. The lord mayor, who presided, remarked on these amenities and said it might be supposed such a critic, like Hamlet's father, was endowed with Hyperian curls and the front of Jove himself, instead of a wrinkled brow and a scratch wig. As for himself, he would not be unwilling to compete with the demagogue before a jury of ladies if they could only see him as nature made him without the aid of the barber. O'Connell strode to the front of the platform, snatched off his wig and pointing to his naked head covered with a stubble of gray hair, cried, "Ladies, I demand your instant judgment!" Of course he had the laugh and the best of the encounter.—San Francisco Wave.

An Unexplained Point.

Peter Lombard points a moral in the English Church Times with this story: "Mrs. Proudie, the excellent wife of the bishop of Copeminster, down in the midlands, does admirable work by going among the poor people and talking to them out of her own experiences and giving them wholesome advice. She did so the other day at Mudbury, near Copeminster. Next day the rector's daughter at Mudbury said to one of the audience of the previous evening, 'Well, Mrs. Toddle, what did you think of Mrs. Proudie's address?' 'Oh, it was very good; but, you see, she only went half way.' 'Whatever do you mean, Mrs. Toddle?' said the young woman. 'Well, miss, she didn't tell us what she does when Mr. Proudie comes home drunk. We should like a little advice on that 'ere point.'"

He Wasn't Left.

Biggs—Quite a rivalry between Tom and Fred.

Griggs—Yes, I understand they are both seeking the hand of Miss Triffott.

Biggs—They both called at her house the other evening and at once began the exciting game of trying to outsit each other. Tom had to give it up finally and left Fred in possession.

Griggs—So Fred got the best of it?

Biggs—That's the question. It was a rainy night, and Tom did not take away the poorest umbrella when he left the house.—Boston Transcript.

Carries His Hatchet In His Boot Leg.

In some places men carry bowie knives and guns in their boot legs. One may meet in Fulton fish market in this city a man carrying a hatchet in his boot leg, but the hatchet is for peaceful purposes. It is an implement much used in the market for opening and for nailing up boxes and barrels in which fish are packed, and the boot leg seems to be the handiest place to carry it.—New York Sun.

Mme. de Pompadour encouraged fan painting and also collected fine specimens of the work. Greuze, Watteau and other great artists did not disdain to lend their talents to the art. These pictures were done mostly on vellum or chicken skin.

Now is the time to get the SPECTATOR.

Not to Be Balked.

A comparison made by an old carpenter 20 years ago may be applied in a much wider sense than he had in mind. He was speaking of two boys, brothers, who had been sent to him to learn the trade. They were bright boys, and their father, in telling the carpenter of his pleasure at their progress in their work, said he could not see but one had done just as well as the other.

"Um-m!" said the carpenter. "I presume to say their work looks about of a piece, but I'll tell you the difference betwixt these two boys. You give Ed just the right tools, and he'll do a real good job, but Cy, if he hasn't got what he needs, he'll make his own tools and say nothing about it.

"If I was casted on a desert island and wanted a box opened, I should know there'd be no use asking Ed to do it without I could point him out a hammer.

"But Cy!" added the old carpenter, with a snap of his fingers. "The lack of a hammer wouldn't stump that boy. He'd have something rigged up and that box opened if there was any open to it. I expect Cy's going to march ahead of Ed all his life."

Twenty years have proved the truth of the words, for while the boy who "made his own tools" is rich his brother is still an ordinary workman.—Youth's Companion.

The Southern Cross.

After you have known the Southern Cross for awhile and get on speaking terms with it your respect for it grows. When we first met it, writes E. W. Harden to the Chicago Post, we were at sea and were keeping good hours. By 9 o'clock all of us would have turned in. When the Southern Cross first comes above the horizon, it lies over on its side, and it is not straight in the heavens until midnight. Of course none of us would sit up three hours to see the cross right itself in the heavens, and so we did not see it as it should be seen, until one night in Colombo.

We had been out to dinner and did not go on board our ship until midnight. The moon had set, and we were rowed out from the landing wharf in one of those ethnological exhibit boats which the Cinghalese had at the World's fair, the outrigger kind. A big Peninsular and Oriental passenger ship was weighing its anchors as we passed, and as we got on the quarter deck of our ship the liner went by with hundreds of electric lights gleaming over the water. When it passed out of sight, we caught sight of the Southern Cross, high in the heavens, standing straight with our horizon, and it was as brilliant and as beautiful as we had been led to expect.

—Dr. W. A. Moore, dentist of St. Paul has permanently located in Red Lake Falls.

Beware of Setting Forest and Prairie Fires.

Office of State Forest commissioner,
St. Paul, Minn., March 26, 1898.

Under the act of the Legislature of Minnesota for the preservation of forests and for the prevention and suppression of forest and prairie fires, approved April 18, 1895.

The following are liable to a penalty not exceeding $100 or imprisonment not exceeding three months:

Any person refusing, without cause, to assist fire wardens, in extinguishing forest or prairie fires.

Any fire-warden who neglects to perform his duties.

Any person who wilfully, negligently or carelessly sets on fire, or causes to be set on fire, any woods, prairies, or other combustible material, thereby causing injury to another.

Any person who shall kindle a fire, on or dangerously near to forest or prairie land and leave it unquenched, or who shall be a party thereto.

Any person who shall use other than incombustible firewads for firearms or carry a naked torch, firebrand or other exposed light in or dangerously near to forest land.

Any person who shall wilfully or heedlessly deface, destroy or remove this or any other warning placard posted under the requirements of the above mentioned act.

Any railroad company wilfully neglecting to provide efficient spark arresters on its engines; or to keep its right of way to the width of 100 feet cleared of combustible material; or which shall fail to comply with other provisions of section 12 of the above mentioned act.

The following are liable to a penalty of not less than $5 nor more than $50:

Any railroad employe who wilfully violates the provisions of section 12 of the above mentioned act.

Any owner of threshing or other portable steam engine who neglects to have efficient spark arrestors, or who shall deposit live coals or hot ashes without extinguishing the same.

The following are liable to a penalty not exceeding $500 or imprisonment in the state prison not over ten years, or both:

Any person who maliciously sets or causes to be set on fire any woods, prairie, or other combustible material whereby the property of another is destroyed and life is sacrificed.

R. C. DUNN, (State Auditor),
Forest Commissioner.

C. C. ANDREWS,
Chief Fire Warden.

SUMMONS.

STATE OF MINNESOTA, } ss. District Court
County of Red Lake. } 14th Judicial Dist.

Mary Erickson, Plaintiff,
vs.
Rudolf Erickson, Defendant.

The State of Minnesota, to the above named Defendant.

You are hereby summoned and required to answer the complaint of the Plaintiff in the above entitled action, which complaint has been filed in the office of the Clerk of the District Court in and for said County and to serve a copy of your answer to the said complaint on the subscriber at his office in the City of Red Lake Falls in said county, within thirty days after the service of this summons upon you, exclusive of the day of such service; and if you fail to answer the said complaint within the time aforesaid, the Plaintiff in this action will apply to the Court for the relief demanded in said complaint.

Dated May 16th 1898.

CHAS. E. BOUGHTON,
Plaintiff's Attorney,
Red Lake Falls, Minn.

September 15th 1898

we will have a complete stock of

General Merchandise.

BRINK'S BUILDING.

STRAWBRIDGE MERCANTILE CO.

ST. HILAIRE, MINNESOTA.

"All Hands Abandon Ship!"

A naval officer thus describes the realistic "All hands abandon ship" drill: "Two minutes after the word has been passed every ship's boat has swung from its davits into the water, and a minute later every boat is thoroughly provisioned and watered. Within four minutes, and often in much quicker time, every man of the ship's company, from the commanding officer down, is occupying the station in the boat called for by his ship's number, and then the command 'Sheer off!' is given. The boats are hauled away a couple of hundred feet from the deserted vessel, and she rides without a human soul aboard her, often, when the drill is gone through in midocean, in a sea that the landsman would account terrific.

"Then the word 'Board!' is passed, and within eight minutes at the most all hands are not only on board again, but every boat has been relashed to the davits, all of the provisions, water, instruments and other gear have been removed, and the ship's company is in a fair way to get to sleep again."

Some Hard Sense.

Life is not a picnic. Of course, there can be lots of fun crowded into it, in a proper way, but on the whole it is a matter of hard and earnest work.

The men who work the hardest are the happiest.

Those who are happiest in their work are the most successful.

Every lick you put in now will be of benefit hereafter. No matter what your pay may be do the best that is within you.

We can't all get rich by lying on flowery beds of ease while other's fight to win the prize or sail through each day with colors at the masthead and every yard of canvas set. Work is the most healthful, invigorating tonic that poor human nature can help itself to.

Remember that if you are well and busy you must, as a result, be happy.—Hardware.

He Complied.

Mr. Transcient—Is this all the butter you have in the house, Mrs. Caterer?

Mrs. Caterer—It is, Mr. Transcient, and I wish you would try to make it go as far as you can.

Mr. Transcient—With pleasure, Mrs. Caterer (opens window and throws butter against back fence). There! If it hadn't been for that fence, I could have made it go a little farther yet.—Boston Courier.

LOST:—Office key of the jack knife make-up. Leave at this office.

Dawson City Prices.

Here is a recent bill of fare of a Dawson City restaurant: Coffee or tea, 75 cents a cup; pie, 75 cents a piece; porridge, $1.75 a plate; soup, $1 a plate; sandwiches, 75 cents each; steak, $3; a portion of candied fruit, $1; whisky, 50 cents a glass; complete table d'hote meal, half an ounce of gold.

Culinary Information.

Mistress—Do you call this sponge cake? Why, it's as hard as it can be.

New Cook—Yes, mum, that's the way a sponge is before it's wet. Soak it in your tea, mum.—Town and Country Journal.

The antimonopolistic sentiment in this country is not a modern idea. In 1777 Massachusetts passed an act entitled "to prevent monopoly and oppression."

County Auditor Mullarky and wife were here yesterday enroute to Theif River Falls on a visit.

T. H. Shevlin, president of the St. Hilaire Lumber Co., is here looking after business interests.

Attorneys Lee and Richardson of Thief River Falls were here a few hours Monday enroute to Crookston.

S. E. Olson Co., of Minneapolis is advertising in Crookston papers. This same firm lay their success to advertising.

Register of Deeds Swanson passed through here Monday enroute to St. Paul. He will also take in the state fair.

The Duluth Military band of 42 pieces will be one of the star attractions at the Crookston Free Street Fair.

A great many farmers came to the conclusion that shock threshing would not pay and are now stacking their grain.

The three teachers arrived last Saturday. Miss Bettsis of Litchfield, Miss Maklason of St. Paul and Miss Kyle of Crookston.

Brink Bros. have a large force of carpenters at work building their business block and expect to move in by the 15th of this month.

All kinds of reports are being laid at the door of Secretary of War Alger. He will soon come to the conclusion its a bayonet charge.

The iron rods for the Clearwater bridge were shipped in Saturday and it is expected the bridge will be completed in about two weeks.

The Preston bank case, with Todd and Clements as principals will be very interesting reading. Follow it up and see what rogues can do.

Leonard Holmes is expected home tomorrow after spending a two weeks vacation in Cannon Falls. Mrs. Holmes will not return for about a month.

J. H. Strawbridge of Crookston who expects to have his general merchandise store opened here Sept. 15th registered at Hotel Markham Friday.

Strawbridge Mercantile Co., have something to say in this weeks issue in way of announcement. Look it up. You will find it on the second page.

O. F. Post, H. E. Ives and John Christie returned Monday from a three days hunting trip in the Oklahoma district. They bagged their share of game.

Elevator men complain of the new wheat that is being marketed. As in less than twenty-four hours after being dumped into a bin it commences to heat.

Fred Dahl, while working in the planing mill came in contact with a circular saw last Saturday and is now carrying around two very sore fingers in consequence.

J. Adam Bede says the republican party of Minnesota has held a state certificate for forty years and it will be hard work to throw it into the hands of a receiver.

Mrs. H. J. Freeman and sons Eddie and Joe left yesterday for Minneapolis for a weeks visit. H. J. will keep bachelors hall as long as the dishes holds out without washing.

—Every farmer who writes a letter occasionally should get envelopes with his name and address printed in the corner. We will furnish 100 of the best quality printed in any style for the small sum of 75 cts. Send in your order.

A bright exchange says: 'You may as well try to maintain a line of ocean steamers on the Sahara desert as to try to get along these days without patronizing the local paper. It it necessary for your success, whether you admit it or not.

For a plain, practical and instructive paper, made largely by farmers and wholly for farmers, Farm, Stock and Home of Minneapolis, Minn., has no equal among agricultural journals. We can furnish it in connection with the SPECTATOR one year for only $1,25

We notice that Crookston has claimed the last three days of September as dates for her Second Annual Free Street Fair. All who attended last year declared it the best amusement event they ever saw, and the hustlers of Crookston are out for a much better time this year than last.

Deputy Treasuer, Joe Matthews of Polk county is short in his accounts and the State Examiner will be requested to make an examinition. On July 10th Mr. Matthews went to the Omaha exposition and his whereabouts at this date is somewhat of a mystery.

Every farmer in the valley should give his family a holiday after the harvest work is over and take them to Crookston the last three days of the month to see the sights at the Second Annual Free Street Fair. The year has been prosperous and they have earned a play day. The fair will be far bigger and better than last year.

It is amusing to read some of the republican sheets harping about McKinley and the republican party winning everything in the late war with Spain, just as though there were no democrats or populists among the fighters and then wind up by saying: "It is your duty as a citizen to vote for the party." What bosh; For pure, unadulteted gall, this has the lead of anything we have ever heard or seen in print. Read the quotation over twice and then paste it in your hat for it is worth saving.

Methodist Episcopal Church.

Services every Sunday at 8 o'clock p. m. Sunday school at 2 o'clock p. m.

REV. U. M. CREATH, Pastor.

School opened Tuesday with an attendance of 113. The creation of the grammar grade this year makes it possible to give each pupil personal attention and put the school in shape that it may be put on the graded list when circumstances warrant. The rooms are neatly cleaned and repaired and this promises to be the most successful term in the history of the school, having an exceptionally strong corps of teachers.

An Ice cream social will be given at the Norwegian Lutheran Church Tuesday Sept. 13th, 1898. Come one and all.

O. H. Myran, candidate for senator of the Shoestring district against Harry Ives, has secured a supply of campaign buttons with his picture on, and the Ada Herald says that in proportion to the size of Myran's button, Harry Ives will need one the size of the republican campaign dollar of 1896.—Crookston Times.

Some papers venture so far as to say that it is because the republicans are in power that the farmers had such a large crop this year and then go on and tell the farmers that is the ticket to vote. How many farmers will be lead astray by such nonsense. What about the price of wheat?

Congressman Eddy went to Badger the other day and now the Herald is supporting the republican ticket. The congressman visited Roseau the next day and now the Times has "flopped" over. The congressman came out of the woods via St. Vincent and now the Ero has the fever. By the way, Mr. Eddy, why don't you call around to see us $ $ $ $ $ $ $.—Hallock Enterprise.

Editor Lanman of McIntosh went to considerable trouble and expense to find out why the state board on the division petition refused to grant said petition which contained 2,525 names when the law only required 1,563. This petition was for the purpose of dividing Polk county. He goes after Clough Berg and Dunn, also Andy Stephens with a column article headed "rotten." Another case of "no use bucking the machine."

Labor Day was not very strictly observed in St. Hilaire and at least four of the mill boys will remember that day for some time to come. In the forenoon J. B. Senate, one of the setters and also the tail sawyer, were disabled caused by a log being thrown over the carriage in some unaccountable manner. A man in the planing mill was laid up for repairs in the afternoon and Robert McNulty the night setter got his foot caught in the carriage and was crushed quite badly. None of the boys were seriously injured and expect to go to work in a week or two.

Did it ever occur to the average reader that all the heroes of our late war with Spain were democrats. Let us go down the list and see:—Dewey is a democrat, Schley is a democrat, Wheeler is a democrat, Genl. Fitzhugh Lee is a democrat, "Fighting Bob." Evans is a democrat, Lieut Hobson of Merrimac fame, is a populist, and Sampson who happened to make himself scarce by being away on a cruiser forty miles up the coast when the destruction of Cervera's fleet and the reduction of Moro occured, is a republican, and yet republicans are trying to claim all honors in hope that they may gain political strength thereby.

The Army and Navy.

Have covered themselves with glory during the war. The Army and Navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of navy and army terms, translation of Spanish words, etc. Send ten cents to Chas. S. Fee, general passenger agent, N. P. R., St. Paul, Minn., for a copy.

Council Proceedings.

Regular meeting of the village council Monday September 5th 1898.

All members present.

Meeting called to order by Pres. Ives.

On motion the minutes of last meeting were read and approved.

On motion the following bills, were allowed.

S Harris street work as per bill . . 10 12
C Hall 1 month marshal salary . . 40 00
" killing one dog 1 00
St. Hilaire Lumber Co., Lumber as per bill 8 26

On motion E. M. Hoff and J. C. Dahl were appointed a committee to negotiate with parties petitioning for a well on South Broadway and report to the village council.

On motion the Street Commissioner was requested to submit a list of all delinquent poll tax at the next regular meeting of the village council.

On motion meeting adjourned.

Attest:— H. E. Ives,
J. L. Johnson, President.
Recorder.

To Exterminate Bed Bugs, Fleas and Chicken Lice.

Take of the leaves and twigs of the common ceder a sufficient quantity. Place in water and boil until two-thirds the water has evaporated. Be very sure to have a sufficient quantity of the cedar to make it strong. For bed bugs use it liberally about their haunts, using a feather to get it into all the crevices about the bed and walls Sprinkle liberally about the baseboard and edges of the carpet. If this is well done twice per annum no bugs will be found about the premises. For fleas sprinkle about their haunts liberally; if on the dog take one hand and rub the hair the reverse way, pouring on the liquid as the skin is exposed. It is amusing to see the fleas evacute. For chicken lice, sprinkle liberally around the base of the house and on the roosts. Stir up the nest straw and make it almost wet with the decoction. If on the chickens, lift the feathers and with a drop syringe put it on where mites are thickest. If this is too much trouble for a large flock, use a common sprinkler, sprinkling the fowls well once a week. The mites will leave. The chicken house should be gone over about every six days through the warm weather. I have experimented with this remedy four years and it has given unbounded satisfaction. Sprinkled liberally about the house, will cause roaches to leave in a hurry. I believe it will kill lice on cabbages and vines. Will some of the readers of Texas Farm and Ranch try it and report. I believe it will also kill lice on cattle and will not injure the stock like some of the preparations now in use. It has given such unbounded satisfaction where ever used that I at one time thought of manufacturing it for sale, but have concluded to give it to the readers of Texas Farm and Ranch free of charge. Its wide distribution and ease of preparation makes it a boom to all.—Farm and Ranch.

From Farm, Stock and Home.

Overload neither horse nor stomach at this season.

Educate and recreate—that is what the ideal agricultural fair does.

More money and less fakirs in the country would be a boon to farmers.

As sheep husbandry is the oldest so is it one of the best of agricultural interests.

A child that is going wrong should not be treated like a piece of crooked iron pounded into shape.

Click, cr-e-e-k, click, cr-e-e-k. It's only Farmer Shiftless, pump half a mile away, and nothing more.

To discourage flies—bathe horses and cows with soap suds flavored with carbolic acid.

What travelers we of earth are, spinning around at the rate of 1,000 miles an hour, and sailing through space the same distance in a minute!

Slam, bang, crash, and another outside hinged door at the barn gone. Have is replaced with an inside sliding door.

S seems to be the letter of fate in this war, and Spain has but one while we have three—Sampson, Schley and Shafter.

Many a man will run in debt for a harvester, that does its years work in a week or two, who would think it ruinous to run in debt as much for dairy cows, that often work the whole year.

Fakirs are beginning to hate F. S & H. as the devil is reported to hate water But both paper and water seems to get along pretty well in spite of the hatred.

In France drivers sing to their oxen to encourage them to work; in this country drivers preach to their oxen; at least they address words to them often heard in sermons.

A little farm well tilled, with the mortgage well killed, beats a big one out of sight, with a mortgage sucking day and night.

If the ground feed for the live stock moistened with the milk of human kindness its nutritive value will be considerably increased.

In ancient meadows of New England ancient methods of hay-making yet obtain. The scythe, the hand rake and fork, and spreading by hand are as much in evidence as when the meadows were young.

Among the advocates of curfew laws are those who do not believe that cities can run street car lines or lighting plants successfully, but that they can beat parents at running their own children.

An irrepressible conflict: That between the doctors who are trying to save life and the inventors of arms and explosives to destroy it.

It will do no harm to repeat that the beef that sells at the highest price in the market is the kind that costs the least to make on the farm.

"Think well of yourself if you would be thought well of by others," is all very well if you stop just short of thinking yourself the "whole thing."

The most despicable tyrant is he who tyranices over his own family; a coward can be such a tyrant, and usually such a tyrant is a coward.

Schemes for swindling farmers used to start east and travel west; but the creamery shark started west and is traveling east; he was recently met there, and was doing a thriving business, for he had found green farmers and pastures new.

The gold standard is yellow, wild mustard is yellow, the Spanish flag is half yellow, yellow is the emblem of cowardice, yet in our last national political campaign the members of one political party thought the American flag was not good enough for them without it had a yellow rag tied to it. Wonder if they will think so this year.

A statistician estimating the wheat yield of Minnesota and the two Dakotas for 1898 at 200,000,000 bushels, says its transportation to market over overcapitalized railways will cost the growers over $20,000,000 of which $13,000,000 goes to pay interest and dividends on counterfeit capital. What patient, uncomplaining farmers, indeed.

If we employ and pay a man to build a house, make a plow, shoe a horse, or cure sick, we demand that his education and experience have been such as to fit him to do his work well; but we employ and pay a man to make our laws or execute them without thinking to inquire if his education or experience have fitted him for such responsible duties.

—The SPECTATOR is the official paper of the village and county. Now is the time to subscribe. $1.00 per year if paid in advance—otherwise $1.50.

Scrofula

Taints the blood of millions, and sooner or later may break out in hip disease, running sores or some more complicated form. To cure scrofula or prevent it, thoroughly purify your blood with Hood's Sarsaparilla, which has a continually growing record of wonderful cures.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5.

Hood's Pills cure indigestion, biliousness.

The Annual Report of the Great Western shows that the large amount expended by it in reduction of grades has placed it in the lead of all the granger lines in the tonnage hauled by its engines.

In the Annual Report of the Great Western for 1894, President Stickney stated that the maximum grades on the line were then 1 per cent, or 52.80 feet to the mile, and that the company proposed to reduce its grades one-half, or to 26 feet to the mile. He stated that the economy which would result may be estimated from the statement that the maximum load which one engine would then haul was 700 tons, 240 tons of dead weight (cars), and 460 tons of pay load (freight), while with such a reduction of grades and revision of curves as was proposed, would increase the engine load to 1,000 tons, or about 350 tons of dead weight (cars), and 650 tons of pay load (freight), thus enabling each train to haul 190 tons more of paying load without increase of expenses.

In the Report for 1898, President Stickney states that the company began a comprehensive plan of improving the track and permanent way by cutting down grades, widening and strengthening the banks, increasing side tracks, making permanent with earth, stone and steel, its bridges, and thoroughly ballasting the track.

Since then the work has progressed systematically, and the present summer will nearly complete the work thus planned.

There has been expended upon the permanent way:

In the fiscal year 1895	$170,053.56
In the fiscal year 1896	363,864.18
In the fiscal year 1897	520,449.35
In the fiscal year 1898	565,322.66
Total	$1,620,289.75

In the matter of bridging, besides 151 wooden culverts and 140 ordinary pile bridges, 20 important trestle bridges from 18 to 70 feet high, being nearly all the bridges of that class on the whole line, are being made permanent by being filled with earth on stone-arched waterways, at an estimated cost of $308,173.

Numerous gangs of men and teams are at work widening the cuts and strengthening the embankments, and ballast, in some places of gravel and in others of crushed stone, is being put under the track at the rate of about two miles per day.

The freight earnings of the line for the years 1897 and 1898 are as follows:

Gross Freight Earnings—

1897.	1898.	Increase.
$3,548,960.62	$4,102,516.70	$553,556.08

Miles Run by Freight Trains—

1897.	1898.	Increase.
45,061,989.00	50,937,447	5,875,458.00

The Annual Reports of the other granger lines show that in freight earnings per mile run the Great Western leads all its competitors.

The figures are as follows:

Chicago Great Western	$1.59
Chicago, St. P., M. & O.	1.58
Chicago & Northwestern	1.73
Chicago, Rock Island & Pacific	1.05
Chicago & Alton	1.33
Chicago, M. & St. P. (latest report, 1897)	1.10

C., B. & Q. does not report.

Wherever a woman reads of a man going wrong she always wonders what the woman in the case was like.

Beauty is Blood Deep.

Raising Flax.

Linen is coming into such general use as wearing apparel and the genuine article is so hard to get that the suggestion has been made that our fair damsels raise a patch of flax and learn to spin the threads as did their grandmothers in days of old.

It is unquestionably a fact that in due course of time flax will be one of the standard crops of the American farmer. How important then that each farmer who is able to do so should set apart a little space and become familiar with the raising and processing of flax, beginning gradually and investing not more than a few cents in seed and the needful time and labor to care for it. The agricultural department at Washington, D. C., is more than willing to furnish information, and would no doubt be glad to supply seed to experimenters. There is a bulletin already issued on this subject which may be had for the asking.

Farmers' sons and daughters who are anxious to make money can to advantage study the best methods of growing and preparing flax. The girls should learn to spin it, and if there is a demand there will surely be looms set up to weave the delightful fabrics in which all women delight.

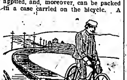
Perhaps the time is not far distant when every young woman will with her own hands spin the linen threads to make her outfit of house linen. The ingenuity and skill of our young women is surely quite sufficient to enable them to compete successfully with the untutored peasantry of foreign lands. Agricultural societies, fairs and expositions should offer prizes for the best hand-spun home made linen. Such a prize would be eagerly sought for and would do more toward stimulating the growth and spread of the flax industry than any other course that could be pursued.

Any soil that will produce good wheat, oats or potatoes will raise flax, but preference is given to a good, rich garden soil. If the ground is too rich the plant may run to stalk and produce a rotten, coarse fiber. If too poor a short staple will be the result. It has been demonstrated that under favorable conditions $30 per acre may be realized from flax growing. This means selling it to the mills as soon as the crop is ready. If, in addition to immediate market, there could be a large number of yards of cloth produced, how much more profitable could this industry become. There are scores of women and girls in every community who spend their time in pursuits that are not in the least profitable. These might easily learn to spin flax, and would be glad to do so if they felt that there would be any results from their labors. In almost all communities there are women foreigners who are perfectly familiar with all of the processes of preparing and spinning the fiber.

For Lengthy Runs.

This invention seeks to provide a simple attachment by which an ordinary bicycle can be used upon a railroad track, the bicycle running upon one rail, means being provided whereby it is held in position, says the Scientific American. Below the front wheel of the bicycle a frame is suspended from a forked brace fastened to the bicycle frame and from a bar running from the axis of the front wheel. On the lower portion of this suspended frame rollers are journaled to engage the track and the adjacent portion of the tire. At the rear of the wheel, about midway of its height, two additional rollers are journaled in the forked brace already mentioned and engage the bicycle tire for the purpose of relieving the lower rollers of undue strains. The axes of these latter rollers are perpendicular to the periphery of the bicycle wheel.

Beneath the rear wheel of the bicycle a somewhat similar arrangement is employed. In this case the frame carries but a single roller and is suspending in position by a supporting brace attached to the bicycle frame and by a bar running from the bearing of the rear wheel. As in the device used on the front wheel, so here the roller engages the inner side of the rail and the adjacent portion of the wheel. In order to keep the bicycle in position on its track a lateral frame is fastened to the lower brace and is provided at its outer end with a flanged wheel running upon the rail opposite that upon which the bicycle is mounted. The flange of this wheel is opposed to the flange devices on the bicycle, so as to keep the latter in position on the track. The attachment in itself is lightly constructed. It can be removed from a bicycle and easily applied, and, moreover, can be packed in a case carried on the bicycle. A rider is thus enabled to use his wheel not only on ordinary roads, but also on railway tracks.

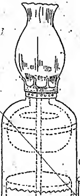


Sanitation in the Dairy.

A scientist who has devoted much attention to the subject informs us that in the average dairy the ordinary precautions as to cleanliness and sanitary conditions are almost entirely ignored. Samples of milk taken from the ordinary dairy show 15,000 bacteria, while 330 were found in the same volume for milk where all of the conditions of cleanliness were met. This is a somewhat serious showing and emphasizes the need of much more care than is ordinarily exercised. The same author tells us that milk should be subjected to a temperature of 140 degrees Fahrenheit before being used as a beverage. In handling milk the care should begin with the cow. The animal ought to be thoroughly washed if there is the slightest indication to the eye that she requires it. That she should be groomed daily goes without saying, and that milking should never be done without brushing the sides of the cow, where dust is likely to adhere. These rules, however, are entirely secondary to the feeding and general care of the animal. Very few dairy herds are given the proper nutrition. Instead of clean grain and the best care, they are in many instances fed upon brewer's waste and whatever pasture they can pick up. Sometimes cows develop abnormal appetites. When this occurs they should be taken at once out of the dairy herd and fattened for beef, as they will never recover their normal condition. Kitchen slops, dish water and garbage should never be put where cows can get at them. They lead to the formation of depraved tastes and make the milk unfit for use.

Lamp Worked by Air Pressure.

A reading lamp, the flame of which is maintained by an air pressure, has been recently invented by a Wissanoming man. The principle is much the same as the hand torches used by painters. When the lamp is first lighted it is only necessary to give the pump at the side a few strokes and the air is released gradually from small holes around the flame. A steady light is maintained without the aid of a chimney, but one is used as a protection.



Developing the Rubber Industry.

Capitalists are somewhat enthusiastic over the future of the rubber industry. Unless some substitute for rubber is found, the demand is likely to be imperative and increasing for many years. At present prices rule rather high and somewhat firm for good quality primarily because some of the original sources of supply are exhausted. Among the practical plans of rubber growers is the putting out of young forests and cultivating the trees as one might cultivate other crops. Experiments seem to prove that a most excellent quality of rubber may be made from the leaves of the plant and that it is by no means necessary to destroy the trees, as has heretofore been the custom. The leaves are boiled and processed in various ways, the result being a finer product than that obtained by the usual method of tapping the tree and saving the exuding juice. Plantations of from one to ten acres have been started and are reported as doing remarkably well.

New Method of Handling Grain.

The conveying of large quantities of grain from one point to another is frequently attended with very serious loss and plans of all sorts have been adopted at one time or another to avoid this waste. One of the newest ideas in this line is the carrying of grain in tight boxes or tanks and transferring it from one receptacle to another by what is equivalent to pumping. Flexible pipes are distributed through the tanks and powerful engines draw the grain in at one end of these pipes and deliver it at another, very much as water is conveyed. In addition to ease and rapidity of handling it is claimed that the grain is benefited by the current of air which naturally passes through it during the pumping process.

Bread and Milk Diet Causes Thick Hair.

It is said that rustics who live on a bread and milk diet always have thick hair to an advanced age, while people who lunch and dine on meat rarely have thick hair after 23.

An Ordinary Hardship.

She's gone away to stay until
The early autumn days,
Where the winds blow cool and o'er
the hill
There ever hangs a haze.

She lolls at ease from morn till night,
While I must toil away—
But the worst is that I've got to write
Unto her every day.

Gave Her Unnecessary Trouble.

Widow—"My last husband was the meanest man who ever existed."

Friend—"In what way?"

Widow—"Why, when I brought an action for divorce, he defended it and I didn't succeed in getting a divorce until a whole year had passed, and then, on the very day it was granted, he died."

Proof of the Fire.

"I thought all the houses on this street were fire proof, and here they are all burned down."

"Fire proof? Well, if all those ashes and ruins are not proof enough of the fire to you, I shouldn't like you to judge fires for me."

At the Matrimonial Bureau.

"My prospective bride has four front teeth missing! What are you going to do about it?"

"Don't let that worry you—they will be subsequently delivered."—Meggendorfer Blaetter.

WORKS OF ART.

How a Business House Has Made It Possible for Every One to Possess Them.

Probably at no time in the world's history has so much attention been paid to the interior decoration of homes as at present. No home, no matter how humble, is without its handiwork that helps to beautify the apartments and make the surroundings more cheerful. The taste of the American people has kept pace with the age, and almost every day brings forth something new in the way of a picture, a draping, a piece of furniture or some form of mural decoration. One of the latest of these has been given to the world by the celebrated artist, Muville, in a series of four handsome porcelain game plaques. Not for years has anything as handsome in this line been seen. The subjects represented by these plaques are American Wild Ducks, American Pheasant, American Quail and English Snipe. They are handsome paintings and are especially designed for hanging on dining-room walls, though their richness and beauty entitles them to a place in the parlor of any home. These original plaques have been purchased at a cost of $50,000 by J. C. Hubinger Bros. Co., manufacturers of the celebrated Elastic Starch, and in order to enable their numerous customers to become possessors of these handsome works of art they have had them reproduced by a special process in all the rich colors and beauty of the original. They are finished on heavy cardboard, pressed and embossed in the shape of a plaque and trimmed with a heavy band of gold. They measure forty inches in circumference and contain no reading matter or advertisement whatever.

Until October 1 Messrs. J. C. Hubinger Bros. Co. propose to distribute these plaques free to their customers. Every purchaser of three ten-cent packages of Elastic Starch, flat-iron brand, manufactured by J. C. Hubinger Bros. Co., is entitled to receive one of these handsome plaques free from their grocer. Old and new customers alike are entitled to the benefits of this offer. These plaques will not be sent through the mail, the only way to obtain them being from your grocer. Every grocery store in the country has Elastic Starch for sale. It is the oldest and best laundry starch on the market, and is the most perfect cold process starch ever invented. It is the only starch made by men who thoroughly understand the laundry business, and the only starch that will not injure the finest fabric. It has been the standard for a quarter of a century, and as an evidence of how good it is twenty-two million packages were sold last year. Ask your dealer to show you the plaques and tell you about Elastic Starch. Accept no substitute. Bear in mind that this offer holds good a short time only, and should be taken advantage of without delay.

He Didn't Care for Roosevelt Fame.

"Why—why didn't you knock down the wretch who hit me with a peanut?"

"Good gracious! You must take me for a Wuff Wider!"—Cleveland Plain Dealer.

PATENTS.

List of Patents Issued Last Week to Northwestern Inventors.

Robert W. Clark, Clinton, Minn., pipe clamp and holder; Leonard C. Gillett, Brownsdale, Minn., steam heater and cooker; Charles G. Edward, Albert Lea, Minn., device for attaching or detaching electric lamp bulbs; Herbert H. Freeman, Pierre, S. D., rotary steam engine; Gust J. Miller, Duluth, Minn., excavating machine; Nelson P. Nelson, Helena, Mont., amalgamator.

Merwin, Lothrop & Johnson, Patent Attorneys, 910 Pioneer Press Building, St. Paul.

A literary man claims to have cured himself of insomnia by reading portions of his own work.

Educate Your Bowels With Cascarets.

Candy Cathartic cure constipation forever. 10c, 25c. If C. C. C. fail, druggists refund money.

All geniuses are more or less eccentric. A few have even been known to pay their debts.

When a man has no faith in humanity humanity has no faith in him.

A bath with COSMO BUTTERMILK SOAP, exquisitely scented, is soothing and beneficial. Sold everywhere.

To borrow is human; to forget all about it is still more so.

Keep Your Youth

If you are young you naturally appear so.
If you are old, why appear so?
Keep young inwardly; we will look after the outwardly.
You need not worry longer about those little streaks of gray; advance agents of age.

Ayer's Hair Vigor

will surely restore color to gray hair; and it will also give your hair all the wealth and gloss of early life.
Do not allow the falling of your hair to threaten you longer with baldness. Do not be annoyed with dandruff.
We will send you our book on the Hair and Scalp, free upon request.

Write to the Doctor.
If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed.
Address, DR. J. C. AYER, Lowell, Mass.

NEED BE NO SICKNESS.

HOPE IS THE CURE FOR EVERY ILL.

Health and Happiness Secured by the Efforts to Make Other People Happy—True Story of How a "Strong Minded" Girl Was Cured.

A young woman was staying in a distant city, where she had made few acquaintances. She had money, but homesickness and insufficient occupation were unfriendly conditions to health of mind and body. At length she felt obliged to call upon a physician and ask his advice.

It happened that the doctor whom she consulted was a religious man as well as a skilled one. He understood her symptoms, and when she complained that she was a victim to "the blues," he astonished her with this original prescription: "David Sones lives at 104 Dash street. He is ill, and confined to his bed, and very poor. Call there, show sympathy with him and his family, and read the 'bread and butter' psalm to him; and when you go away leave a small sum of money in his hand."

Of course he had to explain to the amazed lady that the Scripture he had so oddly named was the 103 Psalm, and that the heartening and rejuvenating effect of it—fifth verse and all—made it to him just what he called it. Of its virtue in this case he seemed to have no doubt.

But the very idea of doing as he recommended was as distasteful to the young woman as it was surprising.

"Why, how rude and intrusive the man would think me to break in upon him so, a perfect stranger!" she said. "I could not do such a thing."

She went from the doctor's office disappointed and displeased, but thinking. The very bluntness of the advice had stirred her stagnant spirits, and she was already beginning to forget her own ailment. The storm of protest in her mind gave her a bad hour or two, but finally something—she could hardly tell what—compelled her to surrender to the doctor's orders.

She found the sick man, and after talking kindly to him about himself, and encouraging him to hope for recovery and better days, she opened her Bible to the psalm. Her lips were dry, and the first three or four verses were pronounced like a mechanical exercise, but farther on her voice and mood mellowed. The force and beauty of the words aroused her, and she read the last verses of the psalm with feeling.

A woman who had entered the room and listened, sat in the corner weeping. She was a recent lodger who had tried in vain to find work at her trade as a dressmaker, and had become discouraged. The young lady had already earned the gratitude of three strangers. With feelings entirely new to her she remained in the poor tenement, conversing with the sick man and his wife and their needy friend, until she had quite gained their confidence, and then left them with encouraging words and a small gift of money.

Thoroughly interested now, she in a few days secured orders for the discouraged dressmaker and work not long after came in so abundantly that the family were placed above want. The sick man, relieved of his anxieties, soon recovered. A shadowed home had been brightened by an involuntary kindness.

It was a lesson that the complaining young woman never forgot. Her experiences—thanks to the good doctor's consul—had exploded the vain notion that "it is useless to try to do good unless you feel like it." A brave effort to cure "the blues" had resulted in opening her heart to an unselfish act, and to a broader view of her relations to less fortunate souls about her.

How to Eat.

The prevalent idea that slow eating is very favorable to digestion is largely fallacious, says the "Journal of Mental and Nervous Diseases." "The important point is not that we eat slowly or fast, but that when we do eat we chew with energy. Of course, where the haste is due to some mental anxiety, this may injuriously inhibit the secretions. Slow eating begets a habit of simply mumbling the food without really masticating it, while the hurried eater is inclined to swallow his food before proper mastication. Hence, hurried eating is bad, but rapid mastication is advantageous. It concentrates our energies on the act in question, and hence more thoroughly accomplishes it. Moreover, energetic chewing stimulates the secretion of saliva in the most favorable manner. These various points are so commonly misunderstood, at least by the laity, that they demand our frequent attention."

Mme. Carnot's Kindly Promise.

Mme. Carnot, widow of the murdered French statesman, is living in seclusion near Paris with her children and grandchildren. Recently the brother of her husband's murderer wrote to her saying that, owing to his relationship to the assassin, no one would give him employment. Mme. Carnot saw the hardness of the case, and at once promised to keep him in work as long as he lives.

Views of an Expert.

Beeler—You are the last man I should have expected to find opposing the pensioning of government employes no longer able to work. Heeler—When a man gets so he isn't able to do what little work there is in a government job he ought to be taken out behind the barn and shot.—Cincinnati Enquirer.

Not Long Old Salts.

"They don't talk about 'old salts' any more, do they?" "No; in our navy they have taken a fresh start."—Cleveland Plain Dealer.

Municipal Dwellings.

Zurich, Switzerland, provides dwellings for the men employed in the municipal works.

The Italian state lotteries netted a clear profit of $5,500,000 last year.

HEROES OF WAR.

From the Chicago Times-Herald.

The feeling of admiration for heroes of war seems to be innate in the human heart, and is brought to the surface as the opportunity and object, for such hero worship presents itself.

He received a wound.

Among those who proved their heroism during our Civil War was A. Schiffeneder, of 161 Sedgwick Street, Chicago. He is an Australian by birth, came to America at the age of twenty, and soon became an American citizen. He was living at Milwaukee when the call for volunteers came, early in 1862, and he promptly enlisted in Company A, of the Twenty-sixth Wisconsin Volunteers. In the Army of the Potomac our hero saw much fighting, campaigning in the Shenandoah Valley.

In the first day's fighting at the battle of Gettysburg, Schiffeneder received a wound in the right side, which afterward caused him much trouble. With a portion of his regiment he was captured and imprisoned at Bell Island and Andersonville, and afterward exchanged. He returned to his regiment, which was transferred to the army of General Sherman, and marched with him through Georgia to the sea.

In this campaign Mr. Schiffeneder's old wound began to trouble him and he was sent to the hospital and then home. He had also contracted catarrh of the stomach and found no relief for years.

"I happened to read an account of Dr. William's Pink Pills for Pale People about a year ago," he said, "and thought that they might be good for my trouble. I concluded to try them. I bought one box and began to take them according to directions. They gave me great relief. After finishing that box I bought another, and when I had taken the pills I felt that I was cured. I recovered my appetite and ate heartily. I can testify to the good the pills did me."

Mr. Schiffeneder is a prominent Grand Army man in Chicago, whither he moved some years ago with his family.

Marie—They say bathing suits are to be longer this season.

Frances—O, I don't care. I don't intend to go to the seashore, anyway.

A. B. & O. S. W. Promotion.

Cincinnati, August, 1898.—C. C. Riley, at present Superintendent of Car Service of the Baltimore & Ohio South Western Railway, with headquarters at Cincinnati, will be promoted to the newly-created position of Superintendent of Transportation on August 20th, and the position he formerly held will be abolished. Mr. Riley came to the Baltimore & Ohio South Western Railway from the C., C., C. & St. L. Railway about a year ago, and has earned his promotion by meritorious services.

Any man who imagines he could keep house better than his wife is foolish if he ever mentions it.

Met With Reverses.

"That tramp wants assistance. He says he belongs to the G. A. R. order."

"He looks it, I must say, if you take it the other way, and say R. A. G."—Philadelphia Bulletin.

Don't Tobacco Spit and Smoke Your Life Away.—To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or $1. Cure guaranteed. Booklet and sample free. Address Sterling Remedy Co., Chicago or New York.

After spending a two-weeks' vacation in the country but few men are patriotic enough to fight for it.

COSMO BUTTERMILK TOILET SOAP makes the skin soft, white and healthy. Sold everywhere.

A woman's idea of strategy is to spend a dime in an effort to save a nickel.

SYRUP OF FIGS
NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, Cal.
LOUISVILLE, Ky. NEW YORK, N. Y.

PITH OF THE NEWS

EVENTS OF THE PAST WEEK IN A CONDENSED FORM.

A General Resume of the Most Important News of the Week From All Parts of the Globe, Boiled Down and Arranged in Convenient Form for Rapid Perusal By Busy People.

Washington Talk.

Secretary Alger has ordered an investigation at Camp Wikoff.

Gen. Gomez has made a statement in which he unreservedly places himself in the hands of the commission.

President McKinley has announced the names of the members of the industrial commission.

The president and Mrs. McKinley returned to Washington greatly benefited by their brief outing.

The secretary of the treasury has issued a circular offering to redeem the balance of the Pacific railroad bonds.

Gen. Nunez of the Cuban army, recently returned to Washington, says there is much distress among the Cubans.

Secretary Wilson, of the department of agriculture, has become president of a newly-organized bank in an Iowa town.

President McKinley, and as many members of his cabinet as can do so will attend the peace jubilee, which begins at the Omaha exposition Oct. 10.

It is reported in Washington that two warships, probably the Oregon and Iowa, are to be sent to the Pacific coast, and that they will start in a few days.

Personal.

Prof. Dietrich, chief constructor of the German navy, is dead.

Republicans of the Second Iowa district nominated Joe R. Lacy of Davenport for congress.

Congressman Northway, of the Nineteenth Ohio district, died at his home in Jefferson township, aged sixty-six years.

John H. Stevenson, Populist, has been nominated for congress by the Democrats of the Twenty-third district of Pennsylvania.

Gen. Borih has been appointed acting military governor of Paris, in succession to Gen. Zurlinden, who has accepted the portfolio of minister of war.

The Populists of the First congressional district of Indiana nominated Rev. Josephus Lee for congress. The platform opposes fusion with the Democrats.

Col. T. C. Tupper, a retired officer, who won distinguished honors in the Civil and Indian wars, is dead at his late home in Cleveland, aged sixty years. Death was due to heart failure.

Gov. Tanner has selected Miss Daisy Leiter, daughter of Levi Z. Leiter of Chicago, to christen the battleship Illinois, which will be launched at Newport News the latter part of this month.

Brig. Gen. John Kemp Mizner, U. S. A., retired, died very suddenly at his residence in Washington. He had been ill about a week, but was believed to be improving. The immediate cause of his death was heart disease.

A coroner's jury at London has rendered a verdict to the effect that the death of George (or Julian) Morel, supposed to be an American newspaper man, who arrived there on Aug. 10, and who was found dead in his bedroom on Sept. 2, resulted from alcoholism.

Sporting Notes.

Frank Erne and Kid Lavigne will not be the first two men to crawl through the ropes of the Hawthorne Athletic club's ring. It has been decided to put on Jack Baty and Jack O'Donnell of San Francisco, for a preliminary of ten rounds at 156 pounds.

Joe Goddard says that Gus Ruhlin men cannot come forward too quickly if they want a match with him for their man. There is considerable interest in the coming meeting of Joe Choynski and Goddard at Philadelphia. In Australia Goddard twice knocked out Joe Choynski.

If Tommy Ryan fails to get on a match with either Mysterious Billy Smith, Dan Creedon or some of the cracks in the middleweight class, he intends to take a trip to England. A Syracuse sport has offered to pay all of Ryan's expenses if he will accompany him on the other side.

Ziegler has decided to accept the offer of an English sport, who cabled him a week ago to come to London. Ziegler has been promised a match with some good lightweight, and may be pitted against Jack Cullen. Ziegler says he will sail within two weeks if he receives the expense money he asked for.

Foreign Notes.

The French cabinet has decided upon a revision of the Dreyfus case.

Li Hung Chang has been dismissed from power at the request of the British ambassador.

It is estimated that 15,000 dervishes were killed in the recent battle with the Anglo-Egyptian forces.

It is reported at Paris that Dreyfus may be given his liberty on parole pending final disposition of his case.

Queen Wilhelmina of Holland has taken the oath of office and formerly assumed her duties as ruler of the Netherlands.

Caesar Thompson, the well known Belgian violinist, has been created a knight of the Order of Saints Maurice and Lazare by King Humbert.

At a recent meeting of twenty leaders of the Filipinos, of all sections, called to discuss the future of the islands, eighteen of them expressed themselves emphatically in favor of annexation to the United States.

Accidental Happenings.

An express train killed three men at Parker's Switch, near Princeton, Ind.

Thirty men were killed by the collision of two spans of a bridge under course of construction over the St. Lawrence river.

Lieut. Thomas H. Wheeler, son of Gen. Joe Wheeler, and Lieut. N. D. Kirkpatrick were drowned, while bathing in the surf at Montauk Point.

While removing torpedoes and mines from the mouth of the Mississippi at New Orleans, the government steamer John Meigs was blown up by the accidental discharge of one of the mines. Six men were killed.

The first gust of wind that preceded the thunder storm at New York blew down the heavy carrugated iron superstructure of a new pier, No. 50, at the foot of West Twelfth street, killing two men and injuring ten others.

A dispatch from St. John's, N. B., says a man drowned near there who is supposed to be Frank T. Allen of New York city, was not Allen, but Franklin Weld, a well known resident of New York and president of a number of Western railroads.

While a number of boys at Wellingborough, England, were playing on a luggage truck, they ran it on the main line. The London & Manchester express, running at a high rate of speed, dashed into the truck, killing four of the boys and injuring twenty-five.

At Stinesville, Ind., four men were instantly killed by a dynamite explosion and many others seriously injured. The men were blasting rock for a new pike, when a terrific explosion of dynamite occurred, instantly killing the following: John W. Williams, John Grubb, Buck Wampler and Edward Watts.

Otherwise.

Gen. Shafter has assumed command at Camp Wikoff.

The Democrats elected a full state ticket in Arkansas.

The G. A. R. encampment at Cincinnati was a great success.

Gen. Brooke reports an increase of sickness at Porto Rico.

The troops which will garrison Cuba will be principally regulars.

The city of Pana, Ill., is under martial law because of the strike.

Gov. Black of New York will make a determined fight for renomination.

Surgeon Hurter reports thirty-five yellow fever cases at Norwood, Miss.

The Eighth Ohio volunteers have left Camp Wikoff, L. I., bound for home.

Joseph Leiter has cleared up his wheat deal. Every creditor has been paid.

Chaplain McIntyre of the Oregon is to be court martialed for criticising Admiral Sampson.

The fifth peace commissioner has not yet been selected. Senator Gray will not serve.

The United States transport Minnewaska has sailed from New York for Santiago, and Ponce.

The latest estimate is that the wheat crop, which is the largest on record, will not equal expectations.

Gov. Lord of Oregon has issued a proclamation calling a special session on Monday, Sept. 26, to elect a United States senator.

Col. James A. Sexton of Illinois was elected commander-in-chief of the G. A. R. The next encampment will be held in Philadelphia.

Hall Caine intends, when he arrives in this country, to make several addresses urging the necessity of an Anglo-American alliance.

Steps have been taken by the Lake Carriers' association for the abolition of tolls on the Welland and other Canadian canals.

State Health Officer Blunt of Texas has raised the quarantine against Galveston and the city was never more healthy than at present.

The executive committee of the international pressmen of America meets in Chicago Sept. 5 to decide upon putting into effect a nine-hour day.

The United States gunboat Bennington has been ordered to Pago-Pago bay, Samoa, according to Mare Island reports, to make a survey for a coaling station.

The camp at Anniston, Ala., in command of Gen. Frank, has been named Camp Shipp, in honor of Lieut. William E. Shipp, Tenth cavalry, who was killed before Santiago.

Gov. Holcomb's request to have the Third Nebraska (Bryan's regiment) mustered out has been denied, because Nebraska's quota to be mustered out had already been designated.

Rev. Dr. Thompson, secretary of the Presbyterian home mission board, has received an anonymous donation of $500, to be applied to inaugurating the work of the board in Puerto Rico.

The directors of the Chicago, Milwaukee & St. Paul railway have declared the regular semi-annual dividend of 2 1-2 per cent on its common stock and 3 1-2 per cent on its preferred stock.

The seventeenth annual convention of the National Association of Stationary Engineers began at Carnegie hall, Pittsburg. Nearly 300 delegates from all parts of the country are in attendance.

The stockholders of the Chicago & Great Western held their annual meeting at Chicago and re-elected A. B. Stickney, F. R. Weyerhauser and Arnold Kalmnn directors for the next three years.

The members of the expedition which sailed from San Francisco on the schooner Volcon in June of last year, to buy reindeer for the United States government in Siberia, have returned.

The first annual convention of the United States Malsters' association, formed in Chicago last July, is being held in Buffalo. The association represents a capital of $50,000,000, and is said to have a very large and wealthy membership.

A report received at the marine hospital from Surgeon Hurter shows that the total number of yellow fever cases which have made their appearance at Norwood, Miss., is thirty-five, but up to this time there have been no fatalities.

BY THE HAND OF AN ASSASSIN

THE EMPRESS OF AUSTRIA MEETS HER DEATH.

Cruelly Murdered by an Italian Anarchist and Soldier Named Luigi Luochini and the Murderous Weapon Used Was a Small Triangular File—No Precautions Had Been Taken for the Empress' Protection as It Was Not Known That She Would Visit Geneva, and Was There Incognito—The Assassin Arrested.

Geneva, Switz., Sept. 12.—The empress of Austria was assassinated at the Hotel Beaurivage by an anarchist, who was arrested. He stabbed her majesty with a stiletto. Her majesty was walking from her hotel to the landing place of the steamer, when an Italian anarchist suddenly approached and stabbed her to the heart. The empress fell, got up again and was carried to the steamer unconscious. The boat started, but, seeing the empress had not recovered consciousness, the captain returned and the empress was carried to the hotel, where she expired. The murderer is Named Luechent. He was born in Paris, of Italian parents.

Another account says: After having been stabbed from behind, the empress rose and walked on board the steamer, where she fell, fainting. The captain did not wish to put off from the quay, but did so at the request of the empress and her suite, there being no apprehension that she was seriously hurt. The steamer was turned back from the open lake, and the empress, unconscious, was carried to the hotel on a stretcher. Grave fears are expressed regarding the effect which the assassination may have upon the emperor, whose health has never recovered from the blow of Crown Prince Rudolph's tragic death, and it is known that his majesty lately has been very feeble. The stretcher upon which the empress was carried to the hotel was hastily improvised with oars and sail cloth. Doctors and priests were

Immediately Summoned,

and a telegram was sent to Emperor Francis Joseph. All efforts to revive her majesty were unavailing. The medical examination showed that the assassin must have used a small triangular file. After striking the blow he ran along the Rue des Alps with the evident intention of entering the Square des Alps, but before reaching it he was seized by two cabmen who had witnessed the crime. They handed him over to a boatman and a gendarme, who conveyed him to the police station. The prisoner made no resistance. He even sang as he walked along, saying: "I did it and she must be dead." At the police station he declared that he was a "starving anarchist, with no hatred for the poor but only for the rich." The assassin told the magistrate that he came to Geneva in order to assassinate "another important person," but had been unable to execute the project. The federal authorities had been informed of the visit of the empress and they notified the governors of the cantons the empress expected to visit, instructing them to take special police measures for her comfort and safety if it appeared necessary. They were not informed of her majesty's intention to visit Geneva, nor were the local authorities aware of her presence there, as she was travelling incognito.

THE EMPEROR'S FORTITUDE.

Bears Up Manfully Under the Terrible Affliction.

Vienna, Sept. 12. — The planned funeral of the late Empress Elizabeth, who was assassinated by an anarchist, contemplates bringing the remains to Vienna Thursday, a lying in state on Friday and the obsequies of interment on Saturday. Everything in the city is at half-mast, and the theaters, races and other amusements are suspended indefinitely. The emperor's fortitude is the topic of universal admiration. He is bearing up manfully despite the terrible shock, which, in view of his age, has inspired the gravest apprehension. Although at first stunned, and then slightly excited, he soon regained his self-control and displayed remarkable calmness. Occasionally, however, completely overpowered by agitation, he moaned piteously, repeatedly sobbing the name of the empress. Addressing the chief marshal of the imperial household he exclaimed: "It is inconceivable how a man could lift his hand against one who never in her life harmed anybody; one who did great good." Then he moaned: "Nothing is spared to me in this world."

MUST QUIT FIGHTING.

The Admirals Deliver an Ultimatum to the Troops at Candia.

Vienna, Sept. 12.—According to a dispatch from Canea, Crete, the troops of the various powers have hoisted their flag over the town walls of Candia, and the admirals have sent an ultimatum to the deputy governor and the Turkish commandant demanding that all arms be laid down. The warships are in readiness to resume the bombardment of the place. One of the warships has gone to Retimo, where disturbances have broken out.

HOBSON GOES UP.

The Hero of the Merrimac Is Made Full Naval Constructor.

Washington, Sept. 12. — Among the naval orders yesterday were the following promotions: Capt. Higginson, of the Massachusetts, to be commodore from Aug. 10; Assistant Naval Constructor R. B. Hobson, to be full naval constructor, to date from June 23, the delay in making the last promotion being caused by the impossibility of having an earlier examination.

TENDER HANDS RECEIVED THEM.

"Home, Sweet Home," the Glad Refrain Which Greeted Sick Soldiers From the South.

St. Paul, Sept. 12. — The first boys who went from Minnesota to fight the battles of their country returned Saturday night. They came not with the proud strength that characterized Minnesota men when they went to the front, but returned pale and emaciated by the dread typhoid fever. The sick men are for the most part the youngest men of the regiment. Mere boys. Since leaving home they have become reduced in flesh, and the yellow skin and sunken eye tells the story of their suffering.

They bore the long journey home with the patience which is a part of the make-up of a hero. There was no complaining, and only their outward appearance to show their suffering. They are the sick of the Twelfth and Fourteenth regiments, who, from May 19 up to two weeks ago had been encamped at historic Chickamauga Park. Owing to the unsanitary condition of the camp they had been taken to better quarters, but too late to escape the dread typhoid fever. The boys were welcomed to the state by 5,000 people at St. Paul, many of whom were friends and relatives of the sick men, and included a large number from Minneapolis. The Red Cross society was well represented, and patriotic men and women had gathered to see the boys back. Gov. Clough had met the hospital train at Stillwater, accompanied by General Passenger Agent Teasdale, of the Omaha road, and by the time the train had reached St. Paul plans had been formulated for the care of the sick men. The trip was made with no deaths, although at least two of the men were thought to be in a very critical condition. It is believed that all will begin to improve under the loving care of friends and relatives.

MOB HOWLS FOR LYNCHING.

Crowd Overruns a Saloon and the Bartender Kills a Man.

Breckenridge, Minn., Sept. 12.—Henry Barton is in jail, here for shooting a man at Kent in a saloon row. He admits the shooting. It began by a fight between John J. Brawders and Fred Spaunfellow, in which Brawders seems to have got the worst of it. He went away and came back the same afternoon with a gang of threshers, who undertook to run the town. They went into Marik Brothers' saloon and kicked up a disturbance, breaking glasses and flourishing guns. Barton, who was tending bar, ordered them out, and when they refused, got his gun. Twice he threatened to shoot and then fired. The charge of buckshot struck a man in the back, killing him instantly. His name is said to be John Myers, though he was commonly called Scotty. Louis Marick put out the lights and he and Barton barricaded the place as the threshing gang took to their heels. They were back in a minute nearly a hundred strong, threatening to break into the building and lynch Barton. Deputy Sheriff Matt Strachan found it was too much for him to handle and telegraphed for Sheriff Bureau, who succeeded in quieting the mob. He arrested Barton and brought him here.

HONORS FOR DAVIS.

The Senior Senator From Minnesota Tendered a Reception.

St. Paul, Sept. 12.—The ovation that was tendered to Senator C. K. Davis at the Commercial club was in no sense political. A thousand gentlemen who have their first interests in the sovereignty of Minnesota, gathered at the invitation of the club to tender their respects to a man who stands in the forefront of the prominent men of the nation. It was an assemblage of which the club will be proud. Politics were eschewed. More than half of the crowd of black-coated men present were of a political faith differing from that of the guest of the evening. After the formalities of the evening had worn off, short speeches were made, among those speaking and extending best wishes to the honored guest being James J. Hill, Mayor Kiefer, George Thompson, Pierce Butler, Conde Hamlin, president of the Commercial club. Refreshments were served.

GOES THIS WEEK.

Fifteenth Minnesota Will Start for Camp Meade Thursday.

St. Paul, Sept. 12.—Col. Leonhauser said yesterday that by Thursday at the latest the Fifteenth regiment would be on its way to camp Meade, and it might be that arrangements could be made to move late Wednesday night. He thought that a notice of twenty-four hours would be all that would be required to pack and get under way. The railroad companies are expected to put in their bids today for the transportation of the troops, but it will take some time to make the award. The members of the Fifteenth are eager to go. That was about all they talked of yesterday, and they were getting their belongings into such a shape that it would take but little time to be ready to start.

SUDDEN DEATHS.

Montana Sheep Herders Killed by Fire and by Violence.

Helena, Mont., Sept. 12. — William Baltimore, better known as "Baltimore Bill," a sheep herder, was burned to death in a fire that destroyed W. Budd's feed stable at Big Timber, with thirty-five head of horses.

The body of Casper Feuse, a sheep herder, has been found three miles northeast of Argent. He had been shot through the body. From the position of the body the authorities believe the fought a duel with some one. It had not been robbed.

Chicken-Stealing Confessed.

Winona, Minn., Sept. 12.— A young man named George Green, who came here from St. Paul, recently, was caught in the act of stealing chickens. When taken to jail he confessed having stolen many chickens.

Two Trainmen Killed.

Ottumwa, Iowa, Sept. 12. — In a freight train collision with a bunch of cattle on the Burlington railroad near Tyrone, Engineer George Mann and fireman Thomas Millhouse were instantly killed.

FIRE WORKS AWFUL RUIN

BUSINESS PORTION OF NEW WESTMINSTER WIPED OUT.

Not a Public Building or a Business House in the Whole City Is Left Standing—Fire Started by a Spark From an Approaching Steamer and Spread With Fearful Rapidity—Ten Streets Were Blazing in Three Hours—More Than 400 People Are Rendered Homeless—Feared That a Number of Lives Have Been Lost.

Vancouver, B. C., Sept. 12. — New Westminster, the chief city on Frazier river, presents a scene of desolation, fire having eaten out the whole of the business portion. There is not a public building standing in the central portion of the town. Fanned by an immense wind, almost a gale, the fire which started on the water side by a spark from an approaching steamer, spread with such fearful rapidity that ten streets were blazing in three hours, and only smoking ashes mark the spots where formerly stores and houses stood. Handsome business houses, banks and blocks went up in smoke. Over 400 people are homeless and help is being rushed from this city. The two newspaper offices are gone, as well as the Canadian Pacific railway station, a railway bridge and a number of private houses. It is feared that some lives have been lost. The telegraph office at New Westminster has been burned. The burned city is twelve miles from here. Food, clothing and aid of all kinds is being dispatched from Vancouver to the ill-fated city. At the time of writing it is not known how many people

Lost Their Lives,

but it is feared that several must have been burned to death. Every industry except the big Royal City Planing mills and Clove City Iron company have been wiped out. Every manufactory and office have been burned out. Bankers, merchants, canners and business men of all description have nothing left with which to begin business again. The spread of the fire may be partly ascribed to the fact that the firemen lost a large quantity of hose in the fire. Some of the burned out people retired in the early hours of the morning to the open front opposite the school house. They covered themselves with blankets and lay down to sleep. All they had was lost. The loss is roughly estimated at $250,000, with insurance of $150,000. The London Assurance company is said to be the heaviest loser. The buildings on ten streets are destroyed. The vaults of the bank buildings withstood the fire.

ANOTHER TERRIBLE FIRE.

Town of Jerome, Ariz., Almost Wiped Out—Eleven Bodies Recovered.

Prescott, Ariz., Sept. 12.—The town of Jerome, near here, was completely wiped out by fire, entailing a loss of over $1,000,000 in property. Eleven bodies have so far been recovered, while a score or more are said to be in the ruins or missing. The fire originated from a gasoline stove in a cabin and spread so rapidly and fiercely that it was impossible to save even the clothing. The fire was confined exclusively to the business portion of the town and the gap intervening between it and the mammoth works of the United Verde company saved it, otherwise the loss and suffering would have been terrible.

Many persons from Jerome are arriving here on special trains, while those remaining are to be cared for by the company. Over 150 buildings, averaging in value $2,000, many merchandise houses, saloons and general stores were wiped out, and nothing of the business portion remains. The only building to escape was the Methodist church. The number of people rendered homeless is placed at 1,500, and they are being cared for by Messrs. Giroux and Cross, of the mining company. Two special trains left here tonight for the scene of the fire, carrying food and other materials to comfort the distressed and a meeting is being held to raise money for the needy, of whom there are many. Loss is complete, but little insurance being written in that place owing to the great risk and inadequate water supply. The United Verde company is now kindly caring for the sufferers until other arrangements can be made. The place where the fire originated was the scene of a drunken carousal last night, and when things settle a bit short shift will be made of the men who caused it.

MONTANA MURDER.

Mine Superintendent Fatally Shot by a Discharged Workman.

Helena, Mont., Sept. 12.—Tom Salmon, ex-president of the Red Lodge miners' union, shot and fatally wounded William O'Connor, superintendent of Rocky Fork coal mines. Salmon, who was discharged by the boss, borrowed a revolver and met Supt. O'Connor coming out of his office. The two men started off together, when suddenly, and without warning, Salmon whipped out the revolver, shoved the muzzle almost against O'Connor's stomach and fired. News of the shooting created intense excitement and groups of miners began to collect and talk excitedly of stringing the murderer up.

Sentenced at Mora.

Mora, Minn., Sept. 12. — William Bloxau was found guilty of assault with intent to commit criminal assault, and was sentenced to state prison for three years and six months. Henry Bayne received two years for assault in the second degree.

Threaten to Resign Also.

Paris, Sept. 12.—It is asserted that if the cabinet still insists upon a revision of the Dreyfus case Gen. Zurlinden, minister of war, and M. Lockroy, minister of marine, will resign.

KILLED BY AN EXPLOSION.

Terrible Disaster at Philadelphia Attended by Loss of Life.

Philadelphia, Sept. 12.—By the explosion of forty gallons of gasoline in the cellar of a grocery store at 1444 South street, surely four, and possibly a dozen lives were lost. As an immediate consequence of the explosion, the building in which the explosion occurred, and those adjoining it on either side collapsed and four hours after the explosion four bodies had been recovered from the ruins. How the explosion occurred is unknown. All the buildings were of brick, three stories in height. In the confusion and excitement following the disaster it is impossible to obtain anything like a clear account of the occurrence, but it is stated that the upper floors were crowded with families, huddled together tenement fashion. Coming as it did at the supper hour, it is feared the loss of life will be heavy. The list of injured will be long. They were taken to all the hospitals within a radius of a mile. The search for bodies will be continued.

ROOSEVELT SAYS YES.

Will Accept If Nominated for Governor.

New York, Sept. 12.—Col. Theodore Roosevelt has authorized the announcement that he will accept the nomination for governor of New York should it be tendered to him by the convention of his party to be held at Saratoga.

HEALTH IS POOR.

Gen. Gordon Unable to Accept Place on the Investigation Commission.

Atlanta, Ga., Sept. 12.—Gen. John B. Gordon has declined to serve on the commission requested by Gen. Alger to investigate the conduct of the Spanish-American war, giving as a reason his unstable health.

Parade in New York.

New York, Sept. 12.—Deputy Quartermaster Col. Kimball has received an order from Gen. Miles setting forth that a parade of the returning Porto Rican troops will take place in this city on Saturday next. Col. Kimball was instructed to prepare a suitable camp for the men who are on their way from Ponce in the transports.

Col. Sexton Accepts.

Chicago, Sept. 12.—Col. James A. Sexton, the new commander-in-chief of the G. A. R., who has been asked by President McKinley to assist in the proposed investigation of the war department, has returned to his home in this city and has announced his acceptance of the president's appointment.

Newspaper Men Drowned.

Quebec, Que., Sept. 12.—Carl Smith, who wrote the "Fired at Random" column in the Chicago Record, and Louis Sass, sporting editor of the same paper, have been drowned in the heavy rapids of the Grande Discharge by the upsetting of their birchbark canoes. They were on a holiday tour.

Iowa Boys All Right.

Jacksonville, Fla., Sept. 12. — Col. Henry Egbert of Davenport, Iowa, a veteran of the civil war, who is a member of the commission sent here by the governor of Iowa to re-examine the condition of the camp and the Iowa regiments, said that he was well pleased with the results of his inspection.

Lost With All on Board.

Brunswick, Ga., Sept. 12.—Postmaster Simmons, who chartered a tug and went in search of the schooner John H. Platt, which was in the terrific storm of Aug. 30, has returned with unmistakable evidence of the ship's loss with all on board.

Falls Dead.

Red Wing, Minn., Sept. 12—W. H. H. Roberts of Wacouta fell dead on the streets here of heart disease, aged sixty-five years.

MINNESOTA NEWS

EIGHTH REGIMENT VETERANS.

Annual Reunion and Business Meeting Held on the Fair Grounds.

The veterans of the Eighth Minnesota volunteers continued at Institute hall in the afternoon their annual reunion and business meeting, begun at the capitol at St. Paul in the forenoon. Capt. Leonard Aldrich presided as vice president first, and later was elected president for life. J. C. Davison of Northfield was temporarily the secretary. At the morning meeting Comrades Kingsbury, Houlton and Fales were appointed a committee to draft resolutions upon the death of Col. Thomas, formerly the commanding officer of the regiment, and president of the association at the time of his death.

Upon assembling at Institute hall in the afternoon there were present about forty veterans of the regiment and almost as many ladies, wives and widows of the volunteers. Capt. Aldrich was made president. He served in Company F. Lieut. D. L. Kingsbury, Company E, of St. Paul, was chosen secretary, and Comrade Houlton, of the same company, of St. Cloud, vice president. The resolutions on the death of Col. Thomas eulogize him as "a true friend, brave comrade, wise commander and good citizen," and were unanimously adopted. Resolutions were also adopted favoring another edition of "Minnesota in the Civil and Indian Wars," and the officers of the regiment were appointed a committee to present the matter to the legislature. A committee was ordered consisting of one from each company to co-operate with the officers in perfecting the records of the regiment. There were remarks by Comrades Houlton and others before adjournment and it was decided to hold the reunions annually, hereafter.

BACK TAXES.

St. Louis County Auditor After Iron Mine Owners.

Prior to the passage of the law two years ago under which mining properties were taxed under the general laws, they paid 1 cent per ton on their output in lieu of all other taxes, under a special law. This law was declared unconstitutional and the general tax was substituted. The county auditor now proposes to assess all mines that were operating during those years under the general law and compel the payment of the tax on the ground that, as the special law was unconstitutional, the tax was illegal and therefore void.

During these years the companies have paid about $130,000 in taxes, half of which has gone to the state and half to the county. If the auditor succeeds in putting them on the tax rolls he will add to the year's valuation such mines as the Minnesota for twelve years, which is assessed at $350,000, the Chandler for eight years, assessed at $416,000; the Pioneer for seven years, assessed at $100,000, and the Zenith for five years, assessed at $50,000, all on the Vermillion range. On the same basis about $4,000,000 in values on the Mesaba range.

The auditor claims that no rebate will be allowed any mine for taxes paid under the old system, except at the end of a law suit. The mines will contest both these points, and the entire question of being put on the tax rolls for the years under which they paid all the tax which was assessed against them.

Chaska Boy Dies at Camp Wikoff.

The sad news of the death of Mathias Iltis, of Company F, Third regiment, reached Chaska through the Twin City dailies. Private Iltis was the son of the late Hon. Peter Iltis, formerly state senator and for many years mayor of Chaska. Mat, or Pit as his friends called him, served two years in the United States army, his term expiring about a year ago. When the late war broke out he enlisted again to serve his country. He was in the fight before Santiago, and only a few weeks ago a letter was received from him by his mother telling about the hardships he had to experience. About three days ago a letter was received stating that he was very sick at the hospital. His mother is taking it very hard. He was about twenty-eight years old and of excellent physique. The remains are expected to be brought to Chaska for burial.

Pioneer Mine Operations.

N. P. Hulst, manager of Carnegie's mining operations, has taken charge of the Pioneer mine and has begun to unwater the mine. As fast as men can be secured 300 to 500 will be put at work in the mine after it is unwatered, and operations of lifting ore will begin. The mine is shipping 1,00,000 tons this season, but will mine 400,000 tons next, while adjacent properties under the same ownership will mine 100,000 more. Probably 1,000 men will be employed at these properties this winter. Engineers are said to be surveying a road from these mines to Lake Superior for the Carnegie and Oliver companies.

Saved His Own Son.

A serious accident occurred in a runaway at Winnebago City. Paul Reagan, assistant cashier of the Faribault County Bank, saw the horse dashing down the street and near by a child in danger. He rushed for the child, in an attempt to rescue, but was a second too late. The wheel of the buggy struck the boy's right side, just as he was being drawn aside, and broke his leg near the hip joint. Mr. Reagan then discovered that he had his own five-year-old son in his hands. The boy seems to have escaped other injuries. Mr. Reagan was struck by the vehicle but not injured beyond slight bruises.

Postmaster Short $700.

The postoffice at Cyrus, Pope county was visited Friday by Inspector J. F. Gordon, and Postmaster J. E. Johnson found $700 short. The bondsmen were called on to make the shortage good, and the inspector removed Johnson and put Carrie Hegland in charge of the office. Johnson admitted stealing and falsifying his reports, and no doubt he will serve a term for his stealing.

The Republicans of Vermont have elected their entire ticket.

Washington Letter.

From our Regular Correspondent.

Gag the soldiers and whitewash every official, is the remarkable policy that has been adopted by the administration in dealing with all complaints made as to hardships caused by mismanagement and inefficiency in providing supplies for the troops. It would hardly have been possible to have adopted a more foolish policy. The mouths of the men can only be stopped while they remain in the service; as soon as they are mustered out they will tell everything they were made to suffer. The idea of those who persuaded Mr. McKinley to adopt such a shortsighted policy is to keep the mismanagement of the War Department from figuring in the Congressional Campign. They think that when Congress meets arrangements can be made to have an investigation of the conduct of the war made by a picked committee that will whitewash everybody and everything. If the people were all fools and there were no such things as newspapers such a scheme might succeed. Mr. McKinley is likely to live to bitterly regard that he did not have every complaint investigated and every man punished who was found guilty of having caused unnecessary suffering among the soldiers, instead of allowing himself to be made to assume the role of apologist for and protector of the guilty officials.

Complaints of a serious nature are being made by the privates of many volunteer regiments against their officers, in connection with the failure of regiments to get mustered out when the privates were practically unanimous in their wish to be allowed to return to their civilian occupations. It is claimed that in numerous instances the officers misrepresented the wishes of their men because of their own desire to retain commissions which carry larger salaries than their holders can command elsewhere, not to mention the petty authority they enjoy, which is a source of the greatest pleasure to men of small calibre. It is annouced by the War Department that no more regiments will be ordered mustered out except for special reasons, for some time to come. Under their terms of enlistment the volunteers belong absolutely to the government for two years. If the government chooses to keep them that long, and yet the government can muster them out at any time it sees fit to do so.

An oversight of the administration, in not making the terms of peace with Spain include immediate American control of Havana and all other parts of Cuba, will cost a few thousand poor devils, who are unfortunate enough to be residents of Cuba, their lives. Captain General Blanco has prevented the landing of supplies carried to Havana by the Red Cross Society, for free distribution to the needy, although he knows that thousands are on the verge of starvation, and owing to that oversight of the administration, those who would gladly feed those hungry Cubans and Spaniards must bow to the inhuman will of Blanco. The best that the administration could do was to announce that food for the poor would be admitted free of all duty or prescription at all Cuban ports that are under our control, which means Santiago, and several smaller places.

—Remember the SPECTATOR when you market your grain this fall. Your bill is small, but don't let that keep you away.

Difficult to Inflict Pain.

The doctor smoked slowly on his cigar. It was plain that he had something to say.

"I was thinking of my early college days," he said, "and of a peculiar incident that happened very soon after I began my studies. The professor was instructing the class one day on the corpuscles of the blood. In order to get some fresh blood for microscopical examination each student was ordered to tie a rag around his forefinger and strike the top of the finger suddenly with a needle with sufficient force to draw blood. Seems easy, doesn't it? Do you know there wasn't a man in the class that did it at the first attempt. It was funny to watch some of those embryo surgeons poise the needle with a determined air and launch it to within a hair space of the flesh and there stop dead. Others tried to force the needle in slowly, but paused very shortly, with an expression of pain commensurate to that of an amputation. I myself gave it up as a bad job, and hacked a cavity in my thumb with a penknife, and found it easier.

"The fact that we were very young and inexperienced is no explanation for this peculiarity, as I have since found by personal test. Almost everybody exhibited the same repugnance to inflicting pain in that manner. Try it yourself."

The other man tried and succeeded on the fourth trial.—New York Sun.

Art of Making a Mustard Plaster.

To put on a mustard plaster is not at all difficult, but to do it in the best way requires some care and skill. In the first place, remember never to give a cold mustard plaster to a patient. To a weak or sensitive person the shock is often great. Either mix with very hot water, or, better still, have a plate put where it can get warm while you are mixing. Having everything ready at hand, mustard, flour and a spoonful of molasses, with a bit of old muslin or linen—an old handkerchief is the best thing for the purpose. Stir the mustard and flour together first, making the plaster stronger or weaker with mustard as you have been directed. Add the molasses and then the water until the smooth mass is about as thick as porridge or poultice. Spread your cloth on the warm plate, using the middle portion of the linen and leaving a margin on all sides, which is to be folded back at the edges. Put a second cloth over the whole, so that the mustard is entirely hid between the two covers and keep on the plate until it is necessary to apply the plaster.—Philadelphia Ledger.

Value of Toes In Walking.

The idea that the lesser toes are necessary in walking is generally entertained, and it has been a surprise to European physicians to learn that amputation of all the lesser toes of both feet has been followed by complete recovery and the restoration to usefulness of both the feet operated upon. The feet healed slowly after the operation, but very steadily and without unpleasant complications. The operation was performed, and in a little more than a year and a half the patient danced all night and experienced no inconvenience whatever on account of having only one toe on each foot. She rides a wheel, plays tennis and enjoys every sport that girls of her age are fond of. The cause of the trouble was originally chilblains, which was neglected until it produced contraction of the muscles with the most intense pain, which was at times so severe that she could not enjoy the necessary amount of sleep. Surgeons are of the opinion that a great deal of needless suffering is endured which might be relieved by extremely simple operations on the feet.—New York Ledger.

Dodging a Shot.

When Dewey was first lieutenant of one of the gunboats which Farragut used as a dispatch boat the admiral used often to come aboard and steam up near the levee to reconnoiter. The southerners had a way of rushing a fieldpiece to the top of the high bank, firing point blank at the gunboat and then backing down again. Upon one such occasion Farragut saw Dewey dodge a shot.

"Why don't you stand firm, lieutenant?" said he. "Don't you know you can't jump quick enough?"

A day or so after the admiral dodged a shot. The lieutenant smiled and held his tongue, but the admiral had a guilty conscience. He cleared his throat once or twice, shifted his attitude and finally declared:

"Why, sir, you can't help it, sir. It's human nature, and there's an end to it."

A General Proposition.

Wickwire (looking at board with "Pity the Blind" on it)—You are no more blind than I am.

Dismal Dawson—Well, what's it to you?

Wickwire—What business have you wearing that card?

Dismal Dawson—Jist as much right as anybody. I don't say I'm blind. This here is jist a abstract proposition. See?—London Tit-Bits.

In a Wet Season.

"I see," the editor said, "that you have rhymed 'again' with 'rain.'"

"Yessir," the office poet assented.

"Well, it doesn't go. It may be all right in the weather report, but you are hired as a poet."—Cincinnati Enquirer.

Smoke as They Wash.

Cigarette smoking is a common practice among the colored washerwomen of New Orleans. They lean over the tub and make a quaint picture as the smoke rolls from their lips.—Nebraska State Journal.

Devils In Petticoats.

The Russians are reported to have said when they first saw the highland regiments, "We thought we had come to fight with men, but find devils in petticoats."

The Army and Navy.

Have covered themselves with glory during the war. The Army and Navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of navy and army terms, translation of Spanish words, etc. Send ten cents to Chas. S. Fee, general passenger agent, N. P. R., St. Paul, Minn., for a copy.

Securing a Lunatic.

In one of the most fashionable districts of Paris a mock marriage was recently planned for the purpose of securing a rather dangerous lunatic. An attractive young person named Mlle. Delaplume was sitting in her boudoir the other day in a house situated in a street off the Boulevard St. Germain. Suddenly a ring came to the door, and one of her servants, having opened it, ushered in a well dressed man looking like a superior sort of valet. He told Mlle. Delaplume that he had a letter from one of her friends, a countess, and as the young woman put her hand out to receive the missive the stranger seized her fingers, pressed them to his lips, and then, sinking on his knees, made a passionate declaration of love and offered to marry her.

Mlle. Delaplume saw by the man's eyes that he was dangerously mad, and, fearful of a tragedy, she accepted his offer with apparent calmness. Then she invited the strange visitor to the mayor's office in order to have the nuptial knot tied. The man accompanied her with alacrity to the establishment in question, where a secretary, informed of the real state of affairs, pretended to read the civil marriage regulations. The mock bridegroom was then taken by a detective to the police depot under the delusion that he was bound for a pastry cook's, there to give an order for a sumptuous wedding breakfast. The man was, it appears, formerly employed as a valet by one of Mlle. Delaplume's friends.—Paris Letter.

A Brilliant Fraud.

A small weekly magazine was started here 11 years ago by two hustling young men. One was editor, the other "writer and paster." They clipped, extracted and rewrote. An advertising agent was employed on a commission of 25 per cent, and it was a caution the way he filled up the pages with black type and cuts. Some contracts were made for a month, some for three months, some for a year. The only cash in advance was half of the commission, which was paid as soon as the contract was turned in.

Prosperity peeped from its pages. The magazine rapidly grew fat. In the second week the American News company ordered 14,000 copies. Money flowed out like corn from a hopper and not a cent came in. The writer and paster went around at the end of the month to collect from the 30 day advertisers and what do you suppose happened? He failed to find one! Every advertisement was a fraud. There were no such names, no such businesses, no such addresses as the agent brought in for publication. He happened to have an engagement in New Jersey on that fateful day and never has been seen since. Contracts supposed to be worth $10,000 were not worth a cent. The magazine died.—New York Press.

In a Buddhist Nunnery.

Sir Charles Gordon's "Recollections of Thirty-nine Years In the Army" contains this anecdote: "In 1860, at Tien-tsin, the two Gordons, when seeking for hospital sites, came across a Buddhist nunnery. Despite the warnings of one of the inmates, who appeared in boy's clothes, they entered the building and found that the inmates all wore male clothing. The Buddhist women were greatly shocked at the intrusion.

"'Our regret,' says Sir Charles, 'was real. Explanations were exchanged. We were informed that the community within adopted male costume as an indication that they not only renounced the world, but with it the emblems of their sex. We were 'received' by the lady superior, tea and cakes offered to and partaken of by us. We were then permitted to visit the 'private chapel,' and finally we parted from the religieuses on the best of terms.'"

Corrected In Rhyme.

Thackeray was much pestered by the autograph hunter, says Hodder in his "Recollections." He disliked above all things to write in an autograph album, and often refused those who asked him to do so and sometimes rather brusquely.

On one occasion the owner of an album, a young lady, was fortunate. Thackeray took her book to his room in order to look it over. Written on a page he found these lines:

> Mont Blanc is the monarch of mountains—
> They crowned him long ago,
> But who they got to put it on
> Nobody seems to know.
> ALBERT SMITH.

Under these lines Mr. Thackeray wrote:

> A HUMBLE SUGGESTION.
> I know that Albert wrote in hurry—
> To criticise I scarce presume,
> But yet methinks that Lindley Murray
> Instead of "who" had written "whom."
> W. M. THACKERAY.

What Italy Needed.

Shortly before his death, which occurred in 1866, Massimo d'Azeglio, statesman, orator, poet, the painter of "Orlando Furioso," but, above all, the trusty friend and valued counselor of Victor Emmanuel, was talking to a Frenchman, who congratulated him upon the unification of Italy.

"Yes," was the reply, "we have made a new Italy; now we must endeavor to make new Italians."

Providing For an Emergency.

"What will you have?" inquired the waiter as Mr. Hayroob scanned the French bill of fare.

"Waal," he answered, placing his finger over an item, "yo kin bring me some o' that. But don't go away, 'cause if it tastes like it looks in print I'll have to try somethin else."—Detroit Free Press.

Signs.

"Was that man ever a farmer?" inquired Mrs. Corntossel.

"No," answered her husband very positively.

"But he's always talkin 'bout the delights of livin in the country."

"That's what shows he never was a farmer."—Washington Star.

—Every farmer who writes a letter occasionally should get envelopes with his name and address printed in the corner. We will furnish 100 of the best quality printed in any style for the small sum of 75 cts. Send in your order.

—Dr. W. A. Moore, dentist of St. Paul has permanently located in Red Lake Falls.

—The SPECTATOR is the official paper of the village and county. Now is the time to subscribe. $1.00 per year if paid in advance—otherwise $1.50.

Now is the time to get the SPECTATOR.

Disappointed

ONE WEEK

In securing the building and have been compelled to postpone the opening of a complete stock of general merchandies to the public until next Thursday.

September 22nd 1898.

But on that date we will be in the Brink's Bros. building prepared to wait on customers and give unexcelled bargains. Remember the date and look over our stock whether you want to buy or not.

STRAWBRIDGE MERCANTILE CO.

Beware of Setting Forest and Prairie Fires.

Office of State Forest commissioner,
St. Paul, Minn., March 26, 1898.

Under the act of the Legislature of Minnesota for the preservation of forests and for the prevention and suppression of forest and prairie fires approved April 18 1895.

The following are liable to a penalty not exceeding $100 or imprisonment not exceeding three months:

Any person refusing, without cause, to assist fire wardens, in extinguishing forest or prairie fires.

Any fire warden who neglects to perform his duties.

Any person who wilfully, negligently or carelessly sets on fire, or causes to be set on fire, any woods, prairies, or other combustible material, thereby causing injury to another.

Any person who shall kindle a fire, on or dangerously near to forest or prairie land and leaves it unquenched, or who shall be a party thereto.

Any person who shall use other than incombustible firewads for firearms or carry a naked torch, firebrand or other exposed light in or dangerously near to forest land.

Any person who shall wilfully or heedlessly deface, destroy or remove this or any other warning placard posted under the requirements of the above mentioned act.

Any railroad company wilfully neglecting to provide efficient spark arresters on its engines; or to keep its right of way to the width of 100 feet cleared of combustible material; or which shall fail to comply with other provisions of section 12 of the above mentioned act.

The following are liable to a penalty of not less than $5 nor more than $50.

Any railroad employe who wilfully violates the provisions of section 12 of the above mentioned act.

Any owner of threshing or other portable steam engine who neglects to have efficient spark arresters, or who shall deposit live coals or hot ashes without extinguishing the same.

The following are liable to a penalty not exceeding $500 or imprisonment in the state prison not over ten years, or both:

Any person who maliciously sets or causes to be set on fire any woods prairie or other combustible material whereby the property of another is destroyed and life is sacrificed.

R. C. DUNN, (State Auditor).
Forest Commissioner.

C. C. ANDREWS,
Chief Fire Warden.

SUMMONS.

Will Bloom and sister Julia, Misses Field and Johnson drove up from Crookston Saturday evening, returning Sunday evening.

How some of the republican papers squirm and wriggle over the proposition Hon. P. M. Ringdal made to F. M. Eddy. It was expected.

Many man and women go face to face with death, Bad liver and kidney impure blood. The Imperial Sarsaperilla brings back strength and health.

Will Woods, recently an employe at the office of the St. Hilaire Lumber Co. is here to-day.

The disagreeable weather of to-day and yesterday will retard farming operations for a few days.

A. J. West Jr. of Port Huron, Mich., brother of E. T. West republican nominee for representative in this district, registered at Hotel Markham Monday.

The Weekly Grand Forks Herald was a rather spotted affair last week. Old style and Roman—Thorne and Linotype. Never-the-less its all good readable news.

The Crookston Tribune does an injustice to Landlord Arthur when it says: "He leaves a wife and ten children." It should have read a wife and two children.

South Dakota was visited by a snow storm on the 9th. This happened in the vicinity of Ragged Top west of Deadwood. The mercury went down fifty degrees in 48 hours.

T. G. Thompson and C. A. Schmidt of Crookston, accompanied by M. E. Bjerk and yo editor returned Monday evening from a three days duck shoot in the vicinity of Mud Lake.

You invite disapointment when you experiment—the Imperial Sarseparilla and little liver pills cures constipation and sick headache just as sure as you try them, for sale at the new Drug Store.

The Greatwestern Clothing House has on hand a large stock of ladies jackets and capes which they close out at 25 per cent off in order to make room for their winter stock of gents clothing.

The most daring balloon ascension ever witnessed will be seen at the Crookston Free Street Fair this year. The aeronaut will be shot out of a cannon attached to the balloon and will descend th a parachute.

Farmers how do you like the brand of republican prosperity you are enjoying this fall? When wheat was a dollar a bushel you were told it was due to the republicans; so be fair and give them credit for this 40-cent variety.

The following is the way the people of Knoxville felt when our boys reached there:—Let us show the boys of Uncle Sam that they are among friends feed them on the fat of the land and in every way show them true southern hospitality.

The premiums to be given at Crookston's Second Annual Free Street Fair, are very liberal and every farmer in the valley has something which shall win one of them and pay his expenses while attending. The dates are September 28th, 29th and 30th.

There is a law upon the statute book making it the duty of owners of steam threshers while passing along the public highway with their outfit to stop when approaching a team and send a man ahead to assist in taking care of the horses until the vehicle is passed.—Ex.

—The Crookston College building is now complete and is modern and up to date. The Institution is one of the best in the northwest. It is cheap, thorough and practical. By writing Malm & Sathro a catalogue containing full information will be sent to any address.

Three double seated rigs filled with nimrods to the number of twelve and a few dogs left Saturday for the famous hunting grounds near Mud lake to shoot ducks. They all came back Monday with more or less ducks, but from all accounts 2100 rounds of ammunition was wasted and the air in that country is shot full of holes.

A lot of Indians held a pow-wow in Roseau last week and the Plaindealer says: "The indians were dressed in their bib and tucker, and while four of them beat the drum the others danced around them with hands joined together. Jim Cobenas attracted the most attention on account of his fine figure and graceful carriage."

We have on several occasions been asked to suppress matters of local nature as a favor to this and that one, while at the same time we were doing them a favor in many ways which is never appreciated year in and year out. The chances of our office laws be changed very suddenly are exceedingly bright.

Ludvig Treften a private of the 15th Regiment Minnesota passed through here to-day enroute to his home at Thief Lake, a distance of about 40 miles north east of here. Private Treften has just been released from the hospital and is off on a thirty days furlough. At the expiration of that time will join his regiment at Camp Meade, Penn.

A very enjoyable and entertaining party was given in Hotel Markham Saturday evening in honor of Miss E. Mattes. Dancing was commenced at an early hour and indulged in heartily until the hour for supper was announced, when the party was invited to partake of a delicious repast. After which dancing was resumed and continued until the time of departing.

Crookston's Second Annual Free Street Fair will be held the last three days of September. The hustling business men there have subscribed double the amount of money they had to spend on last year's successful event and that was the biggest thing of the kind ever seen in the county. A large number from this section will attend. Half fare rates will carry you on all railroads.

If your system is run down try a bottle of the Imperial Sarsaparilla, for sale at the new Drug Store.

Methodist Episcopal Church.

Services every Sunday at 8 o'clock p. m. Sunday school at 2 o'clock p. m.

REV. U. M. CREATH, Pastor.

The McMillan Fur & Wool Co., sends out word that ginseng has advanced 5c a pound on all grades and the demand exceeds the supply. The receipts of seneca root still continue light and not enough is being received to fill orders which are very urgent. There is such a great demand that 50,000 lbs. could be sold at once in large orders. A great deal more seneca root will have to be dug during the fall to supply the demand.

The parent who allows his boy or girl to be idle does a wrong thing for him or her. It is far better to have the boy on a farm and pay the farmer to let him work than to permit him to roam the streets hearing all the vulgar and indecent talk. Boys are often ruined in this way. Then the parents will wonder how their child learned all that. It is high time for the parents of this town who wish to have their sons and daughters grow up and be good men and women, to look after them while they are young, says an exchange.

The managers of the great republican hippodrome, with menagerie attachments, imagine that their change of ring-masters in Minnesota will have the effect of keeping the state in the g. o. p. column. But the intelligent voters will not allow themselves to be hoodwinked again, the republican press to the contrary, notwithstanding. The people of this state have been humping themselves at the crack of the g. o. p. ring-master's whip to long. The people will crack the whip at the next election and the ring master will have to dance.—Clarkfield Advocate.

The bulletin of the Indian State Board of health says: It is foolish extravagance to build a house flat upon the ground. Such houses are always damp, and consequently musty, favoring consumption and all diseases of the air passages; also malarial troubles. Food kept in cupboards in such houses is liable to soon become poisonous because of the ferments and moulds which dampness favors. An eminent sanitarian has said of Indiana: "I notice a large percentage of Hoosiers have not yet learned that houses which are built flat upon the ground bring large returns to the doctors."

Sunshine is a wonderful destroyer of germs and yet to see how closely some housekeepers shut it out of their rooms One would suppose is was poisonous. On a bright day out of doors the light is 500 times stronger than it is in an ordinary living room. This explains why people who are out of doors most of the time are healthier than those confined to dark rooms. We frequently pass by residences in this village where the curtains are closely drawn and the sun rarely ever gets a peep into the rooms. Such rooms are not healthy. Living rooms should be light and all the sunshine possible should be admitted.—Ex.

Nebraska was cursed with republican corporations and ring rule, like that of Minneapolis and Minnesota. Then the people of Nebraska got together regardless of party names and in the name of good state government placed in nomination and elected on a cooperation platform a new ticket as the allied forces of Minnesota are doing this year. Result: The administration of allied forces made good $300-000 of republican deficiencies and on top of that cut down state levy tax $50-000. They reduced the state debt to $1, 0,000. They increased the state revenue from fees $60,000. They gave $700,000 more than the republicans to the schools. It was predicted by the ring organs of Nebraska just as the hide-bound daily machine press of this state in 1896, that the victory of the allied forces would be the victory of lawlessness and extravagance and that capital would be driven from the state. The result was diametrically the reverse. What Nebraska did Minnesota can and will be done this year.—Minneapolis Free Press.

The opposition to Judge Ives is rapidly developing into a farce comedy. The supporters of Mr. Watts sought first to break into the Populist judicial convention and through the manipulation of Brown and Montague of the Republicans and a few sore head Populists sought to get him nominated there. The thing was exposed and flashed in the pan. Next they attempted to get Mr. Watts nominated by petition this scheme also fizzeled, though men usually sign any old petition without a seconds-thought as to its meaning or significance. Next Brown and Montague worked a scheme in the Republican county convention to have a committee of which they were members and had control, appointed to select the delegation from the county to the judicial convention, and it was the list selected by these gentlemen who attended from Polk county with the result that Mr. Watts was nominated. We have presented to us now a candidate on the Republican ticket whose name was presented to the Populist convention and who thereby promised allegiance to the party ticket, and for whom the nomination was there asked because he was such a good Populist. We find him when he is there defeated, with strickers out all over the district seeking the nomination by petition. We find him lastly in the Republican convention seeking and getting a nomination on a straight Republican ticket and that in a manner in direct violation of the corrupt practice act of the state, and we are now asked to vote for a Populist on a straight Republican ticket for the office of lawgiver of the district who is on the ticket only because of a plain and direct violation of the laws of the state. In short, we are asked to consummate a crime and elect a political chimaleon to the highest office in the district. The people are asked to support this man who in some quarter poses as a Prohibitionist, while at the same time his candidacy is favored by the Retail Liquor Dealers Association, and his political manager, until recently the legal attorney of that association in Crookston, has circulated a subscription list amongst the gamblers and saloon keepers of East Grand Forks to raise funds to carry on the campaign against Judge Ives. Small wonder, in the face of all these facts that the respectable element in the Republican party repudiates Mr. Watts and that at least one county bolted the convention and another voted against him, and these, two of the three counties represented with regularly selected delegations. It remains to be seen if such disreputable methods will be endorsed by the voters, and if a few nondescript schemers can by overriding all law and decency raise a man to this high office, who if we judge him by his support and the company he is in, must necessarily debase that office to accomplish the ignominous personal ends of those who are doing the scheming and affording the means to carry on the fight.—People's Press, Crookston.

Harvest Pirates.

It is evident that the "cheap John" establishment of our large cities are unwilling to wait for the trade which will flow to them from the harvest centers but are trying to reach out and intercept it from taking its natural and legitimate course and are seeking through the aid of an army of paid agents to divest every town in the northwest of its tributary trade. These agents are making a house to house convas to obtain orders for groceries, one of their methods being to vilify the local business men and then bait the victim with some cheap article. One man in the neighborhood is given a little more sugar for a dollar as an aid to assist Mr. Shark to salt his neighbor. They steer clear of hall districts for "business reasons" but elsewhere are met with varying success, thus absorbing the small profits anticipated by the local dealers, who, like the farmer, have staked their all on the outcome of the crop. Business men cannot be conscious of the full extent of their loss. If they were they would wage a fierce and relentless war against those interlopers whose presence robs home enterprise of its just rewards and stifles all local developments. It is a sad commentary on the intelligence and fairmindedness of some farmers that these harvest pirates, for such they may justly be termed, find justification for their transitory existence with all their imperfections in their unreason, injustice and prejudice. A decent regard for those who piloted them from seeding to harvest time ought to furnish a strong incentive for patronizing their home merchants. Moreover, in comparing the large orders given and the prices paid for the goods the farmers who buy are the losers instead of the gainers. One noticeble failing with a great many people is that they do not distinguish between buying from responsible persons and irresponsible persons. Were they to do this the promised bargains placed so glowingly before them by these agents would lose the seductive charm and they would see what they fail to see now—the true inwardness of the whole transaction whose absurdity may be expressed in the following question—would a merchant without ceasing to be a merchant be able to offer to his customers as a special inducement to trade with him the high priced luxury of sending a man three hundred miles to take their orders and still be able to offer better bargains than the merchant who does not undergo that expense? The considerations of this question weakens the force of the immense bargains and shows plainly that instead of big bargains it is disguised theft. If these distant firms are able to give the bargains they profess to give why don't they ply their trade where there is a density of population instead of where it is thinest. They certainly could sell more goods, for they would be enabled to visit one hundred families to every one they visit on our prairies. The patronizers of these distant firms must prefer to go it blind or they would compare their prices with those of their home merchants before ordering there.

It is not our desire to criticise the way people spend their money or the manner in which they give their money away. The main point we are urging on the attention of the reader is the unjust manner in which non-resident merchants are fostered and favored at the expense of the local dealers. It seems impossible that it should appear right to any sound mind that such distinctions should exist. It is a shock to the sense of decency and justice when one is told that the local merchant has to carry from year to year some of those who who deny to him the trade which by all odds he merits as a matter of right.

A well founded feeling of resentment is arising against this injustice, for it is not pleasant to be both shorn and exploited for the benefit of distant competitors. The local merchants bear a heavy proportion of the home taxes and they are justified in remonstrating against such scant treatment.—Warren Register.

A Nebraska editor says: The other day when we were driving down town behind our family rhinoceros we came upon an aged man tearing a bridge to pieces and placing it upon a wagon. As the bridge was one that we needed in our business we asked the aged mormon what he was doing with it, and in which case, why so, or words to that effect. He replied: "My eyesight is poor and I have no spectacles with me. I understand that many advertisements are painted on this bridge and am taking it home in order that I may read them and find out where to get bargains. The long winter evenings are coming and I want to lay in a supply of bridges and board fences and barn doors that I may sit by my fireside and read what the merchants have to say."

RAPP & POST

DEALERS IN

GENERAL MERCHANDISE

AND

HARDWARE

Something . . .

For Nothing is what some people promise you, but everyone knows this is impossible. We have one of the largest and very best assorted stocks of General Merchandise in the Northwest, and we can, and will sell our goods cheaper than they can be bought elsewhere.

In our Hardware Department we carry a full line of Shelf and Heavy Hardware, Stoves, Ranges, Tinware, Barb Wire and Nails, Paints, Oils, Varnish, Etc. Will compete with T. M. Roberts or others on Wire and Nails.

We want you to give us a call and look at our goods and prices on everything and compare with others, and we are sure you will appreciate and patronize us. Yours truly,

Wanted to Be a Heathen.

Little John (after casting his penny into the fund for the Bamalam islanders)—I wish I was a heathen!

Sabbath School Teacher—Oh Johnny! Why do you wish such an awful thing as that?

"The heathen don't never have to give nothin'—they are always gettin' somethin'."—Harper's Bazar.

New St. Louis Headquarters.

The Baltimore & Ohio and Baltimore & Ohio Southwestern Railroads have secured a long lease on the magnificent room at Broadway and Locust street in St. Louis, for the purpose of consolidating under one roof the freight and passenger offices now located in that city. The new location is the ground floor of the American Central Building, with 65 feet on Broadway and 85 feet on Locust street. The ticket office will be in the center, fronting on Broadway, the freight department on one side and the passenger department on the other, with General Agent Orr's office in the rear.

It is quite probable that these offices will be even handsomer than the B. & O New York headquarters, which are the finest in that city.

An Imposter.

"I don't believe that he was ever at Klondike."

"Why? He told a straight story."

"Yes. But he tried to borrow a dollar from me and did not offer any mining stock as security."—New York Town Topics.

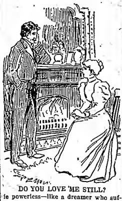
FOR OLD SAKE'S SAKE.

It is a commonplace of speech that there is no changing the leopard's spots. The keen observer of his kind, who has not twelve axioms wherewith to work the theorems of life, but twelve hundred, accepts it as gospel. Raymond, who was not a keen observer, but a man with faith in his heart, did not accept it. In the face of advice and caution and good counsel he decided to reduce it to the absurd and marry Cicely Glanville. Success crowned him, as even those who warned him know now, but it was a desperate risk.

Far back in the days which it were heresy to doubt were as good as they were old, when Alan was just the stolid small son of Captain Raymond and Cicely was but the angel-faced little daughter of Captain Raymond's first lieutenant, Marlitt, the boy and girl had been fond of one another. They had made mud pies and hunted the first wild flowers of the plains, and had ridden burros and bronchos together. They had wintered and summered in each other's company, the mountains and prairies of the southwest, while the land was yet given over to the never-ending disturbances of the hostiles. They had learned what it was to have only one another for playmates for months at a time. And because of the hardships of long marches and the joys of a half-savage freedom shared together, they came to think themselves inseparable. And then they were separated. Cicely was to be civilized. She was sent east and abroad to school. Alan Raymond went through West Point and got his commission. Thereupon fate—which at times does what might be expected of her—sent him to the same post where the Marlitts were stationed, and he saw Cicely again. He looked into the placid depths of her long, gray eyes and remembered the past. He looked at the curving red lips and the thick brown hair and guessed the future. She had changed for the worse and for the better. She had been civilized and was less frank; she had learned to attain her ends by indirect means, yet, as women go, she was honest. But the saintly face was more beautiful, and the child was grown to one of those women whom to love is to worship. And in due time Raymond loved her.

There are men who take their love as simply as they do the breath of their life. It is necessary to them, but they do not go mad with the ecstasy of its possession. When Raymond had told Cicely that he loved her, and when she had laid her head upon his shoulder and had put her slender, clinging hands in his, and, turning up the beautiful, deep eyes to his face, had said, "I love you," he was satisfied. His fault, if such it were, was that he was undemonstrative, and Cicely's—though some count it a virtue in woman—that she was jealous. Of all vices, jealousy carried with it its own swiftest punishment. It realizes its unreason, but is powerless—like a dreamer who suffers and cannot awake, though he knows, the while, that he is dreaming. She knew in her heart that her lover's word was worth more than most men's vows; she knew that his purpose was direct and honest, and yet she doubted. The tiny stone of suspicion began to roll. A question which Cicely was too proud to ask would have checked it, but it rushed on and became an avalanche that buried and crushed their happiness under its mass. Raymond looked on dazed. He could not understand.



DO YOU LOVE ME STILL?

When it was too late it was made plain. Cicely sat before her own fire, in the dusk, and looked quietly at the blazing logs. The light shone on her fair face and on her gleaming hair. Raymond stood and looked down at her, resting his arm on the mantelpiece. He was an honest man. He had no intention of speaking of even the love of the past to another man's wife, but beside the blank reality rose up in front of him the might-have-been of his life, and he cried out from the depths:

"Cicely, why did you do it?"

She started back and looked up at him. For one long minute the deep eyes gazed into his eyes and saw there the futility of an irretrievable mistake. The curved lips grew white, and parted and closed again. She turned and hid her face in her tight-clasped hands, and bowed her head against the back of the chair. There is tragedy of the fiercest sort that enters, once, at least, into most lives—tragedy which seems to rend the veil of one's universe in twain and to open up the graves where one's hopes and sorrows have lain sleeping. Yet we jeer at melodrama when we are shown bits from the play of existence that are as nothing to the truth. We say it is overacted. It is because it has been mercifully given to us to forget. In the past, Raymond, first of all, would have scoffed; in the future, he would come to doubt the horror of the present moment. But it caught him and held him then with a mighty strength. The primitive creature comes out when it is lashed with the whip of real pain; all the bars of custom and convention cannot restrain it. He forgot the honor of his sane moments. He snatched away the hands and dragged her to him, and turned her face up again to his.

"Why did you do it, Cicely?" he repeated.

She clinched her teeth and steadied her voice, and then she told him.

"But you were utterly wrong," he said. He was dazed to have been so misunderstood, and he offered no explanation. But she did not need one now. She had seen the full measure of her folly.

"I know," she answered, "I was wrong, and—I am punished." She threw her arms about his neck and sobbed, and he held her close. It was only for a little time. Then she drew away and her arms fell at her sides. "It cannot be helped," she said, and she turned and went away.

There was no change in Raymond, either then or as the years went on. He was a good officer and a good man and unembittered. But Cicely Glanville changed. The world loves nothing better than to find an explanation for what has mystified it. It does not trouble to verify its belief. "It is plain," it said now, "why Cicely Marlitt married Glanville. Raymond was not the man to have allowed her to indulge her propensities."

The propensities were toward flirtations that scandalized that conservative and respectable institution, the army. Even the men of the regiment resented that it should be given fame through Mrs. Glanville. And the women feared and hated her, but they also admired. Popular superstition to the contrary notwithstanding, most women see the charms of a rival. Envy is as keen-sighted as love is blind. And the clever ones admit them.

Being isolated from the small circle of feminine wit, Mrs. Glanville added to her attractions much masculine clear-sightedness and wide range of interests. She was as good to talk to as to look upon. She spoke with the tongue of a wisdom that was more—not less—than womanly, and she sang with the voice of a siren, and men fell down before her and worshiped her, and, throwing the cloak of their infatuation over the clay feet of their idol, came finally to forget them and believe it all spotless alabaster. They held her up to wives and daughters and sisters whom they would have disowned for following in her path. And they ruined the peace of their lives and of their homes for her—all, too, without the hope of even a capricious fancy for reward. She brought them low and laughed at them, but they still had faith, as had her husband, though the heavens should fall. She was known to the borders of the service, and beyond, as a creature of no heart who had caused disaster and even death and had shown neither remorse nor pity.

Yet when she was free once more, Raymond went to her. His old faith was unmoved. It was a better sort of faith than any other she had inspired. Years had gone since she had seen him. She sat once again before the fire—this time in her father's home. And Raymond stood looking down at her. The face, above the black dress of her mourning, was as saintlike as of old, and seemed as young and unscarred. The long, gray eyes were as placid, but more deep. He did not ask now why she had done these things. Perhaps he knew. But he said to her, as though the time had never been:

"Cicely, do you love me still?"

And the sweet lips parted to say the words that they had never framed save for him: "I love you still."

He reached out his hand and took hers. She tried to draw it away.

"But you do not want me—now?" she said.

He held her fast and answered: "I want you now." There was no doubt in his firm voice.

"You do not know," she tried to tell him.

"Yes, I know," he said; "and yet—and yet I want the Cicely who was my honest little playmate years ago; who was my trusted love in the past; who will be my faithful wife in the time to come. For old sake's sake, I want her, dear."

She laid her tired head upon his shoulder and closed her tear-filled eyes. "And for old sake's sake," she said, "you shall have her."—Gwendolen Overton, in the Argonaut.

His Explanation.

The explanations authors are compelled to make to readers of literal or immature mind—when they are obliging enough to make them at all—are often as good literature as the passage which called them forth. Elizabeth Cady Stanton says, in her "Eighty Years or More," that she once wrote Doctor Holmes, at the request of a young nephew of hers, to ask an important question. Did the doctor really have a servant who almost laughed himself to death, as described in "The Height of the Ridiculous?" Doctor Holmes replied: "I wish you would explain to your little nephew that the story of the poor fellow who almost died laughing was a kind of dream of mine, and not a real thing that happened, any more than that an old woman lived in a shoe, and had so many children she didn't know what to do, or that Jack climbed the beanstalk and found the giant who lived at the top of it. You can explain to him what is meant by imagination, and thus turn my youthful rhymes into a text for a discourse worthy of the Concord school of philosophy. I have not my poems by me, but I remember that 'The Height of the Ridiculous' ended with this verse:

'Ten days and night with sleepless eyes
I watched that wretched man,
And since, I never dare to write
As funny as I can.'

"But tell your nephew he mustn't cry about it, any more than because geese go barefoot, and bald eagles have no nightcaps."

A Modern Fable.

Once upon a time a tramp was sorely in need of something to eat, and approaching a farmhouse he spake unto the farmer, saying: "If you will give me the wherewithal to satisfy the cravings of the inner man, I will kill all the rats about the place." "Agreed," said the tiller of the soil, and he ordered his good wife to give the tramp a square meal. After the tramp had devoured everything in sight he went to the woodpile and selected a stout club, then, seating himself on the porch, he said to the farmer, "Now bring on your rats."—Chicago News.

Duty.

Never to tire, never to grow cold, to be patient, sympathetic, tender; to look for the budding flower and the opening heart; to hope always, like God; to love always—that is duty.—Amiel.

ARTISTIC WOMEN.

They Are Fond of Cheerful Surroundings—How to Improve Your Home.

Probably at no time in the world's history has so much attention been paid to the interior decoration of homes as at present. No home, no matter how humble, is without its handiwork that helps to beautify the apartments and make the surroundings more cheerful. The taste of the American people has kept pace with the age, and almost every day brings forth something new in the way of a picture, a draping, a piece of furniture or some form of mural decoration. One of the latest of these has been given to the world by the celebrated artist, Muville, in a series of four handsome porcelain game plaques. Not for years has anything as handsome in this line been seen. The subjects represented by these plaques are American Wild Ducks, American Pheasant, American Quail and English Snipe. They are handsome paintings and are especially designed for hanging on dining-room walls, though their richness and beauty entitles them to a place in the parlor of any home. These original plaques have been purchased at a cost of $50,000 by J. C. Hubinger Bros. Co., manufacturers of the celebrated Elastic Starch, and in order to enable their numerous customers to become possessors of these handsome works of art they have had them reproduced by a special process in all the rich colors and beauty of the original. They are finished on heavy cardboard, pressed and embossed in the shape of a plaque and trimmed with a heavy band of gold. They measure forty inches in circumference and contain no reading matter or advertisement whatever.

Until October 1 Messrs. J. C. Hubinger Bros. Co. propose to distribute these plaques free to their customers. Every purchaser of three ten-cent packages of Elastic Starch, flat-iron brand, manufactured by J. C. Hubinger Bros. Co., is entitled to receive one of these handsome plaques free from their grocer. Old and new customers alike are entitled to the benefits of this offer. These plaques will not be sent through the mail, the only way to obtain them being from your grocer. Every grocery store in the country has Elastic Starch for sale. It is the oldest and best laundry starch on the market, and is the most perfect cold process starch ever invented. It is the only starch made by men who thoroughly understand the laundry business, and the only starch that will not injure the finest fabric. It has been the standard for a quarter of a century, and as an evidence of how good it is twenty-two million packages were sold last year. Ask your dealer to show you the plaques and tell you about Elastic Starch. Accept no substitute. Bear in mind that this offer holds good a short time only, and should be taken advantage of without delay.

Why Good Swimmers Are Drowned.

The sudden drowning of a good swimmer is not due to a cramp, as generally supposed. There is no reason, says a high medical authority, why a cramp in a leg should prevent an ordinary swimmer supporting himself in the water by his hands or on his back, or cause him to throw up his hands and sink once for all like a stone. The explanation is that the drum of the ear is perforated and the pressure of water causes vertigo and unconsciousness.—Atlanta Constitution.

A man's meaning is the same during courtship and after marriage, but it is expressed in different language.

Beauty Is Blood Deep.
Clean blood means a clean skin. No beauty without it. Cascarets Candy Cathartic cleans your blood and keeps it clean by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets—beauty for 10 cents. All druggists. Satisfaction guaranteed. 10c, 25c, 50c.

Some men pray for their daily bread and hustle for their nightly chickens.

Mrs. Winslow's Soothing Syrup.
For children teething softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Love blinds some men, and it makes lots of others too near-sighted for military service.

To Cure Constipation Forever.
Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

It is better to marry and be bossed than never to have bossed at all.

How Old She Looks

Poor clothes cannot make you look old. Even pale cheeks won't do it.

Your household cares may be heavy and disappointments may be deep, but they cannot make you look old.

One thing does it and never fails.

It is impossible to look young with the color of seventy years in your hair.

Ayer's Hair Vigor

permanently postpones the tell-tale signs of age. Used according to directions it gradually brings back the color of youth. At fifty your hair may look as it did at fifteen. It thickens the hair also; stops it from falling out; and cleanses the scalp from dandruff. Shall we send you our book on the Hair and its Diseases?

The Best Advice Free.
If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed. Address, DR. J. C. AYER, Lowell, Mass.

OUR BUDGET OF FUN.

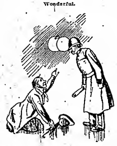
SOME GOOD JOKES, ORIGINAL AND SELECTED.

Wonderful Phenomena—No Smoking Before Eight — Glimpses of Saxon and Celtic Humor—His Sonnet—The Old Folks at Home.

His Sonnet.

"I have written a sonnet, my dear, to you,
A stately sonnet, addressed to thee.
There are fourteen lines in it—count 'em and see—
The rhymes are perfect, the meter, too,
Read it carefully through and through
And then give your honest opinion to me;
Would you send it away—oh, tell me, true—
To, well, let us say the Century?"
"Ah, yes, your sonnet deserves a place
In one of the heaviest magazines;
The fourteen lines are models of grace
And the meter's as true as a pan of beans,
But, say, can you look me straight in the face,
And honestly tell me what it means?"

Wonderful.



"Mosh 'stonishing sing, pleeceman (hic) I could swear I shaw one moon tumble out o' the sky jus' now (hic), an' still there's two more of 'em a shinin'."—English Ex.

Some Old Question.

"Say," said the newspaper poet to his friend, the idiot, "can't you give me an idea for a few verses?"

"What on?" asked the idiot.

The poet looked dazed for an instant and then said, "Thanks," and, running to his den, penned off eight quatrains on the subject: "Idiotic Answers to the Civilest of Questions," that he sold afterward for $3.75.—Detroit Free Press.

The Brook and the Bird.

"Men may come and men may go, but I go on for ever," sang the brook in the spring.

Presently it was become summer and the brook was dry.

"Oh, go on," shouted the mocking bird, mockingly.

This fable teaches that wrong notions may be got by reading Tennyson.—Detroit Journal.

Habit They Have.

Jones—"You seem to be awfully upset over the little trip you and your wife are to take. I don't see what there is about going away for a week that should worry you so."

Brown—"It isn't just the fact that we're going away. The trouble is that whenever my wife takes a trip that will last over night she insists on turning it into a regular moving."

The Old Folks at Home.

My little ones have gone away
To stay a month or two
With grandpa's folks, some seven miles
This side of Kalamazoo;
I'm sorry for the poor old souls;
They're feeble now, at best,
And if they stand the present whirl
They'll need a good, long rest.

A Thorough Sport.

The Beacon—"Young man, don't you know that there's a rainy day coming?"

Spendthrift—"Mebby there is, but I've got $5 that says the weather man won't call the turn. Come, now, if you've got any nerve show your money."

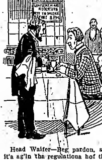
Too Horrible.

Burgling Bill—"No, no! I won't go in again! She's talking in her sleep."

The mouse—"Well, dat ain't nuthin'."

Burgling Bill (hoarsely)—"But she's a lady elocutionist."—San Francisco Examiner.

No Smoking Allowed.



GENTLEMEN ARE REQUESTED NOT TO SMOKE BEFORE 8 P.M.

Head Waiter—Beg pardon, sir, but it's ag'in the regulations hof the hestablishment, sir, to smoke before, 8 o'clock.—Irish Ex.

His Hero.

"Suppose this was a magic ring," said the visitor who had taken young America on his lap and wished to be entertaining. "Suppose if you put it on and made a wish that wish would come true. What would you wish for—a tandem wheel, a pony or a—"

"I'd wish I was Dewey," broke in young America impatiently.

A WOMAN'S HEROISM.

From the Register-Gazette, Rockford, Ill.

During the civil war nearly as much heroism was shown by the women of our nation as by the brave soldiers. Many a woman, weeping for her dead son, bound up the wounds of his suffering comrades, rejoicing in their renewed strength, even while sorrowing for the one who was gone. At that time was laid the foundation for the world-famed organization known as the Woman's Relief Corps, whose aid to the soldier of today, fighting against the world for a living, is no less notable than the heroism of the early '60's.

On the Battlefield.

One of the most earnest members of the corps at Byron, Ill., is Mrs. James Houseweart, but illness once put a stop to her active work. A year or so ago, when she was nearing fifty years of age, the time when women must be most careful of their strength, Mrs. Houseweart was taken seriously ill. The family physician told her that she had reached a critical period of her life, and must be very careful. His prescriptions and treatment did not benefit her, and other treatment proved unavailing.

At last Dr. William's Pink Pills for Pale People were brought to her notice, with indisputable evidence that they were helpful to cases such as hers, and with renewed hope she tried the remedy. Last March she took the first box of the pills, which gave much relief. She was determined to be cured, and kept on with the medicine, until now eight boxes have been consumed, and she feels like a new woman.

Mrs. Houseweart said: "I have taken only eight boxes, but I have been improving since I took the first dose. I do not believe I could have lived without the pills. They certainly have done me more good than any physician or any medicine I have ever tried."

Dr. Williams' Pink Pills are sold in boxes (never in loose bulk) at 50 cents a box or six boxes for $2.50, and may be had of all druggists, or direct by mail from Dr. Williams' Medicine Co., Schenectady, N. Y.

Read the Advertisements.

You will enjoy this publication much better if you will get into the habit of reading the advertisements; they will afford a most interesting study, and will put you in the way of getting some excellent bargains. Our advertisers are reliable; they send what they advertise.

The Spaniards try to avoid engagements, but the summer girl isn't built that way.

Educate Your Bowels With Cascarets.
Candy Cathartic cure constipation forever, 10c, 25c. If C. C. C. fail, druggists refund money.

The girl who listens to soft nothings hopes that they may eventually mean a great deal.

TOWER'S FISH BRAND Trade Mark
POMMEL SLICKER
The Best Saddle Coat.
Keeps both rider and saddle perfectly dry in the hardest storms. Substitutes will disappoint. Ask for 1897 Fish Brand Pommel Slicker—it is entirely new. If not for sale in your town, write for catalogue to A. J. TOWER, Boston, Mass.

Willing to Pay for Silence.

Say, I'm paying this war tax without a blessed grumble."

"Why so, cheerful?"

"You know that typewriter who talks all the time?"

"Yes."

"Well, I keep her licking stamps all day long."—Cleveland Plain Dealer.

Improvements in Flying Machines.

Inventors are plenty who can make a machine that will rise and float in air, but none have succeeded in making an apparatus that will guide it through the many currents of air. In this respect Hostetter's Stomach Bitters act as a safe guide by curing stomach, liver and blood diseases, giving a good appetite and strong constitution.

One learns taciturnity best among those who have none, and loquacity among the taciturn.—Richter.

No-To-Bac for Fifty Cents.
Guaranteed tobacco habit cure, makes weak men strong, blood pure. 50c, $1. All druggists.

All the honey a bee gathers during its life doesn't sweeten its sting.

MRS. PINKHAM'S ADVICE.

What Mrs. Nell Hurst has to Say About It.

DEAR MRS. PINKHAM:—When I wrote to you I had not been well for five years; had doctored all the time but got no better. I had womb trouble very bad. My womb pressed backward, causing piles. I was in such misery I could scarcely walk across the floor. Menstruation was irregular and too profuse, was also troubled with leucorrhœa. I had given up all hopes of getting well; everybody thought I had consumption. After taking five bottles of Lydia E. Pinkham's Vegetable Compound, I felt very much better and was able to do nearly all my own work. I continued the use of your medicine, and feel that I owe my recovery to you. I cannot thank you enough for your advice and your wonderful medicine. Any one doubting my statement may write to me and I will gladly answer all inquiries.—MRS. NELL HURST, Deepwater, Mo.

Letters like the foregoing, constantly being received, contribute not a little to the satisfaction felt by Mrs. Pinkham that her medicine and counsel are assisting women to bear their heavy burdens.

Mrs. Pinkham's address is Lynn, Mass. All suffering women are invited to write to her for advice, which will be given without charge. It is an experienced woman's advice to women.

Biliousness
"I have used your valuable CASCARETS and find them perfect. Couldn't do without them. I have used them for some time for indigestion and biliousness and am now completely cured. Recommend them to every one. Once tried, you will never be without them in the family." EDW. A. MARX, Albany, N. Y.

THE NEWS RESUME

DIGEST OF THE NEWS FROM ALL PARTS OF THE WORLD.

A Comprehensive Review of the Important Happenings of the Past Week Culled From the Telegraph Reports—The Notable Events at Home and Abroad That Have Attracted Attention.

From Washington.

The president has been invited to visit Sioux City, Iowa during the annual carnival in October.

The navy department has arranged a plan whereby one of the new battleships will be constructed at Philadelphia, one at Newport News and the third at San Francisco.

As a result of several conferences between Gen. Miles and the president, and of consultations with army officers in New York and at Camp Wikoff, the proposed parade at New York has been abandoned.

The contract for supplying the navy department with smokeless powder has been let to the California Powder company and the Dupont Powder company, each to supply half a million pounds. The contract price is 80 cents per pound, the government to furnish the alcohol necessary for the production of the powder.

Sporting Notes.

Del Norte, the guideless pacer, went a mile at Independence, Iowa in 2:01 3-4. This equals the world's best record, held by the late Marion Mills.

Tom Sharkey writes that both he and Joe Choynski have signed articles of agreement, and will come together at the Lennox Athletic club some time in October.

There is talk of arranging a stallion race between Cresceus, Tommy Britton, Askey, Gratton Boy, Directum Kelly, Stamboulet and perhaps one or two others.

The California racing season opens on Monday, Sept. 26. The opening handicap will be run that day. It is a race for two-year-olds and upwards, of a mile, and worth $1,250.

Adrian Anson is reported to be the father of a scheme to run a professional spring carnival at Paris during the Paris exposition of 1900. The plan of an amateur tournament, or rather a series of tournaments, has not yet been abandoned.

Criminal Record.

Peter Schamm, a brewer of Philadelphia, jumped from the Great Island bridge at Niagara Falls, and his body was swept over the American Falls.

August Schaefer, proprietor of the Hotel Schaefer, shot and killed himself in his room at the hotel recently. Ill-health was the cause.

William H. Tucker, president of the Tucker-Dorsey manufacturing company, and former commander-in-chief of the Union Veteran League of the United States, shot and killed himself at the factory office in Indianapolis.

Susan, the thirteen-year-old daughter of Mrs. Emma Anderson, committed suicide at Council Bluffs, Iowa, because she was disappointed in securing money to buy herself an artificial limb.

While in a fit of drunken, jealous rage, at Wyandotte, Mich., Ezekiel Lazotte, aged forty-five, shot and instantly killed his wife and then turned the revolver on himself, inflicting a wound from which he died in an hour.

Mrs. William Beard of Philadelphia, widow of the geologist and mining expert, whose death was reported from Southwestern Alaska last spring, believes her husband, instead of having been killed accidentally, was murdered by his associates for the money that he carried, and demands an investigation.

People Talked About.

Judge Cooley of Michigan, formerly chairman of the interstate commerce commission, is dead.

Robert P. Dick, United States district court judge, died at his home in Greensboro, N. C., aged seventy-five years.

Lorenzo Snow has been chosen president of the Mormon church, to succeed President Woodruff, recently deceased.

Howard C. Bancroft, of the wholesale dry goods firm of Bancroft, Sheldon & Co., died at Columbus, Ohio, from heart disease. He was widely known.

David R. Rice, aged forty-eight years, son of Gen. J. H. Rice, editor of the Sedalia Capital, and brother of the United States consul at Vancouver, is dead at Kansas City of Bright's disease.

Dr. Alex Shaw, the noted physician and recluse, residing near Quincy, O., died recently from burns received by falling into an open fire-place. He was eighty-seven years old, and has lived alone for sixty years in the cabin where he died.

Casualties.

Three hundred were killed and injured in the rioting during the recent elections in Guatemala.

Nat Goodwin, the actor, was hurt recently by being thrown from his horse in London.

A Rock Island train struck a carry-all at Wichita, Kas., killing three persons and severely injuring several more.

An engine attached to a freight train on the Santa Fe, near Ottawa, Kan., blew up recently, killing the fireman and seriously injuring two brakemen.

Postmaster Symons of Brunswick, Ga., who chartered a tug and went in search of the schooner John H. Platt, which was in the terrible storm of August 30, has returned with unmistakable evidence of the ship's loss, with all on board. Postmaster Symon's son was a passenger on the Platt.

Foreign Notes.

Li Hung Chang's dismissal from office was due to the fact that he was wholly in the service of Russia.

The sixth biennial convention of the Brotherhood of Locomotive Firemen has opened at Toronto.

Four hundred Cubans have laid down their arms at Guantanamo and gone to work on plantations.

An immense sensation has been created all over Australia by the discovery near Lake Wynne of a gold nugget weighing 115 pounds and valued at $32,000.

Aguinaldo's three commissioners to the American-Spanish conference in Paris have started from Hongkong and will arrive in San Francisco on Sept. 30.

It was semi-officially announced at Amsterdam that the reports of the attempted assassination of Queen Wilhelmina and the shooting of Countess Limburg-Stirium are entirely without foundation.

Queen Victoria has restored to his rank in the British army Col. Frank Rhodes, brother of Cecil Rhodes, who was dismissed from the service for his participation in the armed raid into the Transvaal, led by Dr. Jameson in December, 1895. Col. Rhodes was wounded at the battle of Omdurman, while acting as war correspondent for the London Times.

Otherwise.

The Republican state ticket in Maine was elected by about 20,000 majority.

Morrill Bros.' company, jewelers of Boston, have failed. Assets, $95,000; liabilities, $38,000.

The Second Georgia infantry, now at Huntsville, Ala., has been ordered mustered out.

W. D. Bynum, chairman of the National (gold) Democratic party, has resigned, and George F. Peabody of New York was elected his successor.

Collections will be taken Oct. 10 in all schools and colleges of the United States to raise funds for the Lafayette monument.

The Society of the United States Military Telegraph Corps met in annual convention at Omaha. There was an unusually large attendance.

As a result of the weavers strike at Borden City mills at Fall River, Mass., the management has closed the entire plant.

Camp Wikoff is now a camp of regulars, 5,000 horse and 8,000 foot. The last of the volunteers, save the rough riders and the sick, have left.

At the session of the National Association of Postoffice Clerks at Detroit Thomas Donnelly, Brooklyn, was elected president. Memphis is the next place of meeting.

The straw board manufacturers of the United States are holding a secret session at Columbus, Ohio. It foreshadows an advance in the price of their output.

American miners on the Yukon have joined in an urgent request for the government to locate an assay office and government bank depository at Circle City.

Fifty Spanish prisoners captured at the naval battle on July 3 off Santiago de Cuba, have arrived in New York on board the City of Rome, bound for home.

The central committee of the citizens' union of New York has indorsed the independent citizens' committee in nominating a state ticket headed by Theodore Roosevelt.

Clara Barton will make a detailed statement of the action of the Spanish authorities in refusing to allow her to land supplies at Havana free of duty.

The extreme heat of the past week caused much corn to cure, and it is now beyond the reach of frost in all Southern Iowa counties. This applies particularly to the early corn.

The largest cornstalk ever grown in the State of Iowa is on exhibition in a number of counties at present. The best display is said to be at Creston, where a stalk is shown seventeen feet high.

Adjt. Gen. Corbin has issued orders directing that all Jews enlisted in the volunteer service be granted furloughs, to permit them to participate in the celebration of the Orthodox Congregational Union of America.

R. C. Lehmann, the English rowing man, who has coached the Harvard crew for two seasons, and Miss Alice Marie Davis of Worcester, were married at Worcester, Mass. Mr. and Mrs. Lehmann will sail for England.

Articles of incorporation were filed at Dubuque with the secretary of state for a railroad to be built from Fort Dodge, Iowa, to Omaha. It is believed to be an extension of the Illinois Central system. The company is capitalized at $5,000,000.

The bids for the construction of the new dormitory at the Morris, Minn., Indian school were received from the superintendent at Morris, the lowest bidder being J. L. Rodd of St. Paul, at $9,400, who will probably receive the contract.

Roadmasters, railway superintendents, civil engineers and others connected with the maintenance departments of the leading railroads of the United States and Canada are at Denver in great numbers, to participate in the joint convention of the Roadmasters' Association of America and the Road and Track Supply association.

The Pecos Valley & Northeastern railroad, now being built at the rate of two miles a day, will be completed by Dec. 15. This will connect with the Santa Fe system, making a direct route from the East to the valley. The time from New York to New Mexico will be about thirty hours. It now takes over two and one-half days.

Farmers around Jessup, Iowa, are very much interested in a freak pig in that section. The animal has two tails, two bodies for half its length, four eyes, two in their proper place, one in the center of the head and one under the ear, and numerous things that well regulated animals do not have.

The hitherto unnamed founder of the Cornell medical college who gave $1,500,000 for the erection of the building in New York city is Col. Oliver H. Payne.

NOT BEFORE FEBRUARY

WILL THE EVACUATION OF CUBA BE COMPLETED.

Owing to the Fact That the Spanish Soldiers Must Embark in Spanish Vessels—The Delay Is Considered an Advantage to Both Countries—America Will Have an Opportunity to Acclimate Its Men During the Winter Months—Number of Spanish Soldiers on the Island Will Aggregate 100,000, According to an Official Statement.

Havana, Sept. 19.—An official meeting of the Spanish commission on evacuation has been held for the purpose of considering the Spanish form of evacuation and with the object of informing the American commission of the exact number and the best means of embarking them.

Yesterday morning there was sent on board the Resolute a sealed document supposed to contain a statement of the results of last night's conference. It is understood that it is proposed to start the evacuation from the east to west, embarking the troops at the ports of Gibara, Nuevitas, Cienfuegos and Havana. The official statement of the number of Spanish soldiers in the island is said to place the aggregate at 100,000, and it is understood it is proposed that the men shall carry with them their arms, ammunition, materials and equipments. It is estimated that the end of February will have come before the evacuation of the island is completed, as the soldiers must embark in Spanish vessels. It is suggested that this will be an advantage to both countries, the United States having an opportunity to acclimate its men during the winter months, as it is proposed that the American government shall land troops to occupy each post simultaneously with its evacuation, not leaving any post unguarded at any time.

Rumors that have been put in circulation to the effect that Gen. Wade, president of the American evacuation commission, is ill with yellow fever may be denied absolutely. Gen. Wade is looking the picture of health. He breakfasted yesterday morning with his staff at the Louvre restaurant.

The commissioners and their entire staffs will remove to the Trotcha hotel at Vedado, which has been put in excellent sanitary condition. The general health aboard the steamer Resolute is good.

TWELFTH AT NEW ULM.

Brilliant Reception on Their Arrival From the South.

New Ulm, Minn., Sept. 19.—A throng of people, the size of which it would be hard for any one to estimate, filled the yards of the St. Louis road and all the approaches thereto to welcome home, with cheers and hurrahs, the returning heroes of the Twelfth. Never before was the town so prettily adorned with flags and bunting. Large flags floated from every business house and public building.

The train carrying the soldiers arrived in three sections. The first one, under Maj. Mead, contained Col. Bobleter and his regimental staff and the companies from New Ulm, Albert Lea, Faribault and Winona. The second was in charge of Maj. Wright, and the third under Maj. Whitney. Each carried four companies of about seventy-five men each. Altogether there were 871 men on board and thirty-nine officers.

The passenger trains arrived here shortly after 12 o'clock, following each other at intervals of half an hour. As the first section moved into sight cheer after cheer rose from the immense crowds. Handkerchiefs and hats waved everywhere. It was really an inspiring scene, one that every participant will always remember. Everybody was rejoiced to see the regiment looking so well and it was equally apparent that every member of Minnesota's volunteer organization was glad to place his feet once more on Minnesota soil.

THE SULTAN BACKS DOWN.

He Orders Compliance With the British Ultimatum.

Candia, Island of Crete, Sept. 19.—The sultan has ordered Djevad Pasha, the military commander in Crete, to accede to the demand of the British admiral, Gerard Henry Noel, for disarmament, thus complying with the whole ultimatum of the admiral.

A British detachment occupied the entrance to the fort, and it is rumored that the Ottoman troops will be withdrawn and a British force will occupy the town.

Among the prisoners already handed over to Admiral Noel are two who are credited with being ringleaders in the attack on the British camp.

SICK SOLDIERS AT MANILA.

Seven Serious Fever Cases Among Minnesotans.

Manila, Sept. 19.—The weekly sick report from the hospital contains the following names of members of the Thirteenth Minnesota: John Lawson, Joseph Webb, William Odell, Henry Currier, Albert Carlstrom, Carl Overton, George Johnston, A. Hanson and Harry Miles, typhoid cases, all serious; Gustave Ahlbert, typhoid fever; improving.

British Steamer Abandoned.

Aden, Sept. 19.—The British steamer Mount Tabor, Capt. Jameson, from Iloilo for Liverpool, has been abandoned on fire off the island of Socotra. The British steamer Telena, from Calcutta for Hamburg, landed the crew here. She sustained damage in attempting to tow the burning vessel.

Admiral Montejo Suspended.

Madrid, Sept. 19.—The supreme council of war has decided to suspend Admiral Montejo and Maj. Siesto, director of the Cadiz arsenal.

MURDERED EMPRESS BURIED.

Somberly Impressive Rites Attend the Sepulture of the Assassin's Victim.

Vienna, Sept. 19.—Emperor Francis Joseph at 9 o'clock this morning received the special representatives of foreign sovereigns. An hour later he received the visiting sovereigns. The inhabitants of this city streamed in dense crowds toward the chapel of the Hofburg and defiled before the casket containing the remains of the late empress.

The aspect of this city was more somber than upon any day of the week of mourning.

At 4 o'clock the tolling of bells announced the starting of the procession. The route from the Hofburg to the insignificant Church of the Capuchins, whose vaults entomb the Hapsburg, is so short that only a small proportion of the population was able to crowd into the adjoining streets.

A large number of priests in full canonicals met the procession at the Augustines church and proceeded with it to the church of the Capuchins. The clergy there marched down the aisle before the coffin and united in atoning prayers. During the last prayer the coffin was lifted from the catafalque and the clergy, bearing torches, walked before it. Emperor Francis Joseph attended by the highest officers of state, bearing wands, followed. This procession slowly passed from the sight of the congregation down a stone stairway to the vault. After the last benediction had been pronounced in the vaults the mourners reassembled and the high chamberlain handed the key of the vault to the Capuchin who is the guardian of the imperial mausoleum.

WILL SOON BE OURS.

Preparations for the Evacuation of Porto Rico Completed.

San Juan, Porto Rico, Sept. 19.—The preparations for the embarkation of the Spanish troops are reported to be completed, though the American commissioners have not been officially notified to that effect. Two steamers of the Spanish Transatlantique company are expected to arrive here on the 25th. The Porto Rico troops are to be landed near Cadiz. The United States commissioners have agreed that such troops as desire to remain here may do so, and practically all the volunteers and some of the regulars whose families and interests are here will do so. If the necessary ships were here the island would be evacuated and practically within our possession in three days.

The American commissioners are highly gratified by the spirit shown by the Spaniards. They expect to see the American flag hoisted and the Spanish flag hauled down forever within three weeks.

PARTING WAS SAD.

Col. Roosevelt Bade His Men Good-Bye With Tears.

Camp Wikoff, Montauk Point, L. I., Sept. 19.—Col. Roosevelt said good-bye the other day to his rough riders with tears in his eyes and a smile on his lips. His men showed their love for him by presenting him with a splendid bronze statue of a broncho buster—a "monument" the men of the Western plains call it, although it was only a foot and a half high—and then the 550 of his troopers who were here marched by their chief in single file and gave him hand grips that were firm and fierce for admiration.

Four troops of the rough riders were mustered out and received two months' pay. It was the colonel's last chance to meet in one body the curious, fearless fellows who had gathered around him from every state in the Union, and from every walk of life.

SPANISH COMMISSIONERS.

Their Names Are at Last Made Public.

Madrid, Sept. 19.—The Official Gazette publishes the announcement of the appointment of Senor Montero Rios, president of the senate; Senor Abarzuza, Senor Garnica, Gen. Cerero and Senor Villaurrutia, Spanish peace commissioners. Senors Du Bosc and Arranguren, formerly secretaries to the Spanish legation at Washington, have been transferred from St. Petersburg to Vienna.

SICKNESS AT SANTIAGO.

Nearly One-Sixth of Gen. Lawton's Command on the Sick List.

Washington, Sept. 19. — Sickness among the troops of Gen. Lawton's command at Santiago is increasing. Nearly one-sixth of his force is now on the sick list, although the number of deaths is not large, according to Gen. Lawton's bulletin of the health of the American forces at Santiago received at the war department.

Applies to Volunteer Officers.

Washington, Sept. 19.—The war department has decided to change its policy in the matter of granting applications of volunteer officers for discharge, and hereafter no such application will be considered unless indorsed by a superior officer and forwarded through him. Heretofore the discharges have been granted without applying any general rule upon application of officers themselves, indorsed by the representatives or senators from their states.

France Will Get Out.

London, Sept. 19.—From Cairo and from an entirely independent source the Daily Mail learns that France has assumed a conciliatory attitude toward Great Britain and has declared that the expedition of Maj. Marchand is quite unofficial. The sirdar will offer to take Maj. Marchand to Cairo, and it is probable the major will accept, and that Fashoda will be occupied by Egyptian troops.

Capt. Capron Dead.

Washington, Sept. 19.—Capt. Allyn Capron, First artillery, died at his home near Fort Myer, Va.

Capt. Capron is the father of Capt. Allyn K. Capron, of the rough riders, who was killed in the first day's fight before Santiago.

Mountain Climbers Killed.

Chamounix, Sept. 19.—An Englishman named Binns and a guide, who accompanied him, while making the descent of the Aiguille de Charmoze fell and both were killed.

INDIANS ARE VERY SAUCY

SENSATIONAL DECISION REACHED AT LEECH LAKE.

Authority of the United States Regarding Tribal Matters and the Disposition of Pine Land to Be Ignored—Indians Say the Government Has Broken Faith With Them and They Now Consider All Agreements Under the Act Ceding Their Reservations Null and Void—Complained Bitterly Against White Earth Indians.

Walker, Minn., Sept. 19.—The Leech Lake Indians held a council with Indian Agent Sutherland, in which they informed him of their intention to ignore the authority of the United States hereafter and to follow their inclination in respect to their tribal matters and to resist any further interference by the government in the disposal of the pine lands of their reservation. They said that the government had repudiated treaty stipulations, and they considered all agreements under the act of 1889, under which they agreed to cede their reservations, null and void.

They complained bitterly against the mixed blood Indians of White Earth, whom they said were in league with the white lumbermen to rob them of their pine timber lands, and that hereafter they would confiscate the property of the latter if they attempted to cut and sell any of the timber. They also said that the feeling among the Minnesota Chippewas regarding their treatment at the hands of the government was unanimous. Nagonway Keshig, one of the leading men of the tribe, on behalf of some of the young men, repudiated the proposed outbreak, and said that he was surprised that the Chippewas were going on the warpath, but judging from their speech he could come to no other conclusion.

Maj. Sutherland advised the Indians to take no steps that would be detrimental to their future welfare, and to think twice before acting once. The Indian prisoners that were taken forcibly by the Pillagers from United States Marshal Morrison, captain of the Indian policemen, were present at the council, but no attempt was made to rearrest them.

JOURNEY AT AN END.

Members of the Fifteenth Regiment Reach Camp Meade.

Harrisburg, Pa., Sept. 19.—The Fifteenth regiment, Minnesota volunteers, arrived here, and although the hour was late, were given an enthusiastic welcome by residents of the city. All of the boys are well and in the best of spirits. The camp will be seven miles outside of the city, and the boys will begin to pitch the tents this morning.

All along the line of their journey the regiment has met with the warmest of welcomes, which seem to inspire the boys with new spirit and determination. The regiment arrived at Pittsburg at noon yesterday, and were met at the train by a very large crowd of people, who gave the boys a rousing send-off. They stayed in Pittsburg until 3 o'clock, when they again resumed their journey.

DROWNED AT SUPERIOR.

Wife of Editor Foley of Bismarck Falls From a Pier.

West Superior, Wis., Sept. 19.—Mrs. Emma Foley of Bismarck, N. D., wife of the city editor of the Bismarck Tribune, was drowned by falling from the pier at the East end. She had just arrived in the city to visit friends and with them was looking at the flour mills on the water front, when a Northern Pacific engine came along, and, in stepping back out of the way, she fell into the water. The husband and her father, Mr. Beardsley, arrived and will take the body to Bismarck.

DEATH OF DR. HALL.

The Noted Presbyterian Divine Passes Away While on a Visit to His Native Land.

Belfast, Ireland, Sept. 19.—The Rev. John Hall of New York died at Bangor, County Down. Dr. Hall was on his annual visit to Europe. He died at his sister's residence. His health has been broken down for more than a year. He had hoped to return to New York shortly, and had already engaged passage on a steamer for himself and wife.

MUST DISARM.

British Naval Commander at Crete Makes a Personal Demand.

Candia, Island of Crete, Sept. 19.—Admiral Noel, the British naval commander, has handed to Edhem Pasha, the Turkish governor, a demand for the disarmament of the Mussulmans population. The pasha is awaiting the instructions of the Turkish government on the subject.

Suicide at Hudson.

Hudson, Wis., Sept. 19.—Charles Wetherby, an old-time and well known farmer of Troy town, committed suicide by hanging himself in the loft of his barn. His people missed him before bedtime, but the body was not found until this morning. He had been mentally peculiar for some time past, and was believed to be temporarily insane. Deceased was about sixty-eight years old.

Killed While Hunting.

Barnesville, Minn., Sept. 19.—Arley Fuller, fourteen years old, was accidentally killed while hunting. His gun had evidently been discharged as he was alighting from his buggy. His companion, who heard the shot, found him dead.

Acting Secretary of State.

Washington, Sept. 19.—Second Assistant Secretary Adee is acting secretary of state, and will continue to be so until the arrival and qualification of Mr. Hay.

HELD UP BY ROBBERS.

Passengers on a Railway Train Relieved of Their Cash.

Chicago, Sept. 19.—A dispatch to the Times-Herald from Council Bluffs, Iowa, says:

Three men held up a Lake Manawa railway train returning from the lake to Council Bluffs. The robbers boarded the car at the lake. When about half way in they drew revolvers on Conductor Morris and ordered him to throw up his hands. He grappled with one of the men and another fired. The ball grazed the conductor's neck, inflicting a slight wound. His face was badly burned by powder. He was overpowered and his pockets searched, the robbers getting less than $100. While two of the robbers held the conductor on the rear seat, the other went through the car, which was partially filled, and robbed three of the passengers of small sums. The robbers jumped off and started across the bottoms in the direction of Omaha.

MRS. DAVIS COURAGEOUS.

Senator's Wife Plugs Robber While Returning From the Pacific Coast.

Fargo, N. D., Sept. 19.—Recently when Mrs. Senator Davis of Minnesota was returning over the Northern Pacific from the coast a robber climbed on the trucks as the train was leaving Glyndon, and attempted to climb through the window into the state room she was occupying. Mrs. Davis warned him away, and the fellow made some threatening remarks. In an open satchel on the seat Mrs. Davis had a revolver. She thrust it in the face of the would-be robber, and he dropped from the rapidly moving train to the ground. Mrs. Davis feared the man had been killed, and had the train crew wire the agent to look him up. The fellow had suffered some bruises, but was not seriously injured.

IN FEAR OF VESUVIUS.

Eruption of the Volcano Causing Great Apprehension at Naples.

Naples, Sept. 19.—A state of gloomy apprehension prevails among the population regarding the eruption of Vesuvius, which is hourly becoming more active and menacing. Streams of lava are spreading in every direction. The most threatening of these flows through the Vedrino valley, which is almost filled. The observatory, which originally stood at a height of 610 meters, is now only 27 meters above the sea level, owing to the sinking of the ground. Seven new craters have formed around the central one, and this has not tended to diminish the fears formerly felt, which were based upon the eruption of stones and scoriae similar to that which occurred in 1872.

Senator Kyle Doing Well.

Cleveland, Ohio, Sept. 19.—Senator James H. Kyle of South Dakota, who was stricken with apoplexy here a few days ago, is recovering so rapidly that Dr. Herrick, his physician, believes he will be able to start for his home in Aberdeen, S. D., early next week. Senator Kyle is the chairman of the industrial commission established by the last congress, and he had called the members of the commission to meet in Chicago the 24th of this month. On account of his illness the senator is having notices sent to the nineteen other members of the commission postponing the first meeting of the commission until about the 20th of next month.

Accidentally Killed.

Roseau, Minn., Sept. 19.—Rasmus A. Flaa, a prosperous farmer of Roseau county, was killed by being run over by a team of bronchos hitched to a plow. The bronchos were not well broken, and, becoming fractious, Mr. Flaa stepped to their heads, when the horses reared, knocked him down and ran over him. The plow almost severed one of his legs near the hip. His wife, who was with him, ran for help, but when she returned the unfortunate man was just breathing his last. Deceased leaves a wife and two small children.

Wisconsin Troops Return.

Milwaukee, Sept. 19.—Three companies of the Second Wisconsin regiment, comprising troops from Oshkosh, Appleton and Manitowoc, on their way home from Porto Rico, arrived in Milwaukee at midnight. They were met at the depot by a reception committee, bands of music and about 2,000 enthusiastic people. After partaking of a generous lunch at the Plankinton hotel they returned to the depot and will leave for their homes on special trains this morning.

A Long, Cold Ride.

Milwaukee, Wis., Sept. 19.—Joseph Lynes of Stevens Point was found in a refrigerator car nearly dead, after having been locked up in it six days and nights, traveling from Seattle to this city. When found he was scarcely able to speak, and at the emergency hospital, to which he was carried, the attending physicians expressed doubt as to whether he would recover.

Resulted in Arrests.

Milwaukee, Sept. 19.—John Harvey Myers, president of the Home Building and Loan association, was placed under arrest, charged with embezzling $10,000 of the association funds. The Home Building and Loan association went down with a crash several weeks ago and an examination of its books showed a shortage of about $100,000.

Normal School Completed.

Madison, Wis., Sept. 19.—The state board of normal regents will hold an important meeting at River Falls next Tuesday, when the new normal building there will be dedicated. The acceptance of the building and settlement of accounts will come up at the business meeting, and the board will also pass on the presidency of the school.

Thrown in the Air.

Colonia, Wis., Sept. 19. — Elias Dutcher, a farmer, was driving near Wautoma when the pole of his wagon fell down, wrecking the wagon and causing the team to run away. Mr. Dutcher was thrown into the air. He landed on his head and shoulders and was seriously hurt.

Three Were Drowned.

Middletown, Conn., Sept. 19.—Three persons were drowned by the capsizing of a boat in the Connecticut river off Moramus.

MINNESOTA ITEMS

The Northern Pacific crop report places the yield at fifteen bushels.

The Master Car and Locomotive Painters' association held its twenty-ninth annual meeting at St. Paul.

The cost of finding the inmates of the state institutions rises to 10.9 cents a day the last year.

The gate receipts at the state fair were between $4,000 and $5,000 in excess of those last year.

Auditor Dunn advocates a law to make taxes on pine and iron land a lien on the lumber and ore.

Mrs. Ardelia Yarnell, arrested at St. Paul on suspicion of having killed Arthur C. Middleton, has been discharged, owing to lack of evidence.

The wheat yield in Polk county, as reported by threshers, is immense—from 20 to 25 bushels the acre on an average.

Red Lake Falls schools secured sixty-nine state certificates last school year, as against fifty-five for the Park Rapids which stood second.

Lars Frederickson, a well-to-do farmer living at Cokato, died, aged fifty-three. The cause of death was consumption.

Isaac Ekstrom, laundryman, of Brainerd, was convicted by a jury in the district court of larceny, and was fined by the court $100 and costs.

It is reported that the Genoa Iron company will shortly commence the sinking of another shaft on their property located near Sparta.

Rev. J. C. Hull, who is serving six years at the prison at Stillwater for attempting to poison his wife in St. Paul is insane, and has been taken to the Rochester insane asylum.

Fred Brown's barn and live stock at Sauk Rapids were burned to the ground recently. The live stock was saved. The barn is fully insured. How the fire originated is not known.

The team and wagon that was stolen from Mrs. H. Lee of Kenyon June 21 was found recently at Nininger by Sheriff Lundquist. The thief is unknown and was not found.

The Brainerd council awarded the contract for building a steel bridge across the ravine to East Brainerd to L. H. Johnson of Minneapolis at a contract price of $7,875.

A man named Edward G. Winch of North St. Paul tried to board a moving freight train at Dawson and fell beneath the cars, crushing both legs so badly that amputation was necessary. The man's recovery is doubtful.

What is supposed to be a fatal shooting occurred on the Richard farm, a mile west of Perley recently. A mulatto working as porter for Mr. Richards shot Lewis Thompson, the foreman, through the lungs.

Lammers Bros. of Stillwater have sold 30,000,000 feet of logs for the Cable Lumber company of Davenport. The logs are on Kettle river and about one-third of the lot will be banked the coming season.

Jerome Temple dropped dead at his home at Hastings from apoplexy. He was one of Hastings' highly esteemed and well known citizens, and his sudden death is greatly lamented in the community.

The American and United States express companies' offices at Biwabik was entered and safes blown. The robbers got $18 from the American express, but nothing from the United States. No clue.

Gertie Meyer, who beat her husband, Tom Meyer, to death with a club in Mille Lacs county in August, was received at the prison at Stillwater on a reformatory sentence for manslaughter in the first degree.

Dr. Pinault, the Minneapolis millionaire, who resides on the former Menage estate, is at Red Lake Falls looking after his farming interests. He owns eight or ten farms hereabouts.

Daniel W. Harding, for many years foreman of the bridge yards for the Great Northern at St. Cloud, but who was discharged from the Great Northern at this point last spring, after some sensational proceedings, has commenced a suit for personal injuries in which he claims $20,000 damages.

A flour mill for LeRoy is almost assured. Mr. Johnson of Grand Meadow has begun to build. The foundation is laid and the work will be hastened to completion. The new bank building is almost enclosed. It promises to be one of the finest blocks in the city. The new three-story brick hotel is well under way and soon LeRoy will have a first-class hotel in every respect.

The large ensilage silo at the Bronson farm about two and a half miles south of Mora, and which had just been filled for the winter's use containing 110 acres of corn, with an aggregate weight of 1,000 tons, collapsed, the foundation giving way on one side. The estimated loss is between $5,000 and $6,000. Part of the ensilage may be saved. This farm has thousands of head of stock, but has sufficient feed, notwithstanding this heavy loss.

John Ahlsten of the town of Taylor was arrested by the sheriff and brought to Wheaton, charged with assaulting a man named Swan Nelson. It seems that about a year ago Nelson threatened to kill Ahlsten, and was arrested on Ahlsten's complaint and compelled to give a bond to keep the peace. Since that time the parties have not been friendly, and Nelson has been the source of a great deal of annoyance and trouble to Ahlsten, being a man of very ugly and unreasonable disposition. It is claimed by Ahlsten that on the day of the assault Nelson went to where he was plowing in his field and attacked him with a knife, attempted to stab him and threatened to kill him, and that Ahlsten did only what was necessary to defend himself against Nelson.

C. A. Johnson, living in the town of Bashaw, was killed while hauling a load of lumber home from Mountain Lake. He was driving on a new piece of road and the wagon slid down the embankment, which tipped it over and the load fell on Johnson. He was an unmarried man, and was about thirty-five years old.

The large hay barn of Victor Nyblom, at Rush Point, nine miles west of Rush City, was destroyed by fire, together with about ninety tons of tame hay and a hay press. The loss will amount to about $1,000. The barn was insured for a small amount.

Washington Letter.

From our Regular Correspondent.

This administration has made a specialty of handling seats in the U. S. Senate as though they were petty Federal appointments. The scheme to send Senator McMillan, of Mich., to England as American Ambassador in order that Secretary Alger might step into his seat in the Senate has had to be abandoned, owing to the unpopularity of Alger since the public has known of his culpable mismanagement of the War Department, but it was at once succeeded by a new one, which only needs the consent of Senator Hoar, which has been once refused, to go through. This scheme is to send Hoar to London as Ambassador, put Secretary Long in his seat in the Senate, and make Assistant Secretary Allen, Long's successor in the Cabinet. Pressure is now being used to bring about acquiescence on the part of Senator Hoar, but its success is by no means sure. Hoar doesn't wish to leave the Senate, of which he regards himself as one of the principal owners, and it is doubtful whether he can be forced to do so, as John Sherman was. The scheme does not commend itself to republicans from other states, as Massachusetts already has one Ambassador.

Mr. McKinley may be compelled to abandon that investigation of the war by a commission, owing to his inability to get men of prominence to serve thereon. John Sherman, who was kicked out of the Cabinet because it was alleged that his wits had gone wool-gathering, punctured this commission scheme when he called attention to the fact that it could not compel witnesses to testify. That is a fatal defect. The Commission can only take voluntary testimony, and every schoolboy knows that military officers are not likely to volunteer to give testimony that will reflect upon their superiors. Mr. McKinley may succeed in forming his commission, and it may go through the form of making an investigation, but there will be no real investigation until it is made by a Congressional Committee cloaked with all the authority of a court of law. Then the facts and the rascals will become known.

According to stories which have reached Washington, there is more trouble among the Maine republicans than that caused by the falling off in their vote. There has been opposition to Senator Hale in the party ranks for a long time, and his marked friendliness for Spain, just previous to the war increased it to formidable proportions. Czar Reed has encouraged this opposition as much as he could without openly participating therein, although he has repeatedly said that he would not accept a seat in the Senate himself; but the statement that "Joe" Manley would be a candidate for Hale's seat may result in making Reed help Hale to get reelected, as he would rather see the devil in the Senate than "Joe" Manley.

The use of the power of the War Department to prevent a parade of troops in New York City, which Gen. Miles was for some season anxious to have take place, and which he had positively said would take place, was in itself an insignificant matter, but it shows the bad feeling existing between Miles and the department, and the intention of the department to humble Miles whenever possible to do so.

—Remember the SPECTATOR when you market your grain this fall. Your bill is small; but don't let that keep you away.

MODERN SHRAPNEL.

DEADLY EFFECT OF THIS FEARFUL IMPLEMENT OF WAR.

What Happens When a Single Projectile Suddenly Bursts Into Two Hundred Separate Messengers of Death—Shells and Solid Shot.

The improvements in modern guns have embraced all calibers, from that of the small arm firing a projectile only one-third of an inch in diameter to the monster which sends a solid piece of steel 12 inches through and weighing over half a ton. Not only have the guns improved, but also all their accessories, especially powder and projectiles. The smokeless powder of the present has changed the conditions of war almost as much as modern armament.

Keeping step with these advances have been those made in the various classes of projectiles. Even the smallest of these, with its case hardened bullet, is far ahead of the old fashioned lead bullet used in the small arms of 30 years ago.

One of the most effective of modern projectiles is the shrapnel. It is one of the forms of case shot. The others were the old fashioned grape and canister. A case shot may be said to be a collection of missiles in a case, which breaks up either in the gun or at some point in flight, thus setting free its death dealing particles.

As soon as the case is broken each of these particles goes on a separate path, and it's a sorry day for the man struck by one of them. All of these falling upon a piece of level ground would mark out an irregular oval, whose area varies with differing conditions. It has been found that the best point to burst the shrapnel is about six yards above and 50 in front of the enemy.

Colonel Shrapnel of the British service first invented shrapnel in 1808. This early form consisted simply of a spherical shell filled with bullets and a bursting charge of powder in the spaces between. This was a crude invention, which scattered the fragments too much and was liable to go off when not expected and not do so when desired. This form was improved upon during our civil war, and the modern shrapnel can be considered the most dangerous of all life destroying projectiles. It consists of three parts—the tube, the base and the head. The powder charge is in the base, which is firmly attached to the body either by electric welding or by screwing. Leading from the base through the center of the body is a tube which is also filled with powder, which is ignited by the fuse at the point of the shrapnel and carries the fire to the main charge. Between 200 and 300 bullets rest upon a diaphragm just over the powder charge. These are held in place by a matrix of rosin which is melted and poured upon the bullets when in place. A skeleton case of cast iron containing receptacles for each bullet is sometimes used instead of the rosin.

The head is put on in the same manner as the base, and when the fuse is inserted the projectile is ready for use. Some shrapnels have the bursting charge in the head instead of the base. The fuse used is rather complicated, but the United States has as good a one as there is. It is a time fuse and in actual test has shown its reliability.

It can readily be seen that one great objection to the shrapnel is its high cost. The fuse alone costs about $2.50. The same gun is usually supplied with three styles of ammunition—the solid shot, the shell and the shrapnel. Some batteries are also supplied with canister for use at close quarters. The bullets in the canister have a wider dispersion, because the case breaks up in the gun. Canister was used to repel the famous charge led by the Confederate general Pickett at Gettysburg. A perfect hail of missiles swept the slope leading up to Cemetery Hill, against whose destructive effects human valor was of no avail.

The shell is used to destroy inanimate objects as well as animate ones. It consists of a hollow cast iron shell, with a fuse and bursting charge of powder. The famous shot fired during the cutting of the cables at Cienfuegos is a good example of its use. The Spaniards having taken refuge in and behind a lighthouse, a shell was fired by one of our ships, which, striking it fairly, burst and utterly destroyed the structure, killing many of the soldiers.

But against men in battle formation the shrapnel is the more effective. It sends a perfect shower of missiles which, falling in the midst of a company, would almost annihilate it. Many tests have been made to show this.

Shrapnels fired from a gun a mile away in one instance and a mile and two-thirds in the other were made to strike a board target one inch thick. The fuses were set off by the contact and burst the projectile into 200 or 300 parts, each of which was capable of dealing death to any living thing in its path. Screens were placed at indicated distances behind the target. These may be considered as representing a battalion of infantry in column of companies. From the number of hits upon all of them the efficiency of shrapnel fire against close order formation may be judged.

In one shot 152 hits were made by a single shrapnel. In another 215 hits are recorded, but these are not so well scattered. Imagine, then, the effect of a well placed shrapnel upon a group of men such as is here represented.

The reader can readily understand why wars are now waged at greater distances and why hand to hand conflicts are almost unheard of.—New York Herald.

His Mistake.

"That politician is a 'has been,' isn't he?" remarked the observer.

"No," replied the captious friend, "he isn't even that. He's merely a 'used to think he was.'"—Washington Star.

The Army and Navy.

Have covered themselves with glory during the war. The Army and Navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of navy and army terms, translation of Spanish words, etc. Send ten cents to Chas. S. Fee, general passenger agent, N. P. R., St. Paul, Minn., for a copy.

The New Store!

Now open with a full and complete line of New and up-to-date goods. Styles of the very latest. Shelves crowded with new Fall Fabrics, and all to be sold on the lowest possible cash basis.

STRAWBRIDGE MERCANTILE CO.

Satan as a Landlord.

There is only one spot on the earth's surface that has actually been willed, deeded and bequeathed to his satanic majesty. This spot lies 4½ miles south of Helsingfors, Finland.

A few years ago Lars Huilarieno died in the little town of Pielisjarvi, in the above named country, leaving considerable property in the shape of landed estate. How he had come into possession of so much land no one seemed to know, but as he was a very bad citizen it was generally admitted that he was in league with wintahausu (satan) and that they had many business deals with each other.

This somewhat startling opinion was verified when old Huilarieno found a certified warranty deed which deeded to satan all his earthly possessions.

The will was to the same effect. The family have repeatedly tried to break the will, but so far, has been unsuccessful. Thus the records plainly show that his sulphuric majesty has a legal right and title to some excellent grounds in the near vicinity of Helsingfors.

The simple people of the neighborhood have changed the course of the road which formerly skirted the Huilarieno homestead and declare that they would not enter the possessions of Satan & Co. for all the money that the three estates would bring.—Pearson's Weekly.

"Wych" Hazel, Not "Witch" Hazel.

The correct name for Hamamelis virginica is not witch hazel, but wych hazel. Our plant has no connection with the magic of the water hunter. The blackthorn of England, Prunus spinosa, was the wood used in these divinations, or whatever these superstitious practices may be termed. Hazel had a very wide meaning in the olden times, and the elm, as well as the nut now known as such, was hazel. One of these elms, now known as Ulmus montana, was the favorite wood for making wyches, or provision chests, and was therefore known as the wych hazel. In the present day it is the wych elm. Our hamamelis received from the early settlers the name of wych hazel from the resemblance of the leaves to those of the wych hazel or elm of the old world. Language reformers imagining that wych should be spelled witch are responsible for the confusion. Wych hazel is the correct term for our plant.—Meehan's Monthly.

Health Before Beauty.

Two Irishmen who had not met for years ran across each other in Derby, and after a period of handshaking adjourned for some moist congratulations.

"Long time since we met, Pat, isn't it? Great lot of things have happened since then."

"Yes, indeed. Look at meself. Sure, it's married I am," replied Pat.

"You don't tell me."

"Faith, and Oi've got a fine, healthy bhoy, and the neighbors say he is the very picture of me."

O'Grady looked at Pat, who wasn't built on the lines of a prize beauty.

"Och, well, what's the harrum so long as the child's healthy?"—New York World.

The Birth of the Prince.

Paris was in an uproar. The whole city was as if insane. Church bells rang joyful peals, great guns fired equally joyful salvos, happy announcements were posted up at every point of vantage, and excited crowds besieged every entrance and avenue to the palace in a perfect delirium of joy.

Now, after many years, I find it difficult to understand—or indeed almost to realize—that many of those then shouting so enthusiastically for joy are the same people who lately yelled with savage fury: "A bas l'empire! A bas l'imperatrice!"

Equally mad was the enthusiasm, equally mad the delight, when the prince imperial was baptized, and equally mad were the howls of fury against the whole imperial family when the sad news came of the reverse the imperial army had suffered when battle after battle had been lost.

Some of the noblest, the most generous, the most self devoted men I have ever known in the course of a somewhat long life I have found among Frenchmen—men quite worthy to be classed among the grandest heroes of antiquity. But there is a reverse side to the medal, and when the tigerish nature of the excitable Frenchman is roused he is capable of a savage cruelty very near akin to that of the wild beast to which he has been compared.—Cornhill Magazine.

Now is the time to get the SPECTATOR. Official county and village paper.

As Spain Sees Teddy.

A Madrid paper informs its readers that "the commander in chief of the American army is one Ted Roosevelt, formerly a New York policeman," who was "born near Haarlem," "emigrated to America when young," was educated at "Harvard academy, a commercial school" (there being "no universities or colleges in America"), and that his "bodyguard" is "fittingly termed rough rioters."

In the Bank of England there are many silver ingots which have lain untouched for nearly 200 years.

REV. U. M. CREATH, Pastor.

Beware of Setting Forest and Prairie Fires.

Office of State Forest commissioner,
ST. PAUL, MINN., March 26, 1898.

Under the act of the Legislature of Minnesota for the preservation of forests and for the prevention and suppression of forest and prairie fires, approved April 18, 1895.

The following are liable to a penalty not exceeding $100 or imprisonment not exceeding three months:

Any person refusing, without cause, to assist fire wardens, in extinguishing forest or prairie fires.

Any fire warden who neglects to perform his duties.

Any person who wilfully, negligently or carelessly sets on fire, or causes to be set on fire, any woods, prairies, or other combustible material, thereby causing injury to another.

Any person who shall kindle a fire, on or dangerously near to forest or prairie land and leave it unquenched, or who shall be a party thereto.

Any person who shall use other than incombustible firewads for firearms or carry a naked torch, firebrand or other exposed light in or dangerously near to forest land.

Any person who shall wilfully or heedlessly deface, destroy or remove this or any other warning placard posted under the requirements of the above mentioned act.

Any railroad company wilfully neglecting to provide efficient spark arresters on its engines; or to keep its right of way to the width of 100 feet cleared of combustible material; or which shall fail to comply with other provisions of section 12 of the above mentioned act.

The following are liable to a penalty of not less than $5 nor more than $50:

Any railroad employe who wilfully violates the provisions of section 12 of the above mentioned act.

Any owner of threshing or other portable steam engine who neglects ~~to have~~ efficient spark arresters, or who shall deposit live coals or hot ashes without extinguishing the same.

The following are liable to a penalty not exceeding $500 or imprisonment in the state prison not over ten years, or both:

Any person who maliciously sets or causes to be set on fire any woods, prairie, or other combustible material whereby the property of another is destroyed and life is sacrificed.

R. C. DUNN, (State Auditor);
Forest Commissioner.

O. C. ANDREWS,
Chief Fire Warden.

LOCAL NEWS.

Wheat 56 cents to day.

This is the month for scenery.

Look over the Five cent counter at Hall's.

A very good time to plow your fire-breaks—now.

Chas. Tedford drove to the upper Falls yesterday.

Brink Bros. moved into their new building last Friday.

Protect your homes and hay stacks by plowing fire-breaks.

The frost has got in its work on tender plants and trees.

Try a lunch, a meal or a weeks board at the Ideal Lunch Room.

Look over the advertisement of the New Store on second page.

BORN: To Mr. and Mrs. Anton Aubol, Friday, Sept. 16th 1898, a son.

Its an easy matter to join the army, but apparently a hard matter to get out.

E. M. Hoff, Emil Holmes and Will Peterson are off on the Duluth excursion.

W. H. Bell was looking after his farming interests in North Dakota last week.

Why not float a nice new flag over our school house? They do in most places.

Take a day off—drive out in the country and view the beautiful landscapes.

C. G. Rapp has been under the weather the past week. Dr. Francis was in attendance.

J. G. Brady, of Red Lake Falls, was visiting over Sunday with his cousin Prof. O'Brien.

The first train load of wheat was shipped over the Fosston Duluth line last Thursday.

It don't look as though the war was over yet—five more regiments going to the Philippines.

Chief Engineer Covert of the St. Hilaire mill returned home from Crookston yesterday.

A. F. Bell after spending a week with his family at Thompson N. Dak., returned yesterday.

H. G. Dobner assistant cashier of the Thief River Falls bank was here on business yesterday.

Show windows nicely displayed with goods is very attractive as well as a good advertisement.

The new plate glass front was put into Brink's Bros. building yesterday by A. E. Schmidt of Crookston.

The SPECTATOR has on hand a large stock of cards for campaign purposes. Leave your orders for 500 or 1,000.

O. P. Johnson and wife of Thief River Falls with Mrs P. S. Ware of Brainerd were visitors here Monday.

—Dr. Blomburgh, the Scandinavian doctor has located in St. Hilaire. See his advertisement in another column.

An artist got in his work displaying one of the show windows at the new drug store last week. It is simply fine.

E. M. Hoff and the Hotel Markham have had the stars and stripes floating over their buildings ever since the war began.

N. C. Dahl, of Fairmont, after spending a week visiting with his brother, J. C. and family returned home last Friday.

Will Stranahan, who drums up trade for a Duluth hardware firm six days a week remained over Sunday visiting parents.

H. E. Ives left again Monday on a tour throughout the 61st legislative district. He expects to be gone about ten days.

A great many lost their hay stacks last year by being careless and not plowing fire-breaks. Don't let it occur this year.

J. L. Johnson brought back a "fond recollection" when he built that "worm fence" which is displayed in one of the show windows of his drug store.

A wagon load of river drivers went up river to-day to bring down a drive for the Red Lake Falls Lumber Co.

The Peoples Press of Crookston printed a lot of matter in the last issue that should be run under the head of "hot stuff."

S. M. Dainard wishes to announce to the public that he is now running the Hotel St. Hilaire. Rates one dollar per day to all alike.

The 14th Regiment—for the 'steenth time are expected to arrive in St. Paul to-day from Knoxville, Tenn. No wonder the boys are tired.

Leonard Holmes and P. G. Paradis could not resist the temptation of the cheap excursion rates and are now in Duluth taking in the sights.

Politicians are not doing much these days—simply exchanging cards. We still have a few thousand cards on hand and our business is "printing them."

Fred Carlstrom, in response to a telegram went to Crookston last Saturday to meet a man who will build a large hotel at the new town of Solway.

—Familiarize yourselves to with the winning ticket that you will vote on the 8th day of November. You will find it on the second page of the SPECTATOR.

Arno Mereen, foreman of the St. Hilaire Lumber Company was at Crookston last Saturday on matters pertaining to the milling business. He returned Monday.

Nels K. Anderson, the republican candidate for judge of probate was in the village last Thursday. He is a very pleasant gentleman to speak to and is no rank politician.

Mr. Hallo Steensland, president of the Saving, Loan & Trust Co., of Madison Wis., and also vice consulate of Sweeden and Norway, was in town last Friday on business.

Died at the residence of Ole J. Loe, Mrs. J. L. Hegseth, age about 60 years. Deceased died on Saturday morning Sept. 17th and was burried Sunday at the Lanstad cemetery.

A letter from the Hilligoss-Hershberg party who are now in Alaska and have been since last winter say they have met with no success. They will remain another winter prospecting.

H. S. Muss, of Crookston, who has a reputation as a first-class base ball player in the north-west, and is an A. No. 1 clerk, has accepted a position in the Strawbridge Mercantile Co., new store.

The Greatwestern Clothing House has on hand a large stock of ladies jackets and capes which they close out at 25 per cent off in order to make room for their winter stock of gents clothing.

Our popular conductor "Spot" Murray is likely to get a passenger run on the Fosston line. We would like to see "Spot" promoted as he is too good a man to spend his days on this jerk water branch.

Senator Nelson will talk to the natives of Roseau county tomorrow. He will do up Badger and Roseau the same day. Most all of the voting people of that county are at present out in North Dakota threshing.

A Committee from each of the five secret orders in town met last Monday evening and decided to give a dance in the I. O. O. F. hall Friday evening. No one but members of either one of the five orders will be invited to attend.

Senator Nelson is coming home to stump the state. He will do the most work in the sixth and seventh district. Take a note book along—jot down a few figures—figure them out at your leisure—and you won't have no figures at all.

A little trouble was caused last Friday by a couple of river drivers. One of the fellows thought he was foreman of the drive and used a pike-pole and an axe to emphasise his statement. Chief of Police Hall settled the matter before any accidents occurred.

—The Crookston College building is now complete and is modern and up to date. The Institution is one of the best in the northwest. It is cheap, thorough and practical. By writing Malm & Satbre a catalogue conteining full information will be sent to any address.

C. C. Hoch, A. G. Gates and A. C. Schmidt of Crookston joined M. E. Bjerk and John Larson of this place and drove to the Mud Lake hunting grounds Saturday. They returned Monday with a wagon load of ducks and promise to go again in the near future.

The Second Annual Free Street Fair which will be held in Crookston this year promises to be the biggest amusement and entertainment event of the year in the entire northwest. The attractions are far better than those of last year. The fair will be held the last three days in September.

A correspondent writing to the Oregonian asks Hon. Geo. H. Williams of Portland, if he has the money ready to buy his wheat at $1.00 per bushel which he claimed wheat would be worth if the people of Oregon would support the administration. The correspondent says he made the above statement during the last compaign. The Hon. Gentleman tries to "nigger" out of it now.

There is no doubt but our wheat growers are losing from two to four cents a bushel on plugged grades at Duluth and a combine is making more on every bushel North Dakota ships than the G. N. gives the farmers in lower freights, and when the fellers that are in the scheme to rob our farmers of the grades are named—would you believe Jim Hill was in it? Guess not!—Fargo Forum.

Two grocery peddlers from the cities were here last week shifting among the farmers and reports of doing a land office business. They promise to be back again as soon as the roads are in good shape. We have repeatedly warned farmers about these confidence men and if they get caught by these oily tongued swindlers, why its their own fault. We have no sympathy for the one who is trapped when they tell their tale of woe.

We are indebted to officials of the U. S. Land Office at Crookston for a copy of "Settlement and entry of land in Red Lake Indian Reservation." The lands west of range line between range 29 and 30 west of the fifth principal meridian will be subject to entry at the Crookston land office. This land will be opened to settlement and entry on October 5th 1898, and contains a grand total of 367,694,09 acres.

There has been a little politics after all in the visit of the Twelfth Minnesota to New Ulm, John Lind's home. Fully three-fourths of the men were said to be wearing Lind buttons yesterday. That's all right. It's a very pleasant compliment to Mr. Lind to wear his buttons while visiting his town. But the election comes in November.—Minneapolis Journal.

Yes! and every man in the 12th regiment will vote for John Lind in November.

The editors of the Sun, the labor and reform paper published at Tacoma, Wash., have been sent to jail for 100 days by the supreme court for the terrible crime of criticising that body. The wives of the publishers will continue the paper during the incarceration of these anarchists, and announce that they will "criticise and expose all looting and despoiling of the masses as far as our feeble power will permit us to do, whether the robbers are called supreme judges or ordinary thieves."

When Towne challenged Morris, his opponent for congressional honors, for a joint debate, that gentleman refused to accept the challenge but that handy man, J. Adam Bede volunteered to take his place. Towne very promptly objected that Adam was not running for office and had no responsibility. It must be humilating to the republicans of the sixth district that their candidate for congress is afraid to discuss the issue of the day with his opponent. Next time they better nominate Bede. —Ada Herald.

Mr. Ringdal the Nominee.

The democrats of the Seventh congressional district Sept. 15th nominated P. M. Ringdal for congress, thus selecting as their standard bearer the same man whom the peoples party had already chosen. In doing this the democrats did no violence to their convictions. They selected, first a man whose ability is great, whose experience is varied and whose honesty and desire to server the people have already made him one of the prominent figures of this state; and, in the second place, they selected a man whose principles and outspoken utterances commend him to them as much as to their people's party brethern; nay, more, to every voter who has not the party bandage before his eyes. The democratic party of Minnesota has already endorsed the Chicago platform of 1896; it has protested against that flagrant abuse of the judiciary known as "government by injunction;" it has declared in favor of the "initiative and referendum," one of the truly live issues of the day; it has condemned the course of the party in power in allowing political considerations to dictate high army appointments, the outcome of which is an exposure of inefficiency absolutely shocking—a scandal which is, even now, stirring the country to its depths. On all these points Mr. Ringdal and the people's party are in hearty accord with the democrats. With such a standard bearer, and with so much that points to an alliance, the democrats can well afford to ignore minor points of divergence, if any there be, between their allies and themselves. — Wheelock's Weekly.

A Grave Charge.

Grave charges are made against certain officers in the hospital at Montauk by a gentleman who visited camp on Sunday. In the letter he writes to the New York Journal he says:

"I have seen such sights to-day as I never saw before, and I doubt if any one else ever did; men, sick unto death, stretching out their poor bony arms to attract attention. One poor fellow, a member of the Eighth Ohio, gave me a scrap of paper with the address of a friend in New York upon it, which it had taken him four hours to scribble and said, weakly,

"For God's sake, young man, write to them and tell them to come and get me Tell them not to send me anything. I won't get it the officers take all these things. But tell them to come and take me away from here. I don't mind dying, but it is hard to die like this."

"Beside the poor fellow sat a small tin cup filled with hominy I could see live maggots in it. This was the food given to a sick soldier of the nation. I saw a captain of the regular army, with an orderly beside him—I had no way of learning his name—break open a box which was addressed to one of the Michigan men in the hospital, and, after tasting the rich grapes and wine which topped off the little bundle of delicacies tell the orderly to take the box to the officer's quarters.

"There are fifteen men who will make affidavits to similar offences.

"The men of the signal corps are slowly starving to death. They have no meat; nothing but decayed hominy and colored water meant for coffee. All this three times each day, and they are forced to dig refuse wells and sinks and to clean horses."

The people of Crookston have everything in working order for their Second Annual Free Street Fair which will be held the last three days of September, and with the present outlook for a big yield of wheat and good prices for all farm products they will undoubtedly have big crowds in attendance.

Volunteers Favored.

Soldiers who served in the recent war are to be given preference in entering agricultural lands on the Red Lake reservation. The official circular which has just been printed contains the following provision:

"When the parties who are entitled to credit upon the period of residence for military services preformed in the late war submit proof before the end of the fifth year from the date of entry, they must tender with the proof full amount of purchase money remaining due for the tract embraced in their entries."

Each settler is required to pay for the land settled upon the sum of $1.25 for each acre, such payment to be made in five equal annual installments. The five annual payments required to be made for these lands must be paid at the end of the first, second, third, fourth and fifth years, respectively, from the date of the homestead entre. Lands east of range line between ranges 29 and 39 west of fifth principal meridian will be subject to entry at Duluth land office, and those west at Crookston land office.

The Street Fair at Crookston last year was an immensa success, as every one remembers, but the one they are going to hold this year promises to be much better. The list of attractions is larger than that usually seen at state fairs. The dates are set for the last three days of September.

From Farm, Stock and Home.

The war is over, but paying its cost will not be over for many a weary year.

Now the voice of the fakir will be heard in the land, attemption to gather his harvest.

Every day the farm implement is left idle in the field makes for the profit of the manufacturer.

Better vote the other ticket once in a while than to let blind partisanship become a chronic disease.

F. S. & H. is one of the exceptional papers that keeps right on telling farmers to be their own judge of how prosperous they are!

Those who are quickest to declare that "majorities are never wrong" are often freest to use money to keep them from going wrong.

Now that we have righted the wrong of the Cubans let us inquire if some Americans should not have a similar office preformed for them?

Some pumps are sources of much muscle waste, particularly those that announce their working over half a township for want of a little oil.

The United States ought to be too proud and dignified in its conscious strength to brag about licking such a weak, measly nation as Spain.

The fellows who know not the smell of new mown hay, who never sow a sheaf of wheat, and who don't know a hill of corn from a bull thistle, are now telling farmers how rich they are this fall.

If the blessings of our government could be extended to the island of the sea without carrying with them the political power of trusts, monopolies and watered stocks, we might all turn annexationists.

If a trust or corporation beats or breaks a labor union it is a job to be proud of; but if a labor union beats or breaks a trust or corporation it is a manifestation of anarchy that makes necessary a larger standing army!

We may differ as much as we please about the effect of dehorning upon the disposition of the animal, but all are ready to admit that the absence of the horns inspires confidence, and makes the eye of the creature look more guidless.

Whenever a trust dies the price of the article or articles it controls goes down; yet trust makers always declare that they make prices lower, by lessing the cost of producing and selling it! Why can't the fellows be satisfied with being thieves only?

We Will Also See Hermann the Great.

The name of Hermann is a name to conjure with. It is safe to assert that throughout the civilized world no person was as well known, was as much admired as Hermann the Great. He and Col. W. F. Cody ("Buffalo Bill") stand upon the same footing; both are beloved at home, admired and respected at all the courts of Christendom, and they were the typical representatives of the two great races, the Anglo-Saxon and the Latin. The managers of the Grand Opera House at Crookston, and the managers of the Crookston Street Fair, have united their energies in securing as an attraction for the first two nights of the Fair, the HERMANN THE GREAT COMPANY, headed by Leon Hermann, the nephew and pupil of the late Alexander Herman, and Adelaide Hermann, the widow of the late Hermann, and who assisted him in all his entertainments, and has acquired a reputation second only to that of Hermann himself. They carry a company of sixteen people, and two cars are required to transport their scenery and stage furnishings, which are for the most part the gifts of the rulers of the countries of the far East, the home of magic, to Hermann the Great as a recognition of his position as the world's master of magic. It is safe to say that no one will go to the great Crookston Fair and not improve the opportunity of witnessing this great entertainment. No attractions will be allowed to conflict with this one, and all parades, etc., will end in front of the Opera House, in time for the opening of the BIG SHOW.

—Every farmer who writes a letter occasionally should get envelopes with his name and address printed in the corner. We will furnish 100 of the best quality printed in any style for the small sum of 75 cts. Send in your order.

Good Blood Makes Health

And Hood's Sarsaparilla makes good blood. That is why it cures so many diseases and makes so many people feel better than ever before. If you don't feel well, are half sick, tired, worn out, you may be made well by taking

Hood's Sarsaparilla

America's Greatest Medicine.

Hood's Pills cure all Liver Ills. 25 cents.

The Sayings of Chamfort.

Calumny is like a wasp against whose buzzings it is best to take no action unless you can be sure of killing it, if you come short of that, it is certain to return to the charge more spiteful than ever.

"If you would avoid being a charlatan, eschew platform oratory. When once on a platform, you must either play a part or be pelted.

Conviction is the conscience of the intellect.

Nature has willed that wise men as well as fools should have their illusions, in order that they should not be made too unhappy by their wisdom.

There are well-dressed follies just as there are well-dressed fools.

We give our friends the full-face view of truth; we allow our masters a glance at its profile.—Stahl's Pensees.

Two Interesting Buildings.

Pictures of two interesting Baltimore and Ohio Railroad buildings have been reproduced in a recent issue of Truth. One is the building at Frederick, Md., which has been used since 1831 as a freight station and which is still devoted to that purpose. In the little cupola of the building a bell once hung which was always rung on arrival of trains from Baltimore when horses were the motive power of the railroad.

The other building is the station at Mount Clare, Baltimore, and it is noted as being the location of the first telegraph office in the world. It was from this building that Professor Morse sent his celebrated message in 1844 to his friends in Washington, forty miles away.

Method.

"No," said Senator Sorghum, with emphasis, "I can't talk for publication to-day."

"But, senator, in all the years of our acquaintance this is the first time you ever declined to let me quote you."

"I don't want you not to quote me. I want you to say I declined to be interviewed. This is confidential; I've concluded it's time for me to act as if I'd got to be so important that I dasn't talk for fear of giving something big away."—Washington Star.

One Characteristic.

Professor Longhair — "Astrology teaches that a girl born in January will be prudent, good-tempered and fond of dress. If born in February, affectionate, kind-hearted and fond of dress; in March, somewhat frivolous and fond of dress; in April, inconsistent and fond of—"

Hostess—"In what month are girls born who are not fond of dress?"

Professor—"None, madam."—Boston Traveller.

Free Lands in Montana.

Homesteads and pre-emptions can be taken in the Milk River Valley and other parts of the state within sight and hearing of daily trains on the Great Northern Railway. Renters and others should avail themselves of this chance to get a footing and become independent. For printed matter and other information, address Moses Folsom, Immigration Agent G. N. Ry., St. Paul, Minn.

Character Analyzed.

"No," said Maud, emphatically, "I don't like him."

"But he is very polite and amiable," suggested Mamie; "and quite intellectual. He always has something interesting to read to you."

"I know it. But he's the kind of young man who carries lovesick poetry in one compartment of his pocket book and ideas about ice cream poisoning in another."—Washington Star.

"Blanco says he intends to fire on our flags of truce."

"Well, he means he is going to fire around them."—Detroit Free Press.

The tramp has the only puncture-proof tire.

I believe Piso's Cure is the only medicine that will cure Consumption.—Anna M. Ross, Williamsport, Pa., Nov. 12, '95.

In matrimonial engagements men have to face the powder.

But few people who are born fools ever succeed in living it down.

SYRUP OF FIGS
NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.

SAN FRANCISCO, Cal.

LOUISVILLE, Ky. NEW YORK, N. Y.

GREAT ENGINEERING.

BUILDING A RAILROAD UP A MOUNTAIN.

The Pursuit of Wealth Terminates in One of the Most Marvelous Structures Erected Since the Dawn of History.

The boldest enterprise yet actually undertaken is the railway up the Jungfrau in the Alps. This peak, in the range that lies between the cantons of Valais and Berne, is surrounded by precipitous cliffs and is covered with eternal snow. It is particularly difficult of ascent. But this will not be true for more than four or five years.

Herr Guyer Zeller, who is president of the Northeastern railway system of Switzerland, is behind the project. Jungfrau is 13,670 feet above the sea, and lacks only 2,100 feet of Mont Blanc's elevation. Pike's Peak in the United States is, to be sure, a few hundred feet higher than the Jungfrau, and a railway has been in operation to its top for several years. But the Swiss road will start from a much lower level than the American, or about 7,000 feet above the sea. It will have nearly or quite 7,000 feet more to rise. The steepest grades will be the same as those on the Pike's Peak line—25 per cent.

There is already in operation a road from Interlaken to Grindelwald, and thence along the Wengern Alp to the Hamlet of Murren. The Jungfrau road diverges from the other at Little Scheidigg, and runs for a short distance in the open air. But the only way to avoid the avalanches of that locality is to go underground, and hence the new line on reaching the edge of the Eiger glacier enters a tunnel. Emerging at Monchjoch, at an elevation of 10,500 feet, the road will run along the side of the Monch, ascend 600 feet more and then enter the Jungfrau itself, at a station called Jungfraujoch. The terminus will be situated about 240 feet below the summit, and an elevator will carry passengers the rest of the way. Work was begun on the road more than a year ago, and operations were actively conducted in the tunnel beside the Eiger glacier all through the winter. Of course if the route had been exposed to the rigors of the weather outside it would have been impossible to do any blasting or grading for more than two or three months of the year. Owing to the remarkable hardness of the rock progress has been slow, but it is hoped that the whole line will be completed within three or four years. Even before it is all done it is probable that the owners will operate it for a part of its length. The wonderful glimpses to be had and the delightful air to be breathed long before reaching the summit will be inducement enough to many tourists to take advantage of the opportunity. There will be galleries, reaching out sideways or else upward from the main tunnel into the open air, and balconies here will enable the tourists to get fine outlooks and obtain material refreshment. The possible effect of great change of altitude within a few hours upon the health and comfort of tourists has been carefully considered by the management of this line. Not only has a good deal of information been obtained from persons who have gone up in balloons, but a set of special experiments was conducted with airtight chambers, in which people were confined while the quantity of air inside was slowly but considerably reduced by means of a pump. The results of these investigations satisfy the backers of the railroad that no unpleasant consequences are to be anticipated from breathing the rarefied air of Alpine summits, if those heights are once reached without effort.

Powers for operating the road will be secured from the Lutschine, near Lauterbrunnen, with the aid of turbines and dynamos. Some of the older roads in the Alps are operated by steam, but all the new ones use electricity. Like the road on Mount Washington, this one will have a toothed rail, or rack, between the rails on which the train rides, and stout gearing on the engine will engage the rack, and thus pull the train. A quadruple set of brakes, part of them mechanical and part of them electrical, will be provided.

Familiar Phrases.

In spite of Scott's continued popularity, few people remember that from "Old Mortality," we have "A sea of upturned faces," and Byron is never thanked for "Flesh and blood can't bear it." The "most humorous and least exemplary of British parsons" (Sterne) is known to have thought "They order things better in France," and "God tempers the wind to the shorn lamb," but we seldom credit him with "I saw the iron enter into his soul." Yet that keen image of grief so often on our lips may also be found in the "Sentimental Journey." Cowper is comparatively little read—the immortal "John Gilpin" always excepted—therefore we may be forgiven if the source of "hand and glove" of "Her dear five hundred friends" has slipped our memories. The same may be said of Rogers' "To know her was to love her," Congreve's "Marry at haste and repent at leisure," Farquhar's "Over the hills and far away," and Southey's "March of Intellect." Sir Philip Sidney, who was poet, philosopher, and, best of all, hero, should share a better fate. How many can tell that it was he who first said in English, "God helps those who help themselves."

Power.

God help you women to see your power and to use it for Him, and yours will be the honor not only of making home life sacred, but of making political life pure.—Rev. F. Goodchild.

Caught the Boston Girl.

"I expect to be a student all my life," said the Boston girl. "Let's be classmates," he whispered, and so they matriculated in the school of experience together.—Up to Date.

The Spaniards try to avoid engagements, but the summer girl isn't built that way.

LAUNCHED WITH RED TAPE.

Some Expensive Experiences in the Christening of British Warships.

Ship launches in Great Britain are bound up with red tape. Two or three months beforehand the superintendent has to apply for authority to launch on a day to be named in the application. When a large ship is to be launched he is to be guided by musty instructions, over forty-one years old, as to the erection of booths for visitors the appropriation of tickets and admission of the public. According to the dockyard regulations this expense in the case of any one ship is not to exceed $200.

When her majesty launched the Centaur, which was to be renamed Duke of Connaught, but was finally sent into the water as the Royal Arthur, she also named the Royal Sovereign, which was floated out of dock. The bill of construction for the accommodation of 3,000 persons came to $2,250. Other incidental expenses made the bill $9,500, as against the $200 allowance.

When the Duchess of York launched the Prince George at Portsmouth, in August, 1895, the Admiralty startled the treasury by requesting $3,900 for expenses. Treasury lies got their back up, and said that these functions had reached such a point of extravagance that they could go no further.—Philadelphia Press.

Dickens Pilgrimage.

One of the latest ideas in London is a Dickens pilgrimage. An admirer of the novelist intends personally conducting a party of all who care to join him in a perambulating pilgrimage to the spots in London hallowed by their association with the writer. The programme makes a start from Devonshire terrace (where Dickens lived from 1839 to 1850), and passing Harley street, Wigmore street, Wimpole street, Welbeck street, and Gower street, arrives at Tavistock square. Thence the route continues, to Great Ormond street, Kingsgate street, Lincoln Inn fields, and Furnival inn. Several of the places lived in or referred to by Dickens will be viewed—some for the last time before demolition.

Clean blood means a clean skin. No beauty without it. Cascarets Candy Cathartic cleans your blood and keeps it clean by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly, bilious complexion by taking Cascarets—beauty for 10 cents. All druggists. Satisfaction guaranteed. 10c, 25c, 50c.

Wanted to Be a Heathen.

Little John (after casting his penny into the fund for the Bamaloo islanders)—I wish I was a heathen!

Sabbath-School Teacher—Oh Johnny! Why do you wish such an awful thing as that?

"The heathen don't never have to give nothin'—they are always gettin' somethin'."—Harper's Bazar.

"What do people say of your suicide club?"

"All manner of nonsense. For instance that it can't live a week."—Detroit Journal.

Sure Cure for Colds

When the children get their feet wet and take cold give them a hot foot bath, a bowl of hot drink, a dose of Ayer's Cherry Pectoral, and put them to bed. The chances are they will be all right in the morning. Continue the Cherry Pectoral a few days, until all cough has disappeared.

Old coughs are also cured; we mean the coughs of bronchitis, weak throats and irritable lungs. Even the hard coughs of consumption are always made easy and frequently cured by the continued use of

Ayer's Cherry Pectoral

Every doctor knows that wild cherry bark is the best remedy known to medical science for soothing and healing inflamed throats and lungs.

Put one of

Dr. Ayer's Cherry Pectoral Plasters over your lungs

The Best Medical Advice Free!

We now have some of the most eminent physicians in the United States. Unusual opportunities and long experience eminently fit them for giving you medical advice. Write freely all the particulars in your case.

Address, Dr. J. C. AYER, Lowell, Mass.

CONSTIPATION

"I have gone 14 days at a time without a movement of the bowels, not being able to move them except by using hot water injections. Chronic constipation for seven years placed me in this terrible condition; during that time I did everything I heard of but never found any relief; such was my case until I began using CASCARETS. I now have from one to three passages a day, and if I was rich I would give $100.00 for each movement; it is such a relief."

THE RUSH FOR GOLD.

From the Times, Bluffs, Ill.

The rush of gold seekers to the Klondike brings thrilling memories to the "forty-niners" still alive, of the time when they girdled the continent or faced the terrors of the great American desert on the journey to the land of gold. These pioneers tell some experiences which should be heeded by gold seekers today. Constant exposure and faulty diet killed large numbers, while nearly all the survivors were afflicted with disease, many of them with rheumatism. Such a sufferer was Adam Vangundy, who now resides at Bluffs, Ill., where he has been justice of the peace and was the first president of the board of trustees. In a recent interview he said:

"A Forty-niner."

"I had been a sufferer of rheumatism for a number of years and the pain at times was very intense. I tried all the proprietary medicines I could think or hear of, but received no relief.

"I finally placed my case with several physicians and doctored with them for some time, but they failed to do me any good. Finally, with my hopes of relief nearly exhausted, I read an article regarding Dr. Williams' Pink Pills for Pale People, which induced me to try them. I was anxious to get rid of the terrible disease, and bought two boxes of the pills. I began using them about March, 1897. After I had taken two boxes I was completely cured, and the pain has never returned. I think it is the best medicine I have ever taken, and am willing at any time to sign my name to any testimony setting forth its good merits."

(Signed) ADAM VANGUNDY.

Subscribed and sworn to before me, this 29th day of September, 1897.

FRANKLIN C. FUNK, *Notary Public.*

Mr. Vangundy's statement ought to be regarded as a criterion of the good merits of these pills, and what better proof could a person want than the above facts. These pills stand unrivaled as a tonic for the blood.

Rubber Collars for Policemen.

The police board has given the men on the force the privilege of wearing rubber collars, as well as linen or celluloid collars. They must be of the regulation style. About 125 of the collars have been received at the central police station for men in the district. Nearly all on the force will give the collars a trial, and have ordered one or two at a cost of 25 cents each. An effort was made to have the board adopt the rubber collars as the only kind to be worn by the men on the force. The board refused to do this. The collars are very stiff, and similar to the celluloid collars, and can be cleaned in the same way by the use of a wet sponge or cloth.—Baltimore Sun.

Sweetness.

"Some of the days when summer is merging into autumn are wonderfully fine," remarked the girl who likes the poetry of nature. "Now and then there seems to be a good deal of sweetness in the air."

"Deed dey is, honey," replied the colored woman. "As I wuz comin' past de ma'sh, ev'y now an' then I see places whah de air wus chock full o' reed birds. It do seem a shame wif so much sweetness floatin' around, dat it should be so hahd ter git at."—Washington Star.

PATENTS.

List of Patents Issued Last Week to Northwestern Inventors.

William H. Deanle, Mahdiushrdimt Minn., acetylene gas generating lamp; Ira M. Dotson, Sanborn, Minn., pulley block; John Edgar, Rochester, Minn, fifth wheel; George N. Jeune, Deerwood, Minn, fine trimmer; Henry L. Mann, Minneapolis, Minn., machine for making clothes pins; Lewis E. Paddack, Duluth, Minn, time recorder.

Eva—Poor girl! Did she die?

Maud—No; she ran off with her coachman.—Judge.

Don't Tobacco Spit and Smoke Your Life Away. — To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or $1. Cure guaranteed. Booklet and sample free. Address Sterling Remedy Co., Chicago or New York.

Nine times out of ten the man who is let in on the ground floor lands in the cellar.

We've often wondered what will become of the self-made man in the final round-up.

Hall's Catarrh Cure Is a constitutional cure. Price, 75c.

The widower who mourns the loss of his first wife has the period of his mourning extended by taking a second.

No-To-Bac for Fifty Cents. Guaranteed tobacco habit cure, makes weak men strong, blood pure. 50c, $1. All druggists.

Rich bachelors never realize how well off they were until after marrying.

TRADE IN FARM IMPLEMENTS.

No Other Country Compares with the United States in This Line.

At the close of the civil war a reaper now selling for $75 cost $120; a steel plow, now costing $12, sold for $26; a potato digger, now costing $7, sold for $25; grain scythes, now costing $9 a dozen, cost $26; shovels, now costing $9 a dozen, cost $20; binders, now costing $130, cost $400, and mowing machines, now costing $50, cost $110. As this process of reduction has been going on, the product of American factories in the line of agricultural implements has been generally extended and vastly improved, so that the United States are now not only at the head of all other countries, but so far at the head of other countries that there has practically ceased to be any serious competition except in respect to the supplies sold by certain European countries to their colonies. Through the free markets of the world, without restrictions established by governments, the United States are the great source of supply. The importance of the business carried on both at home and abroad by the United States manufacturers of farming implements is shown by the figures of the last federal census of 1890. There were at that time, approximately, 1,000 manufactories of agricultural implements in the United States, the amount invested in this line of manufacture being nearly $150,000,000, the average number of persons employed in it being 45,000, the materials used averaging in value $30,000,000 and the output $80,000,000. Since the summer of 1892 the American trade in agricultural implements has been subjected to a marked prostration. The export trade of the country in agricultural implements has continued large and has even increased:

1893 (fiscal year)	$4,657,000
1894 (fiscal year)	5,027,000
1895 (fiscal year)	5,410,000
1896 (fiscal year)	5,176,000
1897 (fiscal year)	5,240,000

The Argentine republic has been the chief customer of the United States in this item of manufacture, and the South American countries and West Indies have been customers to a smaller extent. But while the foreign market has continued, the home market for American agricultural products has been curtailed greatly, in consequence of the failure of some crops, the diminished prices for cereals, the accumulation, west and south, of mortgages and the contraction of credit to farmers, who, as a rule, buy their agricultural machinery on credit, payment being predicated on the success of the crops and of paying prices for them. As a result of the agricultural depression in the west in 1893, 1894, 1895 and 1896, it is hardly too much to say that the farming implements used during the past five years in the United States have been literally wearing out. The large concerns have been carrying their customers on credit, and with large debts outstanding the farmers generally speaking, have been awaiting the return of better times and better prices. The favorable conditions of a year ago were not without their effect on this branch of business, and those of this year are being reflected in the enlarged market for farming machinery, reapers, threshers, plows, rakes, binders, scythes and harrows. At the head of the states of the country in the volume of its manufacture of agricultural implements is Illinois, with an invested capital of nearly $60,000,000. Ohio follows, then New York and then Wisconsin. Ohio supplies most of the southern market of demand and New York the middle and eastern states. Of recent years California has developed its manufacture of farming implements largely.

To Remove Warts.

To remove warts touch them two or three times a week with caustic; if carefully applied it will not do any injury. Tincture benzoin mixed with water, in proportion one of tincture to ten water, is the most harmless of all freckle removers. Should you wish something more powerful and rapid, try the following: Bichloride of mercury three grains, muriate of ammonia ten grains, rose water six ounces. Mix. Apply with a sponge when retiring, and let dry on face. Be careful not to let it get in the eyes.

Consecration.

We consecrate a church, and we think that God, in some peculiar and special way is there. We do not consecrate our homes, our offices, in such a way as to think that God just as really is there and that in our business life we are in actual contact with Him.—Rev. M. J. Savage.

Dangerous Experiment.

It is a dangerous experiment for men to reject Christ in this world with the hope of having a second chance after death. The way of salvation has been made plain and simple, and God is calling to men to repent of their sins and accept Jesus Christ as their savior.—Rev. P. C. Cromlek.

POINTS ON FOOD.

Cheese is a good example of concentrated food value, being one-third protein, one-third fat and one-third water.

Wheat flour, cornmeal and oatmeal when compared show that oatmeal has most protein and fat than the others. It is a bone and muscle producing food.

A quart of milk, three-quarters of a pound of moderately fat beef and five ounces of wheat flour all contain about the same amount of nutritive material—protein, fat, carbo-hydrate and mineral matter.

Oysters contain very little nutriment. Oysters in shell are four-fifths waste, the one-fifth remaining being water, with an almost imperceptible amount of protein. Even oysters without the shell show so little food value that one wonders why we eat them at all. They are easily digested, however, and add piquancy to a meal.

Potatoes are way down in the list of good foods, for they are mostly water and there is very little nutriment in them. It takes three and one-half pounds of potatoes to equal one pound of rice so far as food value goes. The turnip alone outranks the potato in the amount of water it contains—it is nine-tenths water. The great trouble with the potato is its excess of starch, necessitating the eating of great quantities to produce nutritive results.

By Innendo.

"Chollie is all right, but I think his cable have been cut."

"Cables cut?"

"Yes. He has no intelligence."—Indianapolis Journal.

The Growth of Socialism.

The growth of socialism is due to the standing armies of the world in which men are often made to enlist, and thus become discontented. The growth of a stronger race is due to Hostetter's Stomach Bitters, which is the best medicine for costiveness, dyspepsia, fever, ague and all nervous troubles. Try one bottle.

A man gets the last word in an argument with a woman, but it isn't because she gives it to him.

Educate Your Bowels With Cascarets. Candy Cathartic cure constipation forever, 10c, 25c. If C. C. C. fail, druggists refund money.

Whenever a man fails in an undertaking he attributes it to a fatalism.

Chats With Mothers

CURES GUARANTEED. Book mailed free upon request. Mothers remedy, easy to take, safe and pleasant. No home secure without it. Croup, Coughs, Colds, Fevers, Quinsy, Catarrh, whether in the throat or stomach, Diptheria and Sore Throats all overcome by using Muco Solvent. Costs only $1; is worth its weight in diamonds. Write us. We need agents. Muco Solvent Co., Chicago, Ill.

To Cure Constipation Forever. Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

Some women attract attention simply because they make no attempt to attract it.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

It's a wise girl that is able to analyze her own complexion.

MRS. PINKHAM'S WARNING TO WOMEN.

Neglect is the Forerunner of Misery and Suffering—A Grateful Husband Writes of His Wife's Recovery.

Nearly all the ill health of women is traceable to some derangement of the feminine organs. These derangements do not cure themselves, and neglect of the sensations resulting from them is only putting off trouble.

Pathetic stories are constantly coming to Mrs. Pinkham of women whose neglect has resulted in serious heart trouble and a whole train of woes. Here is the story of a woman who was helped by Mrs. Pinkham after other treatment failed:

DEAR MRS. PINKHAM—It affords me very great pleasure to be able to state that I believe my wife owes her health to your medicine and good advice. For three years her health failed rapidly; she had heart trouble, often falling down in dizzy and fainting spells, shortness of breath, choking and smothering spells, bloating of the stomach, a dry cough, dyspeptic symptoms, menses irregular, scanty, and of an unnatural color. She had been treated by physicians with but little benefit. She has taken your treatment according to your directions, and is better in every way. I am well pleased with the result of your treatment, and give you permission to use my letter for the benefit of others.—CHAS. H. and MRS. MAY BUTCHER, Fort Meyer, Va.

The healing and strengthening power of Lydia E. Pinkham's Vegetable Compound for all female ills is so well established that it needs no argument. For over twenty years it has been used by women with results that are truly wonderful.

Mrs. Pinkham invites all women who are puzzled about their health to write to her at Lynn, Mass., for advice. All such correspondence is seen by women only, and no charge is made.

A Million Women Have Been Benefited by Mrs. Pinkham's Advice and Medicine

PITH OF THE NEWS

EVENTS OF THE PAST WEEK IN A CONDENSED FORM.

A General Resume of the Most Important News of the Week From All Parts of the Globe, Boiled Down and Arranged in Convenient Form for Rapid Perusal By Busy People.

Washington Talk.

Five regiments at San Francisco are ordered to the Philippines.

Postmaster General Smith will deliver the address at the Omaha exposition on Pennsylvania's day.

George Wyndham, Conservative member of parliament for Dover since 1889, has been appointed secretary to the foreign office in succession to George N. Curzon, the newly-appointed Indian viceroy.

The contract recently made by the postoffice department for stamped envelopes and newspaper wrappers will, as calculated by Third Assistant Postmaster General Merritt, save the consumers of these articles at least $1,000,000 a year.

Criminal Record.

Luccheni, the assassin of the Austrian empress, belonged to a gang of anarchists which went from Europe to the United States two years ago.

Mrs. Nancy Guilford, the midwife who disappeared from Bridgeport, Conn., after the finding of the murdered girl's remains, has now disappeared from Wellsburg, N. Y.

Baron Gustav von Gotthardt of Stuttgart, Lucerne, Switzerland, who married Miss Bertha Wagner at Yankton, S. D., has deserted the fair bride, and his whereabouts cannot be ascertained.

Two prisoners, confined for the night in the town lockup at Stafford Springs, Conn., Eros Branford, aged twenty-seven years, and John Marsh, aged forty, met their death recently in a fire which originated in the cell.

Barrell Oats of Dallas, Texas, and William Hudson of Shreveport, La., quarrelled in a Dallas saloon about a woman. Oats fired four bullets from a pistol into Hudson and left him dead on the floor. Oats has not yet been arrested.

People Talked About.

Congressman Hall's name is being mentioned as a possible successor to Col. Hay as ambassador to England.

Col. Richard Malcolm Johnson, the novelist and lecturer, is reported as dying at the Maryland general hospital in Baltimore.

Alfred S. Pinkerton of Worcester, Mass., was elected grand sire of the sovereign grand lodge I. O. O. F., at the recent session at Boston.

Assistant Secretary of the Interior Webster Davis has started on a campaign tour, under the auspices of the Republican congressional committee.

A solemn requiem mass for the repose of the soul of the dead Empress Elizabeth of Austria was celebrated in St. Patrick's cathedral, New York.

Dr. Abraham M. Owen, a leading physician and surgeon of Indiana, is dead of heart disease. He was a director of the American Medical association.

F. B. Loomis, United States minister to Venezuela, was a passenger on board the steamer Alpalos, which arrived at New York from Venezuelan ports.

It is rumored that Col. W. J. Bryan, of the Third Nebraska volunteers, will shortly resign his commission to resume the discussion of public questions.

Capt. Brown, of the American schooner Maryland, died on his ship in the harbor at Havana of yellow fever. Four of the crew are down with the malady.

The last tribute to the memory of Brig. Gen. J. T. Haskell was paid at Columbus, Ohio, and the body shipped to the national cemetery at Arlington for interment.

Ferdinand W. Peck, the United States commissioner to the Paris exposition for 1900, and his staff, recently visited the tomb of Lafayette as a token of respect.

Rev. Dr. Austin Griffin of Binghampton, N. Y., has been appointed presiding elder of the Wyoming district of the M. E. church to succeed Rev. J. G. Eckman, deceased.

Chief Engineer George R. Johnson, of the navy, died of heart failure at Washington, aged seventy years. He leaves a widow and five children. The remains will be interred at Arlington.

Most Rev. Sebastian Martinelli, apostolic delegate to the Catholic church of the United States, arrived at Columbus, Ohio, to dedicate the Church of St. John the Baptist for the Italians of the city.

While Gen. Miller, in command of the Presidio (Cal.) military post, is strongly in favor of substituting substantial barracks for the tents now in use, he will not act in the matter until the return of Gen. Merriam from Honolulu.

Dr. George W. Lindheim, surgeon of the Red Cross and corporal of the Eighth regiment, New York volunteers, who had charge of the train conveying 265 sick soldiers of that regiment to New York from Chickamauga, died at his residence here from typhoid fever. He was twenty-seven years old.

The death is announced at London of Right Hon. Sir George Grey, aged eighty-six. Sir George Grey, who was formerly a captain in the Eighty-third foot, was lieutenant governor of South Australia in 1841, governor of New Zealand from 1846 to 1854; and again from 1861 to 1867; governor and commander-in-chief of Cape of Good Hope from 1854 to 1861 and premier of New Zealand from 1877 to 1891.

Miss Winnie Davis, the "Daughter of the Confederacy," died at Narragansett Pier, R. I.

Foreign.

Nearly all the Spanish prisoners at Santiago have left for Spain.

The Duc d'Orleans has issued a manifesto denouncing the Dreyfusites.

The pope submits to the powers that international action be taken against anarchists.

Life claims to have information that Emile Zola is about to become a Catholic priest.

Turkey has acceded to England's demands, and the disarmament of the Turkish troops at Crete has been ordered.

The emperor of China has issued edicts in which he announces the adoption of the good features of Western civilization.

The queen regent of Spain has replied to the czar's circular, proposing a reduction of the excessive armament of the powers. Her majesty approves of the scheme.

The drouth is assuming a serious aspect at London. Not only is there a water famine in the city, but one is threatened throughout the country, as well.

The London Times' Candia correspondent says: The Mussulmans are yielding up only obsolete arms and have not yet brought in any Martini rifles.

The Spanish steamer Grand Antilla, which arrived in New York from Havana, was the first Spanish steamer to arrive at that port since the declaration of war with Spain.

The Berlin police authorities have prohibited the holding of five projected Socialistic meetings in Hamburg, called for the purpose of discussing Emperor William's recent speech regarding the imprisoning of the projectors of strikes.

Hundreds of Spanish officers at Havana have asked to be discharged from the army. They refuse to return to Spain, where starvation stares them in the face. Many of them have formed classes and are studying the English language with the hope of getting commissions in the United States army as soon as they are proficient in the language.

General.

Sanitary conditions at Manila are in bad shape.

The rough riders hold a tournament in New York and Brooklyn in lieu of a parade. The proceeds go to sick soldiers.

The revenue cutter Grant, which went up into Alaskan waters in a fruitless search for a Spanish privateer, has arrived at Seattle from Sitka.

The directors of the National Linseed Oil company of Chicago state that a reorganization and the addition of several millions of capital is necessary.

The furniture of the battleships Kearsage and Kentucky, orders for the making of which just have been received at the Portsmouth navy yard, is to cost nearly $100,000.

The United States steamship Mohican, which arrived at San Francisco from Honolulu Wednesday, is to be overhauled at the navy yard, and will then proceed to Samoa.

The United States ship Bennington sailed from San Francisco for Honolulu, and the transport Condor, loaded with supplies for the United States forces, sailed for Manila.

A tract of land near Ponce, Porto Rico, is to be bought and an American cemetery established in which the bodies of soldiers who fell during the campaign can be buried.

Marshall Field declined to sell the Woman's Temple at Chicago to the German banking firm which was negotiating for it. He says it will not be sold to any one except the W. C. T. U.

Word was received at Victoria, B. C., from Ottawa that checks had been issued to the individual beneficiaries under the sealing award. Th total amount is $300,188 damags and $172,968 inerest.

Word was received at Victoria, B. C., from Ottawa that checks had been issued to the individual beneficiaries under the sealing award. The total amount is $300,186 damages and $172,068 interest.

The Chicago & Minonk Coal and Tile works, with offices at 201 Western Union building, Chicago, and controlling mining property at Minonk, Woodford county, Ill., is in the hands of a receiver.

The suit brought at Cleveland, Ohio, by the Royal clan of the order of Scottish Clans of America against Archibald McLaren, the Commercial National bank and the National Bank of Commerce, has been settled out of court.

Gen. Stephen M. Weld of Dedham, Mass., who was offered a position on the war investigating commission by President McKinley, has decided not to accept. He says his business affairs forbid giving time to the work of the commission.

The steamer Coptic sailed from San Francisco for the Orient, carrying 20 soldiers for Manila under Lieut. Galbreath. This detachment will probably be the last sent to the islands unless the troops now there are unable to cope with possible conflicts with the insurgents.

The Twelfth infantry, U. S. A., 670 officers and men, arrived at St. Louis in sections, under the command of Maj. W. H. Humphreys. This regiment, which took a gallant part in the battle of El Caney, came from Montauk Point, and will be stationed at Jefferson barracks, near the city.

The Golden Tunnel group in Miller river district, Wash., is showing up a large amount of the richest free gold that has been uncovered on the western slope of the Cascade range, assays showing over $200 to the ton, and it is estimated that there are several hundred tons in sight ready for shipment.

A rich strike has been made in the old Hecla mine, in Beaverhead county, Mont., which had not been worked for twenty years. The discoverers started an open cut, and twenty feet from the surface they cut into an eight-foot ledge which assays as high as 300 ounces in silver and 40 per cent lead.

A Last Resort.

"What has he done?"

"Started a chain-letter proposal."—Chicago Record.

TO COMMENCE ITS LABORS

COMMISSION TO INVESTIGATE THE CONDUCT OF THE WAR.

Organization Affected by the Election of Gen. Dodge as President—President Well Pleased With the Personnel of the Commission—All Phases of Politics and All Sections of the Country Represented—The President Expresses the Wish That Their Investigations Shall Be Most Thorough and Places No Limit on Their Scope.

Washington, Sept. 26—The commission appointed by President McKinley to investigate the administration of the war department in relation to its conduct of the Hispano-American war begins its labors formally to-day. The commission has effected an organization by electing Gen. Granville M. Dodge president, Mr. Richard M. Wrightman secretary and Maj. Stephen Mills, of the regular army, recorder.

The president is understood to be thoroughly pleased with the personnel of the commission. It has been his effort to secure as members of the commission men of the highest weight and standing, in whose opinions and judgment he could have the highest confidence. For this purpose he has appointed on the board all phases of politics, members from all sections, members of commercial and military circles. It is the hope that the verdict of the commission, whatever it may be, will be accepted by all classes as final. It is the president's desire that the inquiry should be rigid and searching, which was indicated by his statement to the commission when it assembled at the White House for a conference with him Saturday. The president said, among other things:

"Gentlemen: Before suggesting the matters which shall come before you for investigation, I desire to express my appreciation to each of you for your willingness to accept

The Patriotic Service

to which you have been invited. You are to perform one of the highest political duties that can fall to a citizen, and your unselfishness in undertaking that makes me profoundly grateful.

"There has been in many quarters severe criticism of the conduct of the war with Spain. Charges of criminal neglect of the soldiers in camp and in field and in hospital and in transports have been so persistent that, whether true or false, they have made a deep impression upon the country. It is my earnest desire that you shall investigate these charges and the fullest examination of the war department in all its branches, with the view to establishing the truth or falsity of these accusations. I put upon you no limit to the scope of your investigation. Of all departments connected with the army, I invite the closest scrutiny and examination, and shall afford every facility for the most searching inquiry. The records of the war department and the assistance of its officers shall be subject to your call. I cannot impress upon you too strongly my wish that your investigation shall be

So Thoroughly Complete

that your report, when made, will fix the responsibility for any failure or by reason of neglect, incompetency or maladministration upon the officers bureaus responsible therefor—if it be found that the evils complained of have existed.

"The people of the country are entitled to know whether or not the citizens who so promptly responded to the call of duty have been neglected or misused or maltreated by the government to which they so willingly gave their services. If there have been wrongs committed the wrongdoers must not escape conviction and punishment."

The following are the members of the commission: Maj. Gen. Grenville M. Dodge of Iowa; Col. J. A. Sexton of Illinois, Capt. E. P. Howell of Georgia, Maj. Gen. J. M. Wilson, chief of engineers of United States army; Hon. Charles Denby of Indiana, late minister to China; ex-Gov. Urban A. Woodbury of Vermont, Gov. James A. Beaver of Pennsylvania, Maj. Gen. H. McD. McCook, of the army (retired); Dr. Conner of Ohio.

AGUINALDO'S FLEET.

Conveying Troops for a Grand Campaign in the Southern Islands.

Manila, Sept. 26.—In the course of an interview with the Associated Press correspondent, Aguinaldo said that the Filipino fleet comprises eight steamers, which are now engaged in conveying troops for a grand campaign against the Spanish garrisons in the southern islands. These vessels are practically unarmed. The Spanish gunboat El Cano, he said, recently entered Marsburg and caught and sunk the Filipinos troop ship Bursan, which was lying at anchor there. He admitted the recent purchase of the steamer Abbey, formerly of Pussigm, but denied that she had unloaded rifles and ammunition at Batangas, although admitting that she carried two Maxims and a ship load of stores.

The United States steamer Hugh McCulloch captured the Abbey sixty miles south of Manila. It is believed that the Abbey has landed 7,000 rifles.

Fugitive Chinaman.

Shanghai, Sept. 26.—It is reported that Kang Jnewell, the Cantonese reformer, who is accused by the dowager empress of being implicated in designs on the emperor's life, and who recently fled from Peking, arrived at Woo Sung, near here, and took refuge on board a British gunboat.

Ex-Gov. Pattison Named for Congress

Media, Pa., Sept. 26.—Ex-Gov. R. F. Pattison was nominated for congress by the Democratic conferees of the Sixth district.

DISASTROUS TRIP.

Strange Fatalities Attending the Voyage of the Olga.

Philadelphia, Sept. 26.—The German bark Olga arrived at the Delaware breakwater from Samaran, Java, laden with sugar. She brought to a close a voyage of strange fatalities, having only a few of the original officers on board, Capt. Dreider, her commander, and five others having died of that dread disease, scurvy, which so often breaks out on board vessels from the far East. The Olga sailed from Samaran on April 5. When about two months out from port the disease first made its appearance, and one by one the men were overtaken until the ship's company was reduced to four men able to be about. Capt. Dreider was among the first to be stricken. He lasted only a few days, suffering great agony. Then the mate took charge, and he, too, was stricken down, leaving in charge of the vessel men with little knowledge of navigation. When St. Michaels was reached a new captain was taken aboard, and the fateful voyage was continued. The Olga upon her arrival reported that all on board of her were well. She is now awaiting orders, and will probably come to this port to discharge her cargo.

CRETE TO BE PACIFIED.

And That, Too, With But Little Delay.

Rome, Sept. 26.—Within twenty-four hours Great Britain, Russia, France and Italy will append their signatures to an agreement for the pacification of Crete, including a plan for coercion of the sultan into submission. The scheme has for some time been drafted but its enforcement was delayed to invite the participation of Germany, which country declined. At the beginning of the week the four powers will present an ultimatum to the sultan of Turkey, summoning him to accept the project and informing him that unless he does so measures will be taken to enforce his compliance. The powers have irrevocably decided to settle the Cretan question immediately and will not hesitate to send their fleet to the Dardanelles and beyond if necessary.

OFFICER FATALLY SHOT.

Again Is Clarence White of Chicago In Serious Trouble.

Chicago, Sept. 26.—While attempting to arrest Clarence White and Frank Ryan, who were caught robbing a house, Policeman John Tuxford was shot and fatally wounded by Ryan. Both robbers were arrested. Clarence White has had a feud with the police for many years and has been arrested innumerable times, and his trial, with two others, for the murder of Thomas Marshall, a storekeeper, was one of the most sensational criminal trials that ever took place in Chicago. He was acquitted. A detective named Dix is now serving a life sentence in Joliet penitentiary for killing Frank White, a brother of Clarence, while trying to arrest the latter.

LI'S RIVAL IN TROUBLE.

Been Declared An Outlaw and His Arrest Ordered.

London, Sept. 26.—The Times' Peking dispatch says: "Chang Yen Hoon, the Cantonese enemy and rival of Li Hung Chang, who is charged with harboring Kang Yuwle, has been arrested. He is now under trial by the board of punishment. He will be stripped of all his offices and his removal gives increased power to Li Hung Chang. The officials generally welcome the empress' return to power, but the people are different. Kang Yuwle is charged with conspiring against the empress, and he has been declared an outlaw and his arrest ordered.

OPPOSE REVISION.

Sensational Remarks at a Meeting in Paris.

Paris, Sept. 26.—Paul de Roulderode presided at a meeting for the purpose of protesting against a revision of the Dreyfus' proceedings, at which he made a speech violently denouncing M. Brisson and all the prominent supporters of revision, and declared that if a revolution broke out and the guillotine were erected in Paris, the first head to fall ought to be that of M. Clemenceau. If Dreyfus ever returned to Paris, said M. de Roulerode, he ought to be executed. Slight demonstrations were made, but the crowds which gathered were quickly dispersed by the police.

NAVAL DEMONSTRATION

To Be Made at Ta Ku, It Is Believed, Soon.

Wei-hai-wei, Sept. 26.—The British battleship Centurion, flagship of Vice Admiral Sir Edward H. Seymour, the commander of the British fleet in Chinese waters, sailed suddenly under sealed orders, accompanied from Chefu by the battleship Victorious, the first-class cruiser Narcissus, the second-class cruiser Hermione, the torpedo boat destroyers Fame and Hart and the dispatch boat Alacrity. It is supposed that the destination is Ta-Ku, at the entrance of the river leading to Tien-tsin, the port of Peking, for the purpose of making a naval demonstration there.

Congress of Mothers.

Washington, Sept. 26.—A congress of mothers, under the auspices of the national organization, will be held in Omaha, Oct. 8, 9 and 10, by invitation of the Transmississippi exposition. All interested in the movement are invited to attend. There will be a meeting in Omaha of the national board of managers at the close of this congress.

Nelson Delivers an Address.

Stephen, Minn., Sept. 26.—Hon. Knute Nelson addressed a large audience here. His main argument was why Republican legislators and congressmen should be elected at the coming election.

Burned to Death.

Manchester, Conn., Sept. 26.—Fire destroyed the bakery of Frank Goetz. John Leetles and a man known as "Bob," German baker, about thirty years old, were burned to death. Financial loss, $40,000.

BRAVE BOYS WECOMED HOME

FOURTEENTH MINNESOTA FETED, FED AND CHEERED.

Saintly City Does Itself Proud in Its Generous Hospitality to the Returning Boys in Blue—Immense Crowds Greet the Soldiers as They Step From the Cars—The Bronzed Veterans From Camp Stuffed With Dainties Generously Provided by the Ladies of the City—Regiment Goes Into Camp at Kittsondale to Await Its Furlough.

St. Paul, Sept. 25.—The Fourteenth is home. After a service of four calendar months and one week, the boys have returned to the state whence they departed with visions of honor and fame to be won on the field of battle. That they have not seen the realization of their anticipations is no fault of theirs. From the time they entered Camp Thomas until they embarked on the homeward bound train at Knoxville last Wednesday night, there has not been a moment when they were not eager to get to the front if there was any fighting to be done. They were willing to give up their lives if there was need on the field of battle. They were not willing to endure the monotony of garrison life in Cuba or anywhere else. So long as there was remaining aught of the work they enlisted to do, so long they did not complain. The moment the necessity for their services expired, that moment their thoughts reverted to their homes, and a great longing to see the soil of their native state took possession of them.

And, if one may judge by the reception accorded the regiment at St. Paul, there were those in the state who were longing to see the men. Although the first section arrived in the city at 5 o'clock in the morning, there were thousands awaiting the train, and as the men filed from the cars and formed in line along the tracks of the Northwestern, they were

Greeted by Cheer After Cheer

from the crowds. Every one who had the cord of a whistle within reach pulled it vigorously, and the din was kept up until the last section had disembarked. Then, as soon as possible, the regiment was formed in line and marched to the great auditorium, where the ladies of the city, assisted by the St. Paul Commercial club, had prepared a spread that was little short of a feast. On the way to the banquet hall the regiment was escorted by the G. A. R., the Eldredge Zouaves and a detail of mounted police. The streets were packed almost to suffocation and the cheering was continuous all along the line of march.

But it was at the auditorium that the generous hospitality of the Saintly City found its best expression. Early as it was, everything was in readiness at the great hall. From the vaulted ceiling to the floor were decorations of bunting, in which the national colors appropriately predominated. Tables had been set, and these also had been decorated with flags and cut flowers. By the side of every plate was a boutonniere for the soldier who should sit there. The tables were piled high with such a meal as the men have not tasted for many a day, and there were the brightest and most beautiful of the Saintly City young women to see that none wanted for anything.

After a half-hour's damage had been dealt the heavily loaded tables, Gov. Clough was introduced, and in a short speech welcomed the boys back to the state. Mayor Kiefer, in behalf of the city, bade the Fourteenth welcome. At the close of the speechmaking the regiment was marched out to the camping ground at Kittsondale.

CASUALTIES.

The List of the Sufferers at Manila Received by Mail.

Chicago, Sept. 25.—The Chicago Tribune's Manila correspondent sends the following list of killed and wounded in the engagements of July 31, Aug. 2, 3 and 13. Its chief value is in verifying previous reports.

Killed, Aug. 13 in the assault on Manila—

North Dakota volunteers: Joseph Buckley, killed by sentinel.

Second brigade, Gen. Greene commanding, First Colorado: Charles Phoenix; First California, J. W. Dunmore.

Wounded in Thirteenth Minnesota: C. J. Ahlers, S. E. Bornemann, A. W. Bjornstad, C. G. Bunker, Merwin Carlton, Frank Cresswell, A. S. Hanson, W. A. Jones, George Kahle, Charles Little, W. L. Moore, E. G. Riddler, C. P. Rice, G. F. Tenny, H. M. Tetzlaff, G. Thorsell, Milton Trenham, Louis Ulmer, L. H. Walley, Henry Williams.

North Dakota E. F. Berg, Second brigade; First California, A. L. Hammerson; First Colorado, Frank Smith.

Killed July 31 and Aug. 3 in trenches—

First Colorado, Fred Springstead; First Nebraska, William P. Lewis.

Wounded July 31 and Aug. 3—

First Nebraska, C. E. Beltzer, Lawrence Connor, J. F. Duncan, George Engleborn, C. F. Head, Ovlall and Henry Wickham; First Colorado, William W. Sterling; Ed L. Zachary; Utah battery, John Winkler.

Threshing Outfit Burned.

Belle Plaine, Minn., Sept. 25.—John Miller's threshing engine set fire to a setting of grain on the farm of Ernest Bottle, living about ten miles north of Belle Plaine. Quite an amount of grain and his separator were burned, with a loss of $800.

National Banks to Report.

Washington, Sept. 25.—The controller of the currency has issued a call to the national banks for a report on their condition at the close of business Tuesday, Sept. 20.

HEALTH OF THE THIRTEENTH.

Names of Those Who Are on the Sick List.

St. Paul, Sept. 26.—The Pioneer Press' special correspondent at Manila cables as follows

The following is a list of the sick of the Thirteenth Minnesota volunteers. They were down with typhoid or dysentery, but are all convalescent: Lieut. Lamperles, Privates Payton Cahill, William Richardson, John Kianey, Fred Steele, John Wilmot, Geden Gilmore, Albert Darcy, James Chance, Wyman Lawrence, Herman Hetns, John Gunderson, Albert Callstrom, Robert Movill, John Lawson, Charles Lindquist, Carl Overton, John Michaels, Patrick McLeod, William Swanson, Frank Packard, Joseph Kriha, Nicholas Garrett, Gustave Ahlberg, Frank De Kay, Christ Nelson, Frank Morgan, Albert Senschel, George Johnston, John McConnell, Michael Shaughnessy, Harry Miles, Frederick Horenson, Ernest Everett, John Mullen, Alfred Anderson, Alden Bloom, George Graham. —Ritchie, Surgeon.

ALGER WELL PLEASED.

Kind Words for Gen. Lee and His Command.

Jacksonville, Fla., Sept. 23.—Secretary Alger and party, consisting of Gen. Sternberg, surgeon general; Gen. Ludington, quartermaster general, and others, spent the day in Jacksonville, visiting the camp of the Seventh army corps. The distinguished party was met at the station by Gen. Lee and a committee of citizens. Gen. Alger inspected the three division hospitals and regiments of the division were reviewed. Secretary Alger said: "I am highly delighted with all I have seen, and am agreeably surprised at the conditions that I find existing in Camp Cuba Libre." A luncheon was tendered to the secretary and party at noon and in response to a toast he said: "The health of this camp has been better than that of any other in the country. Twenty-five per cent of that has been due to the city of Jacksonville, and 75 per cent has been due to Gen. Lee. Sickness is largely the fault of commanders, division, regimental and company officers."

MARIA TERESA AFLOAT.

Efforts of Lieut. Hobson Meet With Success.

Playa Del Este, Guantanamo Bay, Cuba, Sept. 26.—The wrecking company engaged under Lieut. Hobson in the work of saving the wrecked Spanish warships, has succeeded in floating the cruiser Infanta Maria Teresa. The cruiser, after being got afloat, was taken in tow by the Pyramid and conveyed by the cruiser Newark, the Scorpion and the Alvarado, proceeded for Guantanamo Bay, where she arrived last night. The successful issue of the attempt to float her was greeted with the blowing of whistles, the fire of national salutes and by cheers, in which the Cubans joined.

Off Siboney the barometer and the wind indicated the approach of a hurricane, and the tow power was increased. The Newark, under Capt. Goodrich, rendered valuable assistance in the work of saving the Maria Teresa. The cruiser is being put in condition for her trip North by the repair ship Vulcan.

THEY SEE LONDON.

American Commissioners Spend the Day in Sightseeing.

London, Sept. 26.—The American peace commissioners devoted the day to sightseeing with the energy and enthusiasm of tourists. Most of the ladies and several gentlemen of the party attended religious services in Westminster Abbey and St. Paul's. Several enjoyed steamboat excursions on the Thames or drove to historic places. The Hotel Cecil was crowded with Americans most of the day, many calling on the commissioners or attaches, while many grouped about in the lobbies, discussing the late war, giving the gilded hostelry the appearance of an American political convention. Much amusement was created by the action of the hotel proprietor, who, intending to pay a graceful compliment to his guests, raised the American and Spanish flags side by side. The combination excited curious comments among the thousands of passersby during the day.

PAGE PROMOTED.

Colonel of the Third Infantry Becomes Brigadier General.

Washington, Sept. 26.—The president appointed the following named officers: To be brigadier-generals of volunteers (for services in Santiago)—Lieut. Col. Charles D. Viele, First United States cavalry; Col. William M. Wherry, Sixteenth United States Infantry; Col. John H. Page, Third United States Infantry; Lieut. Col. G. S. Carpenter, Seventh United States Infantry; Lieut. Col. J. H. Patterson, Twenty-second United States Infantry; Lieut. Col. A. S. Daggett, Twenty-fifth United States Infantry; Lieut. Col. C. F. Humphrey, quartermaster's department; Col. J. F. Weston, subsistence department. To be brigadier generals of volunteers (for service in Porto Rico)—Col. Willis G. Hulings, Sixteenth Pennsylvania volunteers.

It is the expectation that most of these officers, who are thus rewarded for their hard service, will soon be mustered out of the volunteer service, though, of course, not necessarily out of their present regular army positions and grades.

Vesuvius' Anger.

Naples, Sept. 26.—The eruption of Vesuvius is increasing in violence, and it is feared that it will assume the proportions of that of 1872.

Wolves at Green Valley.

Park Rapids, Minn., Sept. 26.—Wolves are very numerous and bold at Green Valley, a settlement a few miles southwest of here. A day or two ago they chased Mrs. Willis, a farmer's wife, following her clear to her dooryard.

Gen. Hazen Dead.

New York, Sept. 26.—Gen. McLean Hazen, son of the late Gen. J. B. Hazen, U. S. A., and who was thrown from his horse on Thursday, died at Tompkinsville.

MINNESOTA NEWS

ANOTHER PATRIOTIC SOCIETY.

Daughters of the Revolution the Latest Organization.

A state society of the Daughters of the Revolution was instituted at Minneapolis, with Mrs. W. A. Rumsey state regent. The other officers elected were: Mrs. Millard F. Bowen, vice regent; Mrs. Louise D. Rounds, treasurer; Miss Elizabeth Gilmore, secretary pro tem; Mrs. H. W. Gleason, historian.

Mrs. Rumsey was a member of the Daughters of the Revolution in the East, and when she came to Minneapolis was appointed regent for the state, with power to organize a state society. This was effected in the same way as a local chapter and will consist of individual memberships until the organization becomes large enough to divide in local chapters. Daughters of the Revolution as a society, is based on patriotic ancestry, and descent from some person who rendered services to the government in the War of the Revolution. It differs mainly from the Daughters of the American Revolution, which is nearly allied in purpose and methods, in its conservatism. The society was organized in 1891, by Mrs. Flora Adams Darling and requires lineal descent from a Revolutionary hero. The newly formed local society will have another meeting in November, when the papers of other prospective members will be made out.

ANY REFEREE MAY ACT.

Ruling by Judge Lochren Under Bankruptcy Law.

Judge Lochren of the federal court filed an order yesterday providing for cases of vacancy in the office of referees in bankruptcy or the absence or disqualification of any referee.

He orders: "That whenever the office of referee is vacant or any referee is absent from his district, or sick or otherwise disqualified from acting any referee appointed within the district of Minnesota may act as referee in any cases in the referee district when and while such vacancy exists; and may temporarily act in the place and instead of any such absent, sick or otherwise disqualified referee in respect to any matter arising or proper to be acted upon in any case referred to the referee so absent, sick or disqualified."

RESCUE THE PRISONERS.

Leech Lake Indians Make a Lively Demonstration.

Deputy United States Marshal Robert Morrison had an exciting experience during a recent visit to the Leech Lake Indian agency. Three of the Bear Island Indians were arrested on bench warrants on a charge of contempt of court, and locked up in the local jail. Mr. Morrison and the chief of police from Leech Lake and White Earth started to transfer the prisoners to Walker by steamboat. A band of [illegible] Bear Island Indians congregated around the officers and proceeded to execute a war dance, with an accompaniment of flourished tomahawks and guns, and swooped down on the officers and rescued the prisoners. No one was hurt, but for half an hour the situation looked pretty serious.

NECK BROKEN.

Freeborn County Farmer the Victim of a Runaway.

John M. Flinch, a young farmer of Manchester township near Albert Lea, was thrown from a buggy this morning in a runaway, and had his neck broken, paralysis resulting from the shoulders down. He is at the Wilcox hospital and every effort is being made to save his life. Mr. Flinch was badly burned six weeks ago when his house and all its contents were destroyed.

In the Ore Range.

The Drake & Stratton company have commenced work on their stripping contract at the Biwabik mine, and will have work to last the balance of the season. A steam shovel arrived Monday, and another is expected in a few days. The wages paid by the firm for laborers range from $1.75 to $2.25 per day.

[illegible] Bros. have a crew of men at work on stripping at the Duluth mine.

C. F. Hubbard, traveling freight agent for the St. Paul & Duluth railway, is making a trip over the Mesaba range this week.

The first train of ore from the Elba mine went forward Monday. The ore is shipped by the way of the Duluth & Iron Range road to Two Harbors.

D. H. Bacon, president of the Minnesota Iron company, is inspecting his various properties in this locality this week.

It is reported that Capt. Harry Roberts, a pioneer mining man of this and the lower ranges, has acquired some valuable mining interests in old Mexico and has formed a company and will commence immediately to construct sixty miles of railroad to his mining property.

Prof. Ballin Resigns.

Prof. Hans Ballin, formerly editor of the Mind and Body and for the past year physical instructor for the Philharmonic society in Winona, has resigned and has accepted a position as physical instructor in the public schools at Little Rock, Ark. There has been considerable factional strife in the Philharmonic society concerning the retention of Mr. Ballin. His friends claim that he was elected at the July meeting of the society and the fact was kept out of the minutes. Mr. Ballin thought it better to resign than to contest the matter in the courts.

Constable Felix Gayette of Ghent, a small village near Marshall, shot and killed an unknown tramp. The people of Ghent have been sorely troubled with tramps, and recently Gayette was appointed constable. Sunday he undertook to make an arrest. Fifteen hoboes interfered, and the constable was struck several times. He finally discharged his revolver in the air, and, shooting a second time, killed his man. Gayette surrendered himself to the sheriff at Marshall. Liquor was responsible for the trouble.

CANDIDATE W. H. EUSTIS AND HIS PUBLIC RECORD

His Guaranty Loan Directorship and the City Hospital Steal Under His Minneapolis Administration.

UNQUESTIONABLE PROOFS FROM THE PUBLIC RECORDS

Eustis Was an Active Director in the Menage $9,000,000 Swindles—He Was One of the Special Committee of the Directors Which "Investigated" Menage and Whitewashed Him. What Was Shown in the Streeter Criminal Trial—The Testimony of a Well Known Republican Editor—Eustis' Official Connection With the Celebrated City Hospital Steal—The Record—Eustis' Responsibility Fixed by the Chief Beneficiary of the $100,000 Job, the Personal and Political Friend of Eustis—Read and Be Convinced.

W. H. Eustis has not denied over his own signature that he was a Guaranty Loan Co. Director during the period of its steals, and he dare not so deny it.

W. H. Eustis is before the people of the state as the reform, "machine-smashing" candidate for governor, in view of which it is the right of all the people to know his actual, official connection with that mammoth swindle of the century, the Northwestern Guaranty Loan company, at the head of which was Louis F. Menage, now for five years a fugitive from justice, in the uttermost parts of the earth.

William Henry Eustis was not only connected with that company, but WAS FOR THE WHOLE TERM OF ITS LARGEST OPERATIONS, AN ACTIVE, WORKING DIRECTOR OF THE COMPANY. When the charges against the concern originally brought by John H. Burke could no longer be suppressed, the a "bluff" President Menage, at a meeting of the directors at which Director Eustis was present, resigned the office of president. Thereupon a special investigating committee of the directors was appointed, to investigate the charges against Menage. Director Eustis was one of this committee, and it soon after reported, completely whitewashing Menage, and the latter thereupon returned to his position. IT IS ESTIMATED THAT FULLY $3,000,000 OF THE SWINDLES OF THE COMPANY WERE EFFECTED AFTER THIS WHITEWASHING BY THE DIRECTORS, OUT OF THE GRAND TOTAL OF $9,000,000. Director Eustis thus did a double duty. His name and influence, with that of Lowry, Fletcher and others, had roped in the dupes from the beginning; but after this "investigation" the victims came in at a lively rate, until, at the final collapse, when Menage had fled, they covered all parts of the country, included people from all walks of life, and the pall thrown over the good name of the city of Minneapolis and the state has not to this day been removed—and never will be until all the rascals responsible for the terrible crimes committed in the name of Director Eustis' company are brought to justice.

Will the reader and voter note this: THAT W. H. EUSTIS HAS NOT, AND PROBABLY WILL NOT, OVER HIS OWN NAME, DENY HIS ACTIVE, OFFICIAL DIRECTORSHIP IN THAT COMPANY.

Others deny for him, as occasion requires, but he prudently makes no denial calling for the actual proofs. At a few places where he has been extending the glad hand in the campaign the matter has been mentioned to Mr. Eustis by the friendly reporter and the reporters have variously given responses. In all cases they are denials which do not deny. If one says that Mr. Eustis denies, as one of the Mankato papers, it is always in such a way, and so given, as that if Candidate Eustis wishes he can say that he never so stated to a reporter, or that the reporter had not quoted him correctly.

Candidate Eustis HAS NEVER TAKEN HIS PEN IN HAND AND WRITTEN:

"THE CHARGE THAT I WAS A DIRECTOR IN THE GUARANTY LOAN COMPANY IS FALSE.
(SIGNED) "W. H. EUSTIS"

Should Candidate Eustis ever be driven to the rash step of denying that he was such active director, or should anyone wish to know the proofs the same can be found in numerous places and sources. The Minneapolis Trust company, as receiver of the Northwestern Guaranty Loan company has the records, showing several times when Eustis was elected director and acted as such. Those records also contain the names of the victims of the swindlers. The names of Eustis, Lowry, Fletcher and the rest were widely used in the circulars and pamphlets of the company, and it was these with which the large crop of victims was gathered in. In the State Historical society will be found, or was to be found till recently, at least, files of country papers in which these charges, subsequently made good by investigation, and by the trial of Streeter, Menage's scapegoat, were stated with the proofs, by Mr. Burke. He used those papers because he could not get a hearing in all of the daily press. Copies of the Burke correspondence with Director Eustis, his persistent efforts with the Department of Public Examiner, to get the department to investigate the concern and his charges; his circulars to the directors themselves, informing them of the crookedness that was going on—all this and other information is to be found in the files mentioned. Much of it will also be found in the "Representative," some in the "Minneapolis Tribune," "West St. Paul Times," and other papers. In view of the proposed elevation of Director Eustis to the Governorship, all this matter makes interesting reading. The members of the bar find clear proofs, in the supreme court decision in the 61st Minnesota.

FIND STATE OFFICIAL PROOF THAT EUSTIS WAS SUCH DIRECTOR, in the office of Public Examiner Kenyon, and also find his report on the concern, finally wrung from his office.

SHOWN IN THE STREETER CASE.

Eustis' Directorship Shown in That Criminal Trial.

The criminal trial of W. S. Streeter brought out certain instances of Eustis' connection with the Menage concern. Streeter was on trial in the district court in 1894. In one of the daily papers for June 8 in that trial appears the following condensation of the report of the trial for that day:

"Charles Robinson, a clerk of the Guaranty Loan company in September, 1891, and a director of the company since that time, was called. He examined a page of the book of records and testified that some of the minutes of the directors' meetings meetings were taken by him and dictated to the clerk, Miss Rosenquist, who copied them. He swore that they were the correct record of the proceedings.

"Mr. Robinson then read the minutes of the meeting of the directors held Jan. 28, 1891, which contained the statement that a special committee consisting of W. H. EUSTIS, H. E. FLETCHER, LOREN FLETCHER and O. H. Petit to pass upon all future loans to be made by the company was appointed. The report further states that Mr. Menage called Mr. Streeter to the chair and then stated that as he, Mr. Menage, personally had been attacked, he wished to resign as president of the Guaranty Loan company. He then left the room, after asking that his resignation be acted upon at once. BY UNANIMOUS VOTE THE DIRECTORS REFUSED TO ACCEPT THE RESIGNATION. THE DIRECTORS PRESENT AT THAT MEETING WERE W. H. EUSTIS, O. H. PETIT, W. S. STREETER, H. E. FLETCHER, CHARLES ROBINSON, B. H. BAIRD, G. A. PILLSBURY, L. F. MENAGE AND THOMAS LOWRY."

"The minutes of a special meeting held Jan. 29, 1891, which the witness also read, contained the report of the committee on loans as named above, which stated that reliable and disinterested parties had declared to them that the loans placed upon certain property under investigation were good, and the property good security."

This was the investigation under the charges made by John H. Burke on which the committee "whitewashed" Menage.

REPUBLICAN EDITOR KNOWS.

The Loser of $10,000 Investigated the Matter For Himself.

O. G. Wall, formerly a Republican member of the state legislature, and now editor of a Republican paper, Ortonville Journal, lost $10,000 in the failure of the Guaranty Loan company. Before the late Republican state convention Mr. Wall published these two editorials in his paper, which certainly speak for themselves:

"Mr. Eustis' special champions, with less discretion than zeal, raise the Guaranty Loan issue and prate about Mr. Eustis' name having been used by the swindling company without his permission. THIS IS PURE ROT, AND THE LESS SAID ABOUT IT THE BETTER, SO FAR AS MR. EUSTIS IS CONCERNED. Mr. Eustis was a director of the infamous Guaranty Loan concern, his name was used as a director because he was a director, and the record, unless it has been destroyed recently, as is hinted, will show that he participated in the meetings of the directors of that unholy fraud. THE WRITER KNOWS WHEREOF HE SPEAKS, HAVING LONG SINCE INVESTIGATED THE MATTER BECAUSE HE WAS PERSONALLY INTERESTED IN AN INVESTIGATION OF THE FACTS. The less said about the Northwestern Guaranty Loan swindle the better, SO FAR AS THE REPUBLICAN NOMINEE FOR GOVERNOR IS CONCERNED, and his fool friends should touch the subject lightly.

"The charges are unanswerable. The records are proof. MR. EUSTIS WAS ONE OF THE 'SLICK' GENTLEMEN WHO MADE THE ROBBERY OF THE PEOPLE THROUGH THE INFAMOUS NORTHWESTERN GUARANTY LOAN COMPANY A PROFESSION. IT WAS VERY LARGELY THROUGH HIS ASSOCIATION WITH THE GIGANTIC FRAUD THAT THE WRITER WAS SWINDLED OUT OF THOUSANDS OF DOLLARS—a matter which he always took philosophically and in which the people have no interest. WHEN HE SPEAKS OF EUSTIS AS A MAN UNWORTHY OF THE CONFIDENCE OF MANKIND HE KNOWS WHAT HE IS TALKING ABOUT, and if the Republican party of Minnesota is cursed by intimate association with a robbery that OUGHT TO HAVE SENT EVERY MAN CONNECTED WITH IT TO THE PENITENTIARY, IT OUGHT TO BE DOOMED WITH OVERWHELMING DEFEAT. THE JOURNAL KNOWS ENOUGH OF MR. EUSTIS AND WANTS NO MORE OF HIM."

THE CITY HOSPITAL STEAL.

Accomplished in the Eustis Administration—The Brackett $100,000 Job and Eustis' Official Responsibility Therein—Statement of Geo. A. Brackett Himself.

STATEMENT OF GEO. A. BRACKETT

"It having been stated that Mayor Eustis was not conversant with this transaction, and did not approve it, I must here state (although I am sorry that he is absent, for I would much prefer to make it to him), in justice to myself, the facts in this case. I CONFERRED FULLY WITH THE MAYOR, AS I DID WITH THE BOARD OF CHARITIES, THE CITY ATTORNEY AND THE ALDERMEN, in connection with this deal, AND CERTAINLY HAD THE APPROVAL OF THE MAYOR, ALTHOUGH HE WAS NOT PRESENT TO VOTE; and when the warrant was drawn for the payment of the $25,000 Mr. Nye took that warrant to the Mayor and asked him if it was all right. HE SAID TO NYE THAT IT WAS ALL RIGHT, TO PAY IT; THAT ALTHOUGH HE WAS NOT PRESENT AT THE BOARD, THAT IF HE HAD BEEN HE WOULD HAVE VOTED FOR IT. THIS STATEMENT WAS MADE TO ME BY MR. NYE, AND I CERTAINLY HAD THE APPROVAL OF THE MAYOR IN THIS TRANSACTION AS BEING A STRAIGHTFORWARD BUSINESS TRANSACTION."

When Mr. Eustis was elected mayor of Minneapolis his official connection with the towering swindles of the Guaranty Loan company as director in that institution was not known. He was mayor when the bubble burst and the knowledge of that iniquity began to spread over the community. But local pride, since Director Eustis was now the much vaunted mayor of Minneapolis, operated to keep the matter from public discussion. The city was also in financial panic, and the friends of Eustis, Lowry and Fletcher hushed the matter up with the plea that talk of the Guaranty Loan would still further add to the panic, and all the facts would injure the standing of those connected with the concern, and especially the good name of Minneapolis and Minnesota. But at the same time the Republican ringsters continued the jobs and steals which drained the treasury of Minneapolis, closed the public schools of that city and landed some of the guilty in prisons, though proposing to reward other ringsters by elevating them to still higher positions.

The City Hospital steal was one of these jobs, and in this case the city was mulcted to the amount of $100,000. It was the easier worked because its charitable purpose appealed to the sympathies of the people. In fact such was the sentiment of the people, in the crash of falling structures in which the money and confidence of the people had been swallowed up, that it is doubtful if another scheme than a hospital could have been worked through, even by the able and adroit gentlemen who conducted jobs of that sort in Minneapolis.

In its essence, the hospital job was the working off upon the city, the private residence of one who had been a wheelhorse of Minneapolis, and of the Republican state and city machine, George A. Brackett. When the first suggestion of city hospital was made to the public it responded approvingly, and immediately offers appeared of property and locations, some of them so advantageous and low in cost, that the ringsters were put to their stumps to ward off the tenders which put to shame the Brackett offer. It is needless to stop to detail these, but one case will suffice. Land was offered near the University, on the east side of the river, where a hospital location would have been of immense advantage for clinical purposes, in connection with the medical department. This offer was for an absolutely free site, a nominal rental of $1 a year, and the hospital demanded as condition for the property, involved an expenditure of but a small part of the money swept into the Brackett purchase. The sum of $25,000, even, would have constructed all that was immediately needed. The details of the offers are not material, as there were plenty of others. Besides, there was the old court house property, but a short distance from the Brackett site, just about to be vacated for that other colossal Republican job, the $3,000,000 court house that is only partly finished, the old court house property belonging to the public, and which has now gone into its natural use by the Red Cross society, which would have made a public hospital perfectly adapted, with a slight expenditure.

These staggered the workers of the Brackett scheme, but in due time, and in their own way, they got their machinery into working order, and soon it was known that the Board of Corrections and Charities, of which the mayor in his official position, Mr. Eustis, was the head, was determined to acquire the Brackett property. It was Brackett's old home, where he had lived for many years, and his house was of course no more fit for a public hospital building than for a cathedral. Members of the city council were violently opposed to the purchase, and some of the weaker of the papers ventured to remark against the deal; but in due time after many meetings of the Board, committees, etc., the deal went, and the property was purchased for the sum of $100,000. Of course it was supposed that for that exorbitant sum the city would actually get the property, but lo, and behold it leaked out that THE PROPERTY SOLD WAS COVERED BY A HUGE MORTGAGE. Investigation followed and the real facts, taken from the official records, are thus summarized:

The property was six lots, in block 93 of Minneapolis, on Seventh Avenue south, between Fifth and Sixth streets, the land being 180 by 330 feet, OR ABOUT ONE AND ONE HALF ACRES. The contract for purchase was made about May 26, 1893. It called for a warranty deed to be delivered, and such was made and delivered June 16, by Brackett. It was about this time that it was discovered that the property, instead of being clear, as called for in the warranty deed, WAS INCLUDED IN PROPERTY THAT HAD BEEN MORTGAGED MARCH 7, 1893, TO THE NEW YORK LIFE INSURANCE COMPANY FOR THE SUM OF $130,000. The city had not yet paid any money, fortunately, and in the storm of public criticism that was aroused, it was expected that none would be paid, and the discovery in time, was regarded as most fortunate. However, those who had engineered the deal, including Mr. Brackett, proceeded in the ways and means best known to themselves to get the money paid over. The first down payment ($25,000) was covered by a pretended "additional security deed," Brackett deeding other property to the city and being paid the sum of $25,000 toward his purchase money of $100,000. But it was then found that THIS DEEDED PROPERTY WAS ALSO INCLUDED IN THE SAME MORTGAGE THAT WAS ON THE HOSPITAL PROPERTY. The howl was louder than ever, and committees of citizens waited on the city's officers in protest, and even public meetings were held, voicing the protest to the mayor and board that no more money should be paid. The oracle was worked, however, AND BRACKETT WAS PAID ANOTHER $25,000, he giving another deed as "additional security," but THE PROPERTY DEEDED BEING, AS BEFORE, SOME OF THE SAME MORTGAGED PROPERTY.

The sum of $50,000 had now been paid and no reduction whatever made in the mortgage indebtedness on any of the property involved, and $50,000 was still due Brackett on the purchase contract. It was agreed that this deferred payment of $50,000 should draw interest at the same rate as the insurance company's mortgage was drawing, and, finally, by an arrangement which Mr. Brackett stated was made by himself and Mayor Eustis and City Treasurer A. C. Haugan, the latter commenced the payments of such interest, Haugan having issued therefor certificates of indebtedness for $50,000 on the late Washington bank. Such payments of interest were continued more than a year, or until February, 1895, when they were discontinued by Haugan, and the certificates cancelled. Something like $3,000 was thus paid to Brackett. Meanwhile the New York Life had foreclosed its whole mortgage, the foreclosure proceedings being so divided, as that $75,000 of the total of $130,000 stood against the hospital site lots, the balances being divided as between the other parcels which had been deeded as "additional security." As to as to one of the latter deeds, the first, it was discovered that the lots had not been, as supposed, deeded at all, as the description placed them in block No. "ninety," instead of "ninety-three." This was corrected by a deed of April, 1895.

All efforts by Mr. Brackett and by the city itself, were unavailing to get from under the New York Life claim, to which there was also added further deeds, mortgages, judgments, etc., etc., involving Brackett, increasing the embarrassment and entanglements. The upshot of the whole matter was that the city was out the amount paid Brackett, $50,000, the interest paid on the other $50,000, and had to pay the New York Life's claim of $75,000, to complete the city's title.

The only defense ever attempted for Mayor Eustis was that he DID NOT ACTUALLY VOTE FOR THE STEAL AND WAS NOT PRESENT AT THE MEETING OF THE BOARD OF WHICH HE WAS A MEMBER WHEN IT VOTED THE PURCHASE. On this point let friend Brackett speak. The deal was investigated by a special committee of the city council which brought out the facts as above outlined, and before that committee Mr. Brackett himself appeared and made a full statement which is on file in the clerk's office in Minneapolis. In the course of his statement, as if filled with indignation that W. H. Eustis, his old political and personal friend, should seek to avoid his full responsibility, Mr. Brackett said:

"It having been stated that Mayor Eustis was not conversant with this transaction, and did not approve it, I must here state (although I am sorry that he is absent, for I would much prefer to make it to him), in justice to myself, the facts in this case. I CONFERRED FULLY WITH THE MAYOR, AS I DID WITH THE BOARD OF CHARITIES, THE CITY ATTORNEY AND THE ALDERMEN, in connection with this deal, AND CERTAINLY HAD THE APPROVAL OF THE MAYOR ALTHOUGH HE WAS NOT PRESENT TO VOTE; and when the warrant was drawn for the payment of the $25,000 Mr Nye took that warrant to the Mayor and asked him if it was all right. HE SAID TO NYE THAT IT WAS ALL RIGHT, TO PAY IT. THAT ALTHOUGH HE WAS NOT PRESENT AT THE BOARD, THAT IF HE HAD BEEN HE WOULD HAVE VOTED FOR IT. THIS STATEMENT WAS MADE TO ME BY MR. NYE, AND I CERTAINLY HAD THE APPROVAL OF THE MAYOR IN THIS TRANSACTION AS BEING A STRAIGHTFORWARD BUSINESS TRANSACTION."

Ben Strawbridge was up from Crookston the first of the week.

Try a lunch, a meal or a weeks board at the Ideal Lunch Room.

Miss Minnie Olson is at Crookston visiting with the Misses Sampson's.

Born:—To Mr. and Mrs. J. H. Penno Monday, September 26th 1898, a son.

H. S. Muns, spent Sunday at his home in Crookston returning here Monday.

Editor Mussy of Thief River Falls was in town last Tuesday on political business.

W. A. Case deputy head consul for the Modern Woodmen returned home yesterday.

Quite a few St. Hilaireites will leave to day to take in the street fair at Crookston.

J. G. Ballord, superintendent of the St. Hilaire Lumber Co., went to Crookston Monday.

All that possibly can get away will go to Crookston to day or tomorrow to take in the street fair.

Ed. Myrsen, the St. Hilaire painter and paper hanger, has been quite busy of late plying his trade.

Miss Carrie and Mary Hoff and Clara Halvorson left yesterday for Crookston on a visit with friends.

St. Hilaire is now without a public hall. If any meetings are to be held—it must be in the open air.

Miss Millie Stranehan left Monday for Polk county's capitol on a visit and will also take in the street fair.

If you want your house painted or papered, or a sign printed, see Ed Myrsen, the painter and paper hanger.

The SPECTATOR has on hand a large stock of cards for campaign purposes. Leave your orders for 500 or 1,000.

—Dr. Blomburgh, the Scandinavian doctor has located in St. Hilaire. See his advertisement in another column.

Miss Helen Wallin of Thief River Falls returned home Monday after spending a week visiting relatives in the city.

The village hall with a seating capacity of about twenty-five, is the only place where public meetings can be held.

From the looks of the walks in front of our general merchandise stores Monday, a few car loads of goods were shipped in.

L. D. Marshall, superintendent of the St. Anthony & Dakota Elevator Co. was in town Tuesday looking after the wheat business.

Ben Rosenberg is expected home from the east to-day where he has been the past two weeks buying a stock of winter clothing.

Considerable of our space is occupied this week giving the public record of W. H. Eustis, the republican candidate for governor.

Now is the proper time to see Dan Patterson and let him put in your winters supply of mill wood. Don't put it off until the snow flies.

The contract has been signed and now the residents in the south part of town will soon have a flowing well—which they will appreciate very much.

The Fourteenth Regiment is now at St. Paul and will probably be furloughed some time this week. St. Hilaire lays claim to seven of the boys in blue.

A dray load of nimrods were piloted to the swamps east of here the first of the week by Charlie Fellman. The ducks and crows, in fact averying that could fly have left the country.

J. H. Penno, wore a pleasant smile while he was passing around the cigars Monday over the event of a young barber that arrived at his residence Monday morning.

O. T. Tandberg, the next treasurer of Red Lake county was in town last Monday after lumber. Mr. T. is busy on his farm and has not much time to spend electioneering.

All Maccabees are requested to meet at the SPECTATOR office next Sunday at 3:00 o'clock p. m. Matters of importance to you all will be brought up. Don't forget the hour.

Mrs. Lysaaker, who has resided in St. Hilaire for the past year and a half left Monday for her old home in Norway. Quite a number of friends were at the depot to bid her farewell and a safe journey.

The likeness of W. H. Eustis will be seen on this page. He is the republican candidate for governor of Minnesota. On the second page will be found four columns of history. Read it carefully.

Attorney Lee of the upper Falls was here between trains Monday enroute to Fergus Falls where he has a case before the supreme court. He will also go to Wisconsin where he has a land case that requires his attention.

Mr. Fred Bosworth, who has held a position as clerk in the St. Hilaire Lumber Co., office for the past four months left Saturday for Minneapolis. He has secured a good position with the Brooks Commission house.

Let your motto be: "Lie, Steal, Drink and Swear." When you lie, let it be down to pleasant dreams. When you drink, let it be nothing but pure cold water. When you steal, let it be away from immoral associates. When you swear, swear that you will patronize your home paper, pay your subscription and not send your job work away from home.—Ex.

Last Wednesday evening Justice Gigstad appointed Chief of Police Hall to go to Crookston after Will Maxwall and A. B. Johnson who were wanted here to explain why they left here without paying board bills. The justice gave them thirty days in jail; but suspended sentence on good behavior if defendants pay board bills and costs, which they did willingly and are now out on suspended sentence. This is the first offence with both of the boys.

The supper and dance given by the secret orders of the village Friday evening was a pleasant affair and enjoyed by all who attended. The dampness of the evening kept many at home who would otherwise have attended, making the number much less than the expectations.

Dancing was begun at an early hour and the merry whirl kept up until the announcement of supper when the guests were ushered into the dining hall of Hotel Markham. The tables were tastely arranged and upon them was a spread such as Landlord Markham is famous for preparing. After supper dancing was resumed and kept up until an early hour in the morning.

Came Unexpected.

It is understood that Knut Nelson will speak in St. Hilaire in the near future on the political issues of the day. He will not venture to go up in the vicinity of Ringbo as the farmers have not forgiven him yet for the roast they got some four years ago.

LATER:—Knute Nelson drove in from the west last evening—no one in town knew he was coming although the state central committee had him billed to speak here last night. No bills were posted. The Senator was glad—he said he needed a rest. He retired very early in the evening. No banquet was given. Mr. Nelson received a very cold reception in the hands of his republican friends. We will concede the town is republican by a large majority—but—it was a very, very cold deal.

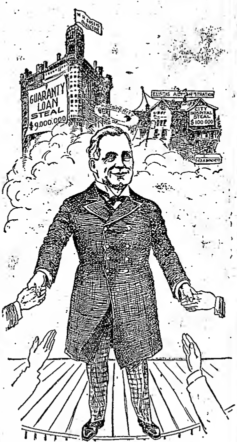
The Most Destructive Shot.

On board Admiral Sehley's ship the peerless Brooklyn, during the Santiago engagement were twenty-three Scandinavian horn jackies, and one of them, Olson by name, was the one who fired the eight-inch gun and raked the Vizcayn from stem to stern. It was the most disastrous shot of the whole war, for the death roll it caused contained eighty names, and every member of the Vizenya's gun crews on the starboard side was either killed or wounded by Olson's well-aimed shot. It was fired at a distance of 900 meters, while Captain Eulata was trying to ram the Brooklyn. Olson is from Christiansand Norway, and has been in the navy twelve years.

J. Q. Adams, the jewler and optician will be here again Oct., 10th, 11th and 12th, at Johnson's Drug Store.

The Republican committee for the Seventh Congressional district has declined the challenge of Mr. Ringdal for a joint debate with Mr. Eddy on the subjects, "Trusts, Transporistion and Money," giving as a reason the desire of the Republican organization in the district to have Mr. Eddy co-operate with them in carrying on the Republican campaign. If, however, there should be any conflict of Mr. Eddy's appointments with Mr. Ringdal's so that they are brought together, their time will be divided. It is to be presumed that the Republican committee will see to it that there is no conflict. The decision is an humiliating confession of weakness and fear that Mr. Eddy is not equal to the occasion, or that the Republican committee desires to avoid discussing national issues. The Republican press has harped on the point that Mr. Ringdal has desired to fight his campaign on state issues and feared to grapple with national questions. Now he proposes the latter and the Republicans decline. They are in the position of a party without an issue. What do they propose to discuss anyhow?—Moorhead News.

EXTENDING THE GLAD HAND!



REFORMER EUSTIS BEFORE THE PEOPLE.

Will our republican brethren please arise and tell why the price of farm products are so low under the prosperous rule of McKinley and the single gold standard. If they are telling us the truth and times are really good why not extend a portion of their goodness to the wheat fields and farmers of the great northwest? The fact is, no matter how much there may be for the rich people or how bountiful our product of wheat, cotton and corn, there is no prosperity that has permanency and this is a condition that must exist as long as the monopoly producing protective tariff laws of the republicans remain in force. "Why of course there are good times," they will say. Just look at our immense surplus of export over import during the past year and the six hundred million dollars we receive more than we pay out, they will say. Yes we have looked at it and have longed for a portion of it to come westward and settle among the wheat and barley shocks and gladden the heart of the farmer and fill their pockets that they may trade, pay accounts and in that manner get the money into general circulation. There is no evidence that this vast income of $600,000,000 above expenses has ever reached much farther than tidewater as the mills are not rushed with orders and the factories have many of them closed This great surplus comes not from the efforts of the money changers in Wall street or any other street nor from any dusty office of a manipulator, but comes every dollar from the manufactures and the farmer and just that class who are not prosperous. There is plenty of money to be had, on the best of security from the money centers and it is not to be wondered at that such is the case as they are the ones who have absorbed the six hundred million of surplus before it could reach those who earned it. They are the Havermyers and the Rockfellors who play on the daily pulse of trade as the expert plays on the flute and they are both richer than any king because the American protective tariff system permits them to form a monopoly on the two great articles, sugar and coal oil and its products, and prevents a foreign competition. Let the farmer be protected if there is to be general protection. Take him, too, under the great wing of mother government and give to him 15 cents a bushel bonus for every bushel of wheat he exports and porportionately for the other great staples, but do not let the wealthy Havermayer have all the advantage of protection where he does not in any way need it but let the man who produces something from nothing have protection if this nefarious, monopoly building policy of tariff must continue.—Pink Paper, Bathgate, N. D.

Managers of threshing rigs who fail to supply their crews with the best of drinking water obtainable, (the best being none too good), ought to be held for criminal negligence. The water that is being used for engines is deadly poison to the human system, which is testified to by the men being brought to the towns every little while sick. Talk about the condition of soldiers at Montauk, but the men around Dakota threshing rigs in some cases, drink water or more deadly poison than the soldiers ever did when they sip from the machine water tanks. These tanks are filled from slough holes which in many instances are small, but owing to rather wet seasons, have not been dry for two years. Imagine the accumulation of filth in a pond of water, too small to purify itself, that has stood for two years. Yet this is the water that some crews drink because there is no other convenient.—Crystal (N. D.) Call.

Washington Letter.

From our Regular Correspondent.

Frantic appeals are being made to Mr. McKinley by the Republican Congressional Campaign Committee and by republican candidates for Congress for assistance in various ways. The most pressure is probably being brought to get the long delayed executive order, throwing down the civil service bars to a large number of Federal positions, issued before the Congressional elections. Mr. McKinley has been told that the issuing of that order within the next two or three weeks will be worth many votes to republican candidates for Congress, because by promising those positions many of those who were at the last election republican workers but who are now sulking could be got to work again. He is also being urged to declare the Government Printing Office to be outside the civil service law and rules. Mr. McKinley has been told that if he doesn't do these things now there will be no occasion, so far as party politics are concerned, for him to do them at all. It is doubtful whether he will do all that he has been asked to do, but he has intimated that he will do something.

There is no news in the published statement that the Commission to decide upon a government for Hawaii, the members of which are now on their way from Hawaii to Washington, had settled upon the territorial form of the government for the islands. It is quite well known in Washington that the matter was settled long before annexation was accomplished. As long as the islands remain under a territorial form of government there is not likely to be much trouble, but there will be trouble and lots of it, when an attempt is made to admit them as a state. It will be a long time, if ever, before the people of this country will be willing to see two Hawaiian Senators and three Hawaiian Presidential electors, who may at any time hold the balance of power in the Senate or in the electoral college.

A War Department official is quoted as having said of Secretary Alger's trip of inspection: "Alger is shrewd. During his swing around the camps he will find any number of men who will be willing to appear before the Investigating committee to testify that camp life had been one long, sweet dream; that they had been fed on the fat of the land; had been provided with all the comforts of home, and that they had never seen any sickness, suffering, starvation, or dying. It is a good thing to pick out your witnesses and have a quiet little talk with them before they go on the stand."

After many trials and many refusals to serve, Mr. McKinley has got together his commission to investigate the War Department, and the work is to begin right away. If Mr. McKinley had any doubts the public statements made to Secretary Alger since he started upon his carefully prepared for inspection of camps and hospitals, by high military officers, have convinced him that the commission will not have much trouble to locate personal responsibility for mismanagement, and worse. But will they be punished, when found guilty?

No complaint of mismanagement, gross blunders and neglect of sick soldiers and sailors has been reported from Manilla. Dewey was out of reach of Secretary Alger and the war department, and not being hampered with red tape and all sorts of orders, he made no blunders and his men have been well cared for.—Pittsburg Gazette.

A Sense of Melody.

The man who does not enjoy music was being forced into a conversation on the subject.

"Of course, horns are necessary for orchestral effect," the technical enthusiast was saying. "But I derive most pleasure from the violins. Don't you?"

"I can't say that I do. You see, the fish vendors never play the violin. They nearly always blow the horn."—Washington Star.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address

CLEVER SCHEME OF A SAN FRANCISCO MAN.

Aimed to Get the Insurance—Story Lacked Coherence and the Detectives Managed to Convince the Would-Be Swindler of His Guilt.

The police detectives have proved that W. S. Wood's thrilling tale of burglary, with its chloroform accompaniment, is a clumsy fabrication. The diamond-studded watch, valued at $175, which was said to be a part of the booty taken by the burglars, has been found by the police and Wood has identified it and has been compelled to put himself on record as a confessed fraud, says the San Francisco Chronicle.

The Wood couple occupy a very modest 4-roomed flat, of which the furniture is appraised by the police at about $200. The husband has had but uncertain employment, and is not a person whom thieves would ordinarily select as a promising prey. That criminals so ingenious and desperate as those must have been to make the clean-up described by Wood, his wife and their boarder, Halverson, should take so much trouble to ransack a humble flat was considered incredible from the start and at variance with the habits of burglars. The circumstances that the bunch of skeleton keys was found dangling from the door of the adjoining flat and a black bag containing plated ware at the foot of the stairs were also regarded with suspicion. Nor were the police ready to believe that chloroform had been used, as the symptoms described were not those usually observed in such cases. In addition to all these reasons for incredulity was the fact that Wood admitted that all the doors of the flat were open.

When it was learned that Wood had taken out on May 4 a policy for $1,000 with a New York company against burglars the story of the alleged robbery was regarded with even greater suspicion and Detectives Fitzgerald and Graham were detailed to make a thorough investigation. They found that Wood had never been regularly employed by a certain firm which he claimed to be working, but had done some work for it on commission, his connection with it having been completely severed some time ago. He said that it was fortunate that his firm required its men to turn in all money in their possession every night, as only a short time before the alleged robbery he had $1,960 in his hands. More important still was the information that on June 14 Wood had borrowed from a member of the firm the sum of $40 on a diamond-studded watch, which was safely reposing in the company's safe. Inquiry of the burglary insurance company revealed the fact that on the day the watch was pawned Wood had paid the premium on his policy, amounting to $12.75.

Wood and his wife were summoned the other night by the captain of police to appear at his office. After verifying the description of the watch alleged to have been stolen they were confronted with the time piece that had been pawned and were forced to admit that it was the same watch. Then the captain indignantly charged them with their duplicity and dismissed them from his office.

It has not been announced by the insurance people what action they will take, but as Wood made application for $737, the value he placed upon the articles said to have been stolen, and as they had detectives working on the case, it is presumed by the police that Wood has not yet heard the last of the experience with fictitious burglars.

She and the Dog.

Into the hands of an elderly matron of much dignity and some distinction came, not long ago, the diary kept by her father, a worthy but imperfectly literate farmer of a remote country village. With a cluster of her own children gathered about her and peeping over her shoulder, she turned the faded leaves of the little volume containing the records of the year in which she was born, and paused finally at the day of her birth. This is what she read: "Nov. If killed the hogg the scales bruk wen whayling so do not nowe exact wayt but ho was n very fine hevy hogg darter Loisa b. 7½ pounds." It was not an entry to enhance the self-esteem of "darter Loisa," perhaps, but it is one now often hilariously quoted by her children and never resented by herself, even though it relegates so unmistakably to second place after the hog in the ancestral annals, such a trifle as the advent of a baby not heavy enough to break any scales, or merit a commendatory adjective.

She Would See Him Soon.

Mr. Greville was persuaded when he was over 60 years of age to attend a spiritualistic seance. Foster, the presiding medium, was in great form, and the revelations were astounding. Greville sat silent and his aged, wizened face was as emotional as a mask. Suddenly the medium grew excited and said to the old gentleman: "A female form is bending over you. Oh, the extraordinary likeness!" Greville sighed. "She lifts her hands to bless you." Greville sighed again. "It is your mother." "Ah, poor thing!" said Greville. "I am glad." "She smiles. She says all is well with her." Greville sighed again and said: "I am delighted." "She says she will see you soon. You are old, and you must meet her before long." Then Greville quietly observed: "That's very true. I'm going to take tea with her this evening."—London Graphic.

Silly.

"He is the silliest boy you ever heard of. He writes me twice a day." "How absolutely foolish, Nell! What does he do the rest of the day?" "He says he spends it in reading the letters I write him."—Harper's Bazar.

Her Idea.

"Well, I'm glad o' one thing. Our Jim seems to have good religious comp'ny." "How is that, mother?" "His last letter says he's comin' home in a converted yacht."—Cleveland Plain Dealer.

HANDSOME PICTURES.

Only a Short Time Remains in Which to Get Them Free.

The demand for the handsome game plaques which have been given away to purchasers of Elastic Starch this season has surpassed all expectations and has kept the manufacturers, J. C. Hubinger Bros. Co., busier than at any time in the history of their business. Their offer to give these handsome plaques away to their customers will remain open only a short time longer, and those who have not already availed themselves of this opportunity should do so at once. Not for years has anything as handsome in this line been seen. The subjects represented by these plaques are American wild ducks, American pheasants, American quail and English snipe. They are handsome paintings and are especially designed for hanging on dining room walls, though their richness and beauty entitles them to a place in the parlor of any home.

Only until October 10 do Messrs. J. C. Hubinger Bros. Co. propose to distribute these plaques free to their customers. Every purchaser of three ten-cent packages of Elastic Starch, flat-iron brand, manufactured by J. C. Hubinger Bros. Co., is entitled to receive one of these handsome plaques free from their grocer. Old and new customers alike are entitled to the benefits of this offer. These plaques will not be sent through the mail, the only way to obtain them being from your grocer. Every grocery store in the country has Elastic Starch for sale. It is the oldest and best laundry starch on the market and is the most perfect cold process starch ever invented. It is the only starch made by men who thoroughly understand the laundry business, and the only starch that will not injure the finest fabric. It has been the standard for a quarter of a century, and as an evidence of how good it is twenty-two million packages were sold last year. Ask your dealer to show you the plaques and tell you about Elastic Starch. Accept no substitute. Bear in mind that this offer holds good a short time only and should be taken advantage of without delay.

A Rank Outsider.

"Why wouldn't they admit Scribely to membership in the New York War Correspondents' club?"

"They said he wasn't eligible. It appears that he simply described what was done by the fighters instead of telling the government how to run things."—Chicago News.

The Secret Out.

"Now, what," asked the interviewer, "led you to come out of Santiago harbor?"

"We were drawn out," said the Spaniard, "by the smell of roast beef on the Brooklyn."—Philadelphia North American.

FELL FROM A SCAFFOLD.

From the Herald, Watertown, N. Y.

John Young, of Le Roy, N. Y., is 72 years old, and is well known in that and neighboring towns. While putting some weather boards on a barn, standing on a scaffold twenty-two feet from the ground, he felt dizzy, lost his balance and fell to the ground. The side of his face, arm and one entire side of his body, on which he struck, was badly bruised. Picked up and carried to the house, he was under a doctor's care for several weeks. The doctor finally came to the conclusion that his patient had received a stroke of paralysis and was beyond medical aid. He could not use one arm, or turn over in bed.

Paralyzed by the Fall.

One day, while lying on the bed, he read of a case something like his having been cured with Dr. Williams' Pink Pills for Pale People. He coaxed his granddaughter to get him a box of the pills. After that box had been used he secured another. In three weeks he began to feel a little life in his arm; at the end of four he could move his fingers; at the end of two months he could walk, and in three months he could shave himself with the injured hand.

As he told his story in the *Herald* office, he looked the perfect picture of health. He carries a box of the pills in his pocket, and whenever he does not feel just right, he takes them. They cured him after doctors had given him up, and his death was daily expected.

All the elements necessary to give new life and richness to the blood and restore shattered nerves are contained in a condensed form in Dr. Williams' Pink Pills for Pale People. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Respectful.

"Fellow!" he cried.

But his tone was not contemptuous. Indeed, it would have been as much as his life was worth to have addressed the Turkish governor in anything but a reverential manner.—Vim.

The Altitudinous Mercury.

"Keep looking upward," said the sage.
The youth with pensive gaze
Replied: "To learn the temperature,
One has to nowadays."
—Washington Star.

PRACTICAL KINDNESS.

One Hundred Thousand Grateful Soldiers.

These war times have tried men's souls in many unexpected ways, but like a shaft of sunshine and good cheer out of the cloud of privation and endurance has been the work that The American Tobacco Co. has done among the U. S. Soldiers and Sailors ever since the war began—for when they discovered that the camps and hospitals were not supplied with tobacco they decided to provide them, free of cost, with enough for every man, and have already given outright to our Soldiers and Sailors over one hundred thousand pounds of "Battle Ax Plug" and "Duke's Mixture" Smoking Tobacco, and have bought and distributed fifty thousand briar wood pipes, at a total cost of between fifty and sixty thousand dollars.

This work has been done quietly and thoroughly, by establishing headquarters in each camp, so that every camp and every hospital of the United States Army has been supplied with enough tobacco for every man and the sailors on thirty United States Ships in Cuban waters have shared with the soldiers this most welcome of all "rations."

Perhaps it will be only fair to remember when we hear the remark again that "corporations have no souls," that there is one American corporation whose soul has been tried and has not been found wanting in "practical kindness."

A Variation.

"You didn't fasten your essay with blue ribbon, as you usually do," said the editor of the magazine.

"No," answered the contributor. "My sense of harmony wouldn't permit it. This is an article on the management of the war. I tied it with red tape."—Washington Star.

PATENTS.

List of Patents Issued Last Week to Northwestern Inventors.

John Bigelow, Minneapolis, Minn., smoking pipe; William S. Boyer, Butte, Mont., door hanger; Willard H. Dunnat, Great Falls, Mont., potato planter; Adiel F. Olson, Knowlton, Mont., combination tool; John Peterson, St. Peter, Minn., manure gatherer and loader; Peter A. Schumacher, Reynolds, N. D., harrow; George R. Wilson, Austin, Minn., toaster.

Merwin, Lothrop & Johnson, Patent Attorneys, 910 Pioneer Press Building, St. Paul.

Managers of bicycle academies say there is quite a falling off in the attendance thereof.

It's a wise man who doesn't let his wife know the full size of his income.

Free Lands in Montana.

Homesteads and pre-emptions can be taken in the Milk River Valley and other parts of the state within sight and hearing of daily trains on the Great Northern Railway. Renters and others should avail themselves of this chance to get a footing and become independent. For printed matter and other information, address Moses Folsom, Immigration Agent G. N. Ry., St. Paul, Minn.

But few wives who drive their husbands to drink have to use whips.

Often an excuse is worse than the offense.

Chats With Mothers.

BOOK FREE FOR ASKING. It is a storehouse of information, telling mother in simple language how to be her own family doctor and how she will succeed in treating every kind of throat trouble like Croup, Measles, Scarlet Fever, Diphtheria, Quinsy, Coughs, Colds and all sore throats. It also tells how to cure Catarrh of the Stomach, usually called Dyspepsia, Indigestion, etc. Write to Mneo-Solvent Co., Chicago, Ill.

Responsibility that carries no weight is not responsible.

Dropsy treated free by Dr. H. H. Green's Sons, of Atlanta, Ga. The greatest dropsy specialists in the world. Read their advertisement in another column of this paper.

Life is after all but a big bundle of little things.

I never used so quick a cure as Piso's Cure for Consumption.—J. B. Palmer, Box 1171, Seattle, Wash., Nov. 25, 1895.

As the limb is bent the limb is inclined to go broke later.

To Cure Constipation Forever.

Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

Is Scab in Sheep a Disease?

I have received several letters recently asking if scab in sheep is properly speaking a disease, writes C. D. Smead in National Stockman and Farmer. Scab is mentioned in veterinary works as a disease, coming under the head of the so-called parasitic diseases, and most writers have thus spoken of it, myself included. But properly speaking it can hardly be called a disease, being simply a condition produced by a parasite or an insect taking up its abode upon another animal and commencing to multiply and devour the larger animal like sheep, producing a general debility that may and will terminate in the death of the animal. Not only the insect producing scab will do this, but the tick and the louse will also produce a condition of the sheep that may result in death. If means are devised to get rid of the scab mite, tick or louse the larger animal soon recovers its normal condition without remedial agents. I therefore conclude that scab in sheep is not, properly speaking, a disease, as it is produced by a living animal that we have to get rid of, and when that little insect is destroyed there is no disease to treat in the sheep. Not so in the case of fevers and debilitating disorders produced by bacterial germs; as they always leave the glandular system actually diseased or the blood in an impoverished or vitiated condition from which the animal as a rule will not recover without remedial agents. I therefore am of the opinion that it is improper to speak of scab as a disease, but call it an infection of scab mites, just as we would speak of an infection of lice or ticks. No one speaks of the potato bug as a disease of potatoes, yet the young of the potato bug (Colorado beetle) will practically eat up the potato and destroy the life of the plant. Kill the bugs and the plant lives. One is an insect in the form of a bug that eats and destroys the life of a plant, the other is simply an invisible (to the naked eye) insect that eats the animal, and in time kills it. The scab that is formed by reason of its presence don't kill the sheep, but it succumbs to the torture and eating of the blood when the insect is present in sufficient numbers.

Pigs and Weeds.

A few days ago, while on institute work in Minnesota, the editor of this department visited a pen containing a sow and five pigs. A glance showed that the animals were not in good condition; that they were, in fact, in a fair way to demonstrate that the owner was a victim of bad luck (?) in his hog department. They were being fed corn and slops from the house, says the "Farm, Stock and Home." Constipation, poor digestion and other disorders were indicated by a certain dull, spiritless appearance, a want of thrift, and other conditions. Growing hard by the pen was a mass of pig weed and rag weed. A liberal bunch of the first was gathered and thrown into the pen. Sow and pigs immediately tumbled over each other to get at it, and ate it ravenously. Some rag weed was then supplied, and that was rushed for with still greater haste and eaten with greater relish. The last is a bitter weed, but it is a tonic and appetizer, something that the pigs demand to correct the vices of a purely artificial diet, such as they were getting. Nature had supplied the demand, but a fence kept the pigs from it, and ignorance of its value had kept it from the pigs. It was learned that no salt was given to these pigs, another bringer of "bad luck," for hogs demand salt as humans do. The owner of these pigs received a valuable object lesson, and may it not be a pointer to others? Confined pigs must have soft, green, succulent food if their owner expects to escape "bad luck."

Sunflowers in Hen Yards.

Sunflowers may become one of the principal plants for growing in the hen yard. There are several characteristics about them that make them particularly adapted to this purpose. In the first place they grow to such a height that they cannot be disturbed after they have attained their first start. This in itself is a great advantage, for we are all impressed with the fact that most of our plants that are desirable for growing in such a place are so low-headed that the hens are able to destroy them in the first stages of their development. But the sunflower develops and develops till its great sunny head blazes far above the fence. A grove may be made of these plants or a shelter belt, with patches of grass between. The hens will find a delightful forest in which to wander during the hot months, and in the cool months of the autumn they will be kept busy picking up the seeds that drop from the now reversed heads. If beauty be desired the stalks should be cut away and burned as soon as the heads have dropped their seeds.

The Ewe Lambs.—The feeding of the ewe lambs that are to furnish the new material for the flock should be liberal in every sense of the word. Feed them liberally on oats, and see that they get the best pasturage that it is possible to secure for them, and it will be found surprising how fasty they will grow during the first nine months of their lives. More can be done by liberally feeding the ewe lambs, to secure weight of both body and fleece in the flock, than by any other course that might be adopted. It is evident to the size and weight of the fleece; and, after the ewe lambs have been liberally fed during the first year, it is hardly possible to check their growth afterwards, as they then possess the power to do for themselves to a greater degree.—Ex.

DEVIOUS DEFINITIONS.

Books—Vehicles used in conveying thought.

Employment—A scythe for cutting down Time.

Habit—A man's best friend; also his worst enemy.

Speech—Something used by man to disguise his thoughts.

Woman—A mystery to every one except dry goods clerks.

Delusion—One of the principal ingredients of happiness.

Gossip—A beast of prey that devours its victims while alive.

Coquette—A woman who flirts, but is clever enough to hide it.

Vice Versa—Sleeping with one's feet toward the head of the bed.

He Was Convinced.

Mrs. Hayricks.—It says here in the paper, Silas, that this war has served to bring the people of the country closer together. Do you think there is any truth in it?

Mr. Hayricks—When I looked into the parlor last night, Lieut. Striplings and our Annie were settin' a good deal closer together than I had ever seen 'em afore he went away.—Chicago News.

Proposed Alliance With England.

If the United States and England should form an alliance there would be but little chance for enemies to overcome us. When men and women keep up their health with Hostetter's Stomach Bitters, there is but little chance of attacks from disease, as it steadies the nerves and increases the appetite. Try it.

Desolation.

Oh, visitant strange with the whispering song,
Who by night shook the casement so lightly and long,
To start a poor man in the midst of his roast,
Were you truly a cold wave, or only its ghost?
—Washington Star.

Don't Tobacco Spit and Smoke Your Life Away.

To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or $1. Cure guaranteed. Booklet and sample free. Address Sterling Remedy Co., Chicago or New York.

One Victory.

"I see that an American army officer has married a Spanish girl."

"Well?"

"That is one crushing victory for the Dons, anyhow."—Philadelphia North American.

A boarding house is the place to get substantial food. It is often so sub-

night of it is their inability to remember anything the next morning.

It's harder to save a penny than it is to earn it.

His Illustration.

"You have often pictured to yourself," said the man who had just returned from his wedding tour, "how many places you have heard of but had never seen, would look, haven't you?"

"Yes."

"And when you finally saw them you always found them to be wholly different from what you had thought they would be?"

"Yes."

"Well, it's the same way with marriage."—Chicago News.

His Motive.

Watts—I don't believe you ever miss an amateur performance.

Potts—Of course I don't. Sitting through amateur performances makes me enjoy professional work so much more.—Indianapolis Journal.

For over fifty years Mrs. Winslow's Soothing Syrup has been used by mothers for their children while teething. Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of Cutting Teeth? If so send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures diarrhœa, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

Unlimited.

St. Louis Citizen—I read in the railway notes this morning that the Chicago Limited—

Chicago Citizen—Say, you must have read that in one of your village papers. You ought to know that Chicago has no limit.—Chicago News.

A woman would rather lay down the law to one man than practice it in court.

Educate Your Bowels With Cascarets.

Candy Cathartic cure constipation forever, 10c, 25c. If C. C. C. fail druggists refund money.

No artist, however talented, has succeeded in painting a fragrant flower.

MANY FEMALE ILLS RESULT FROM NEGLECT.

Mrs. Pinkham Tells How Ordinary Tasks May Produce Displacements That Threaten Women's Health.

Apparently trifling incidents in women's daily life frequently produce displacements of the womb. A slip on the stairs, lifting during menstruation, standing at a counter, running a sewing machine, or attending to the most ordinary tasks, may result in displacement, and a train of serious evils is started.

The first indication of such trouble should be the signal for quick action. Don't let the condition become chronic through neglect or a mistaken idea that you can overcome it by exercise or leaving it alone.

More than a million women have regained health by the use of Lydia E. Pinkham's Vegetable Compound.

If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice, and a few timely words from her will show you the right thing to do. This advice costs you nothing, but it may mean life or happiness or both.

Mrs. Mary Bennett, 314 Annie St., Bay City, Mich., writes to Mrs. Pinkham:

"I can hardly find words with which to thank you for the good your remedies have done me. For nearly four years I suffered with weakness of the generative organs, continual backache, headache, sideache, and all the pains that accompany female weakness. A friend told my husband about your Vegetable Compound and he brought me home two bottles. After taking these I felt much better, but thought that I would write to you in regard to my case, and you do not know how thankful I am to you for your advice and for the benefit I have received from the use of your medicine. I write this letter for the good of my suffering sisters."

The above letter from Mrs. Bennett is the history of many women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

Ask Mrs. Pinkham's Advice—A Woman best Understands a Woman's Ills

Satisfies that dry taste in the mouth.

THE NEWS RESUME

DIGEST OF THE NEWS FROM ALL PARTS OF THE WORLD.

A Comprehensive Review of the Important Happenings of the Past Week Culled From the Telegraph Reports—The Notable Events at Home and Abroad That Have Attracted Attention.

From Washington.

In Washington the opinion prevails that some European power is backing Spain in the Philippine negotiations.

Secretary Alger, on his return to Washington after his tour of inspection of the army camps, expresses himself as well satisfied with conditions as he found them.

The war investigating commission has commenced its labors at Washington. Heads of departments have been called upon to supply specific information on all matters pertaining to the conduct of the war.

The navy department has received two valuable souvenirs of the battle of Manila from Admiral Dewey. One is the "official flag of Manila" and the other is the flag of the Spanish transport Cebu, captured at Manila Aug. 13.

In the course of a report to the state department upon Belgian enterprise in China, United States Consul Morris, at Ghent, attributes to the concession secured by Belgium for a railroad from Peking to Han Kan, the recent complications which have led to England's protest.

Criminal Record.

The body of Oscar Osburne, a farmer, was found in his barn recently. He had been murdered for money. He was eighty years old and wealthy.

One hundred men took John Williams, colored, from the Johnson county (Tenn.) jail and hanged him to a tree. He was charged with assault.

H. H. Frazer and E. L. Tolmer of Seattle, were held up near Haines' Mission, on the Dalton trail, in Alaska, and robbed of $4,800 in gold.

Miners at Pana, Ill., have a pitched battle with non-union men in which a number of shots were exchanged and one man killed.

John Kimes, a farmer aged forty, living ten miles north of Milan, Mo., has been arrested, charged with ruining his fifteen-year-old niece. Kimes has a wife and several children.

Frederick Meidl of Milwaukee committed suicide at St. Louis by taking prussic acid and jumping into the artificial lake at O'Fallon's Park, where his body was found.

While attempting to arrest Clarence White and Frank Ryan, who were caught robbing a house in Chicago, Policeman John Tuxford was shot and fatally wounded.

Mrs. George Ewing shot and almost instantly killed Mrs. Frank Ewing, at Hopkins, Mo. The women were sisters-in-law, having married brothers. Their husbands were both out of town. Jealousy was the cause of the crime.

Chief Wilkie, of the secret service bureau, has received a telegram from Operator Forsythe at El Paso, Texas, announcing the important capture of the alleged counterfeiter, George D. Fontaine.

Sporting Notes.

The Corbett-McCoy fight has been declared off.

"Young Griffo," the pugilist, became suddenly insane in Chicago the other night.

Halil Adali, the Turkish wrestler, and Ernest Roeber are matched to wrestle for a $5,000 stake.

Frank Waller, "the flying Dutchman," has issued a challenge to any bicycle rider in the world, Harry Elkes and Eddie McDuffee preferred, to ride a fifty-mile paced race.

The story has been given out at Cincinnati, with a semblance of authority, that Buck Ewing is to manage the St. Louis Browns next season, and Patsy Tebeau the Cincinnati Reds.

The National Athletic club of San Francisco has made an offer to Corbett and Sharkey of a purse of $15,000 for a twenty-round contest in November, or any month between that and February.

Corbett and McCoy have an impromptu set-to in a New York hotel. McCoy kicked Corbett in the groin and then ran away. The ex-champion was badly hurt, and a doctor had to be summoned.

Tod Sloan, the American jockey, at the second day of the first October meeting at Newmarket, England, won the Newmarket October welter handicap of 500 sovereigns, with the Lorillard-Beresford stable's three-year-old bay colt Elfin.

People Talked About.

Elvin W. Crane is the Democratic nominee for governor of New Jersey.

Roswell K. Colcord of Nevada has been appointed superintendent of the mint at Carson.

Theodore Roosevelt, colonel of the Rough Riders, received the Republican nomination for governor of New York.

Fred G. Huntington assigned at Cincinnati. Liabilities and assets, $100,000 each. He is one of three brothers who built up the Mount Auburn addition. He was also general agent of the New England Mutual accident association.

Lillian Russell, who is continuing her successful career in Germany, denies the report that she is going to Madrid. She says she would not consider such a proposition for a moment, and adds that she is going from Germany to Vienna, and from there to England.

M. O. Cameron, lieutenant governor of the Northwest Territories, died in London, Ont. Mr. Cameron was visiting Mayor Wilson of that city, and suffered a severe attack of acute pneumonia, which resulted fatally.

Foreign.

Mrs. August Belmont died recently at Paris.

The gold season, under British Columbia laws, closed Sept. 15.

Alfred Croiset, the eminent Hellenist, has been chosen dean of the philosophical faculty in the Sorbonne, at Paris.

The dowager empress of China has assumed her position as ruler of the empire.

The dowager empress of China has rescinded the recent reformatory edicts of the emperor.

Milan, the former king of Servia, is again heavily in debt, and is threatened with judicial proceedings by no less than seven money-lenders.

According to the Vienna correspondent of the London Daily Chronicle, Emperor William recently repeated his conviction that Dreyfus was innocent of the charges brought against him.

Aguinaldo and his chiefs has made an appeal to the powers for recognition of belligerency and independence.

The Royal College of Surgeons, London, gets the Mahdi's head.

The premier, Senor Sagasta, declares that the financial difficulties of the government have been removed. The sum of 35,000,000 francs have been forwarded to Capt. Gen. Blanco with a repetition of the order to disband the volunteers.

The proprietor of the large metal works at Berndorf, Austria, has had a special theater constructed for his workmen by the architects Helmer and Felmer. It is to be formally opened in a few weeks in the presence of the emperor, and thereafter a theatrical company from Baden will give a performance twice a week for their benefit.

Accidental Happenings.

Three persons were killed and many injured by a cyclone at Merriton, Ont.

Two people were burned to death by the burning of a bakery at Manchester, Conn.

Five men were drowned by the grounding of a vessel at Sault Ste Marie.

Rev. Gabriel Hostetter is under arrest at Canton, Ohio, charged with counterfeiting.

Gordon Williams was instantly killed in the basement of his father's store at Malone, N. Y., by coming in contact with a live wire.

The Forepaugh circus train is reported wrecked and two men killed at Willsondale, on the Norfolk & Western road, fifty-six miles south of Kenova, W. Va.

News just reached Seattle, Wash., of an explosion of a wagon load of dynamite near New Whatcom. Two men and one boy are reported killed. Several other persons were injured.

A cyclone struck Tonawanda, N. Y., yesterday. Many buildings were unroofed, barns blown to pieces and fences and outhouses were wrecked. Several persons were injured, but none fatally.

A northeasterly gale, accompanied by rain, swept the New England coast recently. Much damage was done to shipping, and reports received during the day state that a number of vessels went ashore. No loss of life, however, has been reported.

Edward T. Highland, assistant superintendent of the Burlington & Missouri River road, living in Denver, cut his wrist at the Fifth Avenue hotel, New York. He was attended by a Bellevue hospital physician and placed in the insane pavilion.

General.

The archbishop of Santiago is likely to lose his job.

Colombia has decided to resume diplomatic relations with Italy.

A project for a national naval reserve has been started in Chicago.

This year's cotton crop amounts in the aggregate to 11,199,994 bales.

The finances of the Omaha exposition show a profit of $50,000 up to date.

Sir John C. Allen, ex-chief justice of New Brunswick, is dead.

The death of Stephen A. Northway, congressman from the Nineteenth Ohio district, reveals the fact that in seven-

American silk is now being sold in Lyons, France, the silk center of Europe.

One hundred and ten passengers have reached Seattle from Dawson, on the Rosalie, with $40,000 worth of dust.

Forest fires are reported in the Far West. In many parts of Wyoming the farmers are fighting the flames.

The steamship Topeka has arrived at Port Townsend, from Lynn Canal ports, with 150 Klondikers.

Bering sea seal herds are vanishing so rapidly as to threaten extinction entirely of the sealing industry.

Col. Bryan has succeeded in securing the discharge of twenty-two enlisted men of his regiment.

Former-President Harrison has consented to open the Republican campaign in Ohio. He will make but one speech, and that at Toledo.

Hobson has finally succeeded in floating the Spanish warship, Maria Teresa. She will be sent north for repairs shortly.

ty-six years this district has had but six representatives, among whom were James A. Garfield and the famous Abolitionist, Joshua R. Giddings.

Li Hung Chang has appointed two Chinese women to be delegates to the international congress of women next year at Chicago.

A congress of mothers will be held at Omaha Oct. 8, 9 and 10, by invitation of the trans-Mississippi exposition. All interested in the movement are invited to attend.

There is a movement on foot among physicians to have a national department of health created, the head of which shall be a member of the cabinet.

Dr. A. C. Carr, the new head of the Illinois state board of health, is also president of the Army and Navy Medical association.

Hugh Carroll, an inmate of the asylum for chronic insane at Hastings, Neb., killed Charles L. Davis, an inmate of the same institution, by hitting him on the head with an iron bar.

FIRE FIEND'S AWFUL WORK

HURRICANE OF FLAMES SWEEPS WESTERN WISCONSIN.

Several Towns Reported Wholly or Partially Burned — Hundreds of Farmers Homeless—Cumberland's Narrow Escape From Destruction—Sudden Cloudburst Checks the Flames — Panic-Stricken People Had Fled the City—Glenwood Has a Close Call—Total Loss is Estimated at From Two to Three Millions.

St. Paul, Oct. 1.—The forest fire, which have been burning in various places throughout Western Wisconsin for the past few days, were fanned into furious storms of flame by Thursday's winds and did great damage throughout Chippewa, Barron, Dunn, St. Croix and Polk counties. The destruction of telegraph wires makes the reports very incomplete, but it is feared that the villages of Clayton, Almena and Paskin have have been wholly or partially destroyed, that Cumberland has suffered heavy loss and that Glenwood, Barron, Prentice, Phillips and Turtle Lake have been theratened and only saved by the heroic efforts of the citizens. Reports of loss of life have been received, but have not been verified.

Associated Press reports and specials received by the Pioneer Press from various points indicate that the fires have been checked in places by providential rains and the subsidence of winds. Estimates place the total losses at from $2,000,000 to $3,000,000.

Cumberland's Awful Scourge.

Cumberland, Wis., Oct. 2—A hurricane of fire swept through Barron county Thursday. For the past week fires have been burning to the south and west of Cumberland and village of Almena, and Thursday afternoon about 1 o'clock a violent wind set in from the southwest. The smouldering fires were fanned into raging flames, bearing directly on Cumberland, and in an hour the city was completely shrouded in smoke. Large burning cinders were driven over the city from the south and gave timely warning to the inhabitants.

Everybody was called out to make a fight against the oncoming flames. In two hours from the commencement of the gale the whole timbered section to the south and west was a mass of flames. Burning embers were falling like rain and igniting the marshes and dry trees in close vicinity to the town. Every one realized the nature of the coming fight, the houses were vacated and the families gathered around them ready to extinguish the falling cinders. With the roar of the coming flames in their ears and the smoke making the day darker and darker, it is no wonder that a panic seized the women and children. They rushed about wringing their hands, running into one another, utterly bewildered.

At 4:30 o'clock it looked as though the whole city would be wiped out. At the depot the railroad officials had provided two special freight trains, and a 5 o'clock, when the fires were

Igniting Residence After Residence,

the women, children and old men, with a common impulse, groped their way to the station and boarded the cars. At 5:30 the hurricane of flame burst upon the city. No fire protection in the way of engines, pressure or hose, could have made the results any different. The train pulled out with its sorrowful passengers and carried them to Shell Lake. Those left behind now realized that all hope of escape by train was shut off, and the panic become intensified. Some took a few valuables from their homes and sought the lake shore west of the city. Here it was that those remaining saw safety.

About 5:30 o'clock the lumber yards of the Beaver Dam Lumber company caught and in less time than it takes to write it fifty acres of lumber piles, together with the saw mill, shingle mill and planing mill were all ablaze. Most of the people were now on the lake shore, waiting for the end. On the east side of the city, east of the railroad track, dwelling after dwelling was being ignited. A few desperate residence owners remained at their posts and fought until the intense heat drove them back. All hope was given up. The whole city

Was Apparently Doomed.

Never before was a shower of rain more providential. The fire had seemingly been followed by an electric cloudburst. The rain fell in torrents, flooded the streets, put out the flying cinders, and, best of all, gave a little hope to the panic-stricken people. The rain alone made it possible to save the west side. Nothing could save the lumber yards, mills or houses already burning; the rain never touched those fires, the heat was too intense.

At 10 o'clock the people again took courage and moved back to the city. They fought hard and saved the West part of the town. Up to a late hour no fatalities were reported, although one farmer named Peter Ecklund, living south of the city, was caught in the fire and was so badly burned that his recovery is doubtful.

The total loss in the city will aggregate about $200,000. From the farming section southeast of the city comes the report that forty-five farmers were rendered homeless, losing everything they possessed and many of them narrowly escaping with their lives.

Fires Are Quenched.

Milwaukee, Oct. 2.—Reports received at the railroad offices in this city are that the forest fires in the northern part of the state were quenched by a heavy fall of rain.

Only one death, as far as known, has resulted, that of Mrs. Jocob Correson at Drywood. The pecuniary loss is not expected to reach over $1,000,000.

Glenwood's Danger.

Glenwood, Wis., Oct. 2.—After an unprecedented spell of dry weather, in which grass, weeds and underbrush in the country surrounding this city became as dry as tinder, fires appeared in the surrounding country Thursday forenoon, while simultaneously the wind rose and grew to the proportions of a hurricane until at 1 p. m. great columns of smoke, dust and stifling hot winds began to roll over the hills into the residence portion of the town. The fire company was brought out to fight the approaching fires, and by 6 p. m. had the flames under control. A gentle rain commenced at this time, putting the city out of further danger.

In the surrounding country considerable damage was done to logs, timber and farm property. No lives were lost in this vicinity. This city was undoubtedly saved by its excellent water system and fire company. There is no further danger.

All Danger Past.

Fifield, Wis., Oct. 2.—Forest fires have been raging in the vicinity of this place, sweeping everything in their way, for the past few days. The road from Pike Lake resort to Fifield is impassable on account of fallen timber, and the guests are obliged to remain there until the road is cleared away. Rain checked the fires, so there is no danger now.

SEA OF FLAMES.

Fires in Colorado Nearly Three Hundred Miles in Circumference.

Denver, Oct. 2.—The weather men can offer no hope for those on the western slope, whose homes and crops are threatened by the forest fires. There are no indications whatever of rain, and this seems to be the only element able to stay the flames' fury. Throughout Eagle county high winds have prevailed, giving a fresh impetus to the forest fires that are devastating the timber domain, and in consequence, new territory is being devoured. Battlement government reservation, bounded by Grand river on the north, Roaring Fork on the east and the Gunnison on the west, is a mass of flames. This reserve runs through the counties of Garfield, Delta and Mesa. The big White river government reservation in Garfield county, and extending through Routt and Rio Blanco, is also on fire. Reliable reports show that the fires are now nearly 300 miles in circumference, with Glenwood for a center, and practically every mountain range with timber is on fire.

LEE WILL GO TO CUBA.

No Doubt in Official Circles That He Is on the Schedule.

Washington, Oct. 2.—Maj. Gen. Fitzhugh Lee was at the war department. If there is not pressure for his immediate return to Jacksonville, he intends, after going to New York for a short visit, to spend a few days in the Virginia mountains upon the recommendation of his physician. Maj. Gen. Lee has been suffering somewhat from malaria. There seems to be no doubt in official circles that Gen. Lee is scheduled to go to Cuba. Some question has arisen, however, as to the position in Cuba that he will occupy. Quite a number of public men, and it is probable that Gen. Lee himself, would prefer that his command go to Havana. There is some sentiment in the matter, and some persons have expressed the hope that as Blanco marches out Gen. Lee might march into the city. A number of men in official life have already interested themselves in this subject, and will urge the president to issue his orders for the occupation of Cuba with this end in view.

GRAY IS FOUND.

Duluth Man Located in Cleveland, but Very Sick.

Cleveland Ohio, Oct. 2.—Henry Gray, superintendent of the Duluth rolling mills, who mysteriously disappeared from the Weddell house, Tuesday night, has been found. He was located by the police. Mr. Gray is a sick man, and a nurse and physician are in constant attendance. Mr. Gray was supposed to have had considerable money in his possession when he disappeared, and it was thought for a time that he had met with foul play.

SWORN IN.

Col. Hay Takes the Oath of Office as Secretary of State.

Washington, Oct. 2.—Col. John Hay was sworn into office as secretary of state at 11 o'clock yesterday morning. The ceremony took place in the president's room at the White House, and the oath was administered by Justice Harlan, of the supreme court. Mr. Hay immediately joined his colleagues in the regular Friday cabinet meeting.

Exiled King May Return.

Washington, Oct. 2.—The state department gives confirmation to the report that it has given its assent, through the American consul at Apia, Samoa, to the return to Samoa, after an exile of ten years, of the former king, Mataafa. It is assumed that this chief is to be made king, to succeed the late King Malietoa, who died about a month ago.

Li Hung Chang Scores Again.

Peking, Oct. 2.—An imperial decree was published dismissing Chang Yin Houan, the opponent in the Chinese foreign office of Li Hung Chang and former minister of China at Washington, and special envoy of China at Queen Victoria's jubilee. He is dismissed from all his offices and is banished to Ili, a district of Chinese Turkestan.

Ott's Death Warrant.

St. Paul, Oct. 2.—Joseph Ott is to be hanged at Granite Falls, Yellow Medicine county, Oct. 20, before sunrise. Gov. Clough signed the death warrant yesterday. Ott killed his wife and on trial pleaded guilty and said he hoped they would hang him.

Light Yield.

Boyd, Minn., Oct. 2.—The average yield of wheat will be less than formerly estimated, and it is expected it will not be over twelve bushels to the acre.

MANY PEOPLE ARE MISSING

FEARFUL CONSEQUENCE OF THE WISCONSIN FOREST FIRE.

The Property Loss May Amount to Anywhere Between $1,000,000 and $5,000,000—Party of Loggers Have a Thrilling Experience—They Raced for a Lake Which Part of the Party Succeeded in Making, but It Is Feared That the Remainder Have Perished—Cumberland Again Threatened—Many People Seek Refuge in Wells.

Milwaukee, Oct. 3.—The pecuniary damage wrought by the forest fires in the northwest part of the state cannot be estimated at present. It may amount to anywhere between $1,000,000 and $5,000,000. Many days will elapse before the extent of the ruin of the fiery element will be known. A general rain throughout the state last night will undoubtedly put an end to the devastation which has continued with unceasing fury for the past three days.

Clark, Chippewa and Barron counties appear to have suffered the greatest destruction. Over 100 people are reported missing in the vicinity of Rice Lake; sixty families are homeless near Cumberland; seventy-five at Turtle Lake and many farmers have lost all their property and had a narrow escape themselves. It is also believed that many persons were burned to death in their efforts at fighting the flames and who were unable to escape when their efforts failed.

A most thrilling experience was that of a party of loggers in charge of August Itason of Chippewa Falls. The logging crew were returning from the camp at Cedar lake. They had a race for their lives, having a handicap over the flames, of eight miles, with but one mile to cover to reach a place of safety. The race was most exciting and resulted in the probable loss of four of the crew. The party ran in two sections, making for a lake with all their might, mounted on horses. With the heat and smoke almost unbearable the first section of the loggers and their steeds barely reached the goal in time, dashing into the lake where they remained until the flames passed over them. The four men who were in the rear are missing and are believed to have perished. Many persons sought refuge in wells.

MANY PEOPLE DESTITUTE.

All Their Property Destroyed by the Forest Fires.

Cumberland, Wis., Oct. 3.—News of another death from forest fires comes from the town of Clinton in this county. A boy was found dead on the bank of Yellow river with his feet in the water. His feet were badly burned and the appearance indicated that he had sought the river for safety.

Gen. Boardman and party, from Madison, representing the state relief board, arrived here yesterday, and, after taking a census of the fire district, drove to Rice Lake. They have listed seventy-three destitute families in the town of Turtle Lake, fifty-two families in the town of Cumberland, forty families in the towns of Stanford and Rice Lake, and thirty families in the towns of Clinton and Barron; also nineteen families in the city of Cumberland, all of which need immediate assistance. They have arranged for the distribution of relief. The danger is now nearly past, though it is still unsafe to travel through some fire districts in the vicinity of Cumberland.

The property loss in this county will aggregate $400,000, besides the farm buildings and crops.

DREYFUS DEMONSTRATION.

Results in an Uproar and Many Are Arrested.

Paris, Oct. 3.—The holding of the Dreyfus demonstration organized by M. Pressence, one of the leaders in the agitation for yesterday afternoon, was prevented by the closing of the Salle Wagerian. M. Pressence and his friends tried to force an entrance and an uproar resulted. The police then intervened and arrested M. Pressence, M. Vaughan, editor of the Aurore, and Deputy Morey, amid shouts and counter shouts of "Viva revision," "Viva l'armee," "Viva Zola" and "a basle Jesuits," and the crowd was dispersed. The persons taken into custody were subsequently released.

Latest French Duel.

Paris, Oct. 3.—A duel between M. Charles Ernest Paulmier and M. Turot, of La Lanterne, was fought this morning, rapiers being the weapons. Turot was three wounded in the thigh and side and M. Paulmier was slightly wounded on the lip. Mme. Paulmier on Sept. 23 went to the offices of the Lanterne and twice shot M. Olivier, the secretary of the editor, because, she asserted, the paper had grossly slandered herself and her husband in asserting that their household consisted of three persons, the third being a former mistress of M. Paulmier. The latter subsequently challenged M. Turot, who was the writer of the article referred to. The charges made were indignantly denied by both husband and wife.

Praise for Minnesotans.

Washington, Oct. 3.—Gen. MacArthur, in his official report of the battle of Manila, takes occasion to commend in strong terms the gallantry of Colonels Overshine and Reeve, Capt. S. Sawtelle, Captains Bjornstad and Seebach and Lieutenants Marsh, Keroan and Whitworth.

The Czar Will Attend.

St. Petersburg, Oct. 3.—The czar has left by the Crimean route for Copenhagen to attend the funeral of the queen of Denmark.

DISTRUST AMERICANS.

Philippine Natives Do Not Make Friends Quickly.

Manila, Oct. 3.—The national assembly at Malolos, at a recent sitting, voted Aguinaldo a civil list of $25,000, but Aguinaldo declined to receive anything until the army should have been paid. An attempt was made by Palemo, the speaker of the house, to have inserted a clause granting him an allowance because of his office, but the proposal was rejected. The assembly is now engaged in discussing the constitution.

Everywhere is seen evidence of appalling struggle. Popular opinion favors autonomy, which it is generally expected will be established. The people rather distrust the Americans, who beginning to realize this fact, sent the cruiser Raleigh to the northwestern ports for the purpose of showing the American flag and making friends with the natives. The cruiser's officers endeavored to arrange an interchange of hospitalities, but the natives at first were unwilling to visit the ship unless hostages were landed. However, finally, friendly feeling was established and the natives were agreeably surprised at the American attitude.

A sanitary board, with an American at its head, has been established here. A corps of surgeons are superintending sanitary work in all districts of the city and vicinity.

OVER MORRO AND CABANAS

Will the Stars and Stripes Soon Be Floating.

Havana, Oct. 3.—Though it is a hazardous venture to make predictions in the face of Spanish procrastination, it may be predicted that the American flag will be flying over Morro and Cabanas within three weeks. There are several reasons why the commissioners wish to see the occupation begin as soon as possible. First, they believe the presence of American forces and warships will be the best kind of diplomacy to hasten negotiations with the Spanish commission. Second, the presence of our men would tend to crowd the Spaniards out. Third, the immediate action would facilitate the distribution of relief supplies and prevent the aggravation attending evacuation by armed and hungry Cubans. Fourth, it would enable reconcentrados strong enough to work but now prevented from doing so to find self-support while making possible distribution of food among those still dying. Fifth, while all is quiet and absolute security reigns, Gen. Blanco's contemplated withdrawal introduces a factor of uncertainty.

BROOKE IN COMMAND

Of the Just Created Department of Porto Rico.

Washington, Oct. 3.—The president issued an executive order creating Porto Rico into a new military department, to be known as the department of Porto Rico, with Maj. Gen. John R. Brooke in command. The headquarters of the department will be at Ponce until after the evacuation of the island by the Spanish army, when it will be transferred to San Juan.

The Quebec Conference.

Quebec, Oct. 3.—The conference commissioners took their usual Saturday recess. Senator Fairbanks said the work was progressing satisfactorily, and that the date for the next adjournment would be announced in a few days. The commissioners desire to reach a certain point in their deliberations at this sitting, so that they will be able to conclude their work in short order when they reconvene in November.

Conference Delayed.

Havana, Oct. 3.—No date has yet been fixed for the meeting of the Spanish and American commissions, as request for which was recently made by Spain's representatives, the American commission holding off until they shall have received reports from the officers sent to different points in the island to make investigations.

New National Bank.

Washington, Oct. 3.—The controller of the currency has authorized the First National Bank of Antigo, Wis., to begin business, with a capital stock of $50,000. L. D. Moses is its president and F. S. Zentner is cashier. Dr. E. E. Renner has been appointed a pension examining surgeon at Groton, S. D.

Killed Her Mother, Then Herself.

Pittsburg, Pa., Oct. 3.—Bertha Bertstein killed her mother and later put four bullets into her own body, from which she cannot recover. The only explanation the girl could give for her terrible act was these words: "I was tired of life. It held no pleasure for me. I wanted to die, and did not want my mother to live and fret over my death. For that reason I killed her."

Gov. Smith May Recover.

Los Angeles, Cal., Oct. 3—The condition of Gov. Smith, of the soldiers' home, is somewhat improved, and there are strong hopes of his recovery. Efforts to locate the two bullets still in his body have been abandoned. A. J. Bradley, his assailant, will be formally charged with assault with intent to commit murder, and his examination is set for next Tuesday.

Killed His Wife.

Indianapolis, Oct. 3.—Robert Tash, a desperate character, went to 342 First street, where his wife was stopping, and, calling her into the hallway, shot her, the woman dying instantly. Tash then fired a bullet into his own brain. He died at once. The tragedy was the culmination of many quarrels.

Threshing Outfit Burned.

Watertown, S. D., Oct. 3.—The wind has been blowing a gale from the south all day. A prairie fire is raging south of here and considerable damage to hay and grain in stacks is reported. The threshing machine outfit of Baxter Bros. has been destroyed.

Germans in Battle.

London, Oct. 3.—A special from Cape Town says the German troops have indecisively engaged the rebels at Azoea. Eleven soldiers were killed. Reinforcements have been asked for.

MUST HAVE MORE TROOPS

BATTLE WITH THE INDIANS NOW SEEMS CERTAIN.

Indians Have Decided to Resist the Attempts of the Marshals to Arrest Two of Their Number—Lieut. Humphrey Convinced That His Army of Twenty Men Is Insufficient for the Task Before Them Has Called for One Hundred More Men and a Gatling Gun—Officers Are Determined to Carry the Matter Through.

Walker, Minn., Oct. 3.—It was learned late last night that the Bear Island Indians have decided to resist the attempts of the United States marshals to arrest the two men they are after. Last night the Indians on the island indulged in a dance, and it is said that 125 of them are ready to resist the authority of the marshals and the soldiers.

Walker, Minn., Oct. 3.—There seems now to be little question that within a few days United States troops will be on Bear Island. The solution of the Indian troubles at Walker now depends wholly on the Indians themselves. A conference between the police and the officers has been held and an ultimatum issued. A council was called for noon Monday, and at that time the decision of the matter will be made. If the Indians comply with the demands of the officers there will be peace; if not, war will surely follow.

Deputy Marshal Sheehan, Agent Sutherland and Inspector Tinker braved the heavy storm and went to the town of Leech, the Indian village across the lake from Walker. There a conference was held between the officers and Dr. Hart, the subagent, and the Indian police and a number of the prominent agency Indians. As a result of this conference the call for the council was issued. There is little hope that the Indians will comply with the demands of the officers. It is impossible to tell now what the result will be, but the general opinion seems to be that the Indians will fail to respond to the call. The officers are determined to carry the matter through and preserve their authority, and will therefore request the assistance of the troops and go to the island in case their demands are not complied with. Lieut. Humphrey is ready to go into the island with the men he now has, but Marshal O'Connor will not ask this force to face almost certain death. Lieut. Humphrey received a telegram from Gen. Bacon, asking if the force sent to Walker was sufficient. On the advice of the officers Lieut. Humphrey wired a request for an additional 100 men and a Gatling gun. Whether the reinforcements will be sent at once or only in case there is trouble after the council Monday is not known here. Bear Island is so heavily wooded that it is thought that a landing will be impossible without a Gatling gun.

Marshal O'Connor accompanied the agent and the inspector to the agency and held a conference with Agent Hart and the Indian police. It was reported at the agency that the runners returned from Bear Island with the report that the Indians there held a council last evening and that 125 of them agreed to stand together, but whether this agreement was to submit to the officers or resist them could not be definitely learned. It is almost certain, however, that they will resist.

TROUBLE IS FEARED

Washington Authorities Consider the Situation Serious.

Washington, Oct. 3.—The interior department authorities fear the situation in the White Earth Indian reservation in Minnesota may be serious, notwithstanding official reports to them state that no trouble is apprehended. They base this on press dispatches, for Acting Secretary of the Interior Ryan has received a dispatch from Indian Agent Sutherland, in charge of the Indians there, announcing that everything there is quiet and that there is no apprehension of trouble either on Bear Island or Leech Lake. A dispatch of similar tenor has also been sent by Indian Inspector Tinker, located at that point, and the official report to the war department also expresses the opinion that no danger is to be apprehended. The department will watch matters closely to prevent trouble.

In Memory of Revolutionists.

Cork, Oct. 3.—An orderly demonstration took place here upon the occasion of the laying of the foundation stone by the mayor of the city of a monument in memory of the Irish revolutionists of 1798, 1803, 1848 and 1867. Several Irish members of the house of commons were present. A resolution was adopted congratulating Irish-Americans upon their patriotic efforts to prevent the forming of an Anglo-American alliance.

Teddy's Taxes.

New York, Oct. 3.—Justice Cohen, in the supreme court, signed an order directing the commissioner of assessments and taxes to show cause on Monday next why the proceedings brought by Theodore Roosevelt to have his personal property exempt from taxation by this city should not be discontinued.

Peace Jubilee.

Washington, Oct. 3.—Eight thousand people attended the peace jubilee at Convention hall in this city. Speeches were made by Rev. H. H. Wharton of Maryland, Rev. Father Stafford of Washington, ex-Senator Pat Walsh of Georgia.

Horses Destroyed.

Helena, Mont., Oct. 3.—A big stable near Tolston, belonging to Huntley & Clark, Helena, burned. Nineteen horses, some of trotting stock, were destroyed. Loss, $10,000; not insured.

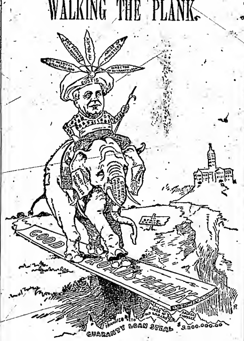
WALKING THE PLANK.



EUSTIS AND THE CORPORATIONS

The Republican Candidate and His Service of the Lowry Monopolies When Mayor of Minneapolis.

VETO OF THE HARVEY ORDINANCE

The Record in the Case—Respect for Memorial Day Could Not Restrain Him From Servile Service of the Railway Company—His Announced Principle Would Deliver Minnesota, Body and Soul, to the Corporations—How Eustis Would Stand if Elected Governor.

The Reform Press of Minnesota have shown the people the undeniable facts of the connection of W. H. Eustis, Republican candidate for governor, with the swindling Northwestern Guaranty Loan company, and his official responsibility for the $100,000 City Hospital job of his administration as mayor of Minneapolis. While the victims of the one are scattered all over the land, and those of the other are Minneapolis taxpayers, the people of the Twin Cities suffered losses to the amount of thousands of dollars from another important act of his administration, to-wit, his service of the Minneapolis Street Railway company, in the struggle which the people had with that monopoly during his administration, to obtain a reasonable and fair transfer system on the Lowry lines; while the case at the same time disclosed that W. H. Eustis holds principles touching the proper regulation of the corporations which if applied in this state by his election would mean the complete surrender of all our material interests to the corporations and the monopolies.

Read the facts from the record, in the celebrated Harvey Transfer ordinance and its veto by Mayor Eustis, and see if this is not the unquestionable conclusion.

When the City of Minneapolis conferred upon the Street Car Company the privilege of substituting electric power in place of the much more expensive horse power, the company agreed to transfer passengers without charge from any of its lines to any other line connecting therewith. But it largely ignored its obligation. It wholly refused to issue transfers to its "parallel" lines, and so ignored the spirit of its agreement as to render the privilege to a large extent valueless. There were at the time 80 connecting points where lines intersected, but the company only gave transfers at six of these points. It required that any passenger desiring a transfer at any of the outlying connecting points, should, in order to obtain it, ride upon the car to a central station, and from there back to the point of intersection. And under this system, passengers desiring to transfer at any one of 24 intersecting points were compelled to pay an additional fare or travel unnecessarily a distance varying from one-half mile to more than five. Furthermore, under the old system, the transfer could only be obtained, if at all, after the passenger had left the car and was upon the street, in the business part of the city, where danger from passing vehicles could only be evaded by the utmost diligence.

The Street Railway Company's purpose in thus failing to provide a suitable transfer privilege was apparent. First, upon its so called "parallel" lines (many of them running more than half a mile apart) many passengers were compelled to pay two fares in place of one. Second, the securing of the transfer at the outlying points was so inconvenient and dilatory that most passengers preferred, rather than go to the central station, to pay an additional fare.

Thousands of readers of this article know from experience when in the Twin Cities how iniquitous this system was. But the company wanted it, for by its own showing in court ITS INCOME WAS INCREASED UPWARDS OF ONE HUNDRED THOUSAND DOLLARS A YEAR BY THIS MEANS. It was interested, therefore, in continuing the oppression as long as possible.

On July 14, 1893, the Minneapolis City Council undertook to remedy this evil, by the passage of an ordinance requiring the railway company to deliver "at the junction or intersection of any of its lines * * * a transfer to any passenger demanding the same;" and providing also, that "said transfer shall be issued to said passenger * * * from and upon the car on which said passenger has paid his full fare."

THIS ORDINANCE WAS PASSED UNANIMOUSLY.

In the language of the official record of the council proceedings for 1893 (p. 425) "there were—yeas, 24; nays, none." Every person in Minneapolis, save only the officers of the Street Car Company and the Mayor, at that time favored this ordinance. Not a newspaper raised its voice against it. Nevertheless, William H. Eustis, unfortunately at that time Mayor of Minneapolis, proceeded to veto the proposed ordinance. The veto message is set forth on pages 441, 442 and 443 of the Council proceedings for the year 1893. He declared the ordinance invalid; and so far as he could deprived the courts of any power to pass upon its validity.

In this message Mr. Eustis assumed that the transfer privilege then in operation was entirely satisfactory, when in fact, its burdensome and oppressive conditions were imposed, as was well understood by all, FOR THE EXPRESS PURPOSE OF EXACTING ILLEGAL FARES FOR THE BENEFIT OF THIS RAILWAY CORPORATION. In this message Mr. Eustis said:

"I have faith to believe that whenever the public are seriously inconvenienced, whether in the location or method of issuing transfers, that the company will accede to the necessary changes, ESPECIALLY IF WE ASK AS FAVORS THINGS WE MAY NOT DEMAND AS RIGHTS. * * THE RAILWAY COMPANY SHOULD BE CONSULTED ON ALL THESE QUESTIONS, AND I BELIEVE WHEN THEIR BUSINESS INTERESTS ARE NOT MADE TO SUFFER, THEY WILL, AS THEY SHOULD, GLADLY YIELD TO ANY REASONABLE REQUEST ON THE PART OF THE PUBLIC."

The city council, urged by the outraged public, repassed the ordinance over the mayor's veto, July 28, 1893, yeas 18, nays 7, a bare two-thirds vote, not a vote to spare. The company for a time disobeyed the ordinance, and appeal to the courts by the city was necessary to enforce it. With F. C. Brooks, now one of the Democratic judicial nominees in Hennepin county, as special counsel, mandamus proceedings were taken and resulted in a decision by the late Judge Smith, Feb. 23, 1894, which declared the ordinance valid and determining that it must be obeyed by the Railway Company. The case was so clear and convincing that the company carried the fight no further. And thus, IN SPITE OF MR. EUSTIS AND HIS VETO, THE PEOPLE OF MINNEAPOLIS HAVE AT LAST ACQUIRED, AND NOW ENJOY, THE RIGHTS AND PRIVILEGES OF WHICH HE SOUGHT TO DEPRIVE THEM. So far as he could, Mr. Eustis endeavored to prevent the passage and enforcement of this ordinance. Had his will prevailed, the people of Minneapolis would already have been robbed of hundreds of thousands of dollars, for the benefit of the greatest monopoly within the Twin Cities; and had there not been eighteen members of the City Council who refused to be controlled by Eustis, and a judge who was able to interpret the law and willing to enforce it, this unlawful exaction would still continue.

Confirmatory of this is the case which has been made notorious all over the state by the protests of the G. A. R., in which Eustis sided with the Street Railway company and against the veterans, in the efforts of the latter to protect Memorial Day from desecration. For that day, 1894, the Minneapolis Park Board had granted privileges for games, bicycle racing and other sports on the Park Boulevard and grounds adjoining Lakewood Cemetery where the Soldier Burial Plat is located, and where the principal exercises of the hallowed day were to be conducted by the G. A. R. The people were very much aroused over the matter, and the G. A. R. justly indignant. A committee of the latter, on May 14, appeared before the Park Board, asking it to withdraw the permits for the sports at the point in question. The Street Railway, interested in the harvest of five-cent fares, opposed the request, and when the G. A. R. were apparently about to succeed, hustled in Mayor Eustis, who was ex-officio member of the Board. He made an extended speech for the Company, and by his official influence and his vote carried the day. The veterans and patriotic citizens were defeated, the races and games proceeded, and the Street Railway received its additional crop of nickels.

It might be added that this was the crowning act of his administration that assured his defeat for renomination, when with the combined efforts of his police and election machinery, and of the monopolies he had favored, he could only muster one-fourth of the delegates, and was overwhelmingly defeated.

Judging from his record, WHAT WOULD BE THE ATTITUDE OF MR. EUSTIS RESPECTING THE CORPORATIONS SHOULD HE BECOME THE GOVERNOR OF THIS STATE?

Would he, as in the case of this transfer ordinance, VETO ALL LEGISLATION DISTASTEFUL TO THE CORPORATION? Would he, as heretofore, ignore the rights, convenience and welfare of the public, IN ORDER TO STILL FURTHER ENRICH THE CORPORATIONS OF THIS STATE? Shall we be told by the Governor of Minnesota, as we were by the Mayor of Minneapolis, that in dealing with corporations we should "ASK AS FAVORS" those things which it is our privilege to "DEMAND AS RIGHTS;" and that a mere "REQUEST ON THE PART OF THE PUBLIC," from these monopolies is not permissible unless "THEIR BUSINESS INTERESTS ARE NOT MADE TO SUFFER" should they comply therewith?

No man has ever sat in the gubernatorial chair of Minnesota who had before hand so demonstrated his unfitness to administer laws and public interests. As Mayor he boldly set aside such ordinances as he did not choose to enforce, and by his veto power and influence did all in his power to thwart the legislation of the city lawmakers, in favor of the corporations. What mattered it that he had held his hand aloft and sworn to execute the laws and ordinances? What would it matter, as governor? The Eustis principle would endanger every interest of the people. What a reformer would this be to right the crying needs of the farmers for protection against the binding twine iniquities, in the sale of the state's product to those dealers having the political "pull," that the farmer for whose benefit twine is supposed to be manufactured, must purchase from the favored dealer at his marked up price, when he was to have had it at cost? Imagine "Governor" Eustis correcting this evil by application of his principle that we should ask "as favors" what we should demand as rights. Applied to appointment of Railway commissioners, he would simply ask of the Railway companies whom they would have appointed, or the elevators to reform the crying outrages of grain inspection and under grading. All legislation regulating the corporations or favored interests would certainly be vetoed, unless it was shown that they had "been consulted on these things." Administration of the matters of taxation, of the public lands, of the school fund, the mining industry, and all the great interests of the state, must be such as that none of the corporations are "made to suffer;" for has he not declared that corporations always yield to "any reasonable request on the part of the public?"

Every now and then we see in some newspaper the query, "Where is Patrick Henry buried?" and tourists in Richmond constantly ask to be shown his grave, with the mistaken idea that it is in that city, where much of his public career was passed. Few people comparatively know that the man who acquired the title of "The Tongue of the Revolution" lies in a quiet grave on the estate in Charlotte county where he formerly lived. Over it is a marble slab inscribed with one line, "His fame his best epitaph."

The estate lies on Staunton river, 88 miles from the town of Lynchburg, near the border line which separates Charlotte and Campbell counties. It derived its name of Red Hill from the peculiar color of the soil in that vicinity. When Patrick Henry bought the place, it comprised about 3,500 acres. The land is rich—there was a saying in the neighborhood that poor land and Henry could never be mentioned together—corn grows there as high as a man on horseback; there is a general air of smiling fields and abundant prosperity. Its situation in early times was very remote. Neighbors were few, one of the nearest being the celebrated John Randolph of Roanoke, who lived in his chosen solitude 15 miles away.

Red Hill is now owned by Henry's grandson, William Wirt Henry, a clever, cultivated gentleman of the "old school." He has in his possession some most interesting relics of his celebrated grandfather, including the desk he always used, which still contains his letters from Lafayette, Washington, Madison and other great men of early days; the large, round backed chair in which Patrick Henry died and a portrait of him by the elder Sully, under which hangs a yellowed slip of paper, signed by Chief Justice John Marshall and several others of his friends, testifying to the faithfulness of the likeness.—Philadelphia Press.

READING SEALED LETTERS.

A German Scientist Shows How This May Be Accomplished.

It is not generally known that sealed letters may in many cases be read without opening the envelopes or doing them the least injury. It was discovered by a German physiologist by the use of an embryoscope, or egg glass, that the shells of eggs were of very unequal thickness.

It occurred to him to make experiments in order to ascertain how many leaves of ordinary letter or official paper must be laid above and below a written leaf in order to make it illegible to a highly sensitive eye in the direct sunlight. He found that after he had rested his eye in a dark room for 10 or 15 minutes he cold read a piece of writing over the mirror of the embryoscope that had been covered with eight layers of paper.

He called in other observers to confirm this. The letters, however, that could thus be deciphered were written in dark ink on one side of the paper only. If four written sides were folded together, and especially if there had been crossing, it was hard to make out the drift of the writing, and there are some kinds of writing which, when folded twice or thrice, admit too little light for the purpose of decipherment.

In this way possibly many of the performances of "clairvoyants" may be explained. By means of the egg glass it is, as a rule, easier to make out the contents of a letter or telegram without the slightest tampering with the envelope than it is to detect the movements of the embryo in the egg.

Suppose the writer of a billet, the contents of which are known only to himself, lets it out of his hand and loses sight of it for five minutes. It may be readily carried either into the direct sunlight or into electric or magnesium light and be read by the aid of the egg glass. The placing of a piece of cartridge paper in the envelope or the coloring of it black is a means of defense at hand.

The = New ...STORE....

Now open with a full and complete line of New and up-to-date goods. Styles of the very latest. Shelves crowded with new Fall Fabrics, and all to be sold on the lowest possible cash prices.

Every Yard New.

A COMPLETE LINE OF
Outing Flannel,
Heavy Flannel,
Woolen Goods,
Dress Goods,
Underwear,

Yes! We have groceries:—We will take pleasure in showing you our new up-to-date Goods. Remember the place:—"The New Store"—Brink Bros. building, Corner of Broadway and Third Street, St. Hilaire, Minn.

STRAWBRIDGE MERCANTILE COMPANY.

Beware of Setting Forest and Prairie Fires.

Office of State Forest commissioner,
ST. PAUL, MINN., March 26, 1896.

Under the act of the Legislature of Minnesota for the preservation of forests and for the prevention and suppression of forest and prairie fires, approved April 18, 1895.

The following are liable to a penalty not exceeding $100 or imprisonment not exceeding three months:

Any person refusing, without cause, to assist fire wardens, in extinguishing forest or prairie fires.

Any fire warden who neglects to perform his duties.

Any person who wilfully, negligently or carelessly sets on fire, or causes to be set on fire, any woods, prairies, or other combustible material, thereby causing injury to another.

Any person who shall kindle a fire, on or dangerously near to forest or prairie land and leave it unquenched, or who shall be a party thereto.

Any person who shall use other than incombustible browads for firearms or carry a naked torch, firebrand or other exposed light in or dangerously near to forest land.

Any person who shall wilfully or heedlessly deface, destroy or remove this or any other warning placard posted under the requirements of the above mentioned act.

Any railroad company wilfully neglecting to provide efficient spark arresters on its engines; or to keep its right of way to the width of 100 feet cleared of combustible material; or which shall fail to comply with other provisions of section 12 of the above mentioned act.

The following are liable to a penalty of not less than $5 nor more than $50:

Any railroad employe who wilfully violates the provisions of section 12 of the above mentioned act.

Any owner of threshing or other portable steam engine who neglects to have efficient spark arresters, or who shall deposit live coals or hot ashes without extinguishing the same.

The following are liable to a penalty not exceeding $500 or imprisonment in the state prison not over ten years, or both:

Any person who maliciously sets or causes to be set on fire any woods, prairie, or other combustible material whereby the property of another is destroyed and life is sacrificed.

R. C. DUNN, (State Auditor),
Forest Commissioner.

O. O. ANDREWS,
Chief Fire Warden.

LOCAL NEWS.

Politics are warming up.

Look over the Five cent counter at Hall's.

Fresh Oysters, at the Ideal Lunch Room.

And it snowed on the 4th of October—a little.

Considerable grain is being marketed these days.

In another month the saw-mill will shut down.

The English sparrow crop is A No. 1 in this locality.

Monday was a reminder of what is coming—winter.

In another week most of the threshing will be finished.

Overcoats and mittens were dug up for the first time to-day.

Try a lunch, a meal or a weeks board at the Ideal Lunch Room.

C. G. Rapp returned Monday from a business trip at Crookston.

About twenty laborers returned this morning from North Dakota.

Leonard Holmes has just completed another addition to his elevator.

Saturdays train was loaded down with returning street fair visitors.

For any kind of a musical instrument call at the Holmes Furniture Co.

The roofs of buildings were covered with a thin coat of snow this morning.

The Canadian bonkers are going south. "Dutchey" killed one yesterday.

The wheat threshed this fall does not come up to the grades of former years.

A little snow and sleet was a mixture that was in evidence yesterday morning.

Mr. and Mrs. Eli Blair were rejoicing over the event of a new born baby Monday.

A. F. Bell returned to-day from a short visit with his family at Thompson, N. Dak.

H. C. Hendricks of Fertile was up looking after his farm south-east of town last Friday.

A fortune is in store for someone that can make up a preparation for killing fleas that will kill.

H. E. Ives returned Monday from a two weeks absence touring the 61st legislative district.

If religion was contested same as politics what a glorious time we would have for supremacy?

An elegant new brussels carpet has been laid in the Odd Fellows hall which improves it wonderfully.

T. H. Shevlin, president of the St. Hilaire Lumber Co., was here Friday and Saturday of last week.

Mike Fricker has his feed mill in good running order and is running long hours to accommodate his trade.

The SPECTATOR has on hand a large stock of cards for campaign purposes. Leave your orders for 500 or 1,000.

—Dr. Blomburgh, the Scandinavian doctor has located in St. Hilaire. See his advertisement in another column.

J. Q. Adams, the jewler and optician will be here again Oct., 10th, 11th and 12th, at Johnson's Drug Store.

Editor Eastman and wife of Thief River Falls were here Thursday for a few hours while enroute to Crookston.

A few of our citizens took exception to the local in referance to Knut Nelson last week and imagined things imaginable.

Messrs. Tedford, Bjerk and Sonstagen camped on the duck passes west of here the first of the week, securing a good number.

Ben Rosenberg returned yesterday from a three weeks trip in the east purchasing clothing for the Great western Clothing House.

—The SPECTATOR is for sale—at one dollar a year—strictly in advance.

It is understood that C. M. Gillette will be the day sawyer at the Crookston mill next summer. E. Ruck will be his right hand bower.

A large number of men who have been working in the harvest fields in Dakota are returning and now enroute to the lumber woods.

"Vote for honest men and you will make no mistake." Thief River Falls News.

That is where we stand exactly.

—Familiarize yourselves to with the winning ticket that you will vote on the 8th day of November. You will find it on the second page of the SPECTATOR.

Corp. G. W. Coogan of the 14th Minnesota arrived in the village Monday to spend his thirty days furlough. George looks well and his many friends are glad to see him back.

Geo. S. Lilleberg, Thom Iverson and T. M. Brevig of Commings N. D. was in town last Friday looking after lands They were all favorable impressed of this country and may locate here in the Spring.

Last week the locomotive owned by Jim Hill made mince meat of a couple of calves that happened to be on the track between here and Wylie. They were thoroughbreds and will be paid for accordingly.

Mr. Ole Jonsrud of Mentor was in town last Friday looking after a location for his sons. The country suited him first rate and he will be back here in the near future and buy two or three quarter sections.

A surprise party was given to Mr. and Mrs. Wm. Martineau last Saturday evening and all that were present pronounced it the event of the season. Much credit is due Messrs. Warner and Hall for the entertainment.

Second Lieut. Bardelson of the 14th Minn., and Private Rodgers returned to their home at Thief River Falls Monday. Sam carried his side arms but stated he was no better now than a common private. They will report in thirty days at St. Paul.

A man by the name of Ole Wold who has been working on the threshing machine of Mr. Oseby west of town met with an accident last Monday that necessitated the amputation of his arm which was done by Dr. Blomburgh assisted by druggist Thorkelson.

—The Crookston College building is now complete and is modern and up to date. The Institution is one of the best in the northwest. It is cheap, thorough and practical. By writing Malm & Suthre a catalogue containing full information will be sent to any address.

When a political speaker is billed in your town, whether you agree with his politics or not, go and hear him. Don't be conceited and say you know it all. There is always two sides to a question and you are placed in the position as your own judge. Again we say, take them all in, be they republican, democrat or populist speakers.

The more abuse the opposition pile upon Judge Ives the more voters he will get. No man was more popular with the people in the district than Judge Ives and yet strange to say it remains for a few politicians to discover that Judge Ives should not be re-elected and they expect to encompass his defeat at all hazards. It is a desperate case as the Judge stands ten to one to win out with hands down.—Roseau Times.

And now come congressman Eddy and Morris and claim that they will do all sorts of things for their reservation constitutements if they are but once more returned to congress, but as they never have been able to do anything but draw their salaries while there, there are those who honestly doubt their ability to accomplish anything in the future. When Towne was there he succeeded in getting the free homestead bill through the house: Morris and Eddy succeeded in sidetracking it.—McIntosh Times.

The man who earns his cash in the town and buys his goods, clothing and provisions elsewhere, is an absorbed heap of selfishness and a traitor to his fellow citizens. The official who lives and thrives on the taxes of his neighbors, and purchases his household necessities elsewhere, ought to be bounced without notice. Anyone who prospers at the expense of a community is bound by all the laws of common interest to promote to the utmost of his ability the best interests of those by whom he prospers. Business men are the soul and life of any town; injure their trade and you strike every citizen. Carry your money elsewhere and you do what you can to ruin your town. And merchants when you have a job of printing to do, don't give it to a city office, because, forsooth, you are getting it a few cents cheaper. Support the home printer, who is everlastingly supporting you.—Red Wing Republican.

Some Dairy Hints.

If the butter is to soft feed the cow some potatoes.

Stringy milk can be cured by keeping the cows clean.

Whitewashed stables means fewer flies and more milk.

A cow that tests below 3 per cent is not worth keeping.

Crosses are usually better for farmers then pure breds.

Whenever possible test the cow's milk before buying her.

Wash all milk vessels with cold water before scalding.

Cows and horses should not be allowed in the same pasture.

If butter is mottled work it a little more after salting.

Richer food does not mean richer milk; it means more milk.

Is it Honestly Gotten?

The great wealth of some of our millionaires will be better understood by the following comparison: If Adam had worked 300 days each year from the day he was created to the present, at a salary of $50 a day, he would not have earned as much property as owned by Rockefeller or Vanderbilt.—Ex.

This is a fact yet its mere statement does not impress one with the magnitude of those men's fortunes as much as would the number of men working a life time at the best wages prevailing for manual labor, to accumulate such a mass of wealth.

Rockefeller is credited with owning wealth in excess of $200,000,000. Supposing a man was paid $5 a day and he lived economically and saved $4 of his earnings, how long would it take him providing he enjoyed good health and could live, to accumulate Rockefeller's fortune? The answer would be 50,000,000 days.

Now, allowing 300 working days to the year, how many years would he have to work? The answer is 16,666⅔ years.

Thus we see Rockefeller has accumulated in a short life time a sum that would take a man 16,666⅔ years to save at $5 a day and practice close economy.

As few working men receive such a liberal salary, it can easily be seen that Mr. Rockefeller owns and controls enough to give employment at good wages to an army of men for several years.

Is it right that one man should control so much wealth?—Jasper (Ind.) Herald.

Keep it up.

One step won't take you very far—
You've got to keep on walking;
One word won't tell folks who you are—
You've got to keep on talking;
One inch won't make you very tall—
You've got to keep on growing;
One little ad won't do it all—
You've got to keep 'em going.
—L. A. W. Bulletin.

A Word About Wheat.

"It is the part of good business judgment for the farmer to sell his wheat as soon as he hauls it into the elevator or puts it into the cars. If he proposes to hold his wheat let him keep it in the granary on his farm.

"Let us follow a load of stored wheat The farmer hauls it to the elevator and dumps it into the hopper, and receives therefore a storage ticket. He can either get his wheat back or the market price in cash for it whenever he wants it.

"The elevator man knows he doesn't want the wheat, so ships it to Minneapolis or Duluth, where it goes to swell the 'visible supply.' The more wheat there is in the visible supply the less will be paid for it. When the miller wants to grind this wheat he buys it from the elevator man. It is the farmer's wheat, and the elevator man has only the freight interested. The farmer furnished 75 per cent of the capital in the deal, and the wheat he has added to the visible supply keeps the price down As the elevator man has no money invested in the wheat and will not be benefitted if the price rises, he does not use much effort to make it go higher. Storage charges are the same on wheat whether is is worth 60 cents or $1.60 cents a bushel.

"When the farmer 'stores' wheat and holds the storage tickets for a rise in price, he gambles in futures, and he is the only gambler in futures who has more than 10 cents a bushel invested in the deal. He has, moreover, supplied the necessities of the consumer, and the consumer, knowing the farmer doesn't want the wheat back, naturally keep the price down. The law of supply and demand doesn't operate in such case.

"Keep the wheat in the granary on your farm. When you haul it into market, sell it. Don't pay storage.

Let the other fellow do that. If you must gamble in futures invest 5 or 10 cents a bushel in margins; but don't furnish the other with the capital."—Times Record.

The Army and Navy.

Have covered themselves with glory during the war. The Army and Navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of navy and army terms, translation of Spanish words, etc. Send ten cents to Chas. S. Fee, general passenger agent, N. P. R., St. Paul, Minn., for a copy.

Council Proceedings.

Regular meeting of the Village council Monday Oct. 3rd 1898.

All members present except Hoff.

Meeting called to order by Pres. Ives.

Minutes of previous meeting read and approved.

On motion the following bills were allowed.

C Hall 1 month marshal salary	40 00
S Harris street work	4 50
A Peterson hauling lumber	50
St. Hilaire Spectator printing as per bill	37 50
M S Hoff 1 day cleaning well	1 50
St. Hilaire Lumber Co. lumber as per bill	5 06

On motion the report of the well committee was laid over until next regular meeting.

On motion Dr. Francis was allowed lumber for a cross walk across Water Street.

On motion meeting adjourned until Oct. 7th 1898 at 8 o'clock p. m. at the office of the Village recorder.

Attest:—
J. L. JOHNSON, Recorder.
H. E. IVES, President.

Now is the time to get the SPECTATOR. Official county and village paper.

From Farm, Stock and Home.

God makes crops, but man makes prices.

As a rule the farmer is a muscular fellow, but he finds it difficult to lift prices.

Trees around the school house should be considered as indispensable as roof over it.

The farmer is the only business man who is expected to have no business secrets.

More lumber on the outside of the stables means less food on the inside of the cattle.

The law of the road is, "keep to the right," not in the middle; and that is good political law, too.

The transportation companies are trying to breathe life into the Klondike boom again, but it won't work; that boom is dead for keeps.

Some of us would like to see the old money system that insured good prices for good crops; but a few more of us don't, and that settles it.

From 1865 to 1885 this nation progressed in population and wealth as never nation did before, yet it had no navy and a very small army during those years.

We pity those who believe in the dogma that the "king can do no wrong," but how far removed from them are those who believe their party can do no wrong?

"Times are "better," no doubt; but they are like the invalid who whined: "Yes, I am better than I was, but I am not as well as I used to be when I was better than I am now."

An oderless onion is now announced and will be believed in by those who believe that a republican government still exists after every principle of that kind of government is eliminated from it.

A poultry man says grit is necessary to egg production; he might go farther and say grit is necessary to all kinds of production. Without grit a man cannot produce an impression upon the world, or his neighborhood.

Railways and other trusts that rest upon capital, one-half to three-fourths of which is false and counterfeit, are rejoicing these days in large and increasing dividends, while—paradoxical as it may seem—some men of the plow and forge, who are taxed to pay them, rejoice with trusts.

A standing army of 100,000 is now common talk, and also a largely increased navy, because our "new policy" makes them necessary. Surely, we are taking on European conditions with startling rapidity. Where will European emigration now go to seek release from those conditions?

Washington Letter.

From our Regular Correspondent.

The navy conducted its side of the war in a manner so satisfactory that it is not likely that any proposition will be made in Congress to investigate the navy, but it may be set down as certain that a resolution will be offered by a democrat and supported by all the democrats in Congress to investigate the purchase of vessels from private individuals and corporations by the government. It is admitted by officials that extravagant prices were paid for a number of vessels, but they say that the government was bound to have the vessels and had to submit to the extortion of the owners. Even if this were known to be true, such an investigation would still be needed; to inform the country of the names of the men and corporations which took advantages of the necessities of the government to rob the country.

Boss Hanna has been appealed to by Mr. McKinley to save the House by the same methods he carried the Presidential election—the unlimited use of money. Hanna is now in Washington preparing to make assessments on the men who put up the boodle in '96. Chairman Babcock, of the Republican Congressional Campaign Committee, told Mr. McKinley that unless something was done at once the democrats would certainly elect a majority of the House. That is why Hanna was telegraphed for. If money can elect a majority of the House, Hanna is going to do it, unless the men who contributed money for him to use two years ago go back on him.

At the present rate of progress Mr. McKinley's commission will not get through investigating the War Department by the time the Presidential campaign opens. A week ago the commission was organized, and not a line of testimony has been taken; in fact, a majority of the Commission have been away from Washington nearly all of this week. They say the taking of testimony will be started next week. The kick against making the investigation secret has caused the commission to modify its original intention so far as to agree to allow representatives of the press associations to be present when testimony is being taken.

That there will be an extra session of the next congress next Spring is the opinion of many, because it is doubtful whether it will be possible to get all necessary legislation put through during the short session of the present Congress, but it is not true that the democratic leaders intend to try to force an extra session, if they elect a majority of the next House. On the contrary, it is the desire of the democratic leaders to avoid an extra session of Congress.

Representatives Bailey, of Texas, who is now on a stumping tour, said on this subject before he left Washington: "As a matter of party politics, if we succeed in getting control of the next House, as I firmly believe we will, I hope that we may be able to avoid an extra session of Congress. An extra session would be full of danger to our party and might lose us the Presidency in 1900."

Every Action

And every thought requires an expenditure of vitality which must be restored by means of the blood flowing to the brain and other organs. This blood must be pure, rich and nourishing. It is made so by Hood's Sarsaparilla which is thus the great strength-giving medicine, the cure for weak nerves, scrofula, catarrh, and all diseases caused by poor, impure blood.

Hood's Sarsaparilla

Is America's Greatest Medicine. $1; six for $5.

Hood's Pills cure indigestion. 25 cents.

True Greatness.

"Now, said the interviewer, "as to your method of working?"

"Well, said the great author, "I take a writing pad—"

"Yes."

"And a pencil—"

"Yes."

"Seek out a quiet spot—grasp the pad firmly in one hand and the pencil in the other hand—and—"

"Yes. And—"

"And write."—Philadelphia North American.

The Work Will Continue.

The divisions of the Baltimore & Ohio Railroad west of the Ohio river are to receive the same sort of improvements that have been made on the lines east of the Ohio. Not only are the grades to be reduced wherever it is practicable, but very much heavier motive power is to be introduced. In order to carry the additional weight the bridges on all the divisions are being replaced with heavier structures and the track relaid with heavier steel rail. It has been demonstrated by actual experiment that these changes will result in an increase in train loading in some places of more than 50 per cent, the average being about 42 per cent.

It is the hope of the receivers that within the next two years the Baltimore & Ohio Railroad will be an eighteen-foot grade road from Chicago to Baltimore, with the exception of that portion of it which passes over the mountains, where helping engines will have to be used.

A great many of the estimates for the different portions of the work have been made, and those who have seen the plans state that the work can be done at a surprisingly low cost, considering the return.

It is understood that the policy of rehabilitation adopted by the receivers two years ago, will be continued by the new company after the reorganization.

The Usual Progress.

Wheeler—I wonder what has become of Walker? I haven't seen him for a week.

Ryder—I saw his wife yesterday. She said he was learning to ride a wheel.

Wheeler—How's he getting along?

Ryder—On crutches, I believe.—Chicago News.

PATENTS.

The Cheerful Idiot.

"The minister and the policeman," said the young and cynical boarder, "are inseparable adjuncts of civilization."

"They are very much alike," said the Cheerful Idiot. "One is a pairer and the other is a peeler."—Indianapolis Journal.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

A GHOST LIKE CITY.

WEST LYNNE IS A RELIC OF A NORTH DAKOTA BOOM.

Room for 5,000 People—But To-day Not a Man, Woman, or Child Inhabits Its Deserted Houses — Business Blocks Gone to Waste.

Some poet who can do for a literally deserted city what Goldsmith did for his "sweet Auburn," can find his opportunity in North Dakota. A city large enough to house a population of 5,000, yet absolutely tenantless; a place with substantial brick blocks, well-laid streets and walks, handsome residences, costly stone buildings, but without a resident, with not even a cock to crow by day nor a dog to howl by night! Such a place is West Lynne on the west bank of the Red River of the North, and almost on the Canadian boundary. The history of the place is one of the romances of the "boom" period from 1878 to 1881, when towns sprang up in a night; when a few lots staked out on the prairie sold in the markets of the east one day for hundreds and the next day for thousands. A golden stream poured into the land where yet the Sioux fought his ancient foes, the Blackfoot of Montana and the Pawnee of the Niobrara. But there came the collapse. Men who not foreseeing the crash, invested more heavily instead of turning their holdings into coin, awoke one morning to find themselves "land poor" and in debt, unable to complete the extensive improvements they had begun upon their realty. The fortunes that had been made in a day were scattered in a night; villages that had sprung up in a few hours had grown to the importance of incorporated towns and cities in a few months were deserted by all save those who, swamped by the crash, found themselves without money enough to get away. West Lynne was a "boom town," and the most noted of them all. It was platted by schemers with more fertility than scruples, at a point on the Red River where, they claimed, the Great Northern Railroad was to cross when built through to the Pacific coast. The possibilities of the place were exploited in the east; capitalists became interested, and money was plentiful. There was no sham about the actual construction of West Lynne. It was not another Arizona desert farce except in the minds and on the plate of its projectors, but a substantial reality. James H. Murray, a Chicago man, was the agent. He sold lots at auction in Chicago for thousands of dollars each. While he was selling a telegram would come notifying him of the disposal of a certain plat and it would be withdrawn. Then he sold adjoining lots at top-notch prices. In the meantime building was progressing. There were no board shanties, and walls or canvas sheds. Handsome structures of brick or lumber, finished in modern style, sprang up as fast as material could be transported and contractors do the work. And today there the "city" stands, a handsome but useless monument to the credulity of some and the hardihood of others. Not one of its magnificent buildings has ever been occupied. Across the Red River is a steel bridge, built for railroad and wagon traffic, which no engine or train ever crossed or ever will. The wagon track be used. The structure must have cost $200,000, as there is a great deal of piling and trestles in the approaches. West Lynne stands on a flat, sandy stretch, where the overflow from the river is so extensive and long continued that crops can not be grown. Across the river, in Emerson, is the custom house, and the business of the district is conducted there. That is all the life there is to Emerson, which in the "boom days" was but a suburb of West Lynne. Even in Emerson there is a brick block, three stories high, 375 by 140 feet in dimensions, with a basement under the whole. It contains fourteen spacious store rooms, with plate glass fronts and all the accessories of a stylish business block. But not a single individual inhabits the great structure, and it is slowly going to ruin. Eighty-five thousand dollars was the cost of this building.

ORIGIN OF TITLES.

The lowest and the highest of the officers of a company bear titles derived from the same word. Captain and corporal are both derived from caput, a head. Captains and corporals are, therefore, head man. The word from which captain is immediately derived is the mediaeval Latin capitaneus, a head man. German hauptman and Polish hetman carry the same idea.

Lieutenant is French for place holder. He serves in place of another, taking the place of his superior when occasion demands.

A major was once a captain-major, or superior captain, just as now the highest noncommissioned officer is a sergeant-major. The captain was long ago dropped from the compound title, and the major alone retained. A general was one whose command was over the army in general. From general officer the title came to be simply general.

Until recently sergeant was held to be from the Persian sarjank, a subordinate military officer, thus being the only one of our military titles not traceable to a Latin source.

Colonel is from the mediaeval Latin coronella, a diminutive of columna, a column. A colonel was an officer who marched at the head of the column.

Most of the navy titles that differ from army titles explain themselves. Ensign is an old title obsolete in the land forces, but still preserved in the army. Admiral comes to us from the Spanish, who borrowed it from the Arabic amiralbarh, commander at sea. Commodore is a corruption of the Spanish and Portuguese commendador, a knight, a commander, so our two highest naval titles come from the devised Iberian peninsula.

Full.

"I feel like a store with a bargain sale," groaned Tommy as he approached from the direction of the pantry, the immediate surroundings of his mouth being a suspicious dark red. "What's the matter my dear?" "Jam inside."—Detroit Free Press.

Do You Want Consumption?

We are sure you do not. Nobody wants it. But it comes to many thousands every year. It comes to those who have had coughs and colds until the throat is raw, and the lining membranes of the lungs are inflamed. Stop your cough when it first appears, and you remove the great danger of future trouble.

Ayer's Cherry Pectoral

stops coughs of all kinds. It does so because it is a soothing and healing remedy of great power. This makes it the greatest preventive to consumption.

Put one of Ayer's Cherry Pectoral Plasters over your lungs

SYRUP OF FIGS
NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.

SAN FRANCISCO, Cal.

LOUISVILLE, Ky. NEW YORK, N. Y.

A SOLDIER'S ESCAPE.

From the Democrat-Message, Mt. Sterling, Ill.

The Soldier's Return.

When Richmond had fallen and the great commanders had met beneath the historic apple tree at Appomattox, the 83d Pennsylvania Volunteers, prematurely aged, clad in tatters and rags, broken in body but of dauntless spirit, swung into line for the last "grand review" and then quietly marched away to begin life's fray anew amid the hills and valleys of the Keystone State. Among the number Asa Robinson came back to the old home in Mt. Sterling, Ill., back to the fireside that he had left at the call to arms four years previous. He went away a happy, healthy farmer boy in the first flush of vigorous manhood; he came back a ghost of the self that answered to President Lincoln's call for "300,000 more."

To-day he is an alert, active man and tells the story of his recovery as follows:

"I was a great sufferer from sciatic rheumatism almost from the time of my discharge from the army. Most of the time I was unfitted for manual labor of any kind, and my sufferings were at all times intense. At times I was bent almost double, and got around only with the greatest difficulty. Nothing seemed to give me permanent relief until three years ago, when my attention was called to some of the wonderful cures effected by Dr. Williams' Pink Pills for Pale People. I had not taken more than half a box when I noticed an improvement in my condition, and I kept on improving steadily. I took three boxes of the pills, and at the end of that time was in better condition than at any time since the close of my army service. Since then I have never been bothered with rheumatism. Dr. Williams' Pink Pills for Pale People is the only remedy that ever did me any good, and to them I owe my restoration to comparative health. They are a grand remedy."

Believed in a Short Engagement.

At the big midsummer wedding, one of the ushers, who is a good deal of a cynic, was rather unfortunate in the phrasing of his felicitations to his friend, the groom, says the San Francisco News Letter.

"Now, old boy," facetiously remarked the usher, who would rather have been bending over his ledger in the bank than officiating at a wedding, "I hope that you will not find marriage a failure."

"I hope not, indeed," was the ready rejoinder, "for the chief reason I brought the courtship to such a sudden close was that the engagement would soon have made a bankrupt of me."

Simply Rumor, However.

Bacon—Do you know what Cervera said the day he tried to get out of Santiago harbor?

Egbert—No; I haven't heard.

Bacon—He remarked that things were coming his way at last.—Yonkers Statesman.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets Candy Cathartic cleans your blood and keeps it clean by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets—beauty for 10 cents. All druggists. Satisfaction guaranteed. 10c, 25c, 50c.

Read the Advertisements.

You will enjoy this publication much better, if you will get into the habit of reading the advertisements; they will afford a most interesting study, and will put you in the way of getting some excellent bargains. Our advertisers are reliable; they send what they advertise.

Deduction Confirmed.

Miss Chotter—I knew you would be here to-day to see my sister.

Mr. Cuddler (interreg.)—Intuition?

Miss Chotter—No; observation. You always appear on the same day that Ethel refuses onions at dinner.—Tit-Bits.

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Before marriage a man promises to his wife nothing; after marriage, that is about what the poor woman gets.

PILES

"I suffered the tortures of the damned with protruding piles brought on by constipation with which I was afflicted for twenty years. I ran across your CASCARETS in the town of Newell, Ia., and never found anything to equal them. To-day I am entirely free from piles and feel like a new man."

WEDDING GOWNS FOR RENT.

Curious Shop Supplies the East Side with Nuptial Finery.

This is the alluring sign on the outside of a little shop in Market street which attracts the attention of young women of the east side whose blissful anticipations of marriage are somewhat alloyed by their inability to provide themselves with the bridal finery which is the desire of every feminine heart, irrespective of outward rank or condition, says the New York Press. Doubtless there may be just as much sentiment and sacredness in a marriage ceremony wherein the bride wears a dull-colored gown that has seen service under other circumstances as if she wore shimmering folds of satin, but the satin gown will be a coveted object, none the less, even when known to be unattainable. The proprietor of the shop in Market street does not pose as a philanthropist, but she supplies a demand not otherwise provided for. Shrewdly guessing that satin only would be far enough beyond the reach of the average east side bride to tempt her to hire a dress for a wedding, she keeps no other kind on hand. The satin, however, is of various grades and prices and the gowns vary in elegance of style. "You want a wedding dress?" she observes as an embarrassed young woman makes known her business. "Yes, I have 'em. What kind do you want? You want a new one, never worn before—and nice? That will cost you $12. Too much? Why, the dress is elegant, full and long, and beautiful lace on it. Yes, I supply a veil with that and these beautiful flowers," taking a cluster of artificial orange blossoms from the case. "Of course, if you want something not so elegant, I give you a nice dress for $10 or maybe $8." "New?" "Yes, clean, and nice." "How much for one that's been worn?" "Oh, $5 or $6. Not dirty, either; just a little about the bottom. I got one worn only three times, by nice young ladies, too." If the bride-to-be is anxious to make an impression on her acquaintances with the splendor of her bridal finery she has the dress sent home several days before the wedding and displays it as the chef-d'oeuvre of her limited trousseau. There are those who may guess that it is only a temporary possession of the bride, but any suggestion to that effect is indignantly spurned. The owner of the wedding dress never loses sight of it unless she has ample guarantee of the responsibility of the parties hiring it, and when the ceremony is over she is on hand to take care of it, and the bride has no further worry about it. Once in a while the gayety at a wedding where there is a hired gown becomes somewhat boisterous, and in the confusion there may be spots or even rents that mar the pristine freshness of the garment, for every one of which madame demands extra compensation; and if she doesn't get it there is a bridal couple in the police court the next day, but she usually does.

Good Reason to Hurry.

The trials of a musical accompanist are many, if we may credit all the stories told of them. A young professional recently played accompaniments for the performers at a private entertainment for a fashionable charity, lasting for nearly two hours. "Here, you see, I have no chance to take a breath for ten bars," said the amateur flute-player, indicating to the accompanist a passage in his opening solo. "There are a number of such places in my solo, and if you'll hurry the time whenever you come to them, it will be a relief to my wife, for all my family are subject to apoplexy, and I've already had one slight attack."

Durability of Plate Glass.

It is asserted that plate glass will make a more durable monument than the hardest granite.

FASHION'S FANCIES.

Black ribbon velvet true-lover's knots, in spite of their long popularity, seem to have taken a new lease of life and promise to make their appearance in the most persistent fashion upon nine out of ten of the newest hats. Very frequently a big bow of this kind forms the center of the trimming upon a hat, with possibly two large black or white ostrich feathers curving away on either side.

Paris, having loved blue very dearly, smiled persistently on black and white, is now turning much of her attention to red, and the best of her satin foulard gowns appear in this color spotted with white. They are invariably made on a simple plan, the skirt with a single flounce, the bodice crossed over on the bust to show a chemisette of ecru muslin, slightly pouching in the front, with a very narrow belt, and crowned with a hat turned off from the face trimmed with indispensable cherries.

The long jeweled chains have by no means gone out of fashion yet, though perhaps there is not quite so marked a craze for them as a few months back. Pink coral, strung in long ropes, is most becoming when worn with a pink or white evening toilet, and at a smart dance recently a girl in coral pink embroidered chiffon was all hung about with ropes of fine coral. They looked newer than gold chains or pearly ropes, and had the merit of being genuine, which the latter rarely are in these days of imitations.

FADS IN JEWELRY.

A very pretty cigar cutter in the shape of a key is shown. It is made of gold.

Very handsome novelties of gun-metal consist of various designs ornamented with gold tracery.

A pencil with four holes containing a pencil and crayons of various colors is also offered in gun-metal.

Very pretty toilet articles faced with silver and gold are shown. Miniature portraits form some of the new decorations.

The most fashionable patriotic breastpin consists of an American flag with an eagle perched on the staff. The bird is covered with brilliants and has emerald eyes.—The Jeweler's Weekly.

A new lapel watch is shown. It has a very small dial connected by a shank with a larger round case, which contains the movement. It is said to be a better timekeeper than former watches of its class.

Families Badly Mixed.

On Butler Taylor's farm bantam chickens and quails are mixed. The quail has hatched chickens and the bantam is the proud mother of a covey of young quails. The little chickens follow the quail mother off into the copse and are as wild as real quails. The bantam's little quails deport themselves in the yard and coop the same as regulation chickens.—Carrollton (Ky.) Democrat.

Surprised.

"Perhaps," said the man who can wave his arms and make speeches by the hour; "mind you, I only say 'perhaps,' I was wrong. It's hard to admit it, but the best of us is sometimes likely to make mistakes."

"Have you found yourself in error?"

"I'm afraid so. Here Hawaii's been annexed for several weeks and our country hasn't yet gone to ruin."—Washington Star.

Proposed Alliance With England.

If the United States and England should form an alliance there would be little chance for enemies to overcome us. When men and women keep up their health with Hostetter's Stomach Bitters, there is little chance for attacks of disease, as it steadies the nerves and increases the appetite. Try it.

Beer is said to be fattening, but too much of it will make a man lean—against something.

Some men are too stubborn to acknowledge the corn until you step on their toes.

To Cure Constipation Forever.

Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

It sometimes happens that it takes a speaker longer to clear his throat than it does to clear the hall.

His Protest.

The editor of the Clarion was a very patient man. A startling crash from the direction of the composing room caused him to push his spectacles up on his brow and cease writing. When he found that the boy had let the first page form fall on the floor, where it lay in an incoherent mass, he shook his head reproachfully and exclaimed:

"Lemuel, I do wish that you could manage to break the news more gently."—Washington Star.

Not His Old Self.

"Is your husband very much interested in the war?" inquired the neighbor.

"Interested?" echoed young Mrs. Torkins. "I never saw his mind so occupied with anything. Sometimes he has to think twice before he can tell whether the Bostons or the Cincinnatis are ahead."—Washington Star.

Piso's Cure for Consumption is our only medicine for coughs and colds.—Mrs. C. Beltz, 439 8th ave., Denver, Col., Nov. 8 '95.

Lots of men join a secret society because they think its emblem will show up well on their watch chains.

Educate Your Bowels With Cascarets.

Candy Cathartic cure constipation forever. 10c, 25c. If C. C. C. fail, druggists refund money.

Age rarely brings wisdom; about the best it can do is to teach us what particular brand of folly we like best.

A wise man baits his hook with inquiry, but a fool baits his with impertinence.

Time is caught by the tail more frequently than by the forelock.

Every man knows how a wife should be managed, but few are able to do it.

Stop! Women,

And Consider the All-Important Fact,

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience in treating woman's diseases is greater than that of any living physician—male or female.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides, a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman, whose knowledge from actual experience is greater than any local physician in the world. The following invitation is freely offered; accept it in the same spirit:

MRS. PINKHAM'S STANDING INVITATION.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

"The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women a year."

STORY OF CARNAGE

BATTLE OF LEECH LAKE DESCRIBED BY ONE WHO TOOK PART IN IT.

Third Infantry Lost More Men in This Engagement Than It Did in All the Operations Around Santiago—Great Bravery Shown by All, From General Down—Gen. Bacon, With Gun in Hand, Seemed Ubiquitous—Heroic Death of Maj. Wilkinson, Who While Breathing His Last Urged His Men On—Thrilling Scenes Crowd the Bloody Encounter From Beginning to End.

(From a Staff Correspondent of St. Paul Pioneer Press.)

Walker, Minn., Special, Oct. 7.—The battle of Leech lake is over. The bodies of six soldiers for whom taps has been sounded for the last time and eleven severely wounded men, lying in the old warehouse near the dock in Walker, tell the story of its severity as far as the boys in blue are concerned, while the bodies of probably a score of Indians hidden in the under brush on point of mainland in Leech lake testify that the boys in blue did not die in vain.

It was just 6 o'clock when the boats left the dock. There were two steamers, Chief and Flora, the latter having a barge attached. On the Chief were Marshal O'Connor, Gen. Bacon and five or six deputy marshals and about twenty-five soldiers. Lieut. Ross was in command of these soldiers. On the Flora were Deputy Marshal Sheehan and the correspondents and Indian police. On the barge were the remainder of the troops, with Maj. Wilkinson in command. Dr. Herbert S. Harris, surgeon of the regiment, was also on board. It was an unpleasant start and an unpleasant trip. I occupied a seat in the Flora's pilot house beside Maj. Wilkinson. The major was in the best of spirits and talked and laughed in his usual manner. He did not expect a fight, but regaled those in the pilot house with stories and anecdotes of his thirty-three years' service in the army.

After a three hours' trip the boats finally reached the clearing which surrounds the home of Bug-ah-mah-ge-shig, the Indian who is at the bottom of all the trouble. The place is a most picturesque one. A half-dozen Indians stood in front of the log house, and one of them, arrayed in a flaming red blanket, came at once down the path to the landing, making signs of peace. When about fifty yards from shore the Chief went aground and a few yards nearer shore the Flora also struck bottom. We all transferred to the barge and with the aid of long poles reached the shore easily. Maj. Wilkinson and the four correspondents were the first ones ashore. They were immediately followed by the deputy marshals and the soldiers. The latter formed near the landing and a third of them marched up and halted in front of the house.

In the meantime the deputies and the interpreters had gone up to the house and were conversing with the Indians. While they were talking a tall, fine looking Indian, with his hair in two braids down his back, emerged from the house and started for the woods. Col. Sheehan made a dash for him, and seizing him by the arm placed him under arrest, for the colonel had recognized the Indian as Mah-qua, one of the most turbulent and most dangerous of the Pillagers and one of those prominent in the recent rescue of Bug-ah-mah-ge-shig from the marshals. The Indian at once showed fight, but Col. Sheehan produced a pair of handcuffs and grappled with his prisoner. The fight was short but exciting. The Indian succeeded in securing possession of the handcuffs, and dealt a

SAVAGE BLOW AT THE COLONEL'S HEAD,

a blow which the colonel diverted by throwing up his right hand, two fingers of which were badly bruised by the blow. At this stage of the proceeding four soldiers offered their assistance and after a sharp struggle the Indian was overpowered and the handcuffs placed on his wrists. He was then carried to the shore and sent on board the Flora in charge of two soldiers.

While the soldiers and marshals were engaged with Mah-qua, five Indians were seen to leave the house and make their way rapidly to the woods. All these men were armed with Winchester rifles. None of these men were recognized as men the marshal wanted so they were allowed to go unmolested. By the time Mah-qua arrived at the lake-shore, Gen. Bacon and Marshal O'Connor arrived at the beach in a row boat. In compliance with the marshal's request twenty men were detailed as skirmishers and started out to beat the woods in the search for rebellious Indians, being instructed to bring in any Indians they might find. After fifteen minutes' search they returned empty handed, although they reported having seen two Indians with guns hurrying along the shore some distance away.

After a little consultation it was decided to make a trip across the point, taking in three small Indian villages on the way, on the lookout for stray Indians who were wanted. About twenty-five soldiers were selected for this work, the remaining dozen of those that came off the Flora being detailed to watch the landing and assist the men from the Chief in keeping tab on the clearing and preventing trouble among the Indians.

The remainder of the party, including Gen. Bacon, Marshal O'Connor, Maj. Wilkinson, Deputy Marshals Sheehan, Warren and Morrison and the four correspondents, started off on a tramp across the point

In Search of Indians.

The path led out of the clearing to the east and after rounding the point ran along the shore of the lake and through the woods again for a matter of some two miles. Where the path ran along the lake shore it was crossed by an inlet some fifty feet wide. This had to be forded and every man emerged from the water wet to the knees. Col. Sheehan objected to crossing the stream and turned back, but the others all went on. Three small Indian villages were examined, but no bucks were to be seen anywhere. There were plenty of old men and squaws, but no braves.

No braves being found, the return was made, after a short rest at the last of the three villages.

Arriving at the clearing Col. Sheehan was found in possession of a prisoner who had given himself up. He was a young brave who had taken part in the rescue of Bug-ah-mah-ge-shig and he was sent aboard the Flora in charge of Deputy Morrison. At the same time Hospital Steward Lawrence was sent to the boat in charge of two men who had developed chills and fever. Marshal O'Connor and Correspondent Morton also went aboard. The other correspondents were about to take the boat when a shot was heard from near the house, followed by two others in quick succession from the woods and then a sharp long volley from the same direction.

The first shot fired was an accident, and it is due to that accident that the entire command was not wiped out to a man. Sergeant Kelly was instructed to dismiss the company for dinner. The men were drawn up near the house and ordered to stack arms. One of the recruits failed to turn the safety catch on his gun and as he did not properly stack it, it fell to the ground and was discharged. The ambushed Indians thought they were discovered and the two signal shots were fired, closely followed by the full volley from the three sides of the clearing. In an instant the soldiers had their guns and fired a volley before they broke for shelter.

After the first volley was fired the troops scattered and the right wing seemed about to break. All the men retreated to safe shelter and the fight began in earnest. Gen. Bacon at once assumed command with Lieut. Ross in charge of the extreme left and Major Wilkinson in the center. Col. Sheehan assumed the command of the right wing. Never was more or greater personal bravery shown than these officers displayed. Gen. Bacon, with a gun in his hand, seemed to be everywhere at once. Now he was calling out to the soldiers to steady and encourage them and again he was lying down shooting carefully at the fitful puffs of smoke in the woods, practically the only sign of the enemy.

"Steady, boys, steady," his calm, cheerful voice rang out, "be careful and don't waste your ammunition." The men responded with a cheer and taking courage resolved themselves into machines whose only business seemed to be pumping the lever and pulling the trigger of their Krag-Jorgensons.

But above all other cries and even the noise of the battle could be heard the voice of Maj. Wilkinson as he walked up and down and around his line, crying at the top of his voice:

"Give it to them, boys; give 'em hell! We've got 'em licked! Give 'em hell!

Early in the fight a ball grazed the major's right arm, making a slight flesh wound, but he paid no attention to the injury. A few minutes later another bullet hit the major's left leg just above the left knee. He fell to the ground and called to his lieutenant:

"I'm hit, Ross, but not badly. Keep 'em at it." A hospital steward dragged the wounded officer around the corner of the house and applied a tourniquette to the wounded leg to stop the bleeding. The major sat propped up against the corner of the house for an instant, but he could not stand it long and was soon back in the thick of the fight, cheering and directing his men.

Maj. Wilkinson's Death.

A few minutes later another ball struck the officer on the right side and passing completely through his abdomen emerged on the left side. The major fell to the ground instantly and the surgeon, who was at his side almost as he fell did not need to tell him that the wound was fatal. Gen. Bacon rushed to where the dying officer lay.

"Give 'em hell, general! give 'em hell!" said the dying officer. They were his last words. In a few moments his life had passed away. A brave officer had given his life that the authority of the government might be preserved and that an old Indian might be punished for refusing to tell who sold him whisky.

After the first attack, which lasted about half an hour, was over, there was a respite of half an hour and then the attack was renewed, fiercer than ever. But the soldiers had settled down by this time and the attack was easily repulsed. Four times more the attack was renewed, but each time it was repulsed with vigor, and at last, about 3 o'clock, the fight having lasted three hours and a half, the main body of the Indians seemed to withdraw. From time to time afterwards a few shots were fired from the woods and were replied to by the soldiers, but all semblance of an organized attack was over.

Early in the fight the steamer Flora left the bay and steamed away toward Walker, leaving us all alone to resist the attack or be driven into the lake. The Flora, under orders from Marshal O'Connor, proceeded at once to the agency for the purpose of obtaining reinforcements from Lieut. Humphrey's little band of twenty men, who are encamped there. Lieut. Humphrey refused to leave camp, saying that he had been ordered to remain where he was by the general and that he would remain there until ordered elsewhere by the general, a course which Gen. Bacon commends.

Directly after the Flora, the Chief pulled away from the bay and started for town. The excuse her captain gives is that Col. Tinker was obliged to send a telegram and was forced to go at once to town.

Beaton, Knappen and myself lay on the shore for several hours waiting for a steamer to arrive to bring us back to Walker. We expected a dispatch boat early in the afternoon, but it did not arrive until after 6 o'clock. As the boat approached the shore it was fired upon by Indians concealed in the trees. As soon as the first shot was fired the boat turned and dashed away around the point and we never saw it again. With the coming of night

The Battle Was Over

and after assisting the hospital steward to care for the wounded we went to the blockhouse, where the soldiers were encamped. The house made a good barracks, for it was built of heavy logs.

The battle developed several cases of bravery and hardy courage that should be recorded. The hospital steward, who had charge of the hospital stores, will probably be recommended to the president as worthy the medal of honor. The young man's name is Burkhard and his home is in Red Wing. He is a recruit and has

Altogether the battle is proof of the fact that Indians, in spite of their woodsmanship and their method of fighting, are no match for the boys who wear the blue of Uncle Sam's army.

—Will H. Brill.

Freak of Kansas Wind.

J. B. Stinebaugh relates a very queer incident of yesterday evening's storm. He, with his wife, son and daughter, was at the farm of E. S. Stinebaugh, six miles south of the city. They were all out of the buggy except the son, a boy of twelve years, when a gale of wind caught the buggy and tore the harness into shreds, separating the buggy from the horse. The buggy, with the boy in it, shot up into the air several feet and turned completely over, landing several feet away upon the ground, a mass of ruins. The boy came down on top of a woven-wire fence, but was uninjured. Mr. Stinebaugh went out to-day after what was left of the buggy. He says he has had several experiences with storms and wind, but never saw anything to equal his experience on that occasion.—Ottawa Herald.

He Was Too Hasty.

"Why is it" he asked, "that beautiful women are always the most stupid?"

"Sir," she replied, "am I to understand that you desire to cast reflections upon our mental capacity?"

"Oh, no!" he hurriedly returned. "I have always said that you were one of the brightest girls I ever—"

But he didn't finish. Before he could do so he realized that he had said the wrong thing, and could never make it right.—Chicago News.

A Financier.

"Briggins makes money by establishing creameries in country towns, does he? I thought it was a notorious fact that little creameries don't pay?

"That's it. His agent works up a creamery enterprise in some small town, and Briggins goes there the next year, buys up the machinery for a song, and sells it to some village where they have never had a creamery."—Chicago Tribune.

Not a Reform Candidate.

Miss Golden—No, Mr. Rounder, I can never be your wife.

Mr. Rounder—But may I not hope? Perhaps in time, when you know me better—"

Miss Golden—That's the trouble, Mr. Rounder; while it would be impossible to know you much worse, there is no earthly hope of anyone knowing you better.—Chicago News.

She Just Couldn't Help It.

"I met that little Miss Pennyweight," said the returned volunteer, "for the first time since we got back."

"Did she kiss you?" asked the other volunteer.

"Naw; I struck an attitude, all right, and then she asked me if I had not been out of town."—Indianapolis Journal.

A Promise.

"Now, Josiar," said Mrs. Corntossel, "I don't want you to have nothin' to do with any game of chance while you're in town."

"Mandy," he answered, "I won't. I'll take pains to hunt up some o' them sure-thing games I've hear'n tell about."—Washington Star.

Delicately Put.

He would not say that she painted, powdered and all that. He was too much of a gentleman for that.

"Still, I may as well confess," he said, "that she impresses me as one who thinks she can improve upon the Lord's handiwork."—Chicago Post.

The Hypnotist.

"Do you not feel exhausted after a session?" asked a curious individual.

"Oh, no," said the hypnotist, lightly; "it is all in the daze work."—Cincinnati Enquirer.

Set Him Thinking.

"Millie," said her six-foot husband, you are a jewel."

"Yes," said Millie, sweetly; "a jewel with a big J."—Indianapolis Journal.

TAKES A VERY SERIOUS TURN

SITUATION AT THE AGENCY IS RATHER UNFAVORABLE.

Supposedly Peaceable Indians Fail to Attend a Council at Which They Had Promised to Be Present—One Chief Sent in Word That He Had a Good Army Himself and Didn't Know Which Side He Would Take—Nothing Was Accomplished by the Council—Most of the Indians Present Professed a Desire for Peace.

Walker, Minn., Oct. 11.—The situation at the agency took a rather unfavorable turn yesterday. A council which had been called for noon and which it was expected would be attended by most of the Indians who have come in, amounted to nothing. Flatmouth was not there, nor was Mah-ge-gah-bow. The former is chief of the Cass Lake crowd who are camped on Squaw point, just north of the narrows. He was in at the council with Agent Sutherland on Friday and spoke very fair, but he went back to his camp and has not been seen since. He sent in word by some of the Indians that he had a pretty good army himself and he did not know whether he would come to the agency or go the other way.

Another report was that about half the braves, thirty or forty, who were with him, had gone off, perhaps to join the Bear Islanders, and that Flatmouth and the others were undecided whether to go with them or to come in. The agency Indians are evidently somewhat dubious about Flatmouth and have been all along, in spite of the fact that he

Protested Friendship

and signed the pledge of peace.

Mah-ge-gah-bow is the head man of the Bear Islanders who brought over a portion of the band to the agency point and was in camp four or five miles from the agency proper. He had promised to have all his followers in at the agency at noon yesterday and had also pledged himself to bring in Flatmouth and his men. Teams were sent out to bring in Mah-ge-gah-bow's people, but only squaws and children were found there. There were twenty-one men in the party and they had gone. But there is nothing particularly significant in this, as most of them were seen about the agency in the morning.

The council did not come off until about 3 o'clock. The agency room was filled with Indians and there was a good deal of conversation between them while the speakers were being questioned. Col. Harbach spoke briefly, advising the Indians that the soldiers were not there to harm the friendly Indians, but

To Protect Them

from the hostiles. Dr. Hart also explained the situation from the standpoint of the agency authorities. Col. Sheehan spoke for Marshal O'Connor. He described the battle to some extent and told the Indians that the authorities would never rest until they had the men they came after, if it took all the winter.

Then came, with all the formality of handshaking, No-din-wah-quah-aun, a Pine point chief. He said they all understood the situation and wanted to be peaceable and obey the government.

Butcher, an agency Indian, then spoke. He referred to the two churches at the agency, and said that while they stood there should be no trouble. The last speaker was Hah-quah-ne-e-gunce, or Bear Trap. He is a Cass Laker, one of Flatmouth's band. He tried to explain the absence of Flatmouth by saying that it was Sunday, and it was supposed the soldiers would observe the Sabbath. This was all very well for an Indian quibble, but he was pressed hard. He was asked point blank whether Flatmouth would be in to-day. He admitted that he did not know, but that if he did not, the rest of them would come, and Flatmouth would be left all alone. Nothing else could be done, and the council was adjourned until to-day.

Hostiles Heard From.

The situation is ominous and full of all sorts of possibilities of danger. If to-morrow's council is not satisfactory it is unlikely that there will be any further delay on the part of the authorities, but active operations against the hostiles will probably be begun at once.

Gus Beaulieu has just come over from the agency. He says that he was present at the council of agency Indians at which a messenger, Mongouse, brought in word from the hostiles. Mon-gouse said that the hostiles are camped at Black Duck point, about seven miles southeast of the battle ground. He says there are just thirty of them to a man and that there were not that many in the fight. The hostiles say they will stay right where they are now and are ready for a fight with the soldiers or United States marshals.

"We will fight them like men," so the message runs. "We are not making war on the white people, the settlers or townspeople. They can pass us without fear of harm, but if the soldiers come we will be ready for them."

Mill Burned.

West Superior, Wis., Oct. 11.—The mill of the Amnicon Lumber company, at Amnicon, thirty miles south of here, burned. The entire amount of lumber in the yards is also burned. Loss about $60,000. Nothing is known as to how the fire started, but it is thought it was from a spark from the engine. The mill had a capacity of 65,000 feet per day.

Free of Plague.

Calcutta, Oct. 11.—The city was officially declared free of plague.

CANNIBAL FEAST.

Slaughter of Head Hunters in Western Australia.

Victoria, B. C., Oct. 11.—News received from Australia by the Warrimoo states that head hunters, a cannibal faction of the natives of Rendova, have of late been extremely active in the prosecution of their horrible custom, and a terrible atrocity was committed by them on the western portion of the protectorate. They captured a village, and, after slaughtering many inhabitants, returned home with thirty prisoners. These thirty were killed and eaten at a barbaric feast given by the head hunters in honour of their victory. One of the most notorious of the head hunting chiefs has since been captured by the British.

REMAIN IN CUBA.

Gen. Blanco Gives His Soldiers a Chance.

Havana, Oct. 11.—Capt. Gen. Blanco has issued a decree permitting the soldiers, both regulars and volunteers, who served their country six years as required by law, to remain in Cuba. Some of the soldiers will take advantage of the proclamation and lay down their arms to enter peaceful pursuits here, although the authorities have a large number who choose to return to the peninsula. This proclamation comes as a surprise and goes to show that Gen. Blanco desires to treat the soldiers with the utmost fairness and do that which seems to him for the best interests of Spain, Cuba and his soldiers.

REPATRIATION.

Spanish Government Will Give Up Philippine Prisoners.

Madrid, Oct. 11.—The government has resolved that the Philippine prisoners held by Spain will be repatriated, also the negro soldiers who came here from Cuba. Gen. Jaudenez, who made the communication to the Spanish government, has given the opinion that if Spain returns the Philippine prisoners Gen. Aguinaldo will give up his Spanish prisoners. Some astonishment has been caused here by the announcement that one of the chiefs of the staff of the Spanish army in Porto Rico has begged to be retired, as he wishes to reside in the island.

BORROWING TROUBLE.

South Dakotans Fear an Indian Uprising.

Sturgis, S. D., Oct. 11.—Reports reach here hourly that among cattlemen great uneasiness is felt owing to peculiar actions of Indians who, it is feared, are about to follow the example of the Pillagers. Should they go upon the warpath nothing could be done to protect outlying settlers, as only troops enough for garrison duty are left at Fort Meade. Great excitement exists.

Robbers Quickly Captured.

Jackson, Minn., Oct. 11.—A farm hand, Nels Swanson, was held up at the point of a revolver by three strangers and relieved of $15. The robbers were pursued and overtaken by Deputy Sheriff Dunn three miles east in a schoolhouse. They pulled a revolver, but were covered by Dunn and brought to jail. The names given were John Heffron, Bert Carroll and John Carroll. The hold-up occurred in the railroad yards.

Threshers Robbed.

Winona, Minn., Oct. 11.—A crew of threshers from the Dakota grain fields who boarded a freight train at St. Paul on Thursday night, bound for Winona, were held up by four men who entered the car just as the train was starting. The crew was relieved of all the money they had, about $950. Four of the crew were thrown off for attempting to resist. The robbers then dropped off and nothing more was seen of them.

Shot Accidentally.

Grand Forks, N. D., Oct. 11.—News was received here of the shooting of Alfred Knowles while on his way to his claim near Conway. Knowles was riding with another man on a wagon with a hay rack. The man who was with Knowles says a gun was lying on the bottom of the hay rack. He heard the gun discharge and saw Knowles fall. The latter lived an hour and a half.

Two Men Burned to Death.

Sioux City, Iowa, Oct. 11.—Two men were cremated in a fire at the Hotel Grande, at Leeds, two miles from here. They registered after every one else was in bed except the landlady, Mrs. K. J. Glenn. She cannot remember their names, and the register was burned with the building. The Leeds Creamery company's plant was also consumed. The total loss was $5,000.

To Be Mustered Out.

Sioux City, Iowa, Oct. 11.—Members of the Fifty-second Iowa volunteer infantry are gathered in Sioux City to the number of 600 or 700 on their way to Des Moines to be mustered out of the service. They began arriving here Saturday night, and will leave for the capital this morning.

Postoffice Looted.

Caledonia, Minn., Oct. 11.—The postoffice here was broken into, the safe blown open and robbed of $50 in money and stamps. No arrests, though vigorous pursuit is being made. A reward of $200 is offered for the conviction of the offenders.

Bad Fire at Tomahawk.

Tomahawk, Wis., Oct. 11.—Bice Bros.' box factory, Bradley company's planing mill, a car loaded with lumber, a car loaded with empty boxes, one dwelling house and a feed mill were destroyed by fire.

Donnelly Declines.

Hastings, Minn., Oct. 11.—Ignatius Donnelly of Nininger, the middle-of-the-road nominee for the vice presidency of the United States, has declined to become a candidate for reelection to the house on the Populist ticket.

Deaths in the Thirteenth.

Manila, Oct. 11.—The following deaths have occurred in the Thirteenth Minnesota: Louis Bailey, Marion Pulton, dysentery; Jesse Stegner and William Ball, typhoid fever.

EXPECTING AN ATTACK

ARMED CITIZENS GUARDING THE TOWN OF FARRIS.

A Band of About One Hundred and Fifty Indians Are Camped Near the Town—Would Be Entirely at the Mercy of the Indians Should An Attack Be Made—Reported Killing of a White Man Near Bear Island—Indians Running Their Women and Children Deep Into the Wilderness — Settlers Seek Shelter.

Farris, Minn., Oct. 11.—Anxiety is increasing daily among citizens. Indians are reported taking their women and children north into the wilderness, and they are seen passing along the trails during the nights in large numbers. After disposing of the women and children the Indians who are in sympathy with the renegades will return to reinforce those already fighting. Small bands of armed Indians are seen daily making their way south in the direction of Bear island.

Government timber estimators and cruisers for the different lumber companies have arrived from the Indian country seeking shelter, and report having seen several Indian runners on the Red lake Indian trail going in the direction of Red lake to get other Indians to join the renegades. One of these Indian runners told the cruisers of the battle at Bear Island, saying the Indians whipped the troops. "More soldiers are coming. Going to get more Indians. One Indian with four soldiers." The Indians are jubilant over the victory they claim, and say they had hot bacon for dinner Wednesday, claiming they fired the last shot. Citizens apprehend that Gen. Bacon's report of victory was premature, as the facts do not sustain that presumption. The citizens

Are Practically Unarmed

and would make feeble resistance if attacked by Indians. A report reached here late last evening of the killing of a white man near Bear island during the day. Settlers living near the Indian reservations are seeking shelter in the towns along the railroad. A large band of Indians, about 150, is reported camped within two miles north of this town. Armed citizens are guarding the town, expecting an attack during the night or early morning. Indians professing to be friendly were at Graceland, a mile and a half west of here, trying to purchase ammunition.

It is known that there is a number of desperate Indians living north and west of Lake Winnibigoshish who join the renegades with little provocation. Many who wanted to avail themselves of the opportunity to cut down timber last season were crowded out by white men having Indian women who have not lived on the reservations, causing much dissatisfaction among the Indians. This town would be entirely at the mercy of the Indians should they make an attack. The difficulty under which Gov. Clough is laboring in his endeavors to get troops here to protect the people is fully appreciated.

AT THE AGENCY.

Gen. Bacon Takes Part of His Command to Leech Lake Agency.

Walker, Minn., Oct. 11.—Gen. Bacon wired Washington to know what action had been taken with regard to protecting Cass Lake, Red Lake and other neighboring settlements, so that he might co-operate with other forces. Gen. Bacon, with 200 soldiers of the Third Infantry, embarked at Walker on transports and went to the Leech Lake agency, where the command went into camp, and which will be in command of Lieut. Col. Harbach during Gen. Bacon's absence in Walker. The camp has been named Camp Wilkinson, in honor of the gallant soldier who fell in Wednesday's battle.

WILL SURELY END IT.

Commissioner Jones Will Talk to the Indians.

Washington, Oct. 11.—Commissioner of Indian Affairs William A. Jones left for the scene of the trouble. He will have a talk with the disaffected men and will endeavor to induce them to submit to the regular process of the law. Commissioner Jones is convinced that a talk with the leaders and an assurance given that they would be protected and rightly treated would bring about a cessation of hostilities.

In Memory of Parnell.

Dublin, Oct. 11.—Most of the citizens of Dublin wore the ivy leaf yesterday, it being the anniversary of the death of Charles Stewart Parnell. Thousands participated in the cemetery, the lord mayor and council, delegations from the municipalities and chief towns of Ireland in full regalia taking part in the ceremony.

Stolen Wealth Restored.

Stevens Point, Wis., Oct. 11.—The $15,000 stolen from its hiding place under Joseph Strewsbach's woodshed floor a few days ago, was returned to the old hermit by Sheriff Wheelock, who received $3,000 as a reward. The sheriff refused to divulge to the public the name of the burglar and no prosecutions will follow.

Dying Like Flies.

London, Oct. 11.—A dispatch to the Daily Chronicle from Alexandria says: The troops that have returned from Khartum are dying like flies from enteric disorders, supposed to be due to canned beef and indulgence in spirits.

Farm Residence Burned.

Black River Falls, Wis., Oct. 11.—The farm residence of Charles Sprester, two miles west of two, was totally destroyed by fire Friday, but the contents were partially saved. Loss, $1,200; insured for $500.

HANNA WILL STICK.

Has No Intention of Resigning the Campaign Managership.

Chicago, Oct. 11.—The Tribune's Cleveland, Ohio, special, says: Senator Hanna was asked whether it is true that he will not continue the managership of the national Republican committee for the coming campaign. The senator said that he had no intention of resigning. Should, however, the senator decline to manage the presidential campaign for 1900, it would not be because of any friction between the two, but because Mr. Hanna might be convinced that the chances of the president would be enhanced by a new manager.

GATHERING OF KNIGHTS.

Twenty-Seventh Triennial Conclave of Knights Templars.

Pittsburg, Oct. 11.—Not in the history of Knight Templar conclaves, from 1816 to this day, has a conclave ever been opened on a more beautiful day than it was in Pittsburg yesterday. The influx of Knights, which commenced Saturday, continued during the night and last night, when the conclave was formally opened by the festal sermon at the Trinity Episcopal church. There was a congregation assembled larger than this historic building ever held. It was the official divine service of the Knights Templars.

GEN. LAWTON ILL.

Comes North on a Three Months' Leave.

Santiago de Cuba, Oct. 11.—Maj. Gen. Henry W. Lawton, military governor of the department of Santiago, will sail for the United States in the course of a few days having been granted three months' leave of absence because of ill health. His duties as military governor will be discharged by Brig. Gen. Wood, most of whose present official duties will in turn be discharged by Maj. McLeary. A few other changes will be made.

REMAIN IN HONOLULU.

First New York Doing Garrison Duty.

Washington, Oct. 11.—Concerning the published story that the First New York was en route for Manila to reinforce the American troops already there, the war department made public the following from Gen. Merriam, commander of the department of the Pacific: San Francisco, Oct. 9.—Adjutant General, Washington: Entire First New York regiment and Maj. Fitzwith's volunteer engineers remain in Honolulu doing garrison duty.

A COSTLY FIRE.

Heavy Damage Done to Pleasure Resorts at Atlantic City.

Atlantic City, N. J., Oct. 11.—The most costly block of amusement buildings and stores on the beach front was destroyed by fire. Twenty buildings, occupied by about fifty business establishments, were burned and a half dozen families were rendered homeless. The loss is estimated at $200,000. For a time the conflagration threatened to get beyond the control of the local fire department and assistance was sent from Camden.

Three Boys Cremated.

Green Bay, Wis., Oct. 11.—Three boys—Emil and Frank Daniels and Joe Junkle—have been burned to death while sleeping in a barn near this city. The origin of the fire is unknown. Three horses and a large amount of farm products and implements were burned.

Brought Down Gold.

Victoria, B. C., Oct. 11.—The steamer Amur arrived from Skaguay, Alaska, with about $300,000 in gold dust and a number of passengers from Alaska.

VOICE OF STATE REFORM PRESS.

TERRIBLE ARRAIGNMENT OF THE REPUBLICAN PARTY BY REPUBLICAN EDITORS—ITS CANDIDATE UTTERLY UNWORTHY AND UNSAFE.

COMMENT ON THE EUSTIS RECORD

Vigorous Work of the Reform Press—The Cause of Party Slavery—Reform Can Only Be Secured By Burying the G. O. P. Under an Avalanche of Votes. Good Words for John Lind, the Winner.

A most significant feature of the state campaign is the unanimity of the Reform Press in the sledge hammer blows they are dealing for the Reform cause. Their news and editorial columns are crowded with the most effective matter. And so effective has this been that in some instances they are joined by representative and hitherto straight out Republican papers. The latter not only repudiate Guaranty Loan Candidate Eustis, but denounce the party itself. A specimen of this is the Anoka Union, edited by Granville S. Pease, who for a generation has upheld the Republican party banner through thick and thin. In taking such course Mr. Pease makes the following arraignment of his party:

"The Republican Party of Minnesota is today controlled by the most unscrupulous lot of politicians that ever disgraced any party. They realize their strength and power fully. There is a gang for reaching, almost as the limits of the state from Lake Superior to the Iowa line. They will stoop to everything to carry their point. These leeches and hangers on are encountered everywhere. Their bread and butter depends upon the success of the Republican party, for they are not fitted to hold any position save a political one and that by the grace of the gang. Money is their God and money is all that talks with them. A REPUBLICAN LEGISLATURE MUST BE BOUGHT. IF A BILL IS PASSED AND MANY OF THE MEMBERS HAVE TO BUY THEIR WAY TO THE LEGISLATURE. A candidate for most any office must throw money to the right and left if he wants the nomination. THE QUESTION IS NEVER ASKED NOW. 'IS HE FIT FOR THE POSITION?' BUT 'HOW MUCH MONEY WILL HE PUT IN TO WIN?'

"The people, and if you sound them, you will have to admit it, ARE WEARY OF POLITICS AS EXEMPLIFIED BY THE REPUBLICAN PARTY OF MINNESOTA. They realize that they are powerless to improve the conditions as long as they blindly follow the beaten paths as provided by the leaders of several years past. THEY ARE WILLING TO RISK TURNING OVER THE STATE FOR TWO YEARS TO THE OPPOSITION, TO RID THE STATE OF LEECHES, THESE CORRUPTIONISTS, THESE MAMMON WORSHIPPERS, believing that in so doing they are performing an act which will ultimately redound to the benefit of every self respecting man in Minnesota. They do not believe it possible to dissolve the fetters now holding a death like grip upon the politics of the state UNLESS THAT GRIP IS LOOSENED BY BURYING THEM SO DEEPLY BY AN AVALANCHE OF VOTES THAT THOSE WHO KNOW NOW WILL KNOW THEM NO MORE FOREVER."

THE BEAUTIFUL FROST.

Commenting on the statement of the Anoka Union (Republican) that 40 out of 300 Republican papers in Minnesota are supporting Eustis, the Martin County Sentinel says:

"The Eustis frost is not confined to the newspapers—it exists everywhere among old soldiers, Republican voters, in the State Capitol building, in Minneapolis and especially wherever a Guaranty Loan victim resides. When a reporter goes in search of Eustis enthusiasm he is invariably directed to the next county."

The vigorous character of Reform Press comment is indicated by some extracts.

EUSTIS AND GUARANTY LOAN.

Winona Herald: Elsewhere in the columns of the Herald may be found a summary of the record of Mr. W. H. Eustis AS AN ACTIVE AND BONA FIDE DIRECTOR OF THE NOTORIOUS GUARANTY LOAN COMPANY. A company that absorbed thousands upon thousands of dollars of the peoples money in this state, through the rascality of Louis F. Menage, combined with the board of directors of this company, who failed to give it that investigation it was their duty to do. AMONG THESE DIRECTORS WAS W. H. EUSTIS THE REPUBLICAN CANDIDATE FOR GOVERNOR OF MINNESOTA. The victims of this notorious swindle, which was the most gigantic ever organized in the Northwest, are found NOT ONLY IN THE LARGER CITIES, BUT ALSO IN THE SMALLER CITIES AND TOWNS OF MINNESOTA. There is scarcely a hamlet in the state, but can furnish one or more, who were the sufferers from this financial maelstrom into which they were unsuspectingly drawn.

A great many citizens of our state were induced to become investors in what proved to be a mammoth swindle FROM THE VERY FACT THAT W. H. EUSTIS AND OTHER MINNEAPOLIS CAPITALISTS WERE DIRECTORS. HE LENT HIS NAME AND "MORAL INFLUENCE" TO THIS OCTOPUS, AND HIS FELLOW CITIZENS BY THE SCORE WERE INVEIGLED INTO ITS MESHES.

He is the candidate on the Republican ticket who is now making a tour of the state, asking the people to entrust to his keeping the highest executive office within the commonwealth of Minnesota. IS IT PROBABLE THAT A VICTIM OF THIS SWINDLE WILL VOTE FOR MR. EUSTIS? IS IT PROBABLE THAT A VICTIM OF THIS SWINDLE WILL ADVISE ANY OF HIS FRIENDS TO VOTE FOR MR. EUSTIS?

BLOW TO FINANCIAL STANDING.

The Northfield Independent makes this application of the Guaranty Loan record of Candidate Eustis, as to the effect his election would have on our financial standing in the East. "Two years ago," says The Independent, "they said that if it became known in the East that John Lind had been elected governor, our financial prestige would be ruined and thousands of dollars would be withdrawn from this state. Now, what will these same people think if the state elects for governor A MAN WHO WAS A DIRECTOR IN THE CONCERN THAT SWINDLED THEM OUT OF MORE MONEY THAN ANY OTHER SCHEME EVER WORKED? The Northwestern Guaranty Loan Company is known all over the East by the thousands whom it swindled. HOW WILL IT EFFECT THE FINANCIAL STANDING OF THE STATE TO HAVE IT KNOWN THAT ONE OF THE DIRECTORS OF THIS COMPANY HAS BEEN ELECTED GOVERNOR? DOES ANY ONE THINK THIS WOULD BE A GOOD RECOMMENDATION AMONG EASTERN CAPITALISTS?"

A JUST COMPARISON.

Fulda Free Press: Hon. John Lind is the "Honest John" he is reported to be, and that is why the people will vote for him and make him governor. You cannot vote for a man more honest, upright, able and better a statesman than John Lind. What more do you want? Does his opponent come up to this mark? We hardly think it.

THEY CANNOT EXPLAIN.

Moorhead News: Let the Republican press explain to the farmers of the state how they were benefitted by the state prison board turning over to dealers the product of the twine plant, under which said dealers were able to make a profit of 100 per cent on such product, in BUYING THE TWINE FOR SIX AND ONE-HALF CENTS PER POUND AND SELLING IT TO THE FARMERS FOR TWELVE TO FIFTEEN CENTS. Let them explain the actions of the state grain inspectors at Duluth and Minneapolis, in grading wheat that fully answers the discription of No. 1 Northern as No. 2, THEREBY STEALING FIVE CENTS PER BUSHEL FROM THE FARMERS.

OUT WITH THEIR GUNS.

Pine County Record: There is such a pronounced feeling against Eustis all over the state, and especially among the better class of people, that there is no way to stem the unpopularity. The G. A. R. men are out gunning for his scalp all over the state, and their influence will be felt. They mean business. They are paying an old score on which there is lots of accumulated interest which must be wiped out.

GIVING THE RECORD.

Fertile Journal: On our last page we publish an account of the connection of W. H. Eustis, Republican candidate for governor, with the Guaranty Loan company, that gigantic fraud of Minneapolis, in which hundreds of poor people lost their all. Next week we will have something to say of his connection with the Minneapolis City Hospital steal.

A PUBLIC FOE.

Speaking of the City Hospital site deal in Minneapolis, The Democrat of that city says: "All the people of this state are interested in this matter, and none should plead ignorance of the fact herein stated. THEY ARE MATTERS OF PUBLIC RECORD, AND HONEST PEOPLE SHOULD INVESTIGATE, and with the results of the investigation arm themselves to ward off a public foe."

DROP A TEAR, PLEASE.

Minneapolis Democrat: The poor old g. o. p! At last it has been brought to its knees by the vandals having it in charge! Drop a tear here, please!

A POOR DEFENSE.

Moorhead News: The only defense that the Minneapolis Journal makes for Eustis against the charges in relation to his connection with the Northwestern Guaranty Loan Association and the Minneapolis city hospital steals and robberies is that Mr. Eustis did not make a dollar out of either. THIS WILL HARDLY SATISFY THE PEOPLE. THERE IS LITTLE DIFFERENCE IN HIS CULPABILITY WHETHER HE MADE MONEY FOR HIMSELF OR HIS CLOSE POLITICAL AND BUSINESS FRIENDS.

JOHN LIND WILL DO IT.

Fertile Journal: John Lind, in a recent speech, touching upon state issues, said there never was a time in this state when it behooved honest and conscientious men to be alert as it does this year. Abuses had existed, and do exist—abuses in the matter of taxes and transportation rates that work an injustice to the great mass of the people. Certain state institutions had been run to the detriment and scandal of the state. He did not expect to be able to correct everything if elected, but he would do his best.

HE SAVED THE MILK.

It Required Genius to Do It, but He Was Equal to the Occasion.

"Talking about cows," said Andy Henderson, "I really think that I had one of the most peculiar experiences with the animals in question that ever befell a citizen of west Texas. It was soon after I went to El Paso, some ten years ago, and before I had got familiar with the vagaries of the El Paso climate.

"I had settled on a very pretty ranch some miles out of the progressive frontier city and was doing nicely until I decided to go into the butter business. I sent east for a dozen fine Jersey cows and began operations. Well, the cows came on, and I hustled the butter business from the jump. Things progressed nicely for a month, when the weather grew very warm and the atmosphere very dry. The Rio Grande dwindled until a roach could have waded across. Every bit of moisture disappeared, but this did not affect me, because I had a fine artesian well on the ranch and plenty of water. I observed, however, that my cows were losing milk day by day, until at last they were perfectly dry. I was astounded, for they had plenty of feed and lots of water from the well. I couldn't understand it and determined to investigate.

"I got up an hour before daylight and examined the cows, and, to my astonishment, I found the udders of the cows heavy with milk. I did not milk the the animals, but simply watched and waited developments. Day dawned and the cows lazily meandered into the pasture, and I followed. The sun came up, and with the sun came the terrible dryness, but it didn't feaze me in the least. What knocked me out was the sight of my cows' udders. They were growing smaller and smaller as I looked until they were as flaccid as a punctured tire. Then I tumbled. The dryness of the atmosphere simply evaporated the milk through the walls of the udder.

"What did I do? Why, I varnished the milking apparatus of the beasts and the milk couldn't ooze through the flesh. That stopped it."—New Orleans Times-Democrat.

A Burmese School.

The uproar was like that of a runaway engine tearing through a tunnel. The floor was littered with youngsters lying on their stomachs, and all bawling with an energy indicative that somebody was hurting them. Long, slim, scratched upon slips of palm leaf, the equivalent of books in Burma, were spread before the scholars. Making the lads shout is the approved method of elementary instruction. When the master discovers any lagging in lung exercise, a long switch begins to sing through the air. Quiet, serious study is exploded. The Burmese educationists argue that so long as a boy is shouting his mind is occupied. When he is silent, he is certain to be scheming mischief. Therefore the best shouters are the best pupils.—Travel.

Cruel Spaniards.

Spanish officers as well as men generally incline to cruelty and treachery. Here is a story in point, told by an excellent authority:

"In Alcala, the Guardia Civil—that is, one of the crack troops—was after a robber band. One of the robbers was caught. Being promised a full pardon, he gave away his comrades. This man had no sooner signed the paper that served as his death warrant for his late friends when the officer in charge said, 'We will begin with him.' The robber was immediately shot in the back of his head."

In 1870 Japan was visited by a terrible epidemic of smallpox, which almost decimated Yokohama. Vaccination was made compulsory in 1896. The Japanese are said to have been struck with the fact that pockmarked foreigners were rarely seen in Japan.

The Army and Navy.

Have covered themselves with glory during the war. The Army and Navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of navy and army terms, translation of Spanish words, etc. Send ten cents to Chas. S. Fee, general passenger agent, N. P. R., St. Paul, Minn., for a copy.

Now is the proper time to pay the printer. Please remember this as we have use of money once in a while too—and this is supposed to be harvest time with us. Up to date our crop has almost been a total failure.

LOCAL NEWS.

Politics are warming up.

Monday was pay day at the mill.

Look over the Five cent counter at Holl's.

Fresh Oysters, at the Ideal Lunch Room.

E. M. Hoff made a flying trip to the upper Falls Monday.

Miss Mary Quandy visited friends at Grand Forks last week.

Try a lunch, a meal or a weeks board at the Ideal Lunch Room.

A strange thing, aint it, why so many judge others by themselves.

For any kind of a musical instrument call at the Holmes Furniture Co.

Will Martineau left yesterday for the new town of Solway on a business trip.

County Auditor Mullarky was in the village last Thursday and part of Friday.

Prof. Adams was here the first three days of this week on professional business.

Supt. of Schools Frank Jeffers was here the first of the week greeting friends.

Chas. E Boughton, county attorney was here Monday attending to some legal business.

Mr. Andrew Steen who has been working in Crookston for a while returned yesterday.

A. R. Mattes cashier of the St. Hilaire Lumber Co. spent Sunday at the Polk county metropolis.

The Minneapolis Brewing Company's cold storage plant was replenished by a car load Monday.

G. S. Tergerson returned from his trip south Monday and reported having a very pleasant trip.

Another three million feet of logs for the St. Hilaire Lumber Co., reached here the first of the week.

Marcus Johnson came up from St. Paul yesterday to look after his milling interests at the county seat.

J. Q. Adams, the jewler and optician will be here again Oct., 10th, 11th and 12th, at Johnson's Drug Store.

Cashier Ellington of the Scandia American bank of Crookston was here yesterday on banking business.

A little Lass come to brighten the home of Mr. and Mrs. Peter Simensen last Friday morning Oct 7th 1898.

Several prominent ladies of Red Lake Falls were here last Friday evening and visited with the Royal Neighbors.

The Spectator has on hand a large stock of cards for campaign purposes. Leave your orders for 500 or 1,000.

Editor Mussey of the Thief River Falls Press was in the village yesterday and made this office a fraternal call.

Mrs. Fred Carlstrom left last Friday for an extended visit with her parents who reside near Garfield, this state.

Mrs. A. F. Bell and children of Thompson, N. Dak., arrived yesterday and will make St. Hilaire their future home.

The Standard Oil Company's tanks located at this point was filled to the extent of a few thousand gallons the first of the week.

Mr. Fred Carlstrom, the contractor left last Friday for Crookston where he will work at his trade for about two months and then return.

If you want a ladies coat or jacket, also children sizes call at the Great-western Clothing house and get them at the lowers possible prices.

The two loads of nimrods that camped on the duck passes west of here last Saturday came back the following day with one duck each to their credit.

The A. O. U. W. are having badges printed for their First Annual ball which will be held at the Hotel St. Hilaire Saturday evening Oct. 22nd.

Saturday—at Red Lake Falls.

Patriot and Statesman, honorable John Lind quartermaster of the 12th Minnesota volunteers, and candidate for governor will address the people of Red Lake Falls and vicinity Saturday, Oct., 15th at two o'clock p. m.

The great questions of State and National Government will be discussed from the standpoint of Patriotism, Honesty and Statesmanship. All who are interested in clean state government regardless of party ties are earnestly invited to attend this meeting and hear an honest, masterly presentation of the all important issues of the present Campaign.

Mr. Lind will come up from Red Lake Falls on the Great Northern and in all probabilities will deliver an informal speech at the depot while the train does the switching which will be about fifteen or twenty minutes. Go to the depot Saturday at 3:30 p. m. and see and hear the next governor of Minnesota.

Private Joe Johnson was released from the hospital and passed through here Monday enroute home to Thief River Falls.

Miss Nelson, sister of our genial druggist, has accepted a position as clerk in the Strawbridge Mer. Co., establishment.

—Familiarize yourselves to with the winning ticket that you will vote on the 8th day of November. You will find it on the second page of the Spectator.

Louis Glazier, a New Yorker, who shouted himself hoarse for protection, yellow money and prosperity in 1896, has sued Mark Hanna for services rendered.

The Greatwestern Clothing house will sell clothing at reduced prices in order to make room for a large stock of dry goods which will arrive about January 1st.

The A. O. U. W. will give their first annual ball at the Hotel St. Hilaire Saturday evening October 22nd. A general invitation to all. Tickets including supper $1.00.

Max Ericson of the California Wine house of Crookston was here Monday for the first time in three years calling on his old customers. He is a brother-in-law of Will Peterson.

The Spectator is making arrangements with a party and in all probabilities we will run a column under the head of "gossips." It will be interesting for a great many.

The Spectator will take cord wood on subscription—a good way for some to settle their accounts, and others can come around and saw the same and we will give them credit for same.

We are informed that the Indians on the reservation held a series of pow-wows last week for a few nights and then mysteriously left their haunts presumably to the scenes of the troubles over on Leech lake.

A pleasant party was given last Saturday evening at the dining room at the Hotel St. Hilaire. It was in the shape of a surprise on two young gentlemen who recently arrived from Canda, N. Dak., and who are relatives of the Dainard family.

The Ladies of the Norwigan sewing society of St. Hilaire will hold their annual auction in Norwegian church Saturday evening Oct. 15th commencing at 8:00 o'clock. Supper served Immediately after the auction. All are cordially invited.

John W. Eastman, secretary of the republican county central committee was here yesterday attending to political matters that came up before that body. All the county candidates were present at the meeting and matters of importance were brought up.

—The Crookston College building is now complete and is modern and up to date. The Institution is one of the best in the northwest. It is cheap, thorough and practical. By writing Malm & Sathre a catalogue containing full information will be sent to any address.

Messrs. A. A. and M. D. Leavitt of Ambry, Blue Earth county Minn. came up to look over the country last Thursday, and it suited them so well that they bought 160 acres west of town. Considerations $1,100. They will be back and commence farming in the spring.

A bold, bad robber got in his work at the Crookston Tribune job office and swiped some leads and slugs which are used in brief work so we see by the Mondays issue of that paper. Perhaps it was some infernal goose hunter after ammunition. Crookston has several of them.

Jack Knight the hunter and trapper who went to Alaska last spring returned yesterday to his oldstamping ground at Theif River Falls. He is well satisfied he got back alive and wants no more Alaska or Copper river experience He went clear up to the source of the Copper river and says there is no gold to be found.

If there was no other reason to vote the reform ballot than that the Republican party has run the state government of Minnesota for nearly forty years uninterruptedly, that alone is sufficient to require a change. Forty years in the wilderness is a long pilgrimage. The citadel of the Egyptians must be captured and thoroughly renovated. Their idols must be torn down and cast out. The money they have taken from the people must be counted. The accounts must be examined and the defalcations and misappropriations discovered and made good.—Moorhead News.

—The Spectator is the official paper of the village and county. Now is the time to subscribe. $1.00 per year if paid in advance—otherwise $1.50.

St. Hilaire State Bank.

St. Hilaire at last is to have a state bank with a capitol stock of $25,000.00, and all on account of Mr. J. K. Hannay of Minneapolis who was here last week looking over the town and obtaining facts which was entirely satisfactory. Before leaving Mr. Hannay purchased the corner lot on Broadway and Third street (the best location in town) and a suitable building will at once be erected. An institution of this kind has long been a necessity in St. Hilaire and no doubt will by appreciated.

Paul Fountain the gifted speaker of Minneapolis will address the people of St. Hilaire Friday evening on the political issue of the day. Everybody invited whether you be a republican, democrat or populist.

All the slush published against Judge Ives by the newspapers is paid for at so much a line. It appears that money is no object as it is asserted that one affidavit cost twenty dollars.

* * *

The voter must remember that for six years Judge Ives has been very popular with the farmers of this Judicial district and the people generally have given the Judge credit for his fairness on the bench even if he has at times ruled a little harshly against the bankers, liquor dealers, machine note collectors, chattel mortgage vampires and corporations.—Rosean Times.

Loucks and Douglas Swap Parties.

Mr Loucks, the South Dakota agitator has deserted the peoples party and become an ardent republican. On the other hand, Stephen A. Douglas of Chicago, a son of the great statesman of antibellum days, who was the democratic nominee for president against Lincoln in 1860, has renounced his allegiance to the republican party and joined the democratic party. He has been a life long republican and this is what he says: "For years I have been considered by the republicans as doctrinally unsound because I really believe this should be a government of the people, by the people and strictly for the people. This was the reason, without doubt, why I was not permitted by the machine to make a single speech in the state of Illinois during the campaign of 1896, though this year, under date of July 28, the republican state central committee honored me with a request to take the stump for them. Of late years the tendency of the republican party has been to fasten this government under the control of trusts and monopolies. The tendency of the democratic party has been to curtail the power of money and place the government in the hands of the mass of the people. I not only believe that this should be so, but I also firmly believe that the only thing that can prevent this country from being wealth ridden on the right hand or mob ridden on the other, is that the government shall be in the hands of the plain people. All my life, my sympathies have been with the people, having been taught this by two men I honor above all others—my father and Abraham Lincoln.' Therefore to-day I believe my proper place is in the democratic party, and there I shall abide."

WESTERN CANADA AT THE STATE FAIR.

One of the best Grain Exhibits ever made in the United States.

The thousands of people who visited the State Fair, held at St. Paul, as well as the county fairs throughout the State, were given the opportunity to see an exhibit of grains and grasses, and other products of the farm that seldom occurs. The exhibit spoken of was one that was made by the Government of the Dominion of Canada, for the purpose of demonstrating to the people of Minnesota that outside of the limits of their State and in Western Canada there was rapidly developing a country that would easily maintain all the surplus population of the overcrowded east. The exhibit was certainly a revelation to those who have never visited the provinces of Manitoba, Assiniboia, Alberta and Saskatchewan, where the grains and grasses were grown. The quality of the straw, the length of the grain heads, the excellence of the grass, all showed how remarkable must be the nature of the soil and the climate that could produce such. The threshed grains comprised the No. 1 hard wheat for which that country is so celebrated, some of it weighing as much as 65 lbs. to the bushel. One of the samples shown was taken from a field yielding 40 bushels to the acre, it being the sixth successive crop of wheat grown on that field. This is said to be an ordinary occurrence. The oats both in the straw and threshed were such as have never been seen at a Minnesota State Fair, While the barley was plump, heavy and bright. There were also peas, flax and other products of the field equally to be admired. The display of vegetables was excellent, the onions being as large as the celebrated Spanish article, the celery causing many a housewife to envy it, while the potatoes, turnips, tomatoes, cabbage and cauliflower are fitted for exhibition in a seedsman's window. There were also shown specimens of the soil, which B. Davies, Canadian Government Agent, 154 East Third St. Paul, who was in charge, explained, was the only soil capable of producing such a rich production as this exhibit certainly was. Of course the object of making the exhibit was to interest those desiring new homes or who wishes to better their present conditions. Mr. Davies says that fully five thousand heads of families have gone from different states of the union and settled in Western Canada this year They are now sending back glowing reports of the country. He has excursions leaving twice a week for Winnipeg and Edmonton, and will be pleased to send Samples and other information to those requesting it, by addressing him as above.

Frankly Acknowledged.

A story is told that recently in Los Angeles five prominent gentlemen men of foreign birth chanced to meet. One was a Russian, one a Turk, one a Frenchmen, one an American, and the other an Englishman. The gentlemen became bosom friends, and finally a champagne supper was proposed, at which each gentleman, to be in keeping with the times, was to give a toast to his native country, the one giving the best toast to be at no expense for the wine. Here are the toasts given:

The Russian—Here's to the stars and bars of Russia, that were never pulled down.

The Turk—Here's to the moons of Turkey, whose wings were never clipped.

The Frenchman—Here's to the cock of France, whose feathers were never picked.

The American—Here's to the stars and stripes of America, never trailed in defeat.

The Englishman—Here's to the rampin' roarin' lion of Great Britian, that tore down the stars and bars of Russia, clipped the wings of Turkey, picked the feathers off the cock of France and ran like h—l from the stars and stripes of the United States of America.

From Farm, Stock and Home.

October Notes.

If the coops are not yet thoroughly cleaned and ready for winter, see to it before it is too late.

It is a safe rule to follow; that all ailing fowls, no matter what the trouble, be separated from the flock.

Take time by the forelock and fix up the coops before a cold storm catches the chickens without winter quarters.

The old fowls should be well along in moult. If not they can be hurried up a little by giving green bone, oil-meal and the like.

Those are the nights when the flock lays the foundation of the trouble that you have in December and January. Colds now, roup later.

A certain number of eggs produced without cost is clear gain, but twice the number produced at a small cost may be more profitable still. Think over this.

Keep males away from the flock till the hens have entirely renewed their feathers. Better not let them together till about two weeks before you wish eggs for hatching.

The flock that lays the largest number of eggs for the owner may not be the most profitable. It is quite possible to produce eggs that will not sell for enough to pay cost of production.

Look the young stock over carefully for colds. If any rattle in the throat, or are running at the nose, they are subjects for the hatchet, or warmer quarters and a little doctoring. Don't neglect them or you will regret it.

Other things being equal, the prize winner will always be the one that has had free range, chased the most bugs, and dug the most dirt. Because it will be the nearest physical perfection, and this, combined with other standard requirements, will win the ribbons and bring their owner a long price.

Washington Letter.

From our Regular Correspondent.

The covert threat to reopen the war by sending a strong fleet to the coast of Spain, sent out from Washington this week, was ostensibly intended to scare the Spanish government into directing the Peace Commissioners, at Paris, to speedily accept the proposition made by the American Peace Commissioners but its real object is to try to make votes for republican candidates for Congress by stirring up the war spirit among the people, and asking them to stand by the administration because the war isn't over. It is a queer sort of voter that this sort of thing will influence. That the Spanish Peace Commissioners will quibble and delay as long as possible is the natural thing to expect from Spaniards, but ever fairly well informed person knows that Spain is just as much bound to accept the terms of peace imposed by this government as Greece was bound to accept the terms imposed by Turkey, last year. The war with Spain will not be reopened, and if there is any bluster in that direction, it will be solely for political effect.

Another very decided difference of opinion between the War Department and Gen. Miles, commander of the army has become known. Secretary Alger has repeatedly said that the volunteers who have not been ordered mustered out would be kept in service to do garrison duty in Cuba, Porto Rico, and the Philippines for an indefinite period. Senator Berry, of Ark., who has been trying to get some Arkansas volunteers mustered out, was also told that by Alger. Senator Berry then went to see Gen. Miles, and was told by him that it was not intended that volunteers should do garrison duty to any extent, and that he was absolutely certain that all of the volunteers would be mustered out shortly after the treaty of peace was signed.

War Department officials are unduly elated because the testimony of Gens. Joseph Wheeler, H. V. Boynton, and Fitz Lee, taken by Mr. McKinley's Commission, this week, has been of the not proven order. That is to say, neither of the generals named were personally cognizant of any mismanagement or neglect. It is beginning to be pretty well understood in Washington that the work of the Commission is to be so managed that no damaging testimony is to be taken until after the Congressional elections, unless it shall be given by some witness who gets marked "all right" by mistake.

—Dr. Blomburgh, the Scandinavian doctor has located in St. Hilaire. See his advertisement in another column.

FIFTY YEARS OLD

Why let your neighbors know it?

And why give them a chance to guess you are even five or ten years more?

Better give them good reasons for guessing the other way. It is very easy; for nothing tells of age so quickly as gray hair.

Ayer's Hair Vigor

is a youth-renewer.

It hides the age under a luxuriant growth of hair the color of youth.

It never fails to restore color to gray hair. It will stop the hair from coming out also.

It feeds the hair bulbs. Thin hair becomes thick hair, and short hair becomes long hair.

It cleanses the scalp; removes all dandruff, and prevents its formation.

We have a book on the Hair which we will gladly send you.

If you do not obtain all the benefits you expected from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be easily removed. Address, Dr. J. C. Ayer, Lowell, Mass.

As He Looked at It.

Mrs. Enpeck—Ah, well, things are never so bad but that they might be worse.

Mr. Enpeck (in whom the lion has suddenly been aroused)—I know it. I might be a Mormon and have three or four of you.—Chicago News.

How's This!

We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

West & Truax, Wholesale Druggists, Toledo, O.; Walding, Kinnan & Marvin, Wholesale Druggists, Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all druggists.

Hall's Family Pills are the best.

Women and weather are not to be trusted. No season is as brief as a woman's love.

To Cure Constipation Forever.

Take Cascarets Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

The man who always counts on his friends seldom figures on their calculations.

My doctor said I would die, but Piso's Cure for Consumption cured me—Amos Kelner, Cherry Valley, Ills., Nov. 23, '95.

He who has a handsome wife or a castle on the frontier is never without fear.

Told By Figures.

No fewer than 1,173 persons have been buried in Westminster Abbey.

Russia is said to own 3,000,000 horses—nearly one-half of the whole number in existence.

More than 500,000 sewing machines are made in this country annually, which is 90 per cent of the production of the world.

Taking the average depth of the sea to be three miles, there would be a layer of salt 230 feet deep if the water should evaporate.

The oldest university in the world is El Azhar at Cairo. It is the greatest Mohammedan university, having clear records dating back nearly a thousand years.

Artificial legs and arms were in use in Egypt as early as B. C. 700. They were made by the priests, who were the physicians of that early time.

CZARINA AND HER BABY.

Photograph That Embarrassed Russian Censors.

A photograph of the czarina nursing her baby recently appeared in an English newspaper, and when it reached the Russian censor the latter was a much-puzzled official. He consulted with the minister of the interior, who was equally perplexed, and who decided to consult with the czar.

"The best thing I can do," said the Russian emperor, "is to show this to the czarina, and let her decide."

In a few minutes, according to the story, the czar returned, and said, with a smile, to the minister of the interior: "Her imperial majesty finds nothing in the picture contrary to the law. Let it pass."

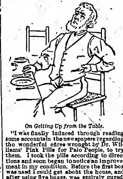
Give a man the little he says he wants here below and he'll kick himself because he didn't ask for more.

A DOMESTIC INCIDENT.

From the Observer, Flushing, Mich.

"Early in November, 1894," says Frank Long, who lives near Lennon, Mich., "on starting to get up from the dinner table, I was taken with a pain in my back. The pain increased and I was obliged to take to my bed. The physician who was summoned pronounced my case muscular rheumatism accompanied by lumbago. He gave me remedies and injected morphine into my arm to ease the pain.

"My disease gradually became worse until I thought that death would be welcome release from my sufferings. Besides my regular physician I also consulted another, but he gave me no encouragement.



On Getting Up from the Table.

"I was finally induced through reading some accounts in the newspapers regarding the wonderful cures wrought by Dr. Williams' Pink Pills for Pale People, to try them. I took the pills according to directions and soon began to notice an improvement in my condition. Before the first box was used I could get about the house, and after using five boxes, was entirely cured.

"Since that time I have felt no return of the rheumatic pains. I am confident that Dr. Williams' Pink Pills saved my life and I try to induce my friends who are sick to try the same remedy. I will gladly answer inquiries concerning my sickness and wonderful cure, provided stamp is enclosed for reply.

FRANK LONG."

Sworn to before me at Venice, Mich., this 15th day of April, 1898.

G. B. GOLDSMITH, *Justice of the Peace.*

A girl's hair draws more than a ship's cable.

Educate Your Bowels With Cascarets.

Candy Cathartic cure constipation forever, 10c, 25c. If C. C. C. fail, druggists refund money.

Every man knows how a wife should be managed, but few are able to do it.

A World's Tribute.

Progress
Triumph

America Leads the Nations in the March of Progress.

Among the wonders of the World's Columbian Fair the grandest was the exhibit of American products. The Exhibition was, in this respect, an object lesson of the grandeur and glory of the Republic. Among the exhibits from the United States no article of its class stood so high as

Dr. Price's Cream Baking Powder.

The Chief Chemist of the Agricultural department at Washington, backed by an intelligent jury at the Exposition, found it strongest in leavening power, peerless in its purity and beyond comparison in uniform excellence.

Received Highest Award At the World's Fair.

The award is a matter of official record.

Nothing could settle so decisively the immeasureable superiority of Dr. Price's over all other powders as the great honor bestowed at Chicago.

MINNESOTA ITEMS

The state board of equalization has adjourned sine die.

The October apportionment of the school fund divides $697,000 at $2.15 per capita.

Diphtheria has been reported at Knife Lake, about five miles above Mora. The school has been closed.

Dr. Lyman B. Sperry is delivering a course of lectures on hygiene and kindred subjects at Northfield before the students of Carleton college.

Mrs. M. A. Tyron, who for the past year has rented the Arnold House, at Owatonna, has purchased the same and will continue to operate it.

A cow kicked over a lantern in John Johnickey's barn two miles east of Woodstock, and the barn and contents were burned with small insurance.

The machinery warehouse of Frank Graham at Little Falls, together with all its contents were burned. Loss, $2,000; insurance, $900.

The contract for the vacuum, tanks, pumps and machinery in the Schuster brewing establishment at Rochester was let to the F. F. Vacuum company of New York for the sum of $6,000.

Julius Buckholz of Rochester was seriously injured by a heavy iron furnace falling and striking him on the head. Several stitches were taken near the left ear.

Mrs. Angeline Blaisdell of St. Cloud, against whom information of insanity had been filed by her brother-in-law, Coleman Bridgeman, has been declared sane.

Casper Janikula committed suicide at Delano by cutting his throat from ear to ear. Financial troubles are supposed to have been the cause. He leaves a wife and five small children.

While coupling cars at Argyle, Gale Kivel, a brakeman, slipped and fell, the cars passing over one arm, severing it below the elbow. Kivel formerly lived at Argyle, and has a married sister living there.

Burkhart's saloon at Mokah was badly damaged by fire. The bartender, Fred Geier, was burned to death. A barrel of alcohol exploded probably set off by the bartender, who is thought to have set fire to his clothes by starting a fire in the stove with kerosene.

The Morrison electric light plant at Mora is now running full blast. The streets of the village will probably be lighted from the plant. There is probably not another village in the state of the population of Mora that has an electric light plant.

The Minnesota State School for Feeble Minded, at Faribault, held the first graduating exercises of a class of attendants, nurses, etc., in the physiology training course, especially fitting them for school work with the feeble minded.

Dr. Andrew Fossman, instructor in Greek at St. Olaf college, Northfield, has returned from Greece, where he has spent three months this summer in archeological research. He was specially interested in looking up matters connected with the Greek theater.

Two freight trains collided at Belgrade, a station on the Soo eighteen miles east of Glenwood. One train was standing on a side track to allow the other to pass, but the switch was turned at the other end, throwing both trains on the same track. An engine and several box cars were badly demolished. No one was hurt.

An elevator in Glenwood, belonging to the Atlantic Elevator company, burned Sunday, with 1,000 bushels of wheat. Fully insured. Hamm's cold-storage plant had a close call, but the fire boys saved it. Foreman Wallace, of the hook and ladder company, received a bad cut on the right hand while working on Hamm's building.

On the farm of Klole Furgeson near Minneota a fire destroyed 1,300 bushels of oats, 40 bushels of wheat, a barn with eight sets of harness and about 60 tons of hay. The horses narrowly escaped with their lives. Partial insurance in the Norwegian Mutual of Eidsvold. Smaller fire losses have been numerous this week.

Ole Severson of Winona, who was convicted of carnally knowing and abusing his daughter, a girl under ten years of age, was sentenced by Judge Shaw to the penitentiary for life. As Severson was being taken from the court room he created a sensation by charging that his wife and mother-in-law had murdered two of his children several years ago in Cedar Valley.

Tom Dean, who has been working for Faus & Silvernaile, blacksmiths, at Montevideo, forged two checks of $20 each, using the firm's name, and succeeded in passing them at the saloons in that place at a late hour. He was seen to take the train going east about 1 o'clock, and as he bought a ticket and had his baggage checked to Minneapolis, it is generally thought that was his destination.

George A. St. Clair, son of G. A. St. Clair, manager of the Sparta mine at Eveleth, Minn., a university man, and well known in Minneapolis, where his mother lives, was arrested recently, charged with passing a number of forged checks for amounts ranging from $8 to $45. Checks amounting to about $100 have been discovered, and several people identified St. Clair as the man who passed them. He was admitted to the bar a few days ago.

Fire destroyed James Mackey & Sons' ice houses at Lily Lake near Stillwater, and the loss is estimated at $5,000. A large barn was also burned. The fire started in the barn and in less than no time the barn was a mass of seething flames and the fire had communicated to three ice houses, which were totally consumed. Five horses were in the barn at the time and only one was saved. The only insurance carried was $1,500 on the barn and residence.

While threshing on the farm of Peter Becker, a few miles north of Faribault, the boiler exploded, killing one man and wounding two others. Fred Gilbert, the engineer, was the one killed. Fred Rockwell, a young man from this city, who was employed as driver of the water tank, received a severe wound in a leg and was also hurt in the abdomen, but not seriously. Another young man working there, and who lives in Northfield, was struck in one cheek by a piece of steel, which cut his face quite badly. Young Rockwell was brought to this city.

Nearly 400,000 acres of Red Lake reservation lands, which have been re-estimated, were offered for sale on the opening day. All but 30,000 acres are in the Crookston land district, lands mostly in the vicinity of the Lake of the Woods; 50,000 acres are near Red Lake. Seventy-five men were in line at the land office door the first day, where they had been waiting since the day before, for the opening, in order to secure choice pieces, the line constantly receiving additions. The lands are taken under the Nelson act, and are mostly good agricultural tracts, a few bearing considerable pine.

Fall Medicine

Is Fully as Important and Beneficial as Spring Medicine.

Hood's Sarsaparilla is just the medicine to keep the blood rich and pure, create an appetite, give good digestion and tone and strengthen the great vital organs. It wards off malaria, fevers and other forms of illness so prevalent in the Fall.

Hood's Sarsaparilla

HORSELESS AGE.

DESPITE WHEEL, FAITHFUL DOBBIN CONTINUES.

Riding Academies in New York Report Great Present Prosperity—Horse Still Holds His Own—About Styles in Riding North and South.

The horse is not dead yet. When the wheel spun into such favor a few years ago, people prophesied that riding horses would soon have nothing to do but stand in stalls and kick their heels in idleness. For a year or two that was pretty much all of them did do. But at present there is a decided reaction, and the horse is prancing more gayly and more numerously than he ever did. Managers of the riding academies say that they have never had so prosperous a winter as the one past. The proprietor of a well known riding school near Central Park says that his books show a business of $20,000 in excess of the previous year. He states with pleasure that collections are so easy that he feels as if he were in a rose colored dream and might wake up to find that his money had turned to fairy gold. As for the wheel, he blesses it devoutly, and says it is at the root of all his good fortune. "The bicycle was a blessing in disguise as far as we were concerned," he said. "I'll admit that it was disguised at first. But I never joined the chorus of the calamity howlers. I predicted from the start that the horse would stand the test, and so he has." "How has the wheel helped you?" "This way: People went crazy over it. Thousands and hundreds of thousands of people who had never taken out-of-door exercise learned to ride a wheel, and spent hours every day in the open air. When a man or woman finds out what a great thing it is to have exercise in the open air, that settles the thing. The habit once formed, you aren't going to coop that man or that woman up for the rest of his days. The wheel, I say, taught this habit to thousands of people, ever so many wealthy people. Then everybody took to the bicycle. The world wheeled. Some men and women didn't want to be in the crowd, so they decided to give up wheeling, except once in a while. But what they couldn't do was to make up their minds to give up out-of-door exercise, and, consequently, people who would never otherwise have learned to ride a horse have taken it up now. Of course, so late in the season, things are quiet here at the academy. People have gone to the country and taken their horses with them. But during the winter and the early spring we were simply rushed. As for next fall, I have so many engagements that if everybody came back at the same time I wouldn't have enough stalls for the horses. It is astonishing how many children are learning to ride. The greatest increase is in that direction. Children's ponies were never in such demand. In past seasons I have often had to take horses in pay for board bills. This year only one horse was turned in on me in that way. I had to engage nine riding masters, more than I have ever had before. People of all ages have been learning; even old ladies have been taking lessons. Another reason for the return of the horse is that stout people, who ride to reduce flesh, found that the wheel is not effectual as a horse. Then, too, a good many physicians proscribe a wheel and prescribe a horse." "The trotting horse is still the most popular?" "Oh, yes. The Kentucky-gaited horse isn't in demand here in New York except for semi-invalids, who need something easy. Down in Kentucky it's different. They ride for hours there, so they need an easy gait. Here in New York people want the horse which gives them the best exercise in a short time." "Do any New York women ride astride?" "I don't think so. It won't ever be fashionable in New York. I won't allow any woman to ride astride in my school. That is, not at present; but I am not pioneering. I believe they ride so a little in Chicago and other places." "How about cross-country riding among women?" "Of course there is nothing of that sort in the academy now, but we have had more pupils in that line during the winter than ever before. You see I am justified in saying that the wheel has proved a blessing to us. They couldn't very well ride to hounds on a wheel, anyway. But the love of being outdoors, which the wheel instilled into many people, has reacted amazingly for the greater popularity of the horse.—New York Sun.

Marriage Customs in Sweden.

It is said that there is no place in the world where the existence of civilization is recognized that the maidens of the land enjoy so much innocent freedom as do the girls of Sweden. On the other hand, the wives are peculiarly devoted and sedate, and it is often a source of wonder to travelers how the young woman who is brimming full of mischief and teasing while unmarried, settles down to the duties of her home with such ease and quickness. Among the lower classes one of the most cherished customs is that of the betrothed girl making with her own fingers the snowy shirt in which her husband is married. This garment is sacredly kept, and not infrequently does the aged wife robe her dead husband in the old yellow shirt which she made for him half a century before.

In the Wrong Place.

A characteristic story of General Scott is told in connection with the sword presented to him by the state of Louisiana, through the legislature, at the close of the Mexican war. He was accosted one day by a man who said, "General Scott, I had the honor of doing most of the work on that sword presented to you by the state of Louisiana. I should like to ask if it was just as you would have chosen." "It's a very fine sword, sir, a very fine sword indeed," said the general. "I am proud to have it. There is only one thing I should have preferred different. The inscription should have been on the blade, sir. The scabbard may be taken from us, but the sword, never!" The sword cost about five hundred dollars, the principal expense being in the scabbard, which was richly chased and ornamented.

MRS. PINKHAM TALKS TO THE FUTURE WOMAN.

Will the New Generation of Women be More Beautiful or Less So? Miss Jessie Ebner's Experience.

A pleasing face and graceful figure! These are equipments that widen the sphere of woman's usefulness. How can a woman have grace of movement when she is suffering from some disorder that gives her those awful bearing-down sensations? How can she retain her beautiful face when she is nervous and racked with pain?

Young women, think of your future and provide against ill health. Mothers, think of your growing daughter, and prevent in her as well as in yourself irregularity or suspension of nature's duties.

If puzzled, don't trust your own judgment. Mrs. Pinkham will charge you nothing for her advice; write to her at Lynn, Mass., and she will tell you how to make yourself healthy and strong.

Lydia E. Pinkham's Vegetable Compound strengthens the female organs and regulates the menses as nothing else will. Following is a letter from Miss JESSIE EBNER, 1712 West Jefferson St., Sandusky, Ohio.

"DEAR MRS. PINKHAM:—I feel it my duty to let you know of the great benefit your remedies have been to me. I suffered for over a year with inflammation of the ovaries. I had doctored, but no medicine did me any good. Was at a sanatarium for two weeks. The doctor thought an operation necessary, but I made up my mind to give your medicine a trial before submitting to that. I was also troubled with leucorrhœa, painful menstruation, dizziness, nervousness, and was so weak that I was unable to stand or walk. I have taken in all several bottles of Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and am now in good health. I will always give your medicine the highest praise."

THE PEOPLE AND THE CORPORATIONS

WHAT SHALL THE PEOPLE DO TO POSSESS THEIR OWN?—THE TRANSPORTATION QUESTION.

THE POLITICAL POWER OF MONOPOLY

How Will You Vote This Year?—The Duty of the Citizen—Farmer Jones and Mr. Dodd—Forcible Presentation of the Issues in Minnesota, From the Sixth District—Something to Ponder Well—Will the Trusts and Combines, or Will the People Rule?

A most admirable and effective pamphlet has been issued in the Sixth congressional district by Congressman Towne's committee, entitled "How Shall I Vote This Year?" It states an imaginary conversation between Farmer Jones and Mr. Dodd, the former basing an inquiry as to how Mr. Dodd is going to vote this year on the situation of the industrial classes generally. It should be read by every voter in Minnesota.

"The times," it says, "are all out of joint. Our people ought to be the happiest on earth. We are year after year favored with the most bounteous crops—more than we can consume—while for several years back there has been failure or scarcity of crops in many foreign countries. Our people are as intelligent and energetic as any people in the world, there is a great deal of business done, yet it seems like those who do the work, raise the crops and produce the things are very fortunate if they have any profits from their toil, in most cases can secure but a bare living, while A LARGE PROPORTION OF THEM ARE GOING BEHIND, GETTING POORER EVERY YEAR. This condition of things ought not to be, and I have about concluded that the way public affairs are administered has much to do with it."

MR. DODD: "You are right, Farmer Jones, the administration of public affairs does have much to do with the distribution of the profits of industry. The natural resources, such as oil, coal, iron, timber, copper, etc., designed for the benefit and comfort of mankind, ARE FAST PASSING INTO THE HANDS OF THE VERY FEW. The trusts and combinations of capital, largely built up, made possible and aided by transportation companies, through their system of rebates to large shippers SO OPERATE UPON BUSINESS AFFAIRS AS TO CRUSH OUT AND RUIN ALL SMALLER MERCHANTS, MANUFACTURERS AND BUSINESS MEN. The 'Big Fish' are continually eating up the smaller ones. The transportation companies, whose lines are a vast network, reaching every inhabited portion of our country, PRACTICALLY SAP THE GREATER PORTION OF ALL PROFITS FROM THE PRODUCERS AND USERS OF THEIR LINES.

"All the profits made by transportation companies come from the public. In theory of law transportation companies are subject to government control, administered through public servants. IN ACTUAL PRACTICE THE PUBLIC IS CONTROLLED BY THE TRANSPORTATION COMPANIES, through the servants and agents of the transportation companies administering the functions of government. When the administration of public affairs is placed in the hands of the agents of the great Trusts and other combinations of capital of the country, and of the few who control the natural resources, THE LAWS PASSED WILL ALWAYS BE FAVORABLE TO THESE INTERESTS AND WILL BE SO ADMINISTERED AS TO RELIEVE THESE GREAT COMBINATIONS OF CAPITAL FROM PAYING THEIR JUST SHARE OF THE BURDENS OF GOVERNMENT, AFFORDING THEM ADDITIONAL FACILITIES TO ACQUIRE MORE POWER AND PROPERTY, AND THE EFFECT IS TO REDUCE THE GREAT LABORING MASSES TO A CONDITION OF SERVITUDE AND DEPENDENCE."

CORPORATE CONTROL OF THE PUBLIC OFFICES.

FARMER JONES: "What you say is astonishing, but confirms my own observation. I knew that the profits of farming were largely absorbed by the transportation companies, but I did not suppose that all lines of commercial and manufacturing business was sapped of profits in the same way. There should be officials in all branches of the government—executive, legislative and judicial—who are in sympathy with the masses of the people, and who will see to it that the laws that are passed will not give any class of people an advantage in their business, or in the use of their property, over any other class of people; and that the laws shall be faithfully and justly administered in the interest of the whole people.

"I can easily understand how this will not be done IF THE AGENTS OF THE TRUSTS AND GREAT CORPORATIONS HOLD THE OFFICES. Government control of railroad companies is a farce if a majority of the men in the legislature are the agents of these companies; AND IF THE RAILROAD CORPORATIONS ELECT THEIR MAN GOVERNOR OF THE STATE IT IS VERY NATURAL THAT HE WILL APPOINT STATE RAILROAD AND WAREHOUSE COMMISSIONERS WHO WILL FAVOR THE INTERESTS OF THE RAILROAD COMPANIES, even if the public do have to pay extortionate freight and passenger rates. RAILROAD COMPANIES CHARGE BUSHEL OF WHEAT WHICH SELLS FOR FIFTY CENTS AS THEY DO TO CARRY A BUSHEL OF WHEAT WHICH SELLS FOR ONE DOLLAR AND FIFTY CENTS, and they charge substantially the same for carrying all kinds of products now that they charged years ago for carrying the same products, ALTHOUGH THE AVERAGE PRICES OF THESE PRODUCTS, LIKE ALL OTHER PROPERTY, HAVE DEPRECIATED FROM TWENTY-FIVE TO FIFTY PER CENT IN VALUE, SHOWN IN THE IRON ORE RATE CASES.

"This gives the railroad companies a very great advantage over the shippers of commodities. The argument of the attorney for complainants in the ore rate case in Duluth, Minn., very clearly sets forth the condition and consequences wherein he says: 'THE EFFECT OF THE POLICY OF THE RAILWAY COMPANIES IN THEIR SYSTEM OF RATES IS LIKE THAT OF A GREAT CONSPIRACY AGAINST THE RICHEST AND FAIREST HERITAGE OF THE STATE OF MINNESOTA. IT IS A MONOPOLY, BROUGHT ABOUT NATURALLY IN THE ORDINARY COURSE OF BUSINESS, BUT MORE DEADLY ON THAT ACCOUNT.' He stated that the traffic on the Duluth, Missaba & Northern railroad was greater per mile than any other railroad in America, and that it earned $4.50 per mile per train, while the great Eastern and granger roads get from $1.45 to $1.65 per mile per train. SUCH A CONDITION OF ROBBERY OF THE PRODUCERS COULD ONLY EXIST IN A STATE WHOSE OFFICIALS ARE THE SERVERS OF CORPORATIONS RATHER THAN THE SERVANTS OF THE PEOPLE. I've made up my mind that the producers, which are a large majority of the voters of this country, can correct such evils; and I feel that unless it is done in the near future the great corporations and trusts of this country will own and control all the property and resources of the country which produce profits, and that the condition of the mass of people will be that of slavery. THERE IS NO DOUBT IN MY MIND BUT THE GREAT TRUSTS AND COMBINATIONS OF CAPITAL OF THIS COUNTRY HAVE LARGELY BROUGHT ABOUT THE PRESENT CONDITION OF AFFAIRS IN THIS COUNTRY THROUGH THEIR CONTROL OF THE PUBLIC OFFICES OF THE COUNTRY, AND THAT THEIR MEDIUM TO SECURE THESE OFFICES IS THROUGH THE POLITICAL PARTIES OF THE COUNTRY. What do you think?"

SHALL THE TRUSTS OR THE PEOPLE RULE?

MR. DODD: "There is no question about it. The two great political parties of this country at the present time are opposing each other on the following issues, viz: SHALL THE TRUSTS AND GREAT COMBINATIONS OF CAPITAL RULE THE COUNTRY, OR SHALL THE PEOPLE RULE THE COUNTRY? It is charged that the Republican party is controlled by the trusts and rich men and corporations of the country, and some of the evidences that are produced are that SUBSTANTIALLY ALL THE TRUSTS AND RICH MEN AND CORPORATIONS OF THE COUNTRY CONTRIBUTE VAST SUMS OF MONEY TO THE REPUBLICAN PARTY TO BE USED TO CARRY THE ELECTIONS. They employ every agency and method which can be devised by human ingenuity, lawful or unlawful, to coerce the men who are under obligations to them, or in their employ, to vote the Republican ticket, BRIBING SOME, THREATENING TO OPPRESS OTHERS BY FORECLOSING MORTGAGES AND THUS TAKING THEIR PROPERTY; DISMISSING OTHERS FROM EMPLOYMENT, WHICH OFTENTIMES MEANS HUNGER OR STARVATION TO THEIR FAMILIES, AND ALL BECAUSE THEY SEEK TO EXERCISE THEIR RIGHT TO VOTE AS FREE AMERICAN CITIZENS FOR THE CANDIDATES AND PRINCIPLES THEY BELIEVE WILL BRING ABOUT THE BEST GOVERNMENT.

In some of the election precincts in St. Louis county, Minn., in which the iron mines are located, the miners, who are chiefly Austrians and Finns, are marched into the polling booth—usually the mining captain's office—where, pursuant to previous instructions, he presents a little red ticket upon which is printed the words, 'I can't read or write English—I want to vote the straight Republican ticket,' to the judges of election, often composed of the mining boss and his clerks, and the result is a practically solid Republican vote in the mining precincts. This controlled mining vote has decided the governorship of Minnesota for the Republican candidate twice within the past twelve years. The congressional election in the Sixth congressional district of Minnesota in 1896 was decided in favor of the Republican candidate on account of it, and legislative candidates and other officers are often elected by this vote. Coercion of this character has become so general that the campaign committees of the reform forces are advising that employes and voters who have been, or may be, subjected to this system of coercion be instructed not to wear campaign badges or buttons, so they will not jeopardize their chances to make a living. I tell you, Mr. Jones, it is a shame that such a state of affairs exists in the United States, which we have always supposed was a free country.

EVILS OF REPUBLICAN ADMINISTRATION.

"But I wish to mention some of the other evidences that show that THE REPUBLICAN PARTY IS CONTROLLED IN THE INTEREST OF TRUSTS AND COMBINATIONS OF CAPITAL IN THIS COUNTRY. ALL THE FORCES OF OPPRESSION OF THE WEAK, OF THE POOR AND NEEDY ARE SIDING WITH, AND IN FAVOR OF, THE REPUBLICAN PARTY. Railroad companies generally furnish free transportation and passes to Republican candidates, campaign speakers and delegates to Republican conventions, and do not furnish free transportation and passes to candidates and speakers of the other parties, or to the delegates to their conventions.

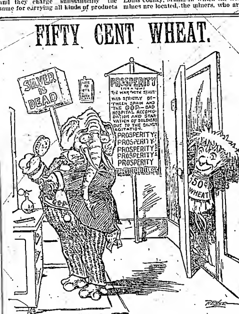
"THE SINGLE GOLD STANDARD is a good thing for those who have money, or whose property consists in fixed incomes, or of transportation companies which can fix directly or indirectly the rates they shall charge for carrying freight or passengers, for it means scarce money, or an appreciated currency. That is the reason the trusts, the transportation companies, the banks and the insurance companies and other kindred corporations and companies favor the single gold standard, and as these interests control the Republican party, it must also favor the single gold standard.

"THE INCOME TAX is generally favored by the masses of the people, but it is opposed by the rich and great corporations because it means that those obtaining great incomes would have to pay a small percentage of their incomes for the support of the general government. The Republican administration is opposed to the income tax.

"THE GOVERNMENT POSTAL SAVINGS BANK, which would provide ample security for the savings of the people, is favored by practically all classes of our people, but is opposed by the national banking interest of the country and by the present Republican administration.

"These are some of the evidences which show that THE REPUBLICAN PARTY IS NO LONGER THE PARTY OF THE PEOPLE, BUT IS CONTROLLED BY AND IN THE INTERESTS OF THE TRUSTS, CORPORATIONS AND RICH MEN OF THE COUNTRY."

FIFTY CENT WHEAT.



PARTY IN DOOR: "Peek-a-boo, Papa, You Can't Lose Me."

Gold Standard Prosperity.

"Among the demonstrations of love for the gold standard with which we were treated in the famous campaign of 1896," says an Eastern paper, "that of a Cleveland (Ohio) nail factory was distinguished for its enthusiasm. Of course, the employes had seldom if ever possessed or seen a gold dollar, but they figured as the most devoted friends of that coin. Their parade was told about in the columns of every newspaper that wanted a subsidy from Hanna's committee or was anxious for a bank discount. It was an outburst of music, fireworks and banners that was glorified by every supporter of the advance agent of prosperity.

"And now these nail-workers have experienced a cut in wages, and say they cannot live on the reduced compensation for their labor. In spite of the consoling suggestions of the Iron Trade Review, they do not find that the reduction is an improvement of their condition. To be sure, the Review tells them that 'wage reductions are a feature of the new prosperity.' But the workers do not see it in that light. Their feelings are hurt, since by two successive reductions they lose nearly 30 per cent. So they strike.

"But for the war, which has involved an expenditure of $600,000,000 and has taken 200,000 men, mostly idle, from the competition of the labor market, what a terrible reaction would we have had by this time in consequence of the attempt to bring the country to a gold standard."

Stephen A. Douglas' Son.

The New Time: Stephen A. Douglas, son of the statesman who was Lincoln's opponent in 1860, has formally renounced his allegiance to the Republican party, declaring that its tendency is to fasten the government under the control of the money power, trusts and corporations. For nearly a generation he has been a leader in Chicago Republican politics. His action created a sensation, and was followed by the desertion of several others prominent in Illinois politics. Not the least significant of his utterances in making the change, was the following:

"The referendum is the proper thing, and it will bring many thousands of votes to the reform platforms. The time has never been and never will be when the people of this country cannot be trusted."

Republicans Responsible.

Minneapolis Democrat: With political jobbers in charge of the national administration; with unscrupulous and irresponsible figureheads in control of the war; with horse doctors at the head of the medical service of the soldiers, and dudes and blatant ignoramuses as officers of troops, the Republicans have indeed created a war record for themselves worthy of doing duty in the present campaign. Such a state of affairs, and the resultant murder of hundreds and thousands of the nation's young men, must be laid to the door of the party to whom it belongs, and just and merited retribution meted out. To do less would be to prove oneself inhuman.

Binding Twine Steal.

Wadena Tribune: The farmers of Minnesota are taxed for the twine plant at Stillwater, but they nevertheless, pay the trust price for twine, and fail to get any benefit from that institution. How long will they keep on voting for an administration that is responsible for this kind of a management? When will they get their eyes opened?

Good Chance for Eustis.

Cambridge Independent: Now, while investigations are so much in vogue, it might be a fine stroke for Eustis' friends to summon him and let him explain a few things connected with the Guaranty Loan company, the city hospital and the street car ordinance. Trot out your investigation.

And Such Is Fame.

Miss Olive (of St. Louis)—Who was that man you last recognized?

Mr. Wabash—Why, that was Damrosche, the great musical conductor.

Miss Olive—Indeed! What road is he conductor on?—Chicago News.

Nothing of the Sort.

Waiter—What's your order, ma'am?

Guest (from Upcreek)—I'll take some beefsteak.

Waiter—Medium, ma'am?

Guest (highly indignant)—No, I'm not, young man! I don't believe in spirit roppin's.—Chicago Tribune.

"I must confess," exclaimed a young woman, "that I grow weary of hearing these people talk about their family tree."

"I have observed," replied Miss Cayenne, "that family trees are very much like ordinary trees. The old, substantial stock is not shaken by any breezes. The more recent and unimportant twigs are what do all the rustling."—

Our Flexible Language.

"They say that a woman was at the bottom of Billerbee's downfall."

"Yep. She threw him over, and he went under."—Indianapolis Journal.

A Sympathetic Pose.

"It's a great pity!" murmured the man who has so many dollars he hates to give up any for fear of spoiling a fine collection.

"What's the matter?" inquired his wife.

"I was thinking of the barbarity of war. I suppose these discrepancies have to exist. But it's a great pity bullets aren't as easy to dodge as taxes."—Washington Star.

When a man has not a good reason for doing a thing he has one good reason for letting it alone.—Walter Scott.

Suited Her Case.

"Countess, I hope you will see my new comedy, which is to be produced to-morrow evening."

"But you know I am in mourning."

"O, that need make no difference—the play isn't so funny!"—Fliegende Blaetter.

Mistress—Where have you served before?

Servant—Just give me a city directory and I'll mark the places where I have not served.—Fliegende Blaetter.

THE WRECK OF THE MOHEGAN.

Statement Regarding the Fate of Those on Board.

London, Oct. 18.—The Atlantic Transport company issued the following statement regarding the fate of the passengers and crew of the steamer Mohegan, which was wrecked last Friday evening off the Lizard between the Manacles and the Lowland:

"Of the passengers eleven have been saved, ten bodies have been recovered and thirty-three are missing. Of the crew and cattlemen thirty-nine have been saved, fourteen bodies have been recovered and fifty-one are missing."

Since this statement was issued nine other bodies have been picked up, including two men identified as those of passengers. The reports of various correspondents differ widely as to the lost and rescued, although none have been able to secure accurate information of the numbers of those saved or bodies recovered. The rescued passengers are being sheltered at cottages along the shore and the crew at the sailors' home at Falmouth. Tugs have been cruising in the vicinity all day, despite the very rough weather, in the hope of picking up other bodies.

The cause of the accident remains a profound mystery. Nobody attempts to explain how the Mohegan got so far north of her true course—from six to seven miles. There was no fog at the time, while the wind on her port quarter was not sufficient to prevent her answering the helm. It has been suggested that her compass was faulty, but daylight lasted long after Eddystone light was passed. The sailors say the fact that the Lizard light was not visible should have served to give the alarm. The masts of the Mohegan which show above water show that her stern is landward, causing a theory that the navigating officer, on discovering that he was in the bay, suddenly turned seaward. Two engineers who were saved declare, however, that they never slackened speed.

Is Alum Poisonous?

Alum is used by many bakers to whiten their bread, enabling them to use an inferior flour, and it is also employed as a cheap substitute for cream of tartar in the manufacture of baking powder. Its use in bread and baking powder is very detrimental to health, producing dyspepsia and obstinate constipation, and under certain conditions of the human system results in poisoning. What these conditions are so far as each individual is concerned can only be surmised: some peculiarity of the system producing a morbid change in the secretions of the stomach with which the alum combines and forms an active poison; or, the secretions may be healthy but in abnormal proportions, and these lesser or greater proportions in combination with the alum substitute a poison just as two parts of mercury and two parts chlorine form calomel, which is not poisonous; while one part of mercury and two parts of chlorine yield a corrosive sublimate, which is a most deadly poison.

Agoncello Arrives in France.

Paris, Oct. 18.—Senor Agoncello, special envoy of the Philippine insurrectionary government, arrived at Havre by the La Touraine and reached Paris late last night. He has quarters at the same hotel and on the same floor as the United States peace commission, whom he came to see regarding the Philippines, but whom he has not yet met.

Powers Relax Just a Little.

Constantinople, Special.—The ambassadors of the powers have transmitted to the Turkish government the decision of their governments on the subject of Crete, which sets forth that while adhering strictly to their ultimatum, Turkey may possibly later be permitted to maintain a small force on the island, as an emblem of Turkish authority.

Two More Deaths.

Ionia, Mich., Special.—Two more deaths have resulted from the boiler explosion in the Michigan asylum for criminal insane.

INDIAN CHIEFS WANT PEACE

THEY TELL THEIR GRIEVANCES AND ASK FOR LENIENCY.

The Attack Upon the Soldiers Was the Result of Persecution—Twenty-three Chiefs Sign a Petition Asking Leniency for the Bear Islanders—They Display the Greatest Confidence in Commissioner Jones and Declare the Hostiles Will Lay Down Their Arms if Given Time—They Ask the Whites Not to Judge Too Hastily.

Walker, Minn., Oct. 18.—The chiefs of the Pillager Indians now at the agency have joined in the following statement to the public, which was given to the newspaper correspondents with the request that it be published:

To the Public: The Chippewa Pillagers in council assembled this day, have unanimously adopted resolutions expressing their regret of the occurrences of last week which caused the death of some brave men. It was an unexpected and in some respects an unavoidable affair under existing circumstances and conditions. Like your forefathers when they were finally driven to resist oppression by giving up their lives for their rights, a portion of our tribe decided to give up their lives rather than to submit any longer to such oppression as had been following them for a dozen years past. It was evident to our friends who met your soldiers in battle, and to all Chippewa Indians in Minnesota, that the final outcome of the resistance to the authority of the United States would be the total destruction and annihilation of the Chippewa tribe. Our friends the Bear Island Chippewas, preferred this to further persecution and the loss of their inheritance. The timely arrival of our true friend, the commissioner of Indian affairs, has cleared away the darkness that was before us. But we regret to hear that some of his own people and the newspapers are criticising his policy of dealing with us. Had he pursued any other course than the one he has taken the shores of Leech lake would today be crimson with the blood of our friends and relatives at Black Duck point, and many of your brave young fighting men would be numbered among the dead. Your friends among the Chippewas of Minnesota do not wish any of their young men to become involved in any further trouble with your soldiers, and while the Bear Island Indians have pronounced their death sentences we humbly sue in their behalf for peace. We are aware of the greatness and power of the great father at Washington, but we beg him to treat with leniency our friends who have, in their extreme ignorance, committed such a grave mistake, and we ask our friends among the whites to urge him to do this. Although the provocation was great, we the undersigned chiefs of Leech lake do not approve the methods adopted by some of our friends to right our wrongs, and at our urgent request and the request of the commissioner of Indian affairs and good man Father [illegible], they have laid down their arms and war clubs. We have the utmost confidence in the commissioner of Indian affairs and we trust our white friends will allow him to proceed unmolested in his efforts to settle existing difficulties and that they will also have patience with us in our efforts to induce our friends and relatives to surrender themselves to the United States marshal.

This statement was signed by twenty-three chiefs of the Pillagers and three chiefs representing the hostiles.

Three Men Escape Jail.

Sioux City, Iowa, Oct. 18.—Charles McDermott, alias C. Mott, a confederate of Robert S. Payne and John Crawford Blackwell, the three noted gold brick men who have caused Sioux City police so much grief, is now at liberty. Friends of Mott secured $2,000 bonds, took the police, who were waiting to rearrest him, by surprise, and drove him rapidly out of town. So the whole trio of the most dangerous men in the business in the country are now free.

Duluth Cuts Expenses.

Duluth, Minn., Oct. 18.—The city council's finance committee made a shave in the running expenses of the city for next year amounting to $75,000, which, with $25,000 already made in the expense of lighting, makes a cut of $100,000. The cut is distributed as follows: Fire department, $23,000; maintenance, $30,000; police, $8,000; engineer's office, $6,000; assessor's office, $2,000; stenographers, $1,000.

Captured at Last.

Milwaukee, Oct. 18.—Captain of Police Frank Barcal, of the Woodlawn station, Chicago, accompanied by Detective Higgins, arrested William Lichtenberg, alias Paul Mueller, a Bohemian, who is charged with a triple murder in Brookfield, Mass., on Jan. 7 last, when Francis D. Newton, Sarah A. Newton, his wife, and daughter Elsie were murdered with an ax, the house also being robbed and burned.

Seriously Injured.

West Superior, Wis., Oct. 18.—Engineer Hurley, Fireman George Dewett and Brakeman Arthur Smith were seriously injured at New Duluth, twenty miles south on the Fosston branch of the Great Northern railroad, by an ore train running away and crashing into a switch train. Two locomotives and fifty cars are piled in a mass of debris.

Boy Instantly Killed.

La Crosse, Wis., Oct. 18.—Gus Fregin, aged eleven, son of Theodore Fregin, head loader for the Paul Lumber company, was run over by a street car and instantly killed. He was riding his father's wheel close to the track, and just before meeting the car his wheel slipped away from the track in the mud, throwing him across the rails.

A Brakeman Killed.

Glenwood, Minn., Oct. 18.—Ed Selver, a brakeman on the Soo road, was run over by the cars and instantly killed. He had turned a switch and attempted to catch the ladder on the side of the car. He missed it and fell under the wheels and was run over lengthwise.

Jews Massacred.

London, Oct. 18.—The Vienna correspondent of the Observer reports that anti-Semitic riots occurred at Kossow, in Austrian Galacia, when a number of peasants attacked and plundered the Jewish quarter, killing ten persons and wounding many others. The movement is said to be spreading.

Martin Flaherty, the Lowell, Mass., feather-weight pugilist, is out with a challenge to meet any man in the world at from 116 to 126 pounds. Tommy White of Chicago preferred.

The detective who cannot engineer his own case is decidedly off the track.

SYRUP OF FIGS
NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

THE PUBLIC LANDS OF MINNESOTA

Enormous Losses to the State From Republican Maladministration.

AN APPALLING ARRAY OF FACTS

Millions of Acres to Railways—Timber Lands Squandered—Mineral Lands Worse Than Stolen—What the Figures Show—What's to Be Done?—Change Men and Methods—John Lind For the Sacred Trust.

At the close of 40 years of Republican rule in Minnesota, a complete history of the dealings of that party and its varied officials with the public lands lying within the state, would read like a romance. Unfortunately no such history has been written. It never can be written. Much of it has never seen the light of day, and what is official, or semi-official, is the record of bare results. We know what has gone from us, but the arts used, the tricks and stratagems employed, alas! these are buried beneath the vast and colossal fortunes to corporations and individuals, which simply challenge the admiration of the passer-by. For vastness of enterprise, it is without limit; for wealth, it is "beyond the dreams of avarice;" and for the general paralyzing effects upon the common industries of the masses of the people, it stands without a parallel.

The public lands of Minnesota have been a source of immense revenue to many of her distinguished citizens. They too have not been wholly ungrateful for the favors so received. They have at all times been conspicuous in the council chambers of the grand old party. They have furnished the suggestions as well as the means by which for all this long period Republican ascendancy has been maintained. Meanwhile the meeker followers shouted lustily for the flag, and thanked God that no matter how other states might revolt, Minnesota was sure, and as steady as the needle to the pole. Can the game be continued longer, is now the one great question for the masses.

What the Railroads Have Received.

In round numbers the state of Minnesota contains about 54,000,000 acres of land. Of this amount there are today about 6,500,000 acres under cultivation by our farmers. Of the entire amount the railroads own or claim about 20,500,000 acres. This is about two-fifths of the entire area, and about three times as much as all our farms. Of course most of this came direct from the general government, and at a time when congress was giving away everything for the purpose of building railroads, and so opening up the country. But our legislatures followed the same rule. The state received from the government a grant of all the swamp lands with a view to their drainage and reclamation. From 1861 to 1880 practically all of these were given away to railroads by our various legislatures. THEY NEVER DRAINED AN ACRE OF THEM EXCEPT AS BECAME NECESSARY IN THE BUILDING OF THE LINE. A more wasteful disposition of lands cannot easily be imagined.

The Timber Lands.

In the northern half of this state once grew the finest of pine forests. For over 30 years the one work has been to first acquire the title. This has been done by sales, by pre-emptions and by homesteading. Careful explorers estimated the timber, the next thing was to secure the title. Practically everything was taken as fast as surveyed, and it may now be said that the bulk has fallen into the hands of speculators, and at the minimum price of $1.25 and $2.50 per acre. On lands owned by the state and where trespasses were committed and detected, the matters were adjusted as best they could be. The saw and the axe have been at work all these years and there is as much left as has been taken. Vast corporations now control all that is left, and both the general government and the state have been fleeced at every turn.

The Mineral Lands.

The same may be said of the mineral lands. Some 10 to 15 years ago it began to develop that iron ore in immense quantities existed on the Vermillion and Mesabi ranges. Then came the day of the speculator, the explorer, and later the millionaire. A single instance will show some of the gains and losses. In 1884 the state of Minnesota had selected certain lands as indemnity school lands. In 1887, however, these selections were relinquished. Two private citizens claimed them as homesteads, although a crow could not have lived there. They ultimately turned up in a company controlled by Rockefeller. He in turn leased them to Carnegie for $600,000 in cash, and a bonus or royalty of 50 cents per ton for 50 years. The amount to be taken out each year was at least 300,000 tons. This gave the Mountain Iron mine a value of fully $15,000,000. One of the Merritts placed the value at $20,000,000. Meanwhile the state leases its mines on a royalty 25 cents per ton.

Of the 3,500,000 acres or thereabouts, donated for our public school fund, about 1,500,000 acres have so far been sold. The price averages less than $5 per acre. This, with receipts for stumpage and royalties, makes the school fund now about $12,000,000. THAT IS TO SAY, ALL SUCH SALES AND RECEIPTS ARE FAR LESS THAN THE VALUE OF THAT ONE MINE! Yet it once fairly belonged to the school fund and was afterwards lost. The legislature in 1897 took steps looking to its recovery. The chances for success are infinitesimal. These robber barons follow the rule of Robin Hood:

> "The good old rule, the simple plan,
> That they shall take who have the power,
> And they shall keep who can."

Thus it is that what is the school fund's loss is the corporation's gain.

Taxation of Railroad Lands.

During all these years the railroads managed in one way or another to keep their unused lands out of taxation. The Anderson bill and the supreme court decision changed all this, and now some three or four million acres are to be taxed just as other property is taxed. The valuation will probably be from fifteen to twenty million dollars. THIS DECISION, COUPLED WITH THAT IN THE STEENERSON RATE CASE, HAS DONE MORE FOR THE PEOPLE OF MINNESOTA THAN ALL OTHER ACTS COMBINED. THE LATTER ALONE WILL SAVE THE SHIPPERS A MILLION DOLLARS THIS FIRST YEAR. Remember that this decision is due to Justices Canty, Buck and Mitchell, the reform candidates for supreme court.

Selections of Land.

The railroads always claimed the right of making selections of lands so granted by the state. To this end they kept surveyors and explorers out, and they never failed to select the best, be it a farm or a mine. It mattered little whether a swamp. In 1894, however, the Democratic state auditor, Mr. Biermann, conceived it to be his duty to make the selections, which he did for some 271,000 acres. The company simply rebelled, and the deed therefor is still untaken. The legislature, however, has since been besieged "to adjust the matter." Will the adjustment succeed?

Nothing to Say.

Upon all these important matters the late Republican platform has not a word to say. Indeed it has nothing to say about any state matter except "good roads." Is its solicitude for good roads prompted by a desire to make more comfortable the carriage of the millionaire? Or is the solicitude for the wagon of the farmer?

With such mighty interests at stake as the proper care of our public lands, and the proper maintenance of that most sacred of all objects—the fund for the education of our children—who do the people of Minnesota prefer as their next governor?

Will it be William Henry Eustis, WHO BOWED THE KNEE TO THE MINNEAPOLIS STREET CAR COMPANY WHEN IT REFUSED TRANSFERS, AND TOOK UP THE FIGHT AGAINST HIS OWN NEIGHBORS AND FRIENDS? Who later on allowed the city of which he was the mayor to be swindled in the hospital deal?

OR WILL IT BE HONEST JOHN LIND? THE MAN WHO NEVER WAS FOUND ON THE SIDE OF THE OPPRESSORS OF THE PEOPLE!

The answer at once comes back: WE DEMAND A CHANGE OF MEN AND A CHANGE OF METHODS! LIND ALONE CAN AND WILL GIVE TO THE PEOPLE OF MINNESOTA AN HONEST AN CAPABLE ADMINISTRATION OF OUR STATE AFFAIRS!

SHAME ON HYPOCRISY.

Mankato Review, referring to the ridiculous "charges" against Quartermaster Lind: It is just such pretenses as this that cover up and protect thievery. Mr. Lind is an intelligent man, undoubtedly understands the powers of his position and the means of redress. When he says he spent hours every day protesting against those things he undoubtedly made his complaints to the proper channel. That they were not heeded and the evils redressed, is sufficient and convincing proof to these reckless and partisan papers that Mr. Lind, the accuser, and not the perpetrators high in authority and protected by the war department, is to blame. Shame on such hypocrisy and downright dishonesty.

ELECT JOHN LIND.

Irish Standard: If William Henry Eustis is elected governor of the state the interest of Dives will be attended to as they have been by his Republican predecessors during the past 40 years. We trust the people will exercise common sense and consult their own interests by electing honest John Lind, the unanimous choice of the reform forces of the state.

JUDGES FOR ALL THE PEOPLE.

Progressive Age: The corporations and combines favor the defeat of Justices Canty, Mitchell and Buck. Do not forget this cogent fact. It was the courage of these men that made the railways pay taxes on their lands as well as the actual settler, and of course they want a court that will favor their interests. Do the people want a court that the railways want?

WANTED—A HOUSECLEANING.

Twin City Guardian: If John Lind is elected governor of this state Nov. 8, 1898, we will have an opportunity of cleaning up our state board of equalization. A general housecleaning is very much needed at this time.

ALGERIAN WHITEWASH.

Litchfield Independent: Twenty dollars a day and expenses is what each of the nine investigating commissioners are to get for clearing Alger of the charge of incompetency in his management of the war department. This is a pretty steep figure to pay for whitewash.

INJURED INNOCENCE.

Litchfield Independent: The administration at Washington is now busy investigating itself. If it don't make out a clear case of injured innocence we will be mistaken.

TRAINING A WARHORSE.

How He Is Taught to Stand the Blaze and Thunder of Battle.

A warhorse is broken to be steady under fire by tying ropes to his legs. While the animal is down on the ground the officer takes a pistol and fires it close to his ear. Then in rapid order he fires the weapon over his back, under his neck, between his legs, anywhere that an opening presents itself during the horse's futile struggles. Not until he sinks back exhausted, all a-tremble and showing the whites of his eyes, does the pistol practice cease.

After two or three lessons of this kind it is considered safe to mount him with a bridle furnished with a curb bit. Up to this time the horse has never felt a curb. The light snaffle is still retained, and the curb bridle is only given a gentle pressure at first, just enough to let him know that it is there. Gradually the strength of the pull is increased, and with this safeguard the horse is taught to stand fire from his rider's pistol or carbine.

In carbine practice the horse must be thoroughly broken, as both hands are required in using this weapon, whereas with the pistol the rider may retain the bridle with one hand.

Then comes saber practice, and that is another trial to the horse. Again is he thrown to the ground, and he probably can't understand why he should have to suffer this indignity all over again, for he has learned that lesson very well. But when the bright blade of the saber, with quick thrusts flashing before his eyes and cutting the air in close proximity to his ears, appears to him he is again terror stricken.

But the lesson he has learned from the smell of gunpowder stands him in good stead, and he soon gets over his fear. And even with a man on his back and another mounted upon a seasoned horse coming at him with saber raised in the air or slashing left and right he knows that it is all a part of his education and something to be expected. So he stands his ground or cavorts about the other horse while the two troopers indulge in their saber practice.—New York World.

FORESTALLED HIM.

The Chipper Youth Knew What Usually Happened In Such Cases.

The fresh young man with no respect in his soul for gray hairs and dyed whiskers swung himself on the car in the middle of a block, and leaning against the broke handle proceeded to roll a cigarette with great deftness. The fat man who despises the ways of the youth on general principles leaned against the window guards and watched the development of a cigarette.

"Got a match, neighbor?" inquired the fresh young man as he put the last finishing twist to his smoke.

"Young man"—began the fat man after a brief, elderly pause, calculated to greatly impress the cigarette smoker.

"Yes, I know all about"— interrupted the youth, "so you might as well choke your lecture on a bornin. I know cigarettes will kill me if I stick to 'em, but I don't care. It's an easy death. I know if I must smoke I should smoke cigars, but I don't like the color of 'em. I've got a touch of paresis now, and I'm due for more. I know you think of all the disgusting things in the world a cigarette is the worst.

"I know they undermine the constitution and are wrecking the rising generation. Now if I've forgotten anything you were going to say help me out. Come to think of it, I've got a match myself. If I keep on smoking these things I won't be able to think at all before long. I know if you had a boy that smoked cigarettes you would lick him within an inch of his life. I nearly forgot you were going to say that. Where do you get off anyhow?"

"Here," gasped the fat man as he dropped off the platform, muttering something about what this country is coming to. And the fresh young man lighted his cigarette with a grin.—Washington Times.

Harnessmaker!

If you want anything in the harness line from a set of new harness down to repairing of all kinds, call on the first-class harness maker.

MYRON DECLINES.

Harry E. Ives, populist candidate for state senator, challenged O. H. Myron, republican candidate, to a joint debate on state issues including transportation and trusts. Myron has declined, of course. How could he do otherwise? He could not deny that he would, if elected, work in the interest of Jim Hill, and trusts. But he gave as his excuse that he is troubled with asthma. The people are not blind however. They know that Harry Ives would go to the state senate, their friend and champion and they will send him there by about 2,000 plurality.

A United States Senator is to be elected from Minnesota this year. The reform forces have not forgotten that.

Shall we elect members of the state legislature who would return the present friend of the plutocracy that is knawing the vitals of our free institutions; or shall we elect Harry Ives, whose vote will be recorded for a reform senator who will stand for the interests of the people.—Red Lake Falls Gazette.

Now is the proper time to pay the printer. Please remember this as we have use of money once in a while too —and this is supposed to be harvest time with us. Up to date our crop has almost been a total failure.

Some Dairy Hints.

Many dairymen like an ounce of salt to a pound of butter.

Do not wet your hands when milking; if you do you flavor the milk.

When butter is poor don't blame the cow. Blame your own want of skill.

Adding hot water to cream while churning is the worst of all practices.

Heating milk to 160 degrees Pasteurizes it, stir it continually while hot.

The Army and Navy.

Have covered themselves with glory during the war. The Army and Navy vest pocket memorandum book published by the Northern Pacific is a compact digest of information relative to the navies and armies of Spain and the United States at the beginning of the war. It has a map of Cuba, illustrations of naval ships, glossary of navy and army terms, translation of Spanish words, etc. Send ten cents to Chas. S. Fee, general passenger agent, N. P. R., St. Paul, Minn., for a copy.

—If you are in need of a pair of glasses J. Q. Adams will fix you out on his next trip to St. Hilaire which will be Sept. 12th 13th and 14th. If you have a watch or clock that needs repairing or cleaning leave it at Johnson's drug store and that will be attended to.

LOCAL NEWS.

A. O. U. W. dance Saturday evening.

Look over the Five cent counter at Hall's.

Fresh Oysters, at the Ideal Lunch Room.

Try a lunch, a meal or a weeks board at the Ideal Lunch Room.

Ben Rosenberg has been under the doctors care the past week.

Twenty days from now and the war of paper bullets will be over.

Go to the new drug store for your school supplies and stationary.

Adolph Hall and M. S. Hoff spent a few days at Crookston last week.

Congressman F. M. Eddy is to speak at St. Hilaire at one o'clock to-day.

Egg and butter famine on now in St. Hilaire—and a country adapted for both.

Attorneys Richardson, Boughton and Lee were here last Friday on legal business.

For a reliable blood purafier try the Imperial Sarsaparilla for sale at the new Drug Store.

O. T. Tanberg the pop. candidate for county treasurer was in town a short time last Monday.

A chimney-sweep with the regulation hat and song was here last Saturday doing business.

E. M. Hoff and Harry E. Ives accompanied Paul Fountain to Red Lake Falls last Saturday.

Ed. Smith the man who sells crayon portraits was here the first of the week looking up business.

Remember; for two weeks only, the large picture will be given away free at Collins' photo gallery.

W. Martineau returned Monday from a business trip to the new town of Solway on the Fosston line.

J. Q. Adams, the jewler and optician will be here again Nov., 10th, 11th and 12th, at Johnson's Drug Store.

The SPECTATOR has on hand a large stock of cards for campaign purposes. Leave your orders for 500 or 1,000.

Corp. G. W. Coogan was up to the upper Falls last Thursday and Friday visiting comrades of the 14th Minn.

By a recent ruling of the department postmasters are to be permitted to go out upon the streets and talk politics.

Mrs. A. R. Jones and children arrived from Crookston yesterday and will again make St. Hilaire their future home.

Girls and boys keep your eyes pealed for Santa Claus this year he will have his head quarters at the new Drug Store.

It seems nice now that everybody keep the same time. Disputing the right time is now at an end—since Monday.

Candidates Norland, Jeffers, Zeh, Mullarky, Boughton, Brink and Ives were present at the Fountain meeting last Friday evening.

If you are troubled with cold and cough buy a bottle of the Imperial cough syrup and be happy. For sale at the new Drug Store.

The case of State vs. Dalnard for assault which was aired out in Justice court last Friday was concluded in the aquitted of the accused.

If you want a ladies coat or jacket, also children sizes call at the Great-western Clothing house and get them at the lowest possible prices.

Paul Fontaine the well known Minneapolis orator addressed a good sized audience in the dining room of Hotel Markham last Friday evening.

Let it not be forgotten that in order to vote, a voter must be registered. Registration day in Red Lake county will be on Tuesday November 1st. Remember the date and register.

Mr. Olson of Shelly Minn. came up last Saturday and will make St. Hilaire his home for the winter. He has located on Wall Street.

The A. O. U. W. Lodge will give a ball and supper Saturday evening at the Hotel St. Hilaire. All are cordially invited. Tickets including supper will be $100.

The Imperial Drug Co., has a fine line of clocks that must be closed out by Nov. 15th to make room for a new line of holiday goods. Every clock guaranteed.

—Familiatize yourselves to with the winning ticket that you will vote on the 8th day of November. You will find it on the second page of the SPECTATOR.

The crop of English sparrows has been A No. 1 in this part of the country this season. Kill them off as they are a nuisance and do more damage than black birds.

The Greatwestern Clothing house will sell clothing at reduced prices in order to make room for a large stock of dry goods which will arrive about January 1st.

The Crookston Tribune has changed hands once more, Fred L. Flack retiring and Jas. B. McCall will do the engineering act. Again we wish the Tribune success.

The SPECTATOR will take cord wood on subscription—a good way for some to settle their accounts, and others can come around and saw the same and we will give them credit for same.

For pure drugs and medicines go to the new Drug Store. We carry only reliable goods prepared according to U. S. Pharmacopai or by reliable Drug houses and guarante absolutely no substitution.

Up in Kittson the candidates do considerable canvassing through the different papers in the shape of running announcement cards. As high as sixteen of these cards are run in one paper—at five dollars per.

Nothing has been heard of Ole Vaule since the East Grand Forks Curier told the people who this man was through its columns. Has he been beheaded? There are others of that same gang that will meet a like fate.

It looks as though Congressman Johnson of North Dakota has the sinch on that state and will go to Washington the next time as senator. However he is liable to be "bled" at Bismerck the first of the year.

The way the inspectors of the state are grading the wheat this year Minnesota is put in the column "not adapted for raising wheat." Perhaps they would recommend raising dent corn or cotton in this northern latitude.

The Ladies of the Norwegian Sewing Society of St. Hilaire will hold their annual auction in Norwegian church Saturday evening Oct. 29th, commencing at 8:00 o'clock. Supper served immediately after the auction. All are cordially invited.

Winn Powers of the Odd Fellows Review, St. Paul was here last Thursday calling on friends and working for the interest of his publication. Mr. Powers found time to visit St. Hilaire Lodge No. 147 in the evening and was a very welcomed visitor.

Lets see; who in the world was it that made the rank break that the populist never paid their hall rent while the republicans always did? Oh! yes, we know now and its like all the rest of their sayings—all wind and stale at that.

T. H. Shevlin president, and F. P. Hixon, treasurer of the St. Hilaire Lumber Co., were here the first of the week and ever since the mill time has been jogged back thenty minutes which makes it very convenient for those getting up for last call for breakfast.

A nice thing for a man going around —drunk—six days a week and making political speeches in favor of prohibition. He lives in Polk county but did a stroke of business in Roseau county obtaining affidavits at so much per affi and supposed to be payable in gold.

—The Crookston College building is now complete and is modern and up to date. The Institution is one of the best in the northwest. It is cheap, thorough and practical. By writing Malm & Sathre a catalogue containing full information will be sent to any address.

Word reaches us that Crookston is not proud of her few sore heads who are out canvassing the country against Judge Ives. The poor fellows must live, even if their late chosen profession is next to highway robbers. Some would call this dirty work "republican prosperity."

The following gentlemen have remembered the printer and their credit has been advanced in the 1899 column since the past ten days: R. H. Almer, W. S. Morse, J. Konickson, C. Sandmoen, W. Martineau, A. A. Wassen, B. E. Burkee, N. K. Anderson and A. A. Granum.

The Odd Fellows lodge have arranged for a ball and supper at their hall a week from next Thursday which will fall on Oct. 27th, it being the first anniversary of St. Hilaire Lodge No. 147. Good music has been secured and an excellent time is guaranteed. Tickets including supper $1.00.

Two Weeks Only.

For the next two weeks, beginning Friday Oct. 19th, I will give with every dozen cabinet photographs, one 16x20 crayon picture free. D. COLLINS.

To Cure a Cold in One Day.

Take Warner's White Wine of Tar Syrup, the best cough remedy on earth. 25 and 50 cts. For sale by the Imperial Drug Co., St. Hilaire.

1896 Vote—14th Judicial District.

Counties.	Rep.	Pop.
Kittson	753	762
Marshall	1200	1222
Norman	1362	1304
Polk	2855	5054
Roseau	287	527
Total	6477	8869

The 7th Congressional District vote in 1896 stood as follows:

Eddy	26,003
Lommen	23,932
McKinley	24,538
Bryan	25,126
Clough	20,702
Lind	28,624

It is a pleasure to us and a fact too to note that while Hon. John Lind was here last Saturday, prominent republicans as well as democrats and populists greeted the Honorable gentleman cordially and made it a business to introduce him to a great many people. Such acts are commendable and brotherly.

The charges brought against Jno. Lind for shortage in the army commissary department have been officially denied by dispatches from Washington. It was just a campaign lie put in circulation by the Eustis gang. It was sprung too early and was nailed in the nick of time by government authority.

Cards were received yesterday from Elmer H. Stranahan announcing the marriage of himself to Miss Maie Elizabeth Bristol of Fargo. The event will take place at the brides parents at Fargo at seven o'clock Thursday evening Oct. 27th 1898. The SPECTATOR congratulates Mr. and Mrs. E. H. Stranahan in advance.

John Vig, clerk of court of Polk county is drawing a double salary and not attending to the business of his office. Vig is the same man who four years ago refused to pay his campaign assessment but now has plenty of money to spend to defeat Judge Ives. Who is paying Vig to do this dirty work? Ask him this question when he comes around to see you.

Strange; isnt it, when a threshing crew leaves the state of North Dakota they either buy their ticket to Moorhead or East Grand Forks. Wonder what is the reason they single out these two towns. Everybody knows—that the water in the Dakotas is a little strong on the alkali order—which is objectional—but then the Red River which runs by these towns is only a grade or two better.

What a great clash there would be if Congressman Johnson of North Dakota and the man who wrote "What the Farmer Found", got together. The former says he can raise wheat for 32 cents and make a profit while the latter says he cant support himself and a small family raising wheat at 53 cents per bushel. Read what he says in another column. All, you farmers should be a judge on this matter.

The night force at the mill was laid off last Monday for the season and in consequence about one hundred and fifty men are out of a job. The day force will work until Saturday when the large mill with all her machinery will be idle until next spring. Out of 300 people who are employed in the mill it is safe to say 200 will leave in course of ten days for their different homes, the majority residing in Minneapolis.

You will hear people everlastingly kicking and kicking about their wages, but when they have an opportunity to hear a man explain the situation, why they simply turn their backs or stay away. They have not a mind of their own. Quit this everlasting kicking about mills not paying enough "or as much as we used to get five or six years ago." You are satisfied, why not tell the people so. You will even cast your ballot to that effect.

Vol. I, No. 1, of the Red Lake County Courier with Edward T. West as editor is before us. It is a six column quarto with a good display of advertisements cleanly printed and well filled with spicy locals. Success to Bro. West in his new venture. One thing we wish to state in behalf of Mr. West and that is we think him too good a man to associate with the Vig, Gossman and Vaule gang—they are in small business and a stench in the nostrils of a well governed community.

When a political orator is around making a speech you will always find a half dozen or so in the rear of the audience that knows more about the political issue of the day than the speaker addressing the audience ever knew. If the citizens of every town knew how many talented men they had among them they would not need to import any gifted orators. You will find them at all political gatherings but they have not the manhood to get up and even ask a question, let alone discussing it.

For any kind of a musical instrument call at the Holmes Furniture Co.

No Mistake in Electing Him.

Herry Ives, the pioneer editor of the St. Hilaire Spectator, and candidate for State Senator from this district, on the Populist ticket, is thoroughly canvassing his territory in his own interests and has challenged Mr. O. H. Myron for a joint debate on the principal issues of the day. While Mr. Ives is not of our faith politically, we cannot help but believe that he will be a good man for the office. After an acquaintance of a dozen years, both socially and in business, we have found him to be nothing but straight and honorable in every way and as he is from our own county, he could do us a great deal of good and there would be no mistake in electing him.—Thief River Falls Press. (Rep.)

Consumption Cured.

—Warner's White Wine of Tar Syrup, the best cough remedy on earth, cures a cold in one day if taken in time. 25 and 50 cts. For sale by the Imperial Drug Co., St. Hilaire.

WHAT A FARMER FOUND.

He Went to Market and Observed Several Things.

We went to town Saturday with a load of wheat, the prices would make a saint swear. 53c for a bushel of the staff of life, and yet we see in the large republican dailies how the country is booming, and prosperity is with us. If we have no respect for the truth, prosperity is here with a vengeance. That kind of prosperity that puts the farmer deeper in the mud hole of debt and misery. No matter how honest a man desires to be, he cannot support a family and pay his honest debts with wheat at 53c per bushel. With Russia having no wheat to export, but likely forced to import, and no great surplus of wheat in sight in this country, there must be a cause for this low price of wheat. Wheat is about the only staple crop that a farmer is sure to realize cash from, and hence wheat is raised for the farmer to get cash to meet his obligations. Now where have we to look for fallen prices? One great cause is the gold standard. Everything in the line of produce is measured by the value of gold. The scarcer it can be kept, the more produce it takes to purchase a dollar. It is almost impossible for the average farmer to keep his head above water. The wealthy desire the continuation of the present state of affairs. Why? Because the debtor will be sure to have interest to pay the longest day he lives. This is what plutocracy wants, and this is what we have. The grand old party has had ample opportunity to enact laws for the benefit of the farmers and machanics, but do they do it? We answer no. Is this low price of grain a benefit to the merchants? We answer no. We saw a collector around the lake a short time ago with a stack of bills to collect for merchants, but he went back to town without collecting a dollar. Another proof that the merchants should vote the entire reform ticket: The present administration promised to get international bimetalism. Did they do it? We answer no, but distinctly put in its place the gold standard, and have got that standard bound firmly and surely around our necks. It will now take the combined efforts of the American citizens to relieve that yoke of bondage. Money makes the mare go, and the other fellows have it. Another illustration that the mechanics and laborers should vote the reform ticket is very easily set forth in the following example, my own case: If wheat was $1 per bushel we could afford to hire a man this fall and winter, say to the value of $100. This man in turn would have $100 to spend in clothes and such needful things as required. The merchant could get more good and give employment to the factories. There is no use of manufacturing goods if there is no sale, and there can be no sale if the consumer has no money to purchase with. My case is only one in thousands in our own county. Employ a thousand men in this county and there are none idle. The same is applicable all over the United States. The scarcity of money and low prices of produce causes thousands to want for the necessaries of life. Vote the reform ticket and find employment, or the G. O. P. and get starvation wages and starvation prices. Which do you say, fellow citizens? Strike while the iron is hot. We know a hard working man who bought a piece of wild land six years ago for $700. He is neither a drinker nor a loafer, but attends strictly to his business. The interest paid is 8 per cent or $56 a year. He has now paid $336 interest but not one dollar on the principal. He has paid nearly half of the upset price, yet the debt remains the same and will eternally remain so with the present price of produce. Are we doing our duty to let this state of affairs continue? Are we doing justice to our families, to our country and to the rising generation, to slumber in the same old rut? Pledges have been broken, promises ignored, and why should we as free American citizens not make one bold effort to gain our rights and justice? Have the farmers prosperous, and the nation at large is prosperous and happy; have the farmers poor, and the nation is sunk in poverty misery and squalor. The United States is one of the grandest nations in the world, but its laws are for the benefit of the rich and not the poor. As Vanderbilt said, "The people by damned." Think, gentle readers, voters, heads of families, that this vast country's wealth is owned by fewer people than there are in Otter Tail county. The money of between seventy and eighty million people owned and controlled by a handful of speculators and governmental robbers and we voters fold our hands and allow them the privilege of continuing to rob us with impunity. Who produces this wealth? The banker? No. The politician? No. Those kid gloved gentry? No. As the poet Burns said about them when they went to college:

> "They go in steers and come out asses."

The producers of wealth are the farmers, laborers and mechanics. But who gets that wealth? Not the producer but the non-producer. By the aid of class legislation, he puts the wealth in his own pockets. Is it not time that laws were enacted for the benefit of the producer? If it is then vote for reform. Do not stand idly by and expect anything better than you have. In fact it is as good as you should get, when you put forth no effort to help yourselves. W

HAPPY MOTHERS AND HEALTHY CHILDREN.

Lydia E. Pinkham's Vegetable Compound Goes Straight to the Cause of All Female Troubles and Assures a Healthy Maternity.

Mrs. M. SINGER, 104 Hu[illegible]n Ave., Rochester, N. Y., writes to Mrs. Pinkham as follows:

"When I applied to you for advice I had been suffering some years from debility, nervousness, etc. I had had several miscarriages and was pregnant when I wrote to you.

"I am grateful to say that after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was considerably better, and after using three more it brought me where I am to-day. I am well, and the mother of a three-months' old baby.

"Doctors had failed to help me. I have no one to thank but Mrs. Pinkham and her wonderful remedy."

Mrs. ELLA DUNCAN, Reeder's Mills, Iowa, writes:

"DEAR MRS. PINKHAM:—I thank you for what your medicine and advice have done for me.

"I have a baby two months old. When he was born I was sick only fifteen minutes, whereas with my other children I was sick for two or three days, and also suffered with my left leg, and could get nothing to relieve the pain but morphine. My leg did not trouble me at all this time. I had no after pains and was not as weak as I had been before.

"I cannot praise Lydia E. Pinkham's Vegetable Compound too highly. May God bless you in your noble work."

Mrs. J. W. PRUETT, Medford, Oregon, says:

"My health, also the baby's, we owe to Lydia E. Pinkham's Vegetable Compound."

Mrs. JOHN W. LONG, Wyoming, Iowa, writes:

"I had shooting pains all over my body, was very weak and nervous. I could not straighten up. I wished to become a mother but was afraid I never could. Seventeen months ago I got some of your Vegetable Compound, and after taking half a bottle was much relieved. I took four bottles and was cured. Now I have a big baby boy which I feel I owe to your Compound. Many thanks for your kind advice."

A Million Women Have Been Benefited by Mrs. Pinkham's Advice and Medicine

Disliked the Word.

"H'm!" said the policeman. "I guess we'll have to investigate this."

"No, sir," exclaimed the cynical citizen, whose house had been broken into. "What I want is for you to jump in and find out in a hurry who did it."—Washington Star.

PIMPLES

"My wife had pimples on her face, but she has been taking CASCARETS and they have all disappeared. I had been troubled with constipation for some time, but after taking the first Cascaret I have had no trouble with this ailment. We cannot speak too highly of Cascarets." Lots of It.

"Is there any movement in Botcher's new play?"

"Movement? You ought to have seen the author move off the stage when the audience yelled for him after the first act."—Philadelphia North American.

The Receivers of the Baltimore & Ohio Railroad have adopted plans and they are about ready to let the contract for a new $100,000 inbound freight station in Baltimore. The new building will be 600 feet long, 42 feet wide and 6 stories high. It will occupy the site of the present inbound station, which is on Eutaw street, between Camden and Barre streets. The new building will have a cold-storage plant in the basement, and the upper floors will be used as a storage warehouse, and all freight will be loaded and unloaded from wagons under cover. The tracks will be so arranged that 75 cars can be unloaded at one time.

"AGNES' HISTORY.

She was born in the prison ward of the big hospital.

Her mother, a slender, dark-eyed girl of barely 20, had been arrested for fortune telling only two weeks before, and now lay sad and silent, unheeding of the doctors, the nurses, or even the chubby bunch that kicked and cried beside her.

She did not seem to remember about the baby. Even when they held it up before her she did not realize that it belonged to her, and that if her life ended another weaker one would be left to fight and face the world alone.

And so that night she died. The doctors knew they could not save her, because she did not care to live.

"How beautiful she must have been," the night nurse whispered. "Do you know anything about her?"

The doctor shook his head. "No," he answered, "nothing beyond the fact that she told fortunes to save herself from death, and so brought on this last misfortune, which made her wish to die. When I asked her if she had no home, and where the baby's father was, she just began to cry. You see," and he took the limp, white hand between his own, "she wears no ring."

"No," the nurse said, quickly, "but she has it here," and she drew out a little cord that lay about the slender neck, and on it hung a plain gold wedding ring.

In the morning the question arose, "What shall we do with her?" As usual thing the babies whose mothers deserted them in this fashion were packed off to the foundling asylum, but doctors as well as nurses had fallen in love with her.

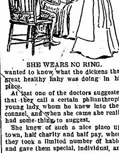
At last it was decided, and with the warden's consent she was carried off to a ward where not a shadow of the hateful prison bars was left upon that small, bright face. But there arose the necessity of a name, and a little conclave was held around her bed one morning.

It was easy enough to decide upon the first name—it should be Agnes, after the nurse who had known and loved her first down in the prison ward, and so, with the aid of the chaplain, she was christened, but when they came to decide the second name that was not so easy, for some wished her to keep the name her mother used, but others, knowing it was false, rebelled, and so they let the question rest, and she was only "Agnes."

And, though she ruled them all, yet what a good baby she was, and how bright and pretty, with dimples in her cheeks and on her toes and fingers, and great creasy bracelets round her chubby arms and legs.

So things went on and every one was happy, when suddenly it dawned upon the older ones that this could not go on forever.

One of her own special doctors finished his term and went away, and then one of her nurses went, and the others began to see that in time they all would go, and that the hospital authorities were not in the habit of bringing up orphan babies in their wards, a fact which was emphasized one day when the warden, who had forgotten all about her, stumbled over her when she came creeping up to him, and wanted to know, what the dickens that great healthy baby was doing in his place.



SHE WEARS NO RING.

At last one of the doctors suggested that they call a certain philanthropic young lady whom he knew into their counsel, and when she came she really had something to suggest.

She knew of such a nice place uptown, half charity and half pay, where they took a limited number of babies and gave them special, individual, and wonderful care.

There was a vacancy there at present, and for a small monthly payment she could get Agnes in—the question was, could it be done?

So Agnes moved away from her first home, and to the disgust of her assorted parents, seemed to rather enjoy the change, and began to grow fatter than ever.

At the hospital all had been well. It was not hard to steal one unwelcome baby from among so many, and none of the authorities ever knew—that is, for a good while.

But one morning something happened. A carriage drove into the great court, a queer, dark man jumped out, asked for the warden, and was closeted with him for an hour.

Next there was a great running among the clerks, and turning over of records—a few blasts from the warden, and protests from his assistants, and then at last a certain house physician was sent for in post haste.

And then, swiftly, clearly, sadly, he was told the story of that dark-eyed girl who had died there so many months before, leaving behind her no name or history—only a little, helpless child.

The swarthy stranger told it—his own dark eyes burning first with anger and then with tears.

He had known the poor young mother years ago in—well, in another country—and he had loved her, too.

She had meant to marry him, until one day a stranger came, who had won her quite away from his old rival. The stranger had said that he was rich—very rich, indeed—and the girl's mother had believed him, and the girl—she did not care whether he was rich or poor—only that he loved her.

And so at last a priest came, and the two were married, and went away together to America, and the other lover staid at home and worked, and grieved, and waited.

One day there came a letter, telling on its blotted, blistered pages that pitiful story of a mock marriage, cruelty, neglect, and then, at last, desertion—desertion not only of her, but of an unborn child.

He was a wealthy man—he had prospered more than ever lately—and he said that he would go and find her and bring her back with him.

For weeks he had hunted the great city in vain, and then had found this clew. The girl was dead, but there was yet the child.

He must see the baby now. What was the address?

Then at last the doctor spoke, but his voice was strained and hard as he said: "We put her there so she should have more love and care, and we all go to see her often. We have loved her much. If you wish to see her you must come there with me now, for I—I," and his voice sank so low that they could hardly hear him—"I am going to her funeral. She died two days ago."—Ex.

SNAKES IN PACIFIC ISLANDS.

Hawaii, Samoa and New Zealand Entirely Free from Reptiles.

For the most part the Pacific islands are destitute of snakes. That is absolutely the case in Hawaii. In New Zealand, equally free of these reptiles, the only knowledge which the Maoris had of snakes may be found in a legend of a monster called the taniwha, concerning which the authorities differ as to whether it is the ancestral and dim recollection of a snake or of an alligator. All the eastern islands of Polynesia between these two outposts are snakeless. Westward from Hawaii, down among the Gilberts and the Marshalls and the Carolines, the square-bodied water snake begins to make its appearance in the lagoons and harbors. By the time the Philippines are reached the water snake becomes both common and deadly and the jungle of those islands are abundantly supplied with snakes. From the Philippines as one follows down the chains of islands snakes are found both abundant and venomous. In the wild lands of the western Pacific the reptiles are frequently objects of worship, and in some legends are credited with the creation of the world. Samoa seems to lie just on the boundary line of snakes in the Pacific. In the eastern islands of the archipelago no snakes are to be found; in Upolu a few are seen at rare intervals. In Savaii only a few miles to the westward they are common and attain great size, in the case of some kind at least. None of them is venomous and the islanders neither fear them nor exhibit any of that repugnance to their presence which is commonly called instinctive. This indifference to the reptiles is made most markedly manifest at the hamlet of Iva on the northeast coast of Savaii. Here are to be found small snakes of the most brilliant red color. They are so common that a basketful may be easily picked up in any banana patch. The dancing girls of this town are in the habit of employing these gaudy snakes for personal adornment in their dances. They tie them about their necks, their ankles, and their wrists, festoon them in their headdresses, and tuck a few extra ones in their belt in readiness to replace such as escape in the dance. At their best these sivas danced by the Samoans are either dull or revolting shows of savagery. It can be easily imagined that they are made no more attractive when the taupou or village maid and her crew of attendant girls go careering about with an assortment of writhing red snakes. Still the Samoans, who have no stock of snake prejudices, look upon this as one of the most successful and artistic dances in their islands.

WHY HIS SHOES HURT.

Jabbit Discounts His Friends' Stories About Footwear.

They were seated in the back room, and after exhausting all exciting topics of the day the conversation turned on the subject of shoes. One man held that there was no sense in paying fancy prices; it was better to get cheap shoes and buy them oftener. Another claimed that he found it more economical to pay Waxend $12 a pair for his, as they outlasted three cheap pairs and looked better all the time. A third raised his foot to the level of the table and said: "There is a pair I bought eighteen months ago for $5. I have worn them all the time and they have never needed repairs and never hurt my feet for a minute." Then Jabbit broke in. He was on the third day of a spree and he pointed a wabbly finger at his feet and said: "That's funny. There's a pair I have had on only two days and nights and they hurt my feet already."

Bees Used as Missiles in War.

There are two recorded instances in which bees have been used as missiles in war. The first occasion was at the siege of Themiscyra, when the Roman general Lucullus was warring against Mithridates. The Romans built mounds and mines, and the people of Themiscyra opened these mines by digging into them, and hurled hives of bees, as well as wild animals, through the holes onto the Roman workmen. Bees were once used in England with equal success. Chester was besieged by the Danes and Norwegians. The town was defended by the Saxons with Gaelic auxiliaries, and they repulsed the Danes, but the Norwegians, who protected themselves by means of hurdles, tried to break through the walls into the town. Then the Saxons collected all the beer and water and boiled them together. This mixture they poured upon the Norwegians, who were under the hurdles. The Norwegians, however, covered the hurdles with hides to prevent being scalded. The Saxons' next move was to get all the beehives in the town and throw them down upon the Norwegian army. The enraged bees stung the men in the hands and legs, and the swelling which resulted prevented them from moving. In the end the Danes and Norwegians retired, and left the Saxons in peace.

A Prediction Eighty Years Old.

The poet Keats wrote to his brother George in Kentucky in 1818 as follows: "Russia may spread her conquest even to China; I think it a very likely thing that China itself may fall. Turkey certainly will. Meanwhile European north Russia will hold its horns against the rest of Europe, intriguing constantly with France."

THE MAJOR'S EXPERIENCE.

From the Detroit Free Press.

One of the staunchest supporters of the deep-water way, from the Great Lakes to the ocean is Major A. C. Bishop, of 715 Third Ave., Detroit, a civil-engineer of wide experience and considerable prominence in his profession. He was assistant engineer on the Hudson River Railroad in 1850 and has since conducted large engineering operations. He has been located in Detroit since 1815, and has a large acquaintance among the business men and citizens of this city.

Two years ago, for the first time, Major Bishop was in the hospital. For two months he had the best of medical attendance but when he was discharged he was not like the Major Bishop of old. When asked regarding his health, he said: "When I had my last spell of sickness and came out of the hospital I was a sorry sight, I could not gain my strength, and could not walk over a block for several weeks.

Major Bishop.

"I noticed some articles in the newspapers regarding Dr. Williams' Pink Pills for Pale People, which convinced me that they were worth trying and bought two boxes. I did not take them for my complexion but for strength. After using them I felt better, and know they did me worlds of good. I am pleased to recommend them to invalids who need a tonic to build up a shattered constitution.

"A. C. BISHOP."

Subscribed and sworn to before me this eighth day of January, 1898.

ROBERT E. HULL, JR., *Notary Public.*

The pure, powerful vegetable ingredients in Dr. Williams' Pink Pills for Pale People supply the antidote for poisonous matter in the blood and add those elements needed to build up body and brains. Many diseases long supposed by the medical profession to be incurable have succumbed to the potent influence of these pills. They can be taken by young or old, being harmless in their nature, yet powerful in eliminating disease.

Base Ingratitude.

"Some men are ungrateful wretches."

"Why?"

"When I was passing old Rockingham's packing house the other night, I saw that it was on fire, so I broke into the office, called him up by telephone, and told him about it."

"Well?"

"Well, he called me all kinds of hard names for not ringing in a fire alarm instead of wasting time talking to him."—Chicago News.

Just the Game for Him.

"I'm surprised to hear you're so enthusiastic over golf, Slighter. Do you play?"

"Not in a thousand years. Wouldn't know a link from a balloon. But my wife is so completely taken up with the game that she has quit trying to run me."—Detroit Free Press.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

What It Was.

"Just listen how they are pounding that floor with their feet," said the tragedian behind the curtain.

"Yes," said the leading ingenue, "that is the stamp of public approval."—Cincinnati Enquirer.

Hard to Please.

"Sometimes," said Uncle Eben, "it do seem dat de man who does de mos' talkin' 'bout hard times is de one dat couldn't be contented wif nuffin' but a soft snap."—Washington Star.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets Candy Cathartic cleans your blood and keeps it clean by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads and that sickly, bilious complexion by taking Cascarets—beauty for 10 cents. All druggists. Satisfaction guaranteed. 10c, 25c, 50c.

Among the earlier settlers we can always make a place for the breakfast coffee.

My doctor said I would die, but Piso's Cure for Consumption cured me—Amos Kelner, Cherry Valley, Ills., Nov. 23, '95.

You couldn't detect an ulcerated tooth if it wasn't so cheeky on the outside.

The world is on a big scale, but that doesn't determine the weight of the world.

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

The average woman will acknowledge that it makes her sick to look well.

He Wasn't Worth Much.

Smith—Brown isn't working very much this summer, is he?

Jones—Why, he told me the other day that he had been working for all he was worth.

Smith—Well, it amounts to the same thing.—Chicago News.

Our Treatment of Spanish Captives.

Never before in history was there a case where a defeated and captive enemy received such generous treatment as we gave the Spaniards. Equally astonishing are the cures brought about by Hostetter's Stomach Bitters. Never has there been so successful a medicine for stomach and liver disorders like dyspepsia, indigestion, biliousness and constipation.

A bank doesn't seem to get disfigured, for all there are so many people drawing on it.

No-To-Bac for Fifty Cents.

Guaranteed tobacco habit cure, makes weak men strong, blood pure. 50c, $1. All druggists.

"If you shine up to me," said the sofa to the polished table, "I can see your finish."

DEAR EDITOR.—If you know of a solicitor or canvasser in your city or elsewhere, especially a man who has solicited for subscriptions, insurance, nursery stock, books or tailoring, or a man who can sell goods, you will confer a favor by telling him to correspond with us; or if you will insert this notice in your paper and such parties will cut this notice out and mail to us we may be able to furnish them a good position in their own and adjoining counties. AMERICAN WOOLEN MILLS CO., Chicago.

It is safer to call a woman an old friend than it is to call a friend an old woman.

Mother's Love

Cannot cure Croup, nor Diptheria, nor indeed any of the numerous throat troubles. We know how to cure all of them, and it costs nothing to get our book. Write for it. Muco-Solvent Company, Chicago, Ill.

The first woman's page was not in a newspaper, but in the court of an ancient queen.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. The genuine has L. B. Q. on each tablet.

"I'll make it warm for them," said the bouncer. "You see, I work for the fire department."

"Oh, Mr. Porter!"

One hot summer's day a gentleman who was waiting for his train at one of our country stations, asked a porter who was lying on one of the seats, where the station master lived, and the porter lazily pointed to the house with his foot.

The gentleman, very much struck by the man's laziness, said:

"If you can show me a lazier action than that, my good man, I'll give you two-and-sixpence."

The porter, not moving an inch, replied:

"Put it in my pocket, guv'nor."—Answers.

"Why does Miss Johnson always wear black?"

"She is in mourning for her husband."

"But she never had one."

"It's on account of one she didn't have that she's mourning."—New York World.

Educate Your Bowels With Cascarets.

Candy Cathartic cure constipation forever, 10c, 25c. If C. C. C. fail, druggists refund money.

Whoever saw a cow with corns; and yet who hasn't seen corned beef?

It Hangs On

If it was only health, we might let it cling.

But it is a cough. One cold no sooner passes off before another comes. But it's the same old cough all the time.

And it's the same old story, too. There is first the cold, then the cough, then pneumonia or consumption with the long sickness, and life trembling in the balance.

Ayer's Cherry Pectoral

loosens the grasp of your cough. The congestion of the throat and lungs is removed; all inflammation is subdued; the parts are put perfectly at rest and the cough drops away. It has no diseased tissues on which to hang.

Dr. Ayer's Cherry Pectoral Plaster

draws out inflammation of the lungs.

Advice Free.
